STATE CLEARINGHOUSE

NEWSLETTER

May 16-31, 2010

STATE CLEARINGHOUSE NEWSLETTER

The State Clearinghouse distributes draft environmental documents to state agencies for review and comment, pursuant to the California Environmental Quality Act (CEQA). The State Clearinghouse also acts as the State Single Point of Contact for the review of federal grant applications and federal development projects. This Newsletter summarizes the environmental documents and federal grant applications received by the Clearinghouse during the period **May 16-31, 2010**.

CLEARINGHOUSE CONTACTS

Please contact The State Clearinghouse if you have any questions regarding processing of environmental documents or grant applications. We may be reached at:

Telephone: (916) 445-0613
Fax: (916) 323-3018
e-mail: state.clearinghouse@opr.ca.gov
website: www.opr.ca.gov

Questions regarding federal grant notices should be directed to **Sheila Brown**.

Questions regarding processing of environmental documents should be directed to:

Scott Morgan
Acting Director

CLEARINGHOUSE MAILING ADDRESS

Please do not use our street address (1400 Tenth Street, Room 212) for mailing purposes. The correct mailing address is:

STATE CLEARINGHOUSE
P.O. BOX 3044
SACRAMENTO, CA 95812-3044

INFORMATION AVAILABLE ON-LINE

The 2009 CEQA Guidelines are available from the Resources Agency's website at <http://ceres.ca.gov/ceqa/>.

The State Clearinghouse Handbook, which contains all of our environmental document and grant processing procedures and forms, is available on our website.

Arnold Schwarzenegger
Governor

MEMORANDUM

DATE: February 13, 2007
TO: State Agency CEQA and Intergovernmental Review Coordinators
FROM: Scott Morgan, Senior Planner
SUBJECT: Distribution of Environmental Documents in CD-ROM Format

The State Clearinghouse has received an increasing number of requests from local and state lead agencies to distribute CEQA documents to state reviewing agencies in an electronic format, typically CD-ROM. The most common reason for these requests is to reduce cost. CD-ROMs are cheaper for the lead agency to reproduce and mail, and cheaper for the State Clearinghouse to distribute, especially in the case of multi-volume documents.

The State Clearinghouse has distributed EIR's and EIS's in CD-ROM format for state agency review and comment since August 1, 2003. Based on our experience with those documents, a survey conducted of state reviewing agencies and the potential cost savings to local and state agencies, we are extending this policy to other environmental documents including Negative Declarations, Mitigated Negative Declarations and Environmental Assessments. The State Clearinghouse will accept environmental documents under the following terms:

- CEQA Lead agencies may provide copies of draft environmental documents to the State Clearinghouse for state agency review in an electronic format. The document must be on a CD-ROM in a common file format such as Word or Acrobat.
- Lead agencies must provide fifteen (15) copies of the CD-ROM to the State Clearinghouse. In addition, each CD-ROM must be accompanied by 15 printed copies of the DEIR summary (as described in CEQA Guidelines §15123), executive summary, or introduction section of a Negative Declaration or Mitigated Negative Declaration. The printed summary allows both the State Clearinghouse and agency CEQA coordinators to distribute the documents quickly without the use of a computer.
- Final environmental documents may be provided in CD-ROM format without a printed summary. Distribution of the final documents is optional under CEQA.
- Federal lead agencies may send electronic copies of environmental documents to the State Clearinghouse in the same manner described for CEQA lead agencies. Distribution of NEPA documents to state agencies through the State Clearinghouse is encouraged pursuant to Presidential Executive Order 12372 and NEPA §102 (42 USC §4332)
- All notices of preparation must continue to be provided in printed format.
- Please provide one Notice of Completion Form with all submittals.

If your agency has difficulty downloading and reviewing any environmental documents please contact:

Scott Morgan, Senior Planner
916-445-0613
scott.morgan@opr.ca.gov

Thank you for your cooperation in the CEQA review process.

**ENVIRONMENTAL DOCUMENT FILINGS WITH THE STATE CLEARINGHOUSE
1999 through 2009**

All CEQA documents filed with the State Clearinghouse are available for viewing on the Internet at <http://www.ceqanet.ca.gov/>

<u>Documents Received on Monday, May 17, 2010</u>			
2000051058	<p>Mid-City/Westside Transit Corridor Draft EIS/EIR Metropolitan Transportation Authority Culver City, Beverly Hills, Santa Monica, ...--Los Angeles</p> <p>The Exposition Metro Line Construction Authority proposes to construct a passenger station at the intersection of Farmdale Avenue and Exposition Boulevard. Farmdale Avenue would remain open to crossing vehicular traffic at Exposition Boulevard, with crossing fates and signals, similar to what was proposed for the at-grade crossing at Farmdale Avenue as part of the original Mid-City/Exposition Light Rail Transit Line (Expo LRT) project.</p> <p>Expo estimates that final design and construction of the station will require between 12 and 15 months. With a system opening currently contemplated for the summer of 2011, Expo may decide to use an interim stop-and-proceed procedure until the station is completed. During the initial interim phase, operating the at-grade crossing with a stop-and-proceed operation variation would not result in any physical modifications to the Farmdale Avenue crossing beyond those already evaluated in teh FEIS/EIR and thus would not result in any environmental changes or new potentially significant environmental impacts beyond those evaluated in the FEIS/EIR.</p>	EA	06/15/2010
2007102143	<p>Adoption of Statewide Regulations Allowing the Use of PEX Tubing California Building Standards Commission --</p> <p>The California Building Standards Commission (BSC) proposes to adopt new state plumbing code regulations that would remove the prohibition against the use of cross-linked polyethylene (PEX) tubing, a type of plastic pipe, for potable water uses from the California Plumbing Code. The tubing would be authorized for use in various cold and hot water (including potable water) plumbing applications in residential, commercial, and institutional buildings.</p>	EIR	06/30/2010
2008021009	<p>Rancho-Porter Specific Plan Project Brawley, City of Brawley--Imperial</p> <p>The Rancho-Porter Development Project entails the following: annexation of the project site to the City from its current location within the County of Imperial (County); amending the City General Plan (City GP); rezoning the site in accordance with the City of Brawley Zoning Ordinance (City Zoning); approval of a Specific Plan outlining the development of residential, commercial, parks, and retention basin uses on the site; and construction and operation of the residences, commercial areas, parks, basins, and infrastructure. The Project proposes to develop 210 acres of residential, commercial, and mixed-use on the 274.4 project site.</p>	EIR	06/30/2010
2009041077	<p>San Jacinto Valley Master Drainage Plan and San Jacinto Regional Area Drainage Plan Amendment San Jacinto, City of San Jacinto--Riverside</p> <p>The City of San Jacinto proposes to revise and consolidate two existing and previously adopted Master Drainage Plans (MDPs) located in portions of the Cities of San Jacinto and Hemet and unincorporated Riverside County, California. The project consists of revising two MDPs, the MDP for the San Jacinto area and the MDP for the Northwest Hemet area, and consolidation into a single new San</p>	EIR	06/30/2010

	Access would be provided by a private road, Maggio Dr. connecting to Viejas Blvd, a county Major Circulation Element Route. The project would be served by on-site septic systems and groundwater. No extension of sewer or water utilities will be required by the project.		
2010051040	Chaparral Pedestrian Bridge at Santa Gertrudis Creek (LR10-0003) Temecula, City of Temecula--Riverside The project includes the installation of a cast-in-place concrete pedestrian/bicycle bridge over the Santa Gertudis Creek to Chaparral High School and the City's Trail System. The bridge is intended to provide access to the high school from the nearby Harveston housing development. Features associated with the project include concrete access ramps, handrails, retaining walls, fencing, drainage facilities, and concrete bridge abutments. The bridge will span approximately 156 feet across the creek; the main areas of disturbance will be limited to excavation for two (2) areas of approximately 20 feet x 120 feet for the two bridge abutments and access ramps, and grading for an approximately eight-foot wide by 400-foot long access path on the north side of the creek.	MND	06/15/2010
2010051043	925-945 E. Pacific Coast Highway Lease Acquisition Project Long Beach Redevelopment Agency Long Beach--Los Angeles The proposed project involves acquisition of a lease on teh Redevelopment Agency-owned property located at 925-945 E. Pacific Coast Highway. The lease, which expires on March 11, 2013, would be acquired by the Redevelopment Agency through negotiated agreement, or upon determination by the Redevelopment Agency, by eminent domain. The project also involves demolition or rehabilitation of the existing project site building for the purposes of blight removal. The project site located at the northwest corner of Pacific Coast Highway and Martin Luther King Jr. Avenue, consists of the following parcels: Assessor Parcel Numbers 7210-013-900 and 901. 	Maintenance and Operation (M&O) Facility designed to support the Metro Gold Line and other light rail transit systems. Parking Structures at the Monrovia, Irwindale, and Azusa-Alameda stations are also being proposed and/or relocated as well as the realignment of the Mountain Avenue/Duarte Road intersection. Additional improvements at the Monrovia Station and within the corridor analyzed in the Phase 2A Gold Line Foothill EIR are also proposed.		
2010051046	March Inland Port Airport General Aviation Facilities Development March Joint Powers Authority Moreno Valley--Riverside The proposed project is to develop General Aviation facilities on 11.5 acres of vacant property south of San Michele Road and east of Heacock Street. The physical changes to the environment that are proposed as part of the development of the Project include the construction of a 150,000 square foot concrete aircraft parking apron; the construction of a connecting taxiway to taxiway; the realignment and construction of additional service road to existing on-airport emergency/service road; drainage improvements; construction of security fence; construction of 5,000 square foot General Aviation terminal facility; construction of two 10,000 square foot General Aviation aircraft hangars; parking lot and access road construction; erection of a 10,000-gallon aboveground aircraft fuel storage tank; demolition of existing 2,000 square foot structure (previously a recreation center for military SAC pilots and their families). All project components identified above as part of the proposed General Aviation facilities development will receive project-level analysis in an Environmental Impact Report.	NOP	06/15/2010
2009122079	Time Critical Removal Action for the Hamilton North Antenna Field, Hamilton Army Airfield, Novato, California Toxic Substances Control, Department of Novato--Marin The Hamilton North Antenna Filed (NAF) is a 270-acre parcel located north of the former Hamilton Army Airfield in Novato, California. The site is owned by the California State Lands Commission and was previously owned and operated by the Army as a rifle range and an antenna field with associated support buildings. The United States Army Corps of Engineers (USACE) Formerly Used Defense Site (FUDS) program is responsible for site remediation of the Hamilton NAF. The Hamilton NAF is planned to eventually be incorporated into the current congressionally authorized Hamilton Wetlands Restoration Project (HWRP). Based on historic sampling results, of the anticipated 90,000 cubic yards of amterial planned for excavation, at least 25,000 cubic uards will require disposal at an off-site appropriately permitted landfill, and the remaining 65,000 cubic yards may be suitable as a reusable material. Throughout the proposed project, dust control activities will be implemented in accordance with the Bay Area Air Quality Management District (BBAQMD) CEQA Guidelines.	Neg	06/15/2010

	production, rehabilitation and conservation to meet those needs; and to define the policies and programs that the County will implement to achieve the stated goals and objectives. The Draft Housing Element is a policy document intended as a guide to decision makers in meeting the County's housing objectives over the next five years, including the provision of housing for very low, low and moderate income groups. However, the compliance with the programs and policies of the Housing Element does not entitle or approve any development projects.		
2010051041	SB 2 General Plan Amendment/ Land Use Ordinance Amendments San Luis Obispo County San Luis Obispo--San Luis Obispo Hearing to consider a request by the County of San Luis Obispo to amend Titles 22 and 23 of the County Code, the Land Use and Coastal Zone Land Ordinances, and the Land Use Element/Local Coastal Plan-Part 1- Coastal Zone Framework for Planning to incorporate emergency shelters, transitional housing, and supportive housing per State law Sections 65582, 65583, and 65589.5. Request includes 1) amendment to Title 22 to add section 22.30.265 emergency shelter use standards, amendment to section 22.80.030 to include definitions, amendment to section 22.18.050(9) Parking, and amendment to section 22.06.030 Table 2-2, 2) amendment to Title 23 to add section 23.08.269 emergency shelter use standards, and amendment to section 23.04.166(9)) Parking, and 3) amendment to Coastal Zone Framework for Planning Table O - Allowable Land Uses and the Land Use Definitions. The proposed project will apply countywide. ED09-193 (LRP2009-00002)	Neg	06/15/2010
2010051045	HRPC LLC/Phelps New Single-Family Residence and Guesthouse Santa Barbara County --Santa Barbara The request is for a CDPH to allow the construction of a new single-family residence with attached garage and guest house with detached garage and associated access improvements on a currently vacant parcel. The single-family residence would be approximately 3,548sf in size and the guest house would be approximately 800sf in size. The residential improvement portion of the project would require approximately 7,426 cubic yards of cut to prepare the site for development. The cut would be used onsite and incorporated into the access driveway as road base. A new, engineered bridge would be installed over Agujas Creek within the existing driveway alignment to meet Fire Department access requirements. The site would be served by a private water system, a private septic system and the County Fire Department Access would be taken via private drive from Hollister Ranch common roads.	Neg	06/15/2010
2010051047	Bioengineering Building University of California, Santa Barbara Goleta--Santa Barbara The Santa Barbara Campus proposes to construct the Bioengineering Building, a 3 story structure including a vivarium facility in the building basement. In total, the Bioengineering Building would provide ~49,690 assignable sf and 89,744 gross sf of floor area. The new building would be occupied by the Institute for Collaborative Biotechnologies, a unit of the Center for Stem Cell Biology and Engineering. The Bioengineering Building project site is located in the central portion of the UCSB Main Campus, east of and adjacent to the Davidson Library, northwest of Noble Hall and west of Webb Hall. 	track; internal and external remodeling of the existing Arena; construction of a new Community Hall; and the re-establishment of BMX tracks. The proposed improvements would be made by the City over a period of time and are detailed in an updated Master Plan for the Park. It is anticipated that the proposed update to the Park's Master Plan would also establish criteria and standards for site selection, design and management; and recommend an approach to selection, financing and implementation of improvements. The intent of the updated Master Plan would be to provide a comprehensive approach to the usage, improvements, and maintenance of Howard Park. The proposed project would also include a review of existing rates and establishment of new rates.		
2009122008	Digital Billboards Project Sacramento, City of Sacramento--Sacramento The Digital Billboard Project consists of City actions that would result in the construction and operation of digital billboard structures on City-owned property along major freeways within the City limits. The project includes an amendment to City Code provisions regulating signage that would allow digital billboards on City-owned parcels; rezoning for one sign location; approval of lease agreements with Clear Channel Outdoor; and construction and operation of 4 digital billboard structures following issuance of building permits by the City of Sacramento.	NOD	
2009122061	Gordon Water Line Relocation EIR Solano Transportation Authority Fairfield--Solano The 24 inch Gordon Water Line is currently located within the State Route 12 and Interstate 80 corridor. The new Gordon Water Line would be located within the Rockville Road right-of-way between intersection of Rockville Road and Suisun Valley Road to a point 1,600 ft west of Green Valley Road. The relocated Gordon Water Line would maintain the Vallejo Lakes water system connection between the 24 inch Gordon Water Line running within Suisun Valley Road and the existing 14 inch Green Water Line running west of Green Valley Road.	NOD	
2010011017	Pine Creek Ranch; Tentative Map and Site Plan; TM5236 and S09-009 San Diego County --San Diego The project proposes a Tentative Map and Site Plan to subdivide 111.6 acres into 4 lots. Two of the proposed lots would be developed with single family residences. One of the lots would contain an existing single family residence and equestrian facility and one lot would be granted to the Pine Valley Mutual Water Company for use as a well site.	NOD

2010022076	St. Antonius Coptic Orthodox Church Fellowship Hall Alameda County Hayward, Unincorporated--Alameda The expansion of a church facility consisting of construction of a 16,200 sf multi-purpose building on an adjacent parcel, with a Variance request for height.	NOD	
2010031102	City of Big Bear Lak Department of Water and Power, Water System Capital Improvement Programs Big Bear Lake, City of Big Bear Lake--San Bernardino The Department is proposing to construct new and replacement water system facilities (pipeline and wells) to serve the residents within its service area. It is the intent of this project to replace water distribution facilities in order to meet fire flow requirements, and to increase water production to meet peak day demand requirements of existing development and future connections.	NOD	
2010032028	Canyon Ridge Senior Apartments Alturas, City of Alturas--Modoc The proposed project includes a HUD 202, 200 unit senior apartment complex. The development is proposed to meet the growing needs of seniors both locally and regionally. The apartments will provide subsidized rental units, based on tenants income and circumstances. The proposed development will have 11 apartment buildings totaling 200 units, a club house, manager residence, open space including plaza area with a gazebo, covered parking accommodated 200 parking spaces, maintenance building, guest parking, and covered trash enclosures. The one and two bedroom apartments will average 600 to 800+ sf and will be housing in the 11 building surrounded by landscaped open space. The proposed project site is vacant without any improvements. The project area will include offsite improvements and total ~15 acres in size.	NOD	
2010032057	White Oaks Trail Rehabilitation and Removal Project Midpeninsula Regional Open Space District Palo Alto--Santa Clara The project consists of removal of an existing steep and poorly drained 1.25 mile portion of the Whit Oaks Trail in Monte Bello Open Space Preserve and replacement with a new 0.9 mile main trail and a new 1 mile connector trail through grassland and mixed evergreen forest. The purpose of the trail rehabilitation is to correct erosion and sedimentation problems associated with the existing trail, move the trail off a disc line, and create a new trail that provides a more scenic, safe and enjoyable recreational connection between the preserve's main parking lot and trail network. The new trail design will incorporate best management practices for controlling erosion, be constructed at an average 10% gradient using small earth-moving equipment, will not cross any creeks, will not remove any large trees, and will direct traffic away from a culturally significant area. The decommissioned portion of the existing trail will be restored to natural conditions.	NOD

2010058143	Orland Pit Wetland Mitigation Project Fish & Game #2 Orland--Glenn This streambed alteration agreement pertains to work to be performed within the floodplain of Stony Creek and to an unnamed drainage tributary to Stony Creek. This work is part of a larger project that will create/enhance 3.48 acres of fresh emergent/riparian wetland habitat. The wetland creation/enhancement areas consist of three district areas of uplands situated immediately adjacent to existing wetlands. The wetland creation/enhancement activities will have very limited effects on the low flow channel. The wetland creation areas are currently upland and will be excavated to a depth that is slightly higher (about 6 inches higher) than the bank of the low flow channel. The wetland creation areas will flood during higher flows and their hydrology will also be supported by groundwater (similar to the existing wetlands adjacent to the channel). Non-native invasive plant species, such as giant reed (<i>Arundo donax</i>) and tamarish (<i>Tamarix parviflora</i>) would be eradicated from areas proposed for creation of wetland and upland riparian habitats. Following construction, the wetland areas would be monitored and maintained in accordance with the project's Wetland Mitigation and Monitoring Plan. Wetland Creation Area #1 is the only unit where construction will involve work affecting the bank of the low flow channel. Wetland Creation Area #1 will include two drainage ways that will route flow through the wetland unit. Connecting the upstream extent of each of these proposed drainages to the low flow channel	NOE

	will involve breaching approximately 6 feet of the bank of the low flow channel. The downstream connection of the proposed drainages will not require any channel work. Wetland Creation Areas #2 and #3 will not require any channel work. Additional work potentially affecting the channel will include two temporary crossings by bridge space (e.g., railcar bridge), culvert with clean gravel, or similar method. Construction of each temporary crossing will temporary affect approximately 15 linear feet of the low flow channel. The crossings will be removed up completion of construction activities and the stream bank restored to preconstruction conditions. Total impacts to stream bank are anticipated to be 42 linear feet (12 feet for connection of Wetland Creation Area #1 drainage ways and 30 feet for temporary crossings. Appropriate areas will be planted with wetland and riparian upland vegetation.		
2010058144	Backwash Reclamation Treated Water Storage Tanks Cuyama Community Services District --Santa Barbara Construction of a 300,000 gallon water storage tank and a 22,500 gallon Backwash reclaim watertank, including controls, pipes, valves to connect to the existing arsenic water treatment plant. Construction will result in treatment optimization.	NOE	
2010058145	Water System Improvement Project Planning, Design, and Environmental Documentation Trinidad, City of Trinidad--Humboldt This project is to complete the planning, design, and environmental documentation for proposed improvements to the City of Trinidad Water Treatment System, which include a new filtration system, transmission pipeline, chloration system upgrades, and other appurtenances. 2010051050	ENV-2008-290-MND - 18831 W. Tropham Street Los Angeles, City of --Los Angeles Expansion of an existing 6 bed Residential Care for the Elderly to 24 beds, including Alzheimer's/Dementia Care, within an existing one story, 13 bedroom, ~6,500 sf residential home, on an ~12,700 sf lot within the RA-1-K Zone. No new addition to the existing building are proposed. The project requires a Zone Variance to permit the proposed use within the RA-1-K Zone, and a Zoning Administrator's Adjustment to permit vehicle parking within the front yard setback as otherwise prohibited.	MND	06/16/2010
2010051051	100 Aquarium Way, Aquarium of the Pacific "Pacific Visions" Addition Long Beach, City of Long Beach--Los Angeles The proposed project involves construction of a 23,330 sf addition (14% floor area increase) to an existing 166,447 sf aquarium facility. The project consists of a new wing with a "media-based chamber," an expanded retail store, and a new front entrance. The Aquarium's total ground lease area is 276,371 sf (6.34 acres). The project will be designed and built to the USGBC's LEED Gold standards with "add-alternate" design plans to bring the project to Platinum status if funding is available.	MND	06/16/2010
1996052016	Pacific Commons Planned District Amendment Sub Area 5 Fremont, City of Fremont--Alameda NOTE: Supplement. A Major Amendment to the Pacific Commons Planned District (rezoning), and project entitlement for development of 350,000 square feet of retail/commercial uses; and Amendment to the Pacific Commons Development Agreement to modify existing terms; and, a Tentative Map. Project previously approved as a 1.3 million square foot office/R&D park.	NOP	06/16/2010
2010051048	Santa Fe Bike Path/Multi-Purpose Trail Connection Project Tulare County Visalia, Tulare--Tulare The Tulare County Association of Governments on behalf of the County of Tulare is proposing to develop the Santa Fe Bike Path/Multipurpose Trail Connection project that will link the cities of Tulare and Visalia. The project generally follows the historic BNSF railroad right-of-way. The southern terminus of the trail is at Prosperity Avenue and the northern terminus is Avenue 272. The proposed trail is approximately 5 miles long and consists of a Rail-to-Trail section (trail along an active rail corridor), and a Rail-with-Trail section (trail along an active rail corridor). Additionally, the County of Tulare seeks to acquire portions of 11 parcels of land, which include lands owned by irrigation districts and private landowners, for the project instead of accepting easements of use.	NOP	06/16/2010

	RWUSD to adjust for declining enrollment for the 2010/2011 school year. In addition, physical modifications are proposed to the existing Valley of Enchantment Elementary School in Crestline, CA, to accommodate additional students in grades K-5, with a projected staff of 35-40. Additional classrooms, ingress and egress improvements, as well as parking and playground modifications are proposed at the VOE elementary school (only) and are included as part of the proposed project.		
2010051052	Parks and Recreation Facilities Master Plan San Benito County Hollister--San Benito The project is the creation of a Parks & Recreation Facilities Master Plan. Policy 47 of the San Benito County Open Space and conservation element requires the County to "Develop a County-wide parks master plan to identify long-range recreational needs of the County, potential trail corridors, and areas for potential recreational-tourist services/programs." The purpose of the Parks Master Plan is to define a vision for parks and recreation in San Benito County for the next 20+ years to determine the role of the County within that vision and to develop a realistic implementation program to achieve that vision.	Neg	06/16/2010
2008051066	YULA Boys High School Expansion Project Los Angeles, City of Los Angeles, City of--Los Angeles NOTE: Review Per Lead The project substantially implements the campus expansion authorized by the existing CUP issued in 1999 (Case Number ZA-1999-279-CU-ZV-PA1), (and accompanying Mitigated Negative Declaration, MND-99-0151), while requesting amendments to specific permit conditions. Among the specific amendments requested is the alteration of the enrollment composition, including an increase in the number of high school students, while retaining the total enrollment cap established by the 1999 CUP. The applicant also requests amendments to specific operating conditions in order to provide increased flexibility for typical high school activities. The project also includes a reduction of the site to eliminate approximately 7,153 square feet on the second and third floors of the project site known as the "West Wing." The West Wing will be the subject of separate applications filed by the Simon Wiesenthal Center. The project proposes a subterranean parking garage that would provide 100 parking spaces, and a total of approximately 19,953 square feet of new construction. The project Applicant is requesting the following discretionary approvals: Site Plan Review Findings pursuant to LAMC Section 16.05-E; Conditional Use Permit/Modification; Parking Variance/Modification; and Haul route(s) approval, as necessary. 2008112103	<p>Amended/Restated Redevelopment Plan for the Richmond Merged Project Area Richmond, City of Richmond--Contra Costa</p> <p>The proposed Amended Redevelopment Plan would amend the existing constituent Redevelopment Plans to: (1) increase the limit on the amount of tax increment revenue that the Agency may claim from the portions of the Merged Project Area subject to the current limit of \$521.4 million to a revised limit of \$1.06 billion; (2) increase the limit on the principal amount of bonded indebtedness secured by tax increment revenue that may be outstanding at any time for the 2005 Added Area to the Nevin Project Area from the current limit of \$150 million and for the remaining Merged Project Area from the current limit of \$250 million to a revised combined limit of \$1.61 billion; (3) extend the time limit for eminent domain authority over non-residential properties and unoccupied residential properties for up to 12 years, but no longer than the plan effectiveness limit for applicable Constituent Project Areas within the Merged Project Area other than the Galvin Project Area; (4) amend, restate, and consolidate the redevelopment plans for the nine Constituent Project Areas within the Merged Project Area into a single consolidated redevelopment plan for the Richmond Merged Redevelopment Project Area, which incorporates the applicable provisions from each of the current Constituent Redevelopment Plans; and (5) update various text provisions from the Constituent Redevelopment Plans to conform to the current requirements of the Community Redevelopment Law.</p>	NOD	
2009112070	<p>FFMP Phoenix Lake Road Pipeline Seismic Reliability Project Marin Municipal Water District Ross--Marin</p> <p>The project would replace an existing 18 inch diameter welded steel pipe installed in the 1950's and a 12 inch diameter cast iron pipeline installed in the 1920's in the Corte Madera Creek watershed above the Town of Ross. The segment of pipeline proposed for replacement would extend ~3,600 ft from intersection of the unpaved Shaver Grade, Fish Grade, and Phoenix Lake Roads in the west to the Ross Reservoir in the east (APN 197-120-04, 197-120-23, & 197-120-35).</p> <p>The project would also replace 7 existing drainage culverts that discharge within the Fairfax Creek and Corte Madera Creek Watersheds: two on Concrete Pipe Road, one on Shaver Grade Road, and 4 on Phoenix Lake Road (APN 197-120-04, 197-120-23, 197-120-35). The goal of replacing the existing culvert is: 1) to reduce the potential sediments that would be delivered to a creek or reservoir by a culvert failure; and 2) to protect the road and buried pipeline from a potential culvert failure. The new culvert installations would meet current best management practices for roads and trails and would provide more assured access to watershed and District facilities.</p>	NOD	
2010031068	<p>CSUCI Wellwater Desalter Project Camrosa County Water District Camarillo--Ventura</p> <p>Phase 1 of the project consists of refurbishment and reactivation of an existing well on property leased from the CSUCI and construction of a 1/2 MGD (million gallon per day) desalination plant at the District's existing facility adjacent to the University with associated pipelines between well and existing facility sites. Phase 2 of the project will expand production to 1.0 MGD.</p>	NOD

	Adjust roadway realignment to accommodate Surface Transportation Assistance Act (STAA) truck traffic, thereby removing the restriction of STAA vehicles while improving safety and operation of Route 101.		
2010051053	<p>Aliso Canyon Road Drainage Improvement Project; FCDDT-00259 San Diego County --San Diego</p> <p>The proposed project consists of drainage improvements along Aliso Canyon Road beginning at the intersection of Aliso Canyon Road and El Camino del Norte and extending north on Aliso Canyon Road to the T-intersection with Avenida del Duque. Drainage improvements include replacing and improving existing underground storm drain pipes, culvert, curb inlets, catch basins, headwalls, storm drain cleanouts, and associated utility relocations and roadway improvements. The total length of the project is ~2,100 ft.</p> <p>The purpose of the project site is to allow proper conveyance of storm flows, up to the 100 yr storm, as the current storm drain is undersized resulting in flooding of Aliso Canyon Road during large storm events. Project elements include replacement of existing corrugated metal pipes (CMP) with reinforced concrete pipes (RCP) and reinforced concrete boxes (RCB), a transition structure, cleanouts, headwalls, wingwalls, curb inlets and road improvements associated with installation of the new pipes. The existing storm drain is within County right-of-way; however, additional drainage easements will be obtained as part of the project.</p>	MND	06/17/2010
2010052046	<p>Deer Creek Irrigation District Deer Creek Flow Enhancement Project Deer Creek Irrigation District Corning--Tehama</p> <p>Note: Extended Review to end on July 9, 2010.</p> <p>The proposed project is a component of the Conceptual Framework for the DCFEP. The project is the implementation of Phase One of the Memorandum of Agreement between DCID, Northern Region DWR, and California Department of Fish and Game (DFG) for the construction, operation, maintenance and monitoring of a flow enhancement program on Deer Creek. Phase One of DWR's Conceptual Framework for the DCFEP is a water exchange project intended to provide salmonid passage flows for adult spawners and out-migrant young in Deer Creek. Specifically, Phase One includes: 1) Bypassing 10 cfs of surface water from Deer Creek during critical migration periods 2) installation of two groundwater supply wells or retrofit of two existing wells for irrigation purposes and 3) Deer Creek Annual Monitoring Program (DCAMP).</p>	MND	07/09/2010

	includes the extension of Saratoga Drive from its current terminus to connect to Silverado Trail/SR 121, and the widening of Silverado Trail/SR 121 to accommodate a new left turn lane and associated improvements.		
2010052048	McCloud Water Distribution Project McCloud Community Services District Mount Shasta--Siskiyou The project consists of replacement of the majority of the water distribution infrastructure throughout the community of McCloud with an entirely looped distribution system. The existing Bypass Pipelines, Schreder Phase 1 and Boyle Subdivisions pipelines would not be replaced since they have been installed within the past 10 yrs, and are not in need of replacement). The proposed project includes abandoning the existing distribution system in place and replacing it with ~12 miles (62,800 linear ft) of 6 inch to 12 inch PVC pipe. Much of the existing pipeline is within paved roadways or gravel alleys. The project is intended to serve the existing and planned needs of the MCSD for municipal and fire protection needs. The proposed project will require two crossing of Squaw Valley Creek, 5 crossings of Panther Creek, 4 crossings of the McCloud River Railway and 3 of SR 89. Three transmission mains would connect to the 12 inch looped main and cross SR 89 to serve the southern area of the MCSD. The project includes the installation of new fire hydrants throughout the MCSD. The distribution system is planned to be constructed in 4 separate phases, Phase 1 through Phase 4. The actual construction timeline and ultimate phasing will be dependent upon available funds and completion of design level engineering.	MND	06/17/2010
2010052049	City of Dunsmuir Wastewater Collection and Treatment Improvement Project Dunsmuir, City of Mount Shasta--Siskiyou The proposed project consists of replacement of sewer mains and laterals within existing paved roadways and improvements to the City's existing wastewater treatment plant to meet the requirements for waste discharge as set by the Regional Water Quality Control Board. The project is intended to serve the existing and planned needs of the City for municipal wastewater needs. The proposed project includes the replacement of ~2,500 linear ft of 6 inch to 10 inch sewer pipe. The WWTP is located on City-owned property within the unincorporated area of Shasta County. The project is intended to serve the existing and planned needs of the City for municipal wastewater needs.	MND	06/17/2010
2010051054	March JPA Vision 2030 General Plan Update March Joint Powers Authority Riverside, Moreno Valley, Perris--Riverside The JPA will prepare the Draft PEIR to address the potential impacts associated with the implementation of the updated General Plan. The proposed project consists of the following General Plan Update Elements: Land Use, Air and Noise, Circulation, Economic Development, Conservation and Open space, Safety and Housing. 2010042020	Master Agreement for Timber Operations and Road Management WDR for Green Diamond Resource Co. Fish & Game #1E Crescent City, Eureka--Del Norte, Humboldt, Trinity The Project is the issuance of a 50 yr Master Agreement for Timber Operations (FGC Sec 1600 et seq) and RMWDR that would allow GDRCo to construct, maintain, repair, replace, upgrades or decommission stream crossings, bank stabilization structures and instream restoration structures; draft and divert water; remove sediment and other channel obstructions; and remove vegetation affecting crossing facilities. To the extent that Authorized Activities could substantially affect aquatic resources and water quality, Green Diamond requires from the Department a MATO and from the North Coast Regional Water Quality Control Board an RMWDR.	NOD	
2010042026	2009-0007 Beale AFB Access Project (Smartville Road) Yuba County --Yuba Yuba County proposes to rehabilitate an ~6.5 mile long stretch of the Beale Air Force Base (AFB) access via Smartville Road from the State Road 20 (SR 20) intersection to Beale AFB. The rehabilitation of the road will include resurfacing, using the cold foam-in-place recycling method, shoulder widening, the replacement of existing culverts, smoothing curves, and adding a left-hand turn lanes at the intersection of Daughtery Roasd and a right-hand turn lane at Walsh. The average road width will be 30 ft, including 3 ft shoulder backing on either side of the road. All roadwork and staging of equipment will occur within the existing County right of way.	NOD	
2010059013	QCSD Wastewater Treatment Discharge Project Quincy Community Services District --Plumas Creation of a new treated effluent discharge channel from the area waste water treatment plant to adjacent Spanish Creek. Placement of mixing bars within Spanish Creek. Placement of armoring and scour basins within the effluent discharge channel to control flows and slow down-cutting of the channel. Additionally, sections of Clear Stream that are actively down-cutting will be rocked. The new discharge channel will result in excavation of ~0.1 acres (1200 linear ft) of the riparian zone associated with Spanish Creek. Construction in Clear stream	NOD

	is proposed for late summer when flows are not present. Water present in Spanish Creek during final construction and joining of the discharge channel with Spanish Creek will be diverted around the construction site. Appropriate native riparian vegetation will be planted in and along the armoring to help stabilize the banks of Clear Stream and the diversion Channel.		
2010058170	Erosion Repairs, Cultural Site Parks and Recreation, Department of --San Diego Alleviate soil erosion to a cultural site caused by water runoff from a nearby boulder hillslope in Anza-Borrego Desert State Park. The project will divert water to the east by building up a low berm on the south with cobbles and small amounts of brush. The berm will begin where the water exits the boulders and direct water about 10 meters to the east where it will disburse across a flat area and enter the wash to the east.	NOE	
2010058171	Johnsville Hazardous Fuel Reduction Parks and Recreation, Department of --Plumas Perform forest thinning and hazard fuel reduction on 36 acres at Plumas Eureka State Park to reduce the threat of wildfire and improve native forest composition and structure near the town of Johnsville. Work will include: mechanical mastication and hand crew tree and brush removal and pile burning in specified areas within the project site.	NOE	
2010058172	Red Ocotillo Trail Parks and Recreation, Department of --San Diego Delineate a footpath between the Borrego Palm Canyon Campground at Anza-Borrego Desert State Park and adjacent restaurant, the Red Ocotillo. The path would begin at the corner of the campground entrance road and the employee residence road and would extend approximately 500' NNE to a point in the existing boundary fence.	NOE	
2010058174	Liebre Mountain OHV Area Restoration Parks and Recreation, Department of Lancaster--Los Angeles The proposed project supports off-highway motor vehicle (OHV) recreation, and/or addresses damage to the environment caused by OHV recreation. The restoration work includes scarifying and seeding unauthorized OHV trails. Scarifying will be done by hand and heavy equipment in large areas of compacted soils. Heavy equipment will also be used to move large rocks in the project area to the shoulder of Forest Road 7N23. No-dig barriers will be installed along the Pacific Crest Trail in the project area. For project implementation, posts will be affixed and connected with piping or cables in locations to best prevent circumnavigation. Step-through barriers will be used, as needed to allow pedestrian and horseback access. Fencing may be used to block OHV access in some areas, as needed. Forest Service staff will apply avoidance and minimization measures (included in Appendix A in the Decision memo) during project implementation. These measures were incorporated into the Decision Memo, and are mandatory conditions of the project authorization.	NOE

2010058179	Point Loma High School - Weight Room San Diego Unified School District San Diego--San Diego The San Diego Unified School District proposes to construct a new weight room facility at the Point Lima High School campus. The new weight room will be a 2,800sf facility constructed of wood studs, stucco, and a metal roof. The project will include Americans with Disabilities Act (ADA) path of travel compliance.	NOE	
2010058180	Pilarcitos Canyon Blending Station Coastside County Water District --San Mateo To allow more efficient utilization of our Pilarcitos Lake Water Source by blending it with our crystal springs sources with subsequent reduction in energy usage.	NOE	
2010058181	More Accurate Prediction of Generational Impacts Through Better Characterization of Particulate Matter and Ozone Chemistry Energy Commission -- The overall goal of this project is to assess the reliability of PM modeling for Central California during the late summer/early fall of a recent year using EPA's new Community Multiscale Air Quality model and to determine their sensitivities to precursor compounds, especially those emitted during power generation. Specific objectives include: 1) Use this modeling platform to determine the contribution of power generation in the late summer and early fall to the lack of compliance with the annual average PM standard in the Central Valley; 2) Evaluate how the control strategies for each of these two pollutants, ozone and PM, might change if they are considered together	NOE	
2010058182	Advanced Foodservice Appliances for California Restaurants Energy Commission -- This project is comprised of a comprehensive program that integrates four (4) appliance efficiency development projects. The linked projects have the potential to reduce system costs while significantly increasing the installed efficiency of commercial foodservice and water heating equipment. The program includes strong links to the California commercial foodservice market through the project team members, five manufacturers, and two California utilities. The research team includes acknowledged experts in appliance design, new product introduction, field testing, laboratory testing and developing and disseminating energy efficiency information.	NOE	
2010058183	Permitting and Operation of Smith Well and Disinfection System Public Health, Department of --Riverside Nuevo Water Company (WC) has proposed to convert an existing agricultural well into a municipal water source to reduce the amount of water purchased from the Eastern Municipal Water District. The well was originally drilled and completed in October 1984. Nuevo WC purchased the well on February 19, 2009. Upon completion of ownership transfer the Nuevo WC rehabilitated the well and installed a new 200hp vertical pump. The project includes approximately 2,200 linear feet of new 10-inch diameter PVC located within the public right-of-way connecting the well to the existing Nuevo WC water distribution system, and a 12.5% sodium hypochlorite disinfection system. 2010058184	Auburn State Recreation Area Road Maintenance Project Forestry and Fire Protection, Board of --Placer, El Dorado The proposed project is to conduct general road maintenance on the existing ASRA road system. Cal Fire heavy equipment will be used to complete the work while operating within the existing road prism. Work will focus on existing erosion problems by grading, shaping (out-sloping) and establishing rolling dips. Erosion controls and energy dissipation may be installed at existing watercourse crossings to correct and prevent future erosion. Hazard trees may be removed is found to present safety issues. Overall, the project will facilitate better access to the Auburn Shaded Fuel Break and improve access throughout the ASRA for emergency response.	NOE	
2010058185	JDSF Equestrian Improvements Forestry and Fire Protection, Board of --Mendocino The project will: 1) install six 12 ft. by 12 ft. pipe corrals at three existing equestrian campsites at JDSF Horse Camp. 2) install five plastic 40-gallon green-colored water tanks along existing roads and one decommissioned road for horse watering. And 3) use an alternative route to cross horses from Horse Camp to northern JDSF to avoid taking horses through "people" campsites. All but one horse trough will be located next to a JDSF forest road, the fifth will be along a decommissioned road that is currently used by bikers, horse riders and hikers. The alternative route will utilize existing trails and river access locations.	NOE	
2010058186	Career Technology Education (CTE) Building Construction BMP's Lake Tahoe Unified School District South Lake Tahoe--El Dorado The project is the retrofitting of an existing school site with water quality treatment and erosion control facilities as required on all developed sites within the Lake Tahoe basin. The school was constructed in 1964 before current water quality Best Management Practices (BMPs) were required. The proposed project will restore and improve existing drainage facilities (conveyances, infiltration and detention areas) and provide necessary new facilities to meet the erosion control and water quality protection requirements of the Tahoe Regional Planning Agency (TRPA) and CA Lahontan Regional Water Quality Control Board.	NOE

2010051057	Los Alamos Fire Operations Center Santa Barbara County --Santa Barbara NOTE: Review Per Lead	MND	06/23/2010
	<p>To meet the fire protection needs of this area, the County is proposing to construct an ~12,400 sf Fire Operations Complex (FOC). The project would include replacement of the existing Fire Station 24 with a 6,800 sf Fire Station Facility on ~0.91 acres and would also include construction of a 5,600 sf FOC on two adjacent parcels (totaling ~0.68 acres) that would be purchased by the County. The FOC would provide working quarters for various sections within the Emergency Operations Division, a 4,000 sf warehouse/covered equipment maintenance facility, and offices for the Construction (heavy Equipment) Section of the Fire Department. The project would also include 1,600 sf for an office and living quarters for the North County Battalion Chiefs. The applicant for this project is County of Santa Barbara General Services, Capital Projects.</p>		
2010052051	Tahoe Forest Hospital - Measure C Rehabilitation & Enhancement Program Tahoe Forest Hospital District Truckee--Nevada	MND	06/21/2010
	<p>The objective of the TFHD is to maintain, upgrade and enhance a full-service hospital for the Truckee residents and surrounding community and to meet state mandated safety standards and code requirements.</p>		
2010052052	Heppe Coastal Development Permit and Special Permit Humboldt County --Humboldt	MND	06/21/2010
	<p>A Coastal Development Permit and Special Permit for a residential addition. The ~.5 acre parcel is currently developed with an ~1,767 sf residence. The applicant proposes to construct an ~2,602 sf two story (23 ft tall) addition and attached garage (~436 sf). The existing deck will be extended by 132 sf. A Special Permit is required because the development is ~60 ft from a wetland. The parcel is served by McKinleyville Community Services District for water and sewer. Two alder trees are proposed to be removed. Minimal grading is required.</p>		
2010052053	Humboldt County Public Works Runway Improvements Humboldt County --Humboldt	MND	06/21/2010
	<p>Phase 1 of the Runway Safety Area Improvement Project includes the installation of an Endangered Material Arresting System and related grading and paving on Runway 14, which will bring this runway closer to meeting its applicable standards. A Coastal Development Permit, CDP-08-27, for the Phase 1 work was issued by the Humboldt County Planning Commission at a public hearing on July 2, 2009. This construction project is in progress and expected to be completed in 2010.</p>		
	<p>Phase 2 of the RSA Improvement Project is intended to stabilize and restore failed portions of the coastal bluff adjacent to Runway 14 where the RSA extends over the bluff edge. Restoration of these bluff areas will allow the Runway 14 RSA to be in full compliance with FAA's RSA standards.</p>

2010032063	Feather River Parkway/Willow Island Project Yuba City Yuba City--Sutter The City of Yuba City (City) is proposing the Feather River Parkway/Willow Island Project (Project). The Project would implement recreational improvements and convert the Willow Island area into a river front park. The City received funding for the Project from the State of California Resources Agency, through the Proposition 50 California River Parkways Grant Program. The Project area encompasses approximately 65 acres and would create approximately 2.6 miles of public trails. The Project improvements would include pedestrian and cycling trails, public parking, a pavilion, picnic areas, field sport areas, boardwalk and beach landing. In addition, the Project would include public educational displays and interpretive signage to describe the setting of the viewable habitat. The proposed Project is a portion of the City's 2002 Feather River Parkway Strategic Plan.	NOD	
2009048324	Water Well No. 9 Replacement Project Lamont Public Utility District Lamont--Kern Lamont Public Utility District is proposing to construct and operate one new groundwater production well (Well 18) and chlorine treatment system. Well 18 replaced well 9 which was destroyed in 2005. Well 18 has an estimated yield of 1500gpm.	NOE	
2009058147	Granulated Activated Carbon Water Treatment System for Shafter Well No. 14 Shafter, City of Shafter--Kern The project consists of the permitting and operation of a granulated activated carbon water treatment system being added to Well No. 14, an existing City of Shafter well. The treatment system will include up to three above-ground carbon vessels, each 10 feet in diameter and 20 feet in height. Each vessel will have a volumetric capacity of 8,900 gallons and contain approximately 20,000 pounds of loaded carbon. Each vessel will process approximately 700 gallons of water per minute. Public agency approving project and carrying out project: This is to advise that the California Department of Public Health has issued a water supply permit	NOE

2010051067	Lighthouse Landing Needles, City of Needles--San Bernardino NOTE: Early Consultation Rio Resort is predominantly residential mixed use development on 235 acres located on the west bank of the Colorado River in the northern part of the city of Needles. The proposed development would include ~1,129 housing units. Estimated population at build out is 3,285. The majority are single-family homes ranging from low to high density, with some condominiums. Approximately 81 homes would be located adjacent to the river.	CON	06/22/2010		
2010054004	Upper Yuba Levee Improvement Project U.S. Army Corps of Engineers Marysville--Yuba NOTE: Review Per Lead The UYLIP proposes to enhance flood protection of properties within the Reclamation District 784 service area of Yuba County project improving the segment of the Yuba River South Levee from approximately Simpson Lane to the Yuba Goldfields. The project would involve installing slurry walls, seepage berms, levee geometry corrections, and levee slope erosion protection. The purpose of the proposed project is to correct through seepage, under seepage, and levee geometry deficiencies and improve the flood protection on the Yuba River South Levee. This action would provide a minimum 200 year level of flood protection in the project area and ensure that the project area meets the minimum requirements of Federal and State laws.	EA	06/23/2010		
1990010988	Antelope Valley Public Landfill Expansion Palmdale, City of Palmdale--Los Angeles The applicant is applying for certain modifications to the existing Conditional Use Permit (CUP) issued by Los Angeles County. The primary modifications sought are: 1) to enlarge the approved 114-acre refuse footprint by approximately 11 acres in order to reconfigure the two landfills into one contiguous disposal area and increase landfill capacity by approximately 14 million cubic yards; 2) update the overall area of the facility to 185 acres (adding 5 acres of ancillary facilities and other landfill property to the existing 180-acre area; 3) modify other certain	EIR	07/07/2010

	physical and operational aspects of the landfill; and 4) obtain a single Conditional Use Permit entitlement by the City of Palmdale for the entire facility.		
1995063004	San Francisco Transbay Terminal / Caltrain Downtown Extension Peninsula Corridor Joint Powers Board The Transbay Terminal/Caltrain Downtown Extension/Redevelopment Project Final EIS/EIR (FEIS/EIR) was certified by the City and County of San Francisco, the Peninsula Corridor Joint Powers Board, and the San Francisco Redevelopment Agency in April 2004. The Transbay Transit Center (TTC) is designed to occupy portions of the public right-of-way (ROW) above ground where the building and associated structures extend over the street and below ground where the train box extends below the street. The Transbay Joint Powers Authority (TJPA) intends to apply to the City and County of San Francisco to vacate the public ROW in those areas. The impacts associated with most of the TTC structures that require public ROW vacation were previously analyzed in the April 2004 FEIS/EIR. Minor changes to the building design, specifically (1) exterior façade of the upper levels and (2) a pedestrian bridge over Beale Street, were not analyzed in prior environmental documents. Accordingly, an Addendum to the April 2004 FEIS/EIR was prepared for this project by the TJPA pursuant to the provisions of CEQA.	FIN	
2008092101	Rancho Del Oro Estates Placer County --Placer The project proposes to subdivide the 119-acre site into 89 single-family lots nine common area lots, and associated road improvements.	FIN	
2009101031	Otay Mesa Recycled Water System Capital Improvement Program R2087, R2077, R2058 Project Otay Water District Chula Vista--San Diego The primary goals and objectives of the Project include the following actions: Construct facilities to meet existing recycled water demand in the Otay Mesa Service Area; Implement the Recycled Water System of the Water Resources Master Plan. The WRMP established phased CIPs that will be needed to provide an adequate, reliable, flexible, and cost-effective water system; Implement Recycled Water Policies of the State of CA, local land use jurisdictions, local and regional water supply agencies, the District, and the federal government.	FIN	
2010031128	Rambla Pacifico Road Reconstruction Project - 3565 Rambla Pacifico Malibu, City of Malibu--Los Angeles The proposed project consists of the reconstruction and realignment of a private section of Rambla Pacifico Street, which was destroyed by a landslide in 1984. The proposed 1,800 linear foot gated road segment would re-establish a linkage between the northern and southern sections of Rambla Pacifico Street. The proposed roadway would include two driveways per road, one lane in each direction, with one lane measuring 10 feet wide for a roadway width of 20 feet. Additional roadway features include a minimum curve radius of 32 feet at centerline, and maximum continuous grading of 20 percent. The road would be private and gated, with the Rambla Pacifico Road Owner's Association owning the road and the rights of easement. The public easement held by the City on the destroyed road would be vacated prior to the finalization of the reconstructed	FIN

	roadway.		
2010051070	301 Ocean Avenue Condominium Project Santa Monica, City of Santa Monica--Los Angeles The proposed project involves the construction of a new 3 and 4 story, 56,334 sf, 20 unit condominium complex consisting of 3 buildings oriented around a central courtyard on a 43,800 sq lot, 44 parking spaces would be provided within 2 levels of subterranean parking. The project also includes demolition of an existing 47 unit apartment complex.	MND	06/22/2010
2010052055	Valencia Creek Crossing - Water Main Repair Soquel Creek Water District Santa Cruz--Santa Cruz The proposed project is a repair of an existing water pipeline (8 inch main), which is part of the Soquel Creek Water District delivery system. The leaking water main is located within the channel of Valencia Creek, a perennial stream. The water main is encased in concrete, extending ~3 1/2 ft below grade. The approach to project construction is to minimize disturbance to Valencia Creek and the adjacent slopes by utilizing hand tools and minimizing the use of construction equipment. Although late summer flows are anticipated to be very low or non-existent, is water is present in the creek, a temporary diversion will be installed to direct creek flows around the construction area and to protect water quality.	MND	06/22/2010
2010052057	Seaton Winery (PLP09-0081) Sonoma County Healdsburg--Sonoma Request for a Use Permit for a winery with a maximum annual production capacity of 10,000 cases with public tasting, participation in 8 industry-wide events and 24 special events annually with a maximum of 60 people per event.	MND	06/22/2010
2010052058	Kiara Solar - Reactivation of a Cogeneration Plant Shasta County Air Quality Management District Anderson--Shasta The applicant submitted an Authority To Construct (ATC) application to the Shasta County Air Quality Management District for the reactivation of an existing cogeneration plant. The plant will produce steam used to produce electricity and steam used to dry lumber in kilns. The District ATC would allow the applicant to initiate the plant reactivation process. The District ATC will list operating conditions that state best available control technology (ie: emission control equipment; emission limits) requirements to satisfy pollutant ambient air quality standards. The plant project is limited to the increase in air emissions only.	MND	06/22/2010
2010052059	Helms Community Center San Pablo, City of San Pablo--Contra Costa The Helms Community Center project will substantially improve an existing park space by adding a new community center and terrace amphitheater recreation opportunities. The community center is being developed by the City at the Helms Middle School through a partnership with West Contra Costa Unified School District. The joint use agreement between the City and the school district helps to provide critical park space for residents in this fully developed area. The community also hosts a new housing development across the street from Helms Middle School. The community center's close proximity to the housing development and the middle school will provide a great resource to the residents.	MND	06/22/2010

	Recreational opportunities provided in the community center will include a multipurpose room with a stage, a teen lounge, a sound studio, a fitness room, an art room with a kiln, a technology room, and two classrooms. All these facilities will be in a 10,000 sf building.		
2010052061	Hennessey Creek Modification Project Fairfield, City of Fairfield--Solano NOTE: Review Per Lead	MND	06/23/2010
	The proposed Hennessey Creek Modification project would construct a creek diversion channel and settling basin immediately north of Reservoir Lane in Solano County to replace the existing Hennessey Creek bypass pipes. A parcel immediately north of Reservoir Lane has experienced flooding on a more regular basis after the bypass of Hennessey Creek to Green Valley Creek was constructed south of Reservoir Lane in 1993. The proposed project resulted from a settlement reached in a lawsuit filed by adjacent property owners against the City of Fairfield. The proposed project would also include the installation of a box culvert overflow structure underneath Reservoir Lane to connect the settling basin with Green Valley Creek; and new rock slope protection from the southerly side of Reservoir Lane to the top of the Green Valley Creek bank.		
2005091105	San Diego International Airport Master Plan - Amendments to Airport Land Use Plan and Airport Implementation Plan - Northside Improvements San Diego County Regional Airport Authority San Diego--San Diego The San Diego International Airport Master Plan delineates numerous improvements planned to occur at the airport, as generally defined within the long-term development framework of the AMP Airport Land Use Plan. Several of those improvements are more specifically defined for implementation within the Airport Implementation Plan. The AMP Final Environmental Impact Report (FEIR), certified in May 2008, addresses the land uses and improvements contemplated in the Airport Land Use Plan at a program-level of analysis, based on information available at the time. Over the past two years, additional planning and coordination with airport tenants and stakeholders has occurred regarding land use areas identified in the Airport Land Use Plan that now enables them to be added to the Airport Implementation Plan. Such improvements are planned primarily in the northern portion of the airport, also referred to as the Northside Development area, and include: * a Consolidated Rental Car (CONRAC) Facility; * Air Cargo Warehouse Facilities and Associated Improvements; * Central Receiving/Distribution Center * a Terminal Link Roadway along the eastern perimeter of the airport connecting the proposed northside facilities to the main terminal area; and * On-site utility improvements to serve the proposed development. 	revised reclamation plan which encompasses all associated surface disturbance in accordance with the Surface Mining and Reclamation Act (SMARA) of 1975. The original surface mining and reclamation plan which encompassed approximately 13.05 acres, CUP 5, Map 126 was previously approved by the Kern County Board of Supervisors on November 4, 1982. The existing and proposed mine expansion will encompass approximately 43.25 acres of land overall.		
2010051059	<p>Mariposa at Ellwood Shores; 07-217-RZ et al Goleta, City of Goleta--Santa Barbara</p> <p>The proposed project includes the following elements:</p> <ol style="list-style-type: none"> 1. A Rezone of 7760 Hollister Avenue from M-RP (Industrial Research Park) to C-3 (General Commercial). 2. An Ordinance Amendment for a Development Agreement between the City of Goleta and Mariposa, LLC to implement the project's fair share funding for Fire Station 10. 3. A Development Plan for a 70,510 square foot assisted-living community accommodating a maximum of 99 elderly residents. The structure would be two stories with a maximum height of 34'2" and include a covered porch at the entrance, a large central courtyard and a barbeque terrace. Additional development plan elements include a 350 kW emergency generator, landscaping, utilities, drainage improvements, and access and parking to serve the proposed project. Estimated earthwork quantities include 9,400 cubic yards of cut, 800 cubic yards of fill, with 8,600 cubic yards of export. 	NOP	06/22/2010
2010051060	<p>Santa Ana and Garden Grove Fixed Guideway Corridor Santa Ana, City of Santa Ana--Orange</p> <p>The Santa Ana and Garden Grove Fixed Guideway Corridor Project proposes to provide a new east-west transit line between the Santa Ana Regional Transportation Center (SARTC) and Harbor Boulevard. A key objective of the project is to improve access and mobility to downtown Santa Ana as well as to emerging economic redevelopment areas along an urban corridor that links the City of Santa Ana with Garden Grove. The project is envisioned to operate within city streets or within public rights-of-way. The Santa Ana and Garden Grove Fixed Guideway Corridor encompasses the Santa Ana Regional Transportation Center/Metrolink Station as well as a portion of the Pacific Electric Right-of-Way - a former, trolley line. The project will also provide east-west transit connections between Metrolink and planned north-south bus rapid transit lines on Bristol Street and on Harbor Boulevard.</p>	NOP	06/22/2010
2010051063	<p>Regional Beach Sand Project II San Diego Association of Governments San Diego--San Diego</p> <p>The Regional Beach Sand Project II (RBSP II) will widen beaches by adding millions of cubic yards of sand to eroded shorelines. It is the second major public works effort being coordinated by local government, working together through SANDAG. RBSP II will acquire sand from large deposits of sand located in 30 to 100 feet of water found within two miles of the shoreline. The RBSP II takes into consideration all of the unique features of the region's coastline and will avoid sensitive reef habitats in the nearshore and make every effort to minimize impacts to the coastal environment.</p>	NOP	06/22/2010

The proposed General Plan Amendment would amend the land use designation from (19) Intensive Agriculture to (3) Residential. The proposed rezone would change the zoning from A72 (General Agriculture) to RR2 (Rural Residential-2 du/acre).</p>	NOD	
2007121110	<p>Grassland Bypass Project San Luis and Delta Mendota Water Authority Los Banos--Merced, Fresno, Stanislaus The DFG is executing a Memorandum of Understanding (MOU) with the San Luis and Delta-Mendota Water Authority for the Authority's use of Mud Slough (North) through the China Island Wildlife Area. The purpose of the Project is to allow the Authority to continue its discharge of saline agricultural drain water from the Grassland Drainage Area to the San Joaquin River via the Mud Slough. The northern portion of Mud Slough flows through the China Island Wildlife Area, which is owned by the DFG. The DFG entered into a MOU for use of Mud Slough (North) and to ensure that appropriate monitoring of Mud Slough and the San Joaquin River will occur, that water quality objectives will be met, and that Mud Slough will be restored to its pre-1995 condition after the Project is terminated. The project period is from the execution of the MOU through December 31, 2019, or until Mud Slough is restored, whichever is later.</p>	NOD	
2008061026	<p>R2007-01829 (Bio-refinery) Los Angeles County --Los Angeles The project involves the development of 10 acres of vacant land into a cellulose ethanol production facility utilizing waste cellulose feed stock from an adjacent landfill. The Project will result in permanent impacts to 10 acres of Mohave ground squirrel (<i>Spermophilus mohavensis</i>) habitat. Project-related impacts are expected to result in the take of Mohave ground squirrel, a species protected by CESA.</p>	NOD

	and the concrete poured in place. The culvert would accommodate flows from a 100 year storm event. One coast live oak tree, approximately 20 inches diameter, would be removed and replaced at a 10:1 ratio. Approximately 1,400 sf of riparian vegetation would be affected by construction of the culvert. A sediment basin inlet would be constructed next to and immediately upstream from the culvert on the right side (looking downstream) of the stream channel. The basin would include an outlet constructed of rock slope protection near the top of the stream bank to allow water to flow to the creek. At another site, an earthen berm would be constructed in a swale to capture overland flow, retaining water and preventing sediment from entering an unnamed drainage that flows to a pastureland. The berm would be ~20 ft long, 4 ft high, and 8 to 10 ft wide at the base. All disturbed sites would be revegetated and stabilized using generally accepted erosion control practices. All work would be conducted when the sites are dry and devoid of surface flow.

2010058208	Temporary Emergency Permit for Treatment by Burning, California Department of Forestry and Fire Protection (CDFFP) Toxic Substances Control, Department of --San Bernardino Department of Toxic Substances Control (DTSC) has issued an emergency permit to California Department of Forestry and Fire Protection (CDFFP) to treat hazardous waste by burning. The hazardous waste to be treated consists of up to 100,000 pounds of fireworks (Department of Transportation Hazard Class 1.4). The items are seized by the CDFFP during multiple seizure actions and are illegal for sale in California. The emergency permit is effective from May 18, 2010 through August 15, 2010. Treatment will be scheduled depending on weather, logistics, and availability of personnel. The treatment activities will be conducted by qualified personnel from CDFFP, San Bernardino County Sheriff's Department Bomb Squad, and/or other local emergency response agencies. As the CDFFP does not have a permit for treatment of hazardous waste, DTSC has determined that an emergency permit should be issued. The fireworks are a potential safety hazard and present an unacceptable risk for continued storage. There is no alternative treatment available. The emergency permit is a temporary measure to allow CDFFP to proceed with its mandated responsibility to destroy seized fireworks.	NOE

2010032051	West Hills College North District - Expansion West Hills Community College District Firebaugh--Fresno West Hills Community College District plans to expand the Firebaugh campus. The existing structure will be demolished and replaced with a parking area. A new, two level facility will be located southeast of the present campus, and will include classrooms, administrative space, a library, bookstore, lecture hall, and laboratory, and a plaza that will incorporate the existing outdoor seating area. The expanded Project site will be ~1 acre, and is anticipated to serve ~1,200 students (600 existing plus 600 projected new students).	NOD	
2010058116	#228 Pier - Conduit, 3 light poles, sign light -- JOC 08-018.027.00 California State Polytechnic University, San Luis Obispo --San Luis Obispo The project consists of installing new lighting at pier landside parking.	NOE	
2010058221	Routine Maintenance of existing levees and ponds, minor alterations to lands and facilities Fish and Game (HQ) Environmental Services --Riverside Routine maintenance needs to be done on existing levees, ponds, facilities, and riparian areas within the San Jacinto Wildlife Area. Repair will be done on the levees of marahoa, ponds, and roads. Repairs to levees at Welkers ponds and ten existing blinds sites will be refurbished. Water delivery to riparian area will be enhanced. During these repairs any historic site for more plants will be flagged and no disturbance will occur within a 50 foot diameter, in addition, the top inch of any will be removed prior to repair and stand. After repairs are finished the topsoil will be re-distributed over this repaired levees.	NOE	
2010058222	San Diego Gas & Electric - Kearny, Corrective Measures Study Toxic Substances Control, Department of San Diego--San Diego The project involves the selection of remedy to address the risk resulting from the release of hazardous waste or hazardous waste constituents at the San Diego gas & Electric (SDG&E), Kearny - Maintenance and Operations Facility. Based on a risk assessment that is documented in the RCRA Facility Investigation (RFI) report dated October 26, 2009, a remedy is required for a 1.3 acre in the center of the site. The remaining 9.2 acres of the 10.5 acre site are suitable for unrestricted use because a risk assessment determined that the cancer risk to the hypothetical	NOE

	residential receptor is less than the point of departure of one in one million and the hazard index is less than one. This CEQA Notice of Exemption deals only with the remedy for the 1.3 acre impacted area.		
2010058223	Installation of water system fluoridation station of wells 28D, 40D, 41A, 46C Public Health, Department of Norwalk--Los Angeles The fluoride treatment station is designed to adjust the natural fluoride level of portable water to promote dental health.	NOE	
2010058224	Bank Protection Project for 6941 Garden Highway, SAA # 1600-2007-0122-R2 Fish & Game #2 Sacramento--Sacramento The project is limited the addition of riprap and planting of vegetation in the riprap joints to prevent further erosion and loss of habitat along the Sacramento River.	NOE	
2010058225	Transfer of land coverage rights to the South Tahoe Public Utility District's Luther Pass Pump Station - Standby Power Generator Facility Project Tahoe Conservancy --El Dorado Project consists of the sale and transfer of 1,245sf of potential land coverage rights from Conservancy-owned land, to a receiving parcel where an addition to an existing well building will be built. The transfer enables the receiving landowner to carry out the project without any net increase in the amount of existing land coverage in the hydrologically-related area.	NOE	
2010058226	New Office Space (ARB Project # 126633) Air Resources Board Chico--Butte The Air Resources Board proposes to lease new office space of approximately 1,100sf for an air monitoring station.	NOE	
2010058227	Soil Investigations - Formerly Used Defense Sites Parks and Recreation, Department of --San Diego Conduct soil sampling in various locations in Anza-Borrego Desert State Park to determine if metals are present in the soils, which could indicate the presence of munitions from sites formerly used by the military. Sampling will be conducted by the US Army Corps of Engineers. Sampling will consist of grab samples up to approximately 12" deep.	NOE	
2010058228	Deep Water Well Pump Station 15- Pump Test Rio Linda/Elverta Water District --Sacramento project involves well pump testing at a maximum rate of 2,500 gallons per minute over a 24-hour period, producing groundwater of an estimated maximum quantity of four million gallons. The pumped groundwater would be discharged to surrounding lands or adjacent roadside ditch(es) around the project area requiring compliance with the National Pollutant Discharge Elimination System program. Safety fencing would be installed around the project area. The pump test information will be used for subsequent well development at the project site to increase supply capacity and water pressure thereby reducing overall health and safety risks to the community. The project ground disturbance area was previously surveyed, and no sensitive biological or cultural resources were identified.	NOE

	determining the appropriate physical development and character of the City. The City has undertaken a comprehensive update of the General plan to reflect the growth that has occurred in the City since the adoption of the 1991 General Plan, as well as anticipated growth towards build-out of the City.		
2009111068	Towne Pass Rockfall Caltrans #6 --Inyo NOTE: Review Per Lead	FON	
	Caltrans proposes to improve safety by realigning a 0.6 mile segment of SR 190 from 10.5 miles east of Panamint Springs (PM 65.9) to 10.0 miles west of Wildrose Road (PM 66.5) within Death Valley National Park in Inyo County, CA. The project would reduce the potential negative impact of an unstable slope by realigning the roadway to the west of the existing centerline and using rockfall containment methods.		
2010051076	Jehovah Witness Kingdom Hall Temecula, City of Temecula--Riverside The project is proposed to be located on a vacant 2.32 acre parcel in the Very Low (VL) residential District within the City of Temecula. The proposed project also contains a blue line stream on its eastern edge. The immediately surrounding parcels abutting the site to the north and east are also zoned Very Low residential. Calle Girasol borders the parcel to the west and south with a public park and more Very Low residential beyond. The adjacent residentially zoned parcels each contain existing dwellings.	MND	06/24/2010
2010051080	Demolition and Removal of COG Owned Excess Building San Benito County Governments Hollister--San Benito NOTE: Review Per Lead	MND	06/26/2010
	The proposed project involves the demolition and removal of a 960 sf metal building and concrete slab. The proposed project involves removing materials containing asbestos and lead-based paint, removing the building, grinding the concrete slab, grading the site, and abandoning a septic system.		
2010051081	Adelanto Solar Power Project Los Angeles, City of Adelanto--San Bernardino APNs 3128-071-15, 3128-051-08, 3128-0961-05, 3128-071-05, 3128-071-06, 3128-071-04, 3128-071-12, 3128-071-03, 3128-071-11, 3128-071-02, 3128-071-01, 3128-071-09, 3128-071-10, 3128-071-14, 3128-071-18, 3128-051-06, 3128-051-07, 3128-061-01, and 3128-061-02. The Adelanto Solar Power project (ASPP) is a 10 MW solar photovoltaic (PV) electric generating facility located on 42.5 acres in the southwest portion of the existing Adelanto Switching Station in San Bernardino County. The project would install the PV panels and the ancillary facilities necessary for project operations including roads, transformers, and inverters. Electrical output would be transmitted from the proposed facility using existing power lines.	MND	06/24/2010

2010052068	<p>Phase II Closure at the Weaverville Landfill, Trinity County Trinity County --Trinity Trinity County has elected to construct a closure cap on a 6.5 acre (approximately) portion of the Weaverville Landfill.</p> <p>Title 27 of California Code of Regulations (CCR), Section 20005 et seq requires many types of landfills to be capped (covered) after waste disposal stops. During 1999, 10.14 acres of the Weaverville Landfill was capped with a Chapter 15 (the landfill regulations that predated Title 27) soil closure cap, and the Landfill was converted to a transfer station. The Landfill was left open for use at times when waste could not be shipped from the Transfer Station at the site to the Anderson Landfill in Shasta County. The need for such capacity is no longer necessary, and the County has elected to close the remaining 6.5 acres of the Landfill (Phase II Closure).</p>	MND	06/24/2010
2010052067	<p>Heisig/Reeves Agricultural Excavation (PA-1000095) San Joaquin County Stockton--San Joaquin An Agricultural Excavation to remove and reclaim 19.0 acres of sand material over a 2 yr period, with the removal of 99,632 cy of materials. The maximum excavation depth is 5.75 ft. The proposed reclamation end use is row crops.</p>	NOI	06/24/2010
2010051073	<p>San Diego Corporate Center San Diego, City of San Diego--San Diego Vesting Tentative Map, Planned Development Permit, Site Development Permit, Rezone from CVPD-EC to a new zone entitled CVPD - Mixed Use Center (MUC), Community Plan and Precise Plan Amendments, Easement Abandonment, and Right of Way Vacation to vacate a portion of Del Mar Heights Place for a phased mixed use development project on a 23.6 acres site that is currently graded and vacant. The site is located at 12910 Del Mar Heights Place, within the Carmel Valley Community Plan Area. The project would construct a mixed use development with a maximum of 2,044,200 square feet of building area with approximately 1,143,200 square feet consisting of commercial retail and office, including parking; 150,000 square feet consisting of a 150 room hotel; and 751,000 square feet consisting of 608 residential units. The project also would include public spaces, internal roadways, parking facilities, landscaping, hardscape treatments, and utility improvements to support these uses.</p>	NOP	06/24/2010
2010051075	<p>Plaza Banderas Hotel Project San Juan Capistrano, City of San Juan Capistrano--Orange The proposed mixed use retail/hotel project consists of a 3-story hotel with 124 rooms, including 75,000 gross square feet; a 1-story building and a 2-story building (retail/office uses) encompassing 12,200 gross square feet; and a 185-space parking lot. Project implementation will require the approval of a General Plan Amendment to change the land use designation from "3.1 General Commercial" to Planned Community; a Zone Change from "GC" (General Commercial) to "PC" (Planned Community) and adoption of a Comprehensive Development Plan; and architectural Control application for the preliminary site, architectural and related development plans for the Plaza Banderas site; and a Parcel Map to merge existing lot lines and consolidate the property into a single parcel.</p>	NOP	06/24/2010

2010051079	Yorba Linda 2008-2014 Housing Element & Implementation Programs Yorba Linda, City of Yorba Linda--Orange The proposed project consists of the adoption of the City of Yorba Linda 2008-2014 Draft Housing Element and associated Implementation Programs defined in the Element.	NOP	06/24/2010
2010052069	Pacific Gas & Electric (PG&E) Wave Connect Hydrokinetic Energy Project California State Lands Commission Eureka--Humboldt As proposed, PG&E will construct a facility consisting of four berths to house up to 30 WEC devices and install five submarine cables to transmit the wave-generated power to a land-based conditioning and power substation. The submarine cables from the offshore pilot facility would be installed from the surf zone using horizontal directional drilling (HDD) to a landing location onshore. The project is designed to be of small-capacity, with the WECs producing an average electrical output of 5 megawatts (MW), and of short-duration.	NOP	06/24/2010
2010051074	Palomar Commons Carlsbad, City of Carlsbad--San Diego Review per Lead A request for a General Plan Amendment, Zone Change, Site Development Plan, Special Use Permit, four Conditional Use Permits, and a Variance to allow the development of a 185,246sf retail commercial center on 16.55 acres located at the southwest corner of Palomar Airport Road and El Camino Real. The General Plan Amendment will create new text and Land Use designation of General Commercial (GC) and change the existing land use from Travel Recreation/Commercial (T-R) and a portion (.87 acre) of Planned Industrial (PI) to General Commercial (GC). A Zone Change from Commercial Tourist- Qualified development overlay (C-T-Q) and Planned Industrial (PM) (.87 acre) to General Commercial (C-2-Q) will implement the new land use designations. The Special Use Permit is for the development adjacent to the El Camino Real Scenic Corridor. The Conditional Use Permits will allow gas station/carwash, drive thru facilities for the bank, and a modification of the entrance to the adjacent San Diego County Animal Control facility. The variance is for the modification of the overall and individual sign area and letter height allowance for the home improvement store. The project will modify the entrance to the San Diego County Animal Shelter, add a new signalized intersection on Palomar Airport Road, close the existing left turn lane onto the project site on northbound El Camino Real, and add new deceleration lanes for project entrances on Palomar Airport Rd and El Camino Real. The project will also modify the northbound left turn lane on El Camino Real to Palomar Airport Road to provide dual left turn lanes at the intersection and construct a separate eastbound right turn lane only lane on Palomar Airport Road at the El Camino Real intersection. The project will require grading with an import of soil material. The project site was formerly developed as the Olympic Resort and Spa, which included an 80 room hotel, restaurant, health club, spa, conference center, parking lot, tennis courts and a golf driving range. 	Office, the creation of a new Grafton Plaza subarea in the Specific Plan and a Planned Development rezoning and a related Stage 1 Development Plan to allow future development under either Campus Office or residential mixed use option.		
2004021006	Beckett Parcel Map (S000348P/C001-0188) San Luis Obispo County San Luis Obispo--San Luis Obispo Request by Doug Beckett for a vesting tentative parcel map to subdivide an 82 acre parcel into two parcels of 40 and 42 acres each using a transfer of development credit under the Transfer of Development program (TDC), for the sale and or development of each proposed parcel. The project is located within the Agriculture land use category, at 2025 Nacimiento Lake Drive, approximately 1.8 miles west of Hwy 101.	NOD	
2006012113	Reynolds Ranch Project Lodi, City of Lodi--San Joaquin The Reynolds Ranch commercial development involves the construction of approximately 345,795sf of commercial retail uses, representing a variety of retail sales and services, to be contained in 19 buildings of varying sizes. The primary use will be Home Depot.	NOD	
2008011034	New High School at College and Cannon Carlsbad Unified School District Carlsbad--San Diego The Applicant proposes to alter portions of two unnamed drainages into Calavera Creek to accommodate the New High School and Cannon Project. The project supports 0.22 acres of waters of the State. Construction of the project would result in permanent impacts to freshwater marsh (0.07 acres), mule fat scrub (0.10 acres), and ephemeral streambed (0.02 acres). The project will avoid 0.03 acre of the 0.05 acre of streambed occurring on site. Minimization of project effects on jurisdictional areas will be through the on-site relocation of the existing drainage, rather than placing it underground. The relocated channel will remain as a natural bottom channel, thereby retaining some functions and values of the system, including groundwater recharge, flood attenuation, and pollutant uptake. East/west and north/south oriented bioswales will direct storm flows into Calavera Creek. To ensure minimal effects to downstream waters, Best Management Practices (BMPs) would be implemented during construction of the project, in accordance with the site's Storm Water Pollution Prevention Plan (SWPPP). In addition to the above, the site plan has been revised to provide a minimum 110-foot buffer between the project and Calavera Creek. Mitigation for impacts shall be accomplished through the creation, restoration/enhancement and/or preservation of like habitat within Department approved offsite and onsite mitigation areas dedicated as open space. 2010042047	<p>Madrone Landfill Closure Project Santa Clara County Morgan Hill--Santa Clara</p> <p>The scope of the Madrone Landfill Closure Project includes the following:</p> <ol style="list-style-type: none"> 1. Closure of the landfill on site in accordance with the "Madrone Landfill Closure Workplan", dated October 28, 2002. 2. Construction of an interim trail, during the removal and reconstruction of the existing segment of Coyote Creek Trail on site. 3. Removal of the existing paved public trail, a segment of Coyote Creek Trail, and reconstruction of a new paved trail and new fencing in the approximate original location. <p>Prior to start of construction on the subject project, a silt fence will be placed at the tow of the slope of Coyote Creek to minimize sediment from entering the creek and act as a physical barrier between the work zone and the creek.</p>	NOD	
2010059014	<p>Streambed Alteration Agreement 1600-2010-0095-3/THP #1-08-090 SON Forestry and Fire Protection, Board of --Napa</p> <p>The Applicant proposes to replace and enhance existing crossings and install temporary crossings on Class II streams within the timber harvest boundary located in Township 10 North, Range 14 West, German Rancho Section of the 7.5 minute USGS Stewart's Point Quad; Mt. Diablo Base Meridian. The project is limited to the following: replacing culverts at road point 4 and 5; installing a temporary crossing on skid trail crossings at road points 50 and 60; install a temporary crossing on a seasonal road at road points 81 and 87; shape the seasonal road and install a ditch that allows water to sheet flow toward the Class II watercourse; and installation of rolling dips on the seasonal road to allow the water to be diverted back into the stream at road points 76, 77, and 84. For all temporary crossings, at the end of timber operations, the stream channels will be returned to the natural stream grade and banks will be pulled to stable repose. The California Department of Fish and Game (DFG) is executing a Lake and Streambed</p>	NOD

	Alteration Agreement 1600-2010-0095-3 pursuant to Section 1602 of the Fish and Game Code to the project applicant, Gualala Redwoods, Inc.		
2010058229	Training Burn at Rancho de Guadalupe Area of Sierra Azul Open Space Preserve Midpeninsula Regional Open Space District San Jose--Santa Clara The project consists of burying up to nine acres of grassland and sparse chaparral at the Rancho de Guadalupe area of the Sierra Azul Open Space Preserve for the purpose of training and study. The burn project will occur during the period of April 1 and December 31, 2010.	NOE	
2010058230	Alexander Valley Road Culvert Modification Project Fish & Game #3 Healdsburg--Sonoma The modification of an existing culvert to prevent future erosion. Issuance of a Streambed Alteration Agreement Number 1600-2010-0121-R3 is pursuant to Fish and Game Code Section 1602.	NOE	
2010058231	Tuscan Way Townhomes (File DRP 09-3; SUB 09-1; & TP 09-3) Auburn, City of Auburn--Placer Design Review, Tentative Subdivision Map & Tree Permit for the construction of eight (8) townhomes ranging in size from 1,155 to 1,345sf with associated parking and landscaping. A tree permit is required for the removal of seven (7) native trees.	NOE	
2010058232	State College Boulevard Underpass Fullerton, City of Fullerton--Orange The proposed project is a grade separation of the existing grade crossing at State College Boulevard and the BNSF railroad tracks in the City of Fullerton. The project objectives are to meet the goals and objectives of the Southern California Trade Corridor Program and of the California Public Utilities Commission established priority list for the grade separation program. The project will improve safety for vehicles, trains, and pedestrians, and will reduce vehicle delay. Project features include right-of-way acquisition, traffic signals, storm drain and sewer improvements, utility relocation, and hardscape and landscape treatments intended to enhance the appearance of the project area.	NOE	
2010058233	EA 2010-0006 Yuba County --Yuba The project entails an emergency road closure and culvert replacement on Feather River Boulevard at the Plumas Lake Canal. On May 19, 2010, Yuba County Public Works discovered that a portion of a 72-inch culvert under Feather River Boulevard, south of Rich Road had collapsed. The adjacent culvert also showed signs of failure. The culvert and Plumas Lake Canal convey water to farms and are also part of the County's and Reclamation District 784 storm drain system. The Public Works Department has determined that the culverts cannot be repaired and need to be replaced immediately.	NOE

2010058235	Tier 2 - Planning Study for Water System Upgrade Semitropic Improvement District Wasco--Kern Tier 2 planning study for water system upgrade project for Tier 1 SRF funding. The project will provide reliable water supply and water quality meeting the arsenic drinking water standards.	NOE	
2010058236	Clearwell Replacement/Enlargement & Standby Power Project Buckingham Park Water Distirct --Lake The Water District must increase its storage capacity sufficiently to satisfy CCR 64554, which requires that the Water District must maintain water storage that is equal to or greater than the highest volume of water that was produced by the Water District in one day over the proceeding ten (10) years. In addition, a fire flow storage volume of ninety thousand (90,000) gallons, as required by the local fire protection district and the Lake County Subdivision Ordinance, must also be maintained by the Water District. To achieve sufficient water storage capacity as required by both the State of California, Department of Public Health and the Kelseyville Fire Protection District, the Water District must have the ability to store 500,000 gallons of portable water. The District proposes to locate this added storage capacity at its treatment plant, in a location of an existing redwood Chlorine Contact tank, which has not lived its useful life, and at times, due to the inadequate capacity of the tank, has been ineffective in providing the minimum Chorine Contact required by State of California regulation. The new storage tank will effectively assume that Chlorine Contact function of the District's inadequate redwood Chlorine Contact tank, and add sufficient storage to ensure the domestic water supply, as well as sufficient storage for fire flow. 2005031170	Fairmont Butte Motorsports Park Project, Project No. 02-176, RPA 2009-00005-(5) Los Angeles County --Los Angeles The proposed Fairmont Butte Motorsports Park project is a request for a Parcel Map application to subdivide the 320 acre subject property into 3 parcels. The proposed primary development is a 3.6 mile racetrack and its accessory facilities totaling 186,808 sf in 36 buildings. The racetrack facility will normally be leased out for use by private racing clubs or automobile companies for car testing purposes. Visitors are generally participants and their family members and friends. Few spectators are expected. Racing events occur during the day, but night time vehicle maintenance could occur and 24 hr security protection is proposed. Project includes a Conditional Use Permit application due to SEA designation; a Zone Change application form A-2-5 to C-R-DP zone on Lot 3 (276.8 acres) for racetrack operation; a Local Plan Amendment on 276.8 acres from Non-Urban to commercial; and a General Plan Amendment on 276.8 acres from non-Urban to Major Commercial. The property is partially located within the Fairmont and Antelope Buttes Significant Ecological Area (No. 57)	FIN	
2006081015	Serrano Commerce Center (SP 353, EIR 492, GPA 815, CZ 7365) Riverside County --Riverside NOTE: Review Per Lead Specific Plan No. 353 (Serrano Specific Plan) proposes to develop a 487.96-acre site with Light Industrial, Commercial Retail, Open Space - Conservation, and Open Space - Water land uses. Specifically, the project proposes a maximum of 6,733,144 sf of building area, which includes 6,660,994 sf of Light industrial building area on 372.06 acres and 172,150 sf of Commercial Retail building area on 17.45 acres. Additionally, 48.77 acres of the project site are planned for permanent conservation as open space in conformance with the Western Riverside County MSHCP. The project also proposes to construct 37.93 acres of project roadways and 13.08 acres of flood control.	FIN	
2008011082	Valley-Ivyglen Subtransmission Line and Fogarty Substation Project Public Utilities Commission Lake Elsinore--Riverside NOTE: Review Per Lead The project would primarily consist of the construction, operation and maintenance of a new, 25 mile 115 Kv subtransmission line to connect the existing Valley and Ivyglen Substations and the construction of the new Gogarty Substation to provide supplementary electrical services tot he City of Lake Elsinore area. The project would also involve improvements to the Valley and Ivyglen Substations, tie-ins between the new Fogarty Substations and existing subtransmission and telecommunications lines, and the installation of a new telecommunications line alongside the proposed subtransmission line. 	Angeles. This work includes installation of signage and tolling infrastructure. Project also involves associated improvements to the Adams Blvd. intersection and HOV bypass.		
2009061060	I-10 High Occupancy Toll Lanes Caltrans #7 Los Angeles, City of, Alhambra, El Monte, San Gabriel--Los Angeles Project proposes to convert an existing High Occupancy Vehicle (HOV) lane to a High Occupancy Toll (HOT) lane. The facility will also be restriped to add an additional HOT lane. Supporting electronic tolling equipment and overhead variable toll message signs will be installed for this project.	FIN	
	As per Los Angeles County Metropolitan Transportation Authority's draft operational plan, all current users of the HOV lanes will maintain toll-free access to the HOT lanes, and single-occupant vehicles will be provided the opportunity to buy access to the HOT lanes when capacity is available. The lanes will be constantly managed and dynamically priced to maintain a speed of 45 miles per hour. All users, despite occupancy, will be required to have a transponder when using the HOT lanes.		
2010051082	Fontana Water Company's Plant F23 Water production, Treatment, Storage and Distribution Project Public Health, Department of Fontana--San Bernardino As a domestic water purveyor, Fontana Water Company (FWC) is mandated to provide an adequate supply of potable water to its service area. FWC operates Plant F23. The existing plant contains a water production well, pipelines, and a chlorination facility to disinfect the water produced. Plant F23 is one of two production wells in the southern portion of FWCs service area. Perchlorate has been detected in water produced from this well in concentrations that exceed the current state Maximum Contaminant Level (MCL) of 6 parts per billion (ppb). Because Well F23A is an important source of water, FWC is proposing to install a perchlorate removal system at the site. FWC is also proposing to make other improvements to Plant F23 and the water system. In addition to the perchlorate treatment unit, FWC is proposing to install two 0.5 million gallon (MG) above ground storage reservoirs, a water chlorination system to disinfect the water from the well and a booster pump station to transport the potable water from the reservoir to the FWC water distribution system. 	school's athletic program.		
2010052073	Burlingame Downtown Specific Plan Burlingame, City of Burlingame--San Mateo Adoption of the Burlingame Downtown Specific Plan, a document prepared to provide an overall vision for the future of the City's Downtown district ("Plan Area"), an approximately 180-acre area centered on Burlingame and Howard Avenues. The Downtown Specific Plan details proposed land uses and their distribution, proposed infrastructure improvements, development standards, and implementation measures required to achieve its goals. The Downtown Specific Plan also identifies area-wide projects, such as streetscape improvements and implementation of parking strategies.	MND	06/25/2010
2010051083	Broadway Lofts - 200 East Broadway, Glendale Glendale, City of Glendale--Los Angeles The proposed project includes the demolition of an existing vacant retail building and construction of a mixed use project. The proposed mixed use project would contain residential uses on the second through fifth floors and commercial uses on the ground floor. The planned commercial uses would include a 12,585-square foot restaurant/entertainment use and a 14,057 sf restaurant. A total of 248 studio and loft residential units are included in the design of the proposed project. The second and third floors of the proposed project would include 62 studio units at 372 square feet on each floor. The fourth floor of the proposed project would include 62 loft units at 472 units each. The fifth and top floor of the proposed project would include 60 loft units at 499 square feet and 2 studio units at 372 square feet.	NOP	06/25/2010
2010051087	Victor Valley Wastewater Reclamation Authority: Town of Apple Valley Wastewater Reclamation Plant, City of Hesperia Wastewater Reclamation Plant, and Related Victor Valley Wastewater Reclamation Authority Apple Valley, Hesperia--San Bernardino The Victor Valley Wastewater Reclamation Authority (VWVRA) will serve as the Lead Agency under the California Environmental Quality Act (CEQA) and will coordinate the preparation of an Environmental Impact Report (EIR) that will evaluate the potential significant environmental impacts that may result from constructing and operating two subregional wastewater reclamation facilities: Town of Apple Valley Wastewater Reclamation Plant, City of Hesperia Wastewater Reclamation Plant (WRP), and Related Facilities. The wastewater would be treated to meet Title 22 standards and the recycled water produced from the two proposed WRPs could be used for landscape irrigation, industrial operations and recharge to the regional aquifer in the Alto Subbasin of the Mojave River Basin. Public scoping meetings are scheduled as follows: Apple Valley, June 15 and 17, 2010 at Vista Campana Middle School, adjacent to the Town Hall; and Hesperia June 22 and 24, 2010 at the VWVRA Board Room, 15776 Main Street, Hesperia. Meetings are scheduled from 6:30 pm to 7:30 pm at all locations.	NOP	06/25/2010

2010052071	<p>Bridge 23C0243 Replacement Project on Winters Road at Putah Creek Solano County --Solano Solano County, in conjunction with the City of Winters the California Department of Transportation, and the Federal Highway Administration, is proposing to replace the Winters Road Bridge over Putah Creek, a three-span, reinforced concrete arch structure. The existing bridge is eligible for listing in the National Register of Historic Places. The existing bridge is approximately 445 ft. long and carries vehicle traffic between Solano County and the City of Winters in Yolo County. Caltrans has identified the existing bridge constructed in 1907 as structurally deficient. The County and City have determined that it is not feasible to rehabilitate the existing bridge. The existing bridge does not meet current bridge width standards. The intersection with Putah Creek Road at the south end of the bridge will be realigned to improve safety for vehicles and pedestrians.</p>	Neg	06/25/2010
2007082168	<p>Candlestick Point-Hunters Point Shipyard Phase II Development Plan San Francisco Redevelopment Agency San Francisco--San Francisco Extended Review Per Lead</p> <p>The Project proposed includes a mixed-use community with a wide range of residential, retail, office, research and development, civic and community uses, and parks and recreational open space. A major component would be a new stadium for the San Francisco 49ers National Football League team. Additionally, new transportation and utility infrastructure would serve the Project including a bridge across Yosemite Slough. The description of the Project is organized under two major sub-components: Candlestick Point and Hunters Point Shipyard Phase II. In summary, the Project proposes development of 10,500 residential units with an associated population of 24,465 residents; 885,000 gsf of retail; 150,000 gsf of office; 2.5 million gsf of Research & Development uses; a 220 room, 150,000 gsf hotel; 225,000 gsf artist studio space and arts center; 100,000 gsf of community services; ~240 acres of new parks, sports fields, and waterfront recreation areas, as well as ~97 acres of new and improved State parkland; a 69,000 seat 49ers stadium; and a 100,000 seat performance arena. The permanent employee population associated with the Project would be 10,730. In addition, a 300-slip marina would be provided. Shoreline improvements would also be implemented to stabilize the shoreline. The Project would include structured and on-street parking and various infrastructure improvements to support the development.</p>	Oth	
2008031045	<p>Adoption of New Zoning Code - Title 11 Seal Beach, City of Seal Beach--Orange NOTE: Review per Lead</p> <p>The proposed Comprehensive Zoning Code Update is a complete revision of the City's Zoning Code and is intended to reflect the most appropriate and best available development regulations and standards to meet the desires of the community regarding future development within the City. Such a comprehensive revision effort has not been undertaken within the community since 1974. As such, there are many changes from both procedural and development regulation standards incorporated into the proposed zoning code that do not currently exist in the present zoning code.</p>	Oth

	The proposed Title 11, Zoning, does not change standards for basic lot size, density and building intensity, setback, lot coverage, height, parking, and sign regulations of the current zoning Code. There are minor changes to allowable and discretionary land uses within the City, such as news stands, kiosks, artist's studios, catering services, and handicraft/custom manufacturing uses. New provisions related to a number of design related issues are proposed, such as porches, additional building setbacks for structures more than 14 ft high, use of compatible material and design elements for building additions, and other design and aesthetic matters of concern to the City. In addition an "Administrative Use Permit" approval process is proposed which would allow the Director of Development Services to review and approve several types of discretionary land use approvals that are currently reviewed and approved by the Planning Commission.		
2008052069	65th Street Station Area Plan Sacramento, City of Sacramento--Sacramento The project analyzes three scenarios for roadway, bicycle, pedestrian, and transit improvements within the 65th Street Station Area. These circulation improvements would support existing and planned land uses in the area.	Oth	
2002091132	Victorville Sanitary Landfill Expansion Project San Bernardino County Victorville--San Bernardino The applicant proposes to expand the Victorville Sanitary Landfill, consistent with the EIR, in three phases. With the exception of the existing 67 acre landfill footprint, each new aread to be filled would be excavated 20 to 120 ft below grade. The excavated area would then be lined with an approved linear system and environmental controls such as a leachate collection and removal system (LCRS) would be developed. Once in place, refuse placement would begin.	NOD	
2007072023	Modesto Master EIR Update and General Plan Amendment Modesto, City of Modesto--Stanislaus Application to vacate a portion of Jefferson Street South of 8th Street, a portion of Madison Street south of MID Lateral No. 4, and an alley located west of Jefferson Street.	NOD	
2007072023	Modesto Master EIR Update and General Plan Amendment Modesto, City of Modesto--Stanislaus Rezone property located on the east side of McHenry Avenue, south of Morris Avenue from General Commercial (C-2) and High-Density Residential (R-3) to Planned Development Zone, P-D (591) to allow a car wash.	NOD	
2009092059	Calabazas Creek Flood Protection Project Santa Clara Valley Water District Saratoga--Santa Clara The project will replace a section of concrete culvert under Saratoga-Sunnyvale Road, construct a flood-detention basin adjacent to Calabazas Creek, and replace an existing Union Pacific Railroad wooden bridge with a larger capacity concrete bridge. The project is located along Calabazas Creek in the City of Saratoga between Saratoga-Sunnyvale Road and the Union Pacific Railroad.	NOD

2010058239	<p>Agreement 2010-0040-R4 - SLRSRA Dinosaur Point Low Water Parking Area Improvements Fish & Game #4 --Merced</p> <p>The Project consists of expanding the low water parking area approximately 12500sf. Approximately 200 cubic yards of base rock, 221 cubic yards of concrete, and 70 cubic yards of fill material will be used for the parking expansion. Approximately 400sf of damaged, existing asphalt parking area will be "saw" cut and removed. This area will be repaved with concrete along with the new parking area. The existing lot and new lot will be striped, including Americans with Disabilities Act (ADA) striping and signage. The existing, deteriorated boarding float will be replaced, A silt curtain or portadam will be placed appropriately if the work area is not dry. The Project will not affect any vegetation.</p>	NOE	
2010058240	<p>Temporary Urgency Change Petition State Water Resources Control Board --Sacramento</p> <p>On May 7, 2010, the U.S. Bureau of Reclamation (Reclamation) filed a temporary urgency petition pursuant to Water Code section 1435 et seq. to extend the season of rediversion under Permit 13776 (Application 18115) for 30 days, from May 15, 2010 to June 15, 2010.</p> <p>Under permit 13776, as part of the Central Valley Project (CVP), Reclamation diverts Stony Creek water to storage in Black Butte Reservoir from November 1 of each year to April 30 of the succeeding year. Water is then released from storage and rediverted at the Stony Creek Siphon (Constant Head Orific or CHO) into the Tehama-Colusa Canal (TC Canal), which serves the Tehama Colusa Canal Authority (TCCA), from April 1 to may 15 and from September 15 to October 29. With the temporary urgency petition, Reclamation seeks to extend the season of rediversion at the CHO.</p>	NOE	
2010058241	<p>Levee Instrumentation Pilot Study Water Resources, Department of --Sutter</p> <p>Conduct geotechnical investigations and install instrumentation along a section of the Project Levee system on the left bank levee of the Sacramento River to obtain real-time data pertaining to levee behavior during high-water events. The Project consists of two phases; Phase 1 associated with conducting geotechnical field investigations using cone penetration tests, and Phase 2 associated with instrumentation installation by way of borings.</p>	NOE	
2010058242	<p>Old Town SHP - Covert Pico Motor Court Guest Room into a Retail Space Parks and Recreation, Department of --San Diego</p> <p>This project consists of converting the Pico Motor Court Hotel Guest Room (1939) now a concession in Old Town SHP and used as retail space by removing some previously disturbed and previously undisturbed historic fabric including an entrance cut into a historic surrounding low wall.</p>	NOE	
2010058243	<p>Old Town SHP - Relocated 1 Door at Tienda De Reyes (09-10-SD-44) Parks and Recreation, Department of --San Diego</p> <p>This project is the removal of an outward opening side entrance door from its present canted corner known as the Fiesta De Reyes, south of the canted entry way, the new entry will feature an inward opening door with a three step wooden</p>	NOE

	entry boxed landing leading down to the inner courtyard's clay tiled eastern perimeter pedestrian walk.		
2010058244	Historic Landscape Improvements (09-10-SD-43) Parks and Recreation, Department of --San Diego This project consists of removing some non-historic and some invasive plantings surrounding the Old Town Plaza historic wall renovation at Casa de Pico Motor Court and replacing with more appropriate plantings.	NOE	
2010058245	Storm Drain Repair within Palomar Airport Road Right of Way (09-10-SD-40) Parks and Recreation, Department of --San Diego This project consists of the repair of a storm drain located in South Carlsbad State Beach. To repair storm drain the City of Carlsbad (City) Staff will need to gain access on State Park Property. The City intends to remove the existing damaged corrugated metal pipe and replace with new tar coated corrugated metal pipe. Additionally the City will import fill material and backfill the slope and install a small energy dissipater. For erosion control the City will install jute matting. In addition to a dump truck, the crews will use a case 580 rubber tire backhoe. An 8" wide access corridor will be needed. DPR will issue a Right of Entry Permit to the City.	NOE	
2010058246	Approval of Draft Soil Removal Action Workplan for Area of Concern 1- Edison Alhambra Combined Facility Toxic Substances Control, Department of Alhambra--Los Angeles This project involves DTSC's approval of a Draft Soil Removal Action Workplan (RAW) which describes response actions to remove total petroleum hydrocarbons (TPH) from soil in the upper 10 feet of a 120 foot by 90 foot area located in Area of Concern 1 (AOC-1) where there are potential plans to construct a one story office building. The potential future building is anticipated to have footings no deeper than 5 feet below ground surface (bgs) and therefore TPH removal will be limited to the upper 10 feet bgs and remove approximately 2,000 cubic yards of impacted soil for disposal at an approved solid waste landfill.	NOE	
2010058247	Water Quality Enforcement Policy State Water Resources Control Board -- This is not a specific project. It is a policy that applies to enforcement of water quality laws and regulations throughout the State of California.	NOE	
2010058248	ITS Tier 4 Elk Grove, City of Elk Grove--Sacramento In order to improve traffic signal operations and improve energy efficiency, The City proposes to construct several Intelligent Transportation System (ITS) improvements at various locations throughout the city. All work would take place within the existing roadway prism, sidewalks, or on existing traffic signal poles within existing City right-of-way. All project activities will occur within City right-of-way or public utility easements on previously disturbed land. The project would not change the horizontal or vertical alignment of the roadways or sidewalks, and no traffic generating structures or features would be constructed as part of this project.	NOE

Project approval is at the discretionary authority of the Local Enforcement Agency, County of San Diego Department of Environmental Health.</p>	NOE	
2010058250	<p>Initial Improvements Parks and Recreation, Department of El Centro--Imperial</p> <p>The project will replace temporary facilities at Heber Dunes SVRA with permanent facilities including the entrance kiosk, park residence, ranger station, maintenance facility with shade structure, upgrading of vehicular access, picnic sites, park host hook up sites, low-water landscaping, fencing, signage, drinking fountains, and other ancillary features and amenities. Construction will occur in active use areas that are previously disturbed.</p>	NOE	
2010058251	<p>Petition by Sonoma County Water Agency requesting approval of Temporary Urgency Change in Water Right Permits 12947A, 1249, 12950, and 16596 State Water Resources Control Board --Mendocino, Sonoma</p> <p>1. From May 25 through October 15, 2010, in-stream flow requirements for the upper Russian River (from its confluence with the East Fork of the Russian River to its confluence with Dry Creek) be reduced from 185 cubic feet per second (cfs) to 125 cfs; and</p> <p>2. From May 25 through October 15, 2010 in-stream flow requirements for the lower Russian River (downstream of its confluence with Dry Creek) be reduced from 125 cfs to 70 cfs, with the understanding that the SCWA will typically maintain approximately 85cfs at the Hacienda gage as practicably feasible. No changes to the in-stream flow requirements for Dry Creek are requested. The petition is made to comply with mandates in the Biological Opinion which was issued by the National Marine Fisheries Service (NMFS) on September 24, 2008.</p>	NOE	
2010058252	<p>Adoption of Revisions to the State Energy Efficient Appliance Rebate Program Guidelines Energy Commission Sacramento--Sacramento</p> <p>The purpose of this activity is to revise Guidelines previously adopted by the California Energy Commission to govern the administration of its State Energy Efficient Appliance Rebate Program pursuant to Public Resources Code Section 25460-25463. The Guidelines describe how the Energy Commission will implement its State Energy Efficient Appliance Rebate Program and identify available funding, eligibility criteria, and procedural requirements to qualify for program funding. The Guidelines were revised to extend the rebate period under the State Energy Efficient Appliance Rebate Program, to allow consumers additional time to submit rebate applications, and to make other minor clarifying changes. The California Energy Commission and participants of the State Energy Efficient Appliance Rebate Program benefit from the adoption of revisions to these Guidelines.</p>	NOE

	inadequate levee height, slope stability and geometry, and erosion.		
2009072008	Pinoleville Pomo Nation Casino Project Pinoleville Pomo Nation Ukiah--Mendocino The Pinoleville Pomo Nation of California proposes to develop a 90,000 +/- sf casino and a 72,100 +/- sf hotel, as well as an associated parking structure on Tribal lands. There would be ~28,500 sf of gaming floor and an additional 61,500 sf of associated facilities including food and beverage services, retail space, and banquet/meeting space. Food and beverage facilities would include a buffet, a specialty restaurant, and a lounge. 125 rooms with associated meeting space and support elements are proposed for the hotel structure. A parking garage would also be developed as part of the Proposed Project.	EIR	07/12/2010
2010051090	Hacienda Plaza Disposition and Demolition Project Monterey County Salinas--Monterey NOTE: Cross Reference SCH #'s 2010041089 & 2010051091 The Housing Authority of the County of Monterey (HACM) is proposing to dispose of and demolish an existing 100 unit public housing facility, and associated structures, located on a scattered site and is commonly referred to as Hacienda Plaza. There are 76 units and a community room located on the Calle Cebu site and 24 units, an office, and storage facility located on the East Rossi Street site. The demolition of this public housing facility is proposed in 2 phases with the demolition and disposal of material from the Calle Cebu site first and the demolition and disposal of material from the East Rossi Street site second.	FON	
2010051091	Laguna Hacienda Redevelopment Project, Calle Cebu Site Monterey County Salinas--Monterey NOTE: Cross Reference SCH #'s 2010041089 & 201051090 The proposed action would redevelop the 5.5 acre Calle Cebu site (APN 003-121-010-000) as a new affordable housing facility. The proposed action includes a Conditional Use Permit (CUP) from the City of Salinas for the development of a multi-family residential facility and associated residential services facilities. The residential component would encompass 11 multi family residential buildings (Buildings A through H, J through L) providing a total of 99 affordable residential units and would have an average density of 18 dwelling units per acre (DU/A). The non-residential component includes a 2 story "Residential Services Facility" (RSF) building. The RSF building would encompass ~12,068 sf and would have a Floor Area Ratio (FAR) of 0.54. Grading activities would result in ~3,500 cy (yds3) of cut and 3,500 yds3 of fill. The proposed action would include ~87,000 sf of landscaping and ~77,431 sf of open space area for the residents.	FON	
2005122055	Grandview Inn St. Helena, City of St. Helena--Napa On May 23, 2006 the St. Helena City Council approved entitlements to convert the +/- 3.38 acre Grandview property containing +/- 40 existing multi-family apartments into a mixed-use commercial inn and residential project containing a 35 room inn with 22 studio apartments. One of the mitigation measures required	MND	06/28/2010

	that the studio apartments were to be rented as affordable units to qualified tenants.		
	A Use Permit Amendment application was submitted by the owners, 1915 Main Street Associates, and new project applicants, Jeff Feeney and Todd White on April 16, 2010. The requested amendment is to allow a project revision that would increase the number of hotel rooms to 57 and would eliminate the 22 studio apartments. An enhanced Housing Impact fee to the City of St. Helena Housing Trust Fund would be made to supplement the construction of affordable housing at another site.		
	The property was rezoned MR: Medium Density Residential to SC: PD-HP: Service Commercial with Planned Development and Historic Preservation Overlay in 2006 (Ordinance 2006-4). The PD zoning is tied to a specific project description and development plan. The development plan is not changing, but the project description is changing. The PD overlay zoning must be re-adopted if the new project (elimination of on site affordable housing) is approved.		
2010051089	South Boundary Road/Gigling Road Improvement Project Fort Ord Reuse Authority Seaside, Del Rey Oaks, Monterey--Monterey This EA/IS has been prepared to assess the environmental impacts associated with the roadway widening and associated improvements of ~12,476 linear ft (2.36 miles) right-of-way along South Boundary Road and Gigling Road on the former Fort Ord Army Base. The scope of the project includes roadway improvements, pipelines, gas lines, electric lines, cable television and communication facilities, and street lighting.	MND	06/28/2010
2010051092	State Route 180 Braided Ramps Project Caltrans #6 Fresno--Fresno NOTE: Review Per Lead Caltrans proposes to build new braided ramps on State Route 180 between State Routes 41 and 168 in the City of Fresno (PM R58.4/R60.4). The project would construct new braided branch connections between State Routes 41, 180, and 168 to improve traffic operations, reduce congestion, and enhance traffic safety within freeway-to-freeway interchanges.	MND	07/01/2010
2010052075	San Marco Service Station Pittsburg, City of Pittsburg--Contra Costa NOTE: Review Per Lead The proposed project consists of various entitlements necessary to construct a retail gasoline service station with a convenience store, self-service restaurant and drive-through mechanical car wash. An alternative to the proposed project adds a drive-through window to the restaurant component. The requested entitlements include amendment of the San Marco Development Agreement and zoning map to allow commercial use of the property; use permit approval for a service station; and design review approval of site development plans and architectural plans for the buildings and pump station canopy. 2010041059	Los Angeles Memorial Sports Arena Los Angeles Memorial Coliseum Commission Los Angeles, City of--Los Angeles The Proposed Project would consist of the demolition and removal of the existing Sports Arena and the redevelopment of the Project Site with a new use that would reactivate the underutilized Project Site. In an effort to be responsive to changing community needs and market conditions, the Los Angeles Memorial Coliseum Commission is considering two different and mutually exclusive future uses for the Project Site: a civic multiple use space, or a new professional 20,000 seat outdoor soccer stadium. Both of these development options will be analyzed in an equal level of detail in the EIR to allow flexibility for the potential entitlement of either one of the two projects.	NOP	06/28/2010
2010051094	Uptown Newport Village Specific Plan Project Newport Beach, City of Newport Beach--Orange The proposed project includes redevelopment of existing industrial and office uses with residential and mixed-use development. Approximately 1,244 housing units, 11,600 square feet of neighborhood-serving uses, a Central Park and two pocket parks totaling 2 acres (required by the specific plan and zoning code) would be developed in a pedestrian-friendly village format. A new street system grid would be developed to provide appropriate circulation throughout the project site for both pedestrians and vehicles, breaking up the project site into four development blocks referred to as Parcels 1 through 4.	NOP	06/28/2010
2010051088	Annual 4th of July Poker Run Special Event at ODSVRA (July 1 through 4, 2010) Parks and Recreation, Department of --San Luis Obispo CDPR proposes to issue a Special Event Permit for the Friends of Oceano Dunes Annual 4th of July weekend Poker Run at ODSVRA in the community of Oceano, San Luis Obispo County, CA. The event's six commercial vendors will set up on June 30, 2010. The special event will be held from Thursday, July 4, 2010. The Poker Run will be held on Saturday, July 3, 2010. The event is a non-speed, non-race, self-guided event. Additional event activities include safety and noise reduction training, vending, and beach clean-up. The event sponsor, the Friends of the Ocean Dunes, anticipates up to 100 participants July 1, 2, and 4, 2010 and up to 200 participants on Saturday, July 3rd. All pre-existing ODSVRA camping and vehicle limits would remain in effect during the event.	Neg	06/28/2010
2010051093	Conditional Use Permit LU09-0143 Ventura County Moorpark--Ventura NOTE: Review Per Lead The applicant requests approval of a Conditional Use Permit to allow "Festivals, Animal Shows and Similar Events, Temporary Outdoor," specifically temporary, outdoor weddings, birthday and anniversary celebrations, garden tours and gardening classes, art classes, non-profit and charity events, and similar temporary events. Temporary events would be limited to 5.4 acres of the subject property, with up to 100 guests Monday through Friday and up to 400 guests on Saturday and Sunday, for a maximum of 60 days within the calendar year. 	roads would provide internal circulation. Utility improvements would include sewer, water, and drainage improvements.		
1988042624	Western Gateway Benicia, City of Benicia--Solano Addendum to the Western Gateway EIR for a parking reduction at the Rose Center.	NOD	
1993111069	Specific Plan For Future Urbanization Area and Higgins Ranch Antioch, City of ANTIOCH--CONTRA COSTA The Park Ridge Project includes a rezone, an approved Vesting Tentative Map, Final Development Plan, and Use Permit identifying a total of 525 single-family residential homes. The Project also includes an 8.22 acre neighborhood park designed to serve the FUA #2 Specific Plan area, 25.5 acres of dedicated central open space, approximately 36.1 acres of public streets, and 11.7 acres of residential parcels. A lot line adjustment or right-of-way acquisition will be required as part of the approved Project to modify the common boundary with the adjoining Delizia Ranch LLC and Nunn properties, located along the planned extension of Country Hills Drive. In order to complete build-out of the Project, Country Hills Drive will be extended ~400 ft north from the Project boundary to connect with a westerly extension of Laurel Road, and Laurel Road will be extended east from the project's northwestern boundary to connect with the State Route 4 Bypass. Construction of these roadway segments and the Laurel Road / Country Hills Drive intersection will provide an additional local access to the Bypass. These off-site improvements will necessitate an additional right-of-way acquisition through the adjoining properties.	NOD	
2002091132	Victorville Sanitary Landfill Expansion Project San Bernardino County Victorville--San Bernardino CDFG is adopting the Joint Document, State Clearinghouse number 2002091132. CDFG is executing a Lake and Streambed Alteration Agreement pursuant to Section 1601 (SAA# 1600-2009-0007-R6) of the Fish and Game Code to the project applicant, County of San Bernardino Solid Waste Management Division. The applicant proposes to expand the Victorville Sanitary Landfill, consistent with the EIR, in three phases. With the exception of the existing 67-acre landfill footprint, each new area to be filled would be excavated 20 to 120 feet below grade. The excavated area would then be lined with an approved liner system and environmental controls such as a leachate collection and removal system (LCRS) would be developed. Once in place, refuse placement would begin.	NOD	
2002102057	Proposed Amendment of LUP# 022026 for BMPC at WCCSL Contra Costa County --Contra Costa New compostable materials handling and transfer/processing facility. Facility will be operating 24 hours/7 days a week. Permitted Tons per Operating Day 1,134 tons/day maximum. Permitted Traffic Volume 1,559 vehicles per day. Waste Types Green waste, construction and demolition waste, bio-solids, food waste, wet waste, powdery waste, mixed waste paper, wood waste, manure, agricultural waste.	NOD

<u>Documents Received on Friday, May 28, 2010</u>			
2005062009	Antioch Walmart Expansion Project Antioch, City of --Contra Costa The proposed project consists of the design review of the expansion and remodeling of the existing Walmart store located in the Williamson Ranch Plaza. The project will include the development of ~3.7 acres of currently vacant land in the western portion of the ~21.6 acre Walmart site. The existing 141,498 sf Walmart store will be enlarged by 33,575 sf, increasing the total floor area to 175,073 sf. The expanded store will consist of general merchandise sales, grocer sales, grocery sales support, and a number of smaller departments (outdoor garden center, tire and lube express) and tenant spaces (pharmacy, vision center, portrait studio, fast-food restaurant), as well as stockroom/receiving, ancillary uses and back office functions.	NOD	
2005062124	McCoy Road at SF & CF Dibble Creek Tehama County Red Bluff--Tehama The Project proposes to remove two bridges on McCoy Road at the south and middle forks of Dibble Creek and replace them with two cast-in-place concrete bridges approximately 65 feet upstream of the existing bridges.	NOD	
2008121130	Santa Maria Wastewater Treatment Plant (SMWWTP) Expansion Ramona Municipal Water District --San Diego The Project would expand the existing Santa Maria Wastewater Treatment Plant (SMWWTP) from a permitted capacity of 1.0 million gallons per day to 1.47 million gallons per day. The plant would be expanded in three phase unless the District determines that will be available to construct all three phases as one overall construction project.	NOD	
2009032002	Dowd Road Bridge Over Yankee Slough Bridge Replacement Project Placer County Lincoln--Placer The proposed project will replace the existing one-lane bridge along Dowd Road at Yankee Slough, just South of Dalby Road. The proposed project consists of replacing the existing reinforced concrete slab bridge with a single span precast prestressed voided concrete slab bridge. The new bridge and roadway approaches will accommodate two-lanes of traffic. The new bridge will be ~65 ft long and 36 ft wide. The new bridge abutments will be located behind the existing abutments outside the Yankee Slough channel. The roadway approach fill will have side-slopes of 2H: 1V and the abutment slopes in front of the abutment will be no steeper than 1.5H: 1.0V. Approximately 300 cy of rock slope protection (RSP) will be utilized along the face of the abutment fills to protect against scour.	NOD	
2010032055	Steep Ravine Well Site Stinson Beach County Water District --Marin New water supply well to supplement and reduce reliance on surface water; no increase in capacity.	NOD

2010041042	<p>Minor Use Permit and Coastal Development Permit San Luis Obispo County Cambria--San Luis Obispo Request by Eunice Goodan for a Minor Use Permit/Coastal Development Permit to allow: a) the construction of a 5,019 sf, two story single family residence with an ~2,500 sf footprint, 1,281 sf unconditional basement/workroom, 886 sf attached garage, 1,297 sf deck, 5,000 gallon water tank, and various drainage and landscape improvements; and b) the use of an existing 1,100 ranch house as a farm support residence. The proposed residence would be located on a 417 acre parcel and the 16 ft wide driveway to the residence would cross an adjoining 61 acre parcel that is under the same ownership. The project proposes to disturb an ~35,000 sf area, which will include moving ~3,200 cy of cut and fill material, on a 417 acre parcel and an adjoining 61 acre parcel. The proposed project is within the Agriculture land use category and is in the rural North Coast planning area.</p>	NOD	
2010041089	<p>Laguna Haciendas Redevelopment Project Monterey County Salinas--Monterey The proposed project would demolish the existing Hacienda Plaza housing facility, which consists of a total of 100 affordable housing units located on a scattered site. On the Calle Cebu site there are 22 structures consisting of 76 multi-family residential units and a community room and on the East Rossir Street site there are 8 structures consisting of 24 multi-family residential units, an office, and storage facility. In addition, ~10 trees would be removed from the Calle Cebu site. The demolition of this public housing facility is proposed in two phases with the demolition and disposal of material from the Calle Cebu site first and the demolition and disposal of material from the East Rossi Street site second. The East Rossi Street site would remain vacant for future potential redevelopment.</p> <p>The proposed project includes the redevelopment of the 5.5 acre Calle Cebu site (APN 003-121-010-000) as a new affordable housing facility referred to as Laguna Hacienda.</p>	NOD	
2010059015	<p>Staton Minor Use Permit DRC2006-00238 San Luis Obispo County --San Luis Obispo Request by D.L. Stanton for a Minor Use Permit to allow the construction of a 2,000sf wine processing facility with an attached 400sf wine tasting room. Case production is expected at 1,500 cases annually at maximum production. The 72 acre site is made up of two separated legal lots of 30 and 42 acres each. The project includes a request to modify the required 200 foot side setback to 35 feet. The proposed 35 foot setback is from the common lot line shared by both the legal parcels. The project will result in the disturbance of approximately 20,000sf of a 72 acre parcel.</p>	NOD	
2010059017	<p>Aklak Timber Harvesting Plan Forestry and Fire Protection, Board of --El Dorado LSA Agreement (DFG Code Section 1600) for one permanent stream crossing with a concrete foundation and one adjacent off-channel waterhole.</p>	NOD

2010059018	<p>Lake or Streambed Alteration Agreement (Agreement) No. R1-07-0454 for Timber Harvesting Plan (THP) No. 2-07-073-SIS "Fox Creek THP" Forestry and Fire Protection, Board of --Siskiyou</p> <p>The Department of Fish and Game (DFG) is issuing an Agreement for eight encroachments: one culvert replacement, realignment of a channel, two rocked fords with temporary pipes, two temporary Spittler crossings, and two water drafting sites.</p>	NOD	
2010058187	<p>Levee Road Repairs - Ryer Island-East - Unit 3, Mile 7.3 Fish & Game #3 Rio Vista--Solano</p> <p>The project is limited to stripping the levee crown, excavating core trench, and backfilling with material and compacting in an approximately 600 linear foot section at the project location. SAA #1600-2010-0143-R3</p>	NOE	
2010058258	<p>Former Valley Chemical Facility Workplan for Interim Soil Excavation Toxic Substances Control, Department of --Imperial</p> <p>The Interim Measures Workplan addresses potential health risk resulting from organophosphate and organochlorine pesticides during the formulation and distribution of agricultural chemicals to the local farmers. The shallow soil excavation and off site disposal was selected as the remedial measure. The Workplan proposes excavation of approximately 1,200 cubic yards to an average depth of three feet over an area of approximately 10,000 square feet area excavation. In one area or approximately 400 square feet, the former mixing area, a depth of 7 feet may be removed.</p>	NOE	
2010058259	<p>Del Norte County - Lake Earl Drive at Brush Creek Culvert Installation Regional Water Quality Control Board, Region 1 (North Coast), Santa Rosa Crescent City--Del Norte</p> <p>There are two 48-inch diameter culverts currently under Lake Earl Drive at the Brush Creek crossing. During heavy storm events, the existing culverts can be overtopped and the roadway floods. The purpose of the project is to provide an additional overflow culvert to increase flow capacity under the roadway during heavy storm events to prevent flooding of the roadway.</p> <p>The project involves installation of a new 48-inch wide elliptical culvert adjacent to the existing culverts. A 5-foot deep and 6-foot wide trench will be cut across the asphalt roadway and a new culvert will be installed in the excavated trench.</p>	NOE	
2010058260	<p>Water Pipeline Replacement at Cherry Island Golf Course and Soccer Complex - SAA #1600-2010-0073-R2 Fish & Game #2 --Sacramento</p> <p>This project involves boring a 2" potable water pipeline under Dry Creek, connecting the Cherry Island Golf Course to the Cherry Island Soccer Complex. The purpose of the project is to restore drinking water service that is currently threatened by the failure of the existing 6" line and to repair the major leak of potable water. The new pipeline will replace the existing 6" waterline which currently leaks a large amount of potable water when pressurized.</p>	NOE

<u>Documents Received on Friday, May 28, 2010</u>			
2010058261	Laguna Beach County Water District - El Morro Reservoir #1 - Cover and Liner Replacement Project Public Health, Department of Laguna Beach--Orange The California Department of Public Health is a responsible agency for this project. The District has proposed to replace the existing Hypalon bottom liner and floating cover with a new Hypalon bottom liner and a new permanent fixed column support aluminum cover, respectively.	NOE	
2010058262	Van Buren Elementary School Portable Replacement Project Stockton Unified School District Stockton--San Joaquin The proposed project involves the construction of two permanent classroom structures which will replace existing aging portable classroom buildings. Upon their completion, seventeen existing portable structures located along the west and east fence lines will be removed. Site upgrades will consist of new and in-fill hard-court and the expansion of the existing parking lot.	NOE	
2010058263	Design Review Permit DR10-017 Tuolumne County --Tuolumne Design Review Permit DR10-017 to allow the installation of approximately 200 linear feet of six-foot dog-eared redwood fence with a natural-colored wood stain along the northern, western and southern boundaries of a 6,250 square foot parcel zoned R-1:D:MX (Single-Family Residential:Design Control Combining:Mobilehome Exclusion Combining) under Title 17 of the Tuolumne County Ordinance Code.	NOE	
2010058264	Pump Station Rehabilitation Project Unit 2 - Rowland Plaza, Vintage Oaks 1 & 2 and Western Oaks Pump Stations Novato Sanitary District Novato--Marin This activity consists of the discretionary approval for the project. This project consists of rehabilitating four sanitary sewer pump stations including partial demolition of the existing structure, construction of wet well & valve pit, installation of new pumps and control panel at each location. The purpose of this project is to replace existing facilities that are difficult to operate in their current configuration and have reached the end of their service lives. Failure of the pump stations would result in sewage backing up and overflowing into nearby residences, creeks and wetlands. The beneficiaries of the project include the people served by the Novato Sanitary District and the people of the State of California, by eliminating the potential of discharge of sewage into the nearby storm drains and Novato Creek if the pump stations failed.	NOE	
2010058265	Collection System Improvements - Ignacio Boulevard Sewer Rehabilitation Project Novato Sanitary District Novato--Marin This activity consists of the discretionary approval for the project. This project consists of replacing approximately 163 feet of 8-inch sewer main. The purpose of this project is to rehabilitate the existing sewer main and allow for better maintenance. The beneficiaries of the project include the people served by the Novato Sanitary District and the people of the State of California, by limiting the potential of spillage of sewage into local storm drains and creeks.	NOE
