STATE CLEARINGHOUSE

NEWSLETTER

March 16-31, 2009

STATE CLEARINGHOUSE NEWSLETTER

The State Clearinghouse distributes draft environmental documents to state agencies for review and comment, pursuant to the California Environmental Quality Act (CEQA). The State Clearinghouse also acts as the State Single Point of Contact for the review of federal grant applications and federal development projects. This Newsletter summarizes the environmental documents and federal grant applications received by the Clearinghouse during the period **March 16-31, 2009**.

CLEARINGHOUSE CONTACTS

Please contact The State Clearinghouse if you have any questions regarding processing of environmental documents or grant applications. We may be reached at:

Telephone: (916) 445-0613
Fax: (916) 323-3018
e-mail: state.clearinghouse@opr.ca.gov
website: www.opr.ca.gov/clearinghouse/clearinghouse.shtml

Questions regarding federal grant notices should be directed to **Sheila Brown**.

Questions regarding processing of environmental documents should be directed to:

Scott Morgan
Senior Planner

CLEARINGHOUSE MAILING ADDRESS

Please do not use our street address (1400 Tenth Street, Room 212) for mailing purposes. The correct mailing address is:

STATE CLEARINGHOUSE
P.O. BOX 3044
SACRAMENTO, CA 95812-3044

INFORMATION AVAILABLE ON-LINE

The 2001 CEQA Guidelines are available from the Resources Agency's website at <http://ceres.ca.gov/ceqa/>.

The State Clearinghouse Handbook, which contains all of our environmental document and grant processing procedures and forms, is available on our website.

**ENVIRONMENTAL DOCUMENT FILINGS WITH THE STATE CLEARINGHOUSE
2000 through 2008**

All CEQA documents filed with the State Clearinghouse are available for viewing on the Internet at <http://www.ceqanet.ca.gov/>

MEMORANDUM

DATE: February 13, 2007
TO: State Agency CEQA and Intergovernmental Review Coordinators
FROM: Scott Morgan, Senior Planner
SUBJECT: Distribution of Environmental Documents in CD-ROM Format

The State Clearinghouse has received an increasing number of requests from local and state lead agencies to distribute CEQA documents to state reviewing agencies in an electronic format, typically CD-ROM. The most common reason for these requests is to reduce cost. CD-ROMs are cheaper for the lead agency to reproduce and mail, and cheaper for the State Clearinghouse to distribute, especially in the case of multi-volume documents.

The State Clearinghouse has distributed EIR's and EIS's in CD-ROM format for state agency review and comment since August 1, 2003. Based on our experience with those documents, a survey conducted of state reviewing agencies and the potential cost savings to local and state agencies, we are extending this policy to other environmental documents including Negative Declarations, Mitigated Negative Declarations and Environmental Assessments. The State Clearinghouse will accept environmental documents under the following terms:

- CEQA Lead agencies may provide copies of draft environmental documents to the State Clearinghouse for state agency review in an electronic format. The document must be on a CD-ROM in a common file format such as Word or Acrobat.
- Lead agencies must provide fifteen (15) copies of the CD-ROM to the State Clearinghouse. In addition, each CD-ROM must be accompanied by 15 printed copies of the DEIR summary (as described in CEQA Guidelines §15123), executive summary, or introduction section of a Negative Declaration or Mitigated Negative Declaration. The printed summary allows both the State Clearinghouse and agency CEQA coordinators to distribute the documents quickly without the use of a computer.
- Final environmental documents may be provided in CD-ROM format without a printed summary. Distribution of the final documents is optional under CEQA.
- Federal lead agencies may send electronic copies of environmental documents to the State Clearinghouse in the same manner described for CEQA lead agencies. Distribution of NEPA documents to state agencies through the State Clearinghouse is encouraged pursuant to Presidential Executive Order 12372 and NEPA §102 (42 USC §4332)
- All notices of preparation must continue to be provided in printed format.
- Please provide one Notice of Completion Form with all submittals.

If your agency has difficulty downloading and reviewing any environmental documents please contact:

Scott Morgan, Senior Planner
916-445-0613
scott.morgan@opr.ca.gov

Thank you for your cooperation in the CEQA review process.

CEQA Documents

Key for abbreviations of Document Type:

CON	Early Consultation Notice
EIR	Draft Environmental Impact Report
SIR	Supplemental EIR
SBE	Subsequent EIR
EIS	Draft Environmental Impact Statement
EA	Draft Environmental Assessment
JD	Joint Document (CEQA/NEPA)
FONSI	Finding of No Significant Impact
Neg Dec	Negative Declaration/Mitigated Negative Declaration
NOE	Notice of Exemption
NOD	Notice of Determination
NOP	Notice of Preparation (of an EIR)
Oth	Other type (none of the above)

CEQA Actions

<u>Documents Received on Monday, March 16, 2009</u>			
2006091015	<p>Live Oak Master Plan, Live Oak Residential Project Hanford, City of Hanford--Kings Development of a residentially zoned project of approximately 390 (+/- acres for 1,560 dwelling units, with parks and open space. Construction of supporting infrastructure including streets, water, sewer, drainage facilities, and other public utilities in a six phase project that may take 5 to 10 years for full build-out.</p>	EIR	04/29/2009
2008041097	<p>General Plan Amendment 887, Change of Zone 7589, Tentative Tract 35751, Agricultural Preserve Case 975 Riverside County --Riverside The proposed project includes approximately 19.88 acres of multi-family residential development, totaling approximately 243 residential units, with a proposed recreation center and water quality basin. The proposed project includes the following land use applications:</p> <ul style="list-style-type: none"> - General Plan Amendment No. 887 proposes to change the project site's existing General Plan Land Use Designation from Community Development: Medium Density Residential (MDR) (2-5 Dwelling Units Per Acre) to Community Development: High Density Residential (CD:HDR) (8-14 Dwelling Units Per Acre) to allow for an increase in dwelling units for the subject site. - Change of Zone No. 7589 proposes to change the project site's existing Zoning Classification from Heavy Agriculture - 1 Acre Minimum (A-2-1) to General Residential (R-3), which will reflect the proposed project's land use designation and development standards. - Tentative Tract Map No. 35751 proposes a schedule 'A' subdivision of 19.88 gross acres into 24 lots consisting of 243 attached and detached dwelling units, as well as, related streets and infrastructure. The project also includes the construction of a recreation center and a water quality control basin. <p>Agricultural Preserve Case No. 975 is a request to cancel the Williamson Act contract affecting approximately 20 acres and to diminish the Mira Loma Agricultural Preserve No. 4 by removing said 20 acres.</p>	EIR	04/30/2009
2007102090	<p>Downtown Roseville Specific Plan Roseville, City of Roseville--Placer The project is implementation of the Downtown Roseville Specific Plan in a 176-acre area comprised of the existing Historic Old Town, Vernon Street Civic Core, and Royer and Saugstad Parks. The project area encompasses an infill area surrounded by built-out neighborhoods and the U.P. Railyard in central Roseville. The Plan would establish a mix of land uses in the Downtown to facilitate infill development, mixed-use, pedestrian scale, urban amenities, transit use, creative design, and revitalization of the Downtown. The Plan also established policies for pedestrian movement, alternative transportation, transit routes, vehicle traffic, and parking within the Downtown area. The Plan would implement improvements related to connectivity, place making, and creek restoration and flood conveyance identified in the Royer/Saugstad Park Master Plan.</p>	FIN

	proposed, the new building would observe a 166-foot setback from the northern property line fronting Chase Street, and a new masonry wall would be constructed along the property perimeter along the north, east, and western sides. One new 30-foot wide driveway accessing Schoenborn Street is proposed, at the southwestern corner of the property.		
2009031048	ENV-2008-3664-MND - 6627-6629 South Vista Del Mar Los Angeles, City of -- Vesting Tentative Tract No. 70671 to allow the conversion of an existing six-unit apartment building into a six-unit condominium on a 5,400 square-foot lot in the R3-1 Zone; Coastal Development Permit. No new construction. Located within the Los Angeles Coastal Transportation Corridor, Dual Jurisdiction Coastal Zone.	MND	04/14/2009
2009031052	Washington Road/Robertson Boulevard Intersection Project Chowchilla, City of Chowchilla--Madera The realignment would consist of reposition the last 400 feet +- of Washington Rd., so that its point of intersection with Robertson Blvd. (SR 233) is 162 feet southwest of its current location. This realignment will necessitate removal of a palm tree along Robertson Blvd., and also necessitate right of way acquisition involving a portion of APN 001-023-001, approximately 11,917 square feet. Along with the realignment process. Washington Rd. will be widened to its ultimate 80 foot roadway configuration. The widening will also necessitate right of way acquisition and necessitate removal of trees and other vegetation which will interfere with the construction of street improvements on APN's 001-003-008, 018 and 00-030-023-024, 054, 055 and 056. An existing earthen channel along the north side of Washington Rd. between the future Redwood St. and Maple St. will be eliminated at the time the roadway is constructed. The street improvements consists of removal of existing pavement section, and construction of asphalt concrete pavement, curb , gutter, sidewalk, ADA compliant curb returns, driveways, street lights, and a portion of a future traffic control signal system (underground conduit). In addition to the roadway improvements, a sanitary sewer system with appurtenant facilities, approximately 800 feet in length, and a domestic water line, approximately 1,100 feet in length, will be constructed. No Federal funds are used in this project.	MND	04/16/2009
2009032047	Poor Clares Housing PUD Santa Cruz County --Santa Cruz The project proposes General Plan amendments, a rezoning, and a Planned Unit Development (PUD) allowing a development density of 20 dwelling units per usable acre on a 4-acre portion of the project site. The rezoning would also require that any development proposal on the PUD portion of the parcel provide a minimum of forty (40) percent of the total number of housing units as affordable. Following project approval, development of the PUD portion of the project site would be by-right in that the use and density for the site would not be discretionary. The PUR portion of the site contains a maximum of 4 usable (developable) acres equating to a maximum of 80 dwelling units, and is located on the eastern-most portion of the subject parcel. The remainder of the project site would be designated in the general plan and zoned to accommodate an approximately 3-acre visitor accommodation use, an approximately 4-acre medical facilities use. The proposed project would amend the General Plan Land Use Designation of the parcel from "Visitor Accommodations (C-V)," and to	MND	04/15/2009

	"Commercial-Office (C-O)," Residential, Urban High (R-UH)," and "Visitor Accommodations (C-V)," and would amend Figure 2-5 in the General Plan related to Coastal Priority Sites to accommodate the change in Land Use Designation. Additional, the section of the Seacliff Village Plan relating to specific uses on the parcel would be amended to allow for the proposed residential and medical facility use on the project site. Finally, the parcel would be rezone from "Special Use (SU)" to "Multi-Family Residential, 2000 square feet per unit, Regional Housing Needs Combining Zone District Development of the remaining portion of the subject property not included in the PUD would not be "by-right" and would still be subject to further environmental review. Location is intersection of State Park Drive and Highway 1 in the Seacliff Village area.		
2009012067	Alta Bates Summit Medical Center, Summit Campus Seismic Upgrade and Master Plan Oakland, City of Oakland--Alameda NOTE: Re-issued	NOP	04/15/2009
	The Project Sponsor proposes to upgrade existing facilities and construct new facilities in a phased master plan. Phase 1 of the project entails construction of a new and upgraded patient care pavilion (primarily a replacement acute care hospital tower and relocated emergency department), which will bring the acute care patient facilities of the Summit Campus into compliance with the seismic safety requirements of Senate Bill (SB) 1953. Phase 1 will also construct a new parking structure onsite. Phase 1 is expected to be complete by year 2013 to comply with the schedule requirements of SB 1953.		
2009031043	Regional Connector Transit Corridor Los Angeles County Los Angeles, City of--Los Angeles Notice of Preparation for a draft Environmental Impact Report (EIR) for proposed light rail transit improvements to the Regional Connector Transit Corridor in Los Angeles County, California. The Los Angeles County Metropolitan Transportation Authority Board of Directors will adopt a Local Preferred Alternative (LPA) based on the findings of the draft EIR.	NOP	05/11/2009
2009031044	Re-Adoption of Proposed Rule 1315 - Federal New Source Review Tracking System, and Proposed Amendments to Rule 1309.2 South Coast Air Quality Management District --Los Angeles, Orange, San Bernardino, Riverside The project is to be considered involves the re-adoption of proposed Rule 1315 and adoption of proposed amendments to Rule 1309.2. Rule 1315 would codify existing procedures for establishing equivalency with federal offset requirements for the use of internal offsets by operators of various projects subject to Rule 1309.1 - Priority reserve, Rule 1309.2 - Offset Budget, (which is pending approval by the United States Environmental Protection Agency), and Rule 1304 - Exemptions, and would specify the types of reductions that may be deposited in the SCAQMD's internal offset account, including newly tracked reductions. Rule 1309.2 establishes an offset budget pre-funded by surplus shutdowns from non-major polluting facilities and requires mitigation fees for access to the offset budget. The proposed amendments to Rule 1309.2 would preclude fossil fuel-fired thermal power plants from accessing credits from the Rule 1309.2 Offset Budget other than certain facilities that generate electricity for their own use, update the mitigation fees based on current market prices of emission reduction	NOP	04/15/2009

	credits, and clarify the public notice requirements. The analysis in the Initial Study (IS) shows that access to, and use of, emission offsets from the SCAQMD's internal offset accounts could generate potentially significant direct adverse air quality impacts from new or modified facilities using the emission offsets. In addition, significant adverse indirect environmental impacts from siting, constructing, and operating these facilities could occur. Potential direct and indirect impacts from the proposed project will be evaluated in the Draft Program Environmental Assessment.		
2009031049	Bacara Resort & Spa Completion Phase Project Goleta, City of Goleta--Santa Barbara The proposed project involves a request for approval of a 55-unit resort condominium hotel development within a 12.66-acre project site located on "Lot 2" east and adjacent to the existing Bacara Resort and Spa, and widening of the existing Hollister Avenue access. The resort condominium hotel units (suites) would range in size from approximately 2,300 to 2,900 square feet, and would be constructed within a total of nine (9) buildings with a building height of 35 feet from finished grade, plus up to an additional 6 feet for chimneys and raised roof extensions. Modifications to recommended standards for building intensity may be necessary. Additional proposed improvements include a pool, pool cabanas, resort support facilities, and guest parking. An underground parking garage with 113 spaces would accommodate hotel guest parking, and would also includes areas for resort services and storage. To accommodate the proposed improvements, the existing tennis club/maintenance building, four tennis courts, the 50-space public beach access parking lot, and the vertical public beach access trail would be relocated within the 12.66-acre project site on "Lot 2".	NOP	04/16/2009

This is also a Zone Reclassification to amend the zoning of the same 17 acres from General Agriculture, 40-acre minimum parcel size (AG-40) to Freeway Service Commercial (C-FS).	Neg	04/14/2009
2009032050	"Carrington" Tentative Parcel Map TPM08-0009 Butte County --Butte A Tentative Parcel Map to divide +/-538 acres into six (6) 40 acre-minimum parcels ranging from 40-150 acres in size.	Neg	04/14/2009
1996082016	Tuolumne County General Plan Update Tuolumne County On Dec. 12, 1996, the Board of Supervisors certified an EIR for the Tuolumne County General Plan Update. The EIR for the General Plan Update was prepared as a program EIR under the provisions of Section 15168 of the State CEQA Guidelines. As a program EIR, the document adopted by the Board of Supervisors adequately addresses the potential environmental impacts associated with the comprehensive update of the County's constitution for growth including certain implementation activities and provided for streamlining of the environmental review process for projects proposed subsequent to the certification of the EIR. The proposed project entails dividing the project site consistent with the General Plan land use designation and, therefore, pursuant to Section 15183 of the State CEQA Guidelines, no additional review under CEQA is required for Tentative Parcel Map T08-014.	NOD	
2008071124	139-231 Pacific Avenue Coastal Bluff Stabilization Project Solana Beach, City of Solana Beach--San Diego The project involves a request for a Conditional Use Permit to maintain and stabilize two existing shoreline projects, in addition to, extending stabilization efforts of the coastal bluff further south. The ten subject residential properties span an ~660 ft long reach of the coast and are located beginning immediately north of Fletcher Cove, in the City of Solana Beach.	NOD

The Bellflower Unified School District Network project will involve the installatio of 8.38 miles of aerial fiber in existing structures and 0.69 miles of underground fiber (trenching).	NOE	
2009038148	East Whittier City School District Network Public Utilities Commission Whittier--Los Angeles Sunesys installs/operates fiber optic ethernet networks on behalf of school districts, universities, and library system. The East Whittier City School District Network project will invovles the installation of 10.37 miles of aerial fiber in existing structures and 1.18 miles of underground fiber (trenching).	NOE	
2009038149	NextG-Cricket La Mesa Distributed Antennae System (DAS(project Public Utilities Commission La Mesa, Santee, El Cajon--San Diego Installation of approximately 19 micro antenna, underground and aerial fiber optic cable, and other DAS related equipment.	NOE	
2009038150	Ocean View Drive Rehabilitation Del Norte County Crescent City--Del Norte The project consists of overlaying Ocean View Drive from Mouth of Smith River Road to 1100 feet south of Spyglass Road. The project will repair a section of road that has rapidly deteriorated due to increased development and recent Caltrans roadwork which diverted substantial traffic from US Hwy 101 to Ocean View Drive. It will not only benefit vehicular traffic, but bicycle traffic as well, which has been increasing over the years.	NOE	
2009038151	Lake Earl Drive Rehabilitation Del Norte County Crescent City--Del Norte The project consists of an overlay of Lake Earl Drive from Buzzini Road to Elk Valley Cross Road. The section of road was not included in the rehabilitation of Lake Earl Drive several years ago and is deteriorating rapidly. This roadway benefits the many employees of Pelican Bay State Prison who commute to work using this route, as well as the residence of Fort Dick.	NOE	
2009038152	Pebble Beach Drive Del Norte County Crescent City--Del Norte The project consists of resurfacing and re-striping Pebble Beach Drive from Hemlock to Washington Boulevard (including existing bicycle lanes). This will be done in conjunction with another State-funded project from the City limits of Crescent City to Hemlock. The life of the road will be extended for 20 years. This project benefits not only local residence, but the numerous travelers from out of the area, and out of the County, that utilize this roadway.	NOE

2009032054	Ohlone Greenway Master Plan El Cerrito, City of --Contra Costa The El Cerrito portion of the Ohlone Greenway is ~2.7 mile, 21 acre (or 912,000 sf) linear park and non-motorized transportation corridor underneath and adjacent to the elevated BART tracks. The Greenway traverses the entire length of the City running roughly parallel to San Pablo Avenue. To its south, it connects with the Albany Ohlone Greenway which connects to the Berkeley Ohlone Greenway. To its north, it is planned to eventually connect to the Central Richmond Greenway which is under construction. The developed site is in a highly urbanized area, and the Greenway is constructed on what was once a freight railroad right-of-way and underneath and adjacent to current elevated BART tracks.	Neg	04/15/2009
2005091138	Rio Vista Water Treatment Plant Expansion Castaic Lake Water Agency Santa Clarita--Los Angeles The original project is the expansion of the existing CLWA RVWTP treatment capacity from 30 mgd to 60 mgd (16,790 acre-feet per year [AFY] to 33,580 AFY [Average Annual Load]) in response to current and new water quality standards, to improve reliability to meet existing customer demands, and planned future demand with certain modifications to the existing ozone treatment system at the RVTWTP (the "Original Project"). The Original Project FEIR (SCH# 2005091138) evaluated the construction and operational environmental impacts of the Original Project. In particular, the Original FEIR contained in-depth analyses of hazards and hazardous materials, noise, population and housing, and transportation/traffic. Direct impacts to the other environmental resources were found to not be significant in the Initial Study prepared for the Original Project and therefore were not discussed in detail in the Original Project FEIR. 2008082107	Bunting Pond Fish Screen Project Alameda County Water District Fremont--Alameda Project consists of installation of a fish screen for an existing water diversion. Th eproject includes the installation of a fish screen facility for an existing water diversion. The California Department of Fish and Game is executing a Lake and Streambed Alteration Agreement No. 1600-2008-0499-3 pursuant to Section 1602 of the Fish and Game Code to the project Applicant, Robert Shaver/Alameda County Water District.	NOD	
2008122094	Heller culvert replacement and stream restoration along Palmer Creek Humboldt County Blue Lake--Humboldt A Special Permit for culvert replacement and stream restoration on Palmer Creek. The approximately 40 acre parcel is currently developed with a single family residence and several outbuildings. The culvert will be replaced to widen and pave the existing driveway. The proposed replacement culvert will be 40-foot long 7-foot by 5.75 foot corrugated steel pipe arch culvert. All work is proposed to occur during the dry season. Approximately 3.15 cubic yards of cut will occur and approximately 172 cubic yards of fill will be imported to the site. As a second phase to the project, within five year stream restoration will occur along approximately 2,000 linear feet of Palmer Creek. Restoration activities will include, increasing the active flood plain width, installing log and boulder cover structures and increasing the riparian corridor to at least 50 feet by planting native vegetation. This work will be done in conjunction with a Department of Fish and Game grant. Additionally, 500 feet of decking will be added to the existing residence, which is within the stream side management area. This qualifies as "minor development" under the Streamside Management Area Ordinance and no special Permit is required for this activity. No trees are proposed to be removed.	NOD	
2009021028	Greenfield Union School District-Middle School #4 Greenfield Union School District Bakersfield--Kern The project is the construction and operation of an elementary school on ~30 acres of land on the southwest corner of Panama Ln and Cottonwood Rd, in southeast Bakersfield, CA. The proposed school site will consist of 48 classrooms and 4 special education classrooms, along with an administrative building, library and multi-purpose food serive building. This project will also include play areas and paved parking areas, with landscaping throughout the campus. The proposed campus will house ~1100 students and 90 employees.	NOD

2009021034	Greenfield Union School District-Crescent Elementary School Greenfield Union School District Bakersfield--Kern The project is the construction and operation of an elementary school on ~19 acres of land on the southwest corner of Panama Ln and Cotton Rd, in southeast Bakersfield, CA. The proposed school site will consists of three kindergarten, 18 primary, 8 intermediate and 3 special education classrooms, along with an administrative building, library and multi-purpose food service building. This project will also include play areas and paved parking areas, with landscaping throughout the campus. The school will serve ~925 students and house 70 employees.	NOD	
2009022016	Hum Co DPW-Drewry Rock Quarry Conditional Use/Surface Mining Permits and Reclamation Plan Humboldt County --Humboldt A modification and renewal of a Conditional Use/Surface Mining Permits, approval of Reclamation Plan and review of financial assurance cost estimates for an existing surface mining operation known as the Drewry Rock Quarry and previously known as the Bell Springs Rock Quarry. The term is 15 years and will expire in March 10, 2023. The site has historically been mined since 1993 by the Humboldt County Dept. of Public Works for a total of 30,807 cubic yards. The original permit allowed for annual extraction of 2,000 cubic yards for a total of 30,000 cubic yards and periodic use of a portable crusher 2 weeks annually. The modification proposes an annual extraction of up to 20,000 cubic yards with the total amount of extraction not to exceed 69,200 cubic yards. Operations include extraction, crushing and stockpiling. No washing and no asphalt/cement batch processing will be conducted on site. In the event localized greywacke boulders are encountered, small scale seperation with charges may be performed. No new access roads to the quarry will be constructed. Heavy equipment to be used on site includes: an excavator, a front end loader, and a portable rock crusher. The Humboldt County Dept. of Public Works has a License Agreement with the owner for activities associated with mining, crushing and stockpiling.	NOD	
2009022017	Hum Co DPW-Moore Rock Quarry Conditional Use/Surface Mining Permits and Reclamation Plan Humboldt County --Humboldt A modification and renewal of Conditional Use/Surface Mining Permits and approval of Reclamation Plan and review of financial assurance cost estimates for continued quarry operations of the Moore Rick Quarry. In 1992, the County permitted re-opening of the historic rock quarry and allowed extraction of up to 10,000 cubic yards every 2 years with a total removal volume of 70,000 cubic yards. Only half of the total volume of rock available has been removed. The current project proposes extraction and crushing of up to 10,000 cubic yards of rock as frequently as annually and will utilize an ~2.45 acres. Mining activities include extraction of rock from the quarry face, crushing and transporting crushed gravel to the stockpile near the road. Extraction is proposed to be accomplished by ripping and breaking up the rock with a bulldozer. In the event that localized graywacke boulders are encountered, small scale seperation with charges will be performed. Vegetation, including 10 trees, will be removed from the west side of the quarry. Equipment also includes crawler tractor, crusher unit, front-end loader and dump truck. The Couty Dept. of Public Works has a License Agreement with the land owner for activities associated with mining, crushing and stockpiling rock.	NOD

2009038182	Relocate Pluto Interpretive Sign Parks and Recreation, Department of --Sonoma Relocate the Planet Walk Interpretive Sign for Pluto adjacent to the Brushy Peaks Trail at Sugarloaf Ridge State Park to a location accessible to visitors. Work will remove the sign from a closed section of trail and then dig an approximately 8-inch diameter by 12-inch deep hole for the signpost at the new location approximately 10 feet to the north with hand tools. The Pluto sign is an approximately 7 inches wide by 11 inches tall mounted at an approximately 45 degree angle on a 4 x 4 post.	NOE	
2009038183	Defensible Space Around Historic Structures Parks and Recreation, Department of --Sonoma Provide up to 300' of defensible space around the historic structures at Beauty Ranch in Jack London State Historic Park to protect the structures from wildfire. Work will use chainsaws and hand tools to remove under story fuels from around the eucalyptus trees within the up to 300' area. In addition, work will thin/remove eucalyptus re-sprouts and seedlings from with an approximate 300' area around the historic wooden Jack London Cottage.	NOE	
2009038184	Cattle Fence Installation Parks and Recreation, Department of --Contra Costa Install approximately five miles of three to five-strand barbed wire fencing along the park boundary of Cowell Ranch/John Marsh State Historic Park to contain DPR leasee's cattle within the park unit. Currently, there is no external fencing along some portions of the park boundary. Excavate approximately three foot deep by two inch diameter T-post holes, install additional five foot high posts to a depth of three feet deep as necessary.	NOE	
2009038185	Redding Telecommunications Division Relocation General Services, Department of Redding--Shasta Redding Telecommunications Division Relocation - 2466 Progress Drive, Redding, CA	NOE	
2009038186	Fresno Telecommunications Division Relocation General Services, Department of Fresno--Fresno Fresno Telecommunications Division Relocation 2508 N. Business Park Avenue, Fresno, California.	NOE	
2009038187	Sugarloaf Ridge State Park - Stern Ranch Parks and Recreation, Department of --Sonoma The proposed project consists of an acquisition of two parcels totaling 632.3 acres of land located in Sonoma County, California, assessor parcel numbers 51-010-072 and 51-010-086. The two parcels are contiguous and will be an addition to Sugarloaf Ridge State Park. The property has a residential developed area estimated to contain about ten acres within the overall property, with four houses, a barn, garage, and several outbuildings. The proposed action will transfer ownership to the California Department of Parks and Recreation. It is anticipated that these improvements will continue to be used by State Park personnel.	NOE

2009038188	Propane Tank Installation and Generator Replacement Parks and Recreation, Department of --Nevada Install new propane tank and replace failing diesel generators with two Onan/Cummins 6500 watt propane generators at the Derbec Well Shed at Malakoff Diggins State Park. The purpose of the project is to upgrade park electricity sources and reduce noise and particulate emissions inside the park unit. Install new 500 gallon propane tank on four free-standing concrete pads approximately 30' away from the Derbec well shed.	NOE	
2009038189	Upgrade of Vehicle Wash Rack Parks and Recreation, Department of --El Dorado Install a 6" sewage collection line from the discharge of the existing wash rack to the maintenance shop and sewer collection line at Sugar Pine Point State Park. Install a manhole to connect the maintenance shop discharge line to the new wash rack discharge line. Install two multi-directional clean-outs/manholes at the wash rack. Install a grease separator with sample port between the wash rack and new manhole.	NOE	
2009038190	Villalovoz Elementary School - Addition of Students Tracy Unified School District Tracy--San Joaquin The project will comprise the addition of 132 students to the Villalovoz Elementary School. Attendance will increase from 539 to 671 students. The additional enrollees will come from the Delta Island Elementary School, which will be closed. Four busses from the relatively nearby (one mile) maintenance yard, that are currently used to bus students to the Delta Island Elementary School, will be used to transport the tranferees to the Villalovoz Elementary School, will be used to accommodate the increased number of students.	NOE	
2009038191	Dixon Veterans Tenant Improvement General Services, Department of Dixon--Solano The proposed Tenant Improvement (TI) project will be constructed within an existing 7,468 square foot shell building built in 2006 and located at 1305 North First Street in Dixon, CA. This structure has not been previously occupied. This facility is planned to house functions of the Dixon Veteran's groups (currently located at the Dixon Vetarans Memorial Hall located at 231 North First Street in Dixon) including Veterans of Foreign Wars, American Legion, and the Ladies Auxillary. The improvements will include one large assembly hall to house 245 occupants, supported by a full commercial kitchen and bar; three smaller meeting rooms, each housing 25 occupants; 3 private offices and rest rooms to accommodate the occupants. 2009031057	Fire Station 1 and Headquarters Relocation Tulare County Visalia--Tulare The Project proposes the relocation and construction of Fire Station 1 and the Fire Headquarters building. The project would be comprised of a 7,000 sf Fire Station, a 16,500 sf building for the Administration, Communication Center, and the County Emergency Operations Center and a 7,480 sf engine company maintenance shop and supply/service center.	MND	04/16/2009
2009031059	City of Guadalupe Redevelopment Agency Amendment Guadalupe, City of Guadalupe--Santa Barbara The project involves an increase in the annual tax increment limit, which is currently set at \$1,000,000. It also would extend the effective date of the Redevelopment Plan, which is currently 1985 to 2025. The proposed project also includes the creation of programs to eliminate economic and physical blight, establish fair market home values, decrease building vacancy, improve human health and safety, fund infrastructure improvements, and provide economic incentives that will stimulate economic revitalization of the project area. In addition, revenue from the tax increment limit increase will be used to service existing debt incurred by the Redevelopment Agency.	MND	04/16/2009
2009031060	Borrego Springs Water Supply Augmentation Project Borrego Water District --San Diego Drill 4 production wells, 2 monitor wells and construct a 6 mile pipeline along county road right-of-way.	MND	04/16/2009
2009032056	Logan Place Petaluma, City of Petaluma--Sonoma The request has been made for the purpose of constructing a 66 unit multi-family affordable rental housing community - Logan Place - to be located on a 2.61 acre parcel at 1200 Petaluma Blvd North, just north of Shasta Avenue between the under-construction Lakeville Auto Body and the Sheet Metal Workers Union Hall. The project will include 6 studios, 12 one-bedroom, 21 two-bedroom, and 27 three-bedroom apartment units in four 3-story buildings and one 4-story podium building. Site amenities are proposed to include: outdoor common areas, a turf area, a tot-lot, a sport court, laundry facilities, an indoor community room with kitchen, and office space for both property management and community service uses. The density is proposed at 25.3 units to the gross acre. Rents will range from 30% to 60% of area median income and will be affordable for at least 55 years. The project has direct access via two driveways off Petaluma Blvd North. 123 parking spaces are proposed (1.86 spaces per unit).	MND	04/16/2009
2009032058	Gold Street Educational Center Santa Clara Valley Water District San Jose--Santa Clara The Gold Street Educational Center would include a 10-12 stall parking, decomposed granite trails, interpretive signage, a gazebo, a restroom, rope fencing, and landscaping with a mixture of native shrubs and trees. The educational center would provide a link to adjacent recreation trails, and an opportunity to educate the public about the history of Alviso in association with the Guadalupe River.	MND	04/20/2009

2009032059	Stockton Recycling Stockton, City of Stockton--San Joaquin Use Permit to allow the expansion of an existing recycling and transfer facility (Stockton Recycling). The 2.05 acre project site will be expanded to increase the average daily material acceptance from 500 to 1,000 tons per day, the weekly material acceptance from 2,500 to 7,000 tons per week, and allow the operation to be opened 24 hours a day.	MND	04/16/2009
2009031056	LA Water, LLC Chemical Manufacturing Facility South Gate, City of South Gate--Los Angeles The proposed project involves construction of a new plant for the production of drinking water and wastewater purification products. The new products would be liquid in form and would include ferric chloride, ferrous chloride, ferric sulfate and ferrous sulfate. These products are predominantly used in the purification of both municipal wastewater and drinking water. The proposed physical improvements to the property include: * 9,100 square-foot, two-story office, shop, control room, and administration building * 19,800 Square-foot tank farm with containment walls * 12,690 square-foot process building * 2,350 square-foot ferrous chloride production and scrubber enclosure * 6,800 square-foot ferrous sulfate production enclosure * 26-space surface parking lot.	NOP	04/16/2009
2009031061	Newport Banning Ranch Newport Beach, City of Newport Beach--Orange Up to 1,375 residential dwelling units, 75,000 square feet of commercial uses, and 75 visitor serving resort units. Existing oil wells within proposed development and open space areas would be abandoned and the area would be remediated. Two consolidated oil fields would be retained (20 acres of the open space). The proposed Project designates approximately 243 of the project site's 401 acres for Open Space uses. The Open Space District comprises three categories: (1) Lowland Open space/Public Trails and Facilities (LLOS/PTF); (2) Upland Open Space/Public Trails and Facilities (UOS/PTF); and (3) Consolidated Oil Facilities (OF). Approximately 131 acres would be in open space including wetland restoration areas, water detention, trails and viewpoints, and habitat conservation areas. The project includes 45 acres for parks.	NOP	04/16/2009
2009031062	Tentative Parcel Map No. 36034 Riverside County --Riverside The project consists of the following land use applications: Tentative Parcel Map No. 36034 is a schedule 'E' subdivision of approximately 99.96 gross acres into 20 industrial parcels as well as related streets and infrastructure. Currently there is no specific development project identified in conjunction with the parcel map. For the purposes of this and subsequent environmental analyses, the Project is assuming a maximum buildout of 1,693,417 square feet of business park development, calculated using the proposed parcel sizes and a maximum buildout potential Floor Area Ratio (FAR) of 0.45, to assess the maximum potential environmental impacts of buildout of the project site. 2007121072	highland Avenue Walmart Expansion Project San Bernardino, City of San Bernardino--San Bernardino The proposed project consists of expanding the existing 129,794 square-foot Walmart store by 41,644 square feet to a total square footage of 171,438. The expanded store would retail general merchandise and groceries and operate 24 hours a day, 7 days a week. Site improvements to parking, drainage, and pedestrian circulation would also be implemented.	EIR	05/04/2009
2009021065	Bella Investments Monterey County --Monterey Minor Subdivision tentative map to divide one (approximately) 45.7 acre parcel into three (3) parcels of 8.28 - lot 1; 8.67 acres - lot 2; and 25.75 acres - lot 3. In addition, lot 3 will provide a viewshed easement of 8.2 acres. The property is located at 2666 North El Camino Real, Salinas (Assessor's Parcel Number 125-215-041-000), North county non-coastal area. The project will include demolition of two existing residences, providing one unit per property, to ensure compliance with septic system requirements.	MND	04/17/2009
2009031066	Cricket Communications - Felicita Regional Park Telecommunications Facility San Diego County --San Diego The proposed project is a Major Use Permit by Cricket Communications for an unnamed telecommunications facility consisting of a 50-foot high stealth faux monocypress with three antennas mounted within the tree. One Nortel CMO equipment cabinet will be enclosed in an equipment shelter with a roof to fully conceal the cabinet. The property is zoned S80 (Open Space) which permit Wireless Telecommunication Facilities under Tier 4 Classification of Rural Zones with an approved Major Use Permit pursuant to Section 6985a of the Zoning Ordinance.	MND	04/17/2009
2009031067	Qjai Creek Village Project (DRP 06-14) Ojai, City of Ojai--Ventura Demolition of two single-family residences and the construction of four new air-space condominiums for residential uses. One unit would be a mixed-use residential/commercial unit.	MND	04/20/2009
2009032060	Bailey Bridges Project Parks and Recreation, Department of --Humboldt The Department of Parks and Recreation proposes to install annually two summer seasonal Bailey bridges on the South Fork Eel River to provide vehicle access to portions of campgrounds at Richardson Grove State Park and Standish-Hickey State Recreation Area. The bridges can vary in length seasonally to match the dynamic river bar, allowing the river to be spanned without moving material into the summer flow channel. A temporary road would be constructed across the river bar to the bridge location connecting paved access points at each campground. Bridge approach roads would be constructed by heavy equipment moving on-site river gravel. The final graded road surface would be watered and compacted before public use. Bridge abutments would consist of gravel-filled concrete pipes or large boulders back-filled with river gravel. Bridge installation would involve the use of heavy equipment to move and align parts and hand tools to assemble.	MND	04/17/2009

	Bridge segments would be assembled on dry ground, moved into place on rollers, and suspended thereby avoiding disturbance to the summer low flow channel. The bridges and approach roads would be dismantled and removed prior to the onset of winter season flows, and the river bar would be excavated back to original grade, width, and alignment.		
2009032061	Wastewater Treatment Plant Expansion Phase III Patterson, City of Patterson--Stanislaus The project assessed by the initial study includes the construction of a 1.25 mgd oxidation ditch and clarifier, a grinder/splitter structure, a return activated sludge and waste activated sludge pump station, three additional aerobic digesters, a dewatering screw press or centrifuge, improvements to the existing influent pump station (aluminum planking system on top of the IPS, an aluminum chute and bagging system for the screening of deposits, and a biofilter system to treat the foul air), and interconnection piping between the North Activated Sludge System and South Activated Sludge System.	MND	04/17/2009
2009032062	Groundwater Blending Program Patterson, City of Patterson--Stanislaus The project assessed by this initial study includes the construction of a groundwater blending system. This includes installation of a 2,500,000 gallon blending tank, a pumping facility to distribute the blended water, dedicated pipes to convey water from each well to the blending tank, and two new water supply wells to provide higher quality water for the project. Water from five existing City wells and the two proposed wells would be directed to the groundwater blending facility and then distributed to users.	MND	04/17/2009
2009032063	Parcel Map #09-03, Kevin Johnson Tehama County Red Bluff--Tehama To create two parcels; one parcel of approximately 40 acres, and one parcel of approximately 69.14 acres in an EA-AP; Exclusive Agricultural - Agricultural Preserve Zoning District. The project is located approximately six miles southwest of Red Bluff, predominantly on the north side of Red Bank Road, approximately one half mile west of the Red Bank Road / Eaton drive intersection APN: 25-090-72. 109.14 acres.	MND	04/17/2009
2009032065	Pal Alto Recycling Project Palo Alto, City of Palo Alto--Santa Clara The Project consists of the installation of a recycle water pipeline, a booster pump station, and a pump station at the RWQCP for the City of Palo Alto and represents the next increment of the Palo Alto Regional Water Quality Control Plant's (RWQCP) ongoing expansion of its regional recycled water system. The proposed Project would involve the construction of approximately 5 miles of 12 to 18-inch recycled water pipelines, a booster pump station, approximately 5 miles of lateral pipelines to over 50 use sites, and a pump station at the RWQCP. The Project would initially serve approximately 900 AFY of recycled water, mostly to the Stanford Research Park Area. Future extensions could serve Stanford University and Los Altos Hills, as well as provide a loop by making a second connection to the Phase 2 Mountain View Project. The predominant use of recycled water for this Project is landscape irrigation. Some industrial use, such as	MND	04/17/2009

	commercial and light industrial cooling towers, could also be included at a later date.		
2009031065	Luxe at Colfax Project Los Angeles, City of --Los Angeles The Project, as proposed, would involve the development of a mixed-use development of an approximately 141,594 square foot, four-to five-story building, which would include approximately 354 studio and loft residences, approximately 4,000 sf of retail uses, and approximately 1,000 sf of restaurant uses. The studio units would average approximately 365 sf in size. Parking for the proposed project would be provided on a portion of the ground floor as well as in two levels of subterranean parking. A total of approximately 380 parking spaces would be provided. Access to the parking would be from two driveways on Ventura Boulevard, east of Colfax. The existing buildings on the project site would be removed.	NOP	04/20/2009
2009031063	Scoggin/Sundheim Winery Case #08DVP-00000-00003 09NGD-00000-00005 Santa Barbara County Buellton--Santa Barbara Final Development Plan (08DVP-00000-00003) to construct a 20,000 square foot Winery building with public tasting groom and six annual special events onsite with a maximum of 150 attendees per event.	Neg	04/17/2009
2009031064	Kern County Water Agency-Dudley Ridge Water District Exchange Program Kern County Water Agency Bakersfield--Kern, Kings The Kern County Water Agency-Dudley Ridge Water District Exchange Program is a long-term water exchange program between the Kern County Water Agency (Agency) and Dudley Ridge Water District (Dudley) to allow for multi-year exchanges of State Water Project (SWP) water between Member Units of the Agency and Dudley. The purpose of the Water Exchange Program is to improve water management opportunities within the Agency and Dudley by creating a program that would accelerate the Department of Water Resources (DWR) approval process of the kinds of water transfers and exchanges that have successfully occurred in the past between Dudley and the Agency. The program would allow for the timely water transfers and exchanges that would utilize the water supplies and existing facilities in a more beneficial manner for the growers, thereby improving water management practices within the Agency and Dudley. 2009032066	Brentwood Capital Improvement Program Budget 2009/10-2013/14 Brentwood, City of --Contra Costa The proposed project is the City's Capital Improvement Program (CIP) Budget for fiscal years 2009/10-2013/14, which identifies proposed capital improvements and preliminary budgets for projects throughout the City over a five-year period. Capital improvements include a range of public works and infrastructure projects to improve the quality of life for local residents and visitors. Proposed projects include roadways, parks and trails, water, wastewater, drainage and community facility improvements, plus development-funded improvements throughout the City of Brentwood.	Neg	04/17/2009
2000072051	Jepson Parkway Project Solano Transportation Authority Vacaville, Fairfield, Suisun City--Solano The Jepson Parkway Project would provide a 12 mile long, four lane divided arterial in Central Solano County and includes improvements to Leisure Town Road, Vanden Road, Cement Hill Road, and Walters Road. The project includes: widening of existing roadways; construction of a northern extension of Walters Road between Cement Hill Road and Air Base Parkway; grade separation of the UPRR mainline tracks; crossings of Alamo Creek and McCoy; bicycle and pedestrian paths; landscaping; and utilities relocation.	NOD	
2008021127	City of Vista/CDFG Master Drainage Maintenance Agreement Vista, City of Vista--San Diego The City of Vista Storm Water Conveyance System Maintenance Program consists of on-going, routine flood control maintenance of bridges, culverts, and selected channels. Project activity will consist predominantly of removal of accumulated sediment and/or vegetative debris (26 of the 35 sites), but also includes digging with a backhoe to inspect and clear pipes, trimming or removal of non-native species, trimming of native vegetation, and reinforcement of existing rip-rap. Construction of recreational footpath is also proposed at site #7 and removal of a barricade is proposed for site #17. (SAA#1600-2008-0318-RS)	NOD	
2008051024	Hesperia Water District Water and Wastewater Master Plans Hesperia Water District Hesperia--San Bernardino Addendum to the Mitigated Negative Declaration adopted for the 2007 Wastewater Master Plan by the Hesperia Water District. These Master Plans were adopted in June 2008, and identify the water and wastewater system improvements that are forecast to be required to meet the water service demands of the District through the year 2032. Their implementation are divided into "near-term" (by 2012), "mid-term" (2012-2017) and long-term (post 2017) improvement schedules. One mid-term project (installation of two new reservoirs at Plant 19A) has been determined to be needed immediately (near-term). The purpose of the Addendum is to evaluate the environmental effects of bringing this project forward and construct in 2009, instead of waiting until 2012-2017.	NOD

	operations, including but not limited to: a) final closure of a portion of Phase I of the landfill disposal footprint; b) closure of the existing Central Accumulation Facility (CAF) where hazardous waste separated through the load check program is consolidated; c) increased diversion activities within the Waste Recycle Park (WRP) that may include processing tires; d) construction and demolition (C&D) waste and green/woody waste; e) expansion of the area for equipment maintenance into the area where the existing field office is located; and f) the potential installation of a landfill gas-to-energy facility.		
2009011069	Clair Well #5 - Drilling Development of a Third Groundwater Well for Portable Water at Existing Well Site Health Services, Department of Stanton--Orange The Golden State Water Company proposes to construct an additional well at the Clair Plant Site, where two wells are currently in operation. As part of the project, new yard piping to connect the well to the existing distribution system would be installed. A site drain line for waste discharge would also be installed and be connected to an existing storm and associated piping. In the event that treatment would be needed to remove perchlorate, one of the existing wells (Clarie Well #3) would be removed and the space used for treatment vessels. Sodium hypochlorite would be injected to maintain a pre-determined disinfectant in the water.	NOD	
2009039008	Southern Region Tertiary Treatment Plant Regional Water Quality Control Board, Region 9 (San Diego), San Diego --San Diego The SRTTP will recycle and reuse tertiary treated wastewater for landscape irrigation within the boundaries of Camp Pendleton.	NOD	
2009038200	Weymouth Water Quality Laboratory Chiller Compressors Replacement Metropolitan Water District of Southern California La Verne--Los Angeles The Metropolitan Water District of Southern California (Metropolitan) proposes to replace the old compressors at the F.E. Weymouth Water Treatment Plant Water Quality Laboratory. The existing unit will be replaced with a rebuilt unit in order to maintain environmental temperatures and to comply with monitoring and sample handling requirements.	NOE	
2009038201	Perris Bypass Pipeline Soil Sampling Metropolitan Water District of Southern California Perris--Riverside The Metropolitan Water District of Southern California proposed to take soil samples at approximately 15 locations along the Perris Bypass Pipeline. The borings, which will be 20 to 25 feet in depth, will be made by a truck-mounted drill and will identify areas of potential corrosion along the pipeline. All sampling locations are within the existing unpaved patrol road.	NOE	
2009038202	TransitAction Plan, Short Range Transit Plan and Americans with Disabilities Act Plan Sacramento Regional Transit District Rancho Cordova, Sacramento, Citrus Heights--Sacramento The Sacramento Regional Transit District (RT) is the largest transit provider in the Sacramento region. RT's boundary includes much of the unincorporated area of Sacramento County and the cities of Sacramento and Rancho Cordova. The City of Citrus Heights contracts with RT for the provision of public transit services. The City of Folsom provides its own bus service, but contracts with RT for regional light	NOE

	staff.		
2009031070	Arvin Waste Water Treatment Plant Expansion Arvin, City of Arvin--Kern The Arvin Wastewater Treatment Plan is located in the southwest area of the city of Arvin. The Plant has been in operation since the early 1970's and was expanded in 1999 where the original consolidation ditch design was enhanced with the construction of an orbital oxidation ditch and clarifier. The WWTP is currently permitted to treat 2 MGD to a secondary treatment level. The objective of this project is to increase the design flow to 2.5 MGD and increase the efficiency of the existing plant. The project will combine the segregated treatment (oxidation ditch and orbital) systems into one homogenous system and incorporate nitrification/denitrification using combined Mixed-Liquor scheme. The expansion of the WWTP will include the following: a) Addition of Variable Frequency Drives on electric motors, b) Construction of a 250,000 gallon tank to serve as both an anoxic tank and a sludge storage tank, c) Removal of high speed splashing aerators and replacement with diffused air and submersible pumps, d) Installation of a Mixed-Liquor Pump Station, e) Construction of a third clarifier, f) Addition of a new sludge press, g) Construction of shelter and concrete pad for sludge dewatering, h) Installation of intertie piping and piping modification.	MND	04/20/2009
2009031071	San Vicente Waste Water Treatment Plant Brine Ponds Ramona Municipal Water District --San Diego The Ramona Municipal Water District (RMWD) proposes to construct 2 brine ponds at the existing San Vicente Wastewater Treatment Plant (SVWWTP). Pond A will have an overall area of 2.8 acres and Pond B will have an overall area of 3.4 acres. An existing 3 inch diameter irrigation line will be extended to carry the brine to the new evaporation Ponds A and B. The extension of the line will be constructed within the existing SVWWTP, in the existing services road around Pond #3, and along the northern consideration in case the Alternative "A" alignment is determined to be infeasible.	MND	04/20/2009
2009031072	Rancho Verona Major Use Permit for a Group Care Facility San Diego County Escondido--San Diego The project requests a Major Use Permit for a group care facility with a maximum of 29 residents.	MND	04/20/2009
2009031073	Banning Gateway Project Banning, City of Banning--Riverside The Banning Gateway Project will consist of 12 office/warehouse buildings and associated parking on 64.5 acres located ~1100 ft north of the intersection of Ramsay St and Hathaway St, in the eastern portion of the City of Banning. The Project proposes office and warehouse buildings that will vary from 11,709 to 786,980 sf with total buildout area of ~1,194,000 sf. The Banning Gateway Project will provide the parking lot at a ratio of 1.04 totaling 1,558 spaces. The Project is proposed to be built out in a single phase and is anticipated to be completed by the year 2010.	MND	04/20/2009

2009032068	Airborne Gymnastics Relocation Santa Clara, City of Santa Clara--Santa Clara Use Permit to allow instructional gymnastics facility for all ages beginning at two years in conjunction with tenant improvements for an existing 121,933 sf industrial warehouse facility in the industrial area of the City of Santa Clara. Airborne Gymnastics is currently operating at 2250 Martin Avenue and is relocating at the proposed 1515 Walsh Avenue site.	MND	04/20/2009
2009032070	Herbicide Application and Invasive Species Control at Mindego Ranch Midpeninsula Regional Open Space District --San Mateo The Midpeninsula Regional Open Space District is planning herbicide application of Milestone and Roundup Pro in conjunction with mechanical hand pulling and digging to control non-native thistles on portions of the 1,047 acre Mindego Ranch region of Russian Ridge Open Space in San Mateo, CA. The primary invasive plants that will be targeted include purple starthistle and smooth distaff thistle. The presence of these invasive plants displaces native vegetation and, if left untreated is expected to spread further across the property and into adjacent areas. Treatment of the invasive plants includes herbicide application and hand removal to be completed by a qualified contracted herbicide applicator, and hand crews. The estimated level of work to control the two species is up to 150 acres of treatment per year for up to 7 years. In development of the project plan, the District consulted with a licensed Pest Control Adviser to assist with selection of herbicides, application methods, and time of year for application.	MND	04/20/2009
2009032072	CSA Water T-Main and Florin Road Sewer Project Sacramento County --Sacramento The proposed project is located along Florin Rd and along a portion of Bradshaw Rd, south of Florin Rd. The eastern limit of the project is 1870 ft east of Knox Road (the Vineyard Surface Water Treatment Plant (VSWTP) is currently being constructed at the intersection of Knox Rd and Florin Rd). The western limit of the project is at the Elder Creek crossing at Florin Rd, ~1 mile west of Bradshaw Rd. The project corridor along Florin Rd. is ~2.2 miles long. The project will install three pipeline segments within the prescriptive road right-of-ways, via open trench construction, where trenches are to be 3 to 8 feet wide. The project proposes to install potable water transmission mains and an interim sewer line. The water pipes are expected to have ~ 5-10 ft of ground cover below the surface and the interim 10 inch sewer will have from 5 to 16 ft of cover below ground surface. The project is expected to take 18 months to complete.	MND	04/20/2009
2009031074	Olympic West - Pico East Initiative Los Angeles, City of Los Angeles, City of, Beverly Hills--Los Angeles The proposed project would include two major elements, including the following: 1. Restriping the existing roadways (without widening), replacing and installing peak period parking restriction signage to provide continuous peak period curb lanes on both sides of Olympic Boulevard and Pico Boulevard between Centinela Avenue and Fairfax Avenue. However, no parking restrictions would be imposed at the following locations: north side of Olympic Boulevard between Centinela Avenue and Bundy Drive, south of Olympic Boulevard between Centinela Avenue and Sawtelle Boulevard, and north side of Pico Boulevard between Centinela Avenue and Gateway Boulevard. The Housing Element is an element of the Emeryville General Plan. State law requires cities to update their Housing Elements periodically. State law also requires each city to accommodate its allocation of regional housing needs as determined by the regional council of government, in this case the Association of Bay Area Government.	Neg	04/20/2009
1992083074	Palos Colorados Moraga, City of Lafayette--CONTRA COSTA The residential development project consists of 123 residences on approximately 59 acres, with 387 acres of open space. An additional 15 acres has been allocated for streets and public access.	NOD	
1996082016	Tuolumne County General Plan Update Tuolumne County On Dec. 26, 1996, the Board of Supervisors certified an EIR for the Tuolumne County General Plan Update. The EIR for the General Plan Update was prepared as a program EIR under the provisions of Section 15168 of the State CEQA Guidelines. As a program EIR, the document adopted by the Board of Supervisors adequately addresses the potential environmental impacts associated with the comprehensive update of the County's constitution for growth including certain implementation activities and provided for streamlining of the environmental review process for projects proposed subsequent to the certification of the EIR. The proposed project entails dividing the project site consistent with the General Plan land use designation and, therefore, pursuant to Section 15183 of the State CEQA Guidelines, no additional review under CEQA is required for Tentative Parcel Map 04T-46(2). 2003041036	State Route 46 4-Lane Widening Project Caltrans #6 --San Luis Obispo, Kern The CDFG is executing a Lake and Streambed Alteration Agreement pursuant to Section 1602 of the Fish and Game Code to the project applicant. Caltrans proposes to extend the culvert at location three to facilitate the expansion for the SR 46 Expressway project. Rock slope protection will also be placed on the bank to prevent erosion at the outlet of the culvert and at the other locations listed above where erosion is cutting the channel close to SR 46.	NOD	
2003082131	UC Berkeley 2020 Long Range Development Plan and Tien Center for East Asian Studies University of California, Berkeley Berkeley--Alameda The University has approved and executed a Memorandum of Understanding (MOU) with the Blum Center for Developing Economies at UC Berkeley Foundation. The MOU authorizes the President to approve and execute documents to implement the Naval Architecture Building Restoration and Addition Project. Actions under the MOU include a ground lease, space lease, and gift agreement. In February 2009, the University approved the design of the Naval Architecture Building Restoration and Addition Project and adopted Findings under CEQA, based on its review and consideration of the UC Berkeley 2020 Long Range Development Plan EIR and Addendum #4.	NOD	
2006032018	Equalization Storage Basin Project Russian River County Sanitation District --Sonoma The Project would consist of the design, construction, operation, and maintenance of an ~3.5 million gallon earthen equalization basin and appurtenant structures within the existing boundaries of the wastewater treatment plant. The purpose of the Project is to minimize the potential for National Pollutant Discharge Elimination System permit violations by increasing the District's wastewater storage capacity and adding redundancy to the system during large storm events, periods of high influent flow, and process upset conditions, thus improving discharge season reliability.	NOD	
2008011080	Davidson Library Addition University of California, Santa Barbara Goleta--Santa Barbara The Davidson Library Addition project is an ~61,000 sf addition to the existing library. The addition is comprised of a three-story addition plus mechanical penthouse. Sited forty feet from the north wall of the existing wing, the addition will be connected to the existing building through enclosed bridges and connectors at the first and second floors. The project also includes seismic upgrades to the north wing of the existing library. The project site is currently developed with landscaping.	NOD	
2008041009	University of California (UC) Merced and University Community Plan, UC Merced Phase 2 Campus University of California, Merced Merced--Merced The 2009 Long Range Development Plan for the Merced campus (2009 LRDP) is a comprehensive land use plan that will guide physical development on the UC Merced campus through full development, which would accommodate up to	NOD

	25,000 students. The 2009 LRDP is the second comprehensive LRDP for the UC Merced campus. An earlier plan was adopted in 2002. Due to concerns about the impact of future development phases on wetlands and endangered species, the University developed a revised plan for the campus site. The modified campus site, as defined in the 2009 LRDP, reduces the size of the campus from 910 acres to 815 acres and shifts the campus boundaries to the south, impacting significantly fewer seasonal wetlands.		
2008051121	2008 Northwest Housing Infill Project and LRDP Amendment University of California, Los Angeles --Los Angeles The proposed 2008 Northwest Campus Student Housing Infill Project (NHIP) will construct a total of ~550,00 gross sf of new infill residential, support, and recreational space to accommodate up to 1,525 undergraduate bed spaces. The new housing will be accommodated in four new buildings (referred to as "Sproul South Complex", "Sproul West", "Upper De Neve", and "Lower De Neve") at three locations. Sproul South will be a six-story residential hall constructed on top of the new three-story Sproul Complex and will be located on the northwest corner of De Neve Drive and Charles E. Young Drive West. Sproul West will be a nine-story building located on the northwest corner of De Neve Drive and Sproul Circle Drive. The Upper De Neve and Lower De Neve buildings will be nine and seven stories, respectively and will be located west of the existing De Neve Plaza housing complex, north of Gayley Avenue.	NOD	
2008091097	North Campus Housing Phase 2 Project University of California, San Diego La Jolla--San Diego The North Campus Housing Phase 2 project is an ~200,000 sf facility that will house ~800 students at UC San Diego. The housing component of the proposed project would construct five residential buildings over ~3.5 acres of the site, including on high-rise (13 story) and four mid-rise (4 story) buildings comprising student and staff apartments, vending, and laundry services; two low-rise non-residential buildings, including a bistro, administrative offices, and a self-serv market; various landscape and hardscape open space areas; a meeting garden and meeting plaza; and a service and emergency access road. In addition, two non-housing parking lots would be reconfigured and expanded on ~1.9 acres adjacent to the housing component of the project. The 5.4 acre project site is currently developed as a parking lot.	NOD	
2008092049	Conditional Use Permit #2008-003 and Reclamation Plan #2008-001 Glenn County Orland--Glenn North Valley Rock Products, LLC (NVR) has applied for Conditional Use Permit #2008-003 and Reclamation Plan #2008-001 to mine sand and gravel on Assessor's Parcel Numbers (APNs) 023-150-013, 023-160-003, and 023-160-004. NVR expects to mine approximately 20,000,000 tons of material from these parcels and has requested a 40 year permit. The mined material will not be processed onsite; rather, it will be trucked to two existing processing facilities. Material excavated from the site will be transported via County Roads "S", "33", "P", and County Road "39". The purpose of the project is to secure a source of local aggregate to replace seven other existing aggregate mining sites in the area that will be phased out over the next 1-4 years.	NOD

	fast-food restaurant building (formerly known as Jim's Burger's) located at the northwest corner of Atlantic Boulevard and Louis Place which is currently not operating.		
2007082037	1300 El Camino Real Project Menlo Park, City of Menlo Park--San Mateo The proposed project is the redevelopment of an ~3.4 acre site north of downtown Menlo Park and along the El Camino Real commercial corridor. The proposed development includes 51,365 sf of grocery store/market/major retail tenant space, 58,700 sf of office space, and 422 parking stalls. The office and grocery store/market/major retail tenant uses, which could contain associated on-site alcohol sales, would be developed in two two-story buildings and ~77 percent of parking spaces would be located in a below-grade parking structure. The project also includes a landscaped outdoor courtyard and changes to existing site access. The proposed project would serve as a transition between the dense commercial and residential development in downtown Menlo Park and lower-density, predominantly residential neighborhoods to the north of the project site. The project site is immediately adjacent to the proposed Derry Lane project which, as of February 2009, includes 108 residential units and ~25,000 sf of commercial space.	EIR	05/06/2009
2005071114	Nipomo Community Services District Waterline Intertie Nipomo Community Services District Nipomo--San Luis Obispo The project involves the construction of a new pipeline and related pumping, storage and treatment facilities. The project is intended to provide the capacity to transport up to 6,300 acre ft per year of new water to the Nipomo Mesa to minimize the adverse impacts of groundwater overdraft in the Nipomo Mesa. The new water would in part replace water previously provided by groundwater wells and in part meet the needs of new development.	FIN	
2006112120	Passenger Terminal Replacement Project, Del Norte County Regional Airport/Jack McNamara Field, EA/EIR Del Norte County Crescent City--Del Norte Del Norte County has identified improvements needed at Del Norte County Regional Airport/Jack McNamara Field to accommodate existing aviation activity and future demand. The Proposed Project evaluated in this EA/EIR is the construction of a new terminal building (20,800 square feet) and related facilities (i.e., parking lot, access road, aircraft apron, infrastructure/utilities) at CEC. The size of the new terminal building is based upon projected enplanements for year 2016. The analysis will include a review of potential effects on the environment from the the proposed project in accordance with CEQA regulations. The preferred alternative will be based on a thorough analysis of issues including safety, national policy, efficiency, economic, social, and environmental impacts.	FIN

2009031077	Permanent Transfer of SWP Table A Water from Dudley Ridge WD to Tulare Lake Basin WSD Tulare Lake Basin Water Storage District Corcoran--Kings The Dudley Ridge Water District (DRWD) and the Tulare Lake Basin Water Storage District (TLBWSD) are agricultural water purveyors with water supply contracts with the California Department of Water Resources (DWR) for surface water supplies from State Water Project (SWP). In 2001 DWR approved Amendment 24 to DRWD's water supply contract and Amendment 26 to TLBWSD's water supply contract, which transferred, on a permanent basis, 3,973 acre-feet (AF) of TLBWSD's annual SWP Table A water to DRWD. The landowner and farming operation (Sandridge Partners) associated with the 2001 transfer desires to permanently transfer the water back from their lands in DRWD to their lands in TLBWSD. The boards of directors of both districts have agreed to support the transfer of the transfer of the SWP Table A water as requested by Sandridge Partners.	Neg	04/21/2009
2009031079	E. Tract 16540 Portuguese Bend Club Zone Change Rancho Palos Verdes, City of Rancho Palos Verdes--Los Angeles A request to rezone 42 residential properties located within Tract 16540 of the Portuguese Bend Club that are zoned Single-Family Residential or dual zoned Single-Family Residential to one Single-Family Residential zone in order to maintain consistency with the City's Local Coastal Specific Plan.	Neg	05/04/2009
2009031080	Arsenic Remediation in City Well No. 15B Chino Hills, City of Chino--San Bernardino Arsenic Remediation of City Well No. 15B through well-head treatment using the Coagulation Filtration (CF) process. CF is an environmentally friendly treatment approach that removes arsenic chloride, sodium hypochlorite, and hydrochloric chemical injection. The resultant ferric hydroxide/arsenate precipitant particles coagulate and are captured in the filter media. A polymer is added to the precipitate to densify the material. The resultant sludge is estimated at 42 gallons per acre foot of water treated and can be disposed of in a local landfill. (An acre-foot equals 325,829 gallons of water).	Neg	04/21/2009
2009031082	Conditional Use Permit Case No. 671 Maywood, City of Maywood--Los Angeles The proposed Project consists of the establishment to operate a Small Collection Recycling Facility in a property located on the southwest corner of Atlantic Blvd and 57th Street in a CM zone. The proposed project consists of three 20'L x 8'W sf receptacles (160 sf each) with a 3' x 4' (12 sf) attendant booth, occupying a total area of 492 sf placed at the rear of the existing parking lot.	Neg	04/21/2009
2009032073	Garden Valley Forest Fire Station Replacement Project Forestry and Fire Protection, Department of --El Dorado The project involves the demolition of the existing Garden Valley Forest Fire Station buildings and the construction of new buildings, structures, and appurtenances on the existing 1.1 acre site at 15061 Marshall Road, Garden Valley, CA 95633. 2006074002	DesertXpress High-Speed Passenger Train Federal Railroad Administration Victorville, Barstow--San Bernardino The project entails construction and operation of a privately financed, fully-grade separated, dedicated double-track passenger only railroad along an approximately 200 mile corridor between Victorville, California and Las Vegas, Nevada	EIS	05/22/2009
2009032079	Store More America Phase III Expansion Watsonville, City of Watsonville--Santa Cruz The proposed project is intended to provide 46,300 square feet of additional storage space for Store More America on two parcels adjacent to their existing mini storage facilities. The existing facilities consist of several building totaling 83,300 square feet over a 4.1 acre site. The expansion project site consists of a sloped 1.7 acre parcel with partial riparian habitat and an intermittent stream. At buildout, the total building square footage will be 129,584 square feet over 5.8 acres of land. The building height is proposed to reach a maximum of 33 feet. The project proposes to provide a total of 22 parking spaces to accommodate the expansion of the use.	MND	04/22/2009
2009032080	Lower Russian River Bank Stabilization Project Sotoyome Resource Conservation District --Sonoma The Lower Russian River Bank Stabilization Project at Odd Fellows Recreation Club will stabilize and revegetate five sites, broken into smaller subsidies with distinct prescriptions, along 2115 ft. of the Lower Russian River which has been destabilized due to severe flooding in the recent past. On-going erosion at all sites directly threatens the remaining riparian habitat as well as the primary access road for residents and buried utilities, including a septic system serving the 500 residents in the community. The project will feature a combination of bioengineering techniques to both stabilize eroding streambanks and immediately create a pioneer riparian community that will be able, on its own, to evolve into a stable climax riparian community. Techniques will include grading and rocking with river run gravel, and installation of live siltation willow baffles, live willow brush mattresses, live women willow walls, live woven willow wall terraces, and deep planted live willow clusters. A log and boulder fish habitat structure will also be installed at one site. It is widely recognized that this project will be a valuable demonstration of bioengineering techniques that can be applied elsewhere along the Lower Russian River.	MND	04/22/2009
2009031083	Westside Subway Extension Los Angeles County Los Angeles, City of, Beverly Hills, Santa Monica, ...--Los Angeles The proposed project addresses the mobility needs within the Westside Subway Extension Transit Corridor by providing faster and more reliable high-capacity public transportation than existing bus services, which operate in mixed-flow traffic. This improvement will bring about a significant increase in east-west capacity within the Corridor by extending the benefits of the existing Metro Red/Metro Purple Line rail services beyond their current termini at Wilshire/Western Station and a combined alternative that would also extended the Metro Red Line at the Hollywood/Highland Station in Los Angeles to the Westside of Los Angeles and Santa Monica. Project length for the Wilshire Boulevard Alignment Heavy Rail (Alternative 1) is 12.5 miles extending from the Metro Purple Line Wilshire/Western Station to 4th Street and Wilshire Boulevard in Santa Monica	NOP	05/07/2009

	and would include 10 stations and 1 optional station. Wilshire/Santa Monica Boulevards Combined HRT Subway (Alternative 11) includes the full Wilshire Boulevard HRT Subway and adds a second line extending west from the Metro Red Line Hollywood/Highland Station via Santa Monica Boulevard to join the Wilshire Line in Beverly Hills. The total combined line is 17 miles long and includes 14 stations and 1 optional station. In addition, any other alternatives identified during scoping meetings that have not previously been evaluated will be addressed in the EIR.		
2009031084	Diamond Specific Plan Lake Elsinore, City of Lake Elsinore--Riverside The Diamond Specific plan is intended to provide the necessary master planning to implement the goals and objectives of the Ballpark District. The proposed project is a master planned, mixed use development providing for commercial, office, educational, entertainment and residential uses. Supporting uses will include parking, vehicular and pedestrian circulation, plazas and open space.	NOP	04/22/2009
2009031086	Conditional Use Permit, Development/Affordable Housing Agreement 2009-019 Big Bear Lake, City of Big Bear Lake--San Bernardino 42-unit apartment building, 84 parking spaces, 28 two-bedroom and 14 three-bedroom units are proposed. All units will be affordable and Development/Affordable Housing Agreements will be signed by the Developer and City of Big Bear Lake Improvement Agency.	NOP	04/24/2009
2009032077	Tres Vaqueros Windfarm Repowering Project Contra Costa County Byron--Contra Costa The project applicant, Tres Vaqueros Windfarms, LLC, proposes the following: " Removal of 85 330kW ad 1,750kW Howden wind turbines with a combined generating capacity of approximately 28.3 megawatts. Existing foundations would be covered with at least 1.5 feet of soil and seeded with native species. Reclaimed turbine areas would be returned to annual grassland habitat for agricultural use. " Installation of up to 42 megawatt, or similar size, wind turbines. The total height of the model currently proposed is between 282 and 315 feet - the range resulting from different tower height options. The final model and height would be determined based on the conclusions of the EIR and considerations relating to model availability. " Construction of approximately 70,000 feet (13.25 miles) of new access roads and reclamation or modification of a similar amount of existing site and turbine access roads. During construction, new access roads leading to the turbine sites would be up to 30 feet wide depending upon specific turns and required turning radii. Following construction, permanent site access and turbine maintenance roads would be 16 to 20 feet wide to accommodate maintenance vehicles. " Replacement of all existing above-ground electrical collection systems with below-ground lines. The underground transmission system would terminate at the existing substation, which connects the windfarms to a 230kV PG&E transmission line running adjacent to the project area.	NOP	04/22/2009

2007011083	<p>Mendota General Plan Update Mendota, City of Mendota, Firebaugh--Fresno The City proposes to update its General Plan, which had its last comprehensive update in 1991. The proposed General Plan update will address six of the seven mandatory topics: Land Use, Circulation, Open Space, Conservation, Noise, and Safety. The Housing Element was prepared separately in 2004 and is not required to be updated until 2009. The City of Mendota is situated in the central portion of the San Joaquin Valley, in northwestern Fresno County near the confluence of the San Joaquin River and the Fresno Slough. State Routes (SR) 33 and 180 also intersect in Mendota. The main transportation route between northern and southern California, Interstate 5, is located about 15 miles west of Mendota. The City is approximately ten miles southeast of the City of Firebaugh and 35 miles west of the City of Fresno.</p>	EIR	05/11/2009
2007122003	<p>555 Washington Street, San Francisco Planning Department Cas No. 2002.0133E San Francisco, City and County of San Francisco--San Francisco The proposal is a residential project in a new 336,585 gross square-foot (gsf) 38-story, 390-foot-high building plus 35-foot mechanical penthouse that would contain about 248 residential units in about 331,640 square feet (sf); 6,780 sf of retail space, approximately 9,240 sf of mechanical space. 73,425 sf of parking (230 spaces) in four subsurface levels access from Washington Street, and about 7,720 sf of public and private open space. The project would demolish the ground-level vacant restaurant at the base of Transamerica Pyramid and a portion of the 5050 Sansome Street building; acquire and improve Mark Twain Alley for open space; expand, renovate, and improve private Red wood Park from 17,980 sf to 22,022 sf and convey it to the City as a new public park. There are two variants to the project: an office variant (372,590 gsf of office), and a residential variant (all two-bedroom units). The project or its variants would demolish the capped basement at 517 Washington, the one-story structure at 501-505 Washington Street, and the nine-story building at 545 Sansome Street. All would require a Zoning Map change to a 400-S height and bulk district and a General Plan Amendment.</p>	EIR	05/11/2009
2003042171	<p>Guenoc Water Rights Modification Project State Water Resources Control Board --Napa, Lake Magoon Estate Limited owns the Guenoc Ranch (hereafter Guenoc). Currently 1,819 acres are irrigated, including 367 acres of vineyard and 1,452 acres of irrigated pasture and forage crop. 	9939 and 13414. Guenoc seeks to expand the place of use to 6,847 acres under the remaining rights.		
2009031088	Briggs Monterey County Salinas--Monterey Minor subdivision to divide a 335 acre parcel into four lots of 20 acres each (Parcels B-1, B-2, and B-3), one 29.9 acre parcel (B-4) and a 245 acre remainder parcel.	MND	04/23/2009
2009031091	New Hollister Courthouse Administrative Office of the Courts Hollister--San Benito The Administrative Office of the Courts proposes acquisition of a parcel, construction of a new 3-courtroom courthouse, and operation of the courthouse for the Superior Court of California, County of San Benito. The new courthouse will replace the court's current 3-courtroom facilities in the downtown Hollister. The new courthouse will have approximately 90 parking spaces. The proposed courthouse parcel is adjacent to other local government buildings, and the site is currently vacant based on a recent seismic study, the site is not on an earthquake fault.	MND	04/23/2009
2009032081	Yuba Community College District Sutter Facility Yuba Community College District Yuba City--Sutter YCCD proposed to construct a new community college campus. Measure J was approved by voters in Yuba and Sutter Counties in November 2006 and will fund the construction of the proposed project. Following approval of Measure J bond funding, YCCD initiated a search for a site near Yuba City to serve as the Sutter County community college campus and solicited proposals from property owners. Twelve proposals were received, and of those, two sites were selected as potentially suitable. In January 2008, EDA W prepared a constraints analysis that compared the relative complexity of the environmental regulatory processes for the development of each site. The constraints analysis concluded that the proposed project site discussed in this IS/MND is the superior site because it presents fewer environmental constraints.	MND	04/23/2009
2009032083	Todd and Patricia Guthrie Tentative Parcel Map and Zone Change (TPM-08-07/Z-08-08) Siskiyou County Mount Shasta--Siskiyou The applicants propose concurrent Zone Change and Tentative Parcel Map applications to create four parcels. Zone Change - The applicants propose a zone change for a ten (10) acre parcel from AG-2 (Non-prime Agricultural) to R-R-B-2.5 (Rural Residential Agricultural with 2.5-acre minimum parcel size). Tentative Parcel Map - The applicants request Tentative Parcel Map approval to divide a ten (10) acre parcel to create four (4) 4.5 acres parcels.	MND	04/23/2009

	Policy Document, an updated land use diagram, an updated circulation plan, and a proposed expansion of the City's existing Sphere of Influence. The City is located on State Route 99 in southern Sacramento County between the cities of Elk Grove and Lodi. The Housing Element is not being updated as part of this project; its required update will follow in early 2009.		
2009034003	Marin Headlands and Fort Baker Transportation Infrastructure and Management Plan National Park Service Sausalito--Marin The project would provide greater access to and within the Marin Headlands and Fort Baker for a variety of users in a way that minimizes impacts to the rich natural diversity and cultural resources of the Marin Headlands and Fort Baker areas within Golden Gate National recreation Area (GGNRA). Roadway infrastructure would be rehabilitated or reconstructed with non character altering roadway widening, and parking facilities would be improved. Additional transit options would be provided to and within the Marin Headlands and Fort Baker to improve access to visitor sites. Pedestrian and bicycle facilities would be improved through closure and rerouting of existing trails and construction of new trails. A successful project would meet the following goals: 1) Promote public transit, pedestrian, and bicycle travel to and within GGNRA to improve visitor experience and enhance environmental quality; 2) Rehabilitate the Marin Headlands/Fort Baker transportation road and trail infrastructure in a manner that protects resources and improves safety and circulation; 3) Reduce traffic congestion a key GGNRA locations and connecting roads.	FIN	04/20/2009
2009031092	Embly Minor Subdivision San Diego County --San Diego GPA 07-007; REZ 07-004; TPM 21062; AP 07-001; LOG NO. ER 07-08-003; EMBLY Minor Subdivision. The project is a General Plan Amendment, Rezone Agricultural Preserve Disestablishment and a Tentative Parcel Map to subdivide a 9.79 acre parcel into four lots and a remainder parcel. The General plan Amendment would change the Regional Category from an (ESA) Environmentally Constrained Area to a (CRDA) County Residential development Area. The General Plan Amendment would also change the land use designation from (20) Agriculture permitting 1 dwelling unit per 10 acres to (1) Residential permitting 1 dwelling unit per 1, 2, or 4 acres. The Rezone would change the minimum lot size from 10 acres net to 1 acre net with the use regulations to remain A70 Limited Agriculture. The Rezone would also remove the Agricultural Preserve designator.	MND	05/11/2009
2009031093	Kvass Minor Subdivision (3 lots); Tentative Parcel Map; TPM 20939; ER 05-19-007 (Applicant: Harold Kvass, 10076 Shadow Road, La Mesa, CA 91941) San Diego County --San Diego The project is a minor subdivision of a 2.75 acre parcel into 2 lots and a remainder parcel. The project site is located at the intersection of Helix Street and Oso Road in the Spring Valley Community Plan Area, within unincorporated San Diego County. The parcel is currently vacant. Access would be provided by a private road connecting to Helix Place. The project would be served by sewer and imported water from the Spring Valley Sewer District and Helix Water District. Earthwork will consist of 15000 cubic yards of cut and fill of 6000 cubic yards of fill. The remaining 9000 cubic yards will be exported offsite. The project includes the off-site public road improvements.	MND	04/24/2009

2003062002	City of Turlock Harding Drain Bypass Project Turlock, City of Turlock--Stanislaus The City is proposing the construction of a new force main and outfall from the City's existing outfall at the Harding Drain located at the intersection of Harding Road and Prairie Flower Road to the eastern bank of the San Joaquin River. This addendum addresses a minor modification in the design of the outfall at the San Joaquin River.	NOD	
2008032080	McEvoy Ranch Water Right Applications and Petitions for Change of License and Permits State Water Resources Control Board Petaluma--Marin Approval of two water right Applications, five Petitions for Change of existing permitted and licensed water rights, and four Petitions for Extension of time for the McEvoy Ranch. The project consists of water diversion and storage for irrigation of approximately 153 acres of existing and proposed olive orchard. Water will be diverted from an Unnamed Stream tributary to San Antonio Creek, thence the Petaluma River. Other existing and proposed water uses include fire protection, stockwatering, and recreation. The project includes expansion of existing water storage reservoirs, establishing new olive orchards, and allowance of additional time to put water beneficial use under existing water right permits.	NOD	
2009021069	Heber Public Utility District Water Treatment Plant Heber Public Utility District --Imperial A capacity expansion of Heber Public Utility District's Water Treatment Plant from 2 MGD to 6 MGD. The expansion of the Water Treatment Plant is the last of three phases. Phase I included the installation of an aboveground water reservoir tank; Phase II installed and replaced 1.8 miles of underground pipelines for raw water conveyance. This project includes the demolition, construction, and relocation of numerous water treatment plant components on-site. Site grading is also anticipated as a result of the expansion.	NOD

2009022011	<p>Bear River North Levee Erosion Sites Repair Project Reclamation District 2103 Wheatland--Yuba, Placer</p> <p>The proposed project addressed in this initial study is the repair of three erosion sites along the Bear River North (right bank) Levees (BRNL) near the City of Wheatland, BRNL is operated and maintained by RD 2103 (or District). The District maintains this and other levees within its service area that border the City of Wheatland and unincorporated land within Sutter, Yuba, and Placer Counties. The District proposes to repair the three erosion sites by reconstructing approximately 1,300 lineal feet along the levee embankment on the river side at two sites and on approximately 100 lineal feet of the levee embankment on the land side at one site to meet the US Army Corps of Engineers (Corps) levee design criteria. Repair of the erosion sites is intended to prevent more erosion and potential levee failure, to meet the safety standards identified in the Corps Levee Design Manual and Technical Letter for Engineering and Design, and to help qualify the levees for Federal Emergency Management Agency (FEMA) 100-year flood protection accreditation for the National Flood Insurance Program (NFIP). A fee of \$1,993 was paid in compliance with the California Fish and Game Code 711.4 through the Yuba County Clerk's Office.</p>	NOD					
2009039018	<p>Riverside Energy Resource Center Units 3 & 4 Energy Commission Riverside--Riverside</p> <p>NOTE: Regulatory program, project did not go under CEQA review.</p> <p>The RERC 3&4 is a proposed expansion of an existing 96 MV peaking facility exempted by the Commission in 2004. RERC 3&4 will be a simple cycle plant consisting of two GE LM6000 PC SPRINT natural gas combustion turbine engines generating approximately 95 MV of electricity. The project includes the expansion to add two new bays for connection of two new generators. No new transmission facilities will be needed as part of the project.</p>	NOD

2007011024	Draft Irvine Business Complex (IBC) Vision Plan and Mixed Use Overlay Zoning Code (Planning Area 36) Irvine, City of Irvine--Orange The proposed project would allow for an increase in total units within the Irvine Business Complex (Planning Area 36) from 9,401 units to 15,000 units. In addition, a total of 1,191 density bonus units would be allowed in accordance with State Law for a total 16,191 units. The current General Plan allows for 53,461,052 square feet of office equivalency in Planning Area 36. The total 5,599 additional new units (either potential or in process) remaining under the 15,000 unit cap would be offset by a reduction of 2,715,062 square feet of non-residential office equivalency square footage, reducing the number to 50,899,418 square feet. If approved, the proposed project would allow for the development of 6,380,955 non-residential square feet and 458 hotel based on the existing trip caps for the area.	EIR	05/14/2009
2009031099	Santa Clara River Weir Field Downstream of highway 101 Ventura County Watershed Protection District Oxnard, Ventura--Ventura To prevent further erosion of the southern bank of the Santa Clara River downstream of Highway 101, the Ventura County Watershed Protection District proposes to construct four bendway weirs and approximately 1,288 linear feet of rock rip-rap slop protection. The existing groins constructed in 1992 (east and west of the project) and 2006 (east of project) would remain in place. The project also proposes additional riverbank improvements to protect the bank slope from erosion. Approximately 350 linear feet of existing rock slop protection in this area would be augmented.	MND	04/27/2009
2006072089	Cameron Park Congregate Care Facility/Ponte Palmero El Dorado County --El Dorado The Cameron Park Congregate Care Facility/Ponte Palmero Project is a senior (age 55 and older) housing project which offers 35 full-time Alzheimer's care units, 140 units of congregate care, 64 senior duet cottages, and an 8,000-sf clubhouse to senior residents of El Dorado County. 2002022027	South Stockton 6-Lane Caltrans #6 Stockton--San Joaquin The project adds two lanes into the median on SR99, which would improve the route from a 4 lane to a 6 lane freeway, with improvements to the local road crossing at Mariposa Rd., Farmington Rd. (SR4 E.), Golden Gate Ave., Charter Way, and Main St. Existing on and off ramps are proposed for removal at Farmington Rd. and Charter Way, and a new interchange is proposed at the Golden Gate overcrossing. Additionally, the railroad crossing, just south of the Golden Gate overcrossing is proposed to be reconstructed.	NOD	
2002022072	Interstate 5/Cosumnes River Boulevard Interchange Project Sacramento, City of Sacramento--Sacramento The project will construct an interchange and extend Cosumnes River Blvd in Sacramento County. The project will improve circulation in southern Sacramento by providing route continuity between I-5 and SR 99.	NOD	
2004092030	Spanish Creek Bridge Replacement Project Caltrans #2 Quincy--Plumas Project improvements include removing the existing Spanish Creek Bridge and constructing a new bridge on a new alignment.	NOD	
2005012035	CSU - Stanislaus Physical Master Plan Update Program EIR California State University, Stanislaus Turlock--Stanislaus The proposed campus master plan revision will guide strategic planning and decisions regarding the allocation of resources for future development. The key components of this campus master plan revision include: maintain current enrollment capacity at 12,000 FTE; develop multi-story dormitories that will preserve green space and maintain on-campus housing capacity fixed at 25 % of enrollment; develop multi-level parking structures that will preserve green space while accommodating 6,000 vehicles; minimize traffic congestion by concentrating future construction around the campus core and in the southern portion of campus; develop property on the east side of Geer Road for student housing; and anticipate future acquisition of land at the northwest corner of campus. The master plan includes ~2,344 new beds for a total of 3,000 beds on campus for students. Three parking structures and two surface lots will provide ~3,435 new parking spaces for a total of 6,000 spaces for faculty and students which is essential for recruitment and retention.	NOD

	bridge's two abutments and five piers.		
2007081071	VEN/SB 101 HOV Project Caltrans #7 --Ventura Construct a northbound and southbound HOV lane within the existing median on the U.S. 1-1 between Mobil Pier Undercrossing (PM39.8) in Ventura County and Casitas Pass Road (PM 2.2) in Santa Barbara County.	NOD	
2007081135	Interstate 10/Citrus Avenue Interchange Caltrans #8 Fontana--San Bernardino Reconstruct the Citrus Avenue Overcrossing (BR 54-538) by demolishing the existing structure and replacing with a new structure. The new structure would provide additional through lanes, dedicated left turn lanes, Class II bike lanes, and concrete barriers/sidewalks with chain link railing on both sides of the street.	NOD	
2007121129	Fullerton Turnback Facility Orange County Transportation Authority Fullerton, Anaheim--Orange The Orange County Transportation Authority (OCTA), in cooperation with the Southern California Regional Rail Authority, proposes the construction of a turn back facility between Pomona Avenue and Orangethorpe Avenue at the Fullerton Transportation Center to facilitate intra-Orange County service. An optional additional track line, known as the Anaheim Layover Facility, is proposed for use as an overnight layover and storage facility for Metrolink trains.	NOD	
2008021108	AMWC Recharge Ponds PLN 2007-1257 Atascadero, City of Atascadero--San Luis Obispo The DFG is executing a Lake and Streambed Alteration Agreement pursuant to Section 1603 of the Fish and Game Code to the Project applicant, Mr. Ken Gray. The proposed Project would consist of excavation a 250 ft by 440 ft area to an average depth of ~5 ft to construct a recharge pond, distribute excavated material around the pond margin to form an elevated berm, construct access driveways ranging between 75 and 175 ft in length with an average width of 12 ft, and installing a six-foot tall chain link fence with a buffer of native vegetation to minimize visual impacts. The proposed project consists of two phases. The first phase will include the construction of one water recharge pond requiring 22,000 cubic yards of cut. The second phase will be constructed only if necessary, and will include the construction of two additional water recharge ponds requiring a total of 32,850 cubic yards of cut. The project proposes a total of 54,850 cubic yards of cut. The excavated fill dirt is proposed to be used to create a building pad on the same parcel for upgrades to Well #4. Excess dirt will be stock piled at the Atascadero Mutual Water Company's property on Sycamore Road.	NOD	
2008121031	Tres Pinos Creek Crossing San Benito County Water District --San Benito The project involves the annual erection and removal of a seasonal, low-water crossing of Tres Pinos Creek at 11599 Airline Hwy (approx. 1/2-mile southerly of Murphy Rd & 100-ft northerly of Willow Grove Schl. Rd), in San Benito County. The project will be undertaken yearly, to re-establish the existing crossing during	NOD

	District percolation operations within the Tres Pinos Creek flow channel, between June 1st and October 15th. District work forces will erect pre-fabricated structural members into a 60 ft long elevated crossing that will have a 2 ft minimum of freeboard, 3 to 4 spread-footing/at-surface piers, and 4 to 5 10 ft span deck members. Heavy lifting equipment will be utilized to move pre-fabricated structural members into and out of the dry stream channel during installation and removal activities. Neither concrete nor earthwork will be involved in the crossing construction. The width of the crossing will be 14 ft. Upon completion of District percolation operations within the Tres Pinos Creek, no later than October 15th of each season, District work forces will disassemble all members, and store them on an upper terrace, above the current flow channel.		
2008121046	Interstate 10/Cherry Avenue Interchange Caltrans #8 Fontana--San Bernardino Project improvements include replacing the existing I-10/Cherry Ave. Overcrossing, widening the existing Union Pacific Railroad/Cherry Ave. Overhead and Cherry Ave. to the west, and modifications to the existing on- and off-ramps to increase storage capacity.	NOD	
2009012006	San Jose State University Student Center Facilities Project California State University Trustees San Jose--Santa Clara The proposed project will expand and renovate the existing student union building located in the central area of the campus. The project also includes the demolition of the existing 50 yr old cafeteria building with replacement of like food services. The expansion of the student union will provide additional administrative office space, expanded food service facilities, a new auditorium/theater space, large event, meeting and conference facilities, and student organization and retail spaces. It will also allow the International and Extended Studies program currently located off-campus to move back to campus. The renovation will include upgrades and modernization to administrative office space, large event and meeting rooms, lounges, student recreation and entertainment facilities, and the existing food service areas in the building. The project will also address public lobby spaces, circulation spaces, and service areas and associated demolition and site work required to accommodate the project's expanded location.	NOD	
2009032008	Whitmore Junior High School Ceres Unified School District Ceres--Stanislaus The Ceres Unified School District (CUSD) is proposing to construct a new junior high school campus on 19.14-acre parcel at 3604 East Whitmore Avenue, which is located in unincorporated Stanislaus County, within the Sphere of Influence of the City of Ceres. The proposed junior high school would be designed to accommodate 900 students, employ 60 faculty and staff, and would include approximately nine separate classrooms and faculty buildings, including a gymnasium, a central amphitheatre / gathering area, parking areas, driveways, and bus access . 2007041065	Alder 70 Specific Plan & Tentative Tract Map Project Imperial County El Centro--Imperial The project site is located southeast of the intersection of Cannon Road and East Gillett Road, near El Centro in the County of Imperial, California. The property consists of two parcels of approximately 80 gross acres with a new of 75.78 acres, less rights-of-way easements. The applicant, Scaroni Properties, Inc, is requesting approval of a Specific Plan, tentative Tract Map, General Plan and Zoning change to allow the development of a mixed-use commercial/residential project with a total of 392 dwelling units on approximately 63 acres and a commercial/retail component on 12 acres of the site. Associated infrastructure is proposed on the remaining 5 acres, including an easement for an Imperial Irrigation District electrical substation.	EIR	05/18/2009
2008011122	Montebello Hills Specific Plan Montebello, City of Montebello--Los Angeles The proposed project consists of approximately 488 acres located within the City of Montebello (see map below). The project site is contained within the Montebello Oil Field, an actively operated soil and gas production facility. The proposed project includes developing this area for the following uses: (1) 1,m200 residential dwelling units contained within five planning areas occupying approximately 173.6 acres of the project site; (2) approximately 314.6 acres dedicated for Open Space (approximately a 260 acre Reserve). A series of pedestrian walkways and trails would be constructed within the Open Space area; (3) a 5.5-acre (4.3 net usable acres) public park site (available to City residents). A 1.5 acre private community center constructed for on-site residents would also be provided, in addition to five 0.25-acre pocket parks (one for each planning area); and (4) infrastructure to support the proposed project. These facilities would include sanitary sewer conveyance, portable water conveyance and storage facilities and stormwater drainage conveyance facilities. Two community entry points are proposed and would include access along Montebello Boulevard and Plaza Drive. An internal roadway network would also be constructed to facilitate on- and off-site circulation. Associated discretionary approvals would include amending the City's General Plan and a Zone Change request from the site's existing designation of Residential Agriculture (R-A-O) to Specific Plan. The proposed project would not affect on-going oil and gas extraction activities on the site. Additional approvals include, but may not be limited to, a Development Agreement and Vesting Tentative Tract Map approvals.	EIR	05/13/2009

	root wad attached to the log. The complexes will use the designs called "digger logs," "spider logs," and "log, root wad, and boulder combinations" and will follow specifications for such structures provided in the California Salmonid Stream Habitat Restoration Manual. Construction equipment will access the site using existing paths, and construction will occur when the site is dry and devoid of water. The Project would provide refugia for migrating adult and juvenile steelhead, as well as for California red-legged frogs, southwestern pond turtles, and other aquatic fauna found in and near the Project site.		
2005081065	S03-079, Log No. 03-09-079; Olive Street Self Storage San Diego County --San Diego The project requests a "B" Designator Site Plan Modification to add a 988 sf second story addition to the 1,320 sf single story Management Office building of a previously approved self-storage facility.	NOD	
2007121063	Las Lomas Bicycle and Pedestrian Path Monterey County --Monterey The proposed project consists of the construction of bicycle lanes, pedestrian sidewalks and improvements to existing drainages within the existing right-of-way on Las Lomas Drive between the intersection of Hall Road and Thomas Road.	NOD	
2008121068	Expanded Gage Exchange Project Riverside, City of Riverside--Riverside Construction of a 1,200 sf pump station on City-owned property and ~12,405 linear ft of Transmission main within existing public street and utility right-of-way to allow for the exchange of water between the City of Riverside and the Gage Canal Company.	NOD	
2009011049	City Wide Sewer Capital Improvement Project CIP No. SS0901 Seal Beach, City of Seal Beach--Orange The proposed City Wide Sewer Capital Improvement Project CIP No. SS0901 includes infrastructure improvements proposed throughout the City. The City encompasses ~7,134.5 acres, of which 6,458 are served by the City's sewer system.	NOD	
2009012086	Aptos Transmission Main Relocation Project Santa Cruz County Capitola--Santa Cruz Work includes: 1) improvements to the existing pump station in the Rio Esplande. 2) construction of the four new pump stations, 3) demolition of the New Brighton Beach pump station and associated bathroom, and 4) tree removals where necessary to construct the project.	NOD	
2009021037	Landfill Parking Facility Project San Bernardino International Airport Authority San Bernardino--San Bernardino To maximize land use at the airport, the SBIAA has determined that use of the Former Air Force Base landfill as a parking area would be more effective use of the site. To accomplish this, SBIAA has prepared an Addendum to the Closure Plant/Post Closure and Maintenance Plan for the landfill to allow end use of the site as a parking facility. The Addendum has been reviewed and approved by state and federal agencies with jurisdiction over the site closure. This project proposes	NOD

	an alternative final cover that will allow use of the site as a parking area. The existing vegetation will be removed and the upper soil layers affected will be sacrificed and re-compacted to meet parking area standards. About 4 inches of asphaltic concrete will be placed over the compacted subgrade in accordance with applicable standards for use as a parking facility and will be adequate to meet established requirements for final landfill cover.		
2009039020	Rimsa Minor Subdivision; Tentative Parcel Map; TPM 21095RPL/ER93-08-001C San Diego County San Marcos--San Diego The proposed project is a minor subdivision of an 11.70 acre net (12.85 gross acres) lot. The project is an identical design to previously approved Tentative Parcel Map 20073, TPM 20660, and TPM 20660TE, all which expired prior to recordation. As with the previous approved Tentative Parcel Maps, TPM 21095RPL proposes two residential parcels ranging from 7.66-4.04 acres net (8.57 -4.28 acres gross), and subject to Regional Land Use Element Policy 1.3 (EDA-Estate Development Area) and General Plan Land Use Designation (18) Multiple Rural Use.	NOD	
2009039021	City of Mt. Shasta Bicycle Pedestrian and Trails Maaster Plan Mount Shasta, City of Mount Shasta--Siskiyou The 2008 Mount Shasta Bicycle, Pedestrian and TRails MAster Plan provides for a city-wide network of bicycle paths, lanes, and routes, along with bicycle and pedestrian-related programs and support facilities, intended to ensure cycling and walking becomes and increasingly viable and attractive transportation option for people who live, work and recreate in Mount Shasta.
