STATE CLEARINGHOUSE

NEWSLETTER

March 16-31, 2005

STATE CLEARINGHOUSE NEWSLETTER

The State Clearinghouse distributes draft environmental documents to state agencies for review and comment, pursuant to the California Environmental Quality Act (CEQA). The State Clearinghouse also acts as the State Single Point of Contact for the review of federal grant applications and federal development projects. This Newsletter summarizes the environmental documents and federal grant applications received by the Clearinghouse during the period **March 16-31, 2005**.

CLEARINGHOUSE CONTACTS

Please contact The State Clearinghouse if you have any questions regarding processing of environmental documents or grant applications. We may be reached at:

Telephone: (916) 445-0613
Fax: (916) 323-3018
e-mail: state.clearinghouse@opr.ca.gov
website: www.opr.ca.gov/clearinghouse/clearinghouse.shtml

Questions regarding federal grant notices should be directed to **Sheila Brown**.

Questions regarding processing of environmental documents should be directed to:

Scott Morgan
Associate Planner

CLEARINGHOUSE MAILING ADDRESS

Please do not use our street address (1400 Tenth Street, Room 212) for mailing purposes. The correct mailing address is:

STATE CLEARINGHOUSE
P.O. BOX 3044
SACRAMENTO, CA 95812-3044

INFORMATION AVAILABLE ON-LINE

The 2001 CEQA Guidelines are available from the Resources Agency's website at <http://ceres.ca.gov/ceqa/>.

The State Clearinghouse Handbook, which contains all of our environmental document and grant processing procedures and forms, is available on our website.

MEMORANDUM

Governor's Office of Planning and Research State Clearinghouse

Date: December 5, 2003

To: All CEQA Lead Agencies

From: Terry Roberts, Director, State Clearinghouse

Re: Submission of Electronic CEQA Documents to State Clearinghouse

In order to take advantage of the cost and time savings associated with electronic documents, the State Clearinghouse will accept electronic documents under the following conditions:

1. Electronic documents shall be on CD, and the file format shall be either Adobe PDF or Microsoft Word.
2. For EIRs, each CD must be accompanied by a printed copy of the Executive Summary. This allows the State Clearinghouse and the reviewing agencies to efficiently route the document to the proper persons.
3. Negative Declarations and Mitigated Negative Declarations will not be accepted on CD. However, any separately bound technical appendices to the document may be submitted on CD.
4. For certain projects, particularly large infrastructure projects such as airport expansions, the State Clearinghouse may request a certain number of hard copies. In addition, the lead agency shall honor a special request from a responsible or trustee agency which requires a hardcopy for purposes of review and comment.
5. This policy does not invalidate CEQA Guideline §15205, which requires a public agency submitting printed documents to the State Clearinghouse to send, in addition, an electronic copy of the document, *if available*.

If you have any questions regarding the submission and circulation of environmental documents, please contact the State Clearinghouse at (916) 445-0613 or state.clearinghouse@opr.ca.gov.

<u>Documents Received on Wednesday, March 16, 2005</u>			
2005031081	Conditional Use Permit Application No. C-05-029 Fresno, City of Fresno--Fresno Conditional Use Permit Application No. C-05-029 requests authorization to operate an outdoor recycling center to receive, sort, and bale paper materials; process glass, aluminum cans, PET plastic bottles, miscellaneous plastic (all grades), and wood pellets; and remove the stored materials within 48 hours of acceptance and unloading.	CON	03/24/2005
2004031063	Lancaster Capital LLC Tract No. 53229 Lancaster, City of Lancaster--Los Angeles The project would consist of 1,594 residential lots, a 28.05 acre park site with active and passive uses, and dedication of a 13.39-acre elementary school site. In addition, the project proposes two secondary arterial streets and several interior roadways and cul-de-sacs. The project also proposes landscape easements along various roadways for landscap and trail purposes.	EIR	04/29/2005
2004091126	Rio de Los Angeles State Park Preliminary General Plan and Draft EIR Parks and Recreation, Department of Los Angeles, City of--Los Angeles The Draft General Plan has been prepared to guide future development activities and management objectives of the 37-acre Rio de Los Angeles State Park. The parking site is located on two separate parcels adjacent to the Los Angeles River, referred to as Parcel D (20 acres) and Parcel G-1 (17 acres). The General Plan does not cover the remaining 20 acres on Parcel D that have been leased to the City of Los Angeles to develop and manage active recreational facilities. The General Plan proposes a variety of traditional passive park uses such as habitat restoration, multi-purpose trails, special event areas, nature center, gardens, picnic areas, and other compatible uses. Interpretive and educational facilities would focus on the site's natural history and the nearby Los Angeles River.	EIR	04/29/2005
2005032073	Pt. Molate Resort and Casino Project Richmond, City of Richmond--Contra Costa Development of a Tribal gaming facility, entertainment, and retail structures on Tribal Trust Land.	NOP	04/14/2005
2004102093	2004-118 Conditional Use Permit for AT&T Wireless Calaveras County Planning Department --Calaveras Conditional Use Permit to construct a wireless telecommunications facility consisting of sector antenna panels on top of an 80 foot slimline monopole, and equipment cabinets within a 40' x 40' leased enclosure on a 10.8 +/- acre parcel. 2005031083	Major Highway to Local street. Weaber Lot Line, Adjustment; SUB2003-00305; ED04-246 San Luis Obispo County Atascadero--San Luis Obispo Proposal by Stan Weaber for a Lot Line Adjustment to adjust the lot lines between 4 parcels of 12.47, 6.70, 3.00, and 1.89 acres each. The adjustment will result in 4 parcels of 12.20, 4.47, 4.12, and 3.27 acres each. The project will not result in the creation of any additional parcels. The project also consists of the abandonment of a portion of San Miguel Road.	Neg	04/14/2005
2005031084	Local Shopping Center Zone and Rezones Carlsbad, City of Carlsbad--San Diego A proposed Zone Code Amendment (ZCA 00-07) and one Local Coastal Program Amendment (LCPA 00-15) would create a new Local Shopping Center (C-L) zone within both the City of Carlsbad Zoning Ordinance and Local Coastal Program. In addition, a Zone Change (ZC 04-13) and the other Local Coastal Program Amendment (LCPA 04-16) would apply this new zone to properties located at 11 existing and future sites for local shopping centers located throughout the city (48 parcels). Further, a General Plan Amendment (GPA 04-18) would apply the Local Shopping Center (L) land use designation to two of the properties proposed for the re-zoning. Finally, the text and exhibits of both the Bressi Ranch Master Plan (MP 178(C)) and La Costa Master Plan (MP 149 (T)) are proposed for amendment to incorporate and reference the new zone as an underlying zone for purposes of land use regulation in these master plans.	Neg	04/14/2005
2005031085	Conditional Use Permit CUP-05-023 Victorville, City of Victorville--San Bernardino CUP-05-023 - To allow for the development of a ten acre neighborhood public park.	Neg	04/14/2005
2005031086	Casa Imperial Family Apartments Holtville, City of Holtville--Imperial The proposed project consists of an 81-unit, affordable, two story, multi-family, multi-building complex. It will result in a density of 16.36 dwelling units per acre with a projected population of 365 persons at full build-out.	Neg	04/14/2005
2005032074	Brockway Road Sewer Pipeline Extension 2005 Truckee Sanitary District Truckee--Nevada The project will extend gravity sewer to three commercial parcels, two of which are currently served by septic tanks and leach fields, and one that is served by a private wastewater pump system. The District has received requests from the property owners desiring that gravity sewer service be provided.	Neg	04/14/2005
2005032075	South Lagoon Levee Repair Project Bel Marin Keys Community Services District Novato--Marin The project proposes to restore 1,325 feet of the eroded sections of the levee and then place armor stone to absorb wave action and protect the slop from future erosion. The replacement of fill in the eroded areas is necessary in order to re-establish the full cross-section of the levee and thus reduce the amount of water seepage and the potential for levee failure. 1994032022	<p>CSU FRESNO - MASTER PLAN REVISION California State University Trustees FRESNO--FRESNO</p> <p>This project will renovate the existing four-story (91,000 gsf) portion of the library. This combined space will accommodate the master plan enrollment of 25,000 fte. The addition will consist of a four-story structure above grade with a one-story basement. The exterior skin will be comprised of pre-cast concrete over a structural steel frame system. The new and existing structures will be connected on the first floor by an existing atrium walkway and on the second floor by a bridge. The project will incorporate several sustainable features, including building orientation, extensive use of recycled materials, the use of day-lighting with an emphasis on natural light from the north, a focused effort to use and specify local building materials and water conservation technologies. The majority of the library collection will be housed in the basement utilizing high density compact shelving, freeing up the upper floors for open stacks, reader stations, technical and public areas, and media storage. The addition will also provide space for circulation, government documents, reference and map libraries, periodicals, information competency centers, collaborative learning areas, juvenile curricula, and the music library. Additionally it will include administrative space to alleviate the campus space shortage. The renovated facility will accommodate the non-reference functions of the library administration and the special collections so that it may be shut down during later operating hours.</p>	NOD

2005011075	Construction of Verdugo Lane between Brimhall Road and Shellabarger Road Kern County Bakersfield--Kern The Kern County Roads Department proposes to construct a two-lane paved roadway, approximately 1,300 feet in length. Each lane would be a minimum of 12 feet wide, with a combination paved and dirt shoulders on both sides of the roadway. Existing utilities, which would conflict with the project design, would be relocated. An existing, out of service, irrigation line and check system would be removed and disposed of. All trees within the existing right-of-way would be removed. Two small structures (a small building and horse walker) would be relocated. Various fences and gates would be removed. Four double chain link gates, one rolling chain link gate, two wooden gates, and chain link and wooden fences would be constructed. An out of service water well would be properly destroying under permit with the Kern County Environmental Health Services Department. Construction of that portion of the project lying within Brimhall Road would be coordinated with the City of Bakersfield.	NOD	
2005012054	Napa River Parkway Master Plan Napa, City of Napa--Napa The City of Napa has prepared a program level planning document for the purpose of implementing various General Plan policies related to enhancement of recreational, open space and trail opportunities along the Napa River. The Napa River Parkway Master Plan recognizes the opportunities resulting from the construction of the Napa River Flood Protection project (currently under Construction by the Corps of Engineers) and provides refined program level recommendations for conceptual facility locations and components. Due to the program level of the recommendations in the document; it would be speculative to undertake detailed impact analysis of any of the components of the Master Plan; future development of facilities shown conceptually in the Master Plan will be subject to project level CEQA review prior to implementation. 2005038196	<p>Sac 50 Deck Rehabilitation Caltrans #3 Sacramento--Sacramento</p> <p>The project purpose is to rehabilitate the bridge decks and replace the joints in the freeway segments to maintain and preserve the highway surface. Actions include grinding the striping areas, cleaning and filling of Portland concrete cement (PCC) cracks in the pavement, and chipping out old joints and installing new ones. The current decks are worn resulting in cracks and the deck joints are failing. This results in decreased performance of highway surface. All debris resulting from the project shall be disposed of in accordance with all state, federal, and local laws, rules and regulations. Temporary traffic control and lane closures will be necessary. Existing maintenance access shall be used for equipment and staging. Other work will occur from the roadway. No vegetation shall be removed and the existing topography shall not be altered.</p> <p>This project will benefit the people of California by maintaining the integrity of this Caltrans facility and reduce the need for future repairs. Additionally, the project repairs will protect the health and safety of the people of California and the visitors to the State.</p>	NOE

2005031094	West Marquita Storm Drain Improvement Project San Clemente, City of San Clemente--Orange The project is to replace a deficient portion of the existing storm drain at 221-225 West Marquita with an approximately 85 feet of 18 to 24-inch diameter High Density Polyethylene pipe. The existing storm drain connects to the catch basin and inlet within the right-of-way of West Marquita and extends through the residential lots at 221 and 225 West Marquita. It descends into Marquita, connecting to and terminating at the County of Orange underground Marquita Storm Channel at the bottom of Marquita Canyon. The replacement storm drain will join the existing pipe at the top of the Marquita Canyon slope and terminate at the said County of Orange facility at the bottom of Marquita Canyon. The catch basin connected to this section of storm drain and within the right-of-way of West Marquita may be replaced as part of this project.	Neg	04/18/2005
2005031095	Vesting Tentative Tract 6444 and Zone Change 04-1572 Bakersfield, City of Bakersfield--Kern A proposed tentative subdivision containing 751 lots for purposes of single-family development limited to senior residents, and one lot for a private community facility (lodge), on 183.84 acres currently zoned R-1 (One Family Dwelling) and proposed to be rezoned to PCD (Planned Commercial Development) as described below, including a request for alternate lot and private street design.	Neg	04/18/2005
2005031096	General Jim Moore Boulevard and Eucalyptus Road Improvement Project Fort Ord Reuse Authority Seaside, Del Rey Oaks--Monterey This EA/IS has been prepared to assess the environmental impacts associated with the widening and associated improvements of approximately 21,900 linear feet of improved roadways, intersections, sidewalks, bicycle paths/lanes, water and recycled water transmission lines, wastewater gravity and force main pipelines, gas lines, electric lines, cable television and communication facilities, and street lighting along General Jim Moore Blvd. and Eucalyptus Road on the former Fort Ord. The proposed action will occur on General Jim Moore Blvd. from approx. 1,300 feet north of the Eucalyptus Road / Coe Avenue intersection to 700 feet north of State Hwy. 218 for a total of approx. 12,800 linear feet. General Jim Moore Blvd. would be realigned from its current location to an alignment east of the existing Pacific Gas and Electric Company easement. Realignment would be from a point approx. 900 feet south of the Eucalyptus Road / Coe Avenue intersection to 1,900 feet north of State Hwy. 218 for a total realignment length of 9,400 linear feet. The proposed action also includes improving Eucalyptus Road along its current alignment starting at the intersection with General Jim Moore Blvd. and continuing for approx. 9,100 linear feet.	Neg	04/18/2005

	units and approximately 283,500 sf of commercial development, a 10-acre park and a 12-acre elementary school site).		
2005031099	McMullen Flat Production Well Project High Valleys Water District --Riverside The District provides water to residents of McMullen Flat and Twin Pines located in a small valley on the northwestern edge of the San Jacinto Mountains. The District obtains most of its water supply from a water pipeline that extends from Banning to McMullen Flat along SH243. The proposed production well project is located in McMullen Flat within the service area which provides water service to residents of the McMullen Flat and Twin Pines rural communities. This well is being constructed for the District to provide municipal water supply. The proposed project is the drilling of the new production well and equipping it to produce potable water for the District. The production well location was selected based upon water.	Neg	04/18/2005
2005031101	GPAs and Reclasses Associated with Annexation of County Islands 4-AN-6, 4-AN-7, 4-AN-8 into the City of Anaheim Anaheim, City of Anaheim, Garden Grove, Stanton--Orange City-initiated request to set forth City of Anaheim General Plan land use designations and zone classifications for properties located within unincorporated County Islands 4-AN-6, 4-AN-7, and 4-AN-8 in the City of Anaheim's sphere-of-influence (an "Island" is a pocket of land that is surrounded by, but not within, any city's boundaries). This request is associated with a proposed annexation of the County Islands to the City of Anaheim, in compliance with Local Agency Formation Commission (LAFCO) annexation procedures. The intent of the proposed request is to designate the subject properties for City of Anaheim land use and zoning designations that are compatible with the types of existing land uses in the area. No development projects are proposed in connection with the processing of the proposed General Plan Amendments and Reclassifications.	Neg	04/18/2005
2005031102	PM061612/RENV200400090 18101 Coastline Drive, Malibu, CA Los Angeles County Department of Regional Planning Malibu--Los Angeles The proposed project is an application for a Tentative Parcel Map to subdivide and convert an existing, two-level single-family building into a condominium duplex with separate entrances. Each level of the single-family building will be a separate unit. The project site is one lot of a previously approved Parcel Map 25585 for the subdivision of the subject lot and an adjacent lot to the north. Proposed project activities include extending the concrete stairs on the eastern end of the subject lot down to Coastline Drive. There is a 12" concrete retaining wall fronting the existing building and a set of steps providing access to a private driveway to the north. A parking permit is required for insufficient parking of the project site. Two spaces of the three-car garage are allocated for the upper-level unit and one for the lower-level unit.	Neg	04/18/2005

2005032088	Parking Lot 57 University of California, Davis Davis--Yolo UC Davis proposes to develop approximately three and one-half acres within the Health Sciences District (HSD) for the Parking Lot 57 Project, which would include the construction and operation of a new, approximately 270-space surface parking lot northwest of the intersection of West Health Sciences Drive and Garrod Drive. The proposed project would help implement Mitigation Measure 4.14-3(b) from the 2003 Long Range Development Plan (2003 LRDP) EIR, which requires UC Davis to monitor parking demand and to provide additional parking if the winter parking utilization rate is expected to exceed 90 percent. The project would provide additional parking in the HSD to meet expected demand generated by several new buildings that have recently been constructed or are under construction and will open within the next two years. The need for additional parking also results from the loss of some existing parking to construct new facilities in the HSD.	Neg	04/18/2005

	Center and two smaller satellite facilities, containing approx. 60 beds each, are proposed.		
2005031113	Old River Ranch Project (GPA/ZC #03-1528) Bakersfield, City of Bakersfield--Kern Annexation of 1,853 acres from Kern County to the City of Bakerfield, General Plan Amendment and Zone Change from agriculture and petroleum production to low, low-medium, and high-medium density residential, general commercial use and mixed commercial use, to accommodate 5,802 single-family residential units, 1,235 multi-family residential units, 698,000 square feet of commercial retail, 185,100 square feet of commercial office, 46 acres of parks, 28 acres of schools and other public facilities, and 154.6 of roadways and other uses.	NOP	04/19/2005
2005031117	McCutchen Annexation Project Bakersfield, City of Bakersfield--Kern The proposed project involves actions necessary for a General Plan Amendment (GPA), Zone Change (ZC), and annexation of approximately 110-acres into the City of Bakersfield. The annexation, GPA, and ZC would permit development of a residential area.	NOP	04/19/2005
2005031118	Life Sciences Replacement Building University of California, Los Angeles Los Angeles, City of--Los Angeles The proposed project involves the construction of a replacement laboratory building for the Life Sciences program of the College of Letters and Science on the UCLA campus. Work would involve demolition of the non-historic portion of Hershey Hall to create a Young Drive East. The building would provide approx. 185,000 sf of laboratory and office space for the existing program including approx. 25,000 sf for new life sciences research initiatives. These new research initiatives could involve an addition of approx. 30 individuals to the campus population. Following completion of the Life Sciences Replacement Building, Hershey Hall would be renovated in compliance with the State Guidelines for renovating historic buildings. The project is consistent with the land use and population estimates described in the 2002 Long Range Development Plan (LRDP) and analyzed in the 2002 LRDP EIR certified in 2003. Construction is anticipated to begin in 2006, with completion estimated by 2009.	NOP	04/19/2005
2005032093	Bell Avenue Joint Use Educational Project Grant Joint Union High School District Sacramento--Sacramento The proposed project consists of development of a joint use facility including new district administrative offices, a transportation maintenance facility, and a charter school. This unique project promotes the shared use of key educational facilities operated by the District. The joint use approach will reduce the need to construct three distinct educational facilities on separate sites throughout the district by utilizing one site to accommodate multiple uses.	NOP	04/19/2005
2005032095	Building 51 and Bevatron Demolition University of California, Berkeley Berkeley--Alameda The objective of the project is to remove a substandard building and its contents from Berkeley Lab. The Bevatron has not operated in over ten years and is non-functional. The Building 51 structure housing the Bevatron is seismically	NOP	04/19/2005

	Community Airpark, but also to assist local agencies in their preparation or amendment of land use plans and ordinances.		
2005031114	Carpenter Canyon Estates, LLC Vesting Tentative Tract Map (TR2542; S020346T) San Luis Obispo County Arroyo Grande--San Luis Obispo Request by Carpenter Canyon Estates/Engineering Development Associates for a Vesting Tentative Tract Map to subdivide an existing 27.4 acre parcel into nine parcels between 2.5 and 4.2 acres each for the purpose of sale and/or development. The project includes off-site road improvements to Highway 227. The project will result in the disturbance of approximately 10 acres of a 27.4 acre parcel. The division will create one on-site road. The proposed project is within the Residential Suburban land use category and is located at 757 Carpenter Canyon Road, on the west side of Carpenter Canyon Road, approximately 0.5 mile north of Printz Road, approximately 0.5 mile north of the City of Arroyo Grande, in the San Luis Bay (Inland) planning area.	Neg	04/19/2005
2005031115	YWCA - Job Corp Los Angeles Community Development Agency Los Angeles, City of--Los Angeles Construction of 7 story, 154,000 gsf, facility containing dining, housing, and classrooms for 400 students (200 dormitory rooms) and administrative offices.	Neg	04/19/2005
2005032090	Holcomb Land Division Santa Cruz County --Santa Cruz The applicant proposes to divide a 145-acre parcel into four single-family residential parcels and a 125-acre conservation parcel. This proposal requires a Minor Land Division Permit, Preliminary Grading Approval to grade approximately 1,200 cubic yards and an Exception to the roadway standards. The project location is at the eastern terminus of East Bel Mar Road approximately 1/4 mile east of the intersection with Mar Monte Avenue, La Selva Beach, California.	Neg	04/19/2005
2005032091	Pilarcitos Creek Restoration and Public Access Improvement Project Half Moon Bay, City of Half Moon Bay--San Mateo The area proposed for the creek restoration and public access improvement project extends from the west side of the Strawflower Shopping Center east to Highway 1, a distance of approximately 1/3 mile. The City owns or holds open space easements on all of the properties that encompass the riparian corridor in this area. The proposed project will restore degraded riparian habitat on the City-owned riparian parcels. It will construct a key connection to the Pilarcitos Creek Trail and provide environmental interpretation/education installations regarding coastal riparian habitat. It will provide facilities to support low-intensity recreational use of the sites, including benches, picnic tables, and a restroom. It will also include a tot lot to serve the adjacent low-income, high-density neighborhood.	Neg	04/19/2005
2005032092	Peter Handke - MS0519C - Minor Subdivision Del Norte County Planning Department Crescent City--Del Norte Minor Subdivision of two acre parcel into two one acre parcels. Parcels will be developed and served by onsite sewer and water. Access will be from Charm Lane for both parcels.	Neg	04/19/2005

2005032096	Sierra Tract Erosion Control Project, Project 2 South Lake Tahoe, City of South Lake Tahoe--El Dorado This project proposes to construct erosion control improvements within the existing densely populated subdivision of Sierra Tract in South Lake Tahoe. Erosion control improvements include curb and gutter, an underground drainage system, infiltration trenches, infiltration basins for stormwater treatment, rock-lined and vegetated swales, sediment traps, concrete valley gutters, and revegetation of dirt shoulder areas. The improvements have been configured in a "treatment train" system to maximize storm water quality improvement and provide multiple layers of protection for receiving waters downstream of the project area.	Neg	04/19/2005
2005032097	City of Yreka Infiltration and Inflow Reduction Plan Yreka, City of Yreka--Siskiyou The City of Yreka is proposing the rehabilitation of the city's infiltration and inflow. The project entails the rehabilitation of approximately 4500 linear feet of sewer main, the replacement of approximately 5800 LF of sewer main with new lines, and 130 sewer service lateral connections will be replaced (approximately 1900 feet), plus an estimated 90 building laterals will be replaced between the street and building. Approximately 30 manholes will also be repaired or replaced.	Neg	04/19/2005
1991103062	Montanera Project in the Gateway Valley / Second Amendment to the Development Agreement Orinda, City of Orinda--Contra Costa 245 homes, a swim club, five community playfields, a community Art and Garden Center, and associated roads and infrastructure (including the re-routing of 115 kV powerlines), all on approximately 230 acres. The remainder of the project site will include open space/trail uses (762 acres) and be set aside for watershed/preserve use (an additional 500 acres).	NOD	
1997052088	Colma Creek Flood Control Project Lower Reach Improvements San Mateo County Flood Control District South San Francisco--San Mateo This project is part of a larger flood control project that was started last year and will be finished this year. Approximately 1,500 linear feet of flood control channel banks will be trimmed or moved in preparation for construction of a concrete-lined channel taking place later this year. carry out the project without any net increase in the amount of existing land coverage in the hydrologically-related area.

2005038269	Former CDF Training Area Restoration Project, Mammoth Bar Off-Highway Area Parks and Recreation, Department of Auburn--Placer The objective of this project is to restore to native conditions the former CDF Training Area (CDFTA) trail within the Mammoth Bar Off Highway Vehicle (OHV) Area. This trail traverses a section of the northernmost extent of the Chamise series (Sawer, J.) referable to chaparral plant community (Holland, 1988). The chamise series is a plant community dominated by shrubs, with chamise as the sole or dominant shrub in the canopy. Though this plant community is not rare in its distribution in California, the CDFTA area represents a population that is in the northern most part of its range. Some of the other plants in the area include Interior Live Oak, Poison Oak, and Toyon. The soils in the project area are typically Auburn-Sob ante-Rock outcrop complex, 30 to 50% slopes and Auburn-Sobrante-Rock outcrop complex, 50 to 70% slopes.	NOE	
------------	--	------------	--

Originally, the condition of this area was created through the use by CDF in the late 1980's and early 1990's to train crews on building fire lines through brush. The training in this area was discontinued because of environmental concerns. Some time after this the site developed into an undesignated OHV riding area. In 2001, direct access to the area was blocked to rehabilitate the area and no OHV use is now occurring in the area. This proposed project is to restore the remaining disturbed areas by soil contouring, mulching, drainage repair and seeding and planting of appropriate native plants.

The project is within the industrial land use category. The project includes an existing improved road, and no new roads or offsite road improvements will be installed with this project approval. There will be no grading with this approval and no cubic yards of material removed. The project is located on the south side of Willow Road, approx. 0.9 miles east of the intersection of Sheridan Road in the Callendar-Garrett Village area on the Nipomo Mesa, approximately 5 miles south-east of the community of Oceano. The site is in the South County planning area.	Neg	04/20/2005
2005031121	Davis Development Plan; ED04-072; DRG2003-00100 San Luis Obispo County --San Luis Obispo Request by Gary Davis for a Development Plan/Coastal Development Permit to construct an approximately 400' x 400' agricultural reservoir which will hold approximately 40.3 acre feet of water, and construct an approximately 4,000 sf pole barn. The grading for the reservoir will include approximately 120,569 sf of cut. Approximately 66,849 cy of that material will be used as fill for the barn pad, and the remainder of the fill will be used to restore erosion gullies on the north-eastern portion of the site which will include approximately 53,711 cy of fill. This project will result in the disturbance of approximately 27 acres of an approximately 116 acre parcel. The proposed project is within the Agricultural land use category and is located on the east side of Hwy. 1, at the southeastern corner of the intersection of Hwy. 1 and Cayucos Creek Road. The site is in the Estero planning area.	Neg	04/20/2005

2005031122	Annexation of 10,891 Acres of Agricultural Land Madera Irrigation District Madera--Madera The proposed project is the annexation of Madera Ranch into the Madera Irrigation District (MID). The annexation territory comprises 10,891 acres of agricultural land. No land disturbance or any other physical activities would be necessary to accomplish the proposed annexation. The physical change the project would facilitate is the substitution of available surface water from MID for groundwater currently used to support agricultural uses at the project site. The District would not be required to install any new facilities. The District is currently capable of delivering water to the annexation parcels through existing conveyance facilities. The current owner of the annexation parcels has requested and consents to the proposed annexation.	Neg	04/20/2005
2005031123	Spring Valley Outfall Sewer Suspension Bridge Rehabilitation (R90433) San Diego County Department of Public Works --San Diego The Spring Valley Outfall Sewer conveys sewage generated by the communities of La Mesa, Lemon Grove, Rancho San Diego and Spring Valley to the County's connection with the City of San Diego pipeline for further conveyance and treatment. A segment of the sewer system is comprised of an approximately 200' section of 30" sewer pipe supported by a suspension bridge that crosses Spring Valley Creek, approximately 1 mile downstream of the Sweetwater Reservoir. This section of pipeline needs to be replaced. The County will construct a new permanent steel truss bridge alongside of the existing suspension bridge. The existing suspension bridge will be used as a bypass during construction of the new bridge and sewer pipeline. The existing suspension bridge and pipeline would remain in place to be used for bypassing if needed in the future. No construction will take place within the creek.	Neg	04/20/2005
2005031124	Camino De La Costa Storm Drain San Diego, City of San Diego--San Diego The project would include the reconstruction of a failing storm drain, the demolition of the existing drain inlet and pipe, the filling of two existing sea caves, and the construction of a retaining seawall to address the erosion undermining the public street, public sidewalk, and Sewer Pump Station No. 20. <u>Documents Received on Wednesday, March 23, 2005</u>			
2005031128	Bocce Ball Centre Clayton, City of Clayton--Contra Costa The project would involve the construction of a bocce ball facility on a currently vacant site on the north side of City Hall parking lot. The approximate 0.7-acre facility would include 10 bocce ball courts, an approximate 1,200 sf storage building, restrooms, court lights, and other ancillary features.	MND	04/21/2005
2005031130	North Dunsmuir Water Storage Project Dunsmuir, City of Dunsmuir--Siskiyou Construction of a 650,000-gallon water storage reservoir, associated transmission pipeline, and an access road, and replacement of an existing pump station.	MND	04/21/2005
2005031126	Proposed Central Region Elementary School No. 13 Los Angeles Unified School District Los Angeles, City of--Los Angeles New Elementary School for 875 two-semester seats in grades K to 5; ~ 70,000 feet of development for 35 classrooms; ~3.6-acre parcel @ SE corner of Washington Boulevard and 3rd Avenue.	NOP	04/21/2005
2005031131	Santa Anita Park Specific Plan Arcadia, City of Arcadia--Los Angeles The proposed project is a Specific Plan and General Plan Amendment that would allow for new development in a 53-acre Development Area located on the 304-acre Santa Anita Park property. Development would include approximately 805,000 square feet (sf) of retail-commercial uses, approximately 315,000 sf of residential floor area contained in up to 300 dwelling units, a 96,000 sf simulcast center, and relocation of the 6,000 sf saddling barn and a decorative fountain in the Paddock Garden, at the southern entrance to the grandstand of the Santa Anita Racetrack. Development would also include associated utility infrastructure improvements and physical amenities, such as landscape, hardscape and lighting. The boundaries of the Development Area within the Specific Plan Area would allow for the new uses, including commercial and residential uses, to operate alongside racetrack facilities and property within the Specific Plan Area that will remain in an S-1 (Special Use) zone. The new residential and commercial development within the Development Area is intended to integrate with the existing design and operation of the racetrack, while allowing for the continuation of the racetrack's functions and associated wagering activities.	NOP	04/21/2005
2005032109	Mercy General Hospital, Alex G. Spanos Heart Center Sacramento, City of Sacramento--Sacramento The project consists of a new 171,246 square foot, five-story cardiac care building plus basement with a below-grade level connection to the existing Mercy Medical Plaza.	NOP	04/21/2005
2005031127	Pasadena Avenue Well Site Tustin, City of Tustin--Orange The construction of a water well facility, housed in a 1,450 sf structure made of split-face cement block and 14 feet in height, with a paved service yard.	Neg	04/21/2005

2005031129	Lemon Grove Downtown Village Specific Plan Lemon Grove, City of Lemon Grove--San Diego The adoption of the Lemon Grove Downtown Village Specific Plan for the area within the Special Treatment Area 1 (STA 1) as shown in the Lemon Grove General Plan. This project includes a General Plan Amendment to change the land use designation of properties located within the STA 1 from: the Retail Commercial land use designations to Commercial land use designation; from the Mixed Use (43 dwelling units/acre) land use designation to Transit Mixed Use (3-7 stories and 25-45 minimum dwelling units/acre), Village Commercial (3-5 and 35 minimum du/acre), Retail Manufacturing, Parking and Medium High Density Residential (14 du/acre) land use designations; from Public/Institutional and Parks/Recreation to Civic land use designations. The project includes an amendment of the applicable sections of the Development Code to include and reference the development standards of the Downtown Village Specific Plan. The project promotes transit use through improved circulation patterns and transit-oriented development in the downtown village area.	Neg	04/21/2005
2005032105	Access Road Upgrade and Erosion Control Project for COTP Towers 426/427 Transmission Agency of Northern California --Shasta The Erosion Control Project involves implementing erosion control measures in the Project Area. - Construction of retaining walls and subdrains in the area of Tower 426. - Construction of new access roads at the tops of the new retaining walls. - Install permanent TRMs. - Upgrading of Existing Access Roads. - Removal of existing hay bales and replacement with backfill.	Neg	04/21/2005
2005032106	Regional Measure 2 Implementation Plan: Transbay Express and Owl Bus Services Alameda Contra Costa Transit District --Alameda, Contra Costa, San Francisco, San Mateo The proposed project increases and expands transbay and late night owl bus service (generally services between 12am and 6am) using AC Transit's existing bus fleet. Transbay trips originating in the areas of Richmond, Berkeley, Alameda, Oakland, Castro Valley, and Fremont/Newark will have service increases (no route changes), service extensions (service extended from an existing route) or service changes and re-routings. The late night owl service improvements are new service that would provide bus service along the BART network corridors during the timeframe that BART weekday service ends and before it begins. It would operate every 60 minutes on weekdays (Sunday through Thursday nights) and 30 minutes on weekends (Friday and Saturday nights).	Neg	04/21/2005
2005032107	HW3, LLC - Minor Subdivision - MS0525C Del Norte County Planning Department --Del Norte The applicant proposes to adjust a net increase of 0.01 acre from an adjoining lot in order to subdivide a total of 10 acres into four parcels and a remainder app. two acres in size. All parcels would be accessed from Ocean Heights Way. The subdivision is subject to County Hillside development standards including building setbacks from slopes, establishment of potential developable areas and maximum slopes allowed for road and driveway development. On-site sewage disposal systems and public water would serve the future residences.	Neg	04/21/2005

1999011023	Villages of La Costa - (EIR 98-07) Carlsbad, City of Carlsbad--San Diego The Villages of La Costa Greens Neighborhood 1.6 consists of the subdivision of 36 acres into 91 single-family residential lots with a minimum lot size of 6,000 sf, 6 open space lots, and one recreation lot. In addition to the Tentative Tract Map, a Planned Development Permit is required by the Master Plan to allow for lots less than 7,500 sf. The Master Plan specifically identified Neighborhood 1.6 as a subdivision of 6,000 sf residential lots. Architectural review of the homes will be presented to the City Council at a later date as an amendment to the PUD.	NOD	
2004052140	Oakland International Airport Materials Management Program Oakland, Port of Oakland--Alameda The Port of Oakland (Port) is implementing a program at Oakland International Airport (OIA) to manage materials generated from ongoing construction, demolition, maintenance, and operations-related projects and activities throughout the Port Area. The original scope of the MMP calls for establishing up to four management sites on OIA property. These sites will be used for processing and stockpiling of materials generated from construction projects on Port property, and recycling and reuse of the processed construction materials for future Port projects. The purpose of establishing these MMP sites is to achieve a consistent, Airport-wide management program to recycled and reuse processed construction materials. Materials eligible for on-site recycling include clean concrete rubble, asphalt rubble, vegetation from grubbing activities, and excavated soils. Prior to transport to a material management site, soil would be sampled in-situ or from construction site stockpiles and tested for concentrations of possible contaminants to assess whether it is clean. Only soil with concentrations below the Regional Water Quality Control Boards commercial Environmental Screening Levels (ESLs) would be considered clean and would be transported to the materials management sites for recycling and reuse. Soil with concentrations greater than the commercial ESLs would be transported off-site to an appropriate disposal facility.	NOD	
2004122047	Sunrise Hills II Cloverdale, City of Cloverdale--Sonoma Division of approximately 12 acres into 15 single-family residential lots plus a 7 acre remainder parcel, to allow construction of 15 single-family homes and one secondary dwelling unit. Lots range in size from 7,500 to 30,700 sf; the proposed homes range in size from 1,584 to 2,400 sf. The proposal includes one 576 sf secondary dwelling unit above a detached garage. The site has been rezoned Planned Unit Development (P-D) and is being annexed to the City of Cloverdale.	NOD	
2004122088	Lewelling / East Lewelling Boulevard Improvement Project (Hesperian Boulevard to Meekland Avenue) Alameda County Public Works Agency --Alameda The lead agency proposes several improvements to Lewelling / East Lewelling Boulevard within the project limits. The project would widen the roadway to 4 travel lanes with raised medians and left-turn pockets; install 3-meter sidewalks on both sides of the roadway; install planting strips and/or tree wells between the roadway and sidewalk area; add on-street (Class II) bike lanes on both sides of the roadway	NOD

2005038290	Repair of Water Damage at Red Mountain Hydroelectric Power Plant Metropolitan Water District of Southern California Fallbrook--San Diego The Metropolitan proposes to repair water damage at the Red Mountain Hydroelectric Power Plant. Metropolitan proposes to repair damage to the plant that resulted from a failed drain valve. The valve remained open when it should have closed, allowing water to overflow into two basement level rooms, the turbine shutoff valve pit, can be replaced, while other equipment is obsolete and requires redesign. Metropolitan proposes to design, procure, install, and test electrical, hydraulic, and mechanical equipment that was damaged by the overflow.	NOE	
2005038291	Henry J. Mills Water Treatment Plant Capacity Upgrade Program and Perris Valley Pipeline Project Metropolitan Water District of Southern California Riverside, Moreno Valley, Perris--Riverside The Skinner Service Area Study Update was undertaken in 2004 to assess water demand growth in Riverside and San Diego counties. The Study concluded that additional treatment capacity would be needed by 2013 to meet the projected growth in demand in that portion of Metropolitan's system.	NOE	
2005038292	City of Shafter Gateway Median and Landscaping Project Shafter, City of Shafter--Kern The City of Shafter gateway enhancement project will landscape the existing shoulder along Lerdo Highway, provide new cement for the center of the existing median on Lerdo Highway, and replace the existing City of Shafter entrance monument sign (in the median) at the Zerker Road and Lerdo Highway. The distance of the median enhancement project is 1,400 feet. The distance of the shoulder landscaping project is 800 feet. The shoulder and median will not be modified in any manner except for the new landscaping, median cement, and monument sign, respectively. The project does not involve any changes to the existing right-of-way, traffic pattern, or circulation system for the area.	NOE

2005038293	CSUEB Contra Costa Campus Classroom Remodel California State University, Hayward Concord--Contra Costa The project involves a remodel that aims to consolidate staff, faculty, and support services into a single building to maximize student services with minimal staffing. It will also reconfigure classroom space to create high capacity classrooms to meet current academic requirements.	NOE					
2005038429	Normal Heights Elementary School Removal Action Workplan Toxic Substances Control, School Property Evaluation and Cleanup Division San Diego--San Diego The Removal Action Workplan (RAW) specifies cleanup procedures to be implemented at the proposed Normal Heights Elementary School for excavation, removal, and off-site disposal of lead impacted soils excavation and confirmation sampling activities are expected to occur over a 20 day period. Approximately 3,800 cy of contaminated soil will be excavated and hauled off-site from four localized areas. Based on the analytical results from the Preliminary Endangerment Assessment (PEA) investigation, lead levels ranged from non-detect to 1,700 parts per million. Results of the PEA further indicates that the excavation depths will not exceed 2 feet below ground surface (bgs) with most of the lead-impacted area being excavated to a depth of 1 foot bgs. After the lead impacted soil is removed, confirmation soil samples will be collected to verify the specified cleanup goal has been achieved. The DTSC uses 255 mg/kg as the screening number based on the DTSC Lead Spread Model and school site guidance documents.	NOE

2003042127	Downtown Strategy EIR San Jose, City of San Jose--Santa Clara The San Jose Greater Downtown Strategy Environmental Impact Report will evaluate the impacts of development envisioned by the previously prepared Strategy Plan 2000. The proposed project includes up to 8 to 10 million sf of office space, 8-10,000 residential dwelling units, 900,000 to 1.2 million sf of retail space, and 2,000-2,500 guest rooms of hotel space.	EIR	05/09/2005
2003121164	Specific Plan No. 00336 (Desert Dunes Specific Plan), Change of Zone No. 06876 and Environmental Impact Report No. 00455 Riverside County Planning Department Desert Hot Springs--Riverside The Desert Dunes Specific Plan proposes a mixed-use project that encompasses a total of 485.6 +/- acres of undeveloped land located in eastern Riverside County. The project includes the development of 2,253 +/- age restricted (home ownership age 55 and above) residential units and recreational center. The project will include single family residential detached and attached units with a maximum density of 5 dwelling units per acre. The current General Plan land use designation for the project site is Medium Density Residential, which allows 2 to 5 dwelling units per acre. The current Zoning designation is W-2 which allows 2 dwelling units per acre. Development of the project will require Change of Zone (CZ) in order to accommodate the project Specific Plan. Off-site improvements include a buried reservoir located on 10 acres at the southwest corner of Dillon Road and Long Canyon Road. Additionally, a sewer line extension is proposed to serve the project site.	EIR	05/09/2005
2004072110	Hitachi Campus and Transit Village Project San Jose, City of San Jose--Santa Clara 1) Change the site's General Plan Land Use/Transportation Diagram designation from Industrial Park to Mixed Use with No Underlying Land Use Designation, and update the General Plan's Mixed Use Inventory via a text amendment; 2) Rezone the site from Industrial Park to Planned Development to allow a mixed-use project consisting of demolition of some of the existing buildings on the site and creation of up to 2,930 residential units, 460,000 sf of commercial space, and 3,600,000 sf of industrial space; 3) Establish a development agreement between Hitachi and the City of San Jose to provide objectives and guidelines for the development of the site; 4) Designate one or more new Arterial and/or Major Collector roadways on the General Plan Transportation Diagram; 5) Modify the Edenvale Area Development Policy to specifically include and provide for the development of the site; and 6) Allow a maximum building height of 120 feet on the project site. 2005038405	Mechanic Shop Parking Parks and Recreation, Department of Gorman--Los Angeles The scope of this project is to install approximately 140,000 sf of 2" asphalt overlay on existing material surrounding the mechanic shop at the hungry district office complex. The existing surface area will be prepared by patching as needed, grading the surfaces to create adequate drainage, grinding the mating surfaces around buildings, curbs and utility boxes, by applying tackifier and sealants to mating surfaces. Project will include ADA design, curbs, gutters, and stripping as needed.	NOE	
2005038406	Restroom Replacements at Hungry Valley SVRA Parks and Recreation, Department of Gorman--Ventura The purpose of this project is to replace 7 existing pit toilets at Hungry Valley SVRA. The restrooms are located in the following campgrounds: Aliklik, Lower Scrub Oak, Upper Scrub Oak, Cottonwood, Sterling, and Smith Forks. The pit toilets will be replaced with new pre-cast "CXT Tioga" vault restrooms, with the odor-free vent design. The existing pit toilets will be removed including the concrete vaults. The new CXT restrooms will be installed in the same locations as the existing pit toilets. The foot print dimensions of the new restrooms are 16'8" by 11'11" the height of the new restrooms is 9'7". The required excavation for the new ABS lined sealed vaults will be 14'4" x 11'11" x 4'4" deep. These vaults will only require a slightly larger excavation than the original vaults.	NOE	
2005038407	Proposed Turtle Ridge Elementary School Site - Removal Action Work Plan (RAW) Approval Toxic Substances Control, School Property Evaluation and Cleanup Division Irvine--Orange The Removal Action Workplan (RAW) has been prepared to address the removal of methane gas at the proposed Turtle Ridge Elementary property. The Irvine Unified School District (IUSD) has elected to pursue the construction of the school, and therefore has prepared a RAW. The draft RAW presents an evaluation of several removal action alternatives to address the presence of methane at the site, and to reduce the potential for methane accumulation underneath the proposed classroom building at the site, where it may become an explosion hazard. Due to the concentrations and pressures of methane detected, and the depth of the detections, the RAW proposes a Passive Methane Venting System (mitigation system) as the preferred alternative. The selected methane control measures include a sub floor membrane barrier, a passive venting system, and permanent sampling and detection probes above the membrane. An Operation and Maintenance (O&M) Agreement will ensure the school district will implement	NOE

2005038408	<p>on-going operation, monitoring, data acquisition, reporting, and maintenance activities. The mitigation system measures, proposed under this alternative, are in accordance with DTSC's Advisory on Methane Assessment and Common Remedies at School Sites and meet or satisfy all applicable or relevant and appropriate requirements as identified in the RAW.</p> <p>Interim Measure at the Basin By-Products Site Toxic Substances Control, School Property Evaluation and Cleanup Division Los Angeles, City of--Los Angeles</p> <p>The Basin By-Products site is located in a heavy industrial area, where a waste transfer station currently operates on part of the approximately 12-acre property; the surrounding area includes metal recyclers, vehicle dismantlers, and a freeway. Due to historic disposal of liquid industrial wastes at the site, contaminants in the soil include, primarily, volatile organic compounds (VOCs) and metals. Presently, certain areas of the site are unpaved; potential risk for outdoor workers due to exposure (via ingestion, dermal contact, and particulates inhalation) to contamination soil from unpaved areas will be reduced via paving these areas.</p> <p>The proposed Project is an interim measure to pave various unpaved areas of the site with 121,400 sf of asphalt and 6,300 sf of concrete. The proposed removal action is limited to affecting the top 1-foot of soil and will not impact groundwater. The plan indicates that all affected soil is expected to remain beneath the newly paved areas. No grading permit will be required from the City of Los Angeles.</p> <p>Air monitoring in the work zone will be conducted to assess for dust and VOCs during grading activities. During grading excavation activities, standard engineering/construction practices will be used to control potential dust emissions (e.g., water truck) and specified action levels to immediately cease work have been established in the Health and Safety Plan. The paving will be sloped to ensure that surface water runoff will drain to East "I" Street, maintaining the current site drainage patterns. Existing groundwater monitoring wells (MW-1, MW-2, MW-3, and WBBP-2) will be protected. The areas to be paved will be secured via fencing with controlled access during work hours.</p> <p>The time necessary to complete this activity is estimated to be approximately one month. Field activities are anticipated to be conducted in the summer, avoiding winter rains.</p> <p>The areas of the site to be paved, and existing paved areas, will be maintained for a minimum of three years for this interim action. Inspections will occur at least annually to ensure the integrity and condition of the paved areas, and a report will be submitted to DTSC documenting activities regarding the paved areas.</p>	NOE	
2005038409	<p>Nigel Copley Single Family Residence Fish and Game Santa Barbara --Santa Barbara</p> <p>Construction of a 24-inch culvert with concrete head wall, across a small seasonal drainage, tributary to Romero Creek, for access to residence.</p>	NOE

2005038410	Forest Meadows Wastewater Treatment Plant Title 22 Compliance Improvements Calaveras County Water District Murphys--Calaveras Installation of two dissolved air flotation (DAF) units after the existing aeration and secondary settling ponds and before existing tertiary filters. DAF units are needed to remove pond algae that has been impacting filter performance. Improvements are being made to provide "plant reliability features" for the production of Title 22 recycled water as required by California Dept. of Health Services guidelines.	NOE	
2005038411	Hwy 128 Culvert Rehabilitation Fish & Game #3 --Mendocino The project involves the replacement of several culverts including two class II culverts located at Postmiles 11.33 and 11.40 on Hwy 128. The replacement work is part of an overall curve improvement project. All culverts eventually drain into the North Fork Navarro River in Mendocino County. All roadwork will be conducted from the existing road. Rock Energy Dissipater (RED's) will be placed at the outlet of each culvert. No rock will be placed below the ordinary high water mark. Department of Fish and Game is issuing a Streambed Alteration Agreement Number 1600-2004-0774-3 pursuant to Fish and Game Code Section 1602.	NOE	
2005038412	Estero Americano Ranch Restoration Program - 2004-05 Fish & Game #3 --Sonoma, Marin Implement measures to address sedimentation, riparian management, and water quality issues on seven ranches, key factors in ameliorating existing limiting conditions to the Estero Americano, Americano Creek, and its tributaries. Issuance of a Streambed Alteration Agreement Number 1600-2004-0845-3 is pursuant to Fish and Game Code Section 1602.	NOE	
2005038413	San Simeon Creek Road Bridge #1 Temporary Pier Repair Fish & Game #3 --San Luis Obispo Bridge #1 on San Simeon Creek is located 2.3 miles east of SR 1 on San Simeon Creek Road. The bridge, which is scheduled for replacement in 2007, is supported by one pier located in the creek channel. Excessive scour has undercut the base of the pier and the bridge is in danger of failing prior to replacement. The proposed project would reinforce the pier until the bridge can be replaced. An excavator would be used to remove approximately 700 cy of sediment from around the pier. A form would be built around the base and concrete pumped around the form to strengthen the base. One-ton rock slope protection (RSP) would be added to protect the base. Approx. 500 cy of RSP and concrete, and 200 yds. of backfill soil, would be placed at the base of the pier. Access to the site would be via an existing road along the right bank (looking downstream), and work would be conducted during dry conditions to avoid impacts to southern steelhead and California red-legged frogs. The project is necessary to protect the bridge and minimize the chance of catastrophic failure during high flows. Issuance of a Streambed Alteration Agreement Number 1600-2004-0693-3 is pursuant to Fish and Game Code Section 1602.	NOE

2005038390	Compressed Natural Gas (CNG) Refueling Station - Sacramento International Airport Sacramento County Dept. of Environmental Review --Sacramento The proposed project consists of installing upgraded equipment at the existing Compressed Natural Gas (CNG) fuel facility, which will provide CNG to SMF on-airport shuttle buses, county vehicles, state vehicles, and public vehicles such as school buses. The construction site is approximately 0.41 acres (about 18,000 sf), which is completely paved. The project is primarily a replacement and upgrade of existing and obsolete equipment. The project is located in an entirely paved area.	NOE	
2005038391	WYDA Way Right-of-Way Abandonment Sacramento County Dept. of Environmental Review --Sacramento The proposed project consists of the Abandonment of a portion of County road right-of-way (Wyda Way) as shown on the attached exhibit.	NOE	
2005038392	Annexation of Sunridge Park Development to Zone12 of the Sacramento County Water Agency Sacramento County Dept. of Environmental Review Rancho Cordova--Sacramento Annexation of the Sunridge Park development (244 +/- acres) to Zone 12 of the Sacramento County Water Agency, as conditioned, prior to recordation of the final map.	NOE	
2005038393	6309 Fair Oaks Boulevard Social Center Use Permit Sacramento County Dept. of Environmental Review --Sacramento The proposed project consists of a Use Permit to allow a private social center in the SC zone. The center will occupy approximately 8,300 sf of tenant space within an existing commercial building. All activities, including any live music, will be located entirely within the existing building.	NOE	
2005038394	AT&T Wireless Cellular Facility Use Permit Sacramento County Dept. of Environmental Review --Sacramento The proposed project consists of a Use Permit to allow a roof mounted wireless facility (6 antennas and 2 corresponding equipment cabinets) in the BP zone. The antennas will not exceed the 12-foot height limitation above the rooftop per 301-13.5(b)(2).	NOE

<u>Documents Received on Monday, March 28, 2005</u>			
2005038395	<p>Wasson Hardship Mobilehome Use Permit Sacramento County Dept. of Environmental Review --Sacramento</p> <p>The proposed project consists of a Use Permit to allow a temporary mobilehome to be used for a person in need of close car and supervision. The 0.9 +/- acre property is zoned RD-2.</p>	NOE	
2005038396	<p>Fair Oaks Boulevard Traffic Signal Installation Project Sacramento County Dept. of Environmental Review Sacramento--Sacramento</p> <p>This project wil install a new traffic signal at the intersection of Fair Oaks Boulevard and Garfield Avenue. Additionally, an existing, non-standard, west-bound bus stop on Fair Oaks Boulevard approaching the intersection will be relocated to the departure side of the intersection. Other improvements include the construction of a raised landscaped median, extension of sidewalks for pedestrian accessibility, and reconstruction of existing sidewalk ramps to comply with ADA requirements.</p> <p>The signal configuration at this intersection is unique in that access will be limited. No left turns will be allowed from Garfield Avenue onto Fair Oaks Blvd. Peak hour intersection counts revealed that left-turning movements were nominal, which justified the proposed configuration. Also, accident reports over the past several years indicated that the left-turn movement from Garfield Avenue yielded the most frequent accidents at this intersection, making this movement very unsafe.</p> <p>Furthermore, there are three existing residential driveways at the intersection of Garfield Avenue and Fair Oaks Blvd. that will also not be allowed to turn left onto Fair Oaks Blvd. The driveway locations presented a conflict with a traditional signalized intersection configuration. Because of the proximity of the three, separately owned driveways to the intersection, all of the driveways could not be combined into a single movement. Therefore, in order to block unsafe entry into the intersection from these driveways, a raised median is included in the design.</p> <p>Left turn pockets are proposed for vehicles traveling northbound and southbound on Fair Oaks Blvd. U-turns will be allowed at these locations. Three of the residential driveways will be provided with video detection in order to allow protected access out of the driveways onto Fair Oaks Blvd.</p>	NOE	
2005038397	<p>Sacramento County Flood Mitigation Assistance Program Sacramento County Dept. of Environmental Review Elk Grove, Citrus Heights, Unincorporated--Sacramento</p> <p>The project consists of Flood Mitigation Assistance Grant to be used for mitigation of flooding problems for residences within the unincorporated area of Sacramento County and residences within the incorporated cities of Citrus Heights and Elk Grove. Grant funds will be used to fund home acquisition and demolition projects within the Dry Creek Floodway Corridor and also to fund home elevations county wide.</p>	NOE	
2005038398	<p>4110 Hillcrest Way Tentative Parcel Map Sacramento County Dept. of Environmental Review --Sacramento</p> <p>The proposed project consists of a Tentative Parcel Map to divide 0.619 +/- acre into two lots on property zoned RD-4.</p>	NOE

2005038399	2945 Root Avenue Tentative Parcel Map Sacramento County Dept. of Environmental Review --Sacramento The proposed project consists of a Tentative Parcel Map to divide 0.52 +/- acres into two lots in the RD-5 zone.	NOE	
2005038400	Filbert Avenue Traffic Signal Installation Project Sacramento County Dept. of Environmental Review --Sacramento The project includes installation of a new traffic signal, and ADA compliant sidewalk ramps/landing pads and new asphalt overlay within the project limits at the intersection of Filbert Avenue/Casa Robla High School driveway and Oak Avenue. The project will require minor widening of the roadways, which will result in removing and replacing drainage culverts. In addition one 18-inch live oak tree will be removed; however, the project includes planting eighteen 15-gallon native oak trees on the adjacent park grounds. Right-of-way (613 sf) will be acquired from the Orangevale Park District at the southeast corner of Oak Avenue and Filbert Avenue in order to improve the dirt corner that is currently being used by students and other pedestrians waiting to cross the street. A 1,804 sf electrical easement will also be acquired from Casa Robla High School for signal maintenance.	NOE	
2005038401	Fair Oaks Boulevard and Oak Avenue Safety Improvements Sacramento County Dept. of Environmental Review --Sacramento The project proposes to install channelization bars in the center of Fair Oaks Boulevard to temporarily restrict left-turn movements between Oak Avenue and Fair Oaks Boulevard to improve vehicle safety on this stretch of roadway.	NOE	
2005038402	Asplough / Kroger Boundary Line Adjustment Sacramento County Dept. of Environmental Review --Sacramento The proposed project consists of a Boundary Line Adjustment to reconfigure the lot lines between 2 parcels in the RD-3 zone in order to relocate a property line to the south of an existing access easement.	NOE	
2005038403	Pantis Tentative Parcel Map Sacramento County Dept. of Environmental Review --Sacramento The proposed project consists of a Tentative Parcel Map to divide 0.50 +/- acres into two lots on property zoned RD-5 and an Exception from Title 22, Section 22.110.070(d) to allow the lot depth for Parcel 1 to be less than 95 feet. Note: The property will share access with the parcel to the west (04-PMR-EXR-0665).	NOE	
2005038404	Annexation of Sunridge Park Development to Zone 12 of the Sacramento County Water Agency Sacramento County Dept. of Environmental Review Rancho Cordova--Sacramento Annexation of the Sunridge Park development (244 +/- acres) to Zone 12 of the Sacramento County Water Agency, as conditioned, prior to recordation of the final map.	NOE

2005038415	Carport Demolition Parks and Recreation, Department of --San Benito Project involves the demolition and removal of a non-historic carport at San Juan Bautista State Historic Park. The carport is a shed-type structure that was built in 1960 by a State Park Ranger. There is severe wood rot throughout the structure and the roof sheeting can no longer support any weight.	NOE	
2005038416	San Joaquin Valley Unified Air Pollution Control District Rule: Rule 4306 (Boilers, Steam Generators, and Process Heaters - Phase 3) San Joaquin Valley Air Pollution Control District -- Rule 4306 (Boilers, Steam Generators, and Process Heaters - Phase 3) Amended March 17, 2005.	NOE	
2005038417	Emergency Stabilization of Grapevine Creek, Bridges, Parking at Fort Tejon Parks and Recreation, Department of --Kern Stabilize the eroded Grapevine Creek banks (using biotechnical methods, if possible, to minimize hard engineering solutions), inspect and stabilize park vehicle and pedestrian bridges and the visitor parking lot, to allow Fort Tejon State Historic Park to reopen after flash flooding and continuing erosion. Environmental impacts will be avoided or minimized.	NOE	
2005038421	Granite Bay Parking Lot and Boat Ramp Repairs, Folsom Lake SRA Parks and Recreation, Department of --Placer Perform maintenance and repair to the existing asphalt paved areas of the Stage 2 and Stage 3 launch ramps and parking lots at the Granite Bay recreation use area within Folsom Lake State Recreation Area. This work will include filling pot holes and rutted areas with new asphalt concrete (AC), placing an AC overlay on all of the existing paved areas and restriping the new pavement. This work will involve 590,000 sf of existing parking areas and 380,000 sf of existing launch ramps.	NOE	
2005038422	Silveria Home Interior Finishes Parks and Recreation, Department of --Monterey Project involves various repairs of the interior finishes at the historic Silveria Home located at Monterey State Historic Park. Paint interior walls, cabinets, and architectural features. Cover and protect damaged historic wallpaper. Remove and replace non-historic carpet and/or refinish original wood floors. Remove and replace non-historic vinyl floor covering.	NOE	
2005038423	Earth Day 2005 - Arundo Removal (04/05-SD-24) Parks and Recreation, Department of --San Diego This project consists of the above ground removal (approx. 3,000 sf) of an invasive non-native plant species (Arundo donax). The two patches to be removed are located on the coastal bluff 1,000 ft. north of the entrance kiosk, the other 1,500 ft. south of kiosk. The Arundo will be removed by ground removal and several treatments of herbicide and the seeding or planting the area with native plant species. The project will not disturb any native vegetation or sensitive species and will not lead to any bluff destabilization. Cut Arundo will be taken to county green waste recycling.	NOE

2005038424	Lease of New Office Space Unemployment Insurance Appeals Board, California Chico--Butte The CUIAB proposes to lease approximately 1,069 sf of office space. The space would house 2 staff for purposes of adjudicating unemployment insurance appeals cases. The space will consist of public waiting room and public hearing room. Approximately 6 parking spaces would be used. Public transit is available near the site.	NOE	
2005038425	High Efficiency Ultra-Low NOx Supplemental Firing Burner Energy Commission -- The purpose of this PIER contract is to development a low NOx Supplemental firing burner to reduce the emissions and improve the cost effectiveness of combined heat and power systems. This meets the PIER goal of improving the reliability, quantity, and sufficiency of California's electricity by significantly improving the cost effectiveness of the cogeneration of electricity and steam at industrial and large commercial and institutional facilities. This also meets the secondary PIER goal of improving the energy cost/value of California's electricity.	NOE	
2005038426	Premium Power for Small Combined Heat and Power Systems Energy Commission -- The purpose of this PIER contract is to apply inverter-based technology to Tecogen's combined heat and power engine package. This meets the PIER goal of improving the energy/cost value of California's electricity by providing an enhanced combined heat and power product to the California market at a reduced capital cost and higher part-load efficiency. This project also meets the secondary PIER goal of improving the reliability, quality, and sufficiency of California's electricity by providing a low-cost demand side response capability and lessening the dependence on building new central station power, transmission, and distribution systems (capacity).	NOE	
2005038427	Engine CHP Integrated Cooling and Heating Module Development Energy Commission Gardena--Los Angeles The purpose of this PIER contract is to reduce the installed cost of combined heat and power (CHP) integrated heating, ventilation, and air conditioning (HVAC) systems for commercial and light industrial applications by developmenting standardized factory assembled heating/cooling modules and an optimized absorption chiller and engine heat management system. This meets the PIER goal of improving the energy cost/value of California's electricity by improving the economics of CHP as applied to HVAC systems. This also meets the secondary PIER goal of improving the reliability, quantity, and sufficiency of California's electricity by enabling widespread implementation of CHP, which prevents the need for new central power plants and transmission lines.	NOE	
2005038428	Power Generation Integrated in Burners for Packaged Industrial/Commercial Boilers Energy Commission -- The purpose of this Agreement is to develop, demonstrate, and commercialize a new industrial burner/windbox assembly that incorporates a low-cost microturbine generator for clean and efficient combined heat and power (CHP) capability. The	NOE

2005031174	SEA / DP CUP 03-097 / PM27143 Los Angeles County Department of Regional Planning --Los Angeles Application is a request for a Tentative Parcel Map, a Development Program and Significant Ecological Area CUP to authorize the creation of two commercial lots (3.83 acres and 0.73 acre) and the construction of a two-story office building (14,000 sf) or a one-story restaurant (6,781 sf). The project site is currently developed with a three-story 66,253 sf office building on what is proposed as parcel 1. A total of 256 parking spaces will be provided for the existing building on the proposed parcel 1 and a total of 42 parking spaces will be provided for the new building on the proposed parcel 2. The subject property was originally approved for a 41,000 sf retail/restaurant building as part of TR45433 / CUP, OTP, and SP 87-222 (approved on 2/25/99). Because the original environmental document only analyzed the subject property for the 41,000 sf retail/restaurant, the proposed office building or restaurant together with the existing office building would essentially increase the intensity of use on the subject property up to approximately 96% that was originally contemplated. Therefore, this Initial Study will evaluate the impacts of an increase of 39,253 sf of office building space on the subject property. Approximately 11,943 cy of cut, 11,943 cy of fill and 8,424 cy of over-excavation will be required for the proposed improvements.	Neg	04/27/2005
2005031175	Southeast Water Reliability Project (Montebello Loop) Central Basin Municipal Water District Montebello, Pico Rivera--Los Angeles The proposed project is a local recycled water distribution system that would offset the imported potable water supplies from the State Water Project. The Project would ultimately serve 28 potential public and private entity sites along the pipeline, including one anchor customer (Montebello Golf Course) at the terminal end of the pipeline, with over 800 acre feet per year of recycled water. The project would include the installation of approximately 4.5 miles of 30-inch recycled water pipeline that would be buried within roadway in the Cities of Pico Rivera and Montebello. The starting point of the pipeline would be in the City of Pico Rivera at the intersection of San Gabriel River Parkway and Beverly Boulevard, where the proposed pipeline would connect to the existing San Gabriel River Parkway Recycled Water Pipeline Lateral. From this starting point, the pipeline would be routed west along Beverly Boulevard throughout the City of Pico Rivera and enter the City of Montebello. At the intersection of Beverly Boulevard and Rea Drive in the City of Montebello, the pipeline would be routed north along Rea Drive to Lincoln Avenue. The pipeline would then be routed west along Lincoln Avenue and end at the Montebello Golf Course. The trench excavated for the installation of the new pipeline would average eight feet in depth and four feet in width. The trench would be refilled using native backfill with an asphalt cap.	Neg	04/27/2005
2005031176	Proposed Cherry Water Tank #3 Project Beaumont-Cherry Valley Water District Beaumont--Riverside The Beaumont Cherry Valley Water District proposes to construct a five million gallon (MG) potable water tank in the Cherry Valley community in order to meet projected water supply needs within the District's service area. Proposed facilities include one pre-stressed concrete water tank, one concrete vault and 400 feet of distribution pipeline.	Neg	04/27/2005

	137-670-002. However, the locatin did not provide adequate hydrological protection to downstream property. It is desired to place the basin outside the 100-year floodplain limits, in which the basin would be considered "off-line." To achieve the off-line status the applicant requested that the basin be located on Hans Christian Andersen Park, and for consideration the applicant would provide the said 1-acre parcel of land to the City. This one-acre parcel would be much more usable to the City of Solvang as it is located on the usable side of Adobe Creek and could be included as a usable area for the HCA Master Plan.		
2003032132	#99323-ECPA (Robert Mondavi Properties at Suscol Springs Vineyard) Napa County --Napa #99323-ECPA is the site specific design of erosion control measures to manage water run-off and sediment movement (earthmoving activities) on slopes greater than 5 percent. The erosion control measures as designed in #99323-ECPA would be installed and maintained in conjunction with the subsequent new vineyard. The erosion control measures include surface drainage mainlines, drop inlets, gravity outlets, diversion ditches, water bars, straw bale sediment traps, rock sediment basins, insloped vineyard avenues (would be covered with straw mulch during rainy seasons) separating vineyard blocks, rock slope protection, rock level spreaders, and no-till cover crop (mowed and reseeded as necessary).	NOD	
2003042080	Mt. Diablo State Park Primary Road System Improvement Project Parks and Recreation, Department of Clayton, Danville--Contra Costa Parks and Recreation proposes to make the following high priority improvements to the primary road system that serves Mt. Diablo State Park: - Install new or repair/replace failing existing drainage collection points. - Repair, modify, or replace existing road culverts or install new culverts where needed. - Install rock slope protection on the cut side of the roadway to limit erosion. - Approximately 750 cy of clean spoils will be stockpiled at the Turtle Rock Complex playing fields; BMP's for erosion control will be adhered to; all other spoils will be disposed of offsite. - South Gate Road - reconstruct or stabilize approximately 500 linear feet of road base. - North Gate Road - reconstruct or stabilize approximately 1,200 linear feet of road base and install subdrainage; repair retaining walls; restore existing road embankment where subsidence is occurring. - Summit Road - expand road width in several locations; replace road surface; install aggregate base with asphalt concrete overlay (4.5 miles) including patch work.	NOD	
2004122123	Union Industrial Park Elk Grove, City of Elk Grove--Sacramento The project consists of a Tentative Subdivision Map and a Design Review of industrial development. The subdivision proposal would subdivide 5.35-acre parcel into 10 industrial parcels ranging from 1/3 to 1/2 acre lots, and one 1-acre common egress/ingress lot. The Design Review evaluates construction of six 5,100 sf and four 7,200 sf industrial buildings.	NOD

	the approved 2,000 TPD of incoming Type A inert and C&D debris (C&D debris not to exceed 500 TPD) and 5,000 TPD of outgoing debris.		
2001062042	Tahoe City Marina Master Plan Placer County Planning Department --Placer Expansion of the existing marina to add up to 84 boat slips as part of Phase I. Project includes construction of a Tahoe City PUD pump station to be made a part of the "Harbor Master Building" and a parking structure.	NOD	
2002031158	Northeast Gateway Specific Plan / Eureka Ranch Tentative Subdivision Map Escondido, City of Escondido--San Diego The California Department of Fish and Game is executing a Lake and Streambed Alteration Agreement number 1600-2004-0208-R5 pursuant to Section 1602 of the Fish and Game Code to the project applicant, Ms. Dana Wohlford, representing Eureka Ranch. The applicant proposes to alter the streambed of Jack Creek, and two unnamed drainages, tributaries to Escondido Creek, tributary to San Elijo Lagoon, tributary to the Pacific Ocean, to accommodate the construction of the Eureka Ranch Development Project. Construction activity includes one 30" culvert crossing at Jack's Creek, the grading and fill of two drainages, and the installation of a 12' x 4' box culvert under East Valley Parkway, impacting 0.65 acre of streambed.	NOD	
2002079013	Los Esteros Critical Energy Facility Energy Commission San Jose--Santa Clara The project is a 180 MW simple-cycle power plant, with four G.E. LM6000 natural gas-fired turbines and associated electrical equipment. A storm water outfall will be installed on Coyote Creek. The California Department of Fish and Game is executing a Lake and Streambed Alteration Agreement number 1600-2005-0087-3 pursuant to Section 1602 of the Fish and Game Code to the project operator, Peter Hansen / Calpine Corp.	NOD	
2003121036	Metropolitan Transportation Authority West Los Angeles Transportation Facility and Sunset Avenue Project Los Angeles County Metropolitan Transportation Authority Los Angeles, City of--Los Angeles The proposed project consists of a state-of-the-art transportation facility from which to operate a fleet of up to 175 Compressed Natural Gas (CNG) powered buses and to provide improved public transit service in the central and western areas of Los Angeles County. Relocation of existing operations at Division 6 in Venice to this location would allow Metro to expand service from a more centralized location in response to growing ridership. Development of the transportation facility on the 4.66-acre site would provide Metro with expanded maintenance and administrative facilities, CNG fueling facilities, and bus and employee parking. The project would include 53,120 SF in a primary administrative/maintenance building and approximately 18,800 SF of auxiliary facilities.	NOD	
2004092034	Northwest Townhomes Truckee, City of Truckee--Nevada Planned Development, Tentative Map, and Use Permit for the creation of a 22-unit townhouse development within the CG (General Commercial) zoning district and a Use Permit for disturbance of slopes greater than 20%.	NOD

2004122124	Iron Rock Industrial Park Elk Grove, City of Elk Grove--Sacramento The project consists of a Tentative Subdivision Map and a Design Review of industrial development. The subdivision proposal would subdivide a 3.92-acre parcel into 5 industrial parcels ranging from 0.66 to 1.2 acres. The design review evaluates the architectural design of 5 warehouse buildings (one on each lot): one building is measured at 9,123 sf, three buildings at 10,000 sf and one building at 14,445 sf. The total size equates to 53,568 sf.	NOD	
2005049006	Crazy Horse Sanitary Landfill Monterey County --Monterey Permit revision.	NOD	
2005038430	Caltrans District 4 Building Seismic Retrofit Caltrans #4 Oakland--Alameda The proposed project would seismically upgrade the CALTRANS Office Building from Risk Level V to Risk Level III. Most of the project work will be completed on the interior of the building with minor exterior work within the building's footprint. The project will strengthen the building to meet additional seismic standards in the event of major earthquake by modifying existing connections between columns and beams and adding dampers.	NOE	
2005038431	Emerald BAY Boat Camp Reconstruction Parks and Recreation, Department of --El Dorado Reconstruct and rehabilitate the Boat Camp at Emerald Bay State Park. The facility has 22 campsites with no developed plan in the ingress and egress of pedestrian traffic to use them. The area has been highly impacted by forty years of use. Areas have been de-vegetated and the ground has become compacted.	NOE	
2005038432	Permanent Creek Railroad Bridge Deck Replacement Project Fish & Game #3 Mountain View--Santa Clara Replace timber deck on railroad bridge. SAA #1600-2005-0057-3	NOE	
2005038435	Partial Re-roof of Sutter's Fort Parks and Recreation, Department of --Sacramento The project consists of removing and replacing approximately 3,000 sf of cedar shake roofing covering the east and southeast wings of the Sutter's Fort State Historic Park. These wings of the Fort were reconstructed in 1890. The existing roofing, consisting of 24-inch heavy cedar shakes, is approximately 15 years old and has deteriorated to the point of allowing leakage. The new shakes will be the same size and type, and will have a class B fire rating. The new shakes will be installed using the same method as the existing shakes. Work will also include new galvanized sheet metal valley flashing, 60# felt underlayment, and repair of some minor rot in the existing rafters.	NOE
