

Arnold Schwarzenegger, Governor

STATE CLEARINGHOUSE

NEWSLETTER

May 1st-15th, 2004

STATE CLEARINGHOUSE NEWSLETTER

The State Clearinghouse distributes draft environmental documents to state agencies for review and comment, pursuant to the California Environmental Quality Act (CEQA). The State Clearinghouse also acts as the State Single Point of Contact for the review of federal grant applications and federal development projects. This Newsletter summarizes the environmental documents and federal grant applications received by the Clearinghouse during the period **May 1-15, 2004**.

CLEARINGHOUSE CONTACTS

Please contact The State Clearinghouse if you have any questions regarding processing of environmental documents or grant applications. We may be reached at:

Telephone: (916) 445-0613
Fax: (916) 323-3018
e-mail: state.clearinghouse@opr.ca.gov
website: www.opr.ca.gov/clearinghouse/clearinghouse.shtml

Questions regarding federal grant notices should be directed to **Sheila Brown**.

Questions regarding processing of environmental documents should be directed to:

Scott Morgan
Associate Planner

CLEARINGHOUSE MAILING ADDRESS

Please do not use our street address (1400 Tenth Street, Room 212) for mailing purposes. The correct mailing address is:

STATE CLEARINGHOUSE
P.O. BOX 3044
SACRAMENTO, CA 95812-3044

INFORMATION AVAILABLE ON-LINE

The 2001 CEQA Guidelines are available from the Resources Agency's website at <http://ceres.ca.gov/ceqa/>.

The State Clearinghouse Handbook, which contains all of our environmental document and grant processing procedures and forms, is available on our website.

MEMORANDUM

Governor's Office of Planning and Research State Clearinghouse

Date: December 5, 2003
To: All CEQA Lead Agencies
From: Terry Roberts, Director, State Clearinghouse
Re: Submission of Electronic CEQA Documents to State Clearinghouse

In order to take advantage of the cost and time savings associated with electronic documents, the State Clearinghouse will accept electronic documents under the following conditions:

1. Electronic documents shall be on CD, and the file format shall be either Adobe PDF or Microsoft Word.
2. For EIRs, each CD must be accompanied by a printed copy of the Executive Summary. This allows the State Clearinghouse and the reviewing agencies to efficiently route the document to the proper persons.
3. Negative Declarations and Mitigated Negative Declarations will not be accepted on CD. However, any separately bound technical appendices to the document may be submitted on CD.
4. For certain projects, particularly large infrastructure projects such as airport expansions, the State Clearinghouse may request a certain number of hard copies. In addition, the lead agency shall honor a special request from a responsible or trustee agency which requires a hardcopy for purposes of review and comment.
5. This policy does not invalidate CEQA Guideline §15205, which requires a public agency submitting printed documents to the State Clearinghouse to send, in addition, an electronic copy of the document, *if available*.

If you have any questions regarding the submission and circulation of environmental documents, please contact the State Clearinghouse at (916) 445-0613 or state.clearinghouse@opr.ca.gov.

	other support facilities. The main entrance would be along Cherry Avenue with small visitor parking lot, and faculty parking would be provided on the north side of East 20th Street for approximately 80 vehicles.		
2003121128	Mineral King Dairy Project Tulare County Resource Management Agency --Tulare Request for a Special Use Permit to construct and operate a new dairy to accommodate the 5,652 animal units (3,320 milk cows) in a facility covering approximately 156 acres of a 1,648-acre project site. The balance of the acreage will remain under cultivation and available for irrigation with manure water.	EIR	06/16/2004
2003122009	Mt. Eden Rezoning and Annexation Project Hayward, City of Hayward--Alameda Proposed rezoning of properties and annexation to the City of Hayward, as described in attached draft environmental impact report would allow potential development of up to 475 dwelling units, 540,000 sq. ft. of Residential development, 390,000 sq. ft. of light industrial, 28,000 sq. ft. of neighborhood commercial.	EIR	06/16/2004
2001051131	Tentative Tract No. 29972, Draft EIR No. 435, General Plan Amendment No. 550, and Change of Zone No. 6561 Riverside County Planning Department --Riverside General Plan Amendment No. 550 is a proposal to change the Sun City/ Menifee Valley Community Plan land use designation from "Residential - 2 1/2 acre minimum lot size" to "Residential - 2 to 4 dwelling units per acre." Change of Zone No. 6561 is a proposal to change the zoning classification on the site from Light Agriculture with a 2 1/2-acre minimum for size (A-1-2 1/2) and Light Agriculture with a 5 acre minimum lot size (A-1-5) to One-Family Dwelling (R-1). Tentative Tract No. 29972 would result in the construction of 398 single-family dwellings on individual residential lots with a minimum lot size of 7200 square feet, three detention basins, a 28.4-acre open space lot with a 100-foot wide fuel modification zone, and a portion of a regional multi-purpose trail.	FIN	
2002032048	Port of Stockton West Complex Development Plan Stockton, Port of Stockton--San Joaquin The draft EIR assesses the environmental impacts associated with the Port's proposed West Complex Development Plan, City of Stockton Rough and Ready Island Redevelopment Plan, and two project-specific components within the Project Area. The two program and two project-specific actions constitute the Proposed Project. The Development Plan provides a programmatic overview of the types of uses that are under consideration by the Port. These uses would include the redevelopment of marine terminals on the developed 500 acre portion of the Island and the development of a commercial and industrial park on the existing undeveloped southern 500 acres of the Island. The two project-level components are the proposed dredging of the berths along the Project Area Stockton Deep Water Ship Channel and the McCloy Avenue, Daggett Road and Daggett Road Bridge Project. 2001121110	Pacific Street Bridge Project Oceanside, City of Oceanside--San Diego CDFG is executing a Lake and Streambed Alteration Agreement pursuant to Section 1601 (SAA# 1600-2003-5134-R5) of the Fish and Game Code to the project applicant Marla Doyle, representing the City of Oceanside. The applicant proposes to alter the streambed of the San Luis Rey River, tributary to the Pacific Ocean, to accommodate the Pacific Street Bridge Project. The project consists of building a new, mid-channel bridge across the San Luis Rey River that extends from Pacific Street, adjacent to the railroad bridge, and continues northwesterly to Harbor Drive South near the Harbor Village commercial area. The bridge will have a 12-foot-wide travel lane in each direction, an 8-foot-wide combination shoulder and bike lane on both sides of the road, and 5-foot sidewalks on both sides. Project activity includes placement of fill, the construction of a retaining wall and placement of rip-rap on both sides of the river; the placement of six permanent bridge support piers; temporary piers and a trustle system to facilitate construction of the bridge; removal of the existing at-grade Pacific Street crossing. Construction activity impacts 2.78 acres of streambed.	NOD

2003041096	<p>Sedgwick Reserve Infrastructure Plan and Water Delivery System University of California, Santa Barbara --Santa Barbara</p> <p>The University is proposing to implement an Infrastructure Plan for the Sedgwick Reserve. The Sedgwick Reserve is located in the Santa Ynez Vally of Santa Barbara County. The Infrastructure Plan includes renovation of 6 buildings, construction of 8 buildings, and demolition of 7 buildings and structures. The 6 buildings planned for renovation include the Sedgwick Family House, bunkhouse, art studio, wood and hay barn, and the tennis court and pool and pool shed. Eight new structures would be constructed including a 3,835 square-foot (sf) meeting house and administration building, 4,000 sf lab building, 3,400 sf researchers quarters, four (1-2,000 sf and 3-1,200 sf single family residences, and one 400 sf storage shed. A wooden garage, three small wooden houses (each approximately 1,400 sf), a metal Quonset hut, chicken coop, and corrals would be demolished. Approximately 2,000 feet of access roadway within the Reserve would be upgraded and a water delivery system would be installed. The water delivery system would be connected from an existing reservoir on the northern side of Sedgwick, on the adjacent Woodstock subdivision property, and water pipelines for domestic and fire suppression would be installed along an existing roadway and would be approximately 1.25 miles long. An underground reservoir would be constructed with concrete on an approximate 125 by 125 foot building pad. The reservoir would be approximately 20-feet deep with a maximum of 15-feet of water and be approximately 85 feet in diameter.</p>	EIR	06/17/2004

2004052015	Smith (Russell) Minor Subdivision and Special Permit Humboldt County --Humboldt A Parcel Map Subdivision of an approximately 21,450 sq. ft. parcel into three parcels. Proposed Parcel 1 will be 5,145 sq. ft., proposed Parcel 2 will be 6,370 sq. ft. and proposed Parcel 3 will be 7,335 sq. ft. An approximately 240 sq. ft. building and a concrete slab developed across the property lines of proposed Parcel 1 and 2 will be removed as a part of this project. Proposed Parcel 3 is currently being developed with a single-family residence. An exception to the road width and lot frontage standards is requested pursuant to §325-9, HCC. Water and sewer services will be provided by the McKinleyville Community Services District.	Neg	06/02/2004
2004052016	A Parcel Map Subdivision of an Approximately 7.65 Acre Vacant Parcel. Humboldt County Planning Department Fortuna--Humboldt A Parcel Map Subdivision of an approximate 7.5-acre parcel into three parcels of 2.50 and 2.65 acres each. All parcels will be accessed via Drake Hill and Airport Roads and served by on-site water and sewage disposal systems until LAFCO approval to connect to City services. A common detention basin is proposed on resultant Parcel 3 as required by the County Land Use Division. The project also includes a Conditional Use Permit for a ± 41,000 sf mini-storage facility with caretaker's unit.	Neg	06/02/2004
2004052017	Tentative Subdivision Map Application S-5-04, Rivercrest Townhomes Redding, City of Redding--Shasta Tentative Subdivision Map Application 2-5-04, Rivercrest Townhomes Subdivision, by Rivercrest Partners, requesting permission to subdivide 19 acres into 19 multiple-family residential lots and a wetland preserve area. The site is located on the east side of Bechelli Lane, south of the approved Rivercrest Estates Subdivision site, and west of Interstate 5. The property is zone "RM-10" Residential Multiple Family District with a General Plan designation of "Residential, 6 to 10 units per acre." The project sponsor is requesting approval of the tentative subdivision map to create 19 lots for the development of fourplex townhomes on 17 of the lots (68 units) and for 122 multiple-family units on Lots 12 and 13. The total number of multiple-family units that the developer is anticipating is 190, which translates to a density of 9.95 units per acre. Under the City's Zoning Ordinance Schedule 18.31.020-A(3), a site development permit would be required for the development of every lot in the subdivision. The proposed multiple-family units would be located on both sides of Rivercrest Drive, an access road that runs from Bechelli Lane and north through the Rivercrest Estates Subdivision site. The typical lot sizes range between 10,000 to 16,000 square feet, with the two larger 220,800-square-foot lots next to Interstate 5.	Neg	06/02/2004

	modification includes the installation of two new processing units: 1) a resin ion exchange bed enclosed in two 320-gallon tanks and 2) an activated carbon bed enclosed in a 414 gallon tank. These new treatment units will be located adjacent to the existing waste water treatment system.		
2004058031	Pyramid Lake Repairs and Improvements Project Water Resources, Department of, Division of Engineering --Los Angeles Project consists of repairs and improvements to multiple recreational sites along Pyramid Lake to restore facilities damaged by erosion and to bring the area into compliance with the Americans with Disabilities Act (ADA).	NOE	
2004058032	2004 San Clemente Dam Drawdown Project Water Resources, Department of, Division of Dams Carmel--Monterey Construction of an additional port in the concrete dam at Elevation 513.75 feet and installation of a pipe on the downstream end to provide for fish passage.	NOE	
2004058033	Earth Day Project Parks and Recreation, Department of Sacramento--Sacramento The project will entail four work activities to be performed at Sutter's Fort State Historic Park by volunteers as part of the annual state-wide Earth Day celebration. The work activities will include: 1) Planting approximately 600 plugs of native grasses along the west side of the duck pond to restore lost vegetation; 2) Installing an interpretive panel kiosk at the southwest side of the duck pond - requiring two holes 8 inches in diameter by 24 inches deep for the panel parts - to educate the public about the pond environment; 3) Installing two "duck boxes" to provide shelter for wild wood ducks visiting the pond. The boxes will be located near the high water line of the pond and will require one hole 8 inches in diameter by 36 inches deep per each duck box; and 4) Planting two native oak trees (<i>Quercus lobata</i>), 15 gallon size, on the park grounds for additional shade. The trees will be located at the same locations of two former trees which fell down in a previous storm. Planting the trees will require one hole each, approximately 36 inches in diameter by 24 inches deep.	NOE	
2004058034	Parking Lot Expansion and Fencing Installation Parks and Recreation, Department of Sacramento--Sacramento The project consists of expanding an existing paved parking lot at the Heilbron Mansion (the new headquarters for Capital District) from 20 to 26 vehicle spaces- including one space for ADA accessible parking- and installing fencing to create an enclosed parking compound for six of the stalls for overnight parking. The expansion requires the removal of approximately 1,000 square feet of landscaping to be replaced with asphalt paving. Following paving, the parking lot will be striped with paint to delineate the parking stalls.	NOE	
2004058035	Outfall Levee Repair South Bayside System Authority Redwood City--San Mateo The South Bayside System Authority (SBSA) owns and operates a regional wastewater treatment system serving the communities of southern San Mateo County on the bay side of Skyline Blvd. The SBSA facilities include a 60-inch diameter outfall used to transport treated water to a diffuser located approximately 6000 feet off shore in the San Francisco Bay deep water channel. The outfall	NOE

	<p>crosses under the Redwood Shores outer levee approximately one-quarter mile north of Steinberger Slough. The outfall pipe is constructed with reinforced concrete with bell & spigot "o-ring" joints. The pipe segments are twelve to fifteen feet in length. Localized settlement in the vicinity of the levee has caused separation of several pipe joints under the levee. During high tide and outfall flow conditions, the joint separations can leak with leakage resulting in erosion on the bay side and land side of the outer levee. Divers have been employed to repair the leaky joints from the inside of the pipeline. However, their efforts have not achieved the complete cessation of the leaks. The work on this project is to replace approximately 220 lineal feet of the existing pipeline with a more flexible pipeline material that will accommodate future anticipated localized differential settlements and eliminate future leakage. A steel sheet-pile coffer dam will be constructed enclosing the existing pipe, the existing pipe removed, new bedding and pipe placed. The coffer dam will serve as a temporary trestle from which the work will be performed. All work access will be from the treatment plant site. Repairs will also be made to restore the stability of the levee by replacing the eroded material with native bay mud. The work needs to be completed as soon as possible and is planned to be completed by fall 2005.</p>		
2004058128	<p>Install Landscaping-McCoy Planters (03/04-SD-37) Parks and Recreation, Department of --San Diego</p> <p>This project consists of the installation of five planters between two historic buildings in Old Town San Diego State Historic Park. Also, Park Staff will construct adobe wall and wood fence reviewed and approved by State park Historian II. Project will involve trenching of less than 20' length and 4" for irrigation purposes on area previously 100% excavated and with no archaeological findings by State Archaeologist. The planters will be above ground. Plants are to be selected from approved Old Town San Diego approved plant list.</p>	NOE	
2004058129	<p>Day Use Pay Stations (03-04-SD-31) Parks and Recreation, Department of --San Diego</p> <p>The project consists of the installation of (14) pay stations for the San Diego Coast District day use parking lots. Pay stations are approximately 5.5 feet in height and do not need utility connections. Concrete footings are necessary to secure pay stations. These footings may require a ground disturbance of less than 25 sq. feet at a depth of approximately 2 ft. Stations will be located in existing parking lots. Some of the pay stations will be used in lieu of existing collection booths or iron rangers. Two locations have not had fees collected by State Park: Carlsbad State Beach at Tamarack and South Carlsbad State Beach at North Ponto Lot. Pay stations are proposed for the following locations and in the listed conditions:</p> <ol style="list-style-type: none"> 1) Carlsbad State Beach (Tamarack) No fees collected previously 2) South Carlsbad State Beach (North Ponto) No fees collected previously 3) South Carlsbad State Beach (South Ponto) 4) San Elijo State Beach 5) Cardiff State Beach (North) 6) Cardiff State Beach (South #1) 7) Cardiff State Beach (South #2) 8) Torrey Pines State Beach (North Lot) 9) Torrey Pines State Beach (South Lot) 10) Torrey Pines State Reserve (West Lodge Lot) 11) Silver Strand State Beach (North Lot) 	NOE

1994123009	Supplemental EIR for Trinity River Fisheries Restoration Trinity County Lewiston, Junction City--Trinity The purpose of the Draft SEIS/EIR has been amended, consistent with federal court orders to prepare a Supplemental EIS on the Trinity River Restoration Program. The revised purpose for the alternatives discussed in the Draft SEIS/EIR is as follows: to restore and maintain the natural production of anadromous fish in the Trinity River basin downstream of Lewiston Dam and to meet the U.S. Government's tribal trust obligations. Secondary consideration is given to: (a) meeting the Trinity Basin fishery and wildlife restoration goals of the Act of October 24, 1984, Public Law 98-541, and (b) achieving a reasonable balance among competing demands for use of Central Valley Project (CVP) water, including the requirements of fish and wildlife, agricultural, municipal and industrial, and power contractors.	EIR	06/22/2004

2004052021	<p>North Fork American River Trail Placer County Auburn--Placer</p> <p>The proposed project is a multiple-use recreation trail located along the North Fork of the American River in the Auburn State Recreation Area. The trail begins at the confluence of the North and Middle Forks of the American River and extends 12.6 miles to the Ponderosa Road Crossing near Weimar. The trail would be constructed with a 4-foot tread width and periodic turnouts for passing. The trail corridor would be cleared of vegetation approximately eight feet in width, and up to 15 feet when necessary to obtain a safe line of sight. Rock stream crossings and four bridges would be installed for crossing ephemeral and intermittent drainages encountered along the trail. Two new staging areas are proposed for the trail including one near the Ponderosa Crossing and another near the east end of the Foresthill Bridge. Hikers and bikers would use existing parking at the confluence as well as the proposed northern stage area near Ponderosa Crossing. Horse trailers would be accommodated at both new staging areas.</p>	Neg	06/03/2004

2004058040	<p>SR 33 Road Rehabilitation Project Fish & Game #5 --Santa Barbara The Operator proposes to rehabilitate SR 33 from the Santa Barbara County line, north into San Luis Obispo County and east to the Kern County line, for a total of 13.3 miles. Work will consist of widening the roadway to standard widths, adding asphalt shoulders, extending 12 culverts on both sides of the road (non-jurisdictional), and installing 3 new pipe culverts (non-jurisdictional). The work will require impacts to the jurisdictional streams by widening two bridge decks at Quatal Canyon (PM 1.85) and Ballinger Canyon (PM 7.05), and extending a concrete box culvert at an unnamed drainage (PM 5.35). False work will be temporarily placed in both streambeds for the bridge widenings and heavy equipment will be used within all three jurisdictional streambeds. No permanent impacts will result from the bridge widenings; 0.44 acre will be temporarily impacted. The box culvert will result in 0.08 acre of temporary impacts and 27.7 square meters of permanent impacts. A small amount of native vegetation, primarily shrubs, will be removed from the stream banks. Areas of temporary disturbance will be treated with a hydroseed mix of native species following construction. Avoidance measures for San Joaquin kit fox, blunt-nosed leopard lizard, and California jewelflower, species that may occur in the project footprint, will be implemented.</p>	NOE

2004031126	<p>La Puente Redevelopment Project Area Draft EIR La Puente, City of La Puente--Los Angeles</p> <p>The proposed Project entails the creation of a new project area and the adoption of the Redevelopment Plan for the La Puente Redevelopment Project Area in the City of La Puente in accordance with the standards of the California Community Redevelopment Law (CRL), Health and Safety Code Section 33000, et seq. The purpose of the Redevelopment Plan is to eliminate the conditions of physical and economic blight that exist in the Project Area through rehabilitation of existing buildings, revitalization and reuse of commercial, industrial and development of vacant properties. The total Project Area encompasses approximately 280 acres. The Project conforms to the adopted La Puente General Plan. For the purpose of environmental analysis, buildout of the Project Area totals a net increase of approximately 844,500 square feet of commercial space, approximately 253,600 square feet of industrial space, approximately 1,800 square feet of public facilities.</p>	EIR	06/21/2004

2004051027	ENV-2004-1505-MND Los Angeles City Planning Department Brentwood--Los Angeles Coastal Development Permit to construct a 2-story, 1,968 square foot (sq. ft.) addition to an existing 2,771 sq. ft., 1-story, single-family residence in the RE20-1 zone.	Neg	06/04/2004
2004051029	Orcutt Ranch Improvement Project (W.O. E170211B) Los Angeles Bureau of Engineering Los Angeles, City of--Los Angeles The Department of Recreation and Parks of the City of Los Angeles intends to enhance the Orcutt Ranch Horticultural Center. The project consists of a conceptual plan that outlines the goals and the general nature of improvements for the purpose of obtaining approvals for Proposition K specified funds, project design and implementation. The proposed improvements include permanent facility modifications with the intent to correct adverse drainage and flooding conditions, improve accessibility, expand the educational value and enhance the visitor experience of the park.	Neg	06/04/2004
2004051030	Paradiso Project Master Plan Indio, City of Indio--Riverside The project proposes development of a private, residential community containing 408 detached residential homes and encompassing a combination of unique open spaces and recreational amenities on approximately 129 acres. The project site is located within the City of Indio's Shadow Hills (RPD-2) planning area and part of the Gateway Conceptual Specific Plan (SP). Consistent with the provisions of the SP, the open space corridors serve as flood retention with improved amenities offering residents safe private recreational options within walking or bicycle riding distance of their homes, similar to a golf course setting. The open space corridor will be improved with gazebos, walking/jogging paths, and other passive recreational amenities. The existing rural road and right-of-way for Avenue 40 currently exists immediately south of and adjacent to the All American Canal at the northerly boundary of the project. A formal application to "vacate" a small segment of Avenue 40 is to be made along with other entitlements including a Tentative Tract Map (TTM #31815) and Project Master Plan.	Neg	06/04/2004
2004051031	Santiago Canyon Road Drainage Improvements Orange County --Orange The proposed project involves the installation of a flood control stormwater conveyance system to preclude further erosion to public and private properties within the vicinity of the project site.	Neg	06/04/2004
2004051032	Vesting Tentative Tract Map 6290 Bakersfield, City of Bakersfield--Kern A proposed tentative subdivision containing 400 lots for purposes of single-family development, two lots for drainage basins and one lot for the canal on 111.77 acres, zoned R-1 (One Family Dwelling) including a request for alternate lot, and request to waive mineral rights signatures pursuant to BMV 16.20.060 B.1. 2004051034	Proposed Tentative Tract TT-04-023 Victorville, City of Victorville--San Bernardino To allow for a 119-lot single family residential subdivision.	Neg	06/04/2004
2004051035	ENV-2003-7893-MND Los Angeles City Planning Department --Los Angeles Zone Variance for an existing 22,000 square foot solid waste transfer facility (operating 24 hours a day, 7 days a week) to increase waste receipt from 1,500 to 1,785 tons per day, and to approve public loading outside of building in an M3-1 zone, and Plan Approval as required by Condition 17B of Case No. ZA-98-325.	Neg	06/04/2004
2004052022	Parcel Map #04-19, Joe Chase Lot Split Tehama County --Tehama To create two parcels; Parcel A of approximately 15.29 acres and Parcel B of approximately 20.56 acres in an R1-A-B:86; One Family Residential - Special Animal Combining - Special Building Site Combining (86,000 sq. ft.; 2.0 acre minimum) Zoning District. The project is located in the Bowman Road area, between the west side of the south end of Wildridge Drive and east of Benson Road Drive.	Neg	06/04/2004
2004052023	Zapar, Inc (Roessler) Vineyard Timberland Conversion TCP #533 Forestry and Fire Protection, Department of --Sonoma 1) Remove forest cover and prepare soils for vineyard. 2) Engineer and upgrade existing roads within the project area to minimize risk of erosion. 3) Upgrade and improve existing erosion control devices and install new ones. 4) To establish new vineyard.	Neg	06/04/2004
2004052024	Zone Change (PL-2004-188) Hayward, City of --Alameda The project consists of a rezoning from Neighborhood Commercial to High Density Residential and a Site Plan Review for a 57 unit rental residential development serving low and very low income households. The project involves the vacation of the City's easement on the northern half of Lafayette Drive to allow that portion of the street to be merged with the three parcels to become the southern section of the development. A parking exception has also been requested since there is an existing bus route, through the city and to and from BART, on Mission Blvd with stops adjacent to the project. Also, the project serves households that are very low income. Information about the actual number of vehicles per household for similar Eden properties shows that the majority of households are not likely to have two cars per family, thus needing fewer parking spaces than the parking ordinance requires. The proposed parking ration is 1:81 to 1 or 103 parking spaces where 117 are required.	Neg	06/04/2004

2001101059	Seaside Resort Seaside, City of Seaside--Monterey Subdivision of five parcels for development of resort hotel and bungalows with total of 330 guest units, restaurant, and conference facilities, 170 timeshare units, and a 125 lot residential subdivision within existing golf courses. Reconstruction of existing clubhouse, and relocation of existing maintenance facility.	Oth	06/04/2004
2001061046	South Orange County Transportation Infrastructure Improvement Project Foothill-Eastern Transportation Corridor Agencies --Orange Locate, construct, and operate transportation improvements in southern Orange County and northern San Diego County. The alternatives include corridor alternatives to extend existing State Route 241 from Oso Parkway (KP 23.15 (MP 14.38) to Interstate 5 in south Orange County and northern San Diego County, and Alternative to improve existing and master planned arterial highways and to widen I-5 from the County boundary KP 34.27 (MP 21.30) to the interchange with I-405 (KP 116.29 (MP 72.28).	SIR	08/06/2004
2002071077	Wildcat Canyon Road Enhancement Project (WA #UJ1693) San Diego County Department of Public Works --San Diego The applicant proposes to alter the stream to widen Wildcat Canyon Road beginning at a point 1,800 feet north of M. Valley Road and ending at a point 900 feet north of Blue Sky Ranch Road to accommodate two northbound travel lanes, creating a passing lane. At Blue Sky Ranch Road, Wildcat Canyon Road will be lowered in elevation in areas where the site distance is less than standard. Additionally, the entrance to Oak Oasis Open Space Preserve will be reconfigured to line up with Blue Sky Ranch Road. Other project components include creation of a wildlife crossing/equestrian tunnel north of Blue Sky Ranch Road/Wildcat Canyon Road, and re-pavement of Willow Road with rubberized asphalt from SR-67 to Wildcat Canyon Road.	NOD	
2003102153	Tannery Bend Design and Dev. Guidelines and Related Zoning Napa, City of Napa--Napa The Tannery Bend is a 30 acre area which the General Plan designates as "Mixed Use", which allows a broad range of land uses, and calls for added planning to guide development. The Tannery Bend Design and Development Guidelines, and related Tannery Bend Mixed Use Zoning District are the result of a community-based effort to better define desired uses for this area, and how they should be designed and function and relate to ongoing Napa River Flood Protection Project improvements. The Guidelines and District envision an evolution of the area's land use mix as modeled by Tannery Row and Sawyer Tannery to a more intensive "working village" environment, staying within planned densities and intensities. In August, 2003, the Council adopted an interim Tannery Bend Mixed Use Zoning District, based on an earlier draft of the Guidelines, and zoned Tannery Bend properties to this District. This interim District has been revised to be consistent with the final Guidelines. The Guidelines and District place lands within Tannery Bend into 3 bands: the Coombs St. frontage which has primarily residential/office uses and 2 story heights to be compatible with facing homes; interior areas, which have the largest mix of uses and heights up to 4 stories; and the River frontage, which has active first floor uses oriented to the planned Napa River Trail, and lower heights. 2004022129	Los Medanos College Campus Improvements Project Contra Costa Community College District Pittsburg--Contra Costa Implementation of the proposed project would result in several campus improvement projects including: the construction of a new Math building and a new Science building; the reconfiguration of Parking Lot A and circulation patterns on campus; the creation of a new campus gateway and central plaza; and a remodeling of the existing College Complex. The project would also expand Parking Lot B and relocate the soccer field. These improvements are to accommodate expected increases in enrollment.	NOD	
2004031074	Twentynine Palms Water District Project 2009 Twentynine Palms Water District Twentynine Palms--San Bernardino Grants funding is being obtained from the U.S. Environmental Protection Agency (EPA) to fund the construction of the following facilities: A one million gallon reservoir with two booster pump stations and related transmission pipeline; a two million gallon reservoir with one booster station and related transmission pipelines; and installation of approximately 43,000 lineal feet of pipeline, primarily to establish a second source of water supply to a portion of the District's service area called the Lear Annexation. These improvements are essential to provide water customers with an adequate water supply to meet potable water and fire protection requirements.	NOD	
2004031160	Lake Arrowhead Community Services District - New Wells and Related Infrastructure Project Lake Arrowhead Community Services District --San Bernardino The project generally consists of the drilling, installation, development, test-pumping and production of up to five new municipal wells with ancillary facilities in the Grass Valley area where Wells #1 and #2 were recently developed. Proposed Wells #4 and #5 and associated infrastructure will be developed first. Proposed Wells #3, #6 and ALA #2 and associated infrastructure are proposed for future development. The wells will be drilled at a 6-inch diameter and to an estimated depth of ~800 feet in granite bedrock using the air hammer drilling method, also known as the dual wall reverse circulation method. A pipeline will be installed to connect the new wells to the existing water collection system located at the well field.	NOD	
2004058036	Interpretive Garden Farm Plot Parks and Recreation, Department of --Sonoma Install an interpretive garden farm plot at Petaluma Adobe State Historic Park. A 50' by 30' area to be fenced with free standing split rail fencing on the soil surface. Area to be accessed by a mowed grass pathway. Final designation of pathway and accessibility to be approved by the Department's Accessibility Unit. Existing water source to irrigate raised bed that will be 15' x 20'. Project enhances visitor experience and supports ongoing interpretive programs at the park.	NOE

2003041053	Wildland Fire Management Plan Santa Barbara, City of Santa Barbara--Santa Barbara The project involves a Wildland Fire Management Plan including measures designed to reduce wildland fire hazard. Requirements for vegetation clearance and the delineation of defensible space surrounding structures are provided within high wildland fire risk areas. Vegetation management areas on public and private lands are identified and methods of vegetation management are provided. Vegetation management techniques include mowing of vegetation, removal of between 1/3 and 1/2 of flammable vegetation in a mosaic pattern, removal of tree limbs that provide a route for fire to follow to the tree canopy, removal of exotic invasive species, thinning of eucalyptus groves to achieve a density of 10 to 16 trees per acre, and prescribed burns. Evacuation procedures in the event of wildland fires are proposed.	NOD	
2003102048	Shasta Lake Middle School Multipurpose Building Gateway Unified School District Shasta Lake--Shasta Multipurpose Room / Gymnasium	NOD	
2004032133	Lodi High School Addition, Expansion and Portable Project Lodi Unified School District Lodi--San Joaquin An addition to the existing South Gymnasium, an expansion of the existing cafeteria, the addition of three (3) portable classrooms, the relocation of 2 (two) existing portable classrooms and required site work related to the relocation and installation of portable classrooms at the existing campus.	NOD	
2004032134	Westwood Elementary Addition Lodi Unified School District Stockton--San Joaquin Addition of ten (10) permanent classroom to the existing campus.	NOD

2004059084	Lake or Streambed Alteration Agreement for Notification #04-0037 Forestry and Fire Protection, Department of --Humboldt The applicant proposes 8 crossings for timber harvesting activities on Grassy Creek and other unnamed tributaries to Lindsay Creek, Humboldt Bay.	NOD	
2004058041	Rising Leaf Tile Art Panels at Carmel River Beach Restroom Parks and Recreation, Department of --Monterey This project involves installing three tile interpretive and educational art panels on existing masonry wall surfaces at the public restroom adjacent to Scenic Drive within Carmel River State Beach. The work will be funded by the Carmel River Watershed Council. Before the tiles are installed the final design shall be approved by the Sector Superintendent and a written agreement shall be approved that limits State Parks' liability and future maintenance responsibility.	NOE	
2004058042	Pfeiffer Big Sur South Camp Restroom Roof Replacement Parks and Recreation, Department of --Monterey This project involves the replacement of a leaky wood shingle roof with composition shingles on a non-historic public restroom in the south camp area of Pfeiffer Big Sur State Park. The new roof will be composed of architectural grade composition shingles to reduce fire risk while retaining the rustic aesthetic character of the building.	NOE	
2004058043	Temporary Jumbo Special Event Tent at Custom House Plaza Parks and Recreation, Department of --Monterey This project involves the installation of a 100 by 180 foot jumbo tent for special events on the Custom House Plaza within the Monterey State Historic Park. The tent will be installed for 7 to 10 day periods approximately 4 times per year which constitutes continuation of an existing use pattern. The events will be coordinated by the Monterey Conference Center which is owned and operated by the City of Monterey. Each installation will be done in accordance with a State Parks special event permit.	NOE	
2004058044	Replace Dunes Beach Comfort Station Parks and Recreation, Department of --San Mateo Construct new ADA-compliant comfort station, replacing existing non-historic restroom building at Half Moon Bay State Beach, Dunes Beach access. Project would demolish the existing restroom and replace it on the opposite side of the existing unpaved parking lot, an area less susceptible to erosion. The new 450-480 square foot building would house five accessible unisex toilets, and 6 new ADA parking spaces would be created in its immediate vicinity. Project would require capping and abandonment of water and sewer utilities at the site of the old comfort station, and site work for utility connections (including future electrical connection) for the new building and for drainage. A new ADA compliant pedestrian trail would be constructed to connect the new building with the existing coastal trail. Project will improve public safety and visitor access while supporting continued use and maintenance of the park unit.	NOE

2004058119	Periodic Removal of Vegetation at Metropolitan's Reservoirs Metropolitan Water District of Southern California Monterey Park, La Verne, Rolling Hills--Los Angeles, Riverside The Metropolitan Water District of Southern California (Metropolitan) proposes to periodically remove vegetation from the dam faces at its reservoirs within Riverside and Los Angeles counties. These reservoirs include Diamond Valley Lake, Lake Matthews, and Lake Skinner in Riverside County and Garvey Reservoir, Live Oak Reservoir, and Palos Verdes Reservoir in Los Angeles County. Metropolitan proposes to remove vegetation growing on the dam faces, using small mechanical equipment and herbicides.	NOE	
2004058120	Issuance of Entry Permit RL 2004 at the Orange County Feeder Metropolitan Water District of Southern California Brea--Orange The Metropolitan Water District of Southern California is proposing to issue an entry permit from April 1, 2004 to January 1, 2005 to portions of Parcel Number 1422-9-7, Metropolitan Station Numbers 810+00 to 815+00, and Assessor's Parcel Numbers 306-012-30 and 31. The entry permit is to allow the drilling of one bucket-auger boring to an approximate depth of 70 feet on the unpaved shoulder of the reservoir access road.	NOE	
2004058121	Excavation of Potholes Along Colorado River Aqueduct Discharge Line Metropolitan Water District of Southern California San Jacinto--Riverside The Metropolitan Water District of Southern California (Metropolitan) proposes to excavate potholes at three separate locations along an existing discharge line located approximately 50 feet north of the Colorado River Aqueduct. Metropolitan proposes to excavate three potholes up to a depth of ten feet (to the top of the discharge line) in order to determine the elevation of the line. The excavated soil material will be stockpiled adjacent to the potholes and returned to the potholes when the discharge line elevation has been determined.	NOE	
2004058122	Operation and Maintenance Activities in the Diamond Valley Lake and Lake Skinner Valley Metropolitan Water District of Southern California --Riverside The Metropolitan Water District of Southern California (Metropolitan) proposes to perform operation and maintenance activities in the vicinity of Diamond Valley Lake and Lake Skinner. To prevent unauthorized access to Metropolitan's property, Metropolitan proposes to relocate a gate located northwest of Lake Skinner and west of Bachelor Mountain. The existing gate, located on an unnamed road approximately 50 feet east of Washington Street, will be removed and relocated to an area farther east. Boulders will be placed on either side of the gate	NOE

2003062128	<p>2004 Update to the Countywide Comprehensive Transportation Plan and Proposed Sales Tax (Measure "C") Reauthorization Contra Costa Transportation Authority --Contra Costa</p> <p>The 2004 Update will be the second major update to the Contra Costa Countywide Comprehensive Transportation Plan (CTP) since it was first adopted in 1995. The CTP serves as the long-range transportation- planning document for the CCTA. It outlines CCTA's goals and policies for Contra Costa's transportation system and outlines the framework by which transportation investment and policy is fashioned.</p>	FIN	
2003071120	<p>Outdoor Adventure Center Specific Plan Grand Terrace, City of Grand Terrace--San Bernardino</p> <p>The Outdoor Adventure Center is a proposed master planned recreation oriented commercial development that would provide various goods and services related to sports and leisure activities including RV, boat and personal watercraft sales and related services, outdoor recreation retail stores, a fitness center, a hotel, a skating center, and an artificial lake.</p>	FIN	
2003081096	<p>Central Los Angeles Area New High School #11 and Vista Hermosa Park Project Los Angeles Unified School District Los Angeles, City of--Los Angeles</p> <p>The new high school would provide up to 2,600 seats for grades 9-12, with approximately 306,240 square feet of floor area, including 105 classrooms divided into seven small learning communities housed within four Academy Houses. In addition, school athletic facilities consisting of a soccer field, baseball/softball diamonds, tennis courts, and basketball courts would be located in the northeast portion of the site. Indoor gymnasiums, performing arts space, an auditorium, science labs, food service facilities, and administration space also would be developed. The project would require demolition of some of the building already constructed due to their proximity to a seismic fault zone that has been identified on the site. A natural park with recreational and educational features and a soccer field would be developed on approximately 10.5 acres located in the western portion of the site.</p>	FIN

	consider rezoning of certain "commercial and industrial" properties on the easterly side of Interstate 880 to residential developments aimed at intensifying densities in certain locations along major parkways and arterials and where higher densities already exist.		
2004052047	Housing Element Implementation Program #18 Fremont, City of Fremont, Newark, Union City--Alameda The proposed project consists of a General Plan Amendment and Rezoning of certain parcels of land to implement Program 18 contained in the adopted Housing and Element of the Fremont General Plan. The Housing Element is one of seven required Elements of the General Plan and includes goals, policies and strategies to allow the City to meet housing objectives for all economic segments of the community as well as other identified special housing needs populations. Specifically, Housing Element Program #18 mandates that the City of Fremont consider increasing residential densities on existing residentially-designated vacant and underutilized properties within the community.	Neg	06/10/2004
2004052048	Housing Element Implementation Program 19 Fremont, City of Fremont, Union City, Newark--Alameda The proposed project consists of a General Plan Amendment and rezoning of certain parcels of land to implement Program #19 contained in the adopted Housing Element of the Fremont General Plan. The Housing Element is one of seven required Elements of the General Plan and includes goals, policies and strategies to allow the City to meet housing objectives for all economic segments of the community as well as other identified special housing needs populations. The City, as part of its responsibility to provide housing, must identify the appropriate amount of land and infrastructure to meet the anticipated needs over the approximate six-year lifespan of the Element. Specifically, Housing Element Program #19 mandates that the City of Fremont consider rezoning of certain "transit corridor" properties (i.e., those located within 1/2 mile of an existing or planned transit stop for BART) for residential developments aimed at both intensifying densities in certain locations near mass transit development, and increasing the number of units affordable to very low- and low-income households. All of the properties included in Program #19 are within a 1/2 mile radius of either bus or BART service, in some cases directly on an Alameda/Contra Costa Transit bus line.	Neg	06/10/2004
2004052049	Call Coastal Development Permit, Special Permit and Notice of Merger. Humboldt County --Humboldt A Notice of Merger to merge two parcels and result in one parcel approximately 14,000 square feet. A Coastal Development Permit and Special Permit are also requested to allow for the development of an eight unit apartment complex totaling approximately 11,000 square feet and 28 feet in height. Minimal grading will be required and no tree removal is required. Water and sewer service will be provided by the Shelter Cove Resort Improvement District and access to the site will be from Lower Pacific Drive.	Neg	06/10/2004

2004052050	RZ033122 / SD038711 Residential 5-Lot Subdivision Contra Costa County Danville--Contra Costa A requested proposal for subdividing one 5.5 acre lot into 5 single-family homes on 2.01 acres and a 3.49 acre "remainder" parcel; removal of existing structures and the removal of 53 trees. In addition, the applicant is requesting to rezone the property from A-2 to P-1.	Neg	06/10/2004
2004052051	Los Gatos Creek Trail Reach 4 San Jose, City of San Jose--Santa Clara The proposed project consists of the construction of a 0.66-mile paved pedestrian/bike trail along Los Gatos Creek between Coe Avenue and Auzeais Avenue in San Jose. The trail will consist of two, six-foot lanes and two, two-foot unpaved shoulders on either side of the trail. The project will implement a segment of the approved Los Gatos Creek Trail, which will stretch for 19 miles from Lexington Reservoir County Park on the south to the confluence of Los Gatos Creek and the Guadalupe River on the north.	Neg	06/10/2004
2004052053	Aerojet Mining Conditional Use Permit Rancho Cordova, City --Sacramento The project consists of the following actions by the City of Rancho Cordova: A Use Permit to continue the mining operation of rock tailings from a previous dredging operation. The subject property had previously been approved for mining rock and production of rock aggregate product. The use permit would be reviewed according to the City's new Surface Mining and Reclamation Ordinance and condition of approval would be adopted to protect the environment. The City has recently adopted a new ordinance consistent with the State's model for surface mining and reclamation, as prescribed by SMGB.	Neg	06/10/2004
2000021035	Marvin Braude Mulholland Gateway Park Santa Monica Mountains Conservancy Los Angeles, City of--Los Angeles The project consists of planting oak, walnut, elderberry, and sycamore trees, and native plants, and installation of a sod lawn, a permanent solar-powered irrigation system to serve lawn areas, and two rock drainage dissipators. A graded unpaved hiking trail with labeled and identified plants would be created. The approximately 5-acre project site is within Mulholland Gateway Park, owned by MRCA.	NOD	
2001121014	TM 5251, Cool Valley Ranch Tentative Subdivision, Log No. 01-02-051 San Diego County Department of Planning and Land Use --San Diego The project proposes the grading of a pad for a 3,175 sf single-family residence, 564 sf of covered porches and an attached 960 sf garage. The grading will require 700 cubic yards of soil to be moved.	NOD	
2002042072	06-TUL 245 KP 25.7-26.9 (PM 16.0-16.7) Cottonwood Creek Bridge Replacement Caltrans #6 Woodlake--Tulare The applicant proposes the following scope of work: construct a new bridge and remove the existing bridge over Cottonwood Creek.	NOD

	the south and northwest portions of the mall (Modification of DVP 96-001), modify CUP 81-50 to permit new restaurant uses, and modify CUP 79-15 to vacate Carson Street and Relocate Carson Street along a below-grade alignment. Approval of the commercial application would result in the development of 165,643 square feet of GLA in the South Mall area. A total of 94,492 square feet of GLA will be demolished to accommodate these improvements, resulting in a net increase in the North Mall area. A total of 94,492 square feet of GLA will be demolished to accommodate these improvements, resulting in a net increase in the North Mall area of 71,151 square feet. In addition, the applicamt is requesting approval of a CUP that would permit mixed use development within the Del Amo Business Land Use Sub-district 1 (DA-1) zone and approval of a CUP for the development of 917 condominium units.		
2004051076	Otay Mesa Community Plan Update San Diego, City of Chula Vista--San Diego The proposed project is a comprehensive update of the Otay Mesa Community Plan. The update includes modifications to the various elements of the plan to reflect land use and circulation changes. The major revisions to the plan focus on redesignating land uses within six neighborhoods throughout the community planning area. the update would redesignate Industrial uses to Residential, Commercial, and Park/School uses.	NOP	06/11/2004
2004052054	Stream Management Master Plan (SMMP) Zone 7 Water Agency --Alameda, Contra Costa, Santa Clara Zone 7 of the Alameda County Flood Control and Water Conservation District (Zone 7) has developed a Stream management Master Plan (SMMP) to meet several objectives related to the provision of flood control within its service area. In recet years, there have been a number of changes that impact the way agencies approach the management of streams. In recognition of these changes, Zone 7 began development of a SMMP in September 2002. The purpose of the SMMP is to develop a master plan that addresses flood protection and drainage issues, as well as other issues affecting management by looking not only at flood protection, but other resource areas affecting management by looking not only at flood protection, but other resource areas affected by stream management. As such, the SMMP focuses on six resource areas: * Flood Protection and Drainage * Erosion and Sedimentation * Water Supply * Water Quality * Habitat and Environment * Recreation, Trails, and Public Education.	NOP	06/11/2004
2004051071	N1 Regulating Reservoir Expansion Project Arvin-Edison Water Storage District --Kern The Arvin-Edison Water Storage District (AEWSD or District) proposes to expand the existing 36-acre N1 Regulation Reservoir located near the beginning of the District's North Canal. The proposed project (Project) will involve constructing approximately an additional 30 acres of regulation/recharge ponds. The N1 regulation/balancing reservoir provides canal regulation capabilities, access to stored water for power or load management and water recharge benefits. The original design of this facility was primarily for regulation purposes, but the	Neg	06/11/2004

---------------	---	------------------	----------------

Documents Received on Thursday, May 13, 2004

percolation rate has turned out to be comparable to the District's other water banking facilities. As a result, the District has benefited from this facility in more ways than one. Since water is stored in the existing N1 Regulation Reservoir nearly year round (over an 11-month period) there are groundwater recharge benefits on nearly a continuous basis. Annually, the existing and the proposed reservoirs will have the capability of recharging over 5,000 acre-feet into the groundwater aquifer. By increasing the acreage on this site, more water is able to infiltrate into the groundwater aquifer. An added benefit of the Project is the flexibility it allows in regulating flows in the North Canal.

In addition to reservoir expansion, four (4) groundwater recovery wells are being proposed for construction on the site of the existing and proposed reservoirs. Annually, water recovered from the proposed wells is projected to average approximately 1,200 acre-feet with a maximum one-year recovery of 11,600 acre-feet. The amount of water recovered (extractions) will be less than the amount of water recharged. Thus, there is a net positive benefit to the groundwater aquifer from the Project. The District developed a 50-year analysis using DWR methodology to forecast groundwater banking operations and activities. Recovery wells would discharge into the N1 Regulation Reservoir for return to the North Canal. The District is committed to balancing recharge and well recovery volumes, with more water recharged than recovered over time in order to help mitigate any groundwater overdraft occurring within the District. With this project, both groundwater levels and groundwater quality are predicted to improve. The District would recover water from these wells during periods when irrigation demands cannot be met from limited surface water supplies.

2004051072	Sycamore Spreading Works Expansion Project Arvin-Edison Water Storage District Arvin--Kern The Arvin-Edison Water Storage District (AEWSD or District) proposes to expand the existing 569-acre Sycamore Spreading Works (the Project) located on the alluvial fan of Sycamore Creek. The Project will involve constructing approximately an additional 90 acres of spreading/recharge ponds. The area in which the expansion would be constructed is adjacent to existing ponds of the spreading works and would be hydraulically connected to them by additional control structures.	Neg	06/11/2004
------------	---	------------	------------

Diversion of water into the spreading ponds is accomplished by gravity flow from the Arvin-Edison Canal through structures equipped with manually operated slide gates. With the spreading works and associated well fields, water stored underground may later be recovered when required through existing District wells and pipelines. Annually, additional water recovered from the existing wells is projected to average approximately 2,000 acre-feet, with a maximum one-year recovery of 11,600 acre-feet. The amount of water recovered (extractions) will be less than the amount of water recharged. Thus there is a net positive benefit to the groundwater aquifer from the Project. The District developed a 50-year analysis using DWR methodology to forecast groundwater banking operations and activities. The District is committed to balancing recharge and well recovery volumes, with more water recharged than recovered over time in order to help mitigate any groundwater overdraft occurring within the District. With the Project, both groundwater levels and groundwater quality are predicted to improve. The District would recover water from existing wells during periods when irrigation

2004058204	Shenandoah School Road Bridge Rehabilitation Fish & Game #2 --Amador Remove and replace bridge decking.	NOE	
2004058205	Wilson C. Riles Junior High School Center Joint Unified School District Roseville--Sacramento, Placer The project is the construction of the junior high school. The revision to this project would add 16 portables to be placed on concrete pads as part of the school.	NOE	
2004058206	HVAC Renovation and Roof Replacement Project California Highway Patrol, Department of San Jose--Santa Clara The proposed project would renovate the HVAC system and replace the roof at the existing 11,998 square foot single-story California Highway Patrol Office Building in San Jose, originally constructed in 1975. The project would install a single-ply roofing system over rigid roof insulation, new mechanical screen, four new HVAC units, new HVAC duct and diffusers in selected locations and HVAC controls. In addition, the project would add new insulated furred walls to the west wall of the Captain's office and to the north and west walls of the Field Lieutenant's office. The project would include the following demolition work: 1) abatement of any existing hazardous materials in accordance with applicable federal and State laws and regulations; 2) removal of all built-up roofing and insulation down to plywood roof deck; and 3) removal of the mechanical screen and four HVAC units, selected HVAC duct, diffusers and mechanical controls. The project would renovate an existing State-owned building and would not involve an expansion of existing use.	NOE	
2004058207	Transfer of Coverage to El Dorado County APN 28-121-15 (Hedley) Tahoe Conservancy South Lake Tahoe--El Dorado Project consists of the sale and transfer of 1,748 square feet of potential coverage rights from Conservancy-owned land to a receiving parcel on which a private residence will be constructed. The transfer enables the receiving landowner to carry out the project without any net increase in the amount of existing land coverage in the hydrologically-related area.	NOE

2004051080	<p>ENV-2003-8956-MND Los Angeles City Planning Department --Los Angeles</p> <p>The existing project area consists of approx. 111 acres. The proposed project includes a Zone Change over approx. 83.2 acres for residential development. The remainder of the existing project area will be retained for reconfiguration of the existing, designated open space and golf course. The Zone Change and General Plan Amendment are requested to permit the development of approx. 500 condominium units and approx. 290 apartment units over 4 new tracts. The Tract Map will result in the creation of 4 new lots for residential development and is requested to separate the proposed condominium development from the reconfigured golf course. The Zone Change and Plan Amendment include various requests. The requested Zone Change is from A1, A2, and M1 to RD3-1 over approx. 67.6 acres (Lots 1, 2, 3, and 4) and from M1 to R3-1 over approx. 15.6 acres (Planning Areas A and B). A concurrent General Plan Amendment is requested over the following areas: Lot 1: from Open Space and Limited Industrial to Low Medium I Residential (22.6 acres); Lot 2: from Limited Industrial to Low Medium I Residential (15.7 acres); Lot 3: from Minimum Residential to Low Medium I Residential (20.5 acres); Lot 4: from Limited Industrial and Open Space to Low Medium I Residential (8.8 acres); Planning Area A: from Limited Industrial to Medium Residential (12.5 acres); Planning Area B: from Limited Industrial to Medium Residential (3.1 acres). The applicant is also requesting a Site Plan Review.</p>	Neg	06/14/2004
2004051081	<p>C-03-258 (Pump Station No. 320) Fresno, City of Fresno--Fresno</p> <p>The City of Fresno, Department of Public Utilities, Water Division is proposing to construct a raw material storage facility at the proposed location of Pump Station No. 320 and relocate facilities that were previously approved under Conditional Use Permit Application No. C-03-003. The raw materials storage facility will consist of 4 bins separated by masonry block walls and a dumpster on-site for trash. The bins will hold up to ten yards of material such as sand and dirt. The bins will be borrowed from or added to on a daily basis for the construction of well sites. The dumpster will be emptied at the City landfill on an as needed basis.</p>	Neg	06/14/2004

	during the 2004-2007 period. Additionally, two measures are proposed for deletion from the RAQS due to minimal emission reduction potential.		
2004052055	Robert Mondavi Vineyards - Wappo Hill Ranch Fish & Game #3 Yountville--Napa The applicant has applied to the Department of Fish and Game for a Streambed Alteration Agreement to remove PD host plants along the Napa River and replace them with native riparian species.	Neg	06/14/2004
2004052056	Tentative Subdivision Map Application S-5-03, Alize Subdivision (aka Stanford Hills Subdivision Units 2 and 3), Rezoning Application RZ-7-03, and Planned Redding, City of Redding--Shasta The project sponsor is requesting approval of a tentative subdivision map to subdivide 245 acres into 94 lots for development of single-family residential homes as a planned development. The single-family lot sizes range from 0.49 acre to 3.32 acres. The project would include grading for construction of on- and off-site streets and utilities, building pads, and maintenance-road accesses. Standard erosion-control measures will be in place as mandated by existing City and State regulations. The areas outside those shown on the preliminary grading plan or as described herein will remain undisturbed by grading, resulting in the preservation of existing protected oak trees and natural vegetation. Standard dust-control measures during development will be applied to minimize potential air quality impacts. A second public road will be provided through the extension of San Miguel Way into the parcel to the north, then east to existing right-of-way within River Ridge Terrace Subdivision.	Neg	06/14/2004
2004052057	ED 04-14 for UP 04-15 Atman Hotel Anderson, City of Anderson--Shasta Atman Hotel; a hotel project located on commercially/residentially zoned land that includes a conference hall, restaurant, various out buildings, the construction of three-radial two-story buildings, and the creation of a lagoon and seasonal wetlands area. 2004052061	EG-03-457 Elk Meadows Elk Grove, City of Elk Grove--Sacramento The application includes the subdivision of a 5-acre parcel into 28 lots ranging in size from approximately 3,850 square feet to 7,150 square feet. The existing 5-acre parcel is currently zoned AR-5 (Agricultural-Residential, 5-acres minimum). In order to subdivide the existing lot, the parcel must be rezoned from AR-5 to RD-7 (Residential, 7 dwelling units per acre). The following entitlements are required to accomplish this subdivision: - Rezone of the parcel from AR-5 to RD-7 - Tentative Subdivision Map creating 28 lots	Neg	06/14/2004
2004052062	2005 Wharf Rd Capitola, City of Capitola--Santa Cruz The project entails the development of a small park that will include a seating area, two (2) play areas, an informational display about Soquel Creek and The Rispin Mansion, a constructed dry creek bed, and a concrete pathway leading from Clares Street to the library entrance. It is the intent of the park to provide an outside extension to the library by providing outside reading acres and relatively quiet play areas where young children could exercise without disturbing library patrons inside the building.	Neg	06/14/2004
2004052063	Zoning Unit, ZU-2186 Alameda County --Alameda Construction of 20 townhouse-type apartment units with one-car attached garages for each unit, in 7 two-unit buildings and 3 three-unit buildings, with 21 uncovered parking spaces, on 1.38 acres, retaining a 12-foot wide access easement.	Neg	06/14/2004
2004052064	Shasta Valley Asphalt and Aggregate Use Permit/Reclamation Plan (UP-03-12/RP-03-03) Siskiyou County Planning Department Montague--Siskiyou Shasta Valley Asphalt and Aggregate proposes a Use Permit and Reclamation Plan to extend the life of the Brown Quarry. The existing reclamation plan for the quarry has expired, yet considerable aggregate material remains in the 14.5-acre quarry. The applicant proposed to harvest up to 50,000 cubic yards of material annually over the next 20 years. Total estimated production is 240,000 cubic yards during the life of the mine. Quarrying would not expand the perimeter of the existing permitted mine. Planned activities include, excavation, rock screening, crushing, and stockpiling. Periodic blasting may prove necessary to loosen bedrock. No material batching is proposed with this application. This permit and reclamation plan, if approved, would replace the existing reclamation plan (RP-85-01).	Neg	06/14/2004
2004052065	Brotherhood Youth Riders San Joaquin County Stockton--San Joaquin The project is to establish a riding stable for a maximum of 20 horses. The project proposes to provide riding lessons and horsemanship education to youths throughout the local community.	Neg	06/14/2004

	Plant) Expansion No. 4 and Oxidation Retrofit Program (ORP) projects. The environmental effects from the construction and operation of these projects were evaluated in the Robert A. Skinner Filtration Plant Reliability and Quality Program Final Program Environmental Impact Report (Final PEIR). Subsequent to the certification of the Final PEIR in July 2003, additional activities were found to be required in conjunction with construction. These activities include: an additional 10.3-acre construction use area north of Tualota Creek, a temporary crossing of the creek to the ORP construction site, additional fencing along Benton Road within the Skinner Plant property, and a change in work hours to permit 24-hour shifts during construction.		
2003031019	Oxnard College Master Plan Ventura County Community College District --Ventura The project is a Campus Master Plan for Oxnard College, which is intended to implement the Bond Measure S program, approved by the voters in March 2002, and to guide the long-term development of Oxnard College through 2018. The Master Plan identifies appropriate locations and design guidelines for the Bond Measure S projects on the Oxnard College campus, as well as providing a guide for the future development of the campus beyond the expenditure of the Measure S bond funds. Enrollment at the College is forecasted to grow from the current 2,462 full-time equivalent students (FTES) to 6,438 FTES by 2018. Under the Master Plan, approximately 142,200 sf of new building space would be developed.	NOD	
2003061105	Ventura College Master Plan Ventura County Community College District Ventura--Ventura The project is a Campus Master Plan for Ventura College, which is intended to implement the Bond Measure S program, approved by the voters in March 2002, and to guide the long-term development of Ventura College through 2015. The Campus Master Plan identifies appropriate locations and design guidelines for the Bond Measure S projects on the Ventura College campus, as well as providing a guide for the future development of the campus beyond the expenditure of the Measure S bond funds. Enrollment at the College is forecasted to grow from the current (2002) 11,125 students to 11,873 in 2015. The current full-time students (FTES) enrollment of 4,066 is expected to increase to 4,720 FTES by 2015. The total campus building area is planned to expand by 25% from 465,408 sf to 580,412 sf, and the balance and mix of the various types of classrooms and other facilities would change to reflect current educational practices. Additionally, the Master Plan calls for the replacement of a number of buildings that have reached the end of their service life with more up-to-date facilities.	NOD	
2003121014	Avenue Water Treatment Plant/Foster Park Facility Improvement Project San Buenaventura, City of Ventura--Ventura The Avenue Water Treatment Plant Improvements (Phases 1 & 2) include: modifications to the raw water reservoir; new washwater recovery basins; new sludge drying beds; new electrical system; return water pre-treatment system; source water pumps and automatic feed strainers; settled water pipeline and coagulant addition system; new chemical system and building; membrane units and building; removal of sedimentation/flocculation basins; removal of ramp; new administration building; and implementation of a public art project. 2003121048	PSP 01-084(ZA) Tulare County Resource Management Agency Visalia--Tulare Change the name of the operator from Tulare County Recycling Complex to Recycle American Alliance doing business as the Tulare County Recycling Complex; and, increase in the permitted traffic volume from 124 to 247 vehicles per day.	NOD	
2003122032	San Mateo Creek North Flood Wall, Route 101 to J. Hart Clinton Drive San Mateo, City of San Mateo--San Mateo The City Of San Mateo Public Works is proposing to implement the San Mateo Creek North Floodwall, Route 101 to J. Hart Clinton Drive Project to address FEMA requirements to protect low-lying areas in the vicinity of San Mateo Creek from flooding. The project consists of constructing a cast-in-place concrete wall along the top of the north bank of San Mateo.	NOD	
2003122079	Camp Evers Fishing Park Re-installation of Flash Boards in Camp Evers Creek Scotts Valley, City of Scotts Valley--Santa Cruz The City proposes to install flashboards across Camp Evers Creek in order to create a seasonal impoundment for recreational fishing.	NOD	
2003122106	Ivy Drive Streetscape Project Menlo Park, City of Menlo Park--San Mateo Circulation changes and streetscape improvements to Ivy Drive between Willow Road and Market Place. The circulation changes include the permanent closure of Ivy Drive between Chilco Street and Almanor Avenue to provide for a neighborhood plaza.	NOD	
2004031145	Ricardo Court Commercial San Luis Obispo, City of San Luis Obispo--San Luis Obispo The proposed project includes 8 tenant commercial spaces on eight separate lots (two of the lots are proposed to be merged prior to development leaving 2 of the buildings sharing one site). The project includes common parking areas and associated site improvements. Several of the buildings will be attached, giving the appearance of only 4 detached buildings on the site. Interior layouts have not been determined and the buildings are only shell spaces without tenant improvements at this time. No uses are proposed at this time, however the current zoning designation will allow a variety of manufacturing uses.	NOD	
2004031158	High School No. 3 Redlands Unified School District Redlands--San Bernardino The District proposes the acquisition of 60 acres for the construction and operation of a 2,500-student comprehensive high school. The high school is expected to open in 2008, serving students in grades nine through eleven; the school would then accommodate students in twelfth grade beginning 2009.	NOD

<u>Documents Received on Friday, May 14, 2004</u>			
2004032027	Sunset Industrial Storage Tank and Pump Station Project Placer County Water Agency Roseville--Placer The proposed project involves the following project components: - Acquisition of one of the four alternative project sites. - Design and construction of a 10-million gallon water storage tank, pump station building, 24-inch water pipeline, and associated facilities (including a perimeter fence and lighting, standby power unit, temporary construction and permanent access roads, drainage overflow features, and utilities into the pump station) on one of the four alternative sites.	NOD	
2004042041	Novato Creek Dredging Project Marin County Novato--Marin Removal of approximately 45,000 cubic yards of silt from the beds of Novato Creek, Warner Creek, and Arroyo Avichi Creek. This dredging is a routine maintenance for a designated flood control project. The site was most recently dredged in year 2000. The project area on Novato Creek will extend 5,630 feet from Diablo Avenue to 500 feet downstream of Northwestern Pacific Railroad Bridge, on Warner Creek the project area will extend 1,780 feet from Diablo Avenue to the confluence with Novato Creek, and on Arroyo Avichi it will extend 680 feet from South Novato Boulevard to the confluence with Novato Creek. The project area will be dewatered using three- coffer dams installed at the upper project limits on the downstream side of Diablo Avenue on Novato Creek and Warner Creek and at the downstream project limit 500 feet below the railroad bridge. Any flow from Novato Creek and Warner Creek will be diverted through existing pipes to the nearby Baccaglio Basin. Baccaglio Basin drains to Scottsdale Marsh, thence Scottsdale Pond, thence the Novato Creek marsh from which it can then re-enter Novato Creek downstream of the project area.	NOD	
2004059038	Country Glen Apartments (SAA 1600-2004-0093-R5) San Diego County Department of Planning and Land Use --San Diego The applicant proposes to alter the stream to remove invasive exotic vegetation as part of the Country Glen Apartments project, in conformance with the Brush Management Plan for that project as approved by the Fire Marshal on December 20, 2002.	NOD	
2004059039	Streambed Alteration Agreement 1600-2004-0043-3/THP 1-02-059 MEN Forestry and Fire Protection, Department of --Mendocino The applicant proposes two activities to replace existing culverts in Class II tributaries to Railroad Gulch and Tidewater Gulch in the Albion River watershed.	NOD	
2004059042	Lake or Streambed Alteration Agreement for Notification #04-0044 Forestry and Fire Protection, Department of --Shasta The applicant proposes 2 crossings for timber harvesting activities on an unnamed tributary to Boulder Creek, Shasta County.	NOD

2004058209	Leasing approx. 1,915 square feet of new office space to house State Council on Developmental Disabilities Area Board VII Office Social Services, Department of San Jose--Santa Clara Relocating approximately 6 staff from 359 Nothlake Drive in San Jose.	NOE	
2004058210	State Water Project Waiver of "Use of Facilities Charges" pursuant to the last Sentence of Article 56(c) (6) of the Long-Term Water Supply Contracts Water Resources, Department of --Riverside, San Bernardino, Los Angeles The proposed project by the State Water Project Analysis Office of the California Department of Water Resources is to waive certain financial provisions of its long-term water supply contracts. The proposed waiver to the long-term water supply contracts is the last sentence of Article 56(c)(6) of its long-term water supply contracts, which provides that ". . . [a] Contractor not participating in the repayment of a reach shall be required to pay a Use of Facilities charge of use of a reach for the delivery of water to, or return of water from, interim storage." Under this proposed waiver no use of facility charge would be applied when the interim storage is within the service area of another State Water Contractor that already participates in the repayment of the reach. The objective of this proposed waiver is to avoid duplication of charges for repayment of capitol costs that could be caused by charging participating contractors in a water exchange or storage agreement for use of a single aqueduct reach.	NOE	
2004058211	Dam Safety and Rehabilitation Program-Seismic Assessment and Spill Capacity Studies Metropolitan Water District of Southern California --Los Angeles The Metropolitan Water District of Southern California (Metropolitan) has established the Dam Safety and Rehabilitation Program to review the adequacy of Metropolitan's dams, evaluate risks, and identify alternative solutions to minimize risks. The program will include two studies (Seismic Assessment Study and Spill Capacity Study) to assess different aspects of Metropolitan's facilities. The Seismic Assessment Study will review the seismic adequacy of dams and their adjunct structures. The Spill Capacity Study will review the current hydrologic conditions and hydraulic adequacy of dams' spillway and hydraulic structures. The Spill Capacity Study will evaluate the effects of urbanization on the watersheds and increases of operational flows through the Lake Matthews, Lake Skinner, Iron Mountain Reservoir and Eagle Mountain Reservoir.	NOE	
2004058212	Annual Vegetation Maintenance at Lake Matthews Metropolitan Water District of Southern California --Riverside The Metropolitan Water District of Southern California (Metropolitan) proposes to perform annual vegetation maintenance at Lake Matthews in Riverside County. Metropolitan proposes to maintain vegetation for the purpose of fire protection along existing roads and perimeter fencing within the Lake Matthews watershed. Metropolitan proposes to mow, disc, and/or use hand tools to maintain vegetation along public roads, including El Sobrante and Cajalco roads, as well as along Metropolitan's service roads and perimeter fencing on Metropolitan-owned-property surrounding Lake Matthews.	NOE

2004058213	Sky Valley Ecological Reserve Fish & Game, Wildlife Conservation Board --Riverside Approximately 9,000 acres to be acquired for the preservation of desert habitat and protection of the sand source to the Coachella Valley Ecological Reserve through Palm Canyon.	NOE	
2004058214	San Joaquin River Riparian Habitat, Expansion 12 Fish & Game, Wildlife Conservation Board --Riverside Approximately 360 acres of land to be acquired for the preservation of riparian habitat and conservation of open space.	NOE	
2004058215	Volta Wildlife Area, Expansion 2, Merced County Fish & Game, Wildlife Conservation Board --Merced This project will protect 120+/- acres of Central Valley wetlands and grasslands. The subject property is located adjacent to the Volta Wildlife Area and will be added to the wildlife area to expand existing habitat and provide additional area for public recreational activities.	NOE	
2004058216	Willow Creek, Sonoma County Fish & Game, Wildlife Conservation Board --Sonoma This project will protect and preserve nearly all of the Willow Creek and Freezeout Creek watersheds. The property contains over 4 miles of creeks which provide important habitat for steelhead trout and coho salmon. The property also supports habitat for the northern spotted owl, osprey, river otters, bobcats, mountain lions and other amphibians, reptiles, mammals and birds.	NOE	
2004058217	Lake Earl Wildlife Area, Expansions 32 & 33 Fish & Game, Wildlife Conservation Board Crescent City--Del Norte To acquire approximately 13 acres of land for the purpose of preserving wetland and riparian habitat to benefit migrating waterfowl. These parcels are improved with single family residences, barns and other outbuildings.	NOE	
2004058218	Riparian Habitat Restoration, Bobcat to Blue Oak Ranches Fish & Game, Wildlife Conservation Board Winters--Yolo Habitat restoration to benefit resident and migratory birds, mammals, fish and other riparian dependent animals.	NOE	
2004058219	Morro Bay Dunes, Expansion 1 Fish & Game, Wildlife Conservation Board --San Luis Obispo Protection of coastal wetland habitat for a variety of rare, threatened and endangered plant and animal species.	NOE	
2004058220	San Bruno Mtn.-Shellmound Fish & Game, Wildlife Conservation Board Brisbane--San Mateo For the protection and preservation of wildlife habitat.	NOE

2004058221	San Dieguito River Valley Corridor, Phase II Fish & Game, Wildlife Conservation Board San Diego--San Diego Grant to the San Dieguito River Park JPA to acquire 73+/- acres near mouth of San Dieguito Lagoon, to provide significant linkage within the San Dieguito River Park system and to connect the Lagoon wetlands to publicly owned land upstream.	NOE	
2004058222	Single Family Home Construction near unnamed tributary to Latigo Canyon Fish & Game #5 --Los Angeles The Operator proposes to alter three ephemeral drainages (drainage A and B and C) to construct a catch basin, drainage swale and culvert with outfall to convey storm water from two ephemeral drainages. The project is associated with the construction of a proposed single family home and driveway. The small catch basin will intercept runoff from drainage A and B and combine the flows into drainage C via an underground culvert beneath a dirt access road at the foot of the driveway. The outfall with energy dissipater will be constructed at the outlet of the culvert into drainage C. Drainage A and drainage B support chaparral upland species while drainage C supports very few scattered mulefats, willows and chaparral vegetation immediately on the down grade side of the dirt road where the culvert outlet and associated energy dissipater is proposed. The Operator also proposes to clear vegetation from drainage A and B to reduce fuel loads to comply with Los Angeles County Fire Department codes. An approximate 10 foot wide by 20 foot long section of drainage A will be cleared of vegetation while an approximate 20 foot wide by 180 foot long section of drainage B will be cleared of vegetation and then filled in to reduce bank slope steepness while maintaining a drainage swale. The Operator proposes to plant native vegetation within drainages A and B which will be periodically cut and or mowed subject to fire department fuel reduction compliance standards. The proposed project will result in approximately 20 square feet (0.0004 acres) of permanent impacts to the culvert and rip rap energy dissipater in drainage C and a total of 3,800 square feet (0.087 acres) of permanent impacts to drainage A and B from fill and fuel modification activities for a total of 0.087 acres of impacts to Department jurisdiction.	NOE	
2004058223	Dry Storage Access Parks and Recreation, Department of --Butte Access to Bidwell Canyon Drive from the marina's dry storage facility will be widened at the intersection of Bidwell Marina Road in Lake Oroville State Recreation Area. This widening will allow very large house boats that have been constructed in the dry storage facility to be moved for launching on Lake Oroville. Seven trees will be removed to widen by grading one side of the current access road and dumping dirt fill on the other side. Oak seedlings will be planted in the vicinity of the project to replace removed trees.	NOE	
2004058224	Improvement of Zone 6, Line E from I-880 to South Grimmer Boulevard, Fremont Fish & Game #3 Fremont--Alameda The project involves lowering the elevation of maintenance roads, repairing and elevating existing banks, installing rip rap, flood wall, planting of native trees, grasses and forbs. Issuance of a Streambed Alteration Agreement Number 1600-2003-0551-3 pursuant to Fish and Game Code Section 1602.	NOE

<u>Documents Received on Friday, May 14, 2004</u>			
2004058225	Andrews Directional Bore Fish & Game #3 --San Luis Obispo The project is located at Pozo Road and High Mountain Road in Pozo, and would replace an aged water line on the applicant's property. Directional boring equipment would be used to bore under Pozo Creek and a water line, approximately 8 inches in diameter, would be extended under the creek. The bore would go underground and daylight approximately 100 feet or more from the banks of the creek, and would pass at least 15 feet under the creek bed. Heavy duty C900 Class 150 blue pipe would be used for the water line. No work would be done nearer than 100 feet from either bank of the creek. Issuance of a Streambed Alteration Agreement Number 1600-2004-0205-3 pursuant to Fish and Game Code Section 1602.	NOE	
2004058226	Klos Bridge Replacement Fish & Game #3 --Monterey San Miguel Canyon Creek flows through the floor of a narrow valley near Prunedale in northern Monterey County, California, (Assessor's Parcel Number 129-012-006). A small wooden bridge spans the creek providing access to a home site. The existing bridge consists of 2-inch by 12-inch wooden planks fastened to steel I-beams set on concrete abutments. The proposed project would remove the existing bridge and abutments and replace it. New abutments would be built outside of the top of the stream bank. New steel girders would be attached to the abutments and a concrete slab poured on the girders. The new bridge would be approximately two feet higher than the existing deck, providing sufficient clearance for flows from a 100-year flood event. The road leading to the deck would be elevated to provide a smooth transition to the bridge. The project is necessary to improve access to the home site. Issuance of a Streambed Alteration Agreement Number 1600-2004-0113-3 pursuant to Fish and Game Code Section 1602.	NOE	
2004058227	Creek Repair Fish & Game #3 Los Altos--Santa Clara The project includes repair of an existing retaining wall, removal of a wooden staircase, upgrade of a wooden pathway, and removal of an existing concrete retaining wall. Issuance of a Streambed Alteration Agreement Number 1600-2004-0199-3 pursuant to Fish and Game Code Section 1602.	NOE	
2004058228	Extension of Road Drainage System Fish & Game #2 --El Dorado Extension of drainage system and installation of rock slope protection for left-turn lane construction project.	NOE	
2004058229	Sewage Pipe Installation Fish & Game #2 --Calaveras Trenching of dry creek bottom for installation of piping for septic system.	NOE
