

Jerry Brown, Governor

STATE CLEARINGHOUSE

**SUMMARY
OF
POSTINGS**

November 1 – 15, 2013

STATE CLEARINGHOUSE SUMMARY OF POSTINGS

The State Clearinghouse distributes draft environmental documents to state agencies for review and comment, pursuant to the California Environmental Quality Act (CEQA). The State Clearinghouse also acts as the State Single Point of Contact for the review of federal grant applications and federal development projects. This Summary of Postings summarizes the environmental documents and federal grant applications received by the Clearinghouse during the period **November 1 – 15, 2013**.

CLEARINGHOUSE CONTACTS

Please contact The State Clearinghouse if you have any questions regarding processing of environmental documents or grant applications. We may be reached at:

Telephone: (916) 445-0613
Fax: (916) 323-3018
e-mail: state.clearinghouse@opr.ca.gov
website: www.opr.ca.gov

Questions regarding federal grant notices should be directed to **Sheila Brown**.

Questions regarding processing of environmental documents should be directed to:

Scott Morgan
Director

CLEARINGHOUSE MAILING ADDRESS

The mailing address is:

USPS:

State Clearinghouse
P.O. Box 3044
Sacramento, CA 95812-3044

OR

USPS/Courier Service / Hand Deliveries:

State Clearinghouse
1400 Tenth Street, Room 113
Sacramento, CA 95814

INFORMATION AVAILABLE ON-LINE

The CEQA Statute and Guidelines are available through the Natural Resources Agency's website at:

<http://ceres.ca.gov/ceqa/>.

The State Clearinghouse Handbook, which contains all of our environmental document and grant processing procedures and forms, is available on our website.

Environmental Document Filings with the State Clearinghouse 1999-2012

All CEQA documents filed with the State Clearinghouse are available for viewing on the internet at www.ceqanet.ca.gov .

<u>Documents Received on Friday, November 01, 2013</u>			
2013112007	<p>Rezone Application No. PLN2013-0092 - E & J Gallo Winery Stanislaus County Modesto--Stanislaus Request to amend the zoning designation of 4.59 acres from R-2 (Medium Density Residential) to M (Industrial). If approved, the rezoning would enable the applicant to construct parking lots in support of a new office building on the E & J Gallo Winery campus.</p>	CON	11/18/2013
2003121087	<p>Granite Construction - Revised Mining and Reclamation Plan that includes a General Plan Amendment at the Bazzi/Gardner Ranch 400 South Highway 101, Buellton are Santa Barbara County Buellton--Santa Barbara Granite Construction currently operates an aggregate mine and asphalt production facility under an existing CUP and Reclamation Plan (03-CUP-00000-00024 & 03RPP-00000-00001). Granite proposes to continue mining and processing activities as allowed under existing permits but, in addition, Granite proposes to import additional raw aggregate to extend the life of the existing hot mix asphalt (HMA) plant. The material imported to the site will exceed and will eventually replace the material that is extracted from the site, thereby converting the site into a processing only facility. Processing only is only allowed in the Agricultural zones if the Comprehensive Plan designates the site as a Minerals Industry Overlay site. The proposed General Plan Amendment would establish such an Overlay and the proposed revisions to the CUP and Reclamation Plan would extend the life of the asphalt production facility by approximately 50 years.</p>	EIR	12/16/2013
2012071064	<p>Tulare General Plan Revision, TOD Plan, and CAP Tulare, City of Tulare--Tulare The City of Tulare is revising a General Plan Update that was published in 2007 and underwent CEQA review in 2008. The revision is addressing Tulare County's Superior Court order requiring modifications to both the General Plan and the General Plan EIR.</p> <p>a) TOD Plan In conjunction with the General Plan revision, the project includes preparation of a TOD Plan. TOD is a planning and urban design concept that calls for a mix of land uses centered on access to public transit.</p> <p>b) General Plan Revisions Besides incorporating the TOD Plan, the General Plan revision will largely focus on court-identified modifications.</p> <p>c) Climate Action Plan In addition to the analysis of the General Plan and TOD Plan, the EIR will analyze potential impacts associated with implementation of the Climate Action Plan, completed in April 2011.</p>	EIR	12/16/2013

<u>Documents Received on Friday, November 01, 2013</u>			
2012102028	Podva Property Residential Development Danville, City of Danville--Contra Costa The project would construct 20 one-story and two-story single-family homes and an associated access road on ~10 acres, while ~ 100 acres of the project site would be dedicated as permanent open space. Ingress and egress would be provided by an extension of Midland Way. The project sponsor requests a Preliminary Development Plan Rezoning, a Final Development Plan - Major Subdivision, and a Tree Removal permit. The East Bay Regional Parks District has expressed an interest in acquiring a portion of the open space area through a dedication and adding the land to the adjacent Los Trampas Wilderness Area. If the East Bay Regional Parks District does not acquire this portion of the site it will still be protected by an open space easement	EIR	12/16/2013
2011112025	Ukiah Costco EIR Ukiah, City of Ukiah--Mendocino FYI Final The Project consists of the construction of a Costco Wholesale warehouse and fuel station in Ukiah, CA. The EIR analyzes a maximum warehouse size of 148,000 sf and a fuel facility of up to 20 pumps on a 15.33-acre site. The proposed Costco warehouse would include a bakery, pharmacy, optical center, hearing aid testing center, food court, photo center, and fuel station, along with the sales of 3,800 to 4,000 retail products. The tire center would be a 5,692 sf attached building with member access through the inside of the main Costco building and would include retail tire sales and a tire installation facility. The fuel station, located in the southeast corner of the site, would have 16 stations initially (and an option to expand to 20 stations) and a 2,816 sf canopy. The Costco facility will employ approximately 175 to 200 people.	FIN	11/15/2013
2012022068	West of Hills Northern Pipelines Project East Bay Municipal Utility District Brentwood, Richmond, San Pablo, El Cerrito--Alpine, Contra Costa FYI Final The project involves the construction and operation of four transmission pipeline segments in western Alameda and Contra Costa Counties - a proposed 1.5 mile long, 48-inch diameter pipeline in the City of Berkeley; a proposed 36-inch diameter, 2.5 mile long pipeline in the City of El Cerrito; a proposed 36-inch diameter, 2.5 mile long pipeline in the Cities of El Cerrito and Richmond; and a proposed 36-diameter, 1.9 mile long pipeline in the Cities of Richmond and San Pablo. The proposed pipeline routes are located within existing city streets and on non-street properties owned by EBMUD and City of San Pablo.	FIN	
2013021011	Vega Solar Project Merced County Los Banos, Dos Palos--Merced FYI Final 1 HC Project includes the development of a 20-megawatt photovoltaic solar array on approximately 165 acres. Electricity generated by the Vega project would interconnect with the existing Pacific Gas and Electric Los Banos-Canal-Oro Loma 70-kilovolt (kV) Line via an interconnection line directly west of the proposed	FIN

2013021019	Lerdo Detention Facility Expansion Project by the Kern County Sheriff's Office (PP13224) (EIR 06-12 JLB) Kern County Shafter, Bakersfield--Kern FYI Final	FIN	
	Kern County has prepared a DEIR for conditional use permit to allow for the expansion of the existing 300-acre Kern County Lerdo Detention Facility. The on-site expansion area is approximately 26.5 acres and includes vacant land adjacent to the existing facility and additional undeveloped land for wastewater disposal immediately south of Lerdo Highway. The project is located at 17801 Industrial Farm Road, east of SR 99 and West of SR-65.		
2013111001	TriCal - Hanford Facility Kings County Hanford--Kings The project would require Kings County CUP for approval of the following: The applicant is proposing to convert an existing industrial site into an operation center for a pesticide application company. The uses on the site would include office space, equipment, materials and fumigant storage, and, minor equipment and vehicle repair. No fumigant mixing or formulation will occur on the site. This is an existing facility located in Visalia, Ca., which will be relocated to the proposed site on Hanford-Armona Road.	MND	12/02/2013
2013111002	Dynamic Development Minor Use Permit; P201300087 San Bernardino County --San Bernardino NOA for IS / Proposed MND for a minor use permit to establish a 9100 sf general retail building on 2.5 acres, in the unincorporated community of Flamingo Heights, San Bernardino County / 3rd Supervisorial District / Project No. P201300087/MUP	MND	12/02/2013
2013111003	Dynamic Development Minor Use Permit; P201300122 San Bernardino County --San Bernardino NOA for IS / Proposed MND for a minor use permit to establish a 9026 sf general retail building on 1.75 acres, in the unincorporated community of Lucerne Valley, San Bernardino County / 3rd Supervisorial District / Project No. P201300122/MUP.	MND	12/02/2013
2013111004	Ramallo General Plan Amendment & Revision; Alien Hotel; P201200246 San Bernardino County --San Bernardino NOA for IS / Proposed MND for a general plan amendment from RS-14M to CH on approx. 1.65 acres and a revision to an approved action to add a 25900 sf hotel, restaurant, museum, gift shop & pool/spa, a 5600 sf office building. A 7000 sf storage building, & 100 sf kiosk to existing retail uses (w/ existing caretakers residence) on 5.5 acres, in the unincorporated community of Baker, San Bernardino County / 1st Supervisorial District / Project No. P201200246/CF.	MND	12/02/2013

<u>Documents Received on Friday, November 01, 2013</u>			
2013112004	1616 El Camino Real West Residential Project Mountain View, City of Mountain View--Santa Clara The project proposes to demolish two buildings containing approximately 6,100 sf of commercial space, in addition to parking lots, driveways, utilities, and landscaping. Following site clearing, the project proposes to construct 66 new apartment units in one four-story building over a two-level underground parking garage. The project would include approximately 43 one-bedroom and 23 two-bedroom market-rate apartments, a lobby, common areas and courtyards, landscaping, and new utility infrastructure. Two Heritage trees and 57 other trees would be removed. The project also proposes a rezoning of the site to a Planned Community (P) zoning district.	MND	12/02/2013
2013101107	Shell Guadalupe Beach Gravel Removal In-Lieu Proposal Santa Barbara County Guadalupe--Santa Barbara Request by Shell Exploration & Production for an In Lieu Proposal for the Guadalupe Dunes Restoration Project (96-CDP-10). The proposal consists of a monetary contribution to the County for the purposes of providing and/or enhancing public recreational opportunities in the Santa Barbara County north coast area in lieu of removing approximately 85,000 cubic yards of remnant gravel. The monetary contribution is offered by Shell as a substitute to Permit Condition #31 of permit nos. 77-CP-66 and 96-CDP-10 which requires removal of all materials brought into the dunes from the exploratory drilling project.	NOP	12/02/2013
2013111005	Cornerstone Church Construction Project (Planning Application No. 12-0194) Wildomar, City of Wildomar--Riverside Planning Action (PA) to modify the existing PUP 778 for the Cornerstone Community Church. The modification will allow for the construction of a preschool, administrative office building, kitchen, and new parking lots at the existing church. The construction is anticipated to occur over two phases. As part of the project, a new approximately 1,800 lineal foot sewer line will be constructed in Monte Vista Drive to connect to an existing Elsinore Valley Municipal Water District sewer manhole. By connecting to the sewer, the proposed project can abandon the existing on-site septic tanks.	NOP	12/02/2013
2013112002	Conservation Center for Wildlife Care Santa Clara County Saratoga--Santa Clara The proposed project is for the development of a wildlife care and rehabilitation facility and associated captive propagation facility for endangered/imperiled native species.	NOP	12/02/2013
2013112003	Gateway Park Bay Area Toll Authority Oakland--Alameda The creation of a new park is proposed at the east touchdown of the San Francisco-Oakland Bay Bridge (Bay Bridge) in Oakland. The new park would provide bicycle/pedestrian connection to the new East Span of the Bay Bridge and to other trails. The new park would provide access to the Bay. The new park would include recreation opportunities and features to showcase the natural, maritime, industrial, and transportation history of the East Bay. Its working title is Gateway Park. 2013112006	Bear River Restoration at Rollins Reservoir Nevada Irrigation District Colfax--Nevada, Placer Re-establishment of gravel skimming operations on Bear River (at Steephollow Creek) to restore and maintain capacity of Rollins Reservoir.	NOP	12/02/2013
2013112001	Parcel Map 12-003 (McArthur) Shasta County --Shasta The request is to adjust the property lines of 43 parcels that were created by patent or deed prior to the adoption of the State of CA's Subdivision Map Act. The ranch properties are currently used for residential and agricultural purposes, including both dry and irrigated pasture. The 43 parcels are proposed to be merged and/or reconfigured such that 6 parcels would remain,	Neg	12/02/2013
2013112005	PA-1300145 (SA) San Joaquin County Stockton--San Joaquin A Site Approval application for the expansion of an existing truck parking facility. The project includes the parking of eleven trucks and forty-three trailers, the seasonal storage of seven trailers, and the use of an existing 4,000 sf warehouse building for storage and an office area.	Neg	12/02/2013
2009092041	State Route 99 Corridor Bikeway Project Chico, City of Chico--Butte The California Department of Fish and Wildlife is executing Streambed Alteration Agreement number 1600-2013-0076-R2, pursuant to Section 1602 of the Fish and Game Code to the project applicant, City of Chico, Capital Project Services Department. The City of Chico is proposing to construct a 12-foot-wide, 130 foot long, prefabricated steel truss bicycle/pedestrian, clear-span Bridge. The proposed bridge is part of the City of Chico's State Route 99 Bike Path System which will provide connectivity for the surrounding community, schools and parks that parallel SR 99. The proposed bridge would extend from an existing bicycle path into the Caltrans right-of-way, over Little Chico Creek, and continue south into the East 20th Street Community Park. The existing bike path that parallels Little Chico Creek would serve as a buffer between proposed project improvements north of the creek and the streambed. No construction activities would occur within the streambed or channel of the Little Chico creek. The clear-span bridge would extend 130 feet between two abutments placed on the north and south side of the creek, outside of the ordinary high water and stream channel. Installation of the bridge would require trimming of vegetation within the creek channel for safety purposes, however this vegetation would not be removed.	NOD	
2010121026	California Water Service Company Monterey County --Monterey The California Department of Public Health (Department), as the responsible agency, will be issuing a water supply permit. The California Water Service Company - Oak Hills District proposed project included construction of a well No.	NOD

	November 4, 1982. The existing and proposed mine expansion will encompass approximately 43.25 acres of land overall.		
2012032012	Lake Merritt Station Area Plan Oakland, City of Oakland--Alameda The Lake Merritt Station Area Plan will be a 25-year planning document for the area around the Lake Merritt BART Station, generally bounded by 14th Street to the north, I-880 to the south, Broadway to the west and 5th Avenue to the east. The Plan will include recommendations for Improvements to streets, open spaces and new development.	EIR	12/18/2013
2012111086	Vierra Dairy Farm Expansion Project Merced County --Merced Conditional Use Permit CUP12-005 would allow the expansion of an existing dairy facility and bring it into compliance with Merced County's permit requirements. The existing dairy would be expanded to house a total of 5,600 animals, an increase of 2,225 animals over the existing 3,375. The proposed project would include reconfiguration of the existing dairy facilities, including the removal of two corrals, and the construction of a freestall barn and a 72-stall rotary dairy barn between the carrals and the commodity barns. Additional ancillary improvements would include an entrance driveway, a parking area with 40 spaces and two handicap spaces, landscaping, and a perimeter road located west of the proposed freestall barn.	EIR	12/18/2013
2013111009	"Eagle's Nest Lodge" / Project No. R2012-01795-(4)/RCUP 201200093, RCDP 201200003, RENV 201200176 Los Angeles County --Los Angeles The applicant proposes the relocation, rehabilitation, and reconstruction of the existing 1,446-sf Eagle's Nest Lodge building (currently located 1.7 miles to the northwest on APN 7480-043-026) to the project site location for use as an educational facility. The building is a historic former stagecoach station and hunting lodge, built between 1896 and 1898, and is currently abandoned and in poor condition. Accessory uses to the facility would include a dining and service maintenance building, a restroom building, outdoor seating, a recreation and picnic area, a common open area with walking paths, and a small gravel parking area. The project would also include a propane tank, photovoltaic solar panels, onsite wastewater treatment system and leach fields, monument signage, a fire hydrant, and a 50,000-gallon water tank located below the ridgeline 850 feet in the northeast of the proposed structures. The project site would be utilized as an educational and interpretive center designed to support visitor serving recreational and educational uses highlighting the history, resources, and conservation of Santa Catalina Island. The site would be accessed primarily by pedestrians, scheduled shuttles, and a limited number of private vehicles, as access to Middle Ranch Road is restricted to those obtaining permits from the Santa Catalina Island Conservancy. 2013111011	Alamo Solar - Conditional Use Permit P201300204 San Bernardino County --San Bernardino NOA for IS / Proposed MND for a conditional use permit to establish a 20-MW solar power generating facility on a 175 acre parcel, in an unincorporated community of Helendale, San Bernardino County / 1st Supervisorial District / Project No. P201300204/CUP	MND	12/03/2013
2013111012	Cypress Ridge LP Tract Map and Conditional Use Permit (TR 2993) San Luis Obispo County Nipomo--San Luis Obispo Request by Cypress Ridge L.P. for a Vesting Tentative Tract map (TR 2993) and CUP to allow a cluster subdivision of two existing 20.78 and 40.02 acre parcels resulting in twenty-one parcels of one acre each for the purpose of sale and/or development and two open space parcels of 21.2 and 14.6 acres. The applicant has applied for a Transfer of Development Credit (TDC) to transfer nine residential credits to the property. The project will result in the disturbance of approximately 40 acres of 61-acre site as a result of the access drive, access trails, and future residences on the proposed parcels. The proposed project is within the Residential Rural land use category and is located at 852 Zenon Way; approximately 2400 feet northeast of Callender Rd, directly east of the community of Palo Mesa.	MND	12/04/2013
2013112014	Novato Disposal Recycling Center Use Permit Modification Sonoma County Petaluma--Sonoma Request for modification of a previously approved Use Permit (PLP02-0072) for a recycling center to eliminate the previously permitted public recycling buy-back/drop off business, portable toilet rental business, and used tire recycling operation, and a reduction in the maximum allowed 500 tons per day (TPD) of light processing recycling to 130 TPD of non hazardous construction debris inert, and 140 TPD of single stream recycling materials, and 25 TPD of cardboard recycling (for a total reduction of 500 TPD down to 395 TPD arriving on site), all within an existing building on site, and minor design changes to the previously approved canopy's over existing concrete work areas on the south and north side of the maintenance/mechanic building, and change hours of operation to 24 hours per day.	MND	12/03/2013
2013111007	Upper Oso Habitat Restoration Plan IS/MND Rancho Santa Margarita, City of Rancho Santa Margarita--Orange The proposed project involves restoration of approximately 82.9 acres within O'Neill Regional Park. The proposed project includes 66.3 acres of revegetation and 16.6 acres of enhancement of native vegetation, including coastal sage scrub, cactus scrub, southern willow/mulefat scrub, scrub oak chaparral/oak woodland, and foothill needlegrass grassland. Successful implementation of the proposed	Neg	12/03/2013

	<p>project would improve habitat quality for target species, including the coastal CA gnatcatcher, Cooper's hawk, cactus wren, grasshopper sparrow, and riparian birds.</p> <p>Implementation of the proposed project is anticipated to begin in the spring of 2014. Successful completion of the proposed project, including the 5-year maintenance, monitoring, and reporting phase, is anticipated in early 2020.</p>		
2013111008	<p>2014-2021 Santa Ana Housing Element and Public Safety Element Updates Santa Ana, City of Santa Ana--Orange</p> <p>The Housing Element update consists of an updated determination of housing needs within the City and revisions to policies and programs the City would implement to address those needs. The 2014-2021 Housing Element identifies opportunity sites for potential residential/mixed-use development that could accommodate the Regional Housing Need Assessment (RHNA) by 2021 in the Metro East Overlay Zone, Harbor Boulevard Mixed Use Transit Corridor Plan area, and Transit Zoning Code area. The Public Safety Element update consists primarily of minor refinements of technical narratives and revisions and additions to policies and implementation programs. The flood hazard area map is also updated to reflect the most recent 2011 FEMA flood insurance rate maps.</p>	Neg	12/03/2013
2012121052	<p>EIR PFS 04-12; Lehigh Alternative Fuels Project by Lehigh Southwest Cement Company Kern County Tehachapi--Kern Note: Response to Comments.</p> <p>The project proponent is requesting a Conditional Use Permit that would authorize the burning of alternative fuels, including: tire derived fuels, refuse derived fuels and biomass as part of the existing cement operations. Implementation of the project would require minor additions to existing operational equipment currently utilized as part of the existing operations. Less than one acre of new ground disturbance activity is proposed for use exclusively as a result of implementation of the project. The project involves the installation and operation of new equipment at the Lehigh Cement Plant to allow for use of alternative fuels in the heating process necessary to produce cement. The Lehigh Cement Plant has historically used coal and petroleum coke with a small amount of natural gas as its main fuel sources. The use of such alternative fuels is proposed in order to reduce air pollutant and greenhouse gas emissions from the Lehigh Cement Plant, and to allow the facility operator more flexibility in the sourcing of fuels to make cement. The project also includes repurposing of a portion of the existing plant site to allow for parking of tractor-trailers that would serve as fuel storage units. All improvements and operations associated with the proposed project would occur on areas that were previously graded, improved, and/or paved.</p>	Oth

	<p>district. The McKittrick Waste Treatment Site (MWTS or facility) includes a Class II landfill disposal area, supporting uses and facilities on 27.1 acres of the 50-acre. The current Solid Waste Facility Permit (SWFP No. 15-AA-0105) would also be modified.</p> <p>The project proposes to expand the landfill footprint onto the adjacent 40-acre parcel. For purposes of this process, the existing facility is described as being located on the east parcel and the proposed expansion is described as being on the west parcel. Additionally, a zone change (ZCC 4, Map 118) from A-1 (Limited Agriculture) to A (Extensive Agriculture), has been proposed to bring the east parcel into consistency with the General Plan map code designation 3.4 (Solid Waste Facility). The proposed project would revise the SWFP by increasing the currently permitted daily tonnage from 1,180 tons per day (tpd) to 3,000 tpd.</p>		
2013091043	<p>Standard Street Secondary Access Project Kern County Bakersfield--Kern Note: Response to Comments</p>	Oth	
	<p>The Kern County Roads Department proposes to construct approximately 0.70 mile of new road between the western end of Atlas Court and a point near the intersection of Hageman Road and Knudsen Drive in Kern County, CA. The new road would cross a number of parcels of land north of Atlas Court and would require construction of an undercrossing of the San Joaquin Valley Railroad (SJVR) near the western terminus of Atlas Court. The road would continue west across undeveloped land and across a canal to an extension of Knudsen Drive (to be called Landco Drive). The existing canal culvert just south of the Hageman Road/Knudsen Drive intersection is to be removed and a larger culvert would be constructed in its place (where the Knudsen/Landco Drive extension crosses the canal). The project would require new right-of-way acquisition, bridge work, and easement changes. In addition, sidewalks would be constructed on both sides of the new road extension from approximately 600 feet west of the SJVR through the depressed roadway section to approximately 250 feet west of Standard Street. A new traffic signal and lighting would be installed at the Hageman Road/Knudsen Drive intersection and street lighting would be placed along the new road extensions. A pump station and drainage basin would be constructed either to the northeast or northwest of the new railroad crossing.</p> <p>The purpose of the project is to provide secondary access to an industrial area that is bounded by the San Joaquin Valley Railroad and SR 99.</p>		
2009032054	<p>Ohlone Greenway Master Plan El Cerrito, City of --Contra Costa</p>	NOD	
	<p>The project proposes to conduct in stream and creek bank rehabilitation in two separate areas of El Cerrito Creek identified as site A and Site B. At site A, the project is limited to the removal of an existing pedestrian bridge and excavation of two wooden pilings using hand tools, the area will be backfilled with 0.44 cubic yards of crush rock and soil Temporary water diversion will be installed during excavation and slopes will be regarded following completion, the project will temporarily impact 60 linear feet. At site B, the project is limited to bank stabilization and grading of 90 linear feet of stream bank, Invasive vegetation will be removed at both sites and re-vegetation work will be conducted at both sites as well. Equipment to be employed includes bobcats, excavators, and hand-tools.</p>

<u>Documents Received on Monday, November 04, 2013</u>			
	The California Department of Fish and Wildlife is executing a Lake and Streambed Alteration Agreement No. 1600-2013-0028-R3 to Section 1602 of the Fish and Game Code to the project Applicant, Yvetteh Ortiz, City of El Cerrito.		
2011041097	Diatomite & North Midway Sunset Development Division of Oil, Gas, and Geothermal Resources --Kern The California Department of Fish and Wildlife is issuing Amendment #1 to the Streambed Alteration Agreement issued for the Belgian Well Pad Project. Project changes include the addition of approximately 4 acres of well pad area to the continuous well pad area proposed in the original Agreement. Changes to the Agreement also reflect Incidental Take Permit (No. 2081-2011-037-04); issued after the original Agreement was issued.	NOD	
2012081083	New Residence at 3605 Noranda Lane Malibu, City of Malibu--Los Angeles Coastal Development Permit No. 09-027, Variance Nos. 10-025 and 10-026, Site Plan Review No. 10-040, Initial Study No. 11-004 and Mitigated Negative Declaration No. 11-004 - An application for the construction of a new 5,236 square foot two-story single-family residence with attached 893 square foot garage and 643 square foot second residential unit, water tank, water well driveways, fire department turnaround, modified fuel modification associated landscaping an hardscape, retaining walls, trellises, covered patio, storm water detention tank removal of two oak trees and installation of a new alternative onsite wastewater treatment system, including variances for construction on slopes equal to or steeper than 2.5 to 1 and construction in an Environmentally Sensitive Habitat Area, and a site plan review for construction in excess of 18 feet in height with a height of 24 feet for a flat roof.	NOD	
2012082079	Application 31095 of Barry Hoffner to Appropriate Water by Permit State Water Resources Control Board Cloverdale--Sonoma The project is limited to the modification of a small existing water diversion facility, located on Sulphur Creek at the Point of Diversion (POD) #2 named in water right Permit 21316 (Application 31095, Exhibit A), to facilitate minimum bypass flows. Diversions are piped to earn existing storage reservoir for irrigation and heat control for approximately 17 acres of vineyard. Permit 21316 requires minimum bypass of 0.5 cubic feet per second (cfs), or the entire flow of the stream if it is less than 0.5 cfs, at POD #2 before diversions are allowed. The existing diversion facility is a masonry wall approximately 14-inches high with two embed flexible pipes penetrating the wall near the flow line of the stream channel. The proposed modification of the masonry wall involves cutting the existing 3-inch diameter flexible pipes flush with the masonry wall at or near the same elevation as the existing flexible pipes through the wall for bypassing low flows, and a core-drilling another hole in the masonry wall to accommodate a 3-inch diameter galvanized steel pipe for diversions to the reservoir. 2012071013	Cielo Vista Project Orange County Yorba Linda--Orange Note: Extended Review The project would include a maximum of 112 single-family detached residential dwellings on approximately 48 acres and would preserve approximately 36 acres as permanent open space. Access to the site would occur from existing public roadways and within existing dedicated right of way in the City of Yorba Linda. The project site is vacant, with the exception of several operational and abandoned oil wells and various dirt access roads and trails which traverse the site.	EIR	01/07/2014
2013081051	125 East Baker Street Apartment Project Costa Mesa, City of Costa Mesa--Orange The proposed project site is 4.17 acres and is currently occupied by a 66,000 sf two story office building. The proposed project would replace the office building and surface parking areas with an apartment building and parking structure. Specifically, the project consists of a five-story 240 unit residential apartment building (63 feet overall height) that wraps around a six-story parking structure (57 feet overall height) with 465 parking spaces in the structure and 4 outdoor on-grade parking spaces.	EIR	12/20/2013
2013082045	Ardenwood Farm Historic Buildings Demolition Project East Bay Regional Parks District Fremont--Alameda The proposed project is the demolition of three buildings of potential historic significance known as the Mowry Schoolhouse and the Bettencourt and Brown Houses which were moved from other locations in 1984-1985 and stored on cribbing at Ardenwood Historic Farm Regional Preserve. Previous efforts at restoration and reuse by the East Bay Regional Park District have been unsuccessful due to the high cost of renovation. Because of public safety issues,	EIR	12/23/2013

	the Park District has proposed demolition without replacement of the three structures.		
2013114001	Bi-State Sage-Grouse Draft EIS U.S. Forest Service --Modoc, Lassen, Siskiyou, Plumas Note: Extended Review	EIS	01/17/2014
	The Planning Area consists of about 70 million acres in Nevada and Northeastern CA. Create a management strategy that best meets the needs of the resources and values in this area under BLM and Forest Service multiple use and sustained yield mandate for the Greater Sage-Grouse.		
2013091007	State Route 62 Improvement Project Caltrans #8 Twentynine Palms--San Bernardino Caltrans proposes to widen SR 62 to ultimate street standards between Encelia Avenue and Split Rock Avenue while simultaneously developing a concept plan for lane configurations, medians and sidewalks that allows the smooth progression of traffic and creates a "sense of place" via aesthetic enhancements. Once established this concept plan will be constructed in phases as development occurs and funding becomes available.	FIN	
2013112013	Mammal Pool Renovation and Expansion Project University of California Santa Cruz--Santa Cruz The Project would renovate and expand the existing 20,200-sf outdoor marine mammal pool facility. The Project would expand the facility by about 2,894 sf to accommodate enlargement of the largest pool up to 25 feet in length. The expansion would involve removing an existing fence, excavation of a portion of a berm, excavation to increase the maximum depth of the expanded pool to 30 feet, construction of a new retaining wall, and new fencing. The Project also includes improvements to existing above-ground tanks and the installation of new tanks at the CDFW facility at the Marine Science Campus, to provide temporary accommodation of the animals that would be displaced by construction.	MND	12/05/2013
2013111016	State Route 138 Northwest Corridor Improvement Project Caltrans #7 Lancaster--Los Angeles The project is located in northern Los Angeles County, and extends from Interstate 5 (I-5) on the west to State 14 (SR-14) on the east. SR-138 Northwest Corridor Improvement project proposes to improve the highway as a freeway, expressway with access control and/or traffic system/multi-modal facility. Four alternatives are identified for the project corridor. Alternative 1 is an expressway facility throughout the entire corridor. Alternative 2 is a freeway/expressway facility throughout the entire corridor. Alternative 3 is a traffic system/multi-modal facility throughout the entire corridor. Alternative 4 is the No-Build Alternative. These alternatives may be refined, combined with various different alternatives, or be removed from further consideration, as more analysis is conducted on the project alternatives.	NOP	12/05/2013

<u>Documents Received on Wednesday, November 06, 2013</u>			
2013111017	Grantville Focused Plan Amendment San Diego, City of --San Diego The proposed project would rezone Subarea A from predominately single use commercial and industrial zones to multiple use zones which promote transit-oriented development. Alternative D would be implemented through the adoption of three new zones: 1) CC-3-6, a community commercial zone which will emphasize pedestrian orientation and allow up to 44 dwelling units per acre. 2) CC-3-8, a community commercial zone which will emphasize pedestrian orientation and allow up to 73 dwelling units per acre. 3) RM-3-7, a multiple dwelling unit residential zone which will allow for limited commercial uses and allow up to 44 dwelling units per acre. The application of these zones, together with the adoption of a new Community Plan Implementation Overlay Zone (CPIOZ), will serve as the implementation tools to achieve the proposed land use amendments associated with Alternative D.	NOP	12/05/2013
2013111019	Heacock Channel Improvement Project March Joint Powers Authority Moreno Valley--Riverside The project is contained within the Sunnymead Master Drainage Plan (MDP) and includes the design and construction of a fully lined concrete flood control channel that will provide 100-year flood protection to residential, commercial, federal, public and privately owned properties within the vicinity of the Project site. Future connection "stub-outs" will be constructed at appropriate locations along the Project alignment to accommodate future development. Types and sizes of future connections are not known at this time. The project alignment generally follows the existing channel alignment commencing at the intersection of Cactus Avenue and Heacock Street, running parallel with Heacock Street for ~10,000 lineal feet, terminating at the recently improved Heacock Street Bridge at Lateral A.	NOP	12/05/2013
2013111021	Tapestry Specific Plan Hesperia, City of Hesperia--San Bernardino The Tapestry Specific Pan area is located within the previously approved Rancho Las Flores Specific Plan (SP-89-01) area. A Final EIR was certified for the original Rancho Las Flores Specific Plan in 1990. The proposed specific plan was for a master-planned mixed-use community of single-and multi-family residential, commercial, town center, recreational, and community uses. An amendment to the approved Specific Plan is now proposed. In addition, the project applicant is preparing a Tentative Tract Map for Phase 1 of development. The Tapestry Specific Plan proposes a maximum of 19,396 residential units with a mix of densities ranging from very low density and equestrian to high density and mixed use.	NOP	12/05/2013
2013111022	Lido House Hotel Newport Beach, City of Newport Beach--Orange The City plans to lease the majority of the project site for the development of a 130-room Lido House Hotel. The proposed hotel would also include meeting rooms, accessory retail spaces, a restaurant, lobby bar, rooftop bar, guest pool and recreational areas, and all required appurtenant facilities including, but not limited to on-site parking, landscaping, utilizes, and adjoining public	NOP	12/05/2013

	<p>improvements. The hotel would be no larger than 99,625 gross sf. The project would also provide 143 surface parking spaces and would accommodate additional parking through active parking management including valet parking service. The proposed structures would be ~4 stories with architectural features up to 58.5 feet in height. The project would also include public open spaces consisting of pedestrian plazas, landscape areas, and other amenities proposed to be located along Newport Boulevard and 32nd Street.</p>		
2013112011	<p>Large Format Retail/Superstore Zoning Text Amendments South San Francisco, City of South San Francisco--San Mateo</p> <p>The proposed Zoning Amendments include changes to remove the potential for future grocery store uses from within the East of 101 planning sub-area and to prohibit "Superstore" use city-wide. The proposed definition of "Superstore" is summarized as a large retail center (over 80,000 sf) with over 5% of floor area dedicated to full service food/beverage/grocery sales. Proposed alterations to the zoning ordinance will also require revised or new definitions for the following uses: Convenience Market, Large Format Retail, Grocery Store, Supermarket, and Superstore. The changes to these definitions provide clarification by differentiating these uses from the proposed to be prohibited "Superstores."</p>	NOP	12/05/2013
2013112012	<p>1527-1545 Pine Street Mixed Use Project San Francisco, City and County of San Francisco--San Francisco</p> <p>The project sponsor proposes demolition of each of the buildings on the project site and, in their place, construction of a 137,712 gsf, 12-story mixed use building. The proposed building would have 101,473 gsf of residential uses, with up to 107 residential units, and 2,844 gsf of ground-floor retail/art gallery space along Pine and Austin streets and 33,395 gsf of parking, loading, storage, mechanical, and circulation space on the ground floor and two basement levels. The proposed project would provide 82 subsurface vehicle parking spaces, including 3 handicap-accessible spaces and 2 car share spaces; 106 Class 1 bicycle parking spaces; and one ground-floor off-street loading space.</p>	NOP	12/05/2013
2013012049	<p>State Route 116 at Mirabel Road Intersection Improvement Project Caltrans #4 --Sonoma</p> <p>The California Department of Transportation as the California Environmental Quality Act (CEQA_ lead agency, in cooperation with the County of Sonoma (project sponsor and CEQA responsible agency), proposes to construct improvements at the intersection of State Route (SR) 116 and Mirabel Road in Forestville, Sonoma County. The project includes construction of a roundabout at the intersection to improve traffic flow, and lowering of SR 116 west of the intersection to improve sight practice.</p>	NOD

2013051031	North Central Avenue Apartments Project Glendale, City of --Los Angeles Stage II Design Review, Development Agreement, and Standards Variances for the proposed N. Central Avenue Apartments project ("Project") consisting of two independent buildings on opposite sides of Central Avenue at the Doran Street intersections. The 105,703 square foot Site A includes a 5-story apartment building with 315 apartment units and 456 parking spaces. The 88,139 square foot Site B includes as a 5-story apartment building with 192 apartment units and 275 parking spaces.	NOD	
2013081003	301 East Jeanette Lane Project Santa Ana, City of Santa Ana--Orange The project proposes a 182-unit multi-family apartment project on the 2.008-acre site. The project would include a single structure that would consist of four levels of apartment units above two levels of parking (one level of parking at grade, and another below grade). As such, the proposed building would include five levels above grade and would reach a maximum height of approximately 60 feet. While the proposed project would consist of a single building, apartment units would be arranged around three large landscaped open air courtyards (one on each end and one in the center of the structure). The apartment units would include a mixture of one-, two-, and three-bedroom configurations.	NOD	
2013091007	State Route 62 Improvement Project Caltrans #8 Twentynine Palms--San Bernardino The State Route 62 Improvement Project from Enceila Avenue to Split Rock Avenue involves the construction of 8-foot shoulders, standard curb and gutter, standard curb ramps, and 6-foot sidewalks on the north and south sides of State Route 62. The project also includes raised medians, bus turnouts, and dedicated left turn lanes.	NOD	
2013118028	Redcrest Slide Caltrans #3 --Humboldt The project is to repair a slipout and slope failures that occur during March 2010 storm event. The project is needed to restore the roadway to pre-storm damage conditions and stabilize the roadway through surface and subsurfacing dewatering.	NOE	
2013118029	Placer and Nevada County Drainage Correction Caltrans #3 --Placer, Nevada The purpose of this project is to improve two drainage facilities on highway 80 that are currently failing. This is a Minor B funded Maintenance project located on Route 80 and Nevada Counties.	NOE	
2013118030	Lion Farms Access Culvert Fish & Wildlife #4 Madera--Madera The California Department of Fish and Wildlife is executing a Lake or Streambed Alteration Agreement pursuant to Fish and Game Code Section 1602 to the Project applicant, Lion Farms LLC. The structure is a 4 foot 9 inch by 7 foot 3 inch by 22 foot deep, pre-cast concrete irrigation value box attached to 211 linear feet	NOE

	of 42 inch diameter rubber-gasket reinforced concrete pipe that will tie into an existing standpipe, located on private property. The value box will have a concrete cover with a metal access gate and a manually operated canal gate valve.		
2013118031	Pilarcitos Bridge Repair Parks and Recreation, Department of Half Moon Bay--San Mateo Install a temporary support under the Pilarcitos Bridge located at Francis Beach in Half Moon Bay State Beach to prevent sagging on the south west side of the bridge, and to allow for continued public use. Work will clear all vegetation up to 5 feet on both sides of the bridge where the work will be performed. Construct and install one temporary bridge support using 2 2" by 6" pressure treated redwood boards and one 6" by 6" post.	NOE	
2013118032	Day at the Docks San Diego Unified Port District San Diego--San Diego The proposed project is the Day at the Docks, which will take place at the San Diego Sportfishing Landings on April 20, 2014. The District will provide event sponsorship and financial assistance for the event, a festival that celebrates the official start of Southern California's spring saltwater fishing season.	NOE	
2013118033	Right of Entry License Agreement to TRC Solutions, Inc. for Groundwater Monitoring Well San Diego Unified Port District San Diego--San Diego The proposed project is a Right of Entry License Agreement to TRC Solutions, Inc. for the installation of, and access to an approximately 12-inch wide and approximately 25 foot deep groundwater monitoring well at Caesar E. Chavez Park in San Diego, as well as ingress and egress support of those activities. TRC is requesting this agreement in order to complete a groundwater investigation related to a fuel release at Burlington Northern & Santa Fe Railway's rail yard, which is located on the corner of Harbor Drive and Cesar E. Chavez Parkway in San Diego. The proposed project will not disrupt groundwater migration because a sample of the groundwater is taken from the well only every 6 months. Also, TRC will restore the area of disturbance after the monitoring is completed.	NOE	
2013118034	San Diego Brewers Guild Festival San Diego Unified Port District San Diego--San Diego The proposed project is the San Diego Brewer's Guild Festival, which took place on November 1 and 2, 2013. The District will provide event sponsorship and financial assistance for the event, a festival to promote the San Diego craft beer industry. The festival is the kick-off to San Diego Beer Week, a 10-day County-wide event. The event had an attendance over 1,000 people.	NOE	
2013118035	San Diego Blues Festival San Diego Unified Port District San Diego--San Diego The proposed project is the San Diego Blues Festival, which took place at Embarcadero Marina Park North on Saturday, September 7, 2013. The District will provide event sponsorship and financial assistance for the event, a blues music festival that benefitted the Jacobs & Cushman San Diego Food Bank. The event featured several performances stages, as well as food and drink vendors. Limited parking was provided at the parking lot serving Embarcadero Marina Park North.	NOE

	access to the facility provided from Sharps Road. Phase II would include the additional of approximately 20,000 sf to the gaming complex to add approximately 300 gaming machines, 8 table games, new restaurant space, and associated facilities. In addition, Phase II would include an 80-room, 48,000 sf hotel and an additional 500 parking spaces.		
2013111023	IS Application No. 6660 (Rich Oliver) Fresno County --Fresno Allow a private motorcycle safety/training school on a 13.61-acre parcel of land in the R-R (2 acre minimum) Zone District. The project site is located approximately 636 feet north of Auberry Road, 550 feet west of Thunderbird Lane, and 2,160 feet west of the unincorporated community of Prather in Fresno County (SUP. DIST.: 5) (APN: 118-300-66T).	MND	12/06/2013
2013112016	DEV 2013-0049 - 1621 Lawrence Road - Skyvilla Danville, City of Danville--Contra Costa Development Plan request to allow the construction of a 7,240 sf home with a 1,650 sf garage on a site located within a Town-identified Major Ridgeline area. An exception to the Town's Major Ridgeline and Scenic Hillside Ordinance is requested to allow the home to be constructed within 100 vertical feet of the top of the ridgeline. This project was previously approved in 2007 and 2011, but those approvals expired.	MND	12/06/2013
2013112017	Yreka Tractor Supply Yreka, City of Yreka--Siskiyou The proposed project includes the development of a 19,028 sf building and screened outdoor sales area to accommodate an agricultural equipment sales and rental business. The screened outdoor sales area would span approximately 15,320 sf. The proposed project would operate with 84 parking spaces. A customer loading area is proposed to be located at the north end of the property (at the rear of the proposed building and outdoor sales area), with direct access onto S. Main Street. The site would be fully landscaped with perimeter landscaping on all sides of the site as well as parking lot landscaping, in compliance with City landscape standards.	MND	12/06/2013
2013111024	2014-2021 Housing Element Update Whittier, City of Whittier--Los Angeles The proposed project is an update of the City of Whittier's General Plan Housing Element, covering the planning period from 2014-2021. The project consists of an updated determination of housing needs within the City, and revisions to policies and programs the City would implement to address those needs. The project identifies adequate sites for potential residential/mixed-use development that could accommodate any unmet portion of the Regional Housing Needs Assessment (RHNA) by 2021. The discretionary "project" is the draft Housing Element, not the individual, subsequent housing development projects and/or zone changes needed to implement the respective projects. Each individual development project and/or zone change required to implement the Housing Element will be subject to its own subsequent review and processing under CEQA.	Neg	12/06/2013

Among them, the project site was redesigned from Business Park and Commercial to Low and Medium-Density, Mixed Use and Open Space uses (General Plan 2008-02b and Zone Changes 2008-02). A Program Environmental Impact Report (PEIR) analyzing the impacts of the Opportunities Study Area was certified in June 2008 for Site #2.</p>	NOD	
2012082075	<p>Monterey Bay Sanctuary Scenic Trail Network Master Plan Santa Cruz County Regional Transportation Commission Santa Cruz, Capitola, Watsonville--Santa Cruz</p> <p>The purpose of the Master Plan is to establish the continuous alignment and set of design standards for a multi-use trail for the length of Santa Cruz County. The proposed trail alignment typically follows the Santa Cruz Branch line right-of-way (a 32-mile, continuous travel corridor now owned by the Santa Cruz RTC), and is separated into three reaches: The northern reach; the central reach; and the Watsonville reach. The project would include 49.6 miles of bicycle and pedestrian facilities. Implementation would require land clearing, grading, and construction (including asphalt, fencing, signage, landscaping, and other improvements). Administration of the proposed MBSST would involve the RTC, the local jurisdictions including the cities of Santa Cruz Capitola, and Watsonville, and the County of Santa Cruz, and any other implementing entity.</p>	NOD	
2013081073	<p>California State Polytechnic University, Pomona, Administration Replacement Project California State Polytechnic University, San Luis Obispo Pomona, Walnut--Los Angeles</p> <p>The proposed project is located on the existing Cal Poly campus on the portion of the campus located within the unincorporated County of Los Angeles, within the eastern portion of Los Angeles County. The project involves a master plan amendment to construct the proposed Administration Building. The master plan amendment is necessary due to the planned change in master plan location for the proposed facility. The project would include a 5 to 7-story, 138,000 sf Administration Building on the western portion of Parking Lot C and construction of associated infrastructure and service system improvements. The Administration Replacement Project would be approximately 90,000 assignable sf (138,000 gsf), resulting in a net increase of 32,000 assignable sf (51,000 gsf). The project site would necessitate an approximate 3.5-acre site that currently supports 366 parking spaces associated with Parking Lot C. Approximately 50 parking spaces would be created adjacent to the new building to serve staff and visitors. The areas surrounding the new Administration Building would be landscaped. Several administrative departments and services would be removed from the existing Classroom/Laboratory/Administration Building (CLA Building) and be relocated into the new building. Several other administrative service functions located throughout campus would also be relocated into this new building. The existing portions of the CLA Building that would be vacated would be closed. The project does not involve demolition of any structures or facilities.</p>	NOD

2013118038	Cascade Drive Pedestrian Bridge Replacement Fish & Wildlife #3 Mill Valley--Marin This project involves replacing an existing pedestrian foot bridge over Old Mill Creek with a new clear span bridge in the same alignment. The new bridge will be a pre-fabricated 5-foot wide, 40-foot long single span bridge that will be supported with two new poured concrete abutments. Issuance of a Streambed Alteration Agreement Number 1600-2013-0095-R3 is pursuant to Fish and Game Code Section 1602.	NOE	
2013118039	Snelling Flashing Beacon--0X930 Caltrans #10 --Merced Caltrans proposes to install flashing beacons and street lights on SR 59 in Snelling. All work will be performed within Caltrans right of way. The purpose of this project is to increase nighttime visibility and reduce nighttime accidents. It is needed due to the collision history of the site.	NOE	
2013118040	Lodi Street Light Install--0Y250 Caltrans #10 Lodi--San Joaquin Caltrans proposes to install street lights on SR 99 on-ramp from SR 12 in Lodi. All work will be performed within Caltrans Right of Way. The purpose of the project is to increase nighttime visibility and reduce nighttime accidents. It is needed due to the collision history of the site.	NOE	
2013118041	El Centro Rail Road Grade Crossing Safety Improvement Caltrans #11 El Centro--Imperial The project proposes to install two CPUC Standard 9-A light and gate assemblies and to extend/reconstruct concrete crossing surface panels on both tracks to improve safety.	NOE	
2013118042	Electric Vehicle Charging Station Parks and Recreation, Department of --Los Angeles This is the installation of 1 electric vehicle charging device within the fenced lot of the LASHP Maintenance Yard North. It is in response to our Director's Strategic Initiative 5.2.4, and our past Director's "Cool Parks" Initiative. The installation will entail digging a 100 ft. long trench, 3 ft. deep, across a dirt roadway from the electrical panel to the maintenance yard.	NOE	
2013118043	DWR Station No. C2---Right of Entry Permit Parks and Recreation, Department of --Sacramento Issue a one year right of entry permit to the North Central Region Office of the California Department of Water Resources allowing access to and entry upon a portion of state-owned land currently under the control and jurisdiction of the State Department of Parks and Recreation for the purpose of one another activities consisting of equipment maintenance, data collection, and other activities incidental to monitoring water levels with the Sacramento River for flood control management. The flood management station is an existing facility that was installed over one hundred years ago on the east bank of the Sacramento River north of the "I" Street Bridge in the City of Sacramento.	NOE

2013118044	Cornielle Pier Repair Project Regional Water Quality Control Board, Region 6 (Lahontan), South Lake Tahoe --El Dorado The project would replace 12 pilings and 5 fender piles on an existing pier.	NOE	
2013118045	Clover Valley and Susan River Overflow Culvert Modification Project Regional Water Quality Control Board, Region 6 (Lahontan), South Lake Tahoe Susanville--Lassen The project will place corrugated metal pipe cap on two existing cross culverts such that the road fill and guard rails can be widen to improve safety and maintenance access. The total length of each culvert will not be extended beyond the existing length. Approximately 40 cubic yards of rip rap will be placed to repair a scour hole that developed in the Susan River Overflow channel.	NOE	
2013118046	Public Transit Service Through Martis Valley & Northstar Communities Placer County --Placer The TART highway 267 route will serve the Lahontan community using a route that operates from highway 267 onto Shaffer Mill Road through the Martis Camp community, to Mill Site Road, to Big Springs Road, to Northstar Drive to the Northstar Transit Center. An easement has been provided allowing access on Shaffer Mill Road by public transit. This route would operate in both directions. This route alignment may be operated on all runs operated by Tahoe Area Regional Transit between the Town of Truckee and Northstar Village, and would begin on December 14, 2013. This route alignment may also be operated on a subset of runs to meet the ridership demand by time of day. The route may also be suspended or cancelled, as necessary, due to lack of demand or operating conditions.	NOE	
2013118047	Emergency Permit for Treatment of Hazardous Waste, Genentech Toxic Substances Control, Department of San Francisco--San Francisco Department of Toxic Substances Control has issued an emergency permit to Genentech to treat hazardous waste by chemical stablization. It has been determined that these items are or may be highly reactive and must be stabilized prior to being transported offsite.	NOE

2011111012	<p>Goodman Commerce Center at Eastvale (City Project No. 11-0271) Eastvale, City of --Riverside</p> <p>The proposed project, Goodman Commerce Center at Eastvale (the "project"; formerly referred to as "Eastvale Commerce Center"), entails the development of approximately 205 acres within the City of Eastvale, CA. The proposed project provides for approximately 25.3 acres of commercial-retail, 145.4 acres of light industrial, and 34.6 acres of business park under the proposed Goodman Commerce Center of Eastvale Specific Plan. This Specific Plan will replace the Resort Specific Plan No. 335 previously approved by the County of Riverside. The Resort Specific Plan No. 335 would have provided for approximately 58.39 acres of high density residential development with 646 dwelling units, approximately 72.72 acres of very high density residential development with 1,104 dwelling units, an 8.08 acre elementary school site, and a 13.0-acre community park site. The entire 195 acre Resort Specific Plan No. 335 project site is included within the proposed Goodman Commerce Center at Eastvale Specific Plan Project site.</p>	EIR	12/23/2013
2012032066	<p>Calpeco 625 and 650 Electrical Line Upgrade Project Tahoe Regional Planning Agency Nevada City--Nevada</p> <p>The proposed 625 and 650 Electrical Line Upgrade Project is located in northeastern Placer County and southeastern Nevada County, California. The proposed action consist primarily of an upgrade of the 625 and 650 Lines and associated substations from 60 kilovolt (kV) to 120kV to allow the entire transmission loop to operate at 120kV.</p>	EIR	12/23/2013
2013032016	<p>Sand Hill Wind Project Alameda County Livermore--Alameda</p> <p>Sand Hill Wind, LLC has applied for a Conditional Use Permit for the repowering (removal and replacement) of 73 existing wind turbines equivalent to 4 megawatts (MW) of generating capacity with 40 shrouded wind turbines with a combined generating capacity of 4 MW, to assess the functionality of the new turbine design and the extent to which it could reduce impacts on birds and bats compared to the existing turbines. The project includes an avian impact validation study funded by a grant from the CA Energy Commission. The CUP application is for the repower of the 40 shrouded turbines (Initial Repower); however, the EIR also programmatically evaluates the impacts of future repowering of existing turbines up to an additional 30 MW of generating capacity (Full Repower).</p>	EIR	12/23/2013

2013012016	Cambridge Academy Project / 2323 Euclid Avenue Redwood City San Carlos, Atherton--San Mateo Final 1 CD The project proposes to operate a 180-student transitional kindergarten (TK) through 8th grade school and after school program within an existing classroom building, the Fellowship Hall, located on the Redwood Baptist Church property at 2323 Euclid Avenue in the City of Redwood City.	FIN	
2010042069	Greenwood Kingdon Hall (S 09-0014) El Dorado County Placerville--El Dorado The project includes a request for a 4,540 sf place of worship with a 600 sf covered drop-off area. Parking would be provided for up to 67 vehicles. Outdoor lighting and landscaping to be provided within the parking areas. The facility would be utilized during the day, primarily on weekends and evenings during the week. All meetings and gatherings of large groups would conclude prior to 10:00 PM in order for all vehicles to vacate the premises prior to 10:00 PM. Nighttime use by small groups (up to 6 vehicles) may occur between the hours of 10:00 PM and 7:00 AM. The project would be accessed from SR 193, with a shoulder bypass lane on the north side of SR 193. Caltrans would allow an alternative to this design with a smaller radius of 35 feet with a 100-foot inbound taper. A two-foot gravel shoulder would be required on either side of the driveway. Caltrans is the permitting agency for all permits related to this improvements.	MND	12/09/2013
2013111025	McFarland Elementary School No. 3 McFarland Unified School District McFarland--Kern Construction and operation of a new kindergarten through fifth grade elementary school in the City of McFarland. The proposed elementary school will be located on 15 acres of a 38 acres parcel and will consist of administrative and multi-purpose rooms, approximately 20 classrooms, outdoor field areas, paved parking, and landscaping throughout the campus. The proposed campus will initially house 450 students, with a master planned capacity of up to 750 students and approximately 35 employees. Construction is anticipated to begin in July 2014 and to be completed in June 2015. The school has a projected opening date of August 2015.	MND	12/09/2013
2013111029	Bayside / Charter / Alternative Schools Moreno Valley Unified School District Moreno Valley--Riverside New school facilities are proposed at the project site to accommodate the existing Bayside Community Day School and Moreno Valley Community Learning Center programs, and a new Alternative School program. The campus would have an overall capacity of up to 496 students. 58,280 sf of permanent and portable building space would be developed, including: two permanent buildings (a shared multipurpose building, and Bayside administration building), 41 portable buildings.	MND	12/09/2013
2013112018	Colvert Installation Caltrans #3 Placerville--El Dorado The purpose of this project is to rehabilitate a section of roadside drainage that has eroded over time and has begun to undermine the roadway. If the drainage is not corrected it will eventually undermine the roadway to the point enough for it to	MND	12/09/2013

	begin to fall away. This drainage ditch rehab project proposes to install approximately 450 linear feet of reinforced concrete pipe (RCP), new drainage inlets (DI's), create asphalt curb and gutters to direct water flow. These activities will require minor excavation. All work will be performed within Caltrans existing right-of-way.		
2013111026	Vision 2020 Facilities Master Plan Orange Coast College Costa Mesa--Orange The Vision 2020 Master Facilities Plan envisions a program of construction of new facilities and renovation/modernization of existing buildings to better meet the college's educational goals and priorities on the Orange Coast College campus. In addition to new and renovated educational buildings, these upgrades include parking facility improvements, development of a campus loop road, an upgraded community and campus recycling center, and new opportunities for student housing and mixed use of the campus perimeter.	NOP	12/09/2013
2013111028	<03-13>: CUP No. 7, Map No. 3; GPA No. 1; Map No. 3; Twissleman Solar Project by SunEdison Kern County Wasco--Kern The applicant is requesting approval to construct and operate a solar PV power-generating facility with a capacity of 20 megawatts of electricity. The facility would consist of the following project components: (1) PV modules and support structures; (2) direct current (DC) to alternating current inverters and transformers; (3) additional electrical equipment; (4) interconnection point (dual circuit 12-kilovolt [kV] generation tie-line [gen-tie]) and equipment; (5) telecommunications equipment; (6) a meteorological data collection system with battery regulator; (7) an unoccupied switchgear building with battery bank and UPS; and (8) security improvements. The proposed project requires a CUP to construct and operate a solar facility and a GPA to the Circulation Element of the Kern County General Plan to remove the midsection line reservations of Sections 27 and 35 of Township 25S, R19E for the project. The proposed GPA will also include the eastern section line of Section 27 and the northern and eastern section lines of Section 35.	NOP	12/09/2013
2013111030	General Plan Update La Palma, City of La Palma--Orange The Project is the adoption and implementation of the following programmatic land use planning documents: 1. Comprehensive update of the City of La Palma General Plan. 2. Focused update of the City of La Palma Zoning Code (CH. 26 of the Municipal Code of the City of La Palma) as may be required to implement the updated General Plan policy. 3. The subsequent rezoning of properties to reflect new zoning districts pursuant to revised General Plan land use policy.	NOP	12/09/2013
2013111031	Multiple Species Habitat Conservation Plan United Water Conservation District Santa Paula--Ventura United Water Conservation District will prepare an EIR to evaluate the environmental effects of its proposed Multiple Species Habitat Conservation Plan (MSHCP) and facility and operations modifications associated with implementation	NOP	12/09/2013

	of the MSHCP. The primary elements of the proposed project that could result in changes in the physical environment are the construction, operation, and maintenance of a new fish passage facility at the Freeman Diversion; modified water diversion operations and potential development of supporting infrastructure; replacement of the fish screen at the Freeman Diversion, and habitat restoration and enhancement in the Santa Clara River watershed.		
2013112019	Jennings Avenue Pedestrian and Bicycle Rail Crossing Santa Rosa, City of Santa Rosa--Sonoma The proposed Project includes construction and operation of an at-grade pedestrian and bicycle rail crossing at Jennings Avenue and the possible closure of an at-grade rail crossing at either Sixth, Seventh, or Eighth Street. Construction of an at-grade pedestrian and bicycle rail crossing at Jennings Avenue would include installation of crossing surfaces across the two sets of railroad tracks present at the site, including a pathway leading to the crossing on either side of the rail corridor. Closure of a rail crossing at Sixth, Seventh, or Eighth Street would include removal of existing crossing surfaces and installation of improvements to prevent access, such as roadway barricades.	NOP	12/09/2013
2013112021	St. James Towers Residential Project San Jose, City of San Jose--Santa Clara The proposed project would demolish the existing hardscape, relocate the existing house, remove all trees on the property, and construct two residential towers with ground floor retail and a shared parking structure. The building would have up to 804 residential units and up to 20,000 sf of retail space. The retail space would be located along the North San Pedro Street and West St. James frontages. The ground floor would also contain two lobby areas for the residences, a leasing office, and bicycle parking.	NOP	12/09/2013
2013112022	J & J Ranch Subdivision, 24 Adobe Lane Orinda, City of Orinda--Contra Costa The Project would subdivide the 20.33-acre site into 13 single-family, clustered lots, ranging in size from 24,676 sf (.57 acres) to 154,569 sf (3.5 acres), and a separate 101,078 sf parcel (2.3 acres) that will contain the Moraga Adobe. The Project also includes construction of a new access road ending at two cul-de-sacs, parking pullouts for guest parking, a bio retention basin and pedestrian paths. The Project would include installation of underground utilities within the new roadways and installation of landscaping along the private roadways.	NOP	12/09/2013
2013112023	Lake Tahoe Passenger Ferry Project Tahoe Transportation District South Lake Tahoe--Placer, El Dorado The proposed Lake Tahoe Passenger Ferry Project would provide direct waterborne transit service between the north and south shores of Lake Tahoe. The service is proposed to operate year-round and on a fixed schedule. Additionally, the service would coordinate with existing local transit services on the north and south shore. Implementation of the project would assist in achieving local, state, regional, and federal environmental and transportation goals by reducing dependency on the private automobile and environmental impacts associated with automobile use. Additional goals to improve mobility, connect communities, and enhance economic vitality would also be realized.	NOP	01/03/2014

2013111027	Climate Action Plan Atascadero, City of Atascadero--San Luis Obispo The CAP is a policy document that sets forth policies and programs (collectively referred to as "CAP measures" or "climate action measures") and implementation actions to help the City of Atascadero reduce its greenhouse gas emissions and prepare for the anticipated effects of climate change. CEQA requires the analysis of physical impacts on the environment. As such, the impact analysis focuses on adoption of the CAP and implementation of the climate action measures and actions and whether they would result in physical environmental impacts. It should be noted that the CAP does not propose any land use or zoning changes, nor does it include any site-specific development. Further, any future site-specific discretionary projects would be subject to additional environmental review pursuant to CEQA.	Neg	12/09/2013
2013112020	General Plan Land Use Update Nevada County --Nevada The project is to update the 1995 General Plan Land Use Element (Chapter 1) according to the 2003 OPR General Plan Guidelines and more recent updates to state planning and zoning laws. The proposed amendments exclusively focus on the text of the Land Use Element and include: 1) updating the data, information and references with more current sources; 2) incorporating new language for compliance with state laws such as Government Code Section 65302.10 (SB 244 Wolk, 2011, Planning for Disadvantaged Communities); 3) incorporating the 2010 Truckee Tahoe and 2011 Nevada County Airport Land Use Compatibility Plans; 4) incorporating structural and formatting changes; 5) incorporating new policies to identify potential candidates for future Area Plans; 6) revising policies where progress has been made or changes in situation have occurred; 7) incorporating additional policy language promoting broadband technologies and emphasizing healthy communities concepts; 8) incorporating minor corrections and editing to clarify information; and, 9) incorporating minor corrections and editing issues to clarify information, replace acronyms with complete terms, and correct minor grammatical and reference errors.	Neg	12/09/2013
2004112063	Master Permit for Env. Enhancement Projects Santa Cruz County Capitola--Santa Cruz The project is limited to the re-grading of an existing 12 foot by 30 foot wetland depression to increase breeding habitat and extend the hydroperiod for amphibians. The wetland, which is hydrologically connected to Santa Cruz County Stream 484, will be increased ten-fold (approximately 60 feet by 60 feet). The California Department of Fish and Wildlife is executing a Lake and Streambed Alteration Agreement Number 1600-2013-0201-R3 pursuant to Section 1602 of the Fish and Game Code to the project Applicant, Karen Christensen, Resource Conservation District of Santa Cruz County.	NOD	
2006031067	Central Avenue Flood Control Improvement Project San Diego County --San Diego The proposed project consists of improvements to the Central Avenue Flood Control Facility in two areas to minimize the risk of flooding. At the western area, stormwater collected on Central Avenue would be rerouted to outlet in the channel west of Dawsonia Street, rather than down Hazelhurst Court. The existing	NOD

	Hazelhurst Court storm drain system would then only carry local water to outlet in the channel. At the eastern area, the existing floodwall would be extended and sealed. Other minor associated improvements include construction of a J-wall in the channel, replacement of existing flap-gates to improve function, and construction of a larger inlet near the flood wall.		
2007081156	Tehachapi Renewable Transmission Project Public Utilities Commission Tehachapi, Ontario--Kern, Los Angeles, San Bernardino Based on the Federal aviation administration recommendations, SCE proposed to modify the approved Project. The modifications include installation of marker balls along 271 transmission line spans and aviation lights on 90 transmission structures within Segments 5,6,7,8,10, and 11 with selective structural modifications, when needed. Additional, SCE proposed engineering refinements in Segment 8 between Chino Substation and Mira Loma Substation. These refinements include reducing the height of 21 transmission structures by approximately 20 feet through a combination of shorter tubular steel poles and specially designed dead-end lattice steel towers.	NOD	
2012102041	2201 Dwight Way Project Berkeley, City of Berkeley--Alameda The proposed project would involve demolition of the existing 20,500 square foot building and surface parking lot and construction of 77 student-oriented rental apartment units (70 market-rate units and 7 very-low income units) in a five-story building (a maximum of 54 feet tall, plus 2-foot-tall hedges). The building would be divided into 18 distinct volumes intended to resemble separate buildings. A common area of approximately 1,000 square feet would be located on the ground floor. The proposed project would also provide approximately 8,900 square feet of common open space on-site. The total building area would be about 71,870 square feet. The proposed project also included 4 to 10 spaces for shared vehicles in a small ground-level garage. The project would require the following discretionary approvals: Use Permits for demolition and construction and waivers/reduction of development standards and incentives/concessions related to State Density Bonus Law (Govt. Code Section 65915(e) (d)).	NOD	
2012111053	San Fernando Valley Water Recycling Project Los Angeles Department of Water and Power Los Angeles, City of, San Fernando--Los Angeles The proposed project would be located entirely within public street rights-of-way in the San Fernando Valley. The project area would generally be bound by Interstate 5 (I-5, Golden State Freeway) to the east, Ventura Freeway (State Route 134 [SR 134] and U.S. Route 101 [US 101] to the south, Mason Avenue to the west, and Lassen Street by Interstate 405 (I-405, San Diego Freeway) to the north. The proposed project alignment encompasses portions of the communities of Canoga Park-Winnetka-Woodland Hills-West Hills, Reseda-West Van Nuys, Mission Hills-Panorama City-North Hills, Van Nuys-North Sherman Oaks, and North Hollywood-Valley Village. The proposed alignment abuts a variety of commercial, residential, open space, public facilities, and limited manufacturing uses. The proposed project would be located entirely within public street rights-of-way in the San Fernando Valley. The project area would generally be bound by Interstate 5 (I-5, Golden State Freeway) to the east, Ventura Freeway (State Route 134 [SR 134] and U.S. Route 101 [US 101] to the south, Mason Avenue to the west, and Lassen Street by Interstate 405 (I-405, San Diego Freeway) to the north. 	proposed project alignment encompasses portions of the communities of Canoga Park-Winnetka-Woodland Hills-West Hills, Reseda-West Van Nuys, Mission Hills-Panorama City-North Hills, Van Nuys-North Sherman Oaks, and North Hollywood-Valley Village. The proposed alignment abuts a variety of commercial, residential, open space, public facilities, and limited manufacturing uses.		
2013091031	Oquendo Minor Use Permit (DRC2012-00081) and Major Grading Permit (PMT2011-01576) San Luis Obispo County --San Luis Obispo A request by Vic and Jennifer Oquendo for a Grading Permit (PMT2011-01576) and Minor Use Permit (DRC2012-00081) to grade for a 5,730 sf three-story single-family residence with an attached garage, pool, improvements to an existing driveway and related site improvements. The project will result in the disturbance of approximately 1.66 acres, including approximately 3,165 cubic yards of cut and 960 cubic yards of fill and on a 455 acre parcel.	NOD	
2013092030	Telegraph Creek Barrier Removal and Channel Restoration Project Resort Improvement District #1 --Humboldt Project consists of the partial demolition of the existing raw water intake structure, the replacement of the barrier culverts through Telegraph Creek Road with a 20-foot span bottomless arch, and channel restoration through the project reach. Demolition of the raw water intake structure includes removing portions of the dam, the infiltration plumbing upstream of the dam, and the stored sediment behind the dam. In addition, the existing wet well will be modified for continued use. The construction reach is limited to approximately 340 feet, bound by the upper and lower fish exclusion fences, and includes the dam, the dam reservoir, and the Telegraph Creek Road stream crossing.	NOD	
2013118048	Ownership Transfer of Fort Ord Cemetery Parcel Veterans Affairs, Department of Seaside--Monterey This activity involves ownership transfer of approximately 78.7 acres of land from the former Fort Ord to the State. State ownership will enable the State to apply for and be eligible for consideration of federal grant money to develop a veterans cemetery. This transfer of ownership does not obligate the State to proceed with a veterans cemetery development, and that any such decision would occur only after completion of environmental review required by law.	NOE	
2013118049	Santa Cruz Harbor Pile Replacemetrn Project Fish & Wildlife #3 Santa Cruz--Santa Cruz The Project is limited to the removal, in-kind replacement and repair of approximately 220 existing piles, pile guides and appurtenant hardware with new hollow, spun concrete piles and/or steel sleeve piles ranging in size from 13 inches in diameter to 20 inches, and between 30 to 75 feet in length. Pile driving work will be accomplished with a 4.5-inch diameter water jet pipe system that drives piles to within 4 feet of tip. Piles will then be seated as necessary for embedment relative to geotechnical conditions using a dynamic hammer.	NOE

	improvements. Proposed infrastructure would include the construction of a new central plant to support the new student housing and dining facilities, the closure and reuse of Red Gum Lane, and the relocation of the existing information kiosk. The project also includes installation of new potable water, wastewater, and stormwater infrastructure. The project would be constructed on existing Parking Lot C and the entirety of Parking Lot F8. The new information kiosk would be located within the western portion of Parking Lot F9. Finally, the project would include construction of a new Replacement Administrative Building adjacent to the existing building.		
2011112011	Broadway Plaza Long Range Master Plan Walnut Creek, City of Walnut Creek--Contra Costa Note: Response to Comments/FEIR	FIN	
	The Broadway Plaza Long Range Master Plan Project includes a net increase of up to 300,000 gross sf of commercial space, or a net increase of up to 400,000 gross sf of mixed commercial and residential uses. It also anticipates demolition and reconstruction of ~200,000 sf of commercial space, interior improvements, and exterior architectural improvements to the rest of the Broadway Plaza shopping center.		
2013111020	Proposed High School Expansion Irvine Unified School District Irvine--Orange IUSD proposes to construct a new classroom building on the existing Irvine High School campus to accommodate approximately 324 additional students. The project would involve the construction of a two-story classroom building totaling approximately 14,000 ft. The new classroom building would include twelve classrooms, two student common area rooms, utility and janitorial rooms, restrooms, and an outdoor learning area. The project would not change the operational hours, or affect the school year calendar of the existing High School. Construction would occur from July 2014 to July 2015. If approved, the building is projected to be ready for occupancy in August 2015.	MND	12/11/2013
2013111032	Tentative Map Application 2012-1 Hollister, City of Hollister--San Benito A Tentative Map and creation of a "remainder parcel" on two contiguous parcels (APNs: 057-700-001 and -002) encompassing 22.25 acres. The Tentative Map proposes to subdivide 18.37 acres as follows: 81 single-family lots (Lots #1 through #81) on 11.61 net acres; one 0.16-acre lot (Parcel A) dedicated as a pedestrian emergency vehicle access way; and one 0.86-acre Lot (Parcel B) dedicated as an open space easement for stormwater retention/infiltration, with 5.74 acres dedicated as public right-of-way. The remainder parcel encompasses 3.88 acres and would be developed in the future as 100 multi-family units.	MND	12/11/2013
2013111034	AT&T Mobility Imperial County El Centro--Imperial AT&T Mobility is requesting authorization to construct, operate, and maintain one 95 faux monopalm, freestanding, telecommunication tower, with antennas, ancillary equipment, and a 12'x20' ground equipment shelter, and fencing. 2013111035	GPA-83/SP-S-29/CUP-S-739 The Hummingbird Nest Ranch Specific Plan project Simi Valley, City of Simi Valley--Ventura The project site is proposed for the development of a commercial resort. Planned uses include a hotel, casitas vacation units, a conference center, restaurants, equestrian uses, recreation and spa facilities, outdoor event venues, and a wellness center.	MND	12/11/2013
2013112025	SP13-065: Star Concrete Expansion San Jose, City of San Jose--Santa Clara Special Use Permit to recognize the expansion of the Star Concrete site to include the collection and recycling of concrete materials into reusable building materials on the northern portion of the site; to allow short-term noise levels in excess of 70 dBA at the project site property lines due to concrete crushing operations; the construction of an additional concrete batch plant to manufacture ready mix concrete from recyclable materials; and the construction of a compressed natural gas (CNG) fueling station for on-site refueling of project CNG vehicles on a 7.93 gross acre site.	MND	12/11/2013
2013111033	2014-2021 Housing Element Indio, City of Indio--Riverside The purpose of the Housing Element is to provide suitable housing for all residents of Indio regardless of income, age, race, religion, gender or ethnic background. The Housing Element sets forth the City's 2014-2021 strategy to address the community's housing needs. It includes the preservation and improvements of the community's residential character, the expansion of housing opportunities for all economic segments of the community and the provision of guidance and direction for local government decision-making on all matters relating to housing. According to the SCAG RHNA forecast, the City will need to accommodate the development of 3,025 residential units during the 2014-2021 planning period.	Neg	12/11/2013
2013111036	Housing Element 2014-2021 Temple City Temple City--Los Angeles The Housing Element is one of seven mandated elements of Temple City's General Plan. It establishes the framework to meet the housing needs of existing and future resident populations. CA State Government Code Section 65302 mandates that each local jurisdiction shall include a Housing Element in its General Plan and that the Housing Element be periodically updated for consistency with State and Federal housing laws. The City of Temple City 2014-2021 Housing Element covers a planning period from adoption to October 1, 2021. Components of the Housing Element include: a housing needs assessment with population and household characteristics; identification of constraints to providing housing; an inventory of available sites for the provision of housing for all economic segments of the community; and a statement of goals, quantified objectives, policies, and an implementation program for meeting the City's housing needs. <u>Documents Received on Tuesday, November 12, 2013</u>			
2013112024	Robertson Park Lighting Livermore Area Recreation & Park District Livermore--Alameda The project would install three new 80-foot field light poles on the west side of the Lower Field. Six field lighting fixtures (luminaires) would be attached near the top of each pole. The luminaires would be shielded and aimed to focus light on the Lower Field and minimize spill light onto surrounding land uses. The project would operate the proposed field lights as well as field lights on three existing poles next to the east side of the Lower Field focused on the Lower Field. Uses of the Lower Field that would be lit would typically end by 8:30 PM. The field is used March through November.	Neg	12/11/2013
2013112026	Major Architectural Review for 441 Page Mill Road, Palo Alto Palo Alto, City of Palo Alto--Santa Clara The ground floor area would include 4,000 sf for retail uses and a garage providing 33 at-grade parking spaces. The second floor would be approximately 17,432 sf of office space, and the third floor would be approximately 13,073 sf of floor area for 10 residential rental apartment units. A portion of the building would be 40 feet tall (the height of the entry/stair/elevator feature, for which a Design Enhancement Exception is requested), while the majority of the building would reach a height of 38 feet above grade (three feet above the maximum 35 height limit is allowable via concession for three below market rate housing units not otherwise required by code).	Neg	12/11/2013
2013112027	Extension of Water Transfer to Santa Clara Valley Water District Patterson Irrigation District Patterson, Santa Clara--Stanislaus, Santa Clara Reference: SCH# 2009112091 The Project will consist of a ten year extension to an existing agreement Water Transfer Agreement between Patterson Irrigation District and the Santa Clara Valley Water District to transfer up to an additional 36,000 acre-feet of water to SCVWD. The water to be transferred will be comprised of any combination of the following water rights held by PID: 1. Pre-1914 appropriative water right from the San Joaquin River, 2. Water pursuant to PID's contract with the United States Bureau of Reclamation for water supply from the Central Valley Project (Contract 14-06-200-3598A-LTR1) ("Contract"), or 3. Replacement water as identified in the Contract.	Neg	12/11/2013

2000021015	New San Diego Central Courthouse Project Administrative Office of the Courts San Diego--San Diego City Council Approval for three Encroachment Agreements to allow a public pedestrian bridge over the West C Street between Union Street and State Street; a San Diego Gas & Electric (SDG&E) utility vault within the right-of-way along West B Street, between Union Street and State Street: landscape and enhance paving for the block surrounding Union Street, West C Street, State Street and West B Street in the Centre City Community Planning Area.	NOD	
2004041081	Precise Development Plan and Desalination Plant Project (EIR 03-05) Carlsbad, City of Carlsbad, Oceanside, San Marcos, Vista--San Diego Request for approval of an addendum to Environmental Impact Report EIR 03-05(A) and an amendment to Coastal Development Permit CDP 04-41 for the Desalination project. The proposed changes would modify the delivery pipe alignment from under the Cannon Road bridge to within the public right-of-way Faraday Avenue, within and underneath a portion of Macario Canyon and Veteran's Memorial park.	NOD	
2011041032	Hyperion Tretation Plant Digester Gas Utilization Project Los Angeles, City of El Segundo--Los Angeles The City of Los Angeles, Lead Agency, has prepared a DEIR for the proposed project. The City's Bureau of Sanitation (BOS) owns and operates the Hyperion Treatment Plant (HTP), which treats wastewater and biosolids at 12000 Vista del mar in Playa del Rey. Digester gas produced at HTP is treated to remove sulfur and moisture and is piped to Scattergood Generating Station (SGS) under an energy exchange agreement. This arrangement will continue through to 2017. Instead of flaring the gas, the BOS proposes to beneficially use the renewable digester gas in a combined cycle cogeneration system, ensuring that the HTP has reliable electricity and steam for plant use. Two transformers, a substation, and related interconnections will also be installed. Copies of the DEIR are available for public review.	NOD	
2012072036	Kingridge Sanitary Sewer Line Improvements - Phase III San Mateo, City of San Mateo--San Mateo The project is limited to the replacement of an existing sewer line and improvements to the degraded structure of the existing sanitary sewer main. Project activities including replacing a section of the six-inch vitrified clay pipe sanitary sewer main with an eight-inch sanitary sewer main, provide slope stabilization in areas where active landslide are present by installing retaining walls and repairing existing retaining walls, and prevent further erosion by modifying storm drainage and extending the outfalls onto dissipaters near the creek. CDFW is executing a Lake and Streambed Alteration Agreement, Number 1600-2012-0456-R3, pursuant to Section 1602 of the Fish and Game Code to the project Permittee, City of San Mateo.	NOD	
2013082046	Retrac Way at Wolf Creek Bridge Replacement Project Nevada County --Nevada The Nevada County Public Works Department (DPW) is proposing to replace the existing timber and steel one-lane bridge on Retrac Way over Wolf Creek	NOD

<u>Documents Received on Wednesday, November 13, 2013</u>			
2013112029	PA-1300118(UP) San Joaquin County Lodi--San Joaquin A Use Permit application to expand an existing large winery in four phases over fifteen years and to add 25 marketing events per year with a maximum attendance of 150 people per marketing event for a previously approved winery with no marketing events. Amplified music is proposed at the marketing events. Total sf proposed is 114,500 sf.	MND	12/12/2013
2013112030	Branciforte Creek Bridge & Multi-Use Path Santa Cruz, City of Santa Cruz--Santa Cruz The project consists of construction of an approximate 10-foot wide, Class I, multi-use path along the east side of the San Lorenzo River. The path will extend south from the San Lorenzo Park to connect to an existing river levee path just south of Soquel Avenue. The purpose of the project is to provide a convenient crossing of Branciforte Creek for bicyclists, pedestrians, and light duty service vehicles in order to maintain the continuity of the existing bike and pedestrian levee path system. The project will fill a gap in the existing pathway that runs on the levee on the east side of the San Lorenzo River. The project includes construction of a bicycle-pedestrian bridge over Branciforte Creek.	MND	12/12/2013
2013112031	Durham Marketplace Fremont, City of Fremont--Alameda The applicant is proposing to construct a 7,000 sf neighborhood commercial center on a vacant unaddressed 1.7-acre site at the northwest corner of Sabercat Road and Durham Road adjacent to the eastern edge of I-680. The applicant has proposed a Precise Planned District to establish the layout and allowable neighborhood commercial uses for the site, a Conditional Use Permit to allow drive-through operations, and a Preliminary Grading Plan to permit 324 cubic yards of cut and 2,392 cubic yards of fill in order to accomplish the development plan. Subsequent to property entitlement, a building permit and grading permit would be required, and the applicant would be required to obtain encroachment permits for both the City of Fremont and the Caltrans for perimeter street improvements.	MND	12/12/2013
2013112032	Maher Subdivision (PSUB 20130163) Placer County --Placer The applicant is requesting approval of a Vesting Tentative Subdivision Map and Conditional Use Permit to subdivide a 7.3-acre parcel into seven single-family residential lots. Each lot would be a minimum of 40,000 sf in area.	MND	12/12/2013
2013111038	Citi Live/Work Community Project Glendale, City of Gardena--Los Angeles Development of a live/work community consisting of four buildings (buildings A, B, C, and D). The four buildings combined will contain approximately 540 live/work units and 4,200 sf of commercial space (to be occupied by Citibank). The live/work area will be approximately 595,000 sf and will consist of studio, and one- and two-bedroom floor plan configurations. There will be 113,100 sf of common and private open space, consisting of 43,760 sf of ground level open space, 42,590 sf of rooftop open space, and 26,750 sf of private balcony open space. SCH Number	Title / Lead Agency / City--County / Description	Document Type	Ending Date
<u>Documents Received on Wednesday, November 13, 2013</u>			
	Ground-level open space will be available to the public as a central courtyard, landscaped paseos, and walkways. Two driveways along Central Avenue and West Milford Street will provide access to a 362,664 sf parking structure with 904 parking spaces on four levels.		
2013111039	I-10 Bypass: Banning to Cabazon Caltrans #8 Banning--Riverside The Riverside County Transportation Department is considering three alternative alignments for a new two-lane roadway connecting the City of Banning and the community of Cabazon, extending from the intersection of Hathaway/Westward in Banning to Bonita/Apache Trail in Cabazon, as described in the FTIP. There is currently no local roadway connecting these adjacent communities; vehicles and bicyclists must use the I-10 Freeway (no pedestrian connection). The lack of local roadway contributes to massive congestion on I-10 (more than 10 hours in recent years) when I-10 is closed between Banning and Cabazon during emergencies. The proposed project would provide some relief for such congestion, as well as providing for local circulation for vehicles, bicyclists and pedestrians.	NOP	12/12/2013
2013111041	Mariners Village Renovation Project Los Angeles County --Los Angeles The project would renovate the 981 unit apartment community, expand commercial space by 7,000 sf within the existing footprint, and improve open space areas. The project would also renovate the infrastructure on the site and replace the existing landscaping with large amounts of drought tolerant plants and water-efficient irrigation systems. The renovation activities would require residential units to be sequentially vacated during work to their buildings or related infrastructure. The project would provide internal circulation improvements to eliminate dead-end conditions, and parking on the site would be increased by over 300 spaces. The existing private waterfront walkway and utility road would be developed into a 28-foot wide public promenade that would connect with neighboring parcels and provide an onsite public and bike access way. The project would also develop a vertical bulkhead and an anchorage that would include a 110 foot transient dock, 92 berths and storage for 20 non-motorized kayaks or paddle boards and 24 personal watercrafts. Dock facilities would include: restrooms, showers, laundry room, and a dockmaster office. Access to the docks would be provided by three gangways, one of which would be ADA-accessible. Project improvements to Parcel BR include: pedestrian improvements; replacing the existing view platform with a new 1,200 sf view platform; developing a 90-foot public dock; replacing the existing major vegetation and landscaping; providing a fire lane, and providing a pedestrian crossing between Parcel BR and the public parking lot across Via Marina.	NOP	12/12/2013
2013111037	2013-2021 Housing Element Update Cudahy, City of Cudahy--Los Angeles The Housing Element Update is a policy-level document that is consistent with existing City of Cudahy's General Plan land use designation and densities. Although the proposed project is intended to encourage and facilitate the development of housing through the 2013-2021 planning period, specific future projects are subject to regulation of the General Plan, performance standards and permitting processes of the City's Municipal Code, including the Planning and	Neg	12/12/2013

	Zoning Regulations, CEQA review of each proposed project, and all mitigation measures contained in applicable CEQA documents. Evaluation of impacts at this time is too speculative to include in this Neg Dec.		
2013112028	PA-1300186 (SA) San Joaquin County Lodi--San Joaquin A Site Approval application for a small winery to be built in two phases over a six year period with twelve marketing events per year with a maximum attendance of 100 people per marketing event. No amplified music is proposed at the marketing events.	Neg	12/12/2013
2000051031	General Plan Amendment No. GPA-9803 Ventura County --Ventura The proposed project involves construction of a 110-unit residential development, a three-par 18-hole golf course, and an internal loop roadway north of Carlisle Canyon Road. The developed portion of the tract will total 83.4 acres. The tract total is 320.08 acres. The golf course portion of the project was constructed in September 2003 and has been operating since March 2006. Rough grading of building pads was initiated in spring 2013 and is ongoing.	NOD	
2008122064	Amendment to Gilead Sciences Corporate Campus Master Plan Foster City Foster City--San Mateo The proposed project would amend the previously approved Vintage Park General Development Plan approved for the Gilead Sciences Corporate South Campus Master Plan to change the use of the office building planned to replace the building located at 355 Lakeside Drive from office to laboratory and building planned between 353 and 357 Lakeside Drive; 2) a larger building footprint for NLB-2; 3) removal of building NLB-3 has been removed off the plan; 4) a change in the orientation of the office buildings planned along the edge of Vintage Lake; and 5) a change in the nomenclature of the building names to address the proposed amendments.	NOD	
2010121013	City Dock No. 1 Marine Research Center Project Los Angeles, Port of --Los Angeles The proposed Project is located in the Port of Los Angeles, near the San Pedro Community in the City of Los Angeles. The proposed project site encompasses Berths 56 through 60 and Berths 70 and 71 within the San Pedro Waterfront Plant area, and is bounded by the East Channel to the west, the Main Channel to the east, 22nd Street to the north, and the open water to the San Pedro Bay to the south. The proposed Project involves development of an urban marine research center within a 28-acre portion of the 400-acre San Pedro Waterfront Master Plan area along the west side of the Los Angeles Harbor's Main Channel.	NOD	
2011011001	Code Amendment (Planning Case Nos. ZON2010-00183) Rancho Palos Verdes, City of Rancho Palos Verdes--Los Angeles The Project involves constructing the Lockhart Substation and associated facilities to interconnect the 250 megawatt Abengoa Mojave Solar Project to Southern California Edison's existing Coolwater-Kramer No. 1 220 kilovolt transmission line. In order to support the interconnection, a telecommunications Special Protection System will be required to provide transmission line protection, monitoring, and	NOD

	remote operation capabilities of the electrical equipment at Lockhart Substation. This proposed project involves construction and operation of a new lateral pipeline , a new tap and pig launcher will be constructed within and immediately adjacent to Kern River's right-of-way (ROW), and a new meter station and pig receiver will be constructed within the Molycorp site. The Project will result in permanent impacts to 23.22 acres of Mohave ground squirrel and desert tortoise habitat resulting in incidental take of individuals of these species, both of which have been designated as threatened under the California Endangered Species Act (CESA). The incidental take permit issued by DFW, authorizes incidental take of species listed under CESA that may occur as a result of Project implementation.		
2012042022	Blackhawk Lane Minor Land Division (PMLD 20090218) Placer County --Placer The applicant is requesting approval of a Rezone and Minor Land Division to subdivide an approximately 53-acer property into two new parcels consisting of 21.7 acre, and 32.7 acres.	NOD	
2013092041	Robert Boucher - Minor Subdivision - MS1401 Del Norte County Crescent City--Del Norte Minor Subdivision of a 16,830 sf Lot into Two Parcels. This project is the split of one parcel into two parcels. Presently the parcel is developed with two residences. The subdivision would result in each resulting parcel being developed with one of the existing residences - no development would occur or be possible as a result of this subdivision. If approved, proposed Lot A would be 10,047 sf and Lot B would be 6,783 sf. An existing shed would be removed as a condition of approval; all other structures would meet the required construction setback. Parcels utilize public water and public sewer services. Access to each parcel is from Barker Street.	NOD	
2013101012	Kaleidoscope Exterior and Interior Renovation Project Mission Viejo, City of Mission Viejo--Orange The project site is currently developed and occupied by the Kaleidoscope Mall. The Kaleidoscope Mall is located at 27741 Crown Valley Parkway, north of the Crown Valley Parkway, east of the I-5 Freeway, in the City of Mission Viejo (City). The Kaleidoscope Exterior and Interior Renovation Project (herein referenced as the "project") proposes to add 3,441 sf of gross leasable space to the existing center entitlements of 247,541 sf, of which 238,679 sf are currently built-out, and 3,000 sf of patio space to the interior of the existing structure. An update to the master sign program, including non-digital, on premise lifestyle graphics and movie promotion for anchor and sub-anchor tenants are also proposed. Exterior modifications would include architectural treatments (glass curtain wall along the west facade, revised parapet details, entry features, and signage) and new exterior paint scheme. New lighting associated with the glass curtain wall, lifestyle graphics, and entry feature is also proposed and new landscaping would be provided within the existing landscaped areas.	NOD

	Coachella Valley. The purpose of the CV Link Master Plan is to guide the design, construction and management of the CV Link Project. Master Plan development is an ongoing, iterative process that will be informed by public input and program level environmental analysis.		
2013111044	Senior Residential (-SR) Overlay District for Mobilehome Parks Huntington Beach, City of Huntington Beach--Orange Analyzes the potential impacts associated with the City-initiated Senior Residential (-SR) Overlay district for mobilehome parks (Zoning Text Amendment No. 13-002). The purpose of the -SR Overlay district is to establish criteria that will protect those mobilehome parks primarily occupied by seniors 55 years of age and older from conversion to family (non age-restricted) parks in an effort to preserve affordable housing for seniors. The -SR Overlay designation is proposed to be added to 10 existing senior mobilehome parks. The location of the 10 parks are described in Neg Dec 13-001.	Neg	12/13/2013
2000021062	Total Dissolved Solids Reduction and Recycled Water Project Laguna County Sanitation District Orcutt--Santa Barbara Santa Maria Energy (SME) filed an Oil Drilling and Development Plan (ODDP) with the County Planning and Development Department proposing a cyclic steaming operation at its Carega oil lease located in the Orcutt Hills south of Orcutt off Graciosa Road. The project is proposing to use recycled water produced by the Laguna County Sanitation District (LCSD) for the steaming process. To transport the water, SME will extend the District's existing recycled water pipeline approximately 8 miles and construct two booster pump stations. Once constructed and accepted by LCSD the acres in land currently under agricultural preserve contract) are needed and are being acquired by LCSD for the installation of improvements. The project benefits the LCSD by providing discharge capacity for its recycled water to meet the needs of planned development including that described in the Orcutt Community Plan.	NOD	
2008031002	Roeding Regional Park and Fresno Chaffee Zoo Facilities Master Plans (Including Rotary Playland and Storyland) Fresno, City of Fresno--Fresno The project proposes the following revision to the Roeding Park and Fresno Chaffee Zoo Facility Master Plans (the "Master Plans") due to the designation of the High Speed Trail alignment on Golden State Boulevard, abutting the eastern boundary of the park: 1) removal of the Golden State Entrance and maintenance of the existing Olive and Belmont Avenue entrance as public entrances; 2) removal of the ticket booth associated with Golden State Boulevard entrance and its relocation inside the Belmont entrance; 3) relocation and reconfiguration of the ponds (required to be relocated pursuant to mitigation measure 4.1 (a) in the approximate vicinity of the Golden State Entrance; and 4) removal of 100 on-street parking spaces along Golden State Boulevard. These revisions together are considered a single amendment.	NOD

2009071104	Runway Safety Area Improvements Monterey Peninsula Airport District Monterey--Monterey The RSA Project was previously approved with certification of the Revised EIR on December 19, 2012. In order to terminate litigation, MPAD agreed to modifications in the project. These changes include: elimination of the VSR connection to Hwy. 68; an 8' westerly shift in the east and EMAS, with modification of the existing taxiway connection to meet FFA design standards; all of which results in less cut and fill. All other aspects of the approved project remain the same.	NOD	
2013072038	Patterson Pass Road Safety Improvement Project Alameda County Livermore--Alameda The Patterson Pass Road Safety Improvement Project is intended to improve roadway safety along an approx. 1300 foot section of that road, approx. 7 miles east of Livermore. It would reconstruct both lanes and widen the roadway and shoulder adjacent to the eastbound lane approximately 8 feet. The project would include the following components: (1) removing and relocating an existing barbed wire fence approximately 20 feet to the south; (2) placing and compacting soil fill with a 2:1 slope leading from the new gravel shoulder; (3) excavating and reconstructing the road shoulder; (4) placing and compacting aggregate base for the new road section; (5) placing and compacting new asphalt concrete surfacing, (6) placing an aggregate base layer along the road shoulder; and (7) installing a 400 foot long metal guard rail between MP 6.50 and MP 6.58.	NOD	
2013081007	Vassar Solar Project Merced County Merced--Merced To install a 3 megawatt solar photovoltaic power generating system on 29.1 acres of a 39.9 acre.	NOD	
2013081082	2014-2021 Housing Element Gardena, City of Gardena--Los Angeles The proposed project is the update of the City's Housing Element for the 2014-2021 planning period. The purpose of the Housing Element is to provide suitable housing for all residents of Gardena regardless of income, age, race, religion, gender or ethnic background. The Housing Element sets forth the City's strategy, policies and programs to address the community's housing needs. Based on the Regional Housing Needs Assessment (RHNA), the City must be able to accommodate 397 housing units during the period.	NOD	
2013091013	2014-2021 Housing Element Rosemead, City of Rosemead--Los Angeles The project is the update of the City's Housing Element for the 2014-2021 planning period. The Housing Element is to provide suitable housing for all residents of Rosemead regardless of income, age, race, religion, gender or ethnic background. As required by State law, Rosemead identified programs within the Housing Element to meet its "fair share" of the existing and future housing needs. According to the Southern CA Association of Governments' Regional Housing Needs Assessment (RHNA), there is a need for an additional 602 units in the City between 2014-2021 period.	NOD

2013092025	Sherman Island Whales Mouth Wetland Restoration Project Reclamation District 341 --Sacramento This project comprises a total of 877 acres within which a total of 600 acres of palustrine emergent wetlands will be restored through a combination of reestablishment and rehabilitation. The underlying purpose of the project will be to stop or reverse subsidence, create habitat, and sequester atmospheric carbon. By maintaining permanent and adequate water levels, the growth and subsequent decomposition of emergent vegetation is expected to grow peat, which will raise surface elevations on the property. The parcel is expected to provide year-round wetland habitat for waterfowl and other wildlife. The project is also anticipated to provide climate benefits by sequestering atmospheric carbon that will help provide a net reduction in greenhouse gases.	NOD	
2013118097	Elk Grove Cornerstone Church of Nazarene--EG--13--048 Elk Grove, City of Elk Grove--Sacramento The Elkgrove Cornerstone Church of Nazarene Prooject consists of a Conditional Use Permit to allow an "assembly use" for a church within the industrial office park zone district. The proposed church would occupy a 5,100 square foot vacant tenant space of an existing 11,520 square foot building.	NOE	
2013118098	Administrative Zoning Permit No. 32 El Cajon, City of El Cajon--San Diego Exterior facade enhancements including new windows, stone veneer, a wood trellis, and transparent entry doors.	NOE	
2013118099	Operation of Coso Junction SRRA Replacement Well and Hydrotank Public Health, Department of --Inyo The California Department of Public Health, as the responsible agency, will be issuing a water supply permit. The CalTrans Coso Junction proposed project is already constructed and includes construction of a new well, waterline and associated plumbing and electrical, new well housing and pressure vessel. The project also involved the abandonment and destruction of the existing well. The project did not involve tree cutting or removal. No new right of way was required.	NOE	
2013118100	Sale of Healdsburg Armory, 900 Powell Street, Healdsburg, CA Military Department - Office of the Adjutant General Healdsburg--Sonoma The proposed action will sell the California Army National Guard Healdsburg Armory located at 900 Powell Street, Healdsburg, CA, as administered by the California Department of General Services (DGS) and approved by the California Public Works Board.	NOE	
2013118101	Sale of Compton-Parmelee Armory Property, 2320 North Parmalee Avenue, Compton, CA Military Department - Office of the Adjutant General Compton--Los Angeles The proposed action will sell the California Army National Guard Compton Armory located at 2310 North Parmalee Avenue, Compton, CA, as administered by the California Department of General Services (DGS) and approved by the California Public Works Board.	NOE
