STATE CLEARINGHOUSE

**SUMMARY
OF
POSTINGS**

November 1 – 15, 2012

STATE CLEARINGHOUSE SUMMARY OF POSTINGS

The State Clearinghouse distributes draft environmental documents to state agencies for review and comment, pursuant to the California Environmental Quality Act (CEQA). The State Clearinghouse also acts as the State Single Point of Contact for the review of federal grant applications and federal development projects. This Summary of Postings summarizes the environmental documents and federal grant applications received by the Clearinghouse during the period **November 1 – 15, 2012**.

CLEARINGHOUSE CONTACTS

Please contact The State Clearinghouse if you have any questions regarding processing of environmental documents or grant applications. We may be reached at:

Telephone: (916) 445-0613
Fax: (916) 323-3018
e-mail: state.clearinghouse@opr.ca.gov
website: www.opr.ca.gov

Questions regarding federal grant notices should be directed to **Sheila Brown**.

Questions regarding processing of environmental documents should be directed to:

Scott Morgan
Director

CLEARINGHOUSE MAILING ADDRESS

The mailing address is:

USPS:

State Clearinghouse
P.O. Box 3044
Sacramento, CA 95812-3044

OR

USPS/Courier Service / Hand Deliveries:

State Clearinghouse
1400 Tenth Street, Room 113
Sacramento, CA 95814

INFORMATION AVAILABLE ON-LINE

The CEQA Statute and Guidelines are available through the Natural Resources Agency's website at:

<http://ceres.ca.gov/ceqa/>.

The State Clearinghouse Handbook, which contains all of our environmental document and grant processing procedures and forms, is available on our website.

Environmental Document Filings with the State Clearinghouse 1999-2011

All CEQA documents filed with the State Clearinghouse are available for viewing on the internet at www.ceqanet.ca.gov.

<u>Documents Received on Thursday, November 01, 2012</u>			
2012111002	<p>Steve Zaritsky Recycling Facility Santa Maria, City of Santa Maria--Santa Barbara Planned Development Permit application for a recycling facility with screened outdoor storage, a modified landscape requirement, and barbed wire use. The facility would accept CA Redemption Value (CRV) aluminum, plastic, and glass recyclables, ferrous and non ferrous metals, appliances and "end of life vehicles" carcasses. Operational equipment consists of a Forklift (Caterpillar GP25K), a Skid Steer (Caterpillar 252B), a Caterpillar 235 Material Handler, an AL-JON 580CL Car Logger Bailer for crushing vehicles, a large roll-off box truck, and 3 to 4 daily outgoing material shipments via semi-trucks. No new buildings are proposed. Improvements include paving, landscape, storm water basin and filtration system, interior/exterior building improvements, fencing with slats, exterior lighting, a 70-foot in-ground scale, and scrap metal vehicle prep-rack.</p>	MND	11/30/2012
2012111004	<p>J.B. Latham Treatment Plant Facility Improvements South Orange County Wastewater Authority Dana Point--Orange The project consists of improvements and upgrades to existing wastewater treatment facilities at the J.B. Latham Treatment Plant. Several features of the Treatment Plant are obsolete and/or have reached the limits of their lifetime and now warrant replacement or upgrades. All proposed improvements are within the footprint of existing facilities in (or immediately adjacent to) the J.B. Latham Treatment Plant. Improvements will not result in an increase in treatment capacity.</p>	MND	11/30/2012
2012111005	<p>General Plan Amendment/Zone Change No. 12-0355/PD Review No. 12-0356 Bakersfield, City of Bakersfield--Kern The project consists of a change in Land Use from LR (Low Density Residential) to GC (General Commercial) and a zone change from R-1 (One Family Dwelling) to C-2/PCD (Regional Commercial/Planned Commercial Development) on 14.14 acres. The applicant is proposing development of a 252,497 sf mini storage facility, with an office, detached garage and manager residence.</p>	MND	11/30/2012
2012111007	<p>Chino Airport Master Plan Update San Bernardino County Chino--San Bernardino The County of San Bernardino Department of Airports is updating the Airport Master Plan that guides the development of the Airport to meet aviation demand over a 20-year period. The aviation demand has been forecasted as part of the update process. Capital improvement planning in the update was developed and phased based upon the forecast. The Airport Master Plan identifies potential projects to be considered for the Airport but does not include project specific design and environmental reviews. Each project, if selected for implementation, would require its own design and environmental evaluation.</p>	MND	12/03/2012

<u>Documents Received on Thursday, November 01, 2012</u>			
2012112001	Mary Avenue Dog Park Cupertino, City of Cupertino--Santa Clara The Project proposes the construction and operation of a public dog park on an undeveloped parcel.	MND	11/30/2012
2012112003	Longmeadow Park Project Roseville, City of Roseville--Placer The project is a proposal by the City of Roseville Parks and Recreation Department to develop a park on a 3-acre site located at the corner of Woodcreek Oaks Boulevard and Parkside Way in the City of Roseville. Proposed amenities include: a landscape/tree buffer along the homes on the park property line on the south and east edges; a looped pathway around the perimeter of the park site with exercise pods with stationary fitness stations; a low 3 foot fence near the play area along the street on Parkside; a children's play area; swings which will include belt and bucket seats; covered group picnic area; multi-use turf area; landscape berms along the edges of Parkside Way and Woodcreek Oaks Blvd.; natural area/rain garden for the drainage basin and outfall, which will include a cobbled swale and a decomposed granite pathway; and on-street parallel parking.	MND	11/30/2012
2012111003	Optimus Logistics Center Perris, City of Perris--Riverside The proposed project consist of a new high-cube warehouse development consisting of two buildings totaling 1.5 million square feet on two individual parcels totaling 73.76 acres separated by the new Patterson Avenue realignment. Each parcel is designed to stand alone with perimeter lighting, landscaping, water quality basins and required auto and truck parking. Two undeveloped parcels totaling 14.47 acres fronting Ramona Expressway will be left vacant for future Commercial development as it's designated a Commercial gateway in the Perris Valley Commerce Center Specific Plan.	NOP	11/30/2012
2012112002	Draft Wildfire Protection and Habitat Improvement Plan Marin Municipal Water District Corte Madera--Marin The Fire Protection and Habitat improvement Plan describes actions that Marin Municipal Water District would take over the next 15 years to minimize fire hazard and maximize ecological health on its watershed lands. The Mt. Tamalpais, Nicasio Reservoir, and Soulajule Reservoir watersheds consist of approximately 22,000 acres of publicly accessible wildlands characterized by both high wildfire risk and high biological diversity. The 38 management actions described in the Plan were developed to meet four major goals and 16 corresponding objectives designed to minimize fire risk to lives, property, and critical water infrastructure while simultaneously protecting and enhancing the ecological values and functions on District lands.	NOP	11/30/2012
2012111001	IS, Neg Dec and Zone Change 184 California City California City--Kern The project involves Zone Change 184, an IS and Neg Dec for the purpose of rezoning two contiguous lots owned by the TransAmerican Companies, Inc. an existing industrial business built in 1990 as a storage/wrecking yard and rezoning the lots from M1 Light Industrial to M2 Heavy Industrial for a solid waste transfer. 2012111006	Imperial Beach 2013-2020 Housing Element Imperial Beach, City of Imperial Beach--San Diego The proposed action is the adoption of the 2013-2020 Housing Element of the General Plan, consistent with CA Government Code Section 65583. The purpose of the Housing Element revision is to identify the City's existing and projected housing needs and to establish goals and policies to guide City officials in daily decision making to address these needs. The goal of providing decent, safe, sanitary and affordable housing to current and future residents of the City is primary focus of the Element. The Element also emphasizes specific target groups requiring the most urgent attention in the City, such as senior citizens, lower income households and people who are homeless. The Housing Element serves as a policy document for addressing specific issues that may arise in meeting the housing needs of the community.	Neg	11/30/2012
2012112004	PA-1200208, PA-1200209, PA-1200210, PA-1200211, PA-1200212 (Text Admendments) San Joaquin County Tracy--San Joaquin Text amendment applications to amend the Mountain House Master Plan section 3.9.3, Specific Plan I section 3.3.3, Specific Plan II section 3.4.2, Specific Plan III section 3.4.2.1, and the Development Title section 9-1270.3M regarding the Mountain House Affordable Housing Program. These amendments will: 1) remove the requirement for mandatory affordable housing reviews by the Board of Supervisors; 2) eliminate the requirement for mandatory enforcement actions by the Board of Supervisors to address affordable housing issue subsequent to such housing reviews; and 3) replace the regional housing index, used to automatically adjust the Affordable Housing Impact Fee, with a local housing index.	Neg	11/30/2012
2012112005	Zoning Ordinance Amendment 12-002 Paso Robles, City of Paso Robles--San Luis Obispo This project consists of amendments to the City of Paso Robles Zoning Ordinance. The amendments are technical clarifications and minor adjustments. Topics addressed include dance schools, roof materials for single family homes, swimming pool setbacks, planned Development approval expiration date, multi-Family development setbacks and community room amenities, political sign size and location, shopping center sign programs and bicycle parking.	Neg	11/30/2012
2012112006	PA-1200213, PA-11200214, PA-1200215 (Development Agreement Amendments) San Joaquin County Tracy--San Joaquin Plan Amendment applications to amend the Master Plan Development Agreement, the Specific Plan I Development Agreement, and the Specific Plan II Development Agreement between the San Joaquin County and Trimark Communities LLC. These amendments will: 1) amend the term of the development agreement from twenty-five years to thirty-five years; 2) add a Vested Right (as defined in Section 85057.5(c) of the State Water Code) to secure General Plan amendments, zoning changes, and subdivision or resubdivision of real property within areas subject to these Development Agreements under specified conditions; 3) vest the Mountain House Affordable Housing Program (including the relevant sections of the Master Plan, the Mountain House Development Title, the Affordable Housing Impact Fee Technical Report, and the Affordable Housing Study) as of the date of adoption of the above amendments by the Board of Supervisors; and 4) vest the payment of	Neg	11/30/2012

	the Affordable Housing Impact Fee and the annual automatic adjustment of said fee using the new, local housing index ("Mountain House Housing Index") to represent full satisfaction of Trimark Communities, LLC's current and future obligations to provide affordable housing within the Mountain House community.		
2012118001	Permit 20905B - Petition for Change State Water Resources Control Board Carmel-by-the-Sea--Monterey The Division of Water Rights is processing a petition to restore the place of use for Permit 20905B to its original boundaries (pre-splitting of the water right into Permits 20905A and 20905B). Thus, the revised place of use is analogous to the place of use for the original permit. No new lands will be served as a result of the modification.	NOE	
2012118002	MRCO Permit Coordination Program 2012 Ranch Restoration Projects - Brazil Ranch Fish & Game #3 --Marin The Marin Resource Conservation District is proposing creek and habitat restoration work along this drainage channel to reduce sediment input. Headcut gullies and collapsing banks will be stabilized. SAA #1600-2012-0290-3.	NOE	
2012118003	Agreement 2012-0160-R4 - Sycamore Island North Channel Crossing Fish & Game #4 --Madera The Project will include the removal of an existing pipe culvert crossing and replacement with a new steel, multi-plate arch, 26 feet in width and 80 feet in length. All work will be conducted while the channel is dry.	NOE	
2012118004	Agreement No. 1600-2012-0117-R4; Y Hayashi & Sons Project Fish & Game #4 Morro Bay--San Luis Obispo The Project is limited to constructing a system to intercept stormwater runoff from agricultural fields and route the runoff to two (2) sediment basins that will border the fields. The basins will overflow into vegetated filter strips before entering Little Morro Creek. Two (2) grass-lined waterways, approximately 15 to 20 feet wide and 2 feet deep, will be constructed to route runoff adjacent to the riparian vegetation of Little Morro and Morro Creeks. The waterways will empty into sediment basins approximately 75 feet wide by 40 feet long. The flows will overflow from the basins and flow over a vegetated filter strip to improve water quality in Little Morro Creek.	NOE	
2012118005	Adult Fall-Run Chinook Salmon Collection and Transportation Pilot Study in the San Joaquin Fish & Game #4 --Fresno, Madera, Merced This multi-year study will assess survival (measured as days alive after trapping), egg viability (of female mortalities and streamside-spawned females), and spawning success of released adult fall-run Chinook salmon. Activities for the Study are expected to commence in fall of 2012 (after October 1) and in spring of 2017.	NOE

2012118012	Hunt Ranch HSR, Wildwood Canyon (12/13-IE-3) Parks and Recreation, Department of --San Bernardino The purpose of this project is to create a thorough Historic Structure Report (HSR) for the Hunt Ranch based on previous research and work and devising a thorough and appropriate set of treatment guidelines and recommendations for the historic buildings' preservation and continued use. This will also include creation and update of recordation documents (measured drawings and photographs), including DPR 523 forms.	NOE	
2012118013	Lake Perris Snack Bar Demolition (12/13-IE-4) Parks and Recreation, Department of --Riverside The Perris Beach snack has not been used for ten years and consequently has become a hazard for park visitors. The building is infested with vermin, the roof is sloughed and sagging and mold is throughout the interior. It is not feasible to try to make repairs to salvage the building. This project will demolish the building but leave the concrete columns intact that hold up (2) existing shade ramadas that surround the snack bar, converting the use of the snack bar to a shade structure that can be utilized by park visitors.	NOE	
2012118014	Conveyance of up to 3,086 Acre-Feet of Friant Recirculation Water to Kern County Water Agency (KCWA) (SWPAO#12022) Water Resources, Department of --Kern The Department of Water Resources (DWR) will convey up to 3,086 acre-feet of Friant Recirculation Water to KCWA under Article 55 of KCWA's long-term Water supply contract with DWR. The Friant Recirculation water is purchased from the Friant Central Valley Project (CVP) contractors by a member unit of KCWA. Bureau of Reclamation will make the water available to DWR at O'Neill Forebay. DWR will convey the water from O'Neill Forebay to KCWA's turnouts at Reaches 12E through 16B of the California Aqueduct.	NOE	
2012118015	Refugio Creek Mouth Restoration Parks and Recreation, Department of --Santa Barbara This is a small habitat restoration project approximately 0.5 acres at the mouth of Refugio Creek at Refugio State Beach. The goal of this project is to improve the habitat and ecological value of the Refugio Creek mouth by removing nonnative vegetation and installing native plants along the banks at the mouth at Refugio Creek.	NOE	
2012118016	Geotechnical Investigations at North Fork Long Canyon Creek Diversion, No. 1600-2012-0161-R2 Fish & Game #2 --Placer The NFLCC Diversion is a 10-foot-high, 95-foot-long concrete structure with a crest elevation of 4,716 feet. The dam forms a small diversion pool with less than one acre-feet of storage on NFLCC. The width of the dam crest acts as an uncontrolled spillway with a 2,400 cubic feet per second discharge capacity and 0.5 acre feet of remaining freeboard. The diversion includes a 12-inch diameter in-stream flow pipe and a 36-inch diameter outlet pipe controlled with a slide gate.	NOE

2012118017	Snow Creek Beaver Deceiver, No. 1600-2012-0175-R2 Fish & Game #2 --Placer	NOE	
------------	---	------------	--

The project aims to install between two and three 10 foot sections of 12 inch diameter culvert through two beaver dams to maintain the pond elevation behind them. The goal is to lower the elevation of the pond approximately 6-12 inches to ensure that Highway 28 will not be compromised during high flow events. Two 10 foot culverts will be joined to pass through the dam. In addition, a third 10 foot culvert may be needed if the bed conditions of the channel warrant extending the pipe to a deeper part of the pond.

2012118018	Kaiser's Stairway, SAA 1600-2012-0179-R1 Fish & Game #2 --Plumas	NOE	
------------	--	------------	--

The project is limited to the installation of an aluminum staircase onto the bank of Lake Almanor. A concrete footing, approximately 4-foot by 5-foot by 3-foot with rebar grid reinforcing, will be constructed on the bank above the ordinary high water mark, as well as, another concrete footing approximately 5-foot by 5-foot by 2-foot, 25-feet below the first 1/2-inch thick aluminum embedment plates will be attached to the footings. The stairway will be welded to the aluminum embedment plates using portable welding equipment. The work will be completed when the shoreline and site are dry.

2011091056	Glenarm Power Plant Repowering Project Pasadena, City of Pasadena--Los Angeles Note: Extended Review Per Lead	EIR	01/31/2013
------------	--	------------	------------

The City of Pasadena, Water & Power Dept., proposes a combined-cycle power generating unit with a gross capacity of 71 MW (Unit GT-5) on its Glenarm Power Plan site, replacing steam generating Unit B-3 on the adjacent Broadway site. Unit GT-5 will include a new gas turbine, steam turbine, once-through steam generator, wet-type cooling tower, water storage tanks, electric powered fuel gas compressors, electric air compressor, and a 125-foot stack. Other improvements include reconfiguration of an existing aqueous ammonia storage tank, associated piping, and other equipment on the Broadway site; an 18,000 sf foot administrative/control room in the on-site Glenarm Building; vacation of a portion of adjacent State Street; and incorporation of an adjacent 1-acre parcel to the south and conversion of a 4,000 sf building on that parcel to house maintenance shops.

	sf two-story commons building, a six-story parking garage & surface parking totaling 1,200 spaces, site improvements & landscaping in conjunction with demolition of an existing 100,000 sf two-story building; & modification increase maximum building height from 70 feet to 87 feet.		
2011064008	Yocha Dehe Fee-to-Trust and Housing Project Bureau of Indian Affairs --Yolo The Yoche Dehe Witun Nation (Tribe) submitted a request to the U.S. Bureau of Indian Affairs for approximately 853 acres of land currently owned in fee title by the Tribe to be acquired in trust by the federal government on behalf of the Tribe. Once taken into trust, proposed developments include: Tribal housing, cultural/educational facilities, a water storage tank, a wastewater treatment plant, and supporting infrastructure. The land proposed for trust acquisition and development is located approximately one mile north of the town of Brooks in Yolo County, CA.	FON	12/03/2012
2012111009	Special Use Permit No. PSP 12-027 (ImMODO CA 1, LLC) Tulare County Porterville--Tulare Special Use Permit to allow to allow a 5 MW (Megawatt) electrical generating facility (Solar Facility), on an approximately 16.3 acre site; the project will connect to a SCE 12 KV above ground electric transmission line. Project is located at 273 West Gibbons Avenue, adjacent to the southern boundary of Porterville. in the AE-20 (Exclusive Agriculture-20 acre minimum) Zone.	MND	12/03/2012
2012112007	Stevens Car Bridge (County File #VR11-1022) Contra Costa County --Contra Costa This is a request to construct a new 60-foot-long, 14-foot-wide car bridge over a portion of the east branch of Green Valley Creek in the Diablo area of Contra Costa County. Since the construction is to occur within a riparian environment, the proposal is not considered exempt from CEQA and an IS was required to determine the project's potential impacts on the environment. The bridge is being constructed in response to the San Ramon Valley Fire Protection District's project conditions requiring improved emergency access to the subject parcel. The existing access bridge is an aging one-lane 9-foot-wide car bridge that is only able to accommodate one vehicle at a time; Fire District codes require at least 12 feet of unobstructed width.	MND	12/03/2012
2012112008	Spanish Creek in Meadow Valley Stream Rehabilitation Project Plumas County --Plumas The Plumas Corporation is jointly developing a stream rehabilitation and gravel management plan for Spanish Creek in Meadow Valley with the Soper-Wheeler Co. and the several landowners along Spanish Creek. Using natural stream technology, approximately 72 acres along 2.6 miles of channel length from Greens Flat upstream to Ranch Road Bridge at Spanish Ranch would be treated to capture and remove excess gravel at three designated sites and to stabilize four rapidly eroding gully banks. Including would be the realignment of 3,800 feet of stream channel to move them away from the eroding banks. These banks would be sloped back and stabilized.	MND	12/03/2012

2012112009	Halvorsen Quarry Reclamation Plan Renewal RP-09-04 Humboldt County --Humboldt Approval of a Reclamation Plan and review of financial assurance cost estimate for continued operations at the Halvorsen Quarry, along Rocky Creek Road near Bayside, CA. The term of the Reclamation Plan is 15 years and will expire March 19, 2025. A determination of vested right for a maximum annual extraction of 10,000 cubic yards of aggregate material, mainly greywacke, was made by the Board of Supervisors on September 4, 1990 (SP-33-90). The project is approval of the Reclamation Plan; the mining operations, and issues related thereto, are not within the scope of this project.	MND	12/03/2012
2012112010	PA-1200192 San Joaquin County Lodi--San Joaquin A site approval application to convert an existing off-site wine cellar into a small winery in three phases over ten years and increase the number of marketing events to 35 marketing events per year with a maximum attendance of 150 people per marketing event. Phase one includes the construction of a 6,000 sf production building and an 800 sf crush pad. Phase two includes the construction of a 3,600 sf wine tasting room and a 4,000 sf production building. Phase three includes the construction of a 4,000 sf production building.	MND	12/03/2012
2012112012	EA 2012-0011 (Loma Rica Road Safety Improvement Project Phase 2) Yuba County --Yuba Yuba County's Public Works Department seeks environmental approval for the Loma Rica Safety Improvement Project Phase 2 which consists of roadway rehabilitation and drainage improvements along Loma Rica Road (from Scott Grant Road to Los Verjeles Road) and the realignment of the intersection of Loma Rica Road and Cross Star Trail in the unincorporated foothill region of Yuba County 16 miles northeast of the City of Marysville.	MND	12/03/2012
2012112013	EA 2012-0010 (Powerline Rd Bicycle & Pedestrian Improvements Project Phase 3) Yuba County --Yuba Yuba County's Public Works Department seeks environmental approval for the Powerline Road Bicycle & Pedestrian Improvements Project Phase 3 which consists of adding sidewalks and bicycle lanes along Powerline Road from 9th Avenue to just north of 6th Avenue and improving the local drainage system in the unincorporated community of Olivehurst in southern Yuba County.	MND	12/03/2012
2012112014	EA 2012-0009 (Powerline Rd Bicycle & Pedestrian Improvements Project Phase 2) Yuba County --Yuba Yuba County's Public Works Department seeks environmental approval for the Powerline Road Bicycle & Pedestrian Improvements Project Phase 2 which consists of adding sidewalks and bicycle lanes along Powerline Road from 15th Avenue to just north of 9th Avenue and improving the local drainage system in the unincorporated community of Olivehurst in southern Yuba County. 2012112015	Nestldown Ranch Reception Facility Santa Clara County Los Gatos--Santa Clara The proposed project is to legalize an existing reception facility, Nestldown Ranch, through obtaining Use Permit, Architecture and Site Approval (ASA), Grading and tentative cancellation of the Land Conservation Contract 76.054 (Williamson Contract). Proposed site improvements for the reception use include installation parking areas, access driveways, building and legalizing various structures throughout the site. The project is also required to install fire hydrants as well as additional septic system and leachfield.	MND	12/03/2012
2012112011	Central Healdsburg Avenue Plan Healdsburg, City of Healdsburg--Sonoma The Plan covers approximately 71.5 acres of land and establishes a set of guiding principles and design frameworks for the development of public infrastructure and private investment in the Plan area. The proposed Plan would change land use designations within the Plan area that would require General Plan and Land Use Code amendments. In addition, the Plan adds several recreational components, establishes building design guidelines, and identifies a framework for circulation (including a new Highway 101 southbound on-ramp) and utility system improvements.	NOP	12/03/2012
2012112016	Mixed-Use Senior Residential Project Foster City Foster City--San Mateo The proposed project would develop the vacant City-owned property with a mixed-use development consisting of senior citizen oriented housing, retail/office space, and a public gathering space. The key project components would include up to 414 senior residential units and up to 70,000 square feet of retail/office space with 20 buildings that would range in height from 3 to 6 stories; public gathering places, and amenities as shown in Figure 2. The age-restricted residential component would include 196 for-sale residential units, 152 assisted and independent livings units, and 66 affordable housing units. The commercial component consists of up to 40,000 square feet of ground floor commercial retail space and up to a total of 30,000 square feet of additional commercial space on the second, third and fourth floors of the commercial building adjacent to the transmission towers. The upper floor may include uses such as offices or a homeowner's associated gathering place/clubroom. The proposed project also includes approximately 1.25 acres of public open space amenities including a pedestrian promenade and a town square to be utilized for outdoor dining, public events such as open air festivals, entertainment events, and markets. The project site is not included in the Hazardous Waste and Substances Sites (Cortese) List.	NOP	12/03/2012
2012111008	Housing Element Update Negative Declaration Solana Beach, City of Solana Beach--San Diego The CA Government Code requires all cities and counties to adopt a Housing Element as part of their respective General Plan. The Housing Element provides an analysis of the current demographic, economic, and housing characteristics and establishes objectives, policies, and programs addressing community housing conditions and needs within the City of Solana Beach (City). The Housing Element is a comprehensive statement by the City of its current and future housing needs and a listing of proposed actions to facilitate the provision of housing to	Neg	12/03/2012

	meet those needs.		
2012111010	Grant for LCNG Fueling Facility Energy Commission Blythe--Riverside The project applicant, Blackhawk Logistics, LLC, a jointly held company of HayDay Farms, Inc. and Border Valley Trading, Ltd., is proposing to construct an LCNG fueling station in the City of Blythe, CA. The fueling station would serve HayDay Farms' expanding fleet of natural gas powered trucks, and those of a short list of private operators with service agreements with Blackhawk Logistics. The station would also be available for use by the general public. The project would be constructed in two to three phases with the first phase consisting of the installation of LNG fueling facilities. It is anticipated that the CNG fueling facilities would be added during the subsequent phases of the project, which will be dictated by market demand. However, the site planning and engineering for the project provides for the accommodation of CNG fueling facilities during the initial phase of development, if the market conditions so warrant.	Neg	12/03/2012
1985062409	Kern River Channel Maintenance Program Bakersfield, City of Bakersfield--Kern The California Department of Fish and Game is executing a Lake and Streambed Alteration Agreement pursuant to Section 1602 of the Fish and Game Code to the Project applicant, City of Bakersfield. The applicant proposes the removal of all previously deposited spoil piles within the river channel, and recontouring of the channel to original slope. All work will occur in naturally dry channel conditions, and no trees will be removed during Project implementation. Equipment that will be used during this Project include: track-type dozer and track-type excavator.	NOD	
2009092088	Power House Aggregate Expansion Project Butte County Oroville--Butte Approval of a Mining Permit, Use Permit and Reclamation Plan to allow the phased mining and reclamation of a 500-acre site on two parcels located in south central Butte County. The project permits the open-pit extraction of aggregate material from the project site and transport via an existing private haul road to a currently operating processing facility on Pacific Heights Road. Total production will be approximately 30,000,000 tons over the 50-year life of the mining operation. Reclamation of prime farmland and open space including a lake with associated habitat will occur during the operation and at the end of mining.	NOD	
2011021014	Supplemental to Modified Tower No. 2 Project FEIR, Certified by TRMC 11-4-11 Tulare Regional Medical Center --Tulare Modifications to a previously approved plan for a new 5-floor (4 above grade, one below) hospital Tower No. 2, and attached Atrium buildings, including 9,607 sf of existing building demolition, further modification to parking layout, elimination of off campus parking excerpt temporary construction related parking, partial reconfiguration of Gem Street, addition of a 200 ft.-trunk pull out lane, and adsorption of medical office uses into existing facilities. 2011072032	Petition to Change Water Right Licenses 11862 and 12206 of Peninsula Open Space Trust State Water Resources Control Board Half Moon Bay--San Mateo Pursuant to Licenses 11862 and 12206, water is collected from Arroyo Leon at two points of diversion (POD). Peninsula Open Space Trust filed a Change Petition with the SWRCB to obtain authorization to divert water at a new POD to offstream storage in three existing tributary onstream reservoirs and to remove the two existing PODs.	NOD	
2012118019	Fort Hunter Liggett Multi-Purpose Machine Gun Range Regional Water Quality Control Board, Region 3 (Central Coast), San Luis Obispo --Monterey The purpose of the project is to provide up to date training opportunities for army personnel and to provide for the implementation of a portion of the Fort Hunter Liggett range complex master plan and the Fort Hunter Liggett real property master plan. The proposed gun range would be used to train the test soldiers in combat. The project proposes to add 220 targets to an existing firing range and includes the following activities: road and target pad construction; creating two cuts in seasonal wetland to tie in constructed drainage channels; improving low-flow crossing; and constructing a concrete culvert crossing with associated rip-rap aprons.	NOE	
2012118020	MRCRD Permit Coordination Program 2012 Ranch Restoration Projects - Thacher Ranch Fish & Game #3 --Marin The Marin Resource Conservation District is proposing creek and habitat restoration work along this drainage channel to reduce sediment input. Larger culverts will be installed to more efficiently convey storm flows and the culvert inlet, outlet, and road surface will be armored to protect against erosive forces during high storm events. SAA #1600-2012-0289-3.	NOE	
2012118021	Del Lago Transit Center Electric Vehicle Supply Equipment San Diego Association of Governments Escondido--San Diego The Del Lago Transit Center is currently under construction to add bus bays and additional parking to an existing park and ride facility. This project would include the construction of three electric vehicle charges (one DC Fast Charger and two Level 2 Chargers) in the northwest corner of the parking lot. Each charger would service two parking spaces each (including one space with ADA access). The charging units would be mounted to the ground on concrete pads. A photovoltaic canopy would cover the spaces to generate solar power for the charging units. The canopy would measure approximately 40 x 80 feet and stand approximately 12 feet high. An energy storage battery and supporting infrastructure would be enclosed in an approximately 20 x 30 foot structure (nine feet in height).	NOE

2006092028	Z-Best Composting Facility Expansion Santa Clara County --Santa Clara The primary purpose of the proposed project is to increase operational efficiencies at the 157-acre Z-Best facility. These operational efficiencies would occur through the expansion of final processing and finishing operations into 28 acres on an 80-acre parcel adjacent to current operations (Area 2), as well as through improvements to existing composting operations on the 77-acre Area 1. Expansion into Area 2 would spread the current operation over a larger area (expansion of 28 acres) - 105 acres total, while maintaining the same volume of composted materials. The additional acreage in Area 2 is necessary to accommodate final processing and compost finishing equipment to create a more efficient operation. Expansion into Phase 2 would be phased as necessary to accommodate expansion over a 2-10 year period. All of the proposed changes can be seen in the Z-Best Facility Site Plan.	MND	12/04/2012				
2012111011	County-Wide Long-Term Routine Maintenance Permitting Program (IP 11-444) Orange County --Orange The proposed County-Wide Long-Term Routine Maintenance Permitting Program (the project) would allow routine maintenance with minimal impact to occur within multiple existing flood control facilities, and beneath existing bridges crossing over waterways, located throughout the County of Orange. Proposed maintenance activities would not disturb soils beyond the existing engineered fill materials for the on-site facilities and no structural modifications would occur.	MND	12/04/2012

2012111013	Greenfield Neighborhood Park (Apple Avenue and 3rd Street) Greenfield, City of Greenfield--Monterey The City has received approval for Proposition 84 grant funding from the State of CA for the development of the proposed project: a public three-acre park. Proposition 84 provides funding for acquisitions and development of public parks. The proposed project includes rehabilitation of the existing residential structure, the demolition and removal of the shed and barn, and some physical improvements to accommodate a park with active and passive recreation activities. The park could include a tennis court, basketball court, play area and equipment, fountain, trail, and parking lot with four spaces. Improvements would also include retention and rehabilitation of the existing home for use as a restroom facility, electrical improvements for lighting along the trail, and water infrastructure improvements for irrigation.	MND	12/04/2012
2012112017	Hospice of Humboldt Humboldt County Eureka--Humboldt The proposed project consists of the development of anew end-of-life service campus (Hospice Campus) for Hospice of Humboldt (HOH) (Figure 4). The new Hospice Campus will organize and expand HOH's services to the Northern Humboldt community. A 12-bed, inpatient facility will provide end-of-life care to residents. Home care and administrative functions will be housed under one roof to interact more efficiently and to share resources and information.	MND	12/04/2012
2012112018	Bear Gulch Weir Project Woodside, City of Woodside--San Mateo The project proposes the construction of a permanent concrete flow control weir structure to be installed within the active stream channel of Bear Gulch Creek. The Weir structure would be approximately 25 feet wide and 14 feet in length, and would consist of two weirs with a removable plate, support struts, and a stilling well.	MND	12/04/2012
2012112019	Dougherty Road Improvements Dublin, City of Dublin--Alameda The City of Dublin proposes multi-modal improvements to Dougherty Road, including new and improved bicycle and pedestrian facilities, new bus stops and bus pull-outs, and roadway widening. These improvements will address traffic congestion and multi-modal circulation issues for commuters traveling Dougherty Road, including improved access to the Dublin/Pleasanton BART station. Improvements will include adding Class II bicycle lanes on both directions of travel, and reconstructing or resurfacing the existing 8'-wide bicycle and pedestrian path on the east side of the roadway. The project will also widen the roadway from a four-lane facility into a six-lane divided roadway, with a raised landscaped median in the middle of roadway, including left-turn pockets as well as modify traffic signals to match the new roadway geometry. 2009041036	San Diego River Park Master Plan San Diego, City of San Diego--San Diego The San Diego River Park master Plan is a planning document designed to guide future development along a 17.5-mile stretch of the San Diego River. The Master Plan's guidance is implemented through its Design Guidelines and Recommendations to address the long-term development along the River. Design Guidelines include site planning and architectural elements that would be specific to two distinct planning areas within the project area, or "Master Plan Study Area", called the River Corridor Area (RCA) and the River Influence Area (RIA). The RCA consists of the 100-year floodway along both sides of the River, plus a 35-foot path corridor on each side. The RIA consists of the first 200 feet adjacent to the RCA also on both sides of the River. A majority of the proposed Master Plan facilities include the River Pathway, trails, picnic areas, and scenic overlooks within a River Park, which would be developed within the RCA and RIA.	EIR	12/20/2012
2012062001	CHP Communication Facilities Replacement Project, Truckee Area Office California Highway Patrol Truckee--Nevada CHP, with the assistance of the Department of General Services, is proposing to replace and upgrade the Truckee CHP telecommunications facility to meet the CHP's Enhanced Radio System requirements. The new facility would also be designed to meet CA Building Code (CBC) Title 24 Standards including Essential Services requirements. The proposed project includes acquisition of a 0.09-acre site adjacent to the CHP Truckee Area Office, construction of a new self-supporting, four-leg, 120-foot-tall tower and an equipment vault, underground utility line installation. Upon completion of construction, two existing towers at the CHP Area Office would be removed; these towers are approximately 55 feet and 92 feet in height.	EIR	12/20/2012
2010051016	Conditional Use Permit No. 09-07 (Sozinho) Kings County Hanford--Kings The proposed project consists of expanding and operating an economically viable and competitive dairy facility in compliance with applicable laws and regulations, optimally utilizing the available land resource, and mitigating any environmental impacts to the extent feasible and as required by CEQA. The owner/operator of	FIN

	the Sozinho Dairy is currently permitted for a 940 Holstein milk cow dairy and has applied to Kings County for CUP No. 09-07 to expand the number of Holstein milk cows to 1,650 head. The expansion involves two phases. The first phase includes shade barns, calf pens, calf shade barns, a lagoon, a settling pond, lighting replacements, and equipment storage. The second phase includes shade barns, calf pens, hay barns, a concrete silage pad, and a commodity barn. The dairy facility is located on APNs 016-150-011, 047, 048, 058, 059, 074, & 075.		
2011102031	1800 San Pablo Avenue Project (also known as the Fox Block Project) Oakland, City of Oakland--Alameda Note: Revised Note: Reference SCHs# 2000052070 & 2010102024.	FIN	
	The project would involve the construction of a three-story (above grade) structure containing commercial uses and a parking garage on an existing surface parking lot. The building would be a maximum of 90 feet in height and would contain a total of 120,000 sf of interior space. The building would contain 30,000 sf of commercial space on the first floor; 40,000 sf of commercial space on each of the second and third floors; and 10,000 sf of commercial space on the roof top. Up to 309 fee parking spaces would be constructed on three floors below grade. The Project would require approval of a Major Conditional Use Permit and Design Review.		
2012111016	D.R. Horton Residential Project Claremont, City of Claremont--Los Angeles The project applicant (D.R. Horton) is seeking to redevelop the 2.41-acre project site in the City of Claremont with 54 single-family detached residential units. Project development would also include other site improvements, including internal private streets, sidewalks, resident and visitor parking, common open space and recreation areas, and other hardscape and landscape improvements. Development of the proposed project requires demolition of the existing buildings, structures, parking area and drive aisles, and other site improvements, and removal/relocation of a number of mature ornamental trees.	MND	12/05/2012
2012112021	Bikeway Improvements on Foothill Blvd at San Dimas Wash San Dimas, City of San Dimas--Los Angeles The City proposes to widen the Foothill Boulevard Bridge by constructing separate bridge structures at both the north and south ends of the existing San Dimas Wash box culvert to match the appropriate width. The new bridge structures would be 35 feet long and would consist of a single-span reinforced concrete slab supported by cast-in-drilled-hole (CIDH) pile foundation. Construction of the superstructure would require temporary beams to support the concrete slab. The Foothill Boulevard bridge would have an 84-foot curb-to-curb roadway width that matches both existing approach widths. There would be a bike lane in both directions of travel. A concrete barrier with picket railing would be placed on both sides of the bridge. The project also includes approximately 750 feet of sidewalk with curb and gutter reconstruction extending from both the east and west bridge approach ends, as well as ADA-compliant driveway reconstruction at the Equestrian Center and flood control channel access roads. An underground gas line on the bridge would be relocated during construction. A fire hydrant, 12-inch waterline, and service connection to the Equestrian Center would be relocated	MND	12/05/2012

	during the project. The project would also include widening of the driveway to Flood Control properties on the north and south sides, as well as possible driveway access to Starberry Farms.		
2012111014	The Fremont Valley Preservation Project by AquaHelio Resources, LLC (PP12288); (EIR 02-12 JLB) Kern County Mojave, California City--Kern The project proponent is requesting approval of CUP to allow for the construction and operation of a native and imported water recharge, recovery and transport facility along with a 1,008 megawatt photovoltaic facility and associated infrastructure including an estimated 3.6 million PV solar modules, transmission lines and towers, interior collection and supply power lines, switchgear pads, above-ground water tanks, meteorological towers, and Operation & Maintenance (O&M) buildings on approximately 4,806 acres of undeveloped and previously disturbed land in the A and A-1 zones.	NOP	12/05/2012
2012111015	City of Fresno General Plan and Development Code Update Fresno, City of Fresno--Fresno The City of Fresno is proposing to update its General Plan and Development Code for its Planning Area that encompasses approximately 106,000 acres and includes all areas within the City's current City limits, the current Sphere of Influence, the City's Wastewater Treatment Plant site, and an area north of the City's most northeasterly portion of the City. The General Plan Update includes a comprehensive update of the City-approved 2025 General Plan and includes amendments to the repeal of certain community plans and specific plans. The Development Code Update includes a comprehensive revision of the City's Zoning Code and Subdivision regulations contained in Section 12 of the Fresno Municipal Code.	NOP	12/05/2012
2012112020	Northstar Mountain Master Plan Placer County --Placer The Northstar Mountain Master Plan proposes on-mountain improvements, including upgrading of existing ski lifts, widening of existing ski trails, and new/replaced ski lifts and ski trails, as well as infrastructure to accommodate these features, including on-mountain skier service facilities and upgrades, snowmaking facilities, utilities, and maintenance/access roadways. In addition, the NMMP includes other recreation components such as camping and relocation of the cross country ski center facilities. The NMMP has been designed utilizing design guidelines and management measures established within the Northstar Habitat Management Plan.	NOP	12/05/2012
2003091085	Geotechnical Investigations at the North Haiwee Dam Los Angeles County --Inyo Geotechnical exploration for the proposed New North Haiwee No. 2 Dam, located 800 feet north of the existing dam.	NOD

2009052019	SR 99 / Elverta Road Interchange Project Sacramento County Sacramento--Sacramento The DFG issued the existing CESA ITP in order to address and authorize, as fully mitigated, the incidental take of giant garter snake (<i>Thamnophis gigas</i>), a species designated as Threatened under CESA. Minor Amendment No. 1, as approved, modifies the existing previously issued CESA ITP, modifying the 2012 work window by allowing work to continue until December 10th, 2012, and requiring the installation of snake fencing. In approving Minor Amendment No. 1, the DFG determined that, among other things, no substantial increase in the nature, or scope of the previous authorization provided by the CESA ITP, and that no new significant or substantially more severe environmental impacts than previously considered and disclosed would occur.	NOD	
2010051016	Conditional Use Permit No. 09-07 (Sozinho) Kings County Hanford--Kings The applicant proposes to merge, remodel and expand two existing dairy facilities.	NOD	
2012051061	State Route 190 and Road 284 Intersection Improvement Project Caltrans #6 Porterville--Tulare Construct a single-lane roundabout at the intersection of State Route 190 and Road 284 that would be approximately 140 feet in diameter with a central island approximately 102 feet in diameter, with a mountable concrete curb at the outer edge. Add curb ramps and sidewalks for pedestrians and add a bicycle path to comply with the Americans with Disabilities Act. Add splitter islands and landscaping. Install traffic warning signs along State Route 190 and Road 284 to gradually slow traffic. Acquire right-of-way. Relocate seven power poles.	NOD	
2012118041	Bridge Maintenance Project EA 1W2701 Caltrans #7 --Ventura The proposed scope of work includes methacrylate deck treatment, polyester concrete deck treatment, installation of G-11 signs, and striping. Also included is the repair and replacement of joint seals, approach and departure slabs, and asphalt concrete shoulders.	NOE	
2012118042	Safety Project Caltrans #12 --Orange To reduce accident on the MacArthur Blvd. on-ramp it is proposed to widen the ramp from one to two lanes. To reduce wet pavement accidents on the highway it is proposed to add drainage inlets, resurface the roadway with OGAC and restripe.	NOE	
2012118043	Adoption of a Resolution of the Oversight Board of the Fontana Successor Agency to the Dissolved Fontana Redevelopment Agency Fontana, City of Fontana--San Bernardino Adoption of a resolution of the Oversight Board of the Fontana Successor Agency to the dissolved Fontana Redevelopment Agency, approving the Due Diligence Review of the Low and Moderate Income Housing Fund pursuant to Health and Safety Code Section 34179(a). 2012082007	625-685 Clyde Avenue Office Project Mountain View, City of Mountain View--Santa Clara The project is the redevelopment of an existing office/light industrial site with high-density office uses. The project proposes to demolish 117,918 sf of space in four existing one-story buildings; and remove pavement, landscaping and other improvements. Following demolition, the project would construct two detached office buildings of up to 6-stories each, as well as landscaping, utilities, and other improvements. The two buildings would be approximately 192,755 sf each in size, and the 385,510 sf of new office space would be an increase of approximately 267,592 sf over the existing development on the site. The project would include one 6-level and one 7-level parking structure, in addition to surface parking. The project includes a rezoning from the Limited Industrial-Transit Overlay Zone (ML-T) district to a Planned Community (P) zoning district.	EIR	12/21/2012
2011094004	Desert Harvest Solar Project Bureau of Land Management --Riverside Note: Please send comments directly to OPR: Attn. Scott Morgan. The proposed project would be located on BLM-administered lands in Riverside County about 6 miles north of the rural community of Desert Center, California. 	<p>line; 2) a six inch propane line; and 3) a six inch butane line. The proposed route begins at the Inergy north Coles Levee Fractionator Facility near Tupman, CA. The pipeline would trend north-north easterly along the Kern Water Bank, and then continue northward across agricultural lands until the pipeline reaches the termination point at the Plains Lone Star facility located near Shafter, CA. The project will allow the direct transfer of products and therefore reduce the need for transport of such products by vehicles. The project will also include the construction of additional appurtenances necessary for operation of the new pipelines. Although the majority of the pipeline will be constructed underground, a portion of the pipeline will be constructed above ground and be placed on sleepers. The pipeline route has been designed to minimize habitat disturbances by locating the proposed pipeline within existing or adjacent to existing pipeline rights-of-way, existing roadways or other areas that have been previously disturbed by recent human activities. As proposed, the pipeline will be constructed within a 50-foot right-of-way (ROW) in areas where conditions permit.</p>		
2012111023	<p>San Timoteo Sanitary Landfill 5-Year Permit Review and Solid Waste Facility Permit Revision San Bernardino County Redlands--San Bernardino Note: Reference SCH# 1992101405</p> <p>The Project consists of revising the existing Solid Waste Facility Permit (SWFP) and Joint Technical Document (JTD) to reflect a re-engineered/recalculated remaining site life from April 2016 to 2043, and proposed operational changes including: 1) an increase in maximum permitted tonnage from 1,000 tons per day to 2,000 tons per day; and 2) an increase in maximum permitted daily vehicle trips from 1,052 to 1,092.</p>	MND	12/06/2012
2012112022	<p>Scott Road Intersection Access Project Caltrans #2 --Sierra</p> <p>The California Department of Transportation (Caltrans) proposes a project to improve traffic operations and safety on U.S. Route 395, in Sierra County, from the Nevada State line to 0.1 mile north. The project would reconfigure an intersection of U.S. Route 395 and Scott Road and relocate a median cross-over for emergency and maintenance vehicles. These improvements will clearly define traffic movements and direction of travel on this section if divided highway.</p>	MND	12/06/2012
2006011080	<p>Crafton Hills College Master Plan Update San Bernardino Community College District Redlands, Yucaipa, Highland--San Bernardino</p> <p>The CHC Master Plan Update (October 2011) describes the future development of the CHC in two horizons, keeping with the planning strategies and framework of the 2005 Master Plan. Horizon 1 includes the Measure 'M' priority projects as identified by the Master Plan Steering Committee. Horizon 2 is the potential full build-out of the campus in the future. The SEIR only analyzes Horizon 1, because not enough detail is known about future projects. Separate CEQA documentation will be prepared for Horizon 2 as projects become defined and funding sources become available.</p> <p>Horizon 1 includes the construction and operation of buildings including the Crafton Center, Occupational Education 2 Replacement, Physical Education/Athletics, and the Science Building.</p>	NOP	12/06/2012

2009062093	Berkeley Aquatic Park Improvement Project EIR Berkeley, City of Berkeley--Alameda NOTE: Review Extended Per Lead	EIR	02/11/2013
------------	---	------------	------------

The project would improve water quality in the Aquatic Park lagoons by increasing water circulation and preventing stormwater inflow through better tidal exchange and storm drain infrastructure modifications, and restoration of wetland habitat areas. Features would include enlarging the connection between Potter Street storm drain and Model Yacht Basin, creating an opening channel connection between the Model Yacht Club and the Main Lagoon, installing slide gates on storm drain connections to Aquatic Park lagoons, repairing main tide tubes, and connecting Radio Tower Pond with the Potter Street storm drain. Habitat improvements would include creation/restoration of salt/brackish wetland, invasive non-native plant removal and replacement with native species, upland area improvements, and buffers to protect habitat areas.

2010101082	Ponte Vista Los Angeles, City of Los Angeles, City of--Los Angeles NOTE: Review Per Lead	EIR	01/07/2013
------------	---	------------	------------

The Project Site is currently improved with 245 residential dwelling units, a community center, and a retail convenience facility that were constructed in approximately 1962 by the U.S. Navy for the purpose of housing personnel stationed at the Long Beach Naval Shipyard. All of these buildings and uses are vacant. The dwelling units and facilities were built by the United States government without compliance with building codes enforced by the City of Los Angeles, and are required to be demolished. In addition, the dwelling units, facilities, infrastructure, streets, and landscaping at the Project Site were

2012111028	<p>Garfield Reservoir Replacement Project South Pasadena, City of South Pasadena--Los Angeles</p> <p>The City of South Pasadena (City) proposes the construction of a replacement for the Garfield Reservoir. The Garfield Reservoir is a 6.25-million-gallon (MG) reservoir, constructed of concrete and covered by a metal roof supported on a wood frame. A replacement reservoir is needed to bring the Garfield Reservoir up to current seismic standards. The proposed project includes demolition of the existing Garfield Reservoir and pump station and construction of two replacement reservoirs, a pump station, inlet/outlet vault, rechlorination room, and a Water Distribution support yard on the project site. The proposed project also includes the replacement of a storm drain within an existing easement through the adjacent Blair High School athletic field. Construction of the proposed project is expected to begin in fall 2013 and is expected to last for 18 months.</p>	MND	12/10/2012
2012111029	<p>Conditional Use Permit 12-12, General Plan Amendment 12-03, Zone Change 12-03 Lancaster, City of Lancaster--Los Angeles</p> <p>The proposed project consists of the construction and operation of a 1.5 megawatt photovoltaic solar electric generating facility. The proposed project consists of rows of PV panels on single axis trackers with each block of solar panels containing an inverter. The PV modules will be supported on steel piers driven to the appropriate depth. It is not anticipated that any concrete footings will be required. The panels will be approximately 7 feet high when in the horizontal position and approximately 8 feet high when in full-tilt. The project would tie into the 12 kV distribution line that runs along Lancaster Boulevard. A chain-link fence would surround the project site and a 10-foot landscaped area would be provided between the fence and property line.</p>	MND	12/10/2012
2012111030	<p>Crosswalk Proposed K-12 Charter School Crosswalk Learning Pathways to College Hesperia--San Bernardino</p> <p>The District proposes to construct a new educational facility designed to accommodate kindergarten through twelfth grade students. The proposed K-12 school would be constructed on approximately 11.4 acres of land. Phase I of the school would consist of centrally located classroom villages, a kindergarten with a play area, first through fifth-grade classrooms, sixth through eighth grade classrooms, two flex labs, an advanced lab, a library and a multi-purpose room. The southwest part of the school would contain an administration building. Parking would be provided at the southwest corner of the school site. Hard courts and the athletic field area for Phase I would be located primarily on the southeastern quarter of the school. Phase II of the school would consist of two high school classroom buildings and a gymnasium on the north central part of the property, with the high school athletic field and outdoor basketball courts on the north side of the school. The athletic fields would not be equipped with field lighting. Construction activities for Phase I would start in March 2013, and terminate in April 2014. The school would open for instruction in September 2014.</p>	MND	12/10/2012

2002101141	Gerald Desmond Bridge Replacement Project Long Beach, Port of Long Beach--Los Angeles Special Note: Addendum No. 2 to the previously certified EIR was prepared, considered, and approved in connection with the Board of Harbor Commissioners' approval of the project modifications described herein. The EIR Addendum addresses revisions to the Gerald Desmond Bridge Replacement Project, which was originally approved by the Long Beach Board of Harbor Commissioners on August 9, 2010. The approved by the Long beach Board of harbor Commissioners on August 9, 2010. The approved project consists of a new bridge to be located approximately 140 feet north of the existing Gerald Desmond Bridge, related roadway connections, interchange and ramp improvements, and the demolition of the existing Bridge. The project changes that are the subject of the Addendum are as follows: (1) the addition of a Class 1 bikeway, including a pedestrian walkway, that connects SR 47 to Pico Avenue; and (2) the modification of the noise control measures to provide equivalent noise control/minimization in connection with a change in the allowable working hours during construction of the project. 2011102034	PG&E Pittsburg-Tesla 230 kV Transmission Line Reconductoring Project - Revised IS/MND State Water Resources Control Board Pittsburg, Tracy--Alameda, Contra Costa In order to maintain service reliability and meet increasing electric load demands in the City of Pittsburg and surrounding areas in Contra Costa and Alameda counties, PG&E proposes to replace approximately 31 miles of 230 kilovolt transmission line between Pittsburg and Tesla Substations. This project will minimize the potential for future power demand overloads, and ensure service reliability to the East San Francisco Bay area. As part of this project, PG&E proposes to modify approximately 43 of 147 existing steel lattice towers. Of the 43 towers to be modified, four towers will receive dead end conversions, and 39 towers will receive approximately 16.5-foot cage extensions. All modifications are above ground and no foundation improvements will be required. The work performed at the towers will be conducted by helicopter. Ground access will take place at 12 areas along the existing rights of way. The project is scheduled for 19 months between September 2012 and May 2014. (This notice also submitted to State Clearinghouse on 10/18/2012 and to Alameda County.)	NOD	
2012012022	Chili Bar Hydroelectric Project, FERC Project No. 2155 State Water Resources Control Board Placerville--El Dorado The project is issuance of water quality certification for the Federal Energy Regulatory Commission (FERC) relicensing of the Chili Bar Project, which began operation in 1965 and has been operating since then pursuant to its FERC license. The Chili Bar Project is owned and operated by Pacific Gas and Electric Company (PG&E or Licensee).	NOD	
2012081066	Henderson Park Project Merced County --Merced The project involves several enhancements to Merced County's Henderson Park including a refurbished trail system to provide the public with safe access to river-side recreation, a restored non-motorized water craft launch site, disability access, educational signage, remodeling of restrooms and updating and improving drinking fountains, habitat restoration for juvenile and adult salmonids, providing open space and flood management, enhancing interpretive facilities, and working with water user to improve fish passage and reducing channel maintenance needs, while improving habitat for native fish species, emphasizing fall-run Chinook salmon and steelhead.	NOD	
2012082002	1250 Bayshore Highway, Lot Split of One Parcel into Two Parcels Burlingame, City of Burlingame--San Mateo The proposal is for a lot split of one parcel (APN: 026-142-080) into two parcels, Parcels 1 and 2, so that the existing hotel and restaurant would each be located on independent parcels. The Tentative Map, date stamped May 18, 2012, show how the existing 153, 154 SF parcel would be subdivided into two parcels (Parcels 1 and 2). Parcel 1 would have 64.34 feet of street frontage on Bayshore Highway and would measure 120,772 square feet in area; Parcel 2 would have 188.58 feet of street frontage on Bayshore Highway and would measure 32,382 square feet in area. The zoning code requires a minimum 50'-0" street frontage and 20,000 SF	NOD

2006062071	Feather River Levee Repair Project Three Rivers Levee Improvement Authority Marysville, Yuba City--Yuba The following refinements are proposed for FRLRP Alternative 2 since the FRLRP EIR was certified and Alternative 2 was approved for implementation; establishment of a 0.9-mile-long, 20-foot-wide toe access corridor on the land side of the Segment 3 levee, construction of a 10-foot high cyclone fence along the landward limit of the 0.9-mile-long toe access corridor, and removal and relocation of 12 elderberry shrubs within the newly established 20-foot-wide toe access corridor. Elderberry shrubs will be relocated to the existing Feather River Elderberry Transplant area.	NOD	
2009092088	Power House Aggregate Expansion Project Butte County Oroville--Butte Note: Per Lead - Corrected Approval of a Mining Permit, Use Permit and Reclamation Plan to allow the phased mining and reclamation of a 500-acre site on two parcels located in south central Butte County. The project permits the open-pit extraction of aggregate material from the project site and transport via an existing private haul road to a currently operating processing facility on Pacific Heights Road. Total production will be approximately 30,000,000 tons over the 50-year life of the mining operation. Reclamation of prime farmland and open space including a lake with associated habitat will occur during the operation and at the end of mining.	NOD	
2009121012	Rose Creek Watershed Invasive Plant Control Program San Diego, City of San Diego--San Diego DFG is intending to execute a Lake and Streambed Alteration Agreement pursuant to Section 1602 of the Fish and Game Code (SAA#1600-2012-0137-R5) to the project applicant, The Chapparral Lands Conservancy. The applicant proposes to remove non-native plants within the Rose Creek Watershed, according to the Exotic Removal Plan. The project involves targeting giant reed, tamarisk, pampas grass, jubata grass, fennel, Brazilian pepper tree, eucalyptus, ice plant, cape ivy, shamel ash, acacia, myoporum, olive, artichoke thistle, and palms that occur within the stream. Other invasive species encountered while treating these targeted plants will be removed, as well. Control will be conducted using hand methods; no mechanized or soil disturbing equipment use is proposed.	NOD	
2010032105	Butte Creek Bridge Replacement Project Caltrans #3 --Butte To replace the Butte Creek Bridge on the northbound alignment.	NOD	
2010121039	Quinto Solar Photovoltaic Project Merced County Merced--Merced To construct a 110 megawatt solar photovoltaic electric generation facility on eight parcels totaling 1,012 acres of agricultural land.	NOD

2011092020	County File #MS10-0004 - Rancho Marin Estates Contra Costa County Walnut Creek--Contra Costa Milton "John" & Sally Marin (Applicants & Owners), County File #MS12-0007 (Formerly County File #MS10-0004): Applicants request approval of a vesting tentative map to subdivide a 4.37 acre parcel into three parcels, (Parcel "A", 40,000 square feet; Parcel "B", 40,000 square feet; Parcel "C", 110,524 square feet). The project also includes a request for approval of a tree permit to allow the removal of (8) eight code protected trees and to allow work within the drip line of nineteen (19) code-protected trees in order to allow the construction of a 20-foot wide paved private roadway and the conversion of an existing open drainage ditch into an underground drainage pipe. As part of the project, the applicant also seeks to establish a 0.75-acre restrict development area along the southern boundary of Parcel-C. The subject property is identified as 296 La Casa Via in the unincorporated area of Walnut Creek. (General Plan Designation: Single-Family Residential, Very Low) (Zoning District: Single-Family Residential, R-40) (Assessor Parcel Number: 140-220-008).	NOD	
2011121034	I-215/Newport Road Interchange Improvement Project Caltrans #8 Menifee--Riverside Caltrans, in cooperation with the County of Riverside and City of Menifee, proposes to widen Newport Road in the vicinity of I-215 and reconstruct the I-215/Newport Road interchange ramps. The project is located in the City of Menifee from post mile R17.4 to R19.3. The proposed improvements would require widening of the Newport Road overcrossing and northbound Salt Creek bridge. The improvements would reduce congestion along Newport Road in the vicinity of the interchange and improve traffic operations at the interchange.	NOD	
2012021006	Sewer Master Plan and CMWD Water and Recycled Water Master Plans Update Carlsbad, City of Carlsbad--San Diego The proposed project is the update of the City of Carlsbad's Sewer Master Plan, and the Carlsbad Municipal Water District's (CMWD) Water and Recycled Water Master Plans. The Master Plans identify the Capital Improvement Programs (CIP) required to meet current and future demand through buildout of the service areas in 2035. The PEIR will address the potential physical environmental impacts that would result from the implementation of the proposed CIP projects.	NOD	
2012022059	General Plan Amendment and Zoning Ordinance Update Butte County --Butte A Supplemental EIR for a General Plan Amendment to Butte County General Plan 2030 and a Zoning Ordinance Update. Butte County is amending Butte County General Plan 2030 (adopted in October 2010) primarily to reflect corrections and changes to the General Plan Land Use Map, as well as changes to text, tables, and figures. In addition, Butte County is preparing a comprehensive update to the Zoning Ordinance, including text and map changes, which establishes development and land use regulations intended to implement the General Plan's land use map and policies, and makes the County Zoning Map consistent with the General Plan. <u>Documents Received on Tuesday, November 13, 2012</u>			
2012072012	Fortuna Maintenance Station Caltrans #3 Fortuna--Humboldt The scope of the project includes the excavation and off-site disposal of soil that is contaminated by petroleum products which leaked from previously removed underground storage tanks. The soil, aggregate and groundwater will be disposed of at certified disposal sites. The estimated depth of excavation is between three and eight feet. After excavation and removal of the contaminated soil, imported fill will be used as backfill. The removed asphalt structural section will also be reconstructed as part of the scope of this work. Incidental work at the site may include replacement of existing utilities, soil testing, sheet pile installation and monitoring well abandonment. Construction is expected to last approximately four weeks.	NOD	
2012082030	Farmworker Housing Zoning Text Amendment - Housing Element Implementation Placer County --Placer The project proposes a Zoning Text Amendment to implement State housing law for farmworking housing and the Housing Element Program F-4 by revising the definitions for dwelling unit and allow farmworker housing in six zoning districts that allow farms uses.	NOD	
2012091057	New Elementary School at Mercey Springs Los Banos Unified School District Los Banos--Merced The Los Banos Unified School district plans to construct and operate a new elementary school on the former Merced Community College campus, to serve students on the south side of Los Banos. The Site is proposed to be redeveloped with classrooms, multipurpose, library, administrative and auxiliary spaces to serve up to 500 students in grades K-6. No changes to site ingress/egress are proposed.	NOD	
2012092034	Installation of Gravure Press and RTO by G3 Enterprises (Project N-1121433) San Joaquin Valley Air Pollution Control District Ceres, Modesto--Stanislaus G3 Enterprise (Applicant) is proposing to install a 6-color gravure type printing press, a 2.5 MMBtu/hr natural gas fired ink drying oven, a 5 MMBtu/hr regenerative thermal oxidizer (RTO), and ink dispensing room as part of the printing operations at the existing Modesto facility located in Ceres, Stanislaus County, California. The equipment is being relocated from a facility located in Ukiah, Mendocino County to the Modesto facility. The Ukiah facility which is located outside of the San Joaquin Valley Air Basin is owned by the Applicant and will be permanently closed at the time the equipment is removed. The printing operation will take place within and adjacent to an existing building and will be manned and maintenance by existing on-site employees. The project will allow G3 Enterprises to process labels on-site concurrent with packaging operations.	NOD	
2012102011	California Montessori Project Charter School - Shingle Springs California Montessori Project --El Dorado The California Montessori Project to construct a new K-8 Charter School Facility. The proposed project will serve approximately 350 students. The 10-acre parcel is planned for three new permanent buildings. The facility will include surface parking, exterior hard courts, athletic fields, and a fire and pick-up/drop-off lane.	NOD

2012118095	Aspen Road Rehabilitation Project Regional Water Quality Control Board, Region 6 (Lahontan), Victorville --Mono The purpose of the Project is to maintain a portion of Aspen Road and to replace two existing deteriorated drainage facilities that pass surface waters beneath the roadway. Concrete headwalls and wingwalls will also be constructed at the upstream and downstream ends of the culvert. In addition, the roadway will be repaved and the shoulders widened, in places, to meet current roadway standards.	NOE	
2012118096	Precise Plan of Development PPD-761 Stanton, City of Stanton--Orange Precise Plan of Development MPPD-761 for the construction of a 4,000 square foot addition to an existing commercial building located at 10200 Beach Blvd. in the C-2 (General Commercial) zone.	NOE	
2012118097	Olive Orchard Parks and Recreation, Department of --San Benito The purpose of this project is to interpret and rehabilitate the Pierce-Robson Olive Orchard, within the Lower Reach of Hollister Hills SVRA, as a cultural resource to visitors. The interpretation aspect of this project will be achieved by establishing a self-guided riding trail through the olive orchard with interpretation panels. Rehabilitation efforts will include: pruning, clearing of ground cover and invasive plants within the orchard, possible installation of an irrigation system during drought years and volunteer trail closures.	NOE	
2012118098	Vineyard Sediment Basin Improvements Parks and Recreation, Department of --San Benito The purpose of this project is to replace an ineffective culvert, upstream from the Vineyard Sediment Basin with a more effective storm water conduit. The existing culvert continually degrades the basin inlet and road which prompted the need for this project. The basin is fed by an ephemeral tributary, and traps sediment. Flows entering the basin are concentrated and delivered via a 3.0 foot diameter culvert that spans the width of Garner Flat Road (roughly 15 feet). Currently, the end of the inlet culvert pipe is suspended roughly nine feet from the bottom of the basin. The distance between the end of the culvert and the bottom of the basin is of concern as the sudden drop in gradient increases the potential energy of incoming flows.	NOE	
2012118099	Agreement 2012-0200-R4 - Mill Creek Tributary Fish & Game #4 --Fresno The Project includes the construction of a vehicle crossing over an unnamed tributary to Mill Creek. The crossing will provide vehicle access to the property to the north of Chuckwagon Road. Construction of the crossing will include the installation of an approximately 20-foot-long by 48-inch-diameter steel culvert. Approximately 25 linear feet of creek bed will be excavated to accommodate installation of the culvert pipe. Once the pipe is installed, it will be backfilled with soil and covered with approximately 2 feet of decomposed granite.	NOE

2012118100	San Francisco Bay Trail - Martinez Intermodal to Crockett Fish & Game #3 Martinez--Contra Costa The project is limited to repair and restoration of eleven existing drainage features to support creation of a new regional trail. SAA #1600-2012-0241-3.	NOE	
2012118101	Lake Alteration Agreement #1600-2012-0136-R2 Ratto footbridge Fish & Game #2 --Plumas The project is limited to the construction of a 4-foot wide wooden bridge across the rock boulder riprap to access Lake Almanor. At the shoreline the foot bridge rises 2.5 feet and at the end of boulders it descends 5 feet to the lake bed. The foot bridge shall be constructed with redwood and shall be anchored to the existing boulder riprap. A 2-foot x 5-foot concrete footing shall be constructed on the surace of the lake bed.	NOE	
2012118102	Mokelumne River Cableway and Hydro Monitoring Structures Maintenance Project SAA#1600-2012-0123-R2 Fish & Game #2 --Amador, Calaveras The Permittee will perform routine maintenance work to maintain the functional and structural integrity of its facilities. Routine maintenance work will include the following: removing vegetation and debris around three cable-way structures and associated hydro monitoring structures (gauging weirs, leakage weirs, sand traps and gauging wells) located in North Fork Mokelumne River Watershed that are used for the routine monitoring of hydrologic conditions required under the PG&E FERC license (FERC No. 0137) and the Division of Safety of Dams; and repairing and/or maintaining the functional and structural integrity of the cable-way, hydro monitoring structures and stream channel.	NOE	
2012118103	Streambed Alteration Agreement 1600-2012-0151-R2 Charter Rip Rap and Natural Rock Staircase Fish & Game #2 --Plumas The project is limited to installation of bank stabilization of native boulders (approximately 57-feet long by 4-feet tall) to provide for safe beach and dock access and to prevent future seasonal erosion. The native boulders shall be imported from an off-site area. Native boulders shall also be placed across the rip-rap to create a natural rock staircase to allow for safe beach and dock access.	NOE	
2012118104	Agreement No. 2012-0139-R4; Towne Creek Upper Crossing Fish & Game #4 --San Luis Obispo The Project consists of repairing an eroding concrete low water crossing to ensure stability and safety for vehicular traffic. Repairs will consist of removing existing cracked concrete from approximately 15 to 20 linear feet of the crossing and refilling with approximately 8-inches of concrete to tie into existing solid concrete. Approximately 46 cubic yards or less of concrete will be used.	NOE	
2012118105	Agreement No. 2011-0207-R4; Lewis Creek Road Bridge Maintenance Project, Co. No. 416 Fish & Game #4 --Monterey The Project consists of encasing the existing abutment rail pipes in concrete to repair scour from the stream in the channel bed. In addition, prefabricated	NOE

	concrete slab wingwalls and rock slope protection on the channel bank will be installed.		
2012118106	<p>Diversion Dam Maintenance Dredging, Rio Bravo Hydroelectric Project, FERC No. 4129 Olcese Water District Bakersfield--Kern</p> <p>Releases of sediment in upstream non-project facilities have impacted operations since the Facility became operational in 1989. Sand has been entering the intake and canal system and settling in the canal and forebay resulting in an operational capacity reduction from 1600 cubic feet per second (cfs) design to about 800 cfs. Approximately 70,000 cubic yards (CY) of sand and sediment has built up behind the project diversion dam. These materials have deleteriously restricted flow and caused recurrent repair costs and damage to turbine blades, shaft seals, generator coolers, trash rakes, and coatings. Maintenance dredging (the Project) is necessary to remove the sands and sediment that have accumulated from other hydroelectric projects discharges upstream of the Facility.</p>	NOE	
2012118107	<p>Repair Damages and Maintain the Pavement on Son 121 Caltrans #4 --Sonoma</p> <p>Digouts at various locations backfill HMA. Construction restrictions due to infineon Raceway weekends (probable night work). No shoulder backing. All work will be limited to existing State Right of Way.</p>	NOE	
2012118108	<p>Bridgeport Maintennace Station Driveway Aprons Caltrans #9 --Mono</p> <p>The proposed project is to remove and replace the existing concrete driveway aprons and concrete curbs on the east and west side of the existing Caltrans Bridgeport Maintenance Station on State Route 395 at PM 75.91. The prject will extend the life of the paved project area.</p>	NOE	
2012118109	<p>Amendment No. 1 to the Agreement between the Department of Water Resources of the State of California Water Resources, Department of --Los Angeles</p> <p>AVEKWA modified an existing temporary agricultural turnout at 305th Street West into a permanent turnout in 2011. DWR entered into an Agreement at that time governing the modification, operation and maintenance of the turnout which recognized that the nature of pumping operations at the site was intermittent involving pumping of water with a diesel driven pump when water is available for gourndwater banking. Accordly, the Agreement called for the portable diesel engine driven pump and diesel fuel tank to be removed when work at the site was halted. However, on or about June 15, 2012, DWR agreed by letter that the diesel fuel tank on DWR's right of way could remain in place after operations at the site are halted.</p>	NOE	
2012118110	<p>Reynier Fund LLC Central Valley Flood Protection Board Davis--Yolo</p> <p>To authorize an existing agricultural lift pump and appurtenant facilities.</p>	NOE

The Sanchez Farm water diversion is located on the east bank of Steamboat Slough, approximately 4 miles west of Walnut Grove. The Project involves installing a California Department of Fish and Game and National Marine Fisheries Service approved fish screen on an existing unscreened irrigation pump. The new fish screen, intake adapter, docking inlet, and retrieval track will be supported by six piles. Two of the six support piles will be installed below the ordinary high water mark. Piles will be installed with a vibratory hammer attached to a crane located on the levee.</p>	NOE	
2012118120	<p>Californis State Library Annex Door and Signage Replacement Project Library, California State Sacramento--Sacramento</p> <p>Minor renovations to the California State Library Annex, which was constructed in 1994. The scope of work includes all materials and equipment necessary to replace two sets of double doors on the first and second floors of the building and all signage throughout the building. The doors on the first floor would be replaced with glass double doors with automatic door openers, providing better visual control of public traffic. The doors on the second floor would be replaced with new doors and a security card reader, providing enhanced security. The replacement of signage throughout the building is necessary because of alterations made to the building and changes in tenants. The new signage would increase the accessibility and functionality of the building.</p>	NOE

	continue to store and transfer used oil, waste antifreeze, non-RCRA wastewater, and solid waste contaminated with oil in tanks and containers.		
2012118125	Temporary Emergency Permit to Store and Treat Hazardous Waste, Ampac Fine Chemicals LLC Toxic Substances Control, Department of --Sacramento A temporary emergency Hazardous Waste Storage and Treatment Permit has been granted to Ampac Fine Chemicals LLC (AFC) to treat 510 gallons of an intermediate product from the manufacture of a pharmaceutical. The hazardous waste was generated due to a missed neutralization step during the production process.	NOE	
2012118126	Northstar Roundabout Modification Project Placer County Truckee--Placer The Northstar Drive Roundabout currently is located on Northstar Drive between State Route 267 and the Northstar Village. The Roundabout accommodates village traffic during winter ski season, as well as residential and commercial traffic accessing Big Springs Drive and Highlands View Road. Currently the Northstar Roundabout is unable to accommodate winter peak hour traffic due to high volumes. In addition, the roundabout cannot accommodate certain turning movements from the north leg entrance, and has points of conflict and path overlap, thus making proper movements within it problematic. The east leg approach has no deflection to slow entering traffic and direct it into the appropriate portion of the circulating lane. The Roundabout is therefore deficient in capacity and handling proper circulation movements. The purposes of the project is to modify the roundabout so that it functions properly pertaining to capacity and circulation.	NOE	
2012118127	Union Pacific Railroad Fence - Type 1 Design Review Elk Grove, City of Elk Grove--Sacramento The project consists of an Old Town Type 1 Design Review for vinyl-coated chain link fence.	NOE	
2012118128	Rattlesnake Bar Vehicle Control Project Parks and Recreation, Department of --Placer Install vehicle barriers and gates at various locations along the Rattlesnake Bar Day Use Area entrance road and parking areas to restrict vehicular access to designated roads and parking areas. Work will: * Install approximately 2650 feet of steel guard rail along the paved entrance road to the boat ramp and around the existing paved parking lots. This will require excavation of approximately 440 post holes, 12 inches diameter and 2 feet deep. * Grade a portion of an existing user created parking area (approximately 35,000 sq. ft.), install and compact crushed rock in parking area and place large boulders around perimeter of this newly named "Vista Parking Area" to contain vehicles. * Excavate 8 posts holes, 12 inches diameter and 2-3 feet deep, to install four gates at various locations to control vehicles. 	<p>communicate between locations on the Channel Islands and with personnel and other contact points on the mainland. The islands have a very high frequency (VHF) radio system that allows communication among radio-equipped ranger stations on the five islands. There is also satellite internet service at some ranger stations that allows secure access to government internet provider (IP) addresses on the mainland. NPS personnel also possess cellular telephones; however, cellular service is unreliable because the islands are at the outer limit of the cellular service area. As such, the location of the islands makes cellular telephone service unreliable on some parts of the islands and wholly absent on others. Recreational visitors to the island have no land line telephone access and little to no cellular telephone reception.</p> <p>The proposed project would provide cellular telephone service at all ranger stations, fire stations, campground sites, residences, and runways on the five islands, as well as at all portions of the islands within an approximately 0.5 mile radius of each of the 17 proposed facility locations. The new service is intended to be consistent and reliable, with a reliability of 99.99999 percent, meaning that service will be available at these locations 99.99999 percent o the time.</p>
