

Jerry Brown, Governor

STATE CLEARINGHOUSE

**SUMMARY
OF
POSTINGS**

May 1 – 15, 2013

STATE CLEARINGHOUSE SUMMARY OF POSTINGS

The State Clearinghouse distributes draft environmental documents to state agencies for review and comment, pursuant to the California Environmental Quality Act (CEQA). The State Clearinghouse also acts as the State Single Point of Contact for the review of federal grant applications and federal development projects. This Summary of Postings summarizes the environmental documents and federal grant applications received by the Clearinghouse during the period **May 1 – 15, 2013**.

CLEARINGHOUSE CONTACTS

Please contact The State Clearinghouse if you have any questions regarding processing of environmental documents or grant applications. We may be reached at:

Telephone: (916) 445-0613
Fax: (916) 323-3018
e-mail: state.clearinghouse@opr.ca.gov
website: www.opr.ca.gov

Questions regarding federal grant notices should be directed to **Sheila Brown**.

Questions regarding processing of environmental documents should be directed to:

Scott Morgan
Director

CLEARINGHOUSE MAILING ADDRESS

The mailing address is:

USPS:

State Clearinghouse
P.O. Box 3044
Sacramento, CA 95812-3044

OR

USPS/Courier Service / Hand Deliveries:

State Clearinghouse
1400 Tenth Street, Room 113
Sacramento, CA 95814

INFORMATION AVAILABLE ON-LINE

The CEQA Statute and Guidelines are available through the Natural Resources Agency's website at:

<http://ceres.ca.gov/ceqa/>.

The State Clearinghouse Handbook, which contains all of our environmental document and grant processing procedures and forms, is available on our website.

Environmental Document Filings with the State Clearinghouse 1999-2012

All CEQA documents filed with the State Clearinghouse are available for viewing on the internet at www.ceqanet.ca.gov.

<u>Documents Received on Wednesday, May 01, 2013</u>			
2013052002	Sharpe Permit Relinquishment Project Defense Logistics Agency Lathrop--San Joaquin The purpose of the Sharpe Permit Relinquishment Project is to return the land and improvements at the Sharpe Site to the Army. This is necessitated by DLA's scheduled move consolidating its operations from the Sharpe Site to its existing facilities at its nearby Tracy Site (Figure 1-1). The planned move also includes consolidating the excess inactive stock to DLA Distribution Barstow or other potential DLA facilities. Consolidation of the operations into one facility increases efficiency of DLA operations and reduces operational costs. The consolidation would not substantially alter non-DLA operations, and the federal government's ability to continue restoration efforts identified for the Sharpe Site would be maintained following the proposed permit relinquishment.	EA	05/31/2013
2012112049	Ygnacio Valley High School Sports Field Improvements Project Mount Diablo Unified School District Concord--Contra Costa The proposed project would involve the following improvements to the high school's sports field facility: 1) installation of permanent field lighting system and exit lighting along the path of arrival and departure from the field; 2) a two-system public address (PA) system for the visitor side and home side of the sports field; 3) a sound wall behind the visitor side bleacher structure; 4) a future stand-alone press box structure centered behind the home side bleachers; and 5) a concession stand/restroom building and future ticket booth.	EIR	06/14/2013
2013052001	McCloud Lower Elk Springhouse Improvement Project McCloud Community Services District --Siskiyou The project consists of replacement and improvements to the Lower Elk Springhouse for the town of McCloud, including the surge tank, distribution box, pipelines, and springhouse foundation. The project is intended to serve the existing and planned needs of the McCloud Community Services District for municipal and fire protection needs. The project is surrounded by privately owned and US Forest Service (USFS) owned and managed timber production lands, which are zoned TPZ (Timberland Production Zone) by the County of Siskiyou. The project and surrounding area are located in the unincorporated area of the county.	MND	05/30/2013
2002101020	High School 5 Irvine, City of Irvine--Orange IUSD proposes to construct and operate a comprehensive high school 2,600 students with various recreational amenities such as main and practice gymnasiums, 2,940-seat stadium with nighttime lighting and PA system, 720-seat performing arts center, aquatics complex, hard courts, tennis courts, and softball/baseball fields, equipped with nighttime lighting and PA system. Two parking lots totaling 752 spaces and a stormwater basin would also be provided.	NOP	05/30/2013

2013051003	Mobility Element Long Beach, City of Long Beach--Los Angeles	MND	05/31/2013
------------	--	------------	------------

The Mobility Element focuses on the circulation component of the City of Long Beach General Plan and will replace the adopted 1991 Transportation Element. Compared to the current Transportation Element, the proposed update places more emphasis on pedestrian, bicycling and public transit options, and transformative infrastructure projects to spur community revitalization. The Mobility Element update is being prepared in compliance with the 2008 Complete Streets Act (Assembly Bill 1358), which mandates that circulation elements to include concepts for a balanced, multimodal transportation network that meets the needs of all users of streets and highways including motorists, pedestrians, bicyclists, children, persons with disabilities, seniors, movers of commercial goods and users of public transportation.

2013051005	Old Garden Creek San Luis Obispo, City of San Luis Obispo--San Luis Obispo	MND	05/31/2013
------------	--	------------	------------

Removal of accumulated sediment and creek bank stabilization.

2013051007	<p>Bull Creek Road Retaining Wall Caltrans #6 --Mariposa</p> <p>Caltrans has proposed to restore the footing of a retaining wall that supports a section of SR 140 at post mile 33.8. The footing of the wall has been scoured by an adjacent creek to a depth of up to seven feet and for a length of approximately 250 feet. The gap would be filled with concrete followed by the placement of rock protection to prevent future scour.</p>	MND	05/31/2013
2013051010	<p>Sespe Creek Levee Improvements Project Ventura County Watershed Protection District Fillmore--Ventura</p> <p>The Sespe Creek Levee Improvements Project includes structural improvements along a section of the existing Sespe Creek Levee, on the east side of Sespe Creek between Old Telegraph Road and SR 126 near the City of Fillmore. The project would raise the existing levee height by one to six feet along a 1,543-foot-long section, and add a 321-foot-long retaining wall along the landward side of a portion of the levee, where existing residences are located. The project would also correct existing design deficiencies identified by the U.S. Army Corps of Engineers, while maintaining recreational opportunities along the Sespe Creek Bike Trail. The project would facilitate certification of the existing levee structure by the Federal Emergency Management Agency, and remove existing development in Fillmore from flood hazard areas.</p>	MND	05/31/2013
2013052004	<p>Hillsborough Fire Hazard Mitigation and Fuel Reduction Program Hillsborough, City of Hillsborough--San Mateo</p> <p>The proposed project consists of fuel reduction and vegetation management activities on eight open space areas owned by the Town through the use of hand tool, mechanized equipment, and as needed herbicide use. The proposed project would reduce the fire hazard potential to residents and structures in the Town. Activities would occur in two types of areas within the open space areas: defensible space management zones are defined as areas in the Town-owned open space areas that are within 100 feet of residential structure or building. High-priority fire management areas are outside the defensible space management zones, identified based upon vegetation characteristics, fuel loads, fire ladders, grade, sun exposure, wind patterns and other considerations. The proposed project would include vegetation clearing (treatment) activities specific for defensible space management zones or high-priority fire management areas. However, many treatment activities in both areas would share many similar characteristics.</p>	MND	05/31/2013
2013052006	<p>Franklin Canyon/Fernandez Ranch Project Hercules, City of Hercules--Contra Costa</p> <p>The Muir Heritage Land Trust proposes to integrate its 483-acre Franklin Canyon property with its adjacent 702-acre Fernandez Ranch property. The project purpose is to open the site for public use and enjoyment by providing multi-use trails, and to re-introduce grazing to the Franklin Canyon site to improve rangeland health and overall site habitat quality. The trails component includes creating a series of trails which extend established Fernandez Ranch trails onto the Franklin Canyon parcel, trail on Franklin Canyon, and add one new Fernandez Ranch trail. The grazing component includes preparing Franklin Canyon for grazing by repairing or replacing existing fencing, installing new fencing, and creating</p>	MND	06/03/2013

2002082057	Fiddymment Ranch Specific Plan Amendment 3 Roseville, City of Roseville--Placer The project would amend the West Roseville Specific Plan to accommodate 1,661 additional residential units, bringing the total unit count in the Fiddymment Ranch area to 5,869. Project would add medium and high density residential and community commercial to the project area and adjust parcel sizes throughout.	NOP	05/31/2013
2013051009	San Joaquin Apartments and Precinct Improvements University of California, Santa Barbara Goleta--Santa Barbara UCSB has proposed to construct the San Joaquin Apartments project to provide 1,000 bed spaces for undergraduate students. The project would also provide 24 residential units that would be occupied by resident assistants, resident directors, UCSB faculty and visitors to the UCSB campus. The San Joaquin Apartments project site is located on the UCSB Storke Campus at the northeast corner of the intersection of El Colegio Road and Storke Road. The project site is approximately 4,000 feet west of the UCSB Main Campus, south of and adjacent to residences located in the City of Goleta, and north of and adjacent to the unincorporated community of Isla Vista and the Isla Elementary School.	NOP	05/31/2013
2013052005	MV 2040 General Plan and 2009-2014 Housing Element Mill Valley, City of --Marin The City of Mill Valley is underaking an update of its General Plan, including a Housing Element for the 2009-2013 cycle. The planning horizon for the updated General Plan is 2040. A key difference between the 1989 and 2040 plans is that the latter document will have a smaller Planning Area that consists of the existing Mill Valley city limits and the portions of the Sphere of Influence that overlap with unincorporated areas served by the Sewerage Agencies of Southern Marin wastewater treatment plant.	NOP	05/31/2013
2013042079	PA-1300060 (TA) San Joaquin County --San Joaquin A Development Title Text Amendment application to amend four sections of the Development Title. The first section is to amend Section 9-115.575 to include Liquefied Natural Gas Truck Fueling Stations as a new subcategory use of the Truck Sales and Services use type. The second section is to amend Table 9-505.2 to allow for Liquefied Natural Gas Truck Fueling Stations subject to a site Approval application in the I-W (Warehouse), I-T (Truck Terminal), I-L (Limited Industrial), and I-G (General Industrial) zones. The third section is to amend Section 9-505.5 to add a special use regulation that the Liquefied Natural Gas Truck Fueling Stations can only be permitted within one-half mile of a highway or freeway subject to a Site Approval application. The fourth section is to amend Table 9-1015.3(b) to include a parking space requirement of 1 space per 1000 sf of building and .67 spaces per employee for the proposed Truck Sales and Services - Liquefied Natural Gas Truck Fueling Stations use type. 2013051004	Elephant Trunk Slide Permanent Restoration Caltrans #5 --San Luis Obispo On Highway 1 at the northern limits of San Luis Obispo County, Caltrans is proposing to construct a 1000-foot-long retaining wall down slope of the roadway in order to stabilize a large, recurring slide. The restored roadway would be straightened slightly and consist of a 12-foot lane in each direction with 4-foot paved shoulders. The existing drainage system would also be modified and repaired. The wall would be topped by a steel railing (or other appropriate see-through railing) as a safety feature.	Neg	05/31/2013
2013051008	Proposed Remedial Action Plan for Groundwater - Operable Unit 2 Toxic Substances Control, Department of Los Angeles, City of--Los Angeles This project involves approval of a RAP by the DTSC for Carson-Gore, pursuant to Health and Safety Code Chapter 6.8. The proposed RAP project is part of OU2 presented to DTSC in several regulatory documents, and targets groundwater quality, specifically in the A1- and A-zone groundwater of Areas B1 and B2 of the Site. The proposed cleanup at OU2 includes treatment of contaminants present at these two perched groundwater zones (A1- and A-zone), in order to meet groundwater quality objectives.	Neg	05/31/2013
2013052003	Repair of Outlet Pipe and Gate Valve on Lake Madrone Dam Lake Madrone Water District --Butte The project will consists of the repair & relining of the outlet pipe extending through Lake Madrone Dam & refitting the gate & valve providing control of water quantities passing through the pipe. The work will include the staging & location of material to repair the pipe at the upstream (within the lake bottom) by inserting pipe within the existing pipe and at the downstream end of the outlet pipe utilizing a new valve. The areas of work upon the outlet pipe are all manmade structures and areas. Staging of equipment to perform the work may involve the temporary installation of earth or rock platforms at the inlet of the pipe and a coffer dam around the inlet made of sediment and sand bagging material from the lake sediment deposits with waterproof sheeting. At the outlet area, which is one the manmade slope of the dam, the PVC or other manmade pipe which is fitted through the current cement outlet pipe will be extended from the face of the dam and a new gate valve installed. The gate valve will be protected from damage with a concrete or steel frame.	Neg	05/31/2013
2003021141	General Plan Amendment/Zone Change (PA 01-114) (aka: The Ranch Plan) Orange County --Orange CDFW is intending to execute a Lake or Streambed Alteration Agreement pursuant to Section 1602 of the Fish and Game Code (1600-2006-0438-0006-R5) to the project applicant, Rancho Mission Viejo. The project proposes to permanently impact 8.41 acres of streambed, including 4.26 acres of vegetated riparian habitat (southern willow scrub, mulefat scrub, southern sycamore riparian woodland, and alkali meadow) 3.75 acres of oak woodland, and 0.40 acres unvegetated streambed. Impacts are due to new structures and related infrastructures for Subareas 2.1, 2.2, 2.3, and 2.4.	NOD

The project proposes to permanently impact 8.41 acres of streambed, including 4, 26 acres of vegetated riparian habitat (southern willow scrub, mulefat scrub, southern sycamore riparian woodland, and alkali meadow) 3.75 acres of oak woodland, and 0.40 acres unvegetated streambed. Impacts are due to new structures and related infrastructures for Subareas 2.1, 2.2, 2.3, and 2.4.</p>	NOD	
2007041017	<p>East Branch Extension - Phase II Water Resources, Department of --San Bernardino</p> <p>The proposed Project consists of the approximately six miles of 72 or 78-inch diameter pipeline, a reservoir providing about 560 acre-feet of storage, a 200 cubic feet per second (cfs) pump station (Citrus Pump Station), installing a new pump at the Cherry Valley Pump Station to increase capacity from 32 to 56 cfs, and expansion of the Crafton Hills Pump Station from 60 cfs to 135 cfs. Construction will result in 0.24 acres of permanent impacts and 12 acres of temporary impacts to Santa Ana River woollystar habitat. These activities will result in the incidental take of up to 30 individuals of the Santa Ana River woollystar habitat. These activities will result in the incidental take of up to 30 individuals of the Santa Ana River woollystar, a species designated as endangered under the California Endangered Species Act (CESA) (Cal. Code Regs. tit. 14 Section 670.2, subd. (a)(26)(A)). The California Department of Fish and Wildlife is issuing the CESA incidental take permit referenced above as a responsible agency under the California Environmental Quality Act (CEQA).</p>	NOD	
2011122079	<p>Sewer Maintenance District 3 Regional Sewer Project Placer County Loomis--Placer</p> <p>Placer County filed Wastewater Change Petition WW0068 with the State Water Resources Control Board to change the point of discharge, purpose of use, and place of use of 0.2 cubic foot per second (Cfs) of treated wastewater. Placer County's SMD 3 Regional Sewer Project includes decommissioning the SMD 3 WWTP, and constructing a pump station and force main to convey wastewater flows to the Sewer Maintenance District 2 (SMD 2) collection system for connection to the South Placer Wastewater Authority (SPWA) interceptor and Dry Creek WWTP.</p>	NOD

2012108318	Well 115 Replacement Irvine Ranch Water District --Orange The CA Dept. of Public Health is a responsible agency for this project. The Dept.'s Safe Drinking water Proposition 50 Program is providing state funds for the project. Irvine Ranch Water District proposes to replace the existing Well 115 due to its aging infrastructure.	NOE	
2013058010	Petition for Extension of Time for Permit 16338 of Calaveras Public Utility District State Water Resources Control Board --Calaveras Calaveras Public Utility District diverts water at the rate of 15 cubic feet per second (cfs) to offstream storage in a 2,130 acre feet capacity reservoir under Permit 16883 (App. 5648F). The 15 cfs diversion rate is the maximum allowed under the permit. The District has not yet utilized its full storage capacity. The District has requested an extension of time to put water to full beneficial use.	NOE	
2013058011	Lease of Existing Office Space Industrial Relations, Department of Fresno--Fresno The Dept. of Industrial Relations proposes to lease ~8,500 sf of existing office space which would house ~28 office staff using 38 parking spaces.	NOE	
2013058012	Lease of Existing Office Space Industrial Relations, Department of Fresno--Fresno The Dept. of Industrial Relations proposes to lease ~8,500 sf of existing office space which would house ~28 office staff using 38 parking spaces.	NOE	
2013058013	PG&E Ditch Liner Replacement Project (W1405000) Sacramento, City of Sacramento--Sacramento The project includes replacing all the gunite lining in the 0.93 mile long PG&E Ditch. The City has an easement for the ditch on Central California traction Co. (CCTC) railroad property. The depth, width, and alignment of the ditch will be unchanged. Two access ramps, one at Fruitridge Road and one at Sump 66 will be added to facilitate construction and future maintenance. Construction traffic will work between the east side of the CCTC railroad and the ditch's west side top-of-slope. For funding reasons, project construction may continue over more than one season.	NOE	
2013058014	Temporary Urgenc Change Petition Filed by Sonoma County Water Agency State Water Resources Control Board --Mendocino, Sonoma The Sonoma County Water Agency filed a Temporary Urgency Change petition with the Division of Water Rights on April 24, 2013. The petition requests temporary modifications to the Russian River instream flow requirements to prevent severe depletion of storage in Lake Mendocino.	NOE

2011081020	Total Terminals International Grain Export Terminal Installation Project Long Beach, Port of Long Beach--Los Angeles Total Terminals International (TTI) proposes to install a grain transloading facility on Pier T in the Port of Long Beach. The project site is located on a vacant 10-acre parcel on the Navy Mole, adjacent to TTI's existing Hanjin terminal. The proposed project would enable the transfer of grain and dried distillers grains with soluble (DDGS), a high quality feed for cattle (no human consumption), utilizing existing rail and shipping infrastructure. Shipping vessels currently transport empty containers from Pier T; under the proposed Project the same frequency of shipping vessels would occur, but the containers would instead transport grain and DDGS from the Midwest to China, improving the balance of exports through this terminal. The EIR will be used in making permit decisions, pursuant to the California Coastal Act of 1976.	EIR	06/17/2013
2012061055	Camarillo Academy + Performing Arts Center Oxnard Union High School District Camarillo--Ventura The Oxnard Union High School District is proposing a new high school in the City of Camarillo (Camarillo Academy High School + Performing Arts Center). The Project would provide educational facilities for Grades 9-12 with a maximum enrollment of 1,000 students in approximately 108,000 square feet of floor area. Athletic fields and parking areas would be provided. A Performing Arts Center with a 700-seat main theater and a separate 99-seat black box theater is also proposed.	EIR	06/19/2013

2013021047	East County Detention Center Riverside County Indio--Riverside Note: Shortened Review The County of Riverside proposes a 1,273 bed expansion of the existing 353-bed detention center in Indio, California to accommodate immediate jail capacity needs for the County. The expansion will add beds to an existing court-adjacent jail facility that is undersized for the current and projected local need. The project also includes the construction of a three-level parking structure across Oasis Street and south of the existing jail site. The project will include demolition of existing structures on-site.	EIR	06/04/2013
2008091156	Interstate 10/Jefferson Street Interchange Improvement Project Caltrans #8 Indio--Riverside Note: FONSI Note: Lead Agency is now Caltrans The project is located within the limits of the City of Indio, in Riverside County, on I-10 from KP 83.2 to R85.5 (PM 51.7 to R53.1). Within the limits of the proposed project, I-10 is a standard six-lane freeway with a median running down the center and no HOV facilities. All lanes are a standard 3.66 m (12 ft) with standard 3.0 m (10 ft) shoulders. The existing interchange facility is a modified diamond design. The purpose of the proposed project is to improve the operational performance of the Jefferson Street interchange, incorporating standard design requirements to the maximum extent possible, and to address the anticipated increased traffic demand and associated potential congestion from the planned development in the vicinity of the Jefferson Street access to and from I-10.	FON	
2012042034	Z12-001; GP12-001; EIS12-001: Former Bear River Mill Site Rezone/General Plan Amendment Nevada County Grass Valley--Nevada Revised Draft MND, Based on Reduced Project Scope - A proposed Zoning District Map Amendment and General Plan Land Use Designation Map Amendment (GPA) for fifteen parcels located between State Hwy 49 and La Barr Meadows Road south of the City of Grass Valley. The Project proposes to amend the existing BP zoning and General Plan Land Designations to a combination of IND/M1, PUB/P and RES/RA-1.5 for five privately owned properties, four of the five are developed with single-family residents and associated structures. The proposed project is a Zoning District and General Plan Land Use Map amendment only and does not include a proposal for development of any of the project parcels nor does it issue any entitlements for future development. 	shoulders.		
2013051014	General Plan Amendment/Zone Change No. 13-0136 Bakersfield, City of Bakersfield--Kern The project includes a change in Land Use from SR and ER to LR and a zone change from A to R-1 on approximately 70 net acres. The applicant is proposing development of 280 single family residential units. The project also includes annexation of this site into the City.	MND	06/04/2013
2013051015	Integrated Crop Expansion Greenfield, City of Greenfield--Monterey Integrated Crop Management Expansion. The applicant is seeking a use permit for expansion and relocation of existing storage facilities used for dry and liquid fertilizer. The current storage is contained in temporary containers of up to 1,000 gallons capacity each, with a total existing capacity of about 40,000 gallons. The expansion would result in installation of 12 permanent containers up to 20 feet in height and with capacities of about 16,000 gallons each. A concrete pad and containment area would be constructed beneath and surrounding the storage tanks. No fertilizer is currently, or proposed to be, manufactured on the project site; the project site is used for storage and transfer of materials manufactured elsewhere. Waste oil and similar materials are also stored on the project site. The proposed project also includes constructed of a 70-foot private truck scale. Zoning Text Amendment. The zoning text amendment would amend Article III, Section 17.26 to conditionally permit "Chemical Product Manufacturing" within the Light Industrial zone.	MND	06/04/2013
2013052014	Surface Mining / Conditional Use Permits, Reclamation Plan and Humboldt County --Humboldt Conditional Use/Surface Mining Permits and approval of Reclamation Plan for the Kercher Quarry, a new upland quarry in the Pratt Mountain area. The project proposes total extraction of 100,000 cubic yards over the 15-year permit term. Mining may consist of a maximum annual extraction of 34,000 cy, or smaller extractions as frequently as every two to five years. The material mined is massive greywacke and lesser amounts of shale, chert, greenstone and schist, and will be used for the maintenance and repair of County roads. The permit term is 15 years and, if approved, will expire on June 2028.	MND	06/04/2013
2013052016	Napa Creekside Apartments Napa, City of Napa--Napa A development application to authorize the construction of a 57 unit rental apartment complex on a 2.88 acre site at 3700, 3710 & 3720 Valle Verde Drive. The proposed development will consist of 33 living units to be established within the remodeled Sunrise assisted living facility building at 3700 Valle Verde Drive and 24 living units within a newly constructed three story building directly north of the Sunrise building at 3710 & 3720 Valle Verde. The existing and proposed buildings are three stories in height and will be comprised of 5 one bedroom units, 30 two bedroom units and 22 three bedroom units served by 119 on-site parking spaces. The application includes a request to abandon the entire length of the Valle Verde Drive right-of-way north of Firefly and utilize a portion of the City owned property directly north of the site for parking and a vehicle turn around.	MND	06/04/2013

	Project approvals include: 1) abandonment of the Valle Verde Drive right-of-way; 2) a Lot Line Adjustment to merge the existing property lines and incorporate the Valle Verde Drive right-of-way into the project site; and 3) Design Review of the site layout and building plans which include a building height of 37 feet.		
2013052017	Calistoga Family Apartments Calistoga, City of Calistoga--Napa The purpose of this project is to develop 56 units of affordable housing for low-income and very low-income households. The proposed project known as Calistoga Family Apartments would include four two-story residential buildings containing 16 one-bedroom units (572 sf each), 20 two-bedroom units (1,010 sf each), which would include the manager's unit. 112 surface parking spaces are planned.	MND	06/04/2013
2013051012	General Plan Housing Element Update 2013-2021 (#GP 13-1) Hermosa Beach, City of Hermosa Beach--Los Angeles California Government Code Section 65302(c) mandates that each city shall include a Housing Element in its General Plan. The Housing Element is required to identify and analyze existing and projected housing needs, and include statements of the City's goals, policies, quantified objectives, and scheduled programs for the preservation, improvement, and development of housing. The City, in adopting its Housing Element, must consider economic, environmental, and fiscal factors, as well as community goals as set forth in the General Plan, in compliance with California Government Code Section 65580 et seq.	Neg	06/04/2013
2013051016	Land Division Application No. 2006-226, Boggs Mariposa County --Mariposa The division of a 35.68-acre parcel into four parcels: Parcel A - 5.20 acres; Parcel B - 5.18 acres; Parcel C - 5.20 acres; Parcel D - 5.00 acres; and a 15.10 acre Remainder. Individual wells and septic systems are proposed. Access to all the parcels and the Remainder will be from an on-site easement, which takes access off of Oak Road from Yosemite Oaks Road. Parcel is known as APN 014-550-003. The project site is located within the Mountain Home land use designation of the 1981 General Plan and the Mountain Home zoning (5 acre minimum).	Neg	06/04/2013
2013052015	2006-105 Tentative Parcel Map for Ali & Azadhe Batiari Calaveras County --Calaveras The Applicants are proposing to subdivide a 22.56-acre parcel into four legal parcels. Each of the 4 parcels created as a result of the proposed project will consist of a minimum parcel size of 5-acres. As part of the proposed project, the Applicants are proposing to extend Dhawk Lane to allow for access into each parcel. Dhawk is a privately maintained roadway which connects to Warren Road (a County maintained roadway). As part of the extension of Dhawk Lane, the proposed project will provide a 4-inch compacted Class II aggregate base surface to match the existing surface improvements for this roadway. These improvements would result in a modification to the County's standard requirement. The proposed project will rely on private wells and septic systems for water and domestic sewer service. 	<p>The United States Army, represented by the Network Enterprise Technology Command/9th Army Signal Command (NETCOM) and U.S. Army Garrison, Presidio of Monterey (POM), is proposing to expand the existing perimeter fence around the CAMP Roberts Satellite Communications (SATCOM) site. The fence would be expanded to the west of its current location; extending about 1 mile longer and encompassing approximately 57 acres of additional land outside the existing perimeter fence. Additional structures would include security lighting and cameras on the interior side of the fence, and a 40-foot-wide clear zone would be established along the fence. About 900 feet of the existing fence would be removed where it is not needed.</p>		
2013051017	North Recharge Pipelines at 294th Street West Turnout Antelope Valley-East Kern Water Agency --Los Angeles	MND	06/05/2013
	<p>The Antelope Valley-East Kern Water Agency Proposes to construct a new 24-inch diameter, 1,900-foot Cement Mortar Lined and Coated (CML&C) steel pipeline for the purpose of groundwater recharge. The pipeline will connect to an existing pump station and turnout structure of the CA Aqueduct. Water conveyed through the pipeline will come from the Agency's State Water Project Table A allocations. The pipeline will be constructed within the State's previously disturbed Right of Way for the CA Aqueduct and a utility easement.</p>		
2013051019	Price Historical Park Master Plan Pismo Beach, City of Pismo Beach--San Luis Obispo	MND	06/05/2013
	<p>The Project is the Price Historical Park Master Plan to guide the land uses and future improvements at the City of Pismo Beach Price Historical Park. The Plan is a framework for future Park improvements and area preservation with identification of appropriate physical layout, structural needs and land uses.</p>		
2013051020	Robert W. Goldsworthy Desalter Expansion Water Replenishment of Southern California Torrance--Los Angeles	MND	06/06/2013
	<p>The purpose of the project is to expand the existing Goldsworthy Desalter, located in the City of Torrance corporation yard. Blended product water production capacity would be expanded from 2.5 million gallons per day (mgd) to 5 mgd. Water supply to the expanded Goldsworthy Desalter would be provided by drilling two new wells in the immediate vicinity, and constructing delivery pipelines to the Desalter site.</p>		
2013052019	Well No. 7 Replacement Project Hughson, City of Hughson--San Joaquin	MND	06/05/2013
	<p>Development of replacement water well, treatment & storage facilities. Pipeline connecting proposed facilities to a nearby municipal well site.</p>

<u>Documents Received on Tuesday, May 07, 2013</u>			
2013052021	UP11-0003 - Pristine Sun LLC - Jarvis Butte County Oroville--Butte Conditional Use Permit by Pristine Sun to develop a 0.25 megawatt (MW) (250 kilowatt, kw) Solar Energy Generation Facility, for wholesale electrical production, composed of 1,152 pole-mounted, single axis tracking photovoltaic modules to be situated on ~2.41 acres of the southwest portion of the 60.5 acre site. An access drive will be extended form the northeast corner (from the existing on site driveway) to the project facility.	MND	06/05/2013
2013052022	Techite Pipeline Replacement Humboldt Bay Municipal Water District --Humboldt The Project includes the replacement of approximately 10,800 feet of HBMWD's 18-inch Techite pipeline with approximately 15,406 feet of new 20-inch polyvinylchloride (PVC) pipeline. The new pipeline would be installed within a new alignment on New Navy Base Road and other Fairhaven area roads in order to avoid sensitive dune habitat associated with the existing Techite Pipe alignment. The alignment begins at the HBMWD Terminal Reservoir and ends at the start of the HBMWD Humboldt Bay crossing near Fairhaven, CA.	MND	06/05/2013
2013051018	Granite Construction Company Imperial County --Imperial Note: Review per lead The proposed project is the amendment of an existing Plan of Operations (mining permit) and a (County) Reclamation Plan. The mining permit (BLM Plan of Operations) has been environmentally assessed per National Environmental Protection Agency regulations (NEPA) (CA-670-2010-02). Per CEQA, as lead Agency for State Mine and Reclamation Act (SMARA), we must analyze the entire project, which includes the mining operation as well as the reclamation of the site even though we do not issue the mining permit on federally-owned land. Based on a Memorandum of Understanding (MOU dated October 1992) between Bureau of Land Management (BLM) and the State of CA, the "Plan of Operations" can be utilized as the mining permit as required by SMARA. The "Operator" Granite Construction Company has completed the required federal approvals, which includes a "Plan of Operations" and the "Decision Record".	Neg	06/11/2013
2013052020	Central Kitchen Project Campbell Union School District Campbell--Santa Clara The proposed project is the construction of 2 story commercial grade kitchen and office building, renovations to existing structures and associated site work within the Campbell Union School District existing corporation yard. 	and to complete that construction by September 1, 2015. In addition to the modified park obligation, the DA amendment includes an obligation for the developer to pay \$10,000 (adjusted annually according to consumer price index) to the City each year to pay for annual compliance review of the DA.		
2006011002	Rawlings Reservoir Replacement Project Tustin, City of Tustin--Orange The California Department of Public Health (Department), as the responsible agency, will be issuing a water supply permit. The City of Tustin proposed project included replacement of the Rawlings Reservoir, 3.82 million gallon, with two 3-million gallon reservoirs.	NOD	
2007071146	Upper Chiquita Reservoir Emergency Storage Project Santa Margarita Water District Rancho Santa Margarita--Orange The California Department of Public Health (Department) is a responsible agency for this project. The Department's Safe Drinking Water Proposition 50 Program is providing state funds for the project. Santa Margarita Water District, as the CEQA lead agency, proposes to construct seven emergency interconnections within Irvine Ranch Water District and Moulton Niguel Water District.	NOD	
2008082066	Empire Mine State Historic Park, Site Characterization and Remediation Project Parks and Recreation, Department of Grass Valley--Nevada The California Department of Fish and Wildlife is executing an amendment to Lake or Streambed Alteration Agreement number 1600-2011-009-R2, pursuant to Section 1602 of the Fish and Game Code to the project applicant, California Department of Parks and Recreation. The project entails cleaning out the Magenta Drain Channel in Memorial Park adjacent to EMSHP to remove mining-derived sediment (MDS).	NOD	
2009042029	Hecker Pass Safety Improvements Project on State Route 152 Caltrans #4 Gilroy--Santa Clara This project will implement safety improvements at five locations on SR 152 from .14 miles east of the Santa Cruz County line to .17 miles east of Watsonville Rd. The safety improvements include widening the existing lanes and shoulders, overlaying the existing pavement, removing trees to improve sight distance, constructing retaining walls and adding a left-turn pocket from eastbound SR 152 to Watsonville Road.	NOD	
2009082001	Lower Calaveras River Anadromous Fish Barriers Improvement Project Stockton East Water District Stockton--San Joaquin Project consists of the replacement of several existing Corrugated Metal Pipe (CMP) culverts, and the associated concrete roadway with apron (which currently pose a significant barrier to upstream migration of salmonids), with three 10 foot by 12 foot box culverts. The side of the culverts will be backfilled with native material and capped with an eight inch concrete slab which will match to the existing concrete road way. Approximately 1,000 cubic yards of native material will be removed from the canal and replaced with 450 cubic yards of engineered streambed material and approximately 200 cubic yards of bank-line rock ranging from 18 inch boulders down to sand and silt for bank stability. The upper portions of the banks will be re-vegetated with a native seed mix.	NOD

<u>Documents Received on Tuesday, May 07, 2013</u>			
2012122033	General Plan Amendment and Rezone Application No. PLN2012-0037 - Gallo Glass Stanislaus County Modesto--Stanislaus Request to amend the General Plan from Industrial and zoning designations from R-1 (Single-Family Residential), R-2 (Medium Density Residential), and R-3 (Multiple-Family Residential) to M (Industrial) of 12.2 +/- acres to expand the existing Gallo Glass plant by adding a concrete and asphalt paved outdoor storage and parking area.	NOD	
2013012017	Dwight Road Extension and New Warehouse Sacramento Regional Sanitation District Elk Grove--Sacramento The project will construct a new service road and warehouse structure at the Sacramento Regional Wastewater Treatment Plant (SRWTP). The Permittee proposes to extend Dwight Road for approximately 1.25 miles. It would begin at the current northern terminus of Dwight Road, 0.4 miles north of Laguna Boulevard and immediately south of the City of Elk Grove's Laguna West Drainage Chanel. The service road would cross the channel with a single span, concrete bridge that would be supported by seat type abutments. The Dwight Road extension would cross another drainage ditch, in which a culvert would be placed. The service road would then proceed north to the terminus at Glacier Way, the boundary of the operation area of the SRWTP. The proposed Project would cross the Laguna West Drainage Channel with a 65 foot long by 70 foot wide single-span concrete bridge.	NOD	
2013012036	Lake Oroville Area Public Utility District Sphere of Influence Update Butte County Local Agency Formation Commission Oroville--Butte Development of a 20-megawatt solar photovoltaic (PV) power generation facility. The project would be constructed on land owned by UPI and leased to Columbia Solar Energy for a 20-year period. Project facilities would include PV panels, Inverters, related electric equipment, enclosures, and an electric switch yard and in one alternative configuration "tie line" The PV panels would be the predominant project feature and would encompass most of the Project Site. The PV panels are non-reflective, and would convert sunlight directly into direct current (DC) electricity. Access roads would be provided at the Site perimeter to facilitate maintenance and emergency access requirements.	NOD	
2013058130	Crandell Peak Toilet Development Parks and Recreation, Department of --Tuolumne The project involves installing a single unit prefabricated concrete vault restroom at an existing day use parking/camping area in the Deer Creek/Crandall Peak OHV area. The area of excavation needed to install the toilet is 15 feet by 7 feet by 5-foot deep. The permanent restroom facility would replace temporary portable restrooms placed at the site annually. Barrier posts, a fully accessible pathway to the restroom, erosion control material, and signage would also be installed.	NOE	
2013058131	Middle Creek Watershed Road Storm Proofing Project West Lake Resource Conservation District --Lake The project will conduct storm proofing activities on 42 miles of native surface roads on the Mendocino National forest in the Middle Creek Watershed. Activities	NOE

	The proposed action is to dismantle 50- missile silos in Montana, 50 missile silos in Wyoming, and 4 missile silos at Vandenberg AFB in California in order to comply with the new Strategic Arms Reduction Treaty that entered into force in February 2011.		
2013052023	Fort Goff Creek Fish Passage Project Caltrans #2 --Siskiyou Caltrans has prepared a Draft Initial Study with a proposed MND for a proposed fish passage improvement project on SR 96 in Siskiyou County near Seiad Valley. The proposed project will improve fish passage on Fort Goff Creek by replacing a 15-foot diameter structural steel plate culvert with a concrete single span bridge structure and restore approximately 200 feet of stream channel. The proposed project will also conform a 720-foot section of SR 96 with the proposed bridge structure, which would include widening existing lanes and roadway shoulders, minor roadway realignment and installation of metal beam guardrail. The project will require right of way acquisition, tree removal, soil excavation, a temporary stream diversion, and temporary traffic detour during construction.	MND	06/07/2013
2013052025	PA-1200061(SA) San Joaquin County Lodi--San Joaquin A Site Approval application for a small winery to be built in two phases over a ten year period with twenty marketing events per year with a maximum attendance of 100 people per marketing event. (Use Type: Wineries and Wine Cellars-Winery, Small) Phase One includes the conversion of an existing 2,710 sf residence into a winery with a tasting room and commercial kitchen, the conversion of an existing 456 sf building into wine storage, and the construction of a 200 sf crush pad. Phase Two includes the construction of a 5,000 sf building for wine storage and processing.	MND	06/06/2013
2013052026	County File #TP12-0017, Norris Canyon Estates San Catanio Creek Tributary Stabilization Project Contra Costa County San Ramon--Contra Costa The applicant seeks approval of a Storm Drain Remediation permit (DP11-070) and Tree permit (County File #TP12-0017) in order to construct improvements to stabilize two (2) unnamed tributaries of San Catanio Creek that drain into an existing detention basin built as part of the Norris Canyon Estates project on the creek. The work is requested upstream of the detention basin to return the tributaries to historic elevations while stabilizing creek banks and preventing future erosion of the drainages. Currently, the unnamed tributaries have experienced up to 20 feet of erosion, with eroded soil flowing downstream to the existing detention basin and beyond. It is hoped that by conducting the work described below that the detention basin will operate as intended. The Tree Permit is necessary because 85 code-protected trees within and near the tributary channels are proposed to be removed as part of the creek remediation work.	MND	06/06/2013

2013051023	Golden State Water Company Apple Valley North System valley Crest / Yucca Reservoir Project Public Health, Department of Apple Valley--San Bernardino Golden State Water Company proposes to construct two reservoirs. The first construction component consists of the Valley Crest Reservoir, booster station, and transmission main. The second component consists of the Yucca Reservoir and the transmission main between Valley Crest Reservoir and Yucca Reservoir. Each reservoir will hold 500,000 gallons of water and will be approximately 24 feet in height and 68 feet in diameter. Each pas site will be 200 feet by 200 feet in area, and each site will be protected by an 8 foot block wall. The CDPH will issue an amended water supply permit once the reservoirs are constructed and operable.	MND	06/07/2013
2013051025	Big Tujunga Reservoir Sediment Removal Project Los Angeles County Flood Control District --Los Angeles The project involves restoring flood management and water conservation capacity by excavation up to 4.4 million cubic yards of sediment within Big Tujunga Reservoir and placing the sediment within the adjacent Maple Canyon SPS up to its capacity. Sediment removal would occur during the non-storm season via trucks or conveyor belts. Sediment removal is anticipated to take approximately five years, or more if needed. During each year of sediment removal, activities would start on or shortly after April 16 and would include: (1) installing a bypass line to divert inflow from the reservoir (upstream of the Dam) into Big Tujunga Creek; (2) dewatering the plunge pool and fish removal; (3) installing sediment filtration best management practices at the plunge pool's outfall into Big Tujunga Creek; and (4) dewatering the reservoir. Dam functions would be restored for normal operations during the storm season on October 15 of each year.	MND	06/07/2013

	marketing purposes. The proposed winery will produce wines from the existing vineyards on adjacent properties.		
2013052030	Sugar Bowl Crow's Peak Chairlift (PCPA 20120369) Placer County --Placer The project proposes a CUP to allow for the construction and operation of a new lift alignment for a fixed-grip, triple chairlift, ski runs and primitive support roads for the Sugar Bowl Ski Resort.	MND	06/10/2013
2013052031	Morgan Creek/Morgan Gated Vehicular Entrances (PCPM 20120208) Placer County Roseville--Placer The project proposes modifications to the existing Conditional Use Permit to add electronic vehicular gates and security system at three entrances to the Morgan Creek community (at Walerga, Vineyard and PFE Roads) and at the one entrances to the Morgan Greens community (at Cook Riolo Road).	MND	06/10/2013
2013052032	Wastewater Treatment Plant Secondary and Tertiary Improvements Project Davis, City of Davis--Yolo The Project would include construction and installation of new WWTP treatment infrastructure, a flood wall and/or levee improvements, and a treated wastewater discharge pipeline. Use of existing ponds will change from treatment to storage, and the overland flow system will be decommissioned as part of the treatment process. An effluent pipeline will be constructed to convey treated water to the City's existing point of discharge. Installation of these new facilities will enhance the level of treatment to meet new National Pollutant Discharge Elimination System permit requirements. Elements of the Project will have an initial average dry weather flow rating (ADWF) of 6.0 million gallons per day (mgd), and therefore will not increase treatment capacity at the WWTP beyond its current capacity of 7.5 mgd ADWF.	MND	06/10/2013
2013052033	State Route 49 Widen and Pave Shoulders Caltrans #3 Nevada City--Nevada Caltrans proposes to improve safety along SR 49 in Nevada County from PM 17.09 to PM 17.42 by widening and paving the shoulders. The project is located approximately 2 miles west of Nevada City. Bicyclists use this portion of SR 49 as a link between two popular bike routes. This section of SR 49 will be much safer for motorists and bicyclists after the addition of shoulders, which will serve as a bike lane for the area bicyclists.	MND	06/10/2013
2013052034	Old Auburn Road Bike and Pedestrian Trail Project Citrus Heights, City of Citrus Heights--Sacramento The City of Citrus Heights proposes to construct approximately 4,200 linear feet of Class 1 trail (10'-wide pavement with 4' shoulders) within an undeveloped strip of land on the north side of Old Auburn Road and bike trail and upgrade existing Class 2 bike lanes on Old Auburn Road between Fair Oaks Boulevard and the east City limits at Wachtel Way to improve access and safety for bicyclist and pedestrians. Upgrades to existing Class 2 bike lanes on Old Auburn Road include approximately one mile of the roadway to meet City standards for Class II bike lanes, as the paved width of the bike lane on both sides of the roadway varies from 0-2 feet. The project proposes widening certain segments of the roadway to	MND	06/11/2013

	accommodate a 5-foot minimum paved bike lane. The project also proposes a bike and ped bridge over Cripple Creek for continuous trail access.		
2013051027	Museum Square Office Building Project Los Angeles, City of Los Angeles, City of--Los Angeles The proposed project involves the demolition of an existing surface parking lot, construction of a new 13-story, approximately 253,962 sf commercial office building and the addition of two new levels of parking (approximately 162,768 sf) to an existing five-level parking structure [Q]C4-2-CDO and QPB-2 zones. The proposed new Museum Square Office building would have an approximately 68 foot setback from the northern property. Access for pedestrians would be from Wilshire Boulevard and Curson Avenue, with vehicle access to the parking structure, for both tenants and visitors, provided along Curson Avenue and Masselin Avenue. An additional service lane will be added to the north vehicular entry from Curson Avenue for easy access to the service entry and to ensure adequate ingress and egress for building patrons.	NOP	06/10/2013
2013051029	Athens Services Materials Recovery Facility and Transfer Station (MRF/TS) Irwindale, City of Irwindale, Baldwin Park--Los Angeles Athens Services (Applicant/Operator) has submitted an application to the City of Irwindale (City) to construct and operate a Materials Recovery Facility and Transfer Station (MRF/TS), with a Fueling Facility/Convenience Store (see NOP attached, figure 1 - 4). A MRF/TS is a facility where residential, commercial, and/or industrial municipal solid waste and recyclable materials are delivered by commercial and non-commercial haulers, and sorted and processed in one central location prior to delivery at end use distributors.	NOP	06/11/2013
2013051030	Correia Middle School Sports Complex Project San Diego Unified School District --San Diego The District proposes an upgrade to the existing sports complex on the existing Correia Middle School campus within the Peninsula Community of San Diego. The proposed project will be phased and will include the design, construction, and operation of upgraded athletic facilities into a new sports complex of approximately 363,000 square feet.	NOP	06/10/2013
2007062006	Rio Dell Wastewater Reuse Project Rio Dell, City of Rio Dell--Humboldt The City of Rio Dell is proposing a modification to the Rio Dell Wastewater Reuse Project. The alignment and methodology of the sewer transmission pipeline where it crosses the Eel River, northwest of the City of Rio Dell, is proposed to be modified. Rather than crossing the Eel River within the Southbound Highway 101 Bridge, the pipeline is proposed to cross underneath the Eel River using horizontal directional drilling techniques. This represents a minor change to the pipeline alignment of treated effluent reuse Option Reuse1A as evaluated in the 2008 Certified EIR. No other change to the Rio Dell Wastewater Reuse Project is proposed.	SIR	06/24/2013

	or elevation or footprint of plant.		
2013058160	Cline Private Recreational Dock Replacement Fish & Wildlife #3 --Sacramento The project is limited to the replacement of a private recreational dock on the north bank of the Sacramento River. The existing 6 foot by 18 foot wooden dock with Styrofoam floats will be replaced with an "L" shaped dock, consisting of a 6 foot by 18 foot section and an 8 foot by 23 foot section. The new dock will be anchored to three 12-inch diameter steel piles. The existing 3 foot by 20 foot gangway and 4 foot by 6 foot walkway will remain. The existing 4-inch diameter steel piles will be removed. SAA #1600-2013-0088-R3.	NOE	
2013058161	Lund Private Recreational Dock and Boat Shed Installation Fish & Wildlife #3 --Sacramento The project is limited to the installation of a private recreational dock and boat shed on the north bank of the Sacramento River. The enclosed boat shed will be 32 feet by 100 feet and will be anchored to ten 12-inch diameter steel piles, which exist on-site. there will be a 4 foot by 45 foot metal gangway, attached to a concrete landing and stairs. The landing and stairs will be approximately 29 feet by 4 feet. A 5 foot by 100 foot wood or steel dock, running parallel to the river, is also preposed. SAA # 1600-2013-0041-R3.	NOE	
2013058162	Agreement 2013-0022-R4 - SR 245 Cottonwood Creek Erosion Control Repair Fish & Wildlife #4 --Tulare The Project is limited to reconstruction of 85 feet of eroded embankment and to reinforcement of approximately 280 feet of streambed and bank. Rock slope protection (RSP) will be placed approximately 6.5 feet above and 5 feet below the flowline, for a total height of 11.5 feet. and will cover a horizontal distance of 9.2 feet, permanently covering approximately 0.15 acres. The project will require 1307.2 cubic yards (CY) of material.	NOE	
2013058163	Dorabelle Campground Culvert Replacement Fish & Wildlife #4 --Fresno The Project includes replacement of 9 culverts in the Dorabelle Campground. The existing culverts will be removed through a trench excavated over the pipe. The topsoil will be stockpiled and covered with plastic to prevent contamination with noxious weeds. The old culvert and associated rip rap will be removed and replaced with new corrugated metal pipes and new rip rap. Following installation of the culverts, the topsoil will be replaced to restore the original slope and grade.	NOE	
2013058164	Research to Improve Golden Eagle Management in the Desert Renewable Energy Conservation Energy Commission --Los Angeles, Riverside, San Diego, Inyo, San Bernardino, ... There are two objectives to this proposed project. The first is to assess food availability for nesting golden eagles in the Desert Renewable Energy Conservation Plan (DRECP), especially on populations near solar energy zones. This information will be used to develop models of prey (black-tailed jackrabbits) availability and abundance, and to determine how these vary by natural cycles of available forage and predation. These models will be used to link food availability to nesting success. The second objective is to develop a protocol for monitoring	NOE

2007031069	<p>Formation of Wiseburn Unified School District State Board of Education, California El Segundo, Hawthorne--Los Angeles</p> <p>The proposed project involves a change of local government structure from separate elementary and high school districts to one unified district (i.e., the formation of the WUSD to serve grades K-12). The California State Board of Education (SBE) will decide whether to adopt a resolution approving the petition to form the WUSD through the unification of the existing WSD (serving grades K-8), which is comprised of three elementary schools (grades K-5) and a middle school (grades 6-8), with the corresponding portion of the CVUHSD within its boundaries. A SBE resolution approving the petition triggers a local election to approve the project.</p>	NOD	
2009032002	<p>Dowd Road Bridge Over Yankee Slough Bridge Replacement Project Placer County Lincoln--Placer</p> <p>The proposed project consists of replacing the existing reinforced concrete slab bridge with a single precast prestressed voided concrete slab bridge. The new bridge and roadway approaches will accommodate two-lanes of traffic and will improve traffic operations for the existing two lane roadway.</p>	NOD	
2010081014	<p>Atlanta Avenue Widening Project Huntington Beach, City of Huntington Beach--Orange</p> <p>Coastal Development Permit No. 09-001 and Conditional Use Permit No. 09-019 represent a City proposed request to widen Atlanta Avenue from Huntington Street to Delaware Street to comply with primary arterial street classification in the General Plan Circulation Element. The proposed project would also bring the subject segment of Atlanta Avenue into compliance with the Orange County Master Plan of Arterial Highways (MPAH). The coastal development permit is required to allow construction of the project and associated improvements within the non-appealable area of the coastal zone. The conditional use permit is required to allow an eight-foot tall block wall atop a variable coastal zone. The conditional use permit is required to allow an eight-foot tall block wall atop a variable height (zero to seven feet) retaining wall in lieu of the maximum 42-inch allowable height within the 10-foot front yard setback. The proposed street improvements will provide an additional through lane and bike lane in each direction of travel. In addition, the project's scope of work includes clearing and grubbing, the construction of asphalt concrete roadways, striping, curb, gutter, sidewalk, an eight-foot tall concrete block wall atop a variable height (seven feet max.) retaining wall, landscaping (including the removal or relocation of 25 trees with the existing mobile home park), reconstruction of a 24-foot wide drive aisle (circulation road) and two emergency access gates within the mobile home park, and utility and fire hydrant adjustment and relocation.</p>	NOD	
2011122047	<p>The 2012 Fisheries Restoration Grant Program Fish & Game #2 --</p> <p>The Project is limited to permanently decommissioning 1.53 miles of road at 19 sites thereby saving approximately 20, 103 cubic yards of sediment from delivery to Hunter Creek. The Grantee shall decommission 13 stream crossings and treat 6 potential or existing fill slope landslides.</p>	NOD

2013052039	Noyo Center Site Restoration & Warming Hut Fort Bragg, City of Fort Bragg--Mendocino This project includes: -Restoration of six acres of upland property, a former log deck that is covered in three to five feet of gravel and asphalt, to native coastal prairie; -Temporary storage of dredge sands and soil for the eventual restoration of the Coastal Trail project; and -Development of a 427 sf interpretive classroom/warming hut of the north west boundary of the site.	MND	06/12/2013
2013052042	Tunzi Quarry Mendocino County --Mendocino The applicant is proposing to continue mining operations (extraction and processing) at the existing site for a period of 30 years expanding the boundary by approximately one acre to provide sufficient room for final grading activities involved with reclamation. The request does not propose an increase in extraction and processing volumes which are to remain at an average of 3,500 cy per year with a maximum allowance of 8,000 cy per year. Overall, the maximum volumes of material extracted would not exceed 105,000 cy over the 30 year period. Extraction would take place with a bulldozer and front end loader with occasional blasting proposed in areas made up of harder material. Reclamation of the site would occur over three phases moving from the upper north slope of the site towards the south slopes and floor. The proposed and use of the quarry is for cattle grazing consistent with the surrounding ranching operation of the property owner.	MND	06/12/2013
2013052041	Photovoltaic Arrays Patterson, City of Patterson--Stanislaus The project assessed by the initial study considers the construction of two ground mount photovoltaic systems totaling 925 kW at the City of Patterson Water Quality Control Facility. One array would be installed in a southwest retention pond which is no longer used to store water. This array would include 1,023 modules and generate 301.78 kW. The second system would be installed in the internal roadway to the left of the facility's entrance gate. This system would include 2112 modules and generate 623.0 kW.	Neg	06/12/2013
2010051001	Mid-Coast Corridor Transit Project San Diego Association of Governments San Diego--San Diego NOTE: Reference SCH# 1990011025 & 60-day Review The purpose of the proposed project is to provide for the implementation of transit improvements that improve transit service in the Mid-Coast Corridor between Downtown San Diego, Old Town, and University City by increasing the speed and reliability of transit, reducing the need for transfers, and expanding transit capacity in the corridor. The proposed project evaluated in the Draft SEIS/SEIR, also referred to as the "Build Alternative," would extend the San Diego Trolley Blue Line from the Santa Fe Depot in Downtown San Diego north to the Old Town Transit Center (OTTC) via the existing Trolley tracks. 2013051035	Allvision Digital Billboard @ Metro Site (PLN-12-00164) Downey, City of Downey--Los Angeles The proposed project is a CUP, Variance, and Development Agreement to construct and operate a 55 foot tall electronic billboard with two display area, each of which is 672 sf. The proposed sign would be installed on a sign structure in the northwestern area of the 9-acre project site adjacent to I-5 and the Rio Hondo Channel. The sign structure would have two display surfaces facing opposite directions. The image on the sign will remain static for an average period of time of eight seconds per message (no less than four seconds per message), before cycling to the next image.	MND	06/13/2013
2013051036	Via Piazza project Cerritos, City of Cerritos--Los Angeles The Project would remove three vacant buildings and an associated surface parking lot. The Project would construct a multi-level (4 stories plus a mezzanine), 236,806 sf residential building containing 198 units, and 378 parking spaces.	MND	06/13/2013
2013051038	ZA-2012-3201-ZV-ZAA and ENV-2012-3202-MND Los Angeles, City of Los Angeles, City of--Los Angeles A change of use and interior improvements of a two-story children's club and day care building to a public charter school serving grades K-8, with a maximum enrollment of 216 students. The approximate 20,546 sf school will accommodate approximately 216 students, up to 10 classrooms, and up to 20-22 faculty/administration staff. No additional floor area or changes of the exterior of the existing structure are proposed. The applicant is proposing to relocate from an existing charter school with 160 students, located approximately 2 blocks away, at 1530 Wilton Place. The applicant is requesting a Variance to allow the required 19 parking spaces to be located off-site at 5522 De Longpre Avenue, as previously approved for the existing Children's Club; a Zoning Administration Adjustment to maintain the existing 5-foot side yard along the western property line in lieu of the required 10-feet; and a Zoning Administrator's Adjustment to maintain the existing combined width of the two side yards of 41 feet in lieu of the required 50-foot width combined side yards required for a school on the site.	MND	06/14/2013
2013052047	Squaw Valley Preparatory - Creekside Charter, K through 12, Temporary Facility Plan (PDSB 20130141) Placer County Truckee--Placer The project proposes a Design/Site Review to develop a temporary facility of a single "Sprung" structure of 80 feet by 230 feet for a joint campus at Squaw Valley Resort.	MND	06/13/2013
2013052043	PA-1300040 (SA) San Joaquin County Tracy--San Joaquin A site approval application for a 100 foot tall lattice tower for a multi-carrier telecommunication facility with a 1,600 sf lease area.	Neg	06/13/2013

2013052046	Complete Streets General Plan Amendment Concord, City of Concord--Contra Costa This project is an update to the Concord 2030 General Plan's Transportation and Circulation Element. The proposed update includes a revision of goals, principles, and policies to more explicitly address the concept of "Complete Streets" as required by State legislation. Complete Streets involves designing a transportation system which meets the needs of all users, including pedestrians, bicyclists, and public transit patrons as well as motorists. The project also describes the types of streets that together make up the City's street network as well as mapping their physical location. Model cross-sections of the street types showing desired characteristics for each type are also provided. Lastly, revised service objectives are included to reflect Complete Streets concepts.	Neg	06/13/2013
2011022030	Edgewood Plaza Palo Alto, City of Palo Alto--Santa Clara The proposed project is a modification of the approved redevelopment of the Edgewood Plaza Shopping Center. Under the revised project, Building 1 would be reconstructed with all new materials. The location and design of the building would be consistent with the previously approved project. All other aspects of the approved project, including the renovation of Building 2 and the grocery building, the new parking layout and landscape design, and development of 10 single-family houses, remain the same as the approved project evaluated in the 2012 FEIR.	SIR	06/28/2013

2009011058	Boat Central Los Angeles County Los Angeles, City of--Los Angeles The Project consists of the demolition of a temporary parking lot and construction of a dry stack boat storage facility, mast-up boat storage area, office and customer lounge, a Sheriff's Boatwright office/ Lifeguard facility (office space and repair yard), a public promenade, view park and new dock structures. The dry stack storage facility will accommodate a maximum of 345 boats up to 40 feet in length and 28 boat trailers. Outdoor dry storage space for 30 mast-up sailboats will be created in the north-eastern corner of the site within a fenced area. A paved parking lot containing 134 spaces will be constructed between the dry stack storage facility and the office building with 13 additional parking spaces available via valet service.	NOD	
2010122085	City of Montague Treatment Improvement Project Montague, City of Yreka--Siskiyou The California Department of Public Health (Department) is a responsible agency for this project. The Department's Safe Drinking Water Proposition 50 Program is providing state funds for the project. The water system proposes to upgrade the City's existing municipal water treatment system. The replacement system will not expand the existing total treatment capacity. The structural modifications for the proposed project will include the following: 1) Installation of a metal building and	NOD
