STATE CLEARINGHOUSE

NEWSLETTER

May 1-15, 2007

STATE CLEARINGHOUSE NEWSLETTER

The State Clearinghouse distributes draft environmental documents to state agencies for review and comment, pursuant to the California Environmental Quality Act (CEQA). The State Clearinghouse also acts as the State Single Point of Contact for the review of federal grant applications and federal development projects. This Newsletter summarizes the environmental documents and federal grant applications received by the Clearinghouse during the period **May 1-15, 2007**.

CLEARINGHOUSE CONTACTS

Please contact The State Clearinghouse if you have any questions regarding processing of environmental documents or grant applications. We may be reached at:

Telephone: (916) 445-0613
Fax: (916) 323-3018
e-mail: state.clearinghouse@opr.ca.gov
website: www.opr.ca.gov/clearinghouse/clearinghouse.shtml

Questions regarding federal grant notices should be directed to **Sheila Brown**.

Questions regarding processing of environmental documents should be directed to:

Scott Morgan
Senior Planner

CLEARINGHOUSE MAILING ADDRESS

Please do not use our street address (1400 Tenth Street, Room 212) for mailing purposes. The correct mailing address is:

STATE CLEARINGHOUSE
P.O. BOX 3044
SACRAMENTO, CA 95812-3044

INFORMATION AVAILABLE ON-LINE

The 2001 CEQA Guidelines are available from the Resources Agency's website at <http://ceres.ca.gov/ceqa/>.

The State Clearinghouse Handbook, which contains all of our environmental document and grant processing procedures and forms, is available on our website.

MEMORANDUM

DATE: February 13, 2007
TO: State Agency CEQA and Intergovernmental Review Coordinators
FROM: Scott Morgan, Senior Planner
SUBJECT: Distribution of Environmental Documents in CD-ROM Format

The State Clearinghouse has received an increasing number of requests from local and state lead agencies to distribute CEQA documents to state reviewing agencies in an electronic format, typically CD-ROM. The most common reason for these requests is to reduce cost. CD-ROMs are cheaper for the lead agency to reproduce and mail, and cheaper for the State Clearinghouse to distribute, especially in the case of multi-volume documents.

The State Clearinghouse has distributed EIR's and EIS's in CD-ROM format for state agency review and comment since August 1, 2003. Based on our experience with those documents, a survey conducted of state reviewing agencies and the potential cost savings to local and state agencies, we are extending this policy to other environmental documents including Negative Declarations, Mitigated Negative Declarations and Environmental Assessments. The State Clearinghouse will accept environmental documents under the following terms:

- CEQA Lead agencies may provide copies of draft environmental documents to the State Clearinghouse for state agency review in an electronic format. The document must be on a CD-ROM in a common file format such as Word or Acrobat.
- Lead agencies must provide fifteen (15) copies of the CD-ROM to the State Clearinghouse. In addition, each CD-ROM must be accompanied by 15 printed copies of the DEIR summary (as described in CEQA Guidelines §15123), executive summary, or introduction section of a Negative Declaration or Mitigated Negative Declaration. The printed summary allows both the State Clearinghouse and agency CEQA coordinators to distribute the documents quickly without the use of a computer.
- Final environmental documents may be provided in CD-ROM format without a printed summary. Distribution of the final documents is optional under CEQA.
- Federal lead agencies may send electronic copies of environmental documents to the State Clearinghouse in the same manner described for CEQA lead agencies. Distribution of NEPA documents to state agencies through the State Clearinghouse is encouraged pursuant to Presidential Executive Order 12372 and NEPA §102 (42 USC §4332)
- All notices of preparation must continue to be provided in printed format.
- Please provide one Notice of Completion Form with all submittals.

If your agency has difficulty downloading and reviewing any environmental documents please contact:

Scott Morgan, Senior Planner
916-445-0613
scott.morgan@opr.ca.gov

Thank you for your cooperation in the CEQA review process.

**ENVIRONMENTAL DOCUMENT FILINGS WITH THE STATE CLEARINGHOUSE
1999 through 2006**

Oth	Other type (none of the above)

CEQA Actions

SCH Number	Title / Lead Agency / City--County / Description	Document Type	Ending Date
<u>Documents Received on Tuesday, May 01, 2007</u>			
2007054001	Fielding and Operation of Radiation Portal Monitor Systems at the Unified Port of San Diego, California U.S. Customs and Border Protection San Diego--San Diego The proposed action is to field and operate one RPM system at the Port of San Diego, San Diego County, California for the purpose of conducting non intrusive inspections of cargo containers.	EA	06/07/2007
2006121108	Proposed 2007 Amendment to the Redevelopment Plan for the Wasco Redevelopment Project Wasco, City of Wasco--Kern The Wasco Redevelopment Agency (the "Agency") is in the process of preparing the proposed 2007 Amendment (the "2007 Amendment") to the Redevelopment Plan (the "Plan") for the Wasco Redevelopment Project (the "project") in order to: 1) include an approx. 412 acre area (the "added territory") within the project; and 2) amend certain time and fiscal limits contained in the plan, as last amended in 1998. To help achieve these objectives, Agency activities could include, but not necessarily be limited to: provision of affordable housing, construction and/or rehabilitation of structures, infrastructure upgrades for wastewater, drainage, water and circulation systems, and community facilities improvements, among other things. While not proposed as specific projects at this time, these actions are possible activities that may be undertaken within the Added Territory and the larger Project over the effective life of the Plan, as proposed to be amended.	EIR	06/18/2007
2005111002	East Valley High School 1B Addition Project Los Angeles Unified School District Los Angeles, City of--Los Angeles LAUSD proposes to construct an addition to the approved East Valley Area High School (approved project) that was recently open for operation (9/2006). The proposed addition includes a new high school academy building (513 seats and 19 classrooms), a new practice gymnasium, and a new subterranean parking structure. The proposed project also includes night lighting and reconfiguration of the previously approved athletic fields. Construction of the proposed addition is anticipated to be completed by autumn 2010. Fifteen classrooms within the existing high school and proposed project may be used for adult school instruction.	FIN	
2007041138	CEMEX Silo Project El Centro, City of El Centro--Imperial The project consists of a Conditional Use Permit (CUP) No. 05-05 for the CEMEX Silo project located on the 351 North Dogwood Road property. The Conditional Use Permit is required for the construction of a 105.5 foot cement storage silo on the 6.52 acre property adjacent to the railway spur. The property contains an existing cement operation including an existing storage silo, railroad offloading facilities, truck offloading facilities, and a truck scale. The new silo would be constructed on top of the existing driveway and immediately south of the truck scale. The project is being proposed in order to increase total storage available on site and to increase loading and offloading efficiency.	MND	05/30/2007

2007052004	<p>Quail Ridge Car Wash (PEAQ T20060875) Placer County Planning Department --Placer</p> <p>Applicant proposes to construct a 6,503 square foot full-service car wash facility, with two exterior vacuum pumps and 15 onsite parking spaces.</p>	MND	05/30/2007
2007052005	<p>Patterson Coastal Development Permit and Special Permit Humboldt County Community Development Services --Humboldt</p> <p>A Coastal Development Permit for the construction of a single family residence built to a maximum of 1,400 sf, in addition to an approx. 260 sf attached garage, an approx. 200 sf sunroom and an approx. 200 sf deck, situated above the sunroom. Also included in this project is the development of a retaining wall in conjunction with a parking lane. The project also involves wetland enhancement mitigation and the creation of approx. 96 sf of wetland to offset approx. 23 sf of proposed fill in the wetland as 4:1 mitigation for wetland fill. A complete reduction of the wetland buffer is required in order to provide for a reasonable economic use of the property. The average height of the proposed structure will be to a maximum of 35 feet. The proposed height at street level will be approx. 25 feet. Minimal grading is required and no trees are proposed to be removed. The Resort Improvement District will provide water and sewer services. A Special Permit is required for Design Review, wetland fill and development within the wetland buffer area.</p>	MND	05/30/2007
2007052007	<p>190 East Cotati Avenue Subdivision Cotati, City of Cotati--Sonoma</p> <p>The proposed project is a 10 lot residential subdivision of a 1.16 acre site located at 190 E. Cotati Ave. and the construction of 6 attached single family homes, 3 detached single family homes, and one common area parcel. Units range in size from 1,000 to 1,850 sf, and , with the exception of the common area parcel, lot sizes range from 1,700 to 3,509 sf. Unit 1 is proposed as a single story, handicap accessible unit. Units 2-7 are proposed as attached two story homes, and Units 8 and 9 are proposed as detached 2 story homes. Each dwelling unit would have an attached 2 car garage accessible from the driveway off East Cotati Avenue. Access to the adjacent Laguna de Santa Rosa would be provided by a private path shared by the residents to the proposed bike path following the course of the Laguna.</p>	MND	05/30/2007

2007058002	Archie Tovar Lot Line Adjustment Selma, City of Selma--Fresno Line request would move the existing lines and create two lots. Parcel 'A' would have a frontage of (49' .6") on the corner of East Front and Orange Streets. Parcel 'B' an interior lot would have a frontage of (40') feet.	NOE	
2007058003	Sutter Bypass East Levee Geotechnical Borings Water Resources, Department of --Sutter The proposed project involves installation of piezometers - groundwater observation wells and sensors - on and adjacent to the east levee of Sutter Bypass. Twelve water pressure sensor/loggers will be installed. Seven of these will be in observation wells and five will be surface water sensors. The seven observation wells will be bored into the soil on or adjacent to the levee using a drill rig. Standard drilling procedures will be followed using a combination of hollow-stem auger and rotary wash drilling methods. The borings will be approximately 6 inches in diameter and a maximum of 65 feet deep. The observation wells will be constructed of schedule 40 PVC well screen and casing, a sand filter pack, a bentonite transition seal, and bentonite-cement grout near the ground surface to prevent water from seeping into the well. The surface water sensors will be installed in the ditches adjacent to the levee by hand using a sledge hammer and will consist of a perforated steel casing, 2-4" in diameter, with the pressure transducer sensor inside the pipe. The distance of the collection ditches from the land side levee toe varies from 0 to 25 feet. The borrow canal on the water side of the levee is approximately 20 feet from the levee toe. The purpose of the project is to gather information essential to assessing causes and possible solutions to under seepage affecting the Sutter Bypass' east levee. Residents and landowners protected by the Sacramento River flood control project and California taxpayers are the ultimate beneficiaries of this work. The project will take place after May 1, 2007 but no later than October 1, 2007 with a total work period of approximately two weeks.	NOE

2007052017	<p>General Plan Amendment Application No. 2007-03, Rezone Application No. 2007-03 - The Fruit Yard Stanislaus County Waterford--Stanislaus</p> <p>To authorize a development plan for The Fruit Yard to facilitate the development of a 9,000 square feet banquet facility, relocation of the existing gas station and convenience market, relocation of the existing "card lock" fueling facility, and construction of a 3,000 square feet retail shell building which includes a drive through establishment of unknown type. The applicant/property owner has also requested authorization for 322 space vehicle/RV storage (both covered and uncovered spaces) and 66 space travel trailer park for short term (overnight) stays and a 2.0 acre site for retail tractor (large agricultural equipment) sales. Finally, the request includes a new facility for fruit packing and warehousing, although these uses are consistent with the current zoning of the property. All substantially modified or new uses will include on-site vehicle parking, landscaping, and other accessory uses. As part of the applicant's statement, occasional outdoor special events are held, near the 9 acre park area, on site including fund raising activities to private parties. Thirty-nine acres of the 45 acre site are planted in a variety of stone fruit (cherries, peaches, apricots, and nectarines).</p>	CON	05/16/2007
2005011064	<p>Peaceful Valley Ranch; GPA 03-05, R03-015, TM 5341RPL, P04-048, Log No. 04-19-007 San Diego County Department of Planning and Land Use --San Diego</p> <p>Subdivision of 181.3 acres into 47 residential lots, one public equestrian facility lot, one private horse training and polo facility lot, one lot reserved for a joint-use fire station and administrative offices of the Rural Fire Protection District and the U.S. Fish and Wildlife Service, one open space lot and six private roadway lots. The General Plan Amendment and Rezone will place the entire site in the (17) Estate Land Use Designation and the A72 General Agriculture Use Regulation with a 2 acre minimum lot size and will delete a portion of SC 760, a planned road on the Circulation Element of the General Plan, from Olive Vista Drive in the north to State Route 94 in the south. The Major Use Permit will regulate operation and groundwater use on the polo field. The project site is located within the Otay Water District but must annex the eastern 152.46 acres into the Municipal Water District and the San Diego County Water Authority before public water service can be provided.</p>	EIR	06/15/2007
2005031155	<p>The Preserve Specific Plan Beaumont, City of Beaumont--Riverside</p> <p>Within the context of the proposed Specific Plan, the Project will implement residential, commercial, recreational, open space, and school uses. In general, areas of the Specific Plan proposed for development take advantage of favorable terrain and are located proximate to existing or proposed major roadways and infrastructure systems. For descriptive purposes, Specific Plan land uses are generally characterized as "Single Family Detached Residential", "Single Family Attached Residential", "Active Adult Detached Residential", "Active Adult Attached Residential", "School Site", "Commercial", "Parks/ Recreation", and "Open Space". Allocation and ultimate buildout of proposed land uses are presented at Table 3.3-1, "Specific Plan Land Use Summary".</p>	EIR	06/15/2007

2005061168	<p>Panama Lane Shopping Center File No.: GPA/ZC 02-0193 Bakersfield, City of Bakersfield--Kern</p> <p>The project applicant, Panama 99/Properties LLC, and the applicant of a similar but larger proposed shopping center, Castle & Cooke Commercial, Inc., located 3.6 miles west of the proposed Panama Lane Shopping Center, applied in early 2002 for project approvals, associated Zone Changes and General Plan Amendments for each of their respective properties. The other project is known as the Gosford Village Shopping Center. Separate EIRs were prepared for each development project. The City certified both EIRs, approved the projects, and approved the associated General Plan Amendments and Zoning Changes to the applicants in February 2003. Construction commenced on both project sites soon thereafter. These approvals were challenged in litigation and ultimately, in Bakersfield Citizens for Local Control v. City of Bakersfield, the Fifth District Court of Appeal invalidated the 2002 EIR and the General Plan Amendment and Zone Change. In order to comply with the direction provided by the Court of Appeal, this document will evaluate the environmental impacts of the proposed project, and will provide a full environmental analysis as if there were no construction on the site.</p>	EIR	07/02/2007
1995061007	<p>Gregory Canyon Landfill EIR San Diego County Pala, Pauma Valley--San Diego</p> <p>The Gregory Canyon Landfill project includes the construction and operation of a new Class III municipal solid waste landfill. A legal challenge to the certified EIR was filed. The court ruled that the 2003 EIR was defective in three respects: (1) failure to consider the 2003 Traffic Needs Assessment of Tribal Development Projects in the San Diego Region; (2) water supply; and (3) biological mitigations as they related to Proposition C. On January 20, 2006, the court issued a Peremptory Writ of Mandate directing the Director of DEH to rescind his prior action certifying the EIR. Limited portions of the 2003 EIR have been revised to address the deficiencies noted by the court, to update the project description and to analyze and evaluate the project based on several new studies that have been completed.</p>	FIN	
2007051006	<p>Universally Accessible Park Fresno, City of Fresno--Fresno</p> <p>The proposed project will provide a neighborhood park that is usable by children and adults with all levels of physical capabilities. 	assessment for their respective share of the overall cost of the water system improvements. The water system improvements will consist of a booster pump station, a water storage tank, a pressure reducing station, and water distribution pipelines (water mains).		
2007051013	Former Naval Training Center Landfill Remediation San Diego County Regional Airport Authority San Diego--San Diego An inactive landfill covering approximately 32 acres is located on the western edge of San Diego International Airport (referred to as the former Naval Training Center Landfill). The SDCRAA proposed to remediate the former landfill in accordance with local, state and federal guidelines for landfill remediation and use for airport purposes. The landfill remediation will remove municipal solid waste, burn ash, and some surrounding soils to remove a potential source of groundwater contaminants and reduce exposure to environmental and human receptors.	NOP	06/08/2007
2007051015	Aera Master Planned Community Diamond Bar, City of Unincorporated--Los Angeles, Orange The proposed project consists of a General Plan Amendment, Zone Change, and Specific Plan to allow for the phased development of a maximum of 3,600 residential units, golf course, and park uses, and 300,000 square feet of commercial uses. More than half of the site is proposed to be devoted to internal greenbelts and open space. The project site currently consists of an active oil field, though some portions of the site are also used for cattle grazing.	NOP	06/01/2007
2007051016	1019-1021 San Vicente Condominium Project West Hollywood, City of West Hollywood--Los Angeles The proposed project involves the construction of a four-story, five-unit condominium building with one level of ground-floor parking on a 7,177 square foot (0.16 acre) lot.	NOP	06/01/2007
2007052023	Machado Estates Manteca, City of Manteca--San Joaquin The proposed project includes the Annexation, Rezoning, Development Agreement, Tentative Map, a planned unit development, and construction of the Machado Estates Subdivision. The project would subdivide approximately 158 acres into 575 single family lots. The project would include the removal of a single family home from the site.	NOP	06/01/2007
2007052025	Mariposa Lodge Domestic Water, Fire Water, and Leach Field Improvements Santa Clara County San Jose--Santa Clara The proposed project consists of infrastructure improvements at the Mariposa Lodge Alcohol Treatment Facility. These improvements entail the replacement of effluent fitters on the ten existing septic tanks and the expansion of the existing leach fields to the south. New and replacement water, water well, and fire protection piping would be installed to service the facilities with water from a storage tank located east of the property. A total of approx. 2,275 feet of piping would be installed throughout the facility. A future well is also anticipated to be drilled in the proximity of the current storage tank and electrical conduits and a junction box would be installed to power the future well.	Neg	06/01/2007

2006072022	Saratoga Creek Townhomes - 14234 Saratoga - Sunnyvale Road Saratoga, City of Saratoga--Santa Clara The project includes demolition of an existing 20-unit apartment complex that consists of one- and two-story buildings, and the construction of twenty two-story townhome units. All townhomes are three-bedroom units with attached two-car garages. Some of the units include basements. The project will also include private patios and a common open space area. The buildings will not exceed 30 feet in height. The project includes removal and relocation of existing ordinance size trees and installation of replacement trees. Access to the site from Saratoga-Sunnyvale Road is provided through an existing access easement across the adjacent parcel to the south of the site. A private road will provide access within the site and will connect to an existing private road to the east of the site.	NOD	
2007022109	North Park Commercial Center Pittsburg, City of Pittsburg--Contra Costa The proposed project consists of the expansion of an existing commercial shopping center including: approximately 54,173 square feet of new in-line commercial retail space; a 3,000 square foot drive restaurant with a drive through; a 1,825 square foot limited auto repair building and a 3,504 square foot gas station with a convenience store and car wash. The project site has an area of approximately 10.5 acres and is located east of Loveridge Road, between North Park Boulevard and California Avenue.	NOD

<u>Documents Received on Friday, May 04, 2007</u>			
	<p>2. Ordinance for Zone Change 05RZ-222 to rezone the 83 +/- acre parcel from AE-37 (Exclusive Agricultural, thirty-seven acre minimum).</p> <p>3. Tentative Subdivision Map 05TSM-111(4) to create the Lake View Estates Subdivision by dividing the 83 +/- acre parcel into 12 lots ranging in size from 5.0 +/- acres to 10.0 +/- acres with a 5.5 +/- acre remainder.</p> <p>4. Resolution of application to the Local Agency Formation Commission (LAFCO) to form a County Service Area (CSA) or other entity established by the Tuolumne County Board of Supervisors to provide road maintenance for roads serving the proposed subdivision which are not accepted into the County Maintained System.</p>		
2007032020	<p>Vargas Dublin, City of Dublin--Alameda</p> <p>The proposed project includes annexation of the 4.38 acre site to the City of Dublin and the San Ramon Services District. The development project includes a maximum of 33 dwelling units and a small pedestrian trail near the creek. The project includes a request to change the General Plan and Specific Plan Land Use Designations on the site. The project site currently has two land use designations: Medium-Density Residential (approx. 1.4 gross acres) which permits a density of 6.1 to 14.0 dwelling units per acre, and Medium/High-Density Residential (approx. 3.6 gross acres) which permits a density of 14.1-25.0 dwelling units per acre. The Applicant has proposed a General Plan and Specific Plan Amendment to change the existing land uses to Medium Density to allow the construction of 33 dwelling units on the site (a reduction in the existing density).</p>	NOD	
2007032090	<p>Archer Daniels Midland (ADM) Sweetener Distribution Center Lodi, City of Lodi--San Joaquin</p> <p>ADM is proposing to construct a three-phase Sweetener Distribution Facility on a 14.94-acre parcel of industrial land. Phase 1 is a 10,500 sq. ft. operations/distribution building, storage silos; a boiler room and a railroad spur line. Phase 2 will be a 95,000 sq. ft. warehouse and Phase 3 will be a 20,000 sq. ft. liquid sweetener packaging/warehouse facility.</p>	NOD	
2007032151	<p>Mammoth Bar Motocross (MX) Track Repair Parks and Recreation, Department of Auburn--Placer</p> <p>The proposed action is to implement a remediation plan for the motocross track that would involve minor grading to repair portions of the storm damaged track.</p>	NOD	
2007042037	<p>Black Oak Water Association Placer County Water Agency Auburn--Placer</p> <p>PCWA is proposing to serve treated water to the Black Oak Water Association Project. The purpose of the project is to allow the Agency to provide treated water service to multiple parcels within Placer County located in the northeast Auburn area. The treated water service will provide a safe, reliable source of potable water for domestic purposes to properties within the Black Oak Water Association. The properties in Black Oak Water Association are currently utilizing private wells as a potable water source. Many of the private wells produce marginal quality or quantity of water. Some of the properties do not have water supplies because attempts to develop wells have been unsuccessful.</p>	NOD

2007059003	Major Subdivision No. PA-0600146 of Trimark Communities (C/O Pulte Home Corporation) San Joaquin County Community Development Department --San Joaquin Subdivision of a 21.2-acre parcel into 61 residential lots, each of which will contain 3-7 condominium units. Of these residential parcels, nine will contain 3-plexes, 12 will contain 4-plexes, 22 will contain 5-plexes, 8 will contain 6-plexes, and 7 will contain 7-plexes. A total of 303 condominium units are proposed. The project will achieve a residential density of 13.7 units per acre, which is within the Master Plan density of 12-14 units per acre. Four floor plans will be offered: Plan 1 will contain 1,218 square feet, Plan 2 will contain 1,475 square feet, Plan 3 will contain 623 square feet, and Plan 4 will contain 1,630 square feet. With the exception of Plan 1, all floor plans will feature 3 bedrooms, 2.5 baths, and a 2-car garage. Plan 1 will feature 2 bedrooms, 2.5 baths, and a 1-car garage. Two recreational facilities are proposed: a recreation center featuring a multi-purpose building and outdoor pool, and a tot lot area providing play equipment for 2-5 year olds. In addition to creating the residential lots for condominiums, the subdivision would create private street lots and open space lots that would be maintained by a Home Owners Association.	NOD	
2007059004	Big Chico Creek Pedestrian / Bicycle / Equestrian Bridge Chico, City of Chico--Butte The California Dept. of Fish and Game is executing Lake or Streambed Alteration Agreement Number 1600-2007-0134-R2, pursuant to Section 1602 of the Fish and Game Code to the project applicant, City of Chico Community Services Department. Big Chico Creek Pedestrian Bridge is a 12 foot wide, 100 foot single span bridge over Big Chico Creek just downstream of the Manzanita Avenue Bridge.	NOD	
2007058036	Install Rumble Strip, Reconstruct Metal Beam Guardrail, Pavement Repair, Overlay Caltrans #3 Clearlake--Lake Install rumble strip, reconstruct metal beam guardrail, pavement repair, AC overlay, restripe, replace traffic signal loop detector. All work will be within Department of Transportation right of way.	NOE	
2007058037	Install Overhead Sign, Lighting and Video Camera Caltrans #3 --Nevada Install overhead sign, lighting and a video camera. The sign was destroyed in an accident and will be replaced 33 feet from edge of travelled way. All work will be within Department of Transportation right of way.	NOE	
2007058038	I-5 Riverfront Seal Slab Rehabilitation Caltrans #3 Sacramento--Sacramento Remove and replace the existing PCC riding surface and drainage system of the Riverfront Seal Slab (aka Boat Section). Three additional dewatering wells and additional groundwater monitoring wells with pressure sensors will be drilled along the slab structure. A portion of the existing groundwater discharge pipe will be replaced with a slightly larger pipe to accommodate the water from the existing.	NOE

	<p>drainage improvements, grading for the identified lots was expected to go through separate city review on a lot by lot basis to address specific environmental and geotechnical issues. Approximately three years ago, the project developer graded the lots without permits. The project involves review of the unpermitted grading of approximately 385,141 cubic yards of cut and fill on the subject property including impacts and mitigation of biological resources and health and safety. Mitigation has been identified to reduce biological impacts including <i>Brodieae filifolia</i>, and sensitive habitat including coastal sage scrub, southern coast live oak riparian forest and critical habitat for the <i>Brodieae</i> and coastal California gnatcatcher. Mitigation has been identified to address impacts from uncertified cut and fill grading. Grading also impacted slopes exceeding 35% and will require approval of a variance.</p>		
2007051033	<p>General Plan Amendment No. 07GPA002 Chino Hills, City of Chino Hills--San Bernardino Amendment to the City of Chico Hills General Plan's Parks, Recreation, and Open Space to update the existing Parks, Recreation, and Open Space Master Plan with the 2007 Update.</p>	Neg	06/05/2007

2007051041	Zisman Lot Split and Lot Size Variance, 07NGD-00000-00009 (05TPM-00000-00021/05VAR-00000-00006) Santa Barbara County --Santa Barbara Per the request of Roger Zisman, owner/applicant, and Kathleen Weinheimer, attorney, the proposed Tentative Parcel Map would subdivide an existing parcel of 14,958.4 square feet gross/net into two new parcels of 5,981.9 square feet gross/net (Parcel 1) and 8,976.8 square feet gross/net (Parcel 2). The lot split would occur on a parcel that is developed with two Single Family Dwellings that function as two separate, self-sufficient units, each with their own separate vehicular access and utility connections. The goal of the Tentative Parcel Map is to split the lot such that each of the two houses would be located on its own, separate parcel. The Tentative Parcel Map would result in one parcel (Parcel 1) that does not meet the 7,000 square foot minimum parcel size and 65 foot minimum parcel width requirements of the 7-R-1 Zone District and Section 21-41 of the Chapter 21 Subdivision Regulations. As proposed, Parcel 1 would be 5,981.9 square feet in size and 49.84 feet in width. A Lot Size Variance is required (05VAR-00000-00006) in order for the lot split to create a parcel that does not meet the minimum size requirements. Each house would continue to be served by existing connections to the Montecito Water District and Summerland Sanitary District, and would continue to be served by the Carpinteria-Summerland Fire Protection District. In addition, access to each of the proposed parcels would be from Whitney Avenue via two existing paved driveways.	Neg	06/05/2007
2007052032	Delta Interpretive Facilities Flood Protection Project East Bay Regional Parks District Oakley--Contra Costa The project would import up to 60,000 cubic yards of clean fill to raise the ground level from 2-6 feet above the existing grade to allow recreational and educational facilities to be constructed above the 100-year flood zone to avoid flood hazards.	Neg	06/05/2007
2007052033	Danco Redwood Meats Lot Line Adjustment/Coastal Development/Planned Development Permit Humboldt County Community Development Services Eureka--Humboldt A lot line adjustment between four parcels to result in four parcels. The purpose of the lot line adjustment is to reconfigure the lots to be better suited for development.	Neg	06/05/2007
2007052034	Mather Sports Center Cordova Recreation and Park District Rancho Cordova--Sacramento Twenty-two of the 29 acres associated with the existing sports center will be renovated. The project entails relocation of existing softball and basketball courts, construction of a new soccer field, installation of efficient and focused lighting to replace existing lighting, construction of a new skate park, demolition of existing restroom buildings, and installation of two new buildings including a concession facility and officials' rooms. Replacement of the existing public announcement system with a more modern system; replacement of existing natural turf with synthetic turf, installation of new landscaping and construction of two new parking areas. 2002041005	Granite Construction Co: Handley Ranch Quarry Monterey County Planning & Building Inspection Gonzales--Monterey Combined Development Permit, approved on April 20, 2004, consisting of the following: 1) Use Permit allowing the establishment and operation of a granite quarry with associated on-site rock processing plant, asphaltic concrete batch plant, portland cement concrete batch plant and asphalt and concret recycling facility, 2) Use Permit for the removal of 300 oak trees, 3) Use Permit for development on slopes over thirty percent, and 4) Reclamation Plan establishing standards, timelines and practices for phased reclamation.	NOD	
2007031079	Verdemont Water Infrastructure Project San Bernardino Valley Municipal Water District San Bernardino--San Bernardino The City of San Bernardino Municipal Water Department (CSBMWD) proposes to improve Verdemont area water infrastructure to meet the demands of existing, improved and entitled development. New development has been approved and is being constructed in the Verdemont Area pressure zones (2100 and 2300) that will require additional water availability. The Department is mandated to provide water to entitled developments. The proposed project will connect existing water supplies to new pump stations and a reservoir (up to 5 million gallons storage) designed to provide the higher pressure zones with sufficient capacity to meet projected need. Under existing conditions, the 2300 Pressure Zone depends upon a hydro pneumatic pumping station that is subject to maintenance problems and expensive to operate. The Verdemont Improvements would provide gravity fed water supply to the 2300 Pressure Zone that is more reliable and less expensive than the existing system and would also increase the reliability of water service by providing redundancy within the existing system such that water service does not rely on a single pipeline, pump or reservoir.	NOD	
2007059005	Streambed Alteration Agreement 1600-2006-0846-3/1-06-177 MEN Fish & Game #3 --Mendocino This project is associated with one logging road crossing replacement and road repair and is designed to facilitate timber operations and improve watercourse and hillslope drainage patterns. The THP is located in the Wages Creek watershed, situated on steep, southeast and southwest facing hill slopes above North Fork Wages Creek, a Class I (fish bearing) watercourse in Mendocino County. Documents Received on Monday, May 07, 2007

2007058066	T-Mobile Site No. SC15349-B Use Permit Sacramento County Dept. of Environmental Review --Sacramento The proposed project consist of a Use Permit to allow a cellular facility consisting of the attachment of 12 (3 initial, 9 future) panel antennas to the top of an existin PG&E utility tower for an overall height of 112.3 feet located on approximately 2 acres in the AR-2 zone. Associated equipment cabinets will be located on the ground at the base of the tower.	NOE	
2007058067	California Department of Transportation - Route 255 PM 4.74 Culvert Replacement Regional Water Quality Control Board, Region 1 (North Coast), Santa Rosa --Humboldt The purpose is to replace an existing 112-foot, 18-inch diameter reinforced concrete pipe (RCP) culvert that has separated at the culvert barrel, allowing a sinkhole to develop in the roadway above the culvert. The existing culvert will be replaced with a 112-foot, 24-inch diameter RCP. This project involves removing the existing culvert, creating a trench that is approximately 3 feet wide and up to 7.5 feet deep, filling the portion of the trench that is within the limits of the paved roadway with cement slurry and then re-paving. The applicant will backfill the trench on the shoulders of the roadway with a mixture of sand and gravel, and then compact the area. An area, approximately 6 x 3 x 3 foot, will be excavated in preparation for the new headwall and end wall, and to install 4 x 4 foot by 6-inch thick pre-cast concrete (PCC) head- and endwalls at the culvert inlet and outlet, respectively. Dewatering may be required for the construction of the head- and endwalls. Typically, water would not be present during the planned construction period, June 1 to October 15. The applicant will pump any water encountered at the inlet or outlet to an upland sedimentation basin, where the water will be allowed to percolate into the soil or will be pumped to a tank truck for offsite disposal. The intake for the pump will be screened, and a qulaified biologist will be onsite to facilitate rescue of any sensitive aquatic species. The project does not require the removal of trees.	NOE	
2007058068	San Pasqual Battlefield Clean-up (06/07-SD-39) Parks and Recreation, Department of --San Diego This project consists of weed removal and trash clean-up around interpretive facilities, Visitor Center, and parking lot in San Pasqual Battlefield State Historic Park.	NOE	
2007058069	Wind Generator - SSSB (06-07-SD-36) Parks and Recreation, Department of --San Diego This project consists of the temporary placement of a wind generator on the Aquatics Center Building located in Silver Strand State Beach. The project is a test to examine the amount of reduction in energy costs that the wind generator may provide. The wind generator will be hooked up to the building and attached to its electrical source. There will be no underground disturbance.	NOE

2007021036	<p>City of Bakersfield Sports Village Complex Bakersfield, City of --Kern</p> <p>The proposal contains a variety of recreational and commercial amenities. For example, 6 regulation-size football fields (360 feet x 160 feet), 12 baseball fields of various sizes to accommodate a variety of users, and 16 regulation-size soccer fields are included in the project. Also planned are spectator areas, centralized administrative and program staff offices, restrooms, concession facilities, and storage areas. Indoor sports and meeting facilities will be included as part of the 17,000-square foot community center. A 6.5-acre lake (which will serve as a storm drainage facility), and City maintenance service annex (the site of possible future fire and police stations) are also part of the project. Finally, two separate commercial parcels, totaling 37 acres, are planned to accommodate the Sports Village Complex. These would contain sports-related uses along with restaurants, convenience markets, a hotel, and similar supporting commercial uses.</p>	EIR	06/22/2007
1990020470	<p>Big Bear Dam Bridge Replacement Project Caltrans #8 Big Bear Lake--San Bernardino</p> <p>Replace the existing 2-lane bridge located on top of the Big Bear Dam, with a new 3-lane bridge at a location either upstream or downstream of the Big Bear Lake Dam. Subsequent to construction of the new bridge, the existing bridge would be removed to facilitate the Big Bear Municipal Water District's planned spillway improvements.</p>	FIN	
2005081001	<p>Lotus Ranch El Centro, City of --Imperial</p> <p>The proposed project consists of a residential development about 213 acres including 658 units of single-family residential and 6.7 acres of public park. Approval of annexation to the City of El Centro by LAFCO and approval of a prezone, and Lotus Ranch Tentative Subdivision Map by the City of El Centro would be required to allow development of the proposed project.</p>	FIN	
2007051044	<p>2007/ 2008 Water Supply Improvement Project Indian Wells Valley Water District Ridgecrest--Kern</p> <p>IWVWD's proposed 2007/ 2008 Water Supply Improvement Project (Project) consists of constructing and operating two 16" to 20" diameter domestic water production wells (Well 35 and 36, with anticipated depths between 900 and 1,400 feet below ground surface and production capacities between 1,000 and 2,500 GPM); refitting existing domestic water production Wells 18, 30, 31, and 33 (with current capacities of approx. 1,200 GPM) with new pumps with capacities up to 2,500 GPM; increasing the proposed capacity of Well 34 from 1,200 GPM to 2,500 GPM; and constructing approx. 3,500 lineal feet (LF) of new 12" to 24" diameter water pipelines and pipeline appurtenances generally within existing dirt roads. Constructing Well Plants 34, 35, and 36 is anticipated to include the following activities: site clearing and fencing, drilling the wells, casing the wells, developing the wells using air lift equipment, and testing the wells using temporary diesel driven pump (excepting Well 34, for which these activities have already taken place); installing pumping units, motors, electrical switchgear, and electrical power service; installing valves, piping, and appurtenances; installing disinfection and/or treatment facilities (including arsenic treatment); constructing a discharge pond (approx. 1 acre) immediately adjacent to each well; painting above ground</p>	MND	06/06/2007

	facilities; constructing enclosures for protection of aboveground facilities; disinfecting the wells; startup of the well pumping plants; and operating the wells, well pumping plants, and any related treatment facilities. Development and testing water discharges will be percolated into the ground locally.		
2007051046	<p>Puente Hills Landfill Native Habitat Preservation Authority Resource Management Plan</p> <p>Puente Hills Landfill Native Habitat Preservation Authority La Habra Heights, Whittier--Los Angeles</p> <p>The Habitat Authority is proposing to adopt a Resource Management Plan (RMP) to guide the long term management for the Habitat Authority's lands (Preserve). The RMP will be the primary management document for the Preserve, providing a defined vision and mission, long term goals and objectives, and management guidelines. It will guide the Habitat Authority on future policy, land use budget, and capital improvement decisions relating to the Preserve. The major goals are to preserve, maintain, and enhance the Preserve by enhancing wildlife habitats, developing vegetation management practices, and provisions for safety, low impact recreational opportunities, and public access.</p>	MND	06/06/2007
2007051048	<p>TT-17732 and ZC-2006-20</p> <p>Hesperia, City of Hesperia--San Bernardino</p> <p>Tentative Tract Map to create 17 single family residential lots and one lot for retention and a zone change from RR-1 to R1-18,000 on 9.9 gross acres. The tract will have a density of 1.7 dwelling units per acre, all lots will be a minimum of 18,000 sq. ft. in size.</p>	MND	06/06/2007
2007051050	<p>03-373-(3)- Oak Tree Permit</p> <p>Los Angeles County Department of Regional Planning Malibu--Los Angeles</p> <p>An application for an oak tree permit for the removal of one oak tree (#50) and encroachment of thirty four oak trees (1, 8, 12, 14, 22-31, 33-37, 40-42, 44, 45, 48, 49, 51, 54, 55, 57, 58, 62, 63, and 93) for the widening and paving of an existing dirt driveway pertaining to the construction and access of a single family residence requested under Plot Plan 49049. The proposed driveway with retaining walls for the single family residence extends a length of approx. 1,400 feet from Dume Canyon Motorway, a paved access road. Approx. 150 feet of the driveway is located on the subject property. The remainder of the driveway is located on an adjacent parcel to the east. Approx. 0.34 acres on the subject property and 0.85 acres will be disturbed by the project. Brush clearance for fire will affect additional area. The project will entail 7,950 cubic yards of cut and 600 cubic yards of fill; the roadway construction will entail 4,300 cubic yards of cut and 500 cubic yards of fill and construction of the residence will entail 3,650 cubic yards of cut and 100 cubic yards of fill. Excess materials will be transported offsite. The proposed 14,400 sq. ft., three story single family residence and garage will be constructed on the east side of the property. Site plans show six bedrooms, a swimming pool, and a four car garage. The applicant indicates that water will be provided to the site by the Las Virgenes Municipal Water District. The project proposes to extend a water line to the site from Ramera Motorway.</p>	MND	06/06/2007

2007052040	<p>Plumas Community Foundation Special Use Permit and Zone Change Plumas County Quincy--Plumas Proposal to construct and operate a senior residential facility of approximately 59 units, consisting of 12 retirement units, 32 assisted living units, and 15 memory care units. All units to be housed in a two story building.</p>	MND	06/06/2007
2007052044	<p>1000 South / 950 Holly Road Condominium Conversion Belmont, City of Belmont--San Mateo The applicant, Prospect Point Developers, proposes to merge the two parcels, demolish the single-family residence and substantially demolish apartment building and construct 20 condominium units. The request is also for a zone change from Single Family (R1-A) and Multi Family (R-4) to Planned Development (PD). The General Plan Map amendment is proposed to create a Medium Density Residential Designation (Rm) on the merged lot and eliminate the current Residential Low Density on the 950 Holly portion and the Residential High Density on the South Road portion of the site.</p>	MND	06/11/2007
2006072123	<p>Incremental Recycled Water Program - Discharge Compliance Project Santa Rosa, City of Santa Rosa, Cloverdale--Sonoma On August 1, 2006, the City of Santa Rosa issued a Notice of Preparation of an EIR (NOP) for the Discharge Compliance Project. In response to public and agency comments received on the NOP, and additional engineering studies undertaken since that time, the City is proposing changes to the project alternatives that were described in the August 2006 NOP. The City of Santa Rosa adopted the incremental Recycled Water Program Master Plan to provide reliable treatment, recycling and disposal of the wastewater volume anticipated in the General Plans of the communities making up the Subregional System. The Discharge Compliance Project carries out part of the IRWP Master Plan and intends to provide for continued disposal of the wastewater generated by the 4,500 MG in the driest and wettest years on record.</p>	NOP	06/06/2007
2007051047	<p>Olsen Ranch Beechwood Area Specific Plan Paso Robles, City of Paso Robles--San Luis Obispo Based on the principles of Traditional Neighborhood Design, including walkability, mix of uses, open space, and aesthetically pleasing development, the Olsen Ranch/Beechwood Specific Plan proposes a pattern and form of residential development with identifiable neighborhood centers.</p>	NOP	06/06/2007
2007051049	<p>APCD Rule 55, Fugitive Dust Ventura County Air Pollution Control District Ventura--Ventura Proposed Rule 55 will impact any man-made condition capable of generating fugitive dust. Affected sources include bulk material handling facilities, construction/demolition sites, storage piles, unpaved roads, off-field agricultural operations, and earth-moving operations. The following new standards are proposed to reduce fugitive dust emissions: 1. No visible dust beyond the property line. 2. New 20 percent opacity limit. 3. New track-out limit of 25 feet. 4. No visible dust plume over 10 feet in length during earthmoving activities.</p>	NOP	06/06/2007

	The estimated emission reductions from the implementation of Rule 55 are six tons per day of PM, based on a 30 percent control effectiveness. This 30 percent effectiveness assumes that most of the impacted sources are already in compliance with the proposed rule requirement.		
2007051051	State Route 58 Kramer Junction Expressway Project Caltrans #8 Barstow--San Bernardino The Federal Highway Administration (FHWA), in cooperation with the California Department of Transportation District 8, proposes to widen and realign State Route 58 (SR 58) Kramer Junction Expressway from two lanes to four lanes between the Kern / San Bernardino County line and a point 12.9 miles east on SR-58. The 13-mile long project would take place entirely within San Bernardino County and is centered on Krammer, Junction, where SR-58 intersects with US-395 west of the City of Barstow. This section of SR-58 is currently a nonstandard two-lane highway between a four-lane freeway to the west and a four-lane expressway to the east. The proposed project would close the gap.	NOP	06/06/2007
2007052042	Scotia General Plan Amendment, Zone Reclassification, Final Map Subdivision, Planned Unit Development and Community District Formation Humboldt County Community Development Services --Humboldt Pacific Lumber Company is owner of 465 acres of property that constitutes the community of Scotia. The project is a general plan amendment, zone reclassification, final map subdivision, planned development permit and urban limit line extension for portions of Scotia with land use designations of Industrial General or Timberland and zoning of unclassified "U". The request involves changing the land use designation and rezoning approximately 80 acres primarily used for residential uses within the town of Scotia, and subdivision of this area so that existing residences and community facilities are placed on individual lots. Existing residential portions of the town are proposed to be changed from Industrial General to Residential Low Density. Areas of the town that currently include developed utility infrastructure would be changed from Industrial General or Timberlands to Public Facility. Areas of the town that have existing commercial uses would be changed from Industrial General to Commercial General or Commercial Recreation. The urban limit line would be extended to encompass the Scotia town site area. The applicant also proposes formation of a Community Service District (CSD) for delivering services to the community.	NOP	06/06/2007
2007052045	Sutter Creek Wastewater Treatment Plant Improvements Sutter Creek, City of Sutter Creek--Amador City of Sutter Creek proposes improvements and phased expansion of its existing wastewater treatment plant. Proposed would require treatment plant expansion to adjacent 2.5 acre site and modifications by City and/or other entities of effluent conveyance and land disposal systems. Capacity increases would be phased and installed only as needed to meet projected capacity requirements.	NOP	06/07/2007

	6-foot diameter CMP and an 8-foot by 6-foot by 126-foot long RCB culvert. The new RCB will follow the original alignment, grade, and elevation of the existing CMP and will be constructed to conform where the existing CMP ends. The debris rack at the inlet of the RCB will remain in place but will be lengthened and modified to improve functionality. The inlet of the RCB will remain in place and Rock Slope Protection (RSP) will be placed on the north and south slopes of the creek near the inlet to repair damaged slopes. A headwall with deflector will be constructed at the outlet to direct the flow from the culvert to the river. The project is expected to have a beneficial effect on fish species by allowing fish to pass to the upper reaches of Anderson Creek.		
2007058075	Pelayo Remediation Project Fish & Game #3 --Napa The Applicant proposes to realign a portion of American Canyon Creek, remove unauthorized floodplain fill, and raise a building pad at 2180/2110 American Canyon Road in Napa County. The design channel alignment was based on three considerations: geomorphic requirements of a stable channel, deliberations in the negotiated settlement, and location of an existing well. The new channel will have an approximately 3 foot wide low flow channel with a flat flood terrace approximately 1 foot above the bed. A step-pool transition, sinuous channel, and three willow walls will also be part of the design. To gain the sinuosity needed for a stable channel, some willow trees will be removed. Issuance of a Streambed Alteration Agreement Number 1600-2006-0565-3 is pursuant to Fish and Game Code Section 1602.	NOE	
2007058076	Mitchell Creek Riparian Restoration / Fish Passage Improvement Fish & Game #3 --Contra Costa Project proposal is to remove barriers to rainbow trout in Mitchell Creek by removing concrete rubble and rock diversion spillways, portions of old road bed, modification of two dams and installation of a fish ladder. Issuance of a Streambed Alteration Agreement Number 1600-2007-0075-3 is pursuant to Fish and Game Code Section 1602.	NOE	
2007058077	Waste Discharge Requirements General Order for Existing Milk Cow Dairies Regional Water Quality Control Board, Region 5 (Central Valley), Sacramento --Butte, Fresno, Glenn, Kern, Kings, Madera, Merced, Placer, ... California Regional Water Quality Control Board, Central Valley Region, action to adopt Waste Discharge Requirements General Order for Existing Milk Cow Dairies pursuant to California Water Code Section 13263. The purpose is to establish a regulatory program for existing milk cow dairies in the Central Valley Region and the people of the State of California.	NOE	
2007058078	Dow Chemical Company - Class-II Permit Modification Toxic Substances Control, Department of Torrance--Los Angeles The Dow Chemical Company was required to modify its closure plan and close the hazardous waste management units after it has expired on July 28, 2006. On November 22, 2005, the facility notified DTSC that they intend to close the facility. DTSC reviewed the modified closure plan of 1992, and determined that the closure plan is not up to the current standards. The permitted units include Drum/Container Storage Area, two boilers, and tank T-307.	NOE

	<p>DTSC provided comments to the facility on July 17, 2006. Subsequently, Dow Chemical Company submitted a revised closure plan on September 28, 2006. A comment period was from October 9, 2006 to December 8, 2006. Dow held a public meeting for the Class-II Permit Modification of the Closure Plan on November 8, 2006.</p> <p>The revised 2006 Closure Plan includes the following to the 1992 Modified Closure Plan:</p> <ol style="list-style-type: none"> 1. Use of Method 5035 for collection of volatile organic compound samples; 2. Deletion of one regulated unit T-41 from the text in the closure plan, which has been clean-closed; 3. Scaling back soil matrix samplings and moving background soil sample locations; 4. Deletion of all language indicating wastes will be burned in the boilers prior to closure activities; 5. Additional wipe sampling to demonstrate that both the operations equipment to be removed and the sampling equipment used during closure sampling are decontaminated. 		
2007058079	<p>Lake Park Lake Sediment Removal Fish & Game #5 Simi Valley--Ventura</p> <p>The Operator intends to alter the lake by dredging sediments from four locations, (1) from the sediment basin at the headwaters; (2) along the bank by the basin on the far side; (3) by the dam on the far side of the lake, opposite of the cattails; and (4) at the edge outside of the cattails to prevent the cattails from growing farther out into the lake, and a path through the cattails for a boat launch. All the dredging will be done from the bank, and the sediments shall be dewatered on shore. No motorized pumps or dredges will be used in the water. All intakes shall be screen to prevent the uptake of fish or turtles.</p> <p>SAA# 1600-2006-0269-R5</p>	NOE	
2007058080	<p>Streambed Alteration Agreement (1600-2007-0089-R5) Regarding the Morris Dam Access Road Repair Project Fish & Game #5 Azusa--Los Angeles</p> <p>The Operator proposes to alter the streambed and banks through the repair and upgrade of an existing maintenance access road which has severely eroded in the January 2005 storm events and washed out a 450-foot long segment of the 30-foot wide access road to the base of Morris Dam. The damaged road and its embankment need to be restored to provide vehicle access to the base of the dam for emergency repair and routine maintenance and dam safety monitoring activities. The scoured access road and earth bends will be restored with a combination of a 20-foot wide road and 18-foot wide steel bridge.</p> <p>The Operator shall not impact more than 0.31 acre of stream channel and associated non-vegetated riparian habitat. All disturbed portions of the stream channel or banks shall be restored to their original condition or better.</p>	NOE

2005042135	Bohemia Subdivision (previously known as Fiddler Green) Placer County Auburn--Placer The Bohemia Project proposes the redevelopment of the former Bohemia Lumber Company site into a residential community consisting of 116 residential parcels containing detached single-family homes. The application includes requests for General Plan amendment, amendment to the Auburn-Bowman Community Plan, and change in zoning in order to permit the development as proposed.	FIN	
2006012101	Indian Creek Rehabilitation Project Trinity County Planning Department --Trinity The Trinity River ROD channel rehabilitation component focuses attention on the need to physically manipulate the bank and floodplain features of the Trinity River between River Mile 112.0 (Lewiston Dam) and River Mile 72.4 (North Fork Trinity River). The channel reconstruction is intended to restore the Trinity River's historical and alternate point bar morphology and habitat complexity to improve fishery resources. The Indian Creek Rehabilitation project: Trinity River Mile 93.7 to 96.5 is the third channel rehabilitation project already built or in the planning stages that will work together to enhance river processes and to increase fisheries habitat downstream of Lewiston Dam. This project has no specific flood control objectives. The project purpose and need is to provide increased juvenile salmonid rearing habitat on the mainstream Trinity River, and to reduce flow impacts to homes and other human improvements located adjacent to the Trinity River, from implementation of ROD flows. 2007051053	Tentative Parcel Map No. 67518 Lancaster, City of Lancaster--Los Angeles A subdivision for 2 single family lots in the RR-1 zone.	MND	06/07/2007
2007051054	Tentative Tract Map 63095 Lancaster, City of Lancaster--Los Angeles A subdivision of 41 single family homes in the R-7,000 zone.	MND	06/07/2007
2007051055	McDermont Field House Sports Court Lindsay, City of Lindsay--Tulare The project would: (a) convert an existing 97,750 square foot industrial building (formerly used as a citrus packing shed) and (b) add 73,250 square feet of new building space. The proposed 171,000 square foot recreation center would provide a variety of community recreational activities and services.	MND	06/07/2007
2007052046	DS Canal Flume Replacement Project Nevada County Irrigation District Grass Valley--Nevada This proposed project consists of the replacement of eight existing elevated wood-supported metal flumes along the Nevada Irrigation District (District) DS Canal with steel supported elevated 72-inch pipe flumes. The existing flumes connected the DS Canal, where it spans natural drainages, to provide gravity flow along the course of the canal. The flumes proposed for replacement are generally located between the DS Canal's intersections with Banner Mountain Trail (to the east) and Banner Lava Cap Road (to the west). Flume #13 is proposed to be replaced in its current alignment, requiring a short-term canal outage while construction takes place. Flumes #14, 15, 16, 17, 18, 19, and 23 are currently scheduled to be constructed parallel to the existing facilities, on the downslope side, and will require a brief canal outage while they are being connected.	MND	06/07/2007
2007052049	Carroll General Plan Amendment/Zone Reclassification/Parcel Map Subdivision Humboldt County Community Development Services --Humboldt A General Plan Amendment and associated Zone Reclassification to change the land use designation and zoning district from Timber Production (T) to Agriculture Rural (AR) and from Agriculture General 20-acre minimum to Agriculture General 5-acre minimum, respectively. Both the amendment and rezone will facilitate the proposed Parcel Map Subdivision of the 20-acre parcel into Parcels 1, 2 and 3 of approximately 6.4, 6.7, and 6.9 acres, respectively. Parcel 1 is developed with a single family residence and served by well water and on-site sewage disposal system. Parcels 2 and 3 will be served by existing springs and on-site sewage disposal systems. The parcels are accessed from Shale Lane off Greenwood Heights.	MND	06/07/2007
2007052050	Oyster Bay Bridge at Oyster Bay Slough San Leandro, City of San Leandro--Alameda Construction of a 350-foot long pedestrian/bike bridge, and a 630-foot long paved trail to connect Oyster Bay Regional Shoreline with bay trail facilities on port-owned property. Bridge would span a shallow, man-made tidal slough.	MND	06/07/2007

2007052052	<p>The Exploratorium Relocation Project San Francisco, City and County of San Francisco--San Francisco</p> <p>The Exploration proposes to relocate from the Palace of Fine Arts, at 3601 Lyon Street, to Piers 15/17, along the Embarcadero, on the waterfront (Assessor's Block 9900, Lots 15, 15H, and 17). The project site, owned by the Port of San Francisco, is comprised of the 136,145-gross-square-foot (gsf) Pier 15, 110,051-gsf Pier 17, 11,773-gsf Connector Building, a paved parking area ("Valley"), and a 1,579-gsf office shack in the Valley. Piers 15 and 17 are contributing resources to the San Francisco Embarcadero National Register Historic District. The Exploratorium proposes to lease from the Port Pier 15, the Connector Building and Valley, plus a portion of the cast apron (which is the walkway between the building and water edge), for use as a museum. The use of the new space would be commensurate with the program at The Exploratorium's existing location, but 33 percent larger. The Exploratorium would have an option to expand the museum into Pier 17 in the 17th year of its lease. Until then, the Port would continue to lease Pier 17 to commercial and light industrial uses and proposes to lease approximately 5,000 gsf within Pier 17 for restaurant or other retail use. The project would increase project site floor area by approximately 70,929 gsf by adding a second level within the Pier 15 shed; total post-construction floor area in Pier 15 and the Connector Building would be approximately 200,000 gsf. The existing office shack and much of the Valley paving would be removed to feature an outdoor exhibit area and provide public access to the Bay front. A current on-site maritime use in Pier 15 would remain, either in Pier 15 or Pier 17. The project also would include temporary and ceremonial berthing of ships, and a water taxi landing.</p>	NOP	06/07/2007
2006101057	<p>El Corte Planned Development ZCH 06-0112 Atascadero, City of Atascadero--San Luis Obispo</p> <p>The proposed project consists of an application for a zone change with master plan of development and tentative tract map for a 7 unit residential planned development. The density will be changed through the overlay zone to 4 units/acre.</p>	Neg	06/07/2007

	primary, secondary, and tertiary treatment. A conditional use permit (CUP) is required in order to permit restaurant facilities, as well as for the sale and serving of alcohol in the CG zoning district.		
2007052047	Paul Hurley and Cynthia Cummins (Zone Change, Tentative Subdivision Map) Siskiyou County Planning Department --Siskiyou Zone Change: The applicants propose a Zone Change to modify the existing P-D (Res-1, Single Family Residential uses) for the purpose of reconfiguring the parcels along the west side of Haul Road in McCloud. The reconfigured P-D would reduce the number of allowable parcels from 42 lots to 18 lots, with Res-1 uses. The P-D zoning designation would establish parcels set at a specific density considered suitable for the area.	Neg	06/07/2007
	Tentative Subdivision Map: The applicants propose a Tentative Subdivision Map to divide 38.7 acres, creating an 18-lot subdivision. The site was previously approved for a 42-lot subdivision under TSM-95-01. The applicants propose a phased development. Phase I would create Lots 6 and 9. Phase II would create Lots 13 and 15. Phase III would complete the final project.		
2007052048	Phoenix Lake Outlet Works Rehabilitation Project Marin Municipal Water District Ross--Marin The end of the outlet, or drain line, for Phoenix Lake is currently covered by about five feet of sediment in the bed of Ross Creek at the base of Phoenix Dam. This project would be the construction of a concrete box, approximately 14 by 16 feet, that would surround the end of the outlet pipe, thus freeing the end from the sediment of the creek bed. The outlet water would then enter the box via the existing pipe and travel upward, through a steel grate covering the top of the box, and spill outward, over the top and into the creek bed. This project would satisfy a directive from the State Department of Water Resources to permanently expose the end of the outlet pipe.	Neg	06/07/2007
2007052051	Acacia Creek Independent Living Apartments at Masonic Home Union City Union City--Alameda Masonic Homes of California, a charitable non-profit organization dedicated to providing residential and health care to aging and infirm California Master Masons and their wives or widows, is proposing to develop 192 independent living apartments and 30 memory care/assisted living units at the existing Masonic Home campus in the City of Union City. The project would redevelop approximately 11.5 acres of an existing campus about 25 acres in size surrounded by undeveloped open space. The total Masonic Home property, including the developed campus and surrounding open space, occupies 308 acres on the east side of Mission Boulevard, between Decoto Road and Appian Way. Implementation of the project would require the demolition of six existing buildings and construction of six new buildings, including two buildings providing the proposed one- and two-bedroom independent living apartments, an assisted living/memory care facility, a pool and recreation building, and two duplex cottages providing four two-bedroom independent living apartments. 2006081110	Commons at Madera Fair Madera, City of Madera--Madera The proposed project consists of a 306,500 square-foot regional commercial retail center. The project would contain a 172,000 square foot Lowe's Home Improvement store, five mid-box anchors totaling 120,000 square feet, and three outparcels for uses such as fast food, banking, or other retail. There is an option to develop a 100-unit hotel on one of the outparcels.	EIR	06/25/2007
2005012037	Rockville Trails Estates Residential Subdivision Project Solano County Fairfield--Solano Proposed project includes 370 single-family units. The western portion is divided into 356 single-family units with one acre lot size and open space parcels. Lots are clustered in neighborhood pods along primary looped roadway. The eastern portion is divided into 14 agricultural and residential 20 acre lots. Project has open space and trails that link with existing trails and waste water treatment plant.	FIN	
2006021063	Well No. 2 Arsenic Treatment Armona Community Services District --Kings Water treatment to meet 10 ppb Arsenic MCL	MND	06/08/2007
2007051062	Pacific Coast Highway/ 2nd Street Improvement Project Long Beach, City of Long Beach--Los Angeles The proposed project would involve improvements to the intersection at PCH and 2nd Street to eliminate a narrowing of the roadway at the intersection and provide a consistent right of way roadway width north of 2nd Street. On the north leg of the intersection, the project would widen PCH by 18.851 feet (5.746 meters) for approx. 400 feet to add an additional southbound left turn lane and a Caltrans standard shoulder allowing right turns. With these additions, the full lane configuration would provide three northbound through lanes, a painted median, two southbound left turn lanes, three southbound through lanes and a standard shoulder. The striping on the north leg would join existing striping at the south leg of the intersection, and match the north leg striping. No new construction would occur on the south leg. To accommodate the proposed intersection improvements a narrow strip of new right of way from two private parcels (APN's 7242-021-002 and 7242-021-003) would be acquired through negotiated agreement or, upon determination of the governing body, eminent domain. The additional right of way currently consists of irrigated landscaping, sidewalks, and a portion of an existing parking lot. There will be no loss of parking since the parking lot would be restriped to provide the same number of parking spaces (26 spaces) that currently exist.	MND	06/08/2007

2007052058	CSU Chico Northern California Natural History Museum California State University, Chico Chico--Butte California State University, Chico (CSU Chico) proposes to construct the Northern California Natural History Museum (proposed project) on campus. The proposed project site is located on the northeast side of the CSU Chico campus, immediately adjacent to the City of Chico.	MND	06/08/2007
2007052059	Alta Hill Treatment Plant Clearwell Replacement Grass Valley, City of Grass Valley--Nevada Construction of two adjacent one million gallon welded steel water storage tanks (total two million gallons) to replace the existing 2.1 million gallon covered reservoir, providing chlorine contact time, fire and storage system. The proposed project also includes additional pumps and filters. The water storage tanks would be 27.5 feet high, located in existing storage basin.	MND	06/08/2007
2007052062	Richard Dunham Property- Preliminary Development Plan and Tentative Parcel Map Calistoga, City of Calistoga--Napa The project applicant, Daniel N. Montelli, is proposing a Preliminary Development Plan and Tentative Parcel Map for the subdivision of one parcel into two separate parcels and improvements to the existing private roadway. Proposed Parcel 1, located in the northern portion of the site, would be approx. 2.03 acres (88,426.8 sq. ft.) in size. Proposed Parcel 2, located in the southern portion of the site, would be approx. 2.03 acres (88,426.8 sq. ft.) in size. Once separated a single family residence will be established on Proposed Parcel 2. The future residence on Proposed Parcel 2 would require the approval of a conditional use permit and design review subject to the approval of the Planning Commission. Access for the proposed parcels would be from a private driveway via Foothill Blvd./ SR 128. The existing roadway warrants improvement. Minimal amounts of earth will be cut and filled to accommodate the widening of the roadway to achieve compliance with the City's standards.	MND	06/08/2007

	subsequent excavation will be done by excavator with 3' bucket or Parks backhoe.		
2007058105	Right of Entry Permits - Bureau of Reclamation Test Drilling Parks and Recreation, Department of --Fresno Issue right of entry permits to the U.S. Bureau of Reclamation (USBR) for the purpose of conducting geologic evaluation of potential dam sites through the drilling of up to 30 eight-inch diameter holes, to a depth of not more than 40 feet. All test sites will be fully restored after holes are refilled. USBR will be responsible for all environmental review and compliance requirements related to actual project activities.	NOE	
2007058106	Mill Creek Campground Hydrological Monitoring Parks and Recreation, Department of --Del Norte Three monitoring "wells" will be placed in-stream near the Mill Creek Campground at Del Norte Coast Redwoods State Park; one at a control site, upstream from the campground; one near the pump house and one at the bridge between the north and south ends of the campground. The purpose of the monitoring is to evaluate the effect, if any, of an existing extraction well near the pump house on surface flows in Mill Creek.	NOE	
2007058147	AAD Distribution and Dry Cleaning Services, Inc. Time Critical Removal Action Workplan Toxic Substances Control, Department of Vernon--Los Angeles Remedial Activities (RA) include excavation, transport, and off-site disposal of approximately 90 cubic yards of soil contaminated with tetrachloroethene (PCE). These chemicals originated from historical dry cleaning transport and recycling operations which began in 1986. There is one planned shallow soil excavation area approximately 35 feet (width) by 15 feet (length) by 5 feet (depth). Excavation and backfilling activities are expected to be performed within seven days. The remedial activities, performed under DTSC oversight, will be conducted within two months after formal approval of the Time Critical Removal Action Workplan (TCRAW).	NOE

2002071041	Central Los Angeles Area New Learning Center #1 Los Angeles Unified School District Los Angeles, City of--Los Angeles On Oct. 12, 2004, the LAUSD Board of Education certified the Final Environmental Impact Report (2004 FEIR, SCH # 2002071041) and approved the CLANLC #1 project in order to relieve overcrowding at nearby schools and provide seats for approx. 4,400 students. The 2004 FEIR included mitigation measures for the retention and reuse of the Cocoanut Grove as an auditorium subject to structural materials testing. During post-demolition evaluation by the District's structural engineer, construction managers, and staff, the District determined that it is technically infeasible to return and reuse all of the features that were described in the 2004 FEIR due to their age, and degraded and unstable condition. In view of	EIR	06/11/2007

	the potential change in plans for the retention and reuse of the Coconut Grove, LAUSD has prepared a Supplement to the 2004 FEIR to document these changes.		
2005072117	<p>Chevron Energy and Hydrogen Renewal Project Richmond, City of Richmond--Contra Costa</p> <p>The Chevron Richmond Refinery (the Refinery) is located at 841 Chevron Way in the City of Richmond. This Master Environmental Impact Report (EIR) analyzes the potential environmental impacts that could result from Chevron's proposed Energy and Hydrogen Renewal Project (Renewal Project) and describes other projects that Chevron may undertake at the Refinery in the future. The four main component projects considered in this EIR are the Hydrogen Plant Replacement, Power Plant Replacement, Catalytic Reformer Replacement, and Hydrogen Purity Improvements. The EIR also includes and analyzes a number of other, smaller projects, consisting of the replacement of ten existing tanks, installation of eight new tanks, addition of a new central control room and a new maintenance facility. The EIR also includes a post construction cumulative impacts analysis, as ordered by the court, of an already completed project to build two new LPG spheres at the refinery. Chevron proposes the Renewal Project to increase energy efficiency, to improve equipment and process reliability, and to reduce air emissions. The renewal project would improve the refinery's ability to process crude oil and other feed stocks from around the world and to direct more of current gasoline production capacity to the California market. While the renewal project would not increase the refinery's consumption of crude oil beyond currently permitted levels, it would improve the refinery's ability to process a more varied proportional mix of crude oil types than it currently processes. The renewal project would increase the portion/ percentage of the refinery's total gasoline production that can meet California specifications and be distributed to local markets by 300,000 gallons/ day or 6 percent more than current refinery production levels.</p> <p>The proposed project would require a Conditional Use Permit from the City of Richmond and Design Review. The project will also require a Bay Area Air Quality Management District (BAAQMD) Authority to Construct and Permit to Operate (ATC/PTO).</p>	EIR	06/25/2007
2005101115	<p>Estrella Subdivision Calexico, City of Calexico--Imperial</p> <p>The project proposes to construct 635 residential units, an elementary school to serve up to 770 students, park space, open areas/ pedestrian linkages, and streets/ parkways. Additionally, a 9 acre open retention basin is proposed along the western edge of the project. The open retention basin will be landscaped, and will include an easement for a major above ground Imperial Irrigation District (IID) power line.</p>	EIR	06/25/2007
2004021054	<p>The Tick Canyon/Park Place, Project No. TR060259/CUP 03-249 and ROAKT200500051 Los Angeles County Department of Regional Planning --Los Angeles</p> <p>The proposed project is a request for a Tentative Tract Map, an Oak Tree Permit, and a Conditional Use Permit for hillside management and density controlled development and for grading with off-site transport to create a 540-lot development on 4 existing parcels totaling 523.1 acres. The proposed development consists of 492 single-family residential lots (each 5,500 to 7,000</p>	FIN

2005092043	<p>square feet), 36 open space lots, 9 public facility lots, 1 water tank lot, 1 water pump station lot, and 1 park lot. Necessary grading is anticipated to be approximately 5,900,000 cubic yards. Limited off-site grading is planned immediately north of the subject property. A system of interior curvilinear streets will serve the residences, including roadway extensions of Shadow Pines Boulevard and Snow Drop Court with Shadow Pines Boulevard extending beyond the northern property boundary. Public water and sewer infrastructure serving the surrounding residential areas will be extended to provide service to the 492-unit development. Portions of Tick Canyon Creek running through the subject property will be channelized. All development with the exception of the neighborhood park will take place west of the Tick Canyon Wash.</p> <p>DEIR - Panhandle Annexation and Planned Unit Development Sacramento, City of Sacramento--Sacramento</p> <p>The project proposes the annexation of a 1,430-acre site (currently located in unincorporated Sacramento County) known as the "Panhandle" to the City. The project area consists of two portions: the Southern Portion, or the 835-acre area to the south of Del Paso Road, between Del Paso Road and I-80, Northgate Boulevard and Gateway Park Boulevard; and, the Northern Portion, or the 594.7-acre area to the north of Del Paso Road, between Del Paso Road and Elkhorn Boulevard. Upon annexation, the Northern Portion is proposed to be developed with a Planned Unit Development (PUD) with a variety of low-, medium-, and high-density residential uses (a total of 3,075 residential units), commercial uses, an elementary school, a middle/high school, and recreation and park spaces. Streets, water and sewer lines, and drainage facilities would be installed as part of the proposed development. No development entitlements are proposed for the Southern Portion.</p>	FIN	
2006091107	<p>General Plan Update 2006-2026 Dinuba, City of Dinuba--Tulare</p> <p>The Plan Update will provide direction for development in the City of Dinuba over the next 20 years. The proposed project is located in northwestern Tulare County. The geographic area covered by the project includes the City limits of Dinuba which is generally bounded by Avenue 406 to the south, Avenue 426 to the north, Road 92 to the east and Road 60 to the west, and the Urban Development Boundary, the 20-year development boundary which is generally bounded by Avenue 396 on the south, Road 60 to the west, Road 96 to the east, and Avenue 430 to the north. The project proposes a mix of residential, commercial and industrial land uses.</p>	FIN	
2006112050	<p>Pardee Drive, Motor Freight Terminal Oakland, Port of Oakland--Alameda</p> <p>The project sponsor, Swan Terminal LLC, proposes to construct a freight transfer terminal with 64 dock doors on the eight-acre site located on the eastern portion of the PCA Parking property at the northern terminus of Pardee Drive. The transfer terminal would receive regional packages from large-scale trucks and sort them to smaller truck for local deliveries. The distribution building would extend up to 20 feet 6 inches in height. The building would include a 19,800 sq. ft. dock facility with 64 doors and a 3,000 sq. ft. office. The office would include a dispatch center, conference room, driver's room, a sales office, and restrooms. A total of 238 parking spaces are proposed for the site, including 92 automobile parking</p>	FIN

2007052072	Veterans Memorial Park Master Plan American Canyon, City of American Canyon--Napa The proposed project is a Master Plan for a public park on a linear 14+/- acre vacant parcel located between Broadway St. and the Union Pacific Rail Road tracks south of American Canyon Rd.	MND	06/12/2007
2007051066	Revisions to the City of Redlands Downtown Specific Plan Redlands, City of Redlands--San Bernardino The proposed project involves revisions to the Downtown Specific Plan, including expansion of its boundaries, modification of its goals, and establishment of a development program that will provide a pedestrian-friendly, amenity-rich mixed use environment in both the immediate and long range future. The project proposes to extend the Specific Plan Area boundaries to generally include the area south of Redlands Blvd. between Texas Street and Church Street. The proposed project will identify four achievable goals to guide the future of Redlands, including (1) the promotion of economic vitality in Downtown Redlands by encouraging a mix of uses, (2) the creation of a pedestrian-oriented environment, (3) the maintenance and enhancement of a distinct Redlands character, and (4) the enhancement and extension of civic realm. Buildout of the revised Downtown Specific Plan, which is assumed to be in 2025, would result in approx. 944 residential units, 844,000 sq. ft. of retail uses, 108,000 sq. ft. of restaurants, 330,000 sq. ft. of office space, 17 screens (3,257 seats) of theatres/ cinemas, 100 rooms (20,000 sq. ft.) of hotel uses, and 133,000 sq. ft. of civic uses.	NOP	06/11/2007
2007051067	State Route 58 via Hinkley Widening and Realignment Project Caltrans #8 --San Bernardino The proposed project would involve widening and realignment of an approximately 10-mile segment of SR-58 from a two-lane conventional highway to a four-lane expressway/freeway west of the City of Barstow near the community of Hinkley. SR-58 is a four-lane expressway on either side of the proposed project, so this will be a gap closure project.	NOP	06/11/2007
2007051074	Cuyamaca Rancho State Park Equestrian Facilities Project Parks and Recreation, Department of --San Diego The proposed project would create new equestrian facilities near the community of Descanso in the southern portion of the park including a campground, day-use amenities, and staging area within Cuyamaca Rancho State Park. The proposed campground project will include approximately 20 individual campsites (including a host site), comfort station, horse corrals, round pens, arena, shade ramadas, picnic areas, hitching rails, landscape and shade tree plantings, dayuse equestrian staging, and associated amenities, utilities, and infrastructure. The proposed project would also create a day-use staging area near Paso Picacho, including space for approximately 8 truck and trailer rigs with pull-through parking and amenities. Some trees may need to be removed or thinned. New trails and/or trail connections to existing trails, including the California Riding and Hiking Trail, will be developed as part of the project. Depending on site conditions, restrooms would be on septic and/or a contained vault system, and access to water and power may need to be developed as part of the project.	NOP	07/11/2007

2007052075	Rispin Mansion, City of Capitola, Ca Capitola, City of Capitola--Santa Cruz Bed and Breakfast Hotel	EA	06/12/2007
2005111017	Valley Region High School #9 Los Angeles Unified School District Van Nuys--Los Angeles Construction and operation of a new high school to relieve an existing overcrowded high school. The new facility will consist of ~30 classrooms serving approximately 810 students grades 9 through 12. The proposed project involves ~85,000 sq. ft. of development, including, in addition to classrooms, a large gym, kitchen, lunch shelter, library, a career center, and administration offices.	EIR	06/27/2007
2007042055	Natural Terrain Renovations at 3000 Portola Road Woodside, City of Woodside--San Mateo The Project would consist of the replacement of an existing bridge across Alambique Creek and the dredging and restoration of a pond located on the property.	EIR	06/27/2007
2005091071	Gateway Village Area Plan Madera County Madera--Madera A development of a comprehensive planned conversion of 2,062-acre site to urban uses. The master planned community as proposed would consist of 1,457 acres of 5,836 low-density residential units, 132 acres of commercial and mixed use (including 742 residential units), 40 acres of highway service commercial uses, 19 acres of neighborhood commercial uses, 148 acres of open space, and 177 acres of right-of-way. The project site also includes existing light industrial uses (89 acres). In addition, the project includes improvements to some off-site area (approximately 2,940 acres) related to infrastructure improvements.	FIN	
2006052101	5555 Mariposa Residential Citrus Heights, City of Citrus Heights--Sacramento The project consists of a vacant site formerly used as a commercial recreation facility and a proposed reuse of the site for 46 "cluster style" single family homes. Applicant requests approval of a General Plan Amendment from Medium Density Residential to Low Density Residential, a Rezone from Commercial Recreation and RD-5 to a Special Planning Area Zone, a Tentative Subdivision Map to subdivide 7.09 acres into 46 lots for SFR plus one common lo, a Development Plan Review to allow construction of all 46 homes and a Tree Permit for removal and encroachments into certain trees on site.	MND	06/12/2007
2007021046	Herndon Avenue and Golden State Boulevard Reconstruction Process Fresno, City of Fresno--Fresno The project consists of the reconstruction of Herndon Avenue between Highway 99 and Weber Avenue. A majority of the proposed improvements are necessary to reduce traffic congestion, while meeting current and future traffic demands, and	MND	06/12/2007

	improving overall safety of the intersections at Golden State Boulevard and Union Pacific Railway. Other improvements include the addition of landscaped median islands to assist in improving the overall aesthetics of this intersection.		
2007051075	Manny de la Cerra Kern County Planning Department --Kern A change in zone classification from E-20 RS (Estate-20 Acres Residential Suburban) to E-10 RS (Estate-10 Acres Residential Suburban) and a Tentative Tract Map proposing to divide a 104.86 acre site into 8 parcels ranging from 10 to 16 acres with equestrian and drainage easements. the property is designated residential on the Bear Valley Springs Specific Plan. A conceptual Tract Map demonstrating how subdivision of the site would occur was submitted with the request and has been included in the early consultation package. Water supply and sewage disposal for the proposed development would be by Bear Valley Community Services District and by individual septic systems, respectively. Access would be by Mountain Way via San Juan Drive, which are designated as local and collector alignments respectively by the Circulation Element of the Bear Valley Springs Specific Plan.	MND	06/12/2007
2007051078	Seaside Park Master Plan 31st District Agricultural Association --Ventura The proposed project is an updated Master Plan for the Ventura County Fairgrounds that includes infrastructure upgrades, structure revitalization, reorganization of parking and landscaping improvements for Seaside Park. The project objective is to create a guiding plan for Seaside Park that promotes the year-round use and public enjoyment of the park property in ways that compliment, support and benefit the annual Ventura County Fair event and the cultural heritage it represents. The plan involves demolition and replacement of a number of facilities as well as enhancements to parking, landscaping, and Surfers Point Beach.	MND	06/12/2007
2007051079	Zenergy, Inc. Fresno County Fresno--Fresno Allow exploratory gas well and production facilities on a 37,026 sq. ft. portion of a 13.45 acre parcel of land in the AE-20 (Exclusive Agriculture, 20-acre minimum parcel size) District. If natural gas is discovered a 20,328 ft. pipeline will connect the production site with an existing pipeline located southeast of the subject parcel. The proposal is located on the north side of W. Shields Ave. between Interstate 5 and W. Oxford Ave. approx. fifteen miles west of the nearest city limits of the City of Firebaugh (SUP. DIST: 1) (APN: 009-030-13s, 009-051-80s, 78, 82, 83s, 84s, and 010-041-39s)	MND	06/12/2007
2007051080	Western Riverside County Weed Abatement Program Riverside County Planning Department --Riverside The Riverside County Fire Department, Hazardous Reduction Office, has conducted an abatement program in western Riverside County for the past two decades. The general location of the 2007 abatement program is the unincorporated area of Western Riverside County and depicted in Exhibit A of the EA and is hereinafter referred to as the Project Area boundaries. The program specifically deals with the removal of materials from properties that would	MND	06/12/2007

	constitute a fire, health, or safety hazard. These materials may consist of weeds, dry grass, dead and/or decaying plants, groves, orchards, brushwood, or other flammable vegetation. All abatement activities are directed by the Fire Department on a site specific basis with recognition of areas conserved for rare, threatened, and endangered and other environmentally sensitive habitats. Additionally, all abatement activities shall comply with the Fugitive Dust Rule as set forth in South Coast Air Quality Management District (SCAQMD) Rule 403.		
2007051081	Pala del Norte Grading San Diego County Department of Planning and Land Use --San Diego The proposed project is a grading permit and Habitat Loss Permit to construct one single family dwelling unit and associated driveway. Grading quantities will consist of movement of 35,000 cubic yards, balanced.	MND	06/12/2007
2007051082	Mike J. Kochergen Fresno County Fresno--Fresno Allow an existing solid waste (green and wood waste) processing facility to increase the existing permitted incoming material from 200 to 500 tons per day and increase the operational area to a 9.48 acre (2.08 acre increase) portion of a 16.76 acre parcel of land located in the M-3 (Heavy Industrial) District at the southwest corner on E. North and S. Maple Avenues.	MND	06/12/2007
2007052070	AT&T FPC Building, Rocklin (PMPB T20060497) Placer County Planning Department Rocklin--Placer Proposed to construct a 8,363 sq. ft. one-story building to accommodate up to 45-50 crew member daily check-in and check-out task, and a parking area for personal vehicle and company trucks.	MND	06/12/2007
2007052076	Zone Amendment 06-006 and Tract Map 1921- Lamb Shasta County Redding--Shasta The proposal is to subdivide the approx. 47 acres into 7 lots ranging from 3 acres to 10.2 acres in size with a designated remainder. The designated remainder contains a single family residence. In addition, the applicant has requested to change the zoning from General Industrial (M) combined with the Design Review (DR) and Mineral Resource Buffer (MRB) zone districts to the Commercial- Light Industrial (C-M) combined with the Design Review (DR) and Mineral Resource Buffer (MRB) zone districts over the southern portion of the subdivision. The zoning change would affect Lots 6 and 7 as described on the Tentative Map. The proposed development will be connected to the Centerville Community Services District and will be served by individual septic systems. Access to the proposed parcels will require construction of a new road. This cul-de-sac will cross a seasonal drainage.	MND	06/12/2007
2007052077	Parcel Map 07-006 Shasta County --Shasta The request is for a four parcel land division, resulting in an 8.3 acre parcel, a 3.4 acre parcel, an 18.1 acre parcel, and a 7.9 acre parcel.	MND	06/12/2007

2007052085	Zone Amendment 06-004 and Tract Map 1935 Shasta County --Shasta The proposed project is a Zone Amendment to change the existing Unclassified (U) zone district to a Limited Residential (R-L) zone district along with a request to approve a 30-lot subdivision consisting of parcels of five acres or more in size on approx. 170 acres for single-family residential development.	MND	06/12/2007
2007052086	Nelson Multifamily Development Fortuna, City of Fortuna--Humboldt Construction of 59 multifamily units on a 2.7 acre parcel, consisting of one and two bedroom units in 15 separate buildings, and 40% common open space. Existing conditions: vacant, level, common weeds & grasses, three small wetlands 93,638 sq. ft.) to be mitigated off-site.	MND	06/12/2007
2007052089	Clark Avenue Sewer Line Replacement Cloverdale, City of Cloverdale--Sonoma The City of Cloverdale proposes to replace portions of the existing City sewer system which had deteriorated and is need of improvement. The project entails the installation of approx. 2500 lineal ft. of 27-inch replacement sewer main lying within the Caltrans SR 101 right-of-way east and parallel to Clark Avenue and extending from approx. Elm St. to north of Alter St.	MND	06/12/2007
1991071003	Hoag Memorial Hospital Presbyterian Master Plan Amendment Newport Beach, City of Newport Beach--Orange The project proposes amendments to the Development Agreement, General Plan, and PC Text.	NOP	06/12/2007
2007051084	Autry National Center Improvement Project Los Angeles County Department of Parks and Recreation Los Angeles, City of--Los Angeles The project would renovate and modernize certain portions of the existing approximately 142,880 square-foot Museum; expand the facility by approximately 129,000 square-feet in two phases and provide for the renovation of exterior landscape areas, enhanced vehicle and pedestrian circulation, and parking amenities over two development phases.	NOP	06/12/2007
2007052068	Highlands Estates San Mateo County San Mateo--San Mateo The proposed project would subdivide an approximately 99-acre parcel, into nine lots. Eight lots would be developed with single-family homes at a density of 2.46 units per acre and one approximately 84-acre lot would be designated for open space. As a result of the subdivision, one approximately 12-acre designated remainder parcel would remain which would not be used for the purposes of sale, lease, or financing. No development is proposed for this parcel as part of this unit proposed project. As proposed, lots 1 through 7 would range in size from 0.21 acres to 0.25 acres. Lot 8 would be larger (1.64 acres) due to the existing slope and vegetative communities present on that portion of the site. The homes would be multi-level structures that would follow the existing terrain of the parcel and would range in size from approximately 2,800 square feet to approximately 3,200 square feet. 2007052101	Tentative Map Application No. 2007-01- Ben Hardister Stanislaus County Oakdale--Stanislaus Request to create 20 five acre lots and a single 25 acre remainder from two lots. Project to be served by private wells and septic systems with vehicle access provided via new private roads leading to Frymire Road. Each new lot would be eligible to construct one single family residence and appurtenant structures.	CON	05/29/2007
2005124003	Military Family Housing Privatization, Travis AFB, California U.S. Air Force Fairfield--Solano The proposed action is to demolish 1,651 housing units, construct 403 units, and renovate recently constructed units. The housing units would be conveyed to a private contractor; the Air Force would retain ownership of the land.	EA	06/13/2007
1997122007	Mountain Springs Community Plan (Revised) Supplemental EIR Tuolumne County Sonora--Tuolumne (1) Resolution of Agricultural Preserve Alteration 04AP-01 to disestablish the 926+/- acre Agricultural Preserve #46 and alterations of Agricultural Preserve #227, #53, and #139; and (2) General Plan Amendment 03GPA-16 to add a new Chapter 18 for the Mountain Springs Community Plan, and amend the land use designations for the subject parcels from AG (Agricultural), ER (Estate Residential), MU (Mixed Use) and LDR (Low Density Residential) to a combination of residential, commercial, recreation, open space and public land use designations; and (3) Zone Change 03RZ-50 to rezone the project site to be consistent with the land use designations; and (4) Development Agreement 03DA-11 to authorize the development over a 25-year period and establish parameters for the development; and (5) Tentative Subdivision Map 03TSM-155 to implement Phase I of the development, dividing the 1063.2+/- acre project site in 266 parcels.	EIR	06/29/2007
2005061169	Gosford Village Shopping Center File No. GPA/ZC02.0030 Bakersfield, City of Bakersfield--Kern The project includes the development of a commercial retail center, which includes a maximum of 700,000 square feet on 73.53 acres. The project includes the development of 23 pads for tenants that include various major retail, fast food, and commercial retail uses, as well as a gas station. The project is anticipated to be anchored by seven major retail tenants, including Sam's Club, Kohl's Department Store, and a Wal-Mart Supercenter. The four remaining major retail tenants are not known at this time. The seven major retail tenants will encompass 582,913 sq. ft. Eleven commercial retail pads are proposed to encompass 102,643 sq. ft. on the site. The tenants of three of the commercial retail pads include Petco., Walgreens, and Starbucks, Radio Shack and Panda Express. The tenants of the remaining eight commercial retail pads are unknown at this time. The project also includes four pads encompassing 13,000 sq. ft. for fast food restaurants and the tenants of these restaurant pads are also not known at this time. Lastly, the proposed project includes one 16-stall membership-Sam's Club gas station located adjacent to Harris Road on the southern portion of the project site.	EIR	07/02/2007

2006051120	<p>Santa Fe Subdivision Calexico, City of Calexico--Imperial</p> <p>The proposed project includes a Specific Plan, General Plan Amendment (GPA), Pre-Zoning, and Annexation of a 235 acre residential and commercial development into the City of Calexico. In the Imperial County General Plan, the proposed project site is designated Urban Area and zoned Agriculture within Urban Overlay (A-2-U). Under the proposed GPA, the project would be designated residential and highway commercial (CH). Specifically, the project is proposing 668 single-family homes (minimum of 6,000 square feet), 25 acres of condominium units, and 14.69 acres of commercial development. Additionally, the proposed project will construct a 14.68-acre retention basin on the northwest corner of the project site. This retention basin will be landscaped and serve as parkland for the development. The proposed project will also set aside 13.7 acres for an elementary school for the Calexico Unified School District. Per the Imperial Irrigation District, a substation is required to be built in the project vicinity to provide electricity to the development. Negotiations are ongoing regarding whether the substation will be built on the proposed project site or an adjacent project site.</p>	EIR	06/28/2007
2006071033	<p>Red Rock Dairy Merced County Merced--Merced</p> <p>The project sponsor has applied for an Administrative Permit from Merced County to construct and operate a dairy to house a total of 5,636 animals over two phases. The proposed dairy project would be constructed on approx. 130 acres. Additional parcels in the vicinity would be used for the application of manure process water and the growth of forage crops.</p>	EIR	06/28/2007
2006101049	<p>Marian Medical Center Hospital Expansion Santa Maria, City of Santa Maria--Santa Barbara</p> <p>The proposed project would allow the construction of a 216,000 square foot hospital expansion on a 10 acre site. The hospital expansion would be four stories and would accommodate relocation of 108 medical surgical beds, a new emergency room, a new lobby, a new food service area, a new pharmacy, a 14-bed neonatal unit, and a 32-bed obstetric (OB) unit with 14 labor-delivery and recovery rooms, for a total of 188 beds, an increase from the existing 132 bed hospital. The floor area of the existing hospital and the new hospital expansion would total 393,000 square feet. The project also involves the expansion and relocation of the Emergency Department, Pharmacy and Dietary Services to the new facility, and an expanded entry, lobby and a new chapel, as well as relocation of the existing helipad.</p>	EIR	06/28/2007
2005122088	<p>Mercy San Juan Medical Center Use Permit and Zoning Agreement Amendment Sacramento County Citrus Heights--Sacramento</p> <p>The project consists of the following entitlement requests from Sacramento County:</p> <p>1. A Use Permit to allow the expansion of an existing hospital facility on 25.78 +/- acres in the BP zone. The expansion includes the addition of a 6-story, 124,000 +/- square-foot, 110-bed patient care building; a 5-story, 471-space parking garage and 40,000 +/- square-foot medical office building; and a 3-story, 259-space parking garage.</p>	FIN

2007031005	Coal Oil Point Reserve Habitat Management Plan University of California, Santa Barbara Goleta--Santa Barbara UCSB's Coal Oil Point Reserve, located on West and North Campuses, is proposing to restore approximately 50 acres of exotic grasslands into the original native coastal scrub and grassland habitats. Restoration includes removal of exotic plant species and re-vegetation with native species. Vegetation removal and planting would be done by hand. Exotic grassland will be replaced with native grassland. A combination of mowing and solarization by black plastic will be used to remove the non-native grasses and then native seedlings will be planted by hand. Sprout and young eucalyptus trees will be removed and the larger trees will be pruned up to 4 meters from the ground to encourage growth of native grasses. The restoration will occur in phases over approximately 10 years.	FIN	
2007051090	Sultana Hulling and Shelling Merced County Merced--Merced Sultana Hulling and Shelling, LLC is proposing to construct and operate an almond hulling and shelling facility which will contain five operational buildings, stormwater retention basin, and materials storage pads located on 40 acres. The facility will be staffed by 18 employees during the processing season.	MND	06/13/2007
2007051092	Plaza de Murrieta Specific Plan (SPO 006-2113), Tentative Parcel Map 35254 and Tentative Tract Map 35255 Murrieta, City of Murrieta--Riverside The Plaza de Murrieta Specific Plan is designated as a comprehensively planned community that provides housing, recreational and commercial/ retail uses within five Planning Areas. Planning Area 1 proposes a total of up to 98 detached single family units on approx. 17.7 acres. Planning Parcel 2 proposes up to 145 townhomes on approx. 14.03 acres. Planning Area 3 proposes up to 68 townhomes on 3.98 acres and up to 19 live/ work units on 2.09 acres. The total number of residential units proposed is 330 for a residential project density of 6.3 dwelling units per acre. Planning Area 4 is approx 7.66 acres and is designated Village Commercial. It is anticipated that approx. 84,000 sq. ft. of commercial/ retail uses will be developed within this Planning Area. Planning Area 5 consists of approx. 4.08 acres of natural and man made open space areas.	MND	06/13/2007

2007051094	Remediation of VOC's in Groundwater by Enhanced in-Situ Bioremediation with Bioaugmentation, Former C-6 Facility, Los Angeles, California Regional Water Quality Control Board, Region 4 (Los Angeles) Los Angeles, City of, Torrance--Los Angeles Under the oversight of the Regional Board, Boeing is investigating soil and groundwater volatile organic compound (VOC) impacts at the 170-acre Former C-6 facility. Boeing proposes to implement enhanced In-situ bioremediation (biorecirculation and/or slug injections) with bioaugmentation technologies to remediate selected sources areas. These technologies involve addition of selected amendments (amendments specified in the Site-Specific WDR Permit package, and in some areas using a non-pathogenic, naturally derived (i.e., not genetically engineered), chlorinated ethane degrading consortium, referred to as SDC-9 or KB-1 containing a Dehalococcoides ethenogenes culture) to create a reducing condition in groundwater to facilitate reductive dechlorination of chlorinated volatile organic compounds.	MND	06/13/2007
2007052097	Warrington Parcel Map Trinity County --Trinity Tentative Parcel Map to create four parcels from 1.22 acres. Three of the four parcels have existing residential structures. The corner lot is vacant land.	MND	06/13/2007
2007052099	Verizon Wireless Horseshoe Substation (PMPB T20060464) Placer County Planning Department --Placer The applicant proposes to construct a wireless communications facility consisting of a 39 foot tall cellular monopole with twelve antennas, and a 12 foot by 20 foot equipment shelter located within an 850 sq. ft. leased area. Antennas would be mounted at a center height of 39 ft. above ground level and will extend to an overall height of 43 feet.	MND	06/13/2007
2004062004	650 San Pedro Road Master Plan, Development Plan, Subdivision and Rezoning Marin County San Rafael--Marin The project sponsor is seeking to rezone the property from R-E:B-3 (Residential Estates District, 20,000 square foot minimum lot size) to a Residential Single-family Planned zoning district that would comply with the governing SF4 (Single-family, 1 to 2 units per acre maximum density) General Plan Designation for the property. The Master Plan, Development Plan, Subdivision and Rezoning application is for the subdivision and development of a 14.8-acre property into 12 separate residential lots and the development of 12 single-family residences.	NOP	06/13/2007
2007051086	Las Flores Project El Centro, City of El Centro--Imperial The proposed project consists of the development of 42+ acres of agricultural land into approximately 150 low-density, single-family residential lots, a park area, and a storm retention area. The lot size of the single-family homes to be built would average 7,200 square feet. Minimum lot size would be 6,000 square feet. The project proposes: a pre-zone County AZU to City R-1, low density residential; annexation of the area into the City of El Centro, a tentative subdivision map to allow the development of a residential subdivision consisting of approximately 150 single-family dwelling units, and approval by LAFCO for the annexation of the site to the City of El Centro. 2007051088	Great Valley Ethanol Project EIR Hanford, City of Hanford--Kings The project involves the construction of an ethanol production facility proposed to produce approximately 63 million gallons per year of denatured ethanol. The proposed project is located on an approximately 111.75 acre parcel located in the Kings Industrial Park in the southern portion of the City of Hanford. The proposed facility would produce 63 million gallons per year of denatured ethanol that will be used as a gasoline blend stock. A co-product of ethanol production will be the production of livestock feed, wet distillers grains, of high nutrition value that will be sold to area dairies and cattle producers.	NOP	06/13/2007
2007052094	Concord Community Reuse Project Concord, City of Concord--Contra Costa The Concord Community Reuse project involves creating a plan that will guide the reuse of the approximately 5,028-acre site that is known as the "Inland Area" of the Naval Weapons Station Seal Beach Detachment, Concord, CA. The planning is in its initial stages and involves a process during which a mix and range of possible future uses will be assembled into a series of alternatives. Broadly, all alternatives will look for a balance of open space, recreation, residential, commercial retail, research and development, and other public benefit land uses. The plan alternatives will also address infrastructure requirements and service requirements. In addition to identifying land use and other physical components, the plan alternatives will incorporate economic and financial considerations. All of the initial planning will be at a concept level, anticipating refinements once the property is conveyed from Navy ownership.	NOP	06/13/2007
2007051085	City of Parlier - Water Well No. 9 Construction Parlier, City of Parlier--Fresno Construct Water Well No. 9, including a test well; pump, motor, piping; sound suppression structure; block wall; 1600 feet of PVC water main.	Neg	06/13/2007
2007051087	Cajon Well Transmission Main Replacement Project San Bernardino, City of San Bernardino--San Bernardino The City of San Bernardino Municipal Water Department (CSBMWD, MWD or Department) proposes to install a new water pipeline connection between existing wells and the City water distribution system in Cajon Creek. The proposed project includes the replacement of approximately 2,000 lineal feet of water transmission pipeline. The existing 12-inch pipeline connects the Cajon Canyon well and the Vincent well, which are located within the middle portion of Cajon Creek. The new pipeline will be installed by opening a trench along the existing pipeline alignment, either removing the existing pipeline or leaving it in place, installing the new 12-inch water pipeline, and then closing the trench, including compacting the soil cover to meet compaction requirements needed to protect the pipeline within the creek channel. 2007051091	Amended Reclamation Plan No. 2007-03 / Caltrans (Independence Pit) Inyo County Planning Department --Inyo Caltrans is proposing to extend time period of use from 5 years to 10 years; increase material mining from 550,000 cubic yards to 1.2 million cubic yards, and allow placement of a portable asphalt plant.	Neg	06/13/2007
2007051093	Doelling Minor Use Permit/Coastal Development Permit San Luis Obispo County --San Luis Obispo Two-story, 5,586-square foot residence and attached garage, resulting in the disturbance of approximately 8,160 square feet of a 10,853-square foot parcel. Additional disturbance of 22,000 square feet would occur offsite within existing Open Space Easement limited to the removal of dead oak trees and preparation of this area for oak woodland restoration.	Neg	06/13/2007
2007052092	Industrial Park Well/Water Treatment Plant (WTP) and River Oaks Well / Carillion WTP and Related H2O Storage/Treatment Facilities Galt, City of Galt--Sacramento In 2002, the City of Galt prepared an IS and MND for the construction of the Industrial Park Water Storage Reservoir and Booster Pump Station Project located at 50 Live Oak Avenue (adjacent to the Union Pacific Railroad Tracks). This document covered construction of the Industrial Park well, water storage reservoirs, booster pump station, a backwash recovery tank, control building, and water treatment plant -- all of which have since been constructed. In 2002, the City also approved a CEQA Exemption and constructed the River Oaks well at 849 Carillion Boulevard.	Neg	06/13/2007
2007052093	Sanborn Slough 3-D Seismic Safety Colusa County Colusa--Colusa The general technique of the geophysical exploration proposed is referred to as the seismic reflection method. This method sends acoustic energy into the earth, which is reflected from subsurface layers and recorded at the surface with an instrument used to transform seismic energy into electrical impulses (geophones or receivers). A "source" line is a series of shot holes (also called shot holes or source points) in a line. For this project, the applicant proposes generating seismic waves with the detonation of 2.5-pound explosive charges, one at a time, in 15-foot-deep shot holes below the ground. A "receiver" line is a series of geophones or receivers in a line on the surface that record the reflected seismic waves. Computers process the collected data to create an image of the subsurface geology.	Neg	06/13/2007

2007059031	Amendment of Lease; Slawson Exploration Company California State Lands Commission Fairfield--Solano Construction, use and maintenance of a three-inch diameter natural gas gathering pipeline within a six-inch pipeline casing, to be attached to an existing bridge.	NOD	
2007058127	Westbound Shoulder Caltrans #2 --Lassen This project, located in Lassen County, will add a westbound shoulder along a stretch of Highway 36, near Susanville, CA. The project begins three tenths of a mile east of Eagle Lake Road (PM 22.4) to Quarry Street (PM 24.4). The project will include the following work related tasks: widen roadway shoulders (4 to 8 feet depending on location); realign Prattville Road connection (adding a left turn lane); constructing a chain installation area; laying back cut slopes, upgrading drainage facilities; relocation existing 14" water line; and cutting any trees after September 15, but before March 15 (per MBTA) criteria).	NOE	
2007058128	Kawliga Road Site Improvement Caltrans #2 --Shasta East of Bella Vista on SR 299 Caltrans proposes to 1) increase site distance west of Kawliga Road by cutting back the existing slope and 2) correct driveway approach profiles at LaHonda Road and Genuine Johnson Drive. Some trees will be removed; and a water line and overhead utilities will be relocated. Some new right-of-way will be acquired. No permits are needed. This project incorporates work that could not be funded during previous 02-38480.	NOE	
2007058129	Resize or Replace Culverts Caltrans #2 --Lassen The California Department of Transportation proposes to resize or replace, and/or extend 21 culverts on SR 36 East of Westwood in Lassen County. The purpose of the project is to enhance motorist safety and increase maintenance efficiency. At 10 of the 21 locations, the culverts will be extended to the Clear Recovery Zone (CRZ) limits. The remaining culverts will require flared end section treatments. There are 6 culverts to be replaced as they were determined to be in poor condition and three 12-inch diameter culverts will be replaced with 24 inch culverts to meet current maintenance standards. Five box culverts will be replaced with equivalent sized arch pipes. Unimproved 8-foot shoulders will be constructed to a length of 30 feet on either side of the culverts and fill slopes will extend to the inlets and outlets. Cinders, brush and other debris will be cleaned out of the existing ditches as necessary to improve drainage. The project area covers 5.95 acres at the 21 culverts and three staging areas. A total of 1.51 acres will be directly and permanently impacted with cut and fill. The remaining 4.44 acres may experience temporary disturbance activity that will be caused by equipment movement and similar disruption while accessing the cut and fill, widening over the replaced culverts, and accessing culverts and ditches to be cleared. Natural vegetation in the project vicinity includes wetland meadows Sheldon's sedge, native grasses.	NOE

2007058130	Order No. R2-2007-0037 for Rescission of Order No. 00-029, PDES No. CA0038059, Waste Discharge Requirements for Aquifer Reclamation/Salinity Barrier Wells and D Regional Water Quality Control Board, Region 2 (San Francisco Bay), Oakland Fremont, Newark--Alameda Adoption of an Order for Rescission of Order No. 00-029, NPDES No. CA0038059.	NOE	
2007058131	Metal Beam Guardrail (MBGR) Installation Caltrans #3 Grass Valley--Nevada Caltrans proposes to install 460 feet of Metal Beam Guard Rail (MBGR) along the eastbound shoulder of SR-20 (PM 8.2/8.4). The proposed MBGR will tie into the existing MBGR at both ends of the project limits. In addition to the MBGR, shoulder backing will be paid.	NOE	
2007058132	Petition for Change in Point of Diversion State Water Resources Control Board, Division of Water Rights --Los Angeles, San Bernardino Southern California Water Company (SCWC) filed a Petition for Change with the State Water Resources Control Board (State Water Board) Division of Water Rights (Division), pursuant to the provisions of Water Code section 1700. The petition requests authorization to add an additional point of diversion to Permit 20827 (Application 30159).	NOE	
2007058133	Mill Creek Bank Repair Fish & Game #3 Mill Valley--Marin The applicant proposes to construct a rock rip rap slope with a 3-foot embedment, tying into the adjoining headwall on an existing concrete box culvert for Mill Creek, and then running parallel to Cornwall Street to the existing 24-inch concrete box culvert. The rock slope will consist of 1-2 ton rock rip rap at the base and 1/2 ton rock on the top of the 1:5:1 slope. The slope will be covered with soil and erosion control matting and planted with native species of shrubs at the top and creek dogwood at the toe of the slope. The Department of Fish and Game is issuing a Streambed Alteration Agreement Number 1600-2007-0150-3 pursuant to Fish and Game Code Section 1602.	NOE	
2007058134	Aquatic Herbicide Treatment and Removal of Water Primrose (Year 2) Fish & Game #3 Santa Rosa, Sebastopol--Sonoma Removal of exotic invading plant with herbicide and mechanical means to reduce mosquito production, reduce threat of West Nile virus, conserve native habitats.	NOE	
2007058135	Butte Water District Main Canal Automation Butte Water District --Butte The project consists of the replacement of the Thresher gate structure which is old and difficult to operate. The new gate structure will provide operational flexibility through automation. It will reduce spill and, therefore, improve water conservation as well as improve water quality and water temperature of the Feather River.	NOE
