STATE CLEARINGHOUSE

NEWSLETTER

March 16-31, 2010

STATE CLEARINGHOUSE NEWSLETTER

The State Clearinghouse distributes draft environmental documents to state agencies for review and comment, pursuant to the California Environmental Quality Act (CEQA). The State Clearinghouse also acts as the State Single Point of Contact for the review of federal grant applications and federal development projects. This Newsletter summarizes the environmental documents and federal grant applications received by the Clearinghouse during the period **March 16-31, 2010**.

CLEARINGHOUSE CONTACTS

Please contact The State Clearinghouse if you have any questions regarding processing of environmental documents or grant applications. We may be reached at:

Telephone: (916) 445-0613
Fax: (916) 323-3018
e-mail: state.clearinghouse@opr.ca.gov
website: www.opr.ca.gov

Questions regarding federal grant notices should be directed to **Sheila Brown**.

Questions regarding processing of environmental documents should be directed to:

Scott Morgan
Acting Director

CLEARINGHOUSE MAILING ADDRESS

Please do not use our street address (1400 Tenth Street, Room 212) for mailing purposes. The correct mailing address is:

STATE CLEARINGHOUSE
P.O. BOX 3044
SACRAMENTO, CA 95812-3044

INFORMATION AVAILABLE ON-LINE

The 2009 CEQA Guidelines are available from the Resources Agency's website at <http://ceres.ca.gov/ceqa/>.

The State Clearinghouse Handbook, which contains all of our environmental document and grant processing procedures and forms, is available on our website.

MEMORANDUM

DATE: February 13, 2007
TO: State Agency CEQA and Intergovernmental Review Coordinators
FROM: Scott Morgan, Senior Planner
SUBJECT: Distribution of Environmental Documents in CD-ROM Format

The State Clearinghouse has received an increasing number of requests from local and state lead agencies to distribute CEQA documents to state reviewing agencies in an electronic format, typically CD-ROM. The most common reason for these requests is to reduce cost. CD-ROMs are cheaper for the lead agency to reproduce and mail, and cheaper for the State Clearinghouse to distribute, especially in the case of multi-volume documents.

The State Clearinghouse has distributed EIR's and EIS's in CD-ROM format for state agency review and comment since August 1, 2003. Based on our experience with those documents, a survey conducted of state reviewing agencies and the potential cost savings to local and state agencies, we are extending this policy to other environmental documents including Negative Declarations, Mitigated Negative Declarations and Environmental Assessments. The State Clearinghouse will accept environmental documents under the following terms:

- CEQA Lead agencies may provide copies of draft environmental documents to the State Clearinghouse for state agency review in an electronic format. The document must be on a CD-ROM in a common file format such as Word or Acrobat.
- Lead agencies must provide fifteen (15) copies of the CD-ROM to the State Clearinghouse. In addition, each CD-ROM must be accompanied by 15 printed copies of the DEIR summary (as described in CEQA Guidelines §15123), executive summary, or introduction section of a Negative Declaration or Mitigated Negative Declaration. The printed summary allows both the State Clearinghouse and agency CEQA coordinators to distribute the documents quickly without the use of a computer.
- Final environmental documents may be provided in CD-ROM format without a printed summary. Distribution of the final documents is optional under CEQA.
- Federal lead agencies may send electronic copies of environmental documents to the State Clearinghouse in the same manner described for CEQA lead agencies. Distribution of NEPA documents to state agencies through the State Clearinghouse is encouraged pursuant to Presidential Executive Order 12372 and NEPA §102 (42 USC §4332)
- All notices of preparation must continue to be provided in printed format.
- Please provide one Notice of Completion Form with all submittals.

If your agency has difficulty downloading and reviewing any environmental documents please contact:

Scott Morgan, Senior Planner
916-445-0613
scott.morgan@opr.ca.gov

Thank you for your cooperation in the CEQA review process.

**ENVIRONMENTAL DOCUMENT FILINGS WITH THE STATE CLEARINGHOUSE
1999 through 2009**

All CEQA documents filed with the State Clearinghouse are available for viewing on the Internet at <http://www.ceqanet.ca.gov/>

<u>Documents Received on Tuesday, March 16, 2010</u>			
2010034002	Wastewater Infrastructure Construction - Phase II - Smith River Rancheria U.S. Environmental Protection Agency --Del Norte NOTE: Review Per Lead The U.S. Environmental Protection Agency (EPA) is considering awarding an \$873,000 grant to the Smith River Rancheria, Smith River California, to fund construction of the wastewater collection system that will collect wastewater from several locations on or near South Indian Road and serve the Howonquet Community Hall, the UIHS Health Clinic, residential units, and a new senior housing project currently under construction. The Project is expected to benefit socioeconomic conditions and environmental justice for both the Tribe and the Smith River community by stimulating the development of needed housing for Tribal members, and by removing pollutant sources. Further, the extended collection system will deliver the design flows for the existing wastewater treatment plant and provide the organic loading needed for a healthy treatment facility. Construction would occur within the boundaries of the Smith River Rancheria.	EA	04/20/2010
2008101137	Park View at Town & Country Manor Santa Ana, City of Santa Ana--Orange The proposed Park View at Town & Country Manor project would add 174 independent living units to the existing Town & Country Manor campus. Also constructed would be a new expanded entry lobby, a covered pool area and fitness center proposed within an aquatic and wellness center. Further modifications to the existing parking lots, and creation of a main entrance driveway, connecting the two existing entrances on Memory Lane and Lawson Way and having one lane in each direction, would occur.	EIR	04/29/2010
2009041029	Fontana Sports Park & Roadways Improvement Project Fontana, City of Fontana--San Bernardino The City of Fontana is proposing General Plan Amendment 09-010 from "R-MF", Residential Multi Family to "P-R", Public Recreation Facility, & Zone Change 09-05 from "R-3", MultiFamily Residential to "P-PF", Public Facility, and approved of a Site Plan that allows for the development of a 27 acre fast pitch softball Sports Park, with 5 lighted ballfields, a practice/warm-up area, battin cages, a 8,000 sf concession facility, a tot lot, other passive park areas and parking for 430 vehicles. A parcel map is also being processed that consolidated the Sports Park project site into one parcel. Vacation of Cooper Ave. south of Sierra Lakes Pkwy. to the SR 210 Freeway is also proposed. The project now includes right-of-way improvements to Sierra Lakes Pkwy from Catawba Ave west to Lytle Creek Rd, and to Knox Ave from Sierra Lakes Pkwy south to the SR 210 Freeway.	EIR	04/29/2010
2009042129	Port of Redwood City Wharves 1 and 2 Redevelopment Project Redwood City, Port of Redwood City--San Mateo The Port of Redwood City is proposing to implement a number of improvements projects intended to renovate and upgrade some of the presently dilapidated wharf facilities as well as to realign some of the site's current operations in order to increase the Port's future throughput potential. The need for the proposed project	EIR	04/29/2010

	stems from the steady growth in cargo throughput that the Port has experienced over the last 10 yrs as well as from the poor current physical conditiona of the existing structures on the project site.		
2009061011	The Lyons Avenue At-Grade Rail Crossing Project Santa Clarita, City of Santa Clarita--Los Angeles The applicant, the City of Santa Clarita, is requesting certification of the Stage 1 DEIR and approval from the California Public Utilities Commission (CPUC) of the relocation of an at-grade rail crossing. The City of Santa Clarita proposes to create a new at-grade rail crossing at Lyons Avenue and Railroad Avenue and close the existing 13th Street railroad crossing at Railroad Avenue.	EIR	04/29/2010
2008112103	Amended/Restated Redevelopment Plan for the Richmond Merged Project Area Richmond, City of Richmond--Contra Costa Amendments to the existing Redevelopment Plan for the Richmond Merged Redevelopment Project Area, primarily to increase certain fiscal limits, extend the redevelopment plan time limits on the authorization of eminent domain, and update the list of projects, programs and activities that may be undertaken by the Redevelopment Agency in nine existing, fiscally merged redevelopment project areas (Merged Project Area).	FIN	
1985022011	Camarillo Airport Master Plan Update Ventura County Camarillo--Ventura NOTE: Reference SCH#1997121005 The 2009 Camarillo Airport Master Plan is an update to the 1996 Camarillo Airport Master Plan and proposes a number of potential physical improvements that will be undertaken as aviation demand warrants. The purpose of this updated plan is to establish an internal land use plan to support the development of general aviation uses at the airport. The Airport Master Plan is a conceptual plan and not all of the improvements contained within the plan will likely be undertaken.	MND	04/14/2010
2000041058	CUP No. 27, Map No. 143 Kern County Lamont, Arvin--Kern NOTE: Refer to MND dated 3/24/2010 / Reference SCH#1998121070 / Review Per Lead The project site consists of a portion of two legal parcels of record and encompasses ~190 acres. The site is zoned A (Exclusive Agriculture) and is designated 8.1 (Intensive Agriculture, 20 acre minimum) by the Kern County General Plan. The project is located on the south side of East Bear Mountain Boulevard (SR 223), approximately 1/2 mile west of Wheeler Ridge Road. The site is currently developed with a greenwaste collection and composting facility that has been operated by Community Recycling and Resource Recovery, Inc. since 1993. Existing development consists of 4 composting areas, processed compost stockpile areas, feedstock screening areas, a truck/tire pressure-washing area, and associated office space. The applicant intends to develop a whoelsale plant nursery (allowed "by right") at the southeast corner of the site in the future. The current site configuration and layout has been approved by a series of modifications to the original conditional use permit, which was initially approved in	MND

	1993. Surrounding land uses include the Lamont Public Utility District (LPUD) wastewater treatment facility to the north and east, a dairy to the west, and irrigated row crops to the south. The Arvin Landfill is directly across Wheeler Ridge Road to the southeast. The closest residence is at the dairy, which is located ~1/4 of a mile west. The next closest residences are located ~1 mile south, at the ski lakes south of Millux Road.		
2010032054	Trancas Street Bridge Scour Repair Project Napa, City of Napa--Napa The Trancas Street Bridge scour repair project consists of placing riprap around Pier Number 3 of the Trancas Street Bridge due to erosion at the base of the pier. Activities would involve placement of large rocks (loose riprap) to cover the top of the Pier Number 3 footing. The riprap would be 2 ft 6 inches deep with an apron outside of the pier footing that would slope downward toward the ebb and flow direction of the Napa River. A 5 ft deep cutoff trench would be excavated around the perimeter of the riprap and filled with rock to minimize the potential for future undermining of the riprap and pier. The needed repairs would require dewatering of a portion of the river, and a 400 ft long and 8 ft wide construction access road would be extended from an existing gravel road located north of the bridge and into the river from the west bank.	MND	04/14/2010
2010032055	Steep Ravine Well Site Stinson Beach County Water District --Marin NOTE: Review Per Lead The proposed project is to drill a new water well at the existing Steep Ravine Water Tank site. The site is an existing graded and graveled lot containing few trees of mixed eucalyptus and douglas fir. The purpose of the protection is the Stinson Beach County Water District's voluntary reduction in its surface water diversions from local creeks in recognition of low flow issues and environmental concerns. The new well at the existing water tank site would be replacement water source in lieu of surface water during dry periods.	MND	04/19/2010
2010032056	Cole Family Trust Minor Subdivision Humboldt County --Humboldt A minor subdivision of an 33.8 acre parcel into 3 parcels. Parcels 1 and 2 are zoned Agriculture General and will be 6.27 and 6.58 acres in size, respectively. Parcel 3 is zoned Timberland Production Zone (TPZ) and will be ~21 acres in size. The parcel is currently developed with 2 single family residences which will remain; one on Parcel 1 and one on Parcel 2. Parcel 3 is created for open space purposes as managed timberland. The site is served with community water by Humboldt Community Services District on site wastewater treatment systems.	MND	04/14/2010
2010032057	White Oaks Trail Rehabilitation and Removal Project Midpeninsula Regional Open Space District Palo Alto--Santa Clara Replacement of an existing steep & poorly drained 1.25 mile portion of the White Oaks Trail Monte Bello Open Space Preserve with new 1.9 mile trails through grassland & mixed evergreen forest to correct erosion & sedimentation problems and provide a scenic and safe connection between the preserve's main parking lot & trail network. The new design will incorporate erosion control practices, be	MND	04/14/2010

The existing sidewalk along Embarcadero Road will be widened to eight feet in order to meet City standard compliance.	MND	04/15/2010
2010031070	ENV-20008-4713-MND Los Angeles, City of --Los Angeles Construction of a total of three new detached single-family dwellings (2301, 2305 and 2309 San Marco Drive), on three abutting hillside properties comprised of eight vacant parcels totaling approximately 25,600sf, all located within the R1-1 Zone. As proposed, the project requires the granting of deviations from the zoning code to permit the following: 1) maximum building heights ranging from 52-feet to 58-feet in lieu of the 36-feet permitted; 2) reduced front, side and rear yard setback in lieu of the five-feet, nine-feet and 15-feet otherwise required in order to accommodate proposed buildings and retaining walls; 3) more than two retaining walls per property, with heights greater than the ten-feet otherwise permitted for multiple retaining walls; 4) location of retaining walls within required front yard setback having a height greater than 3-1/2 feet; 5) location of retaining walls within required side and rear yard setbacks, having heights greater than eight-feet; 6) greater than 50% of the required front yard to be paved; 7) 44% lot coverage with buildings and structures having a height of greater than six-feet above natural ground level in lieu of 40%; 8) five-foot wide passageways from the front door to the street in lieu of ten-feet required, including portions of the passageway provided via easement on abutting property (2309 San Marco Drive); 9) waive required street widening and improvements adjacent to 2309 San Marco Drive, in addition, a Hail Route is considered for the export of more than 1,000 cubic yards of dirt from the sites.	MND	04/15/2010
2010031071	Vegetation and Sediment Maintenance Program at Los Banos Detention Dam Initial Study and Mitigated Negative Declaration Water Resources, Department of Los Banos--Merced Within the California Department of Water Resources' (DWR) State Water Project (SWP), there are a number of joint-use facilities that are owned and maintained cooperatively with the United States Department of Interior, Bureau of Reclamation (Reclamation). These facilities require ongoing maintenance. The Los Banos Detention Dam (LBDD) is one of these facilities and is managed by DWR's Civil Maintenance Branch of the San Luis Field Division Operations and Maintenance. In order to assure the integrity of the LBDD facility maintenance activities will include sediment and vegetation removal, vegetation retention and restoration,	MND	04/15/2010

	Dana Point Town Center Redevelopment Plan ("Town Center Plan") and to implement any required improvements needed to support the Town Center Plan as approved by the Dana Point City Council. The Town Center Plan focuses on the commercial area primarily contained within or immediately adjacent to the existing Pacific Coast Highway and Del Prado couplet. The District's analysis of the Town Center Plan indicated that substantial improvements were required to the water, sewer, and recycled water systems to support the proposed residential and commercial uses within the Project area. The infrastructure improvements have the potential for direct, indirect, and cumulative environmental effects associated with construction and operation of water, sewer, and recycled water systems to support the Dana Point Town Center Plan.		
2010032062	Prell Residence Dock Addition and Boat Lift Belvedere, City of Belvedere--Marin The applicant proposes to add 72sf to an existing 317sf dock and install a new 12,00lb capacity boat lift at the proposed addition.	MND	04/19/2010
2010032063	Feather River Parkway/Willow Island Project Yuba City Yuba City--Sutter The City of Yuba City (City) is proposing the Feather River Parkway/Willow Island Project (Project). The Project would implement recreational improvements and convert the Willow Island area into a river front park. The City received funding for the Project from the State of California Resources Agency, through the Proposition 50 California River Parkways Grant Program. The Project area encompasses approximately 65 acres and would create approximately 2.6 miles of public trails. The Project improvements would include pedestrian and cycling trails, public parking, a pavilion, picnic areas, field sport areas, boardwalk and beach landing. In addition, the Project would include public educational displays and interpretive signage to describe the setting of the viewable habitat. The proposed Project is a portion of the City's 2002 Feather River Parkway Strategic Plan.	MND	04/19/2010
2010031085	Central Valley Dairy Digester and Co-digester Facilities Program EIR Regional Water Quality Control Board, Region 5 (Central Valley) --Modoc, Shasta, Tehama, Glenn, Butte, Plumas, Sierra, Nevada, ... The Central Valley Regional Water Quality Control Board is proposing to develop a waste discharge regulatory program for anaerobic digesters at dairies and at central facilities (at dairies or off-site) that use manure and manure plus other organic feedstocks (i.e., used in co-digestion).	NOP	04/20/2010
2010032064	Jensen Lane Elementary School Project Windsor Unified School District Windsor--Sonoma The proposed project would result in the acquisition of a 12-acre parcel and development of an elementary school. The proposed project would develop a maximum of 41,359 square feet and could accommodate a maximum of 700 students. Buildings proposed as part of the project would include classrooms, portable classrooms, a multi-purpose building, an administration building, a library, a greenhouse, and shade structures. An outdoor hardscape play area, a sports field, and a nature walk would also be incorporated into the project.	NOP	04/19/2010

The TSM is being processed concurrently with a General Plan Amendment (GPA06-0005) and Rezone (REZ06-0005).	Neg	04/19/2010
2010031076	Project No. R2009-00925 / RENV 200900056 Los Angeles County Culver City, Los Angeles, City of--Los Angeles The proposed project (Tahiti Marina Apartments) is located on Parcel 7 at 13900 Tahiti Way in the unincorporated community of Marina del Rey. The subject parcel is approximately five acres in size and is leased from the County of Los Angeles. The proposed project requires a Coastal Development Permit to authorize the rehabilitation of the three-story 149-unit existing apartment complex located in one building over a 40- month time period, beginning on or about the first quarter of 2011. The proposed project includes substantial renovation of the apartment building interiors and exteriors, both private and public areas, waterfront promenade, parking facilities and landscaped areas of the existing apartment complex. The project also includes an Option to Amend Lease Agreement for the subject Parcel 7, to be approved by the County Board of Supervisors prior to initiation of the proposed rehab work at the site. The current renovation project does not entail any demolition or replacement of the existing Tahiti Marina boat slips; however, as part of the current renovation project, the existing anchorage lighting, electrical and water utility systems will be upgraded. The proposed project will be upgraded. The proposed project will not require grading or excavation activities.	Neg	04/19/2010

2003062035	<p>Peaceful Oak Estates Subdivision Tuolumne County --Tuolumne</p> <ol style="list-style-type: none"> 1. Certification of the Environmental Impact Report (EIR) for the Peaceful Oak Estates Project and its associated entitlements described below prepared in accordance with the California Environmental Quality Act (CEQA). 2. Resolution for General Plan Amendment 98GPA-03 to amend the General Plan land use designations of a 612.3 +/- acre site as follows:. 3. Ordinance for Zone Change 98RZ-010 to rezone the 612.3 +/- acre site as follows under Title 17 of the Tuolumne County Ordinance Code: 4. Planned unit Development Permit PUD08-005 to allow the creation of 52 lots less than 7,500sf in area within the R-1:PD:MX zoning district, to delay construction of inclusionary housing units required by Chapter 17.65 of the Tuolumne County ordinance Code and to cluster the inclusionary units in one area of the site rather than disperse them throughout the development. The lots are proposed to be a minimum of 3,500sf in area. 5. Vesting tentative Subdivision Map 03T-60(7) to divide the 612.3+- acre site into 19 lots, ranging in size from 7+- to 67+- acres in area, including 11+- acres of open space along the Sierra Railroad Grade through the site, 89+- acres of common open space, a 50+- acre recreational lot, 27 acres of road easements and 438+- acres of residential development. 6. Vesting Tentative Subdivision Map 03T-61(7) to create the Peaceful Oak Estates Subdivision by dividing the 438.0+- acre residential portion of the 612.7+- acre site into 306 residential lots, ranging in size from 3,500+-sf to 5.7+- acres in area. Twelve (12) lots will be zoned RE-1:MX, 242 lots will be zoned R-1:MX and 52 lots will be zoned R-1:PD:MX. Portions of several residential lots will also be zoned O-1 (Open Space-1). Forty of the 52 lots proposed to be zoned R-1:PD:MX are proposed to be developed as affordable housing at the median-income level. 7. Resolution of application to the Local Agency Formation Commission (LAFCO) to form a County Service Area 9CSA) to provide road maintenance for roads serving the proposed subdivision which are not accepted into the County Maintained System. The extension of Peaceful Oak Road, from existing Standard Road to Tuolumne Road, is proposed to be included into the County-maintained road system. All other roads constructed would be maintained through the CSA or a Permanent Road Diversion (PRD) Zone of Benefit. 8. Approval of the Inclusionary Housing Plan for the Peaceful Oak Estates Subdivision. Forty of the 52 lots proposed to be developed in Large Lot K are proposed to be improved with single-family detached residential units affordable to households of median-income. 	NOD

2010022040	County File LP092053: Second Residence - Sunset Road (Recirculation) Contra Costa County --Contra Costa NOTE: Recirculated The project is a request to obtain approval of a land use permit to construct a second single family residence with a detached garage on a privately-owned 11 acre property. The home proposed is single story at 2,532 sf with a maximum height of ~20 ft located towards the back of the lot on a proposed 2,673 sf building pad (40.5 ft x 66 ft). The detached garage is proposed at 567 sf (24 ft x 24 ft) with a maximum height of ~13 ft located immediately northwest of the proposed new residence. The subject site is located at 1130 Sunset Road in the Knightsen area.	MND	04/20/2010

2010031086	El Dorado High School Practice Gymnasium & District Performing Arts Center Placentia-Yorba Linda Unified School District Placentia--Orange Construct and operate new practice gymnasium (15,000 sf) to supplement the existing gymnasium to enhance existing athletic programs for El Dorado and new 600 seat performing arts center (18,000 sf) to serve all District students for various events such as drama, musical, band, choir, and speech performances. The performing arts center would also include a black box theater for smaller performances. The area to be disturbed by these two buildings would be ~1.8 acres. The project would displace southern half of Lot A (remove 174 spaces) and change the internal traffic circulation. Access to Driveway 3 (center driveway) would be limited to emergency trucks and buses only and traffic would be diverted to Driveway 1 and Driveway 2 for Lot A and Lot B access. Total of 503 spaces would be provided at project completion.	MND	04/20/2010
2010031090	UCI Verano Place Apartments Unit Four Redevelopment Project University of California, Irvine Irvine--Orange Implementation of the proposed project would replace the aging apartment buildings in the UCI Verano Place Unit-Four (VPU-4) student housing complex, with new apartment buildings. The project would demolish the existing apartment buildings and construct new student apartment buildings with ~200 apartment units to accommodate ~400 students. The proposed project also includes construction of a community building, and demolition and replacement on site of existing child-care facilities, laundry buildings, accessory structures, surface parking lots, pedestrian paths, bike paths, landscaping, and site lighting.	MND	04/20/2010

2007112012	New Leaf Community Market Santa Cruz, City of Santa Cruz--Santa Cruz NOTE: Review Per Lead The project proposes to remove up to 1,200 cy of sediment bi-annually from open water habitat in Neary Lagoon in the City of Santa Cruz, CA. This work is proposed to be completed in three phases. Phase 1 was completed in 2008 under the ongoing California Department of Fish and Game Lake and Streambed Alteration Agreement (LSA) 2008-0279 which expires on 12/31/2012). LSA 2008-0279 permitted 1,200 cy of sediment removal, and the City of Santa Cruz is pursuing an amendment to that agreement to continue phased sediment removal efforts elsewhere in the lagoon, during summer and fall periods, through the 2012 permit expiration date. that identified in the 1991 EIR for impacts that occurred at Fish Springs, Big and Little Blackrock Springs, and Big and Little Seely Springs. Through distribution of allocated water, the Additional Mitigation Projects will enhance and create riparian, aquatic, wetland and/or spring habitats.

2010031095	Solar Panel Project at La Costa Canyon High School (LCC) and Canyon Crest Academy (CCA) San Dieguito Union High School District Carlsbad, San Diego--San Diego NOTE: Review Per Lead	Neg	04/21/2010
------------	---	------------	------------

Sa Dieguito Union High School proposes a Solar Panel Project at La Costa Canyon High school and Canyon Crest Academy. The District proposes to construct carports within existing parking lots and install solar panels on the roofs of the carports of each school facility. The proposed photovoltaic (PV) solar panels on top of the carports would convert sunlight energy into electricity. Placement of the PV facilities on shade structures (carports) assists in ensuring that the panels are not shaded by proximate trees, structures, or vehicles. Thus, the primary purpose of the carports is to serve as a platform for the PV panels. The shade structures are thus a critical element of the Solar Power Project. The proposed carports would have a slight angle (5" to 10" tilt).

The PV solar panels proposed for installation would be the Sharp NU-U235F1 model. The PV panels would consist of water white-tempered glass, a weatherproof film, and an aluminum frame. Incoming solar rays would be captured by the solar panels. A direct current is created by the solar panels and is then sent to an inverter and converted to alternating current electricity for use on the power grid.

La Costa Canyon High School: 25 carports would be constructed within the northwestern parking lot. The carports would be 10 ft tall. The PV panels would be installed with a single cantilever. The project would include one inverter at this site that would connect to a pull box and the main switchboard for the San Diego Gas and Electric meter. Installation of the proposed carports at this site would entail the removal of 12 light poles and 75 ornamental trees that are currently located throughout this parking lot. New light fixtures would be installed under the carports to ensure security lighting is provided throughout the project area. The number of parking spaces provided on site would not change.

Canyon Crest Academy: 4 carports would be constructed within the northwestern parking lot and 6 carports would be constructed in the southwestern parking lot. The carports would be 10 ft tall. The PV panels would be installed with a double cantilever. The project would include one inverter near both of the parking lots and two San Diego Gas and Electric meters. Installation of the proposed carports at this facility would entail the removal of 18 light poles and 19 ornamental trees currently located within the northwestern parking lot, and 14 light poles and 26 ornamental trees that are currently located within the southwestern parking lot. New light fixtures would be installed under the proposed carports to ensure security lighting is provided throughout the project area. The number of parking spaces provided on site would not change.

Neg	04/21/2010
2010031100	Kate Sessions Elementary School - Proposed Pick-Up/Drop-Off Zone Project San Diego Unified School District San Diego--San Diego The proposed project includes the construction and operation of a pick-up/drop-off zone on the Kate Sessions Elementary School campus. In addition, other on-site and off-site improvements are proposed in order to improve traffic, parking, and provide safer student drop-off and pick-up operations at the school.	Neg	04/20/2010
2010031101	Cerritos Island Community Standards District Los Angeles County Cerritos--Los Angeles The project is a proposal for a Community Standards District (CSD) zoning ordinance intended to mitigate the impacts that may be caused by future residential development on existing undersized lots with limited street access in the unincorporated community of Cerritos Island. The proposed CSD will establish additional development standards, such as minimum lot size and maximum height to ensure that future residential development is compatible in size and scale to the existing residential neighborhoods, and require referral to the fire department to ensure that new residential structures address potential fire safety concerns. The proposed CSD will also require a discretionary director's review procedure for modification of standards. The proposed CSD ordinance is regulatory in nature and does not propose uses or densities beyond what is currently allowed under the existing General Plan and County Zoning Ordinance.	Neg	04/20/2010
2010031103	Zoning Amendment No. 2009-087 Mariposa County --Mariposa NOTE: Review Per Lead Amends Chapter 17.40 (Agriculture Exclusive Zone) of Title 17, the Mariposa County Zoning Code, to allow consideration of agritourism/agri-nature tourism uses and activities and related uses, and standards for those uses and activities. Also amends Chapter 17.108 (Supplementary Standards). This text is proposed to add agricultural homestays into the language currently regulating bed and breakfast and transient rental uses. Amends Chapter 17.148 (Definitions) to provide definitions for agritourism and agri-nature tourism uses and activities as well as additional definitions relating to other uses, such as "agricultural homestays", "ecotourism" and "geotourism." A new chapter, Chapter 17.114, establishes a process for allowing uses under an Administrative Use Permit (AUP). This is necessary because the amendments to Chapter 17.40 allow certain uses in the Agriculture Exclusive Zone to be permitted under an AUP.	Neg	04/22/2010

2008061098	Los Osos Valley Road/US 101 Interchange Improvements Project Caltrans #5 San Luis Obispo--San Luis Obispo The California Department of Transportation (Caltrans) proposes to improve the Los Osos Valley Road/US 101 Interchange in the City and County of San Luis Obispo. The project would correct operational deficiencies and improve safety. The project would widen the Los Osos Valley Road overcrossing and widen the adjacent bridge crossing San Luis Obispo Creek. The project would also relocate the southbound offramps, add new street lighting, and construct retaining walls.	Oth	
2008111002	Proposed Amended Rules 2700-General, 2701-SoCal Climate Solutions Exchange, and 2702-Greenhouse Gas Reduction Program South Coast Air Quality Management District --Orange, Riverside, San Bernardino, Los Angeles NOTE: WITHDRAWN	Oth	
	Note: Review Per Lead / Reliance on Previous EA		
	The currently proposed project requires amending Rule 2702 to incorporate the following amendments: 1) update the forest project, urban forest project, and manure management project protocols to the latest versions; 2) limit forestry projects to include only reforestation and forestry maintenance projects without harvesting; and 3) add a boiler and process heater efficiency protocol to the approved protocol list. The purpose of the boiler protocol is to establish a method to quantify voluntary reductions in greenhouse gas (GHG) emissions resulting from an improvement in the efficiency of a boiler or process heaters with an economizer/combustion air pre-heater or an Oxygen Trim System (OTS). A Final Program Environmental Assessment (PEA) for Proposed Rule 2702 was certified on Feb 6, 2009, that analyzed potential adverse environmental impacts associated with PAR 2702. Key issues involving the previously certified Final PEA are whether the previously certified Final PEA should be used for this project and whether there are any additional, reasonable alternatives or mitigation measures that should be considered as ways of avoiding or reducing the significant effects of the project. SCAQMD staff has analyzed the proposed project and concluded that potential adverse impacts are within the scope of the environmental analysis in the 2009 Final PEA for the following reasons. The 2009 Final PEA analyzed potential adverse impacts from implementing the 2 forestry and the manure management protocols. The proposed modifications do not change any of the conclusions regarding these protocols in the 2009 Final PEA. Although a specific boiler protocol was prepared. The staff has concluded the impacts from the currently proposed boiler protocol are within the scope of the boiler protocol in the 2009 Final PEA. Since impacts from the currently proposed project are essentially the same as those analyzed in the previously certified Final PEA that was circulated for public review and comment, and no other significant adverse impacts were identified, pursuant to CEQA Guidelines Section 15153, SCAQMD has concluded that reliance on the previously certified Final PEA is appropriate. No alternative or mitigations were required or identified in the previously certified Final PEA, and because no significant environmental impacts are anticipated from the proposed project, no additional alternatives or mitigation measures are required or considered.

	trees with diameter at breast height (DBH) of between 3 to 14-inches. Restoration will include planting the exposed slopes with native trees and shrubs, and compensating for removed oak trees.		
2001112031	Lakeside Trail Phase II - Outlet Crossing Tahoe City Public Utility District --Placer The California Tahoe Conservancy (Conservancy) has authorized the provision of up to 9,300sf of stream environment zone restoration credit and 2,100sf of Class 5 land coverage and has granted up to \$2,500,000 to the Tahoe City Public Utility District for implementation of Lakeside Trail Site Improvement Grant, SEZ Restoration Credits and Coverage Allocation project. The project will complete the final phases of the Lakeside Trail, a Class 1 bike path facility that extends and connects to the existing north shore bike trail network.	NOD	
2006042009	Dutch Slough Tidal Marsh Restoration Project Water Resources, Department of Oakley--Contra Costa The Dutch Slough Tidal Marsh Restoration Project proposes to restore tidal action to three diked parcels in eastern Contra Costa County near Oakley. Lease holders currently graze beef cattle on the property. The three parcels total 1166 acres, and are bounded on the south by the Contra Costa Canal and on the north by Dutch Slough. The westernmost parcel is bounded on the west by Marsh Creek, and the easternmost parcel is bounded on the east by Jersey Island Road. The central parcel is seperated from the other two by Emerson Slough on the west and Little Dutch Slough on the east. The Project has three goals: to provide ecosystem benefits including habitats for sensitive aquatic species, to awssess the development of those habitats and measure ecosystem responses so that future Delta restoration projects will be more successfull, and to provide opportunities for public access, education, and recreation.	NOD	
2006101004	California American Water Company's Coastal Water Project Public Utilities Commission --Monterey The project consists of the acquisition of the Site by the MCWD, pursuant to an agreement between MCWD and the Armstrong Family entered into in 1996 and subsequently supplemented and amended (1996 Agreement). The 1996 Agreement limits use of the Site to the production, storage, or distribution of treated water (tertiary treatment or its equivalent) or portable water. The acquisition of the Site and appurtenant easements are intended to potentially allow development of infrastructure for water production and treatment, storage and distribution in accordance with the 1996 agreement, and for future annexation of the Site to MCWD. Only the property acquisition is proposed. Future projects at the Site proposed by MCWD for water supply and other public facility infrastructure are conditioned upon CEQA compliance.	NOD

2008031111	Pomona Valley Hospital Medical Center Specific Plan Pomona, City of Pomona--Los Angeles The Pomona Valley Hospital Medical Center (PVHMC) Specific Plan is intended to guide the future growth and operation of PVHMC and to meet Senate Bill 1953 (SB 1953) hospital seismic safety requirements. Under the Specific Plan, PVHMC would be expanded in three phases. Phase 1 would include the construction of a new 56,000 sf outpatient pavilion and a 138,000 sf inpatient wing and lobby addition to the main hospital building. Phase 2 would add a 54,000 outpatient pavilion and a 123,000 sf hospital inpatient wing. Phase 3 would add an additional 129,000 sf of inpatient facilities in a new wing and add a 400 stall parking structure. The PVHMC core campus will have expanded to include 1,012,314 sf of combined new and existing facilities, a net increase of 267,299 sf. Demolition of 232,701 sf of existing facilities is also proposed, the majority of which would occur at the end of Phase 3. Implementation of the Specific Plan would occur over a period of years, extending until 2030.	NOD

2009111080	Remedial Action Plan, Proposed Central Region Elementary School #13 Toxic Substances Control, Department of Los Angeles, City of--Los Angeles The project involves approval of a Remedial Action Plan (RAP) by the Department of Toxic Substances Control (DTSC) for the proposed Central Region Elementary School #13, Area B2 pursuant to Health and Safety Code Chapter 6.8. The RAP focuses on excavation, removal and off-site disposal of ~8,728 cy of impacted soil with total petroleum hydrocarbons (TPH), metals and volatile organic compounds (VOCs) impacted soil and soil gas. Upon soil removal activities, a Liquid Boot-type will be placed on the shoring along the eastern boundary of excavation to prevent re-confirmation sampling and Site restoration will be conducted. If necessary, additional soil volume will be excavated to ensure all onsite impacted soils containing the identified chemicals of concern (COCs) at concentrations of the corresponding cleanup levels or above have been properly removed. The RAP is part of a new school construction project proposed by the Los Angeles Unified School District (LAUSD). RAP activities are expected to commence in January 2010. Excavation and offsite disposal activities will be completed in ~45 days. The installation of the liquid boot will take place during this 45 day period. All RAP activities are anticipated to be completed by mid March 2010.	NOD

2008072095	PUD-87-19-03M Pleasanton, City of Pleasanton--Alameda The proposal would reduce the density of the 29.8 acre site from 14 lots of the previous approval to a maximum of 4 lots for this proposal. Buildings and private yards would be confined to the designated building envelopes of each lot totaling ~2.49 acres of potentially developable area with the remaining land area set aside as permanent open space. The proposal includes building and landscape design guidelines for the sites' development, construction of on-site infrastructure, and the construction of off-site street improvements.	MND	04/21/2010
2010032077	Palmer House Renovation Project; Design Review (DR 2010-01) Calistoga, City of Calistoga--Napa NOTE: Review Per Lead The Palmer house has long been considered one of the finest examples of Victorian architecture in Napa County. As one of the few remaining examples in the area of French Second Empire design (and one of only two in Calistoga), it was recognized in 1979 as having local significance, and was placed on the National Register of historic buildings. The house also has local significance since it was built in 1871 by judge A. C. Palmer, a former leading citizen of Calistoga. Preservation efforts will be guided by the Secretary of interior's standards for historical buildings. While some nominal changes (almost all of the interior) will be made to the house to accomplish usability in today's living context, these changes will only be to the rear part of the exterior of the building and affect only previous updates that have occurred in the last 15 years. It is the overall intent to preserve the house (and its earliest "turn of the century" additions) in its original form to the greatest extent possible.	MND	04/28/2010
2010032078	Neal Road Resource Recovery Facility Project Butte County Paradise--Butte The Neal Road Resource Recovery Facility (NRRRF) will significantly enhance intake, separation, storage and processing of recyclable materials, fulfilling the County's requirements under AB 939 while providing for a safer, more efficient transfer and recovery operation at the Landfill. The NRRRF will provide additional capacity to process and divert a larger portion of the Landfill waste stream from on-site disposal in the landfill. The proposed NRRRF will be approved as part of revision to Solid Waste Facility Permit No. 04-AA-0002.	MND	04/21/2010
2010031105	Amendment No. 1 to the Arvin Redevelopment Project Area No. 1 Arvin, City of Arvin--Kern The proposed "project" is the amendment to the Arvin Redevelopment Plan for Project Area No. 1. The proposed Amendment No. 1 includes: 1) the addition of 192.5 acres of territory; and 2) the reinstatement of the Agency's eminent domain authority in the existing Project Area No. 1. 2003041057	Sycamore Landfill Master Plan San Diego, City of San Diego--San Diego DFG is intending to execute a Lake and Streambed Alteration Agreement pursuant to Section 1602 of the Fish and Game Code (SAA #1600-2009-0253-R5) to the project applicant, Sycamore Landfill, Inc. The applicant proposes to alter the stream to operate Sycamore Landfill in accordance with the Sycamore Landfill Master Plan Expansion. Project activities include grading and filling drainages within the footprint of the landfill.	NOD	
2008022076	Light Brown Apple Moth Eradiction Program Food and Agriculture, Department of -- The CDFA's objective is to eradicate LBAM from the State of California. Eradication is to be accomplished using a variety of tools with reliance primarily on biological control methods applied in an effective and environmentally safe manner. Each method proposed under the program is discussed as a separate alternative, with different application options under some of the alternatives. The alternatives are categorized as either chemical treatment or nonchemical treatment methods. Nonchemical treatment methods are (1) Inundative Parasite Wasp Releases and (2) Sterile Insect Technique. Chemical treatment methods are (3) Mating Disruption with LBAM-specific pheromones (using twist ties and ground application), and (4) Organically, Approved Insecticides, Bacillus thuringiensis (Btk) and Spinosad, applied from the ground. The CDFA is not considering aerial applications of pheromones. The Program anticipates using all of the chemical and nonchemical alternative (and options) as part of an Integrated Pest Management Program. Should any on alternative become infeasible for effectiveness, economic or environmental reasons, the other alternative would be used. Furthermore, the quarantine, inspection, detection, and privated pesticide use components of No Program would continue until LBAM eradication is achieved.	NOD

2010012013	Lower Blackwood Creek Restoration Project Tahoe Conservancy --Placer The Conservancy, in conjunction with DGS, is proposing partial restoration of the lower reach of Blackwood Creek on the west shore of Lake Tahoe by implementing vegetation enhancement, bank stabilization, and trail rehabilitation elements that would contribute to improved creek conditions. The lower Blackwood Creek study area includes the lowest reach of the Blackwood Creek stream channel from its point of discharge into Lake Tahoe to 4,000 ft upstream. Relative to State Route 89, the study are begins 3,000 ft upstream (west) of SR 89 and extends ~1,000 ft downstream (east) of SR 89 to Lake Tahoe.	NOD	
2010022018	Barham Stormdrain Project Yreka, City of Weed--Siskiyou The proposed project implements storm drainage improvements recommended in the City of Yreka Master Plan of Drainage, as adopted in August 2005. The proposed project consists of the replacement of approximately 3,250 feet of an existing 10 and 18 inch stormdrain pipeline with a 36-inch pipeline. The existing stormdrain pipe extends from the Barham stormdrain detention basin, which is being constructed as a component of the Stormwater Attenuation and Floodplain Restoration Project (SCH No. 2007032159), to an existing outfall at Yreka Creek. The City has received an Integrated Watershed Management Program (IWMP) Proposition 40 grant from the State Water Resources Control Board for the installation of storm drain infrastructure. This project, in combination with previously completed and future planned stormwater management projects, is part of a cumulative effort by the City of Yreka to reduce flood impacts throughout the City. The parcels are zoned CH (Commercial Highway), CT (Commercial Tourist), R-1 (Single Family Residential), CPO (Commercial Professional Office), R-3-12 (High Density Residential) and RSC (Recreation, School Conservation and Open Space). The project is surrounded by various land uses, including residential, commercial, open space, and school uses. The majority of the proposed project will be located within existing paved City streets on Sherman Street, Knapp Streetm North Oregon Street and Blake Street.	NOD	
2010022050	Otterson Drive Outfall (ER 09-01) Chico, City of Chico--Butte The project consists of the construction of an ~1,880 linear ft pipeline and associated outfall structure to convey storm water runoff from two parcels located at 2648 and 2626 Hagen Lane to Comanche Creek.	NOD

Site L8 is located at the Guy West pedestrian/bicycle near the California State University at Sacramento between Howe Avenue and the H Street bridge and extends for 445 linear ft. Site R8 is located at the Guy West pedestrian/bicycle bridge near Campus between the Howe Avenue bridge and the H Street bridge and extends for 440 linear ft.	JD	04/22/2010
2000041058	CUP No. 27, Map No. 143 Kern County Lamont, Arvin--Kern NOTE: Reference SCH#1998121070 / Review Per Lead	MND	04/22/2010
	The project site consists of a portion of two legal parcels of record and encompasses ~190 acres. The site is zoned A (Exclusive Agriculture) and is designated 8.1 (Intensive Agriculture, 20 acre minimum) by the Kern County General Plan. The project is located on the south side of East Bear Mountain Boulevard (SR 223), approximately 1/2 mile west of Wheeler Ridge Road. The site is currently developed with a greenwaste collection and composting facility that has been operated by Community Recycling and Resource Recovery, Inc. since 1993. Existing development consists of 4 composting areas, processed compost stockpile areas, feedstock screening areas, a truck/tire pressure-washing area, and associated office space. The applicant intends to develop a wholesale plant nursery (allowed "by right") at the southeast corner of the site in the future. The current site configuration and layout has been approved by a series of modifications to the original conditional use permit, which was initially approved in 1993. Surrounding land uses include the Lamont Public Utility District (LPUD) wastewater treatment facility to the north and east, a dairy to the west, and irrigated row crops to the south. The Arvin Landfill is directly across Wheeler Ridge Road to the southeast. The closest residence is at the dairy, which is located ~1/4 of a mile west. The next closest residences are located ~1 mile south, at the ski lakes south of Millux Road.		
2010031107	Rainbow Municipal Water District - Lift Station #2 Replacement Project Rainbow Municipal Water District --San Diego The proposed Project would involve improvements at an existing lift station site (Lift Station 2), owned and operated by the Rainbow Municipal Water District (RMWD). Improvements to the existing facilities are necessary to adequately meet growing service demands of the surround community. The existing facilities consist of a pre-cast concrete wet well (storage capacity at ~7,500 gallons), pump/motor "can", standby generator, electrical service, and an odor control	MND	04/22/2010

	Newport Banning Ranch property to stockpile export dirt associated with grading activities.		
2009071022	West Kern Water District Groundwater Banking Project West Kern Water Agency --Kern West Kern Water District proposes to implement a Groundwater Banking Project to aid in the management of their existing water supplies by increasing the reliability of water supplies to meet water demands within the District. The Project involves acquisition of approximately 480 acres of land located on the Kern River Fan area of western Kern County, and the construction of recharge basins, groundwater monitoring wells, groundwater production wells, and conveyance facilities. The proposed production wells will recover up to 12,700 acre-feet per year from the underlying groundwater basin. The amount recovered would be limited to the amount of water previously banked for WKWD on the subject property, the south end of the Buena Vista Water Storage District (BVWSD), the Tule Elk State Natural Reserve, the Outlet Canal, and the Kern Water Bank (KWB), less calculated losses. A Memorandum of Understanding outlining operations requirements of the project would be prepared and executed by neighboring water districts. Further, a conveyance pipeline would be constructed linking the new facilities with WKWD's existing Pump Station "A". The Project would occur in an unincorporated area of western Kern County.	NOD	
2009101025	Old Ducey's Cove Stream Channel Armoring Regional Water Quality Control Board, Region 5 (Central Valley) --Madera NOTE: Review Per Lead The project will backfill and armor with riprap, ~30 linear ft of eroded channel bank in the Bass Lake lakebed. The channel contains Dogwood Creek during the periods when the lake is drawn down for the winter. The area is underwater when the lake is full.	NOD	
2009111069	Outdoor World Wireless Telecommunications Facility Major Use Permit San Diego County --San Diego This is a request for a Major Use Permit to authorize the construction and operation of an unmanned wireless telecommunication facility. The proposed facility would consist of mounting 12 panel antennas and 1 microwave dish antenna inside of a new 30-foot tall RF transparent faux water tank, which is 16 feet in diameter. Supporting equipment would be enclosed within a 20' x 11'6" x 10' pre-fabricated equipment enclosure with 2 air conditioning units. The proposed faux water tank and equipment enclosure would be surrounded by an 8-foot tall CMU wall.	NOD	
2009121044	Coker Minor Subdivision (3 Lots); Tentative Parcel Map 21102 San Diego County --San Diego The project is a minor subdivision to create 3 residential lots on 8.51 acres located in the Lakeside Community Planning Group, within unincorporated San Diego County. The site is currently vacant with one graded pad and driveway. Access would be provided by a private road and driveways connecting to Lorraine Ridge Trail, which connects to Quail Valley Way. The project would be served by on-site septic systems and imported water from the Padre Dam Municipal Water District.	NOD

	(consisting of three parts: Part I: the Goals & Policies Report, Part II: the Area Plans, and Part III: the Community and other Plans (the plans in Part III will not be changed as part of this update, except for Dinuba)revised by this update to include the Dinuba Golf Course) and Pixley (revised by this update to include Harmon Field), the EIR, and the General Plan 2010 Background Report.		
2007121049	GPA/ZC/Variance/Conditional Use Permit #07-0027 (Imperial Landfill Expansion Project) Imperial County --Imperial The Imperial Landfill, owned and operated by Imperial Landfill, Inc., is a Class III non-hazardous solid waste landfill located in an unincorporated portion of Imperial County. The landfill is currently approaching full capacity. The project proposes to implement a Landfill Plan and that includes a lateral and vertical expansion for development of a new disposal cell beyond the currently permitted area to extend the facility's life from the remaining three to five (3-5) years approximately thirty (30) years in order to meet the current and future waste disposal needs of Imperial County. The Landfill Plan also includes redesign of the facility, addition of a public drop off facility, relocation of the scale house, increased recycling operations, and use of the offsite borrow sites to supply soil for landfill cover operations. As part of the grading permit process for the borrow site locations and configurations have been specified after the landfill expansion begins. The project would include an additional 160 acres (including the 89-acre new cell and 71 acres of remainder).	FIN

	access points to the Project site, located on the east and west portions of Nicolet Street. The Project will provide 1,244 parking space.		
2010031112	Oso Parkway Widening Mission Viejo, City of Mission Viejo--Orange NOTE: Review Per Lead	MND	04/26/2010
	The project is the widening of Oso Parkway from 6 lanes to 8 lanes between Country Club Drive and Interstate 5, the construction of an 11 ft high retaining wall on the Mission Viejo Golf Course, the addition of turning lanes, improvements to Oso Parkway Bridge at Oso Creek, and the relocation of utilities and sidewalks.		
2010031113	Quail Valley Sewer Improvements Subarea 9 Eastern Municipal Water District Menifee--Riverside NOTE: Review Per Lead	MND	04/29/2010
	Eastern Municipal Water District (EMWD) proposes to install a combination gravity and low pressure sewer collection system to serve the Quail Valley Subarea 9 service area. Falling septic systems in the community of Quail Valley have caused polluted water in the community and in downstream Canyon Lake resulting in both environmental and health issues. Because Subarea 9 is known to be one of the main polluters and the area closest to Canyon Lake, concentrating efforts for a sewer collection system in Subarea 9 would provide the greatest benefit to the Quail Valley community and the City of Canyon Lake.		
2010031114	Westpark Community Park Improvements San Buenaventura, City of Ventura--Ventura This project includes construction of ~5,000 sf of additional classroom and youth areas as well as a separate fitness center building of ~9,000 sf for the existing Westpark Community Park and Recreation Center. The existing gym is proposed to be converted to a community hall.	MND	04/23/2010
2010032086	Proposed Amendment of the Redevelopment Plan for the Highlands Park Community Development Project Clearlake, City of Clearlake--Lake The objectives of redevelopment are to: Eliminate slums and blight, stabilize the tax base, increase employment opportunities, improve housing, and create an adequate social, economic, and psychological environment.	MND	04/23/2010
2010032087	New Bass Lake K-8 School Rescue Union School District --El Dorado NOTE: Review Per Lead	MND	04/30/2010
	Site acquisition and construction of a K-8 school on ~11.18 acres of undeveloped land in unincorporated El Dorado County. The facility will comprise ~6 buildings, with classrooms, a multi-purpose building with a kitchen, a gymnasium, library and administration buildings. The structure will be one to two stories, residential in scale and character, with handicap access ramps to all levels. Current plans include softball and soccer fields to the north of the school site by joint use agreement with El Dorado Hills CSD. A signal light will be installed at the

	intersection of the main school access and Serrano Parkway, with a stacking lane in front of the school, a parent drop-off, separate kindergarten drop-off, separate drop-off area for buses, and at least 165 parking spaces, including parking at the adjacent community park.		
2010032090	City of Belvedere Housing Element Update and General Plan Update Belvedere, City of Belvedere--Marin The project consists of an update of the existing City of Belvedere General Plan to bring it into conformance with today's standards without any major changes in policy direction as well as an update of the Housing Element to provide an analysis of the community's housing needs for all income levels and strategies to respond to those needs.	MND	04/23/2010
2010031111	Topanga State Park General Plan Parks and Recreation, Department of --Los Angeles To meet requirements set forth in Section 5002.2 of the Public Resources Code and Section 4332 of Title 14 of the California Administration Code, CDPR is preparing a General Plan for Topanga State Park (Park). The general plan will delineate a number of management areas and corridors. It will recommend goals and guidelines for specific areas of the Park, as well as for the Park as a whole. These goals and guidelines will address future management of park resources, land use and development, visitor use, and operational issues at a general plan level of specificity. As a land-use plan, the General Plan may make recommendations for levels and types of use, capacities and visitation and location and type of future facilities. Special designations, protections, or sub-classifications may also be proposed for specific areas within the Park.	NOP	04/23/2010
2010032085	Piedmont Station LLP-408 Linda Avenue Townhouses Piedmont, City of Piedmont--Alameda Piedmont Station LLC proposes to develop an approximately 0.4-acre site within the City of Piedmont with seven three-story over basement townhouse structures. The property is currently developed with an approximately 5,700-sf, two story, concrete electrical utility substation that was vacated in 1991. The proposed project would involve: demolition and removal of the existing electrical substation building; removal of existing vegetation and excavation and placement of fill to create a level building area; construction of the seven new townhouse structures and associated development components; and landscaping and irrigation.	NOP	04/23/2010
2010031110	Case No. 102-07GPA: 2008-2014 City of La Verne Housing Element Update La Verne, City of La Verne--Los Angeles This is a General Plan Amendment (102-07GPA) to adopt the City of La Verne's 2008-2014 Housing Element Update. Pursuant to California Government Code Article 10.6, the Housing Element Update must include certain components in order for the State of California Department of Housing and Community Development to find it in compliance with State Law. The City of La Verne strived to meet all requirements set forth by the State of California for Housing Element Updates. This Housing Element Update meets the City's Regional Housing Needs Assessment Allocations and complies with all aspects of the State Housing Element Law.	Neg	04/23/2010

2006071095	The Villages of Lakeview Riverside County --Riverside Specific Plan No. 342 is a 2,786-acre planned community located northerly of Wolfskill Avenue and Pulsar View Road, south of Marvin Road, east of the San Jacinto River, and west of the border of the City of San Jacinto. It proposes the construction of a maximum of 11,150 dwelling units of which no more than 1,500 units may be developed north of Ramona Expressway. Land uses include: 1,037 acres designated for residential uses which may include 8,050 dwelling units, 288 acres for a mixed-use town center area which may include 500,000sf of commercial uses maximum and/or 3,100 dwelling units, 155 acres of park areas, 156 acres of public facility area, 1,003 acres of open space, and 147 acres for major roads. Specific Plan No. 342 is associated with General Plan Amendments No.'s 720 and 721. General Plan Amendment No. 720 proposes to change the existing land use designations on the subject site from Agriculture, Open Space - Conservation, Open Space-Conservation Habitat, Rural Mountainous, Rural Residential, Very Low Density - Rural Community, Low Density- Rural Community, Commercial Retail, Very Low Density Residential, Low Density Residential, Light Industrial to Specific Plan No. 342. General Plan Amendment No. 721 proposes the upgrading and downgrading of numerous trails and roadway designations, including but not limited to : the elimination of 9th Street/Yucca Avenue as a through street through the project easterly; the rerouting of 10th Street/Wolfskill Avenue as a Major roadway east of Hanson Avenue, the reclassification of Hanson Avenue from a Major Roadway to a Collector Street; and Bridge Street, 3rd Street, 5th Street, and 6th Street will be eliminated on the project site; and access to the Ramona Expressway will be shifted to Town Center and Park Center Boulevards. General Plan Amendment No. 721 will also amend the Circulation Element Trails and Bikeway System to include the Community Trail designation for a number of the trails proposed within the project boundary. Change of Zone Case	NOD

	x 12 ft cement patio, two 10 ft by 40 ft storage containers, 20 automobile parking spaces, two 7,500 gallon water storage tanks, a trap and sket facility, and portable restrooms used only during the 5 month hunting period.		
2010031115	San Diego Regional Bicycle Plan San Diego Association of Governments --San Diego The San Diego Regional Bicycle Plan contains goals and recommendations that are regional in scope and provides a planning framework to guide local and regional decision making. The Regional Bicycle Plan also provides guidance to local decision makes on the design of bicycle facilities, development of programs, and for prioritizing improvement projects. The Plan outlines the necessary steps for a phased implementation strategy where the prioritization of projects and detailed financing options will be undertaken in a subsequent effort that coincides with the update to the Regional Transportation Plan (RTP) in 2050.	MND	04/26/2010
2010031116	Villagewalk Townhomes (14-Unit) San Diego County --San Diego This is a request to develop ~1.31 net acres into 14 detached, 2 story townhomes that are ~1,764 sf. The site is currently undeveloped. Proposed access to the site would be via a private driveway accessing La Brea and Robertson Street. The project proposes offsite road, curb, and gutter improvements equivalent to 0.35 acre. The project would be served by the Ramona Fire Department, Ramona Municipal Water District, and the Ramona Unified School District. A 10 inch water main, ~540 ft, will extend into the site from the corner of La Brea and Pala Streets along Pala and Robervton Street. Earthwork will consist of ~1,150 cy of total grading material.	MND	04/26/2010
2010031117	Doty-Trust Park Riverside, City of Riverside--Riverside NOTE: Review Per Lead The City of Riverside proposes to develop a recreational park (Dot-Trust Park) on ~15.5 acres of vacant, graded land, all comprised within a lot totaling 21.5 acres. The recreational amenities proposed consist of an ~ 180 x 320 ft open turf play field, an ~0.34 mile length walking/jogging looped path (around the turf play field) and an ~0.19 mile length advanced jogging path extension. Additional amenities include a basketball court, exercise stations, a children;s tot lot with water fountain play area and 3 shade-covered canopies for picnics dispersed throughout the park. Furthermore, two trailheads along the park's western boundary would climb up into the hillside directly west of the Project, which could offer hiking and mountain biking activities into existing trails. Hours of operation will be dawn to dusk.	MND	04/27/2010
2010031120	Madison High School - Proposed Athletic Field Upgrades Project San Diego Unified School District San Diego--San Diego NOTE: Review Per Lead The proposed project includes the design, construction, and operation of upgraded athletic facilities on the Madison High School campus in the City of San Diego. The purpose of the project is to upgrade the existing athletic facilities to improve	MND	04/27/2010

	the school's existing athletic program and provide Americans with Disabilities Act (ADA) compliant facilities.		
2010032092	<p>Rock Creek Trail Development Parks and Recreation, Department of --El Dorado</p> <p>Eldorado National Forest proposes to install ~8.9 miles of new trail, 0.5 miles of trail reconstruction, 3 new bridges, and 3 new prefabricated restrooms (vault toilets) at the Rock Creek Trail System in the Georgetown Ranger District. The trail inventory and monitoring for the Rock Creek Trail System revealed that certain trail segments are in poor condition. Therefore, reroutes are proposed on 13 segments. Three new bridges are proposed at the lower Rock Creek crossing, and on Ballarat Trail. Two prefabricated vault toilets are proposed at the Mace Mill Staging Area, and one is proposed at the Bald Mount Staging Area. The project would be funded in part by grant monies approved by the California Department of Parks and Recreation, Off-Highway Motor Vehicles Recreation Division.</p>	MND	04/26/2010
2010032093	<p>Potbelly Beach Club Water Line Replacement Project Soquel Creek Water District --Santa Cruz</p> <p>Potbelly Beach Club, in cooperation with Soquel Creek Water District, proposes to replace existing water service lines with new lines and laterals (as needed), and to connect to the Soquel Creek Water District System. The proposed project would replace an existing private well and water distribution system serving the 24 existing Potbelly Beach Club homes and lots, and includes the abandonment of an existing reservoir currently owned and operated by Potbelly Beach Club. The water line will extend from McGregor Drive, down New Brighton Road, and then split into separate lines to serve homes and lots on the bluff, and homes below on the beach along Potbelly Beach Road.</p>	MND	04/26/2010
2010032094	<p>Vasco Winds Re-power Project Contra Costa County Byron, Livermore--Contra Costa</p> <p>The applicant proposes the:</p> <ul style="list-style-type: none"> - Removal of wind turbines. - Installation up to 54 modern wind turbines <p>The largest configuration would have a total height of approximately 428 feet above ground level.</p> <ul style="list-style-type: none"> - Permanent disturbance of up to approximately 55.3 acres, which includes new turbine pads and foundations, a new or upgraded substation, a new electrical collection and distribution system, and new improved roads. 	NOP	04/26/2010
2010031118	<p>Development Plan Approval Case No. 849 Santa Fe Springs, City of Santa Fe Springs--Los Angeles</p> <p>The proposed project consists of the construction of an ~106,000 sf concrete tilt-up warehouse building on the West Parcel of the Proposed Project site. The building will include about 8,500 sf of office space and the remainder of the building (97,500 sf) will be dedicated to warehouse activity. The plan also includes 168 parking spaces and minor landscaping that fronts Burke Street. The proposed project is identified by the City as Development Plan Approval Case No. 849.</p>	Neg	04/26/2010

2010011087	Moss Landing Wildlife Area Phase 2 Project Fish & Game #4 --Monterey The proposed project consists of site modifications and repairs to maintain and improve the functionality of the project site as a managed wildlife habitat area. Following project completion, the project site would be fundamentally, unchanged in appearance or use; however, it would provide better habitat for the wildlife populations it was designed to serve, and would give site managers greater ability to maintain this habitat.	NOD	
2010038247	Agreement 2009-0211-R4 - Ash Slough Bore Fish & Game #4 Chowchilla--Madera The Project consists of Horizontal Directional Drilling (HDD) to install a 16-inch diameter HDPE water line underneath the bottom of the channel of Ash Slough. The pilot bore will be drilled on the north side of the slough in a vacant field outside of the riparian area. The bore will be drilled approximately 5 feet beneath the creek with the receiving pit on the south side of the slough in an open ground feed lot. The total length of the bore will be approximately 400 feet. The hole will be cultivated starting with a 12-inch reamer and progressing in increments before reaching the final bore size of 20-inches. A 13 yard vacuum excavation truck will be used to haul directional bore mud from bore and receiving pits. Once the hole is complete, a 16-inch water line will be pulled through the bore hole. No riparian habitat will be impacted.	NOE	
2010038248	JEM Ranch Trenching and Pump Station Installation Fish & Game #2 --Yolo This project will install two new pump stations on the north side of the West Adams canal, new intake structures into the channel banks of the West Adams canal, and trench for the extension of electrical service and irrigation lines at two ephemeral drainages tributary to Cache Creek. Each pump station will consist of a new 20ft by 30ft surfaces (aggregate base) pad and access road. A wet well and pump will be installed on each pad approximately 20 feet from the top of bank of the West Adams Canal. The well will connect underground to a new 12-inch intake pipe installed at the channel bottom of West Adams Canal. The intake structure will include a manually operated canal gate on the intake pipe installed in a new recessed concrete section along the north bank of the West Adams Canal. A hand-wheel on a rising stem with bar supports will be installed at the top of the bank at each intake location. Water will be pumped from the West Adams Canal as it is released from the Capay Dam by the Yolo County Flood Control and Water Conservation District. Pumping rates and timing will be determined based on previously allocated water rights, water availability and irrigation needs. Pumps are not expected to operate during the winter rainy season and the canal gates will be kept closed during that time. At the trenching locations, existing culverts will be removed, services will be trenched into the roadbed below the bottom elevation of the culverts, and they will be replaced. Thus no new disturbance to the bed, channel, or bank of the ephemeral drainages will occur as a result of service installation.	NOE

2004031074	<p>Twentynine Palms Water District Project 2009 Twentynine Palms Water District Twentynine Palms--San Bernardino</p> <p>The Project 2009 encompassed the following components: a million gallon reservoir with two booster pump stations and related transmission pipelines; a two million gallon reservoir with one booster station and related transmission pipelines; and installation of approximately 43,000 lineal feet of pipeline, primarily to establish a second source of water supply to a portion of the District's service area called the Lear Annexation. These improvements are essential to provide water customers with an adequate water supply to meet portable water and fire protection requirements. About 18,000 linear feet of pipeline will be installed along the modified alignment outlined above. The Addendum serves as the basis for this second-tier environmental review of the proposed project.</p>	NOD	
2008121006	<p>Colton Sanitary Landfill Expansion Project San Bernardino County Colton--San Bernardino</p> <p>Expansion fo the Permitted Boundary by 15 acres and the Refuse Footprint by 6 acres, enhanced chain link fencing, enhanced security and increased slopes along the western boundary. This proposed project will increase design capacity from 13.3 million cubic yards to 15.5 million cubic yards and icnrease site life by an estimated 5.2 years; from 2009 to 2015.</p>	NOD

2010038265	SFPP, LP Line Section 111 (20") Right-of-Way Repair Project Regional Water Quality Control Board, Region 7 (Colorado River Basin), Palm Desert --Imperial, Riverside SFPP, L.P. owns and operates a 20-inch pipeline that transports petroleum products from Colton, California to the Yuma, Arizona area. An approximately 9-mile long section of the Right-of-Way (ROW) access road has recently experienced high volume stormwater flows, which have washed out the access road in 20 locations. In order to alleviate future erosion and protect the existing facilities, SFPP is proposing to place 20 foot long, 20-inch diameter, galvanized, corrugated metal pipe (CMP) culverts at 20 ephemeral drainage crossings along the 9 mile segment of the existing ROW access road. These repairs would facilitate stormwater flows beneath the access road thereby protecting the road and pipeline from future erosion, and re-allowing maintenance and emergency vehicles to access to the ROW.	NOE	
2010038266	Petition for Change Application #17182 State Water Resources Control Board --San Luis Obispo The licensee requests a change to amend to the description of the place of use to the area actually being irrigated by License 7070. When License 7070 was amended in 1996, the place of use was expanded from 30 acres to a total of 213 acres. This area did not accurately reflect the acres that are actually irrigated under the licennse, and included areas not part of the Rolling "A" Ranch property. To rectify this situation, on March 6, 2009, the licensee filed a petition to change the palce of use, reducing the total acreage form 213.0 acres to 95.0 acres,	NOE	
2010038267	Los Vaqueros Energy Recovery Project State Water Resources Control Board Antioch--Contra Costa The LVPER is a small/low impact hydroelectric power plant (approximately one megawatt of capacity) on CCWD's Los Vaqueros pipeline near the connection with Reclamation's Contra Costa Canal. The hydroelectric project would capture the currently unused energy potential associated with the existing free-flowing water through the buried 96-inch diameter eight-mile portion of the Los Vasqueros pipeline.
