STATE CLEARINGHOUSE

NEWSLETTER

November 16-30, 2007

STATE CLEARINGHOUSE NEWSLETTER

The State Clearinghouse distributes draft environmental documents to state agencies for review and comment, pursuant to the California Environmental Quality Act (CEQA). The State Clearinghouse also acts as the State Single Point of Contact for the review of federal grant applications and federal development projects. This Newsletter summarizes the environmental documents and federal grant applications received by the Clearinghouse during the period **November 16-30, 2007**.

CLEARINGHOUSE CONTACTS

Please contact The State Clearinghouse if you have any questions regarding processing of environmental documents or grant applications. We may be reached at:

Telephone: (916) 445-0613
Fax: (916) 323-3018
e-mail: state.clearinghouse@opr.ca.gov
website: www.opr.ca.gov/clearinghouse/clearinghouse.shtml

Questions regarding federal grant notices should be directed to **Sheila Brown**.

Questions regarding processing of environmental documents should be directed to:

Scott Morgan
Senior Planner

CLEARINGHOUSE MAILING ADDRESS

Please do not use our street address (1400 Tenth Street, Room 212) for mailing purposes. The correct mailing address is:

STATE CLEARINGHOUSE
P.O. BOX 3044
SACRAMENTO, CA 95812-3044

INFORMATION AVAILABLE ON-LINE

The 2001 CEQA Guidelines are available from the Resources Agency's website at <http://ceres.ca.gov/ceqa/>.

The State Clearinghouse Handbook, which contains all of our environmental document and grant processing procedures and forms, is available on our website.

MEMORANDUM

DATE: February 13, 2007
TO: State Agency CEQA and Intergovernmental Review Coordinators
FROM: Scott Morgan, Senior Planner
SUBJECT: Distribution of Environmental Documents in CD-ROM Format

The State Clearinghouse has received an increasing number of requests from local and state lead agencies to distribute CEQA documents to state reviewing agencies in an electronic format, typically CD-ROM. The most common reason for these requests is to reduce cost. CD-ROMs are cheaper for the lead agency to reproduce and mail, and cheaper for the State Clearinghouse to distribute, especially in the case of multi-volume documents.

The State Clearinghouse has distributed EIR's and EIS's in CD-ROM format for state agency review and comment since August 1, 2003. Based on our experience with those documents, a survey conducted of state reviewing agencies and the potential cost savings to local and state agencies, we are extending this policy to other environmental documents including Negative Declarations, Mitigated Negative Declarations and Environmental Assessments. The State Clearinghouse will accept environmental documents under the following terms:

- CEQA Lead agencies may provide copies of draft environmental documents to the State Clearinghouse for state agency review in an electronic format. The document must be on a CD-ROM in a common file format such as Word or Acrobat.
- Lead agencies must provide fifteen (15) copies of the CD-ROM to the State Clearinghouse. In addition, each CD-ROM must be accompanied by 15 printed copies of the DEIR summary (as described in CEQA Guidelines §15123), executive summary, or introduction section of a Negative Declaration or Mitigated Negative Declaration. The printed summary allows both the State Clearinghouse and agency CEQA coordinators to distribute the documents quickly without the use of a computer.
- Final environmental documents may be provided in CD-ROM format without a printed summary. Distribution of the final documents is optional under CEQA.
- Federal lead agencies may send electronic copies of environmental documents to the State Clearinghouse in the same manner described for CEQA lead agencies. Distribution of NEPA documents to state agencies through the State Clearinghouse is encouraged pursuant to Presidential Executive Order 12372 and NEPA §102 (42 USC §4332)
- All notices of preparation must continue to be provided in printed format.
- Please provide one Notice of Completion Form with all submittals.

If your agency has difficulty downloading and reviewing any environmental documents please contact:

Scott Morgan, Senior Planner
916-445-0613
scott.morgan@opr.ca.gov .

Thank you for your cooperation in the CEQA review process.

**ENVIRONMENTAL DOCUMENT FILINGS WITH THE STATE CLEARINGHOUSE
1999 through 2006**

All CEQA documents filed with the State Clearinghouse are available for viewing on the Internet at <http://www.ceqanet.ca.gov/>

<u>Documents Received on Friday, November 16, 2007</u>			
2006022010	Tehama College Center Project Shasta Tehama Trinity Joint Community College District Red Bluff--Tehama The proposed project would construct the Tehama College Center on an ~40 acre site located 2 miles south of downtown City of Red Bluff, California. The project would replace temporary and leased facilities in Red Bluff and provide classrooms and labs for new curriculum in agriculture, telecommunications, transportation, and other technical fields. The anticipated year of opening the proposed Tehama College Center is Fall 2009. It is anticipated that the facility would have the capacity to accommodate approximately 378 students and staff during peak hours upon opening and would operate as a satellite campus of Shasta College.	EIR	12/31/2007
2006052113	General Plan Amendment and Zoning Amendment for Colusa Industrial Properties Colusa County Colusa--Colusa Colusa Industrial Properties is proposing a Colusa County General Plan Amendment and Rezone for approximately 151 acres of industrial land within the Colusa Industrial Park. The amendment and rezoning would designate 50 acres of land Urban Residential (UR) / Single Family Residential (R-1-8); 17 acres Urban Residential / High Density Residential (R-4); 56 acres Open Space (O-S) / General Recreation (G-R); and 28 acres Commercial (C) / Neighborhood Commercial (C-1), Community Commercial (C-2) and Highway Commercial (CH).	EIR	12/31/2007
2006071134	East Area 1 Specific Plan Santa Paula, City of Santa Paula--Ventura The East Area 1 Specific Plan consists of approximately 501 acres located within unincorporated Ventura County, immediately east of the City of Santa Paula. Portions of the site are currently in active agricultural production. The following uses are proposed: (1) 1,500 residential dwelling units (du); (2) up to a total of 285,000 square feet of retail and office space, and up to 150,000 square feet of light industrial and research and development space; and (3) approximately 375,800 square feet identified for civic uses (e.g. high school, community college, etc.) and some 170 acres for open space and active parks.	EIR	01/07/2008
2006101105	Hoag Health Center Project Newport Beach, City of Newport Beach--Orange Newport Beach Healthcare Center, LLC, is requesting the approval of an amendment to Use Permit No. 2006-010 to allow: (1) the conversion of the remaining 232,414 square feet of general office/R&D floor area, of the total 329,414 square feet of floor area currently permitted on-site, to medical office use within the M-1-A (Controlled Manufacturing) zoning district; and (2) the construction of an additional 20,586 square feet of medical office and ancillary medical uses on-site, for a total of 350,000 gross square feet of medical office floor area. The total new medical office floor area requested in the proposed Use Permit amendment is 253,000 square feet. The request is consistent with the City's General Plan that designates the 13.7 acre site for Medical Commercial Office (CO-M) land uses and establishes a precise development limitation of 350,000 sq. ft. of floor area. The land use designation is intended to provide primarily medical related uses. Additionally, approval of a traffic study is being	EIR	12/31/2007

	requested pursuant to the City of Newport Beach Traffic Phasing Ordinance (TPO). A total of 1,985 parking spaces previously approved in Use Permit 2006-010 are provided to accommodate the development, including 427 surface parking spaces and 1,558 spaces in two parking structures. Total parking exceeds the minimum on-site parking requirement of 1,750 spaces prescribed by the City's parking code.		
2007061056	Eden Rock at PGA West La Quinta, City of La Quinta--Riverside The applicant proposes to construct 81 Manor triplex homes, 83 Courtyard duplex homes, and 128 Village condo homes for a total of 292 residential units and a clubhouse/recreation facility in the center of the 42-acre site. Horizontal construction would be completed by the end of 2008; vertical construction would begin the first quarter of 2009, and the final phase of construction would be completed by the end of 2011.	EIR	12/31/2007
2006092103	Aspen V South Sacramento County Rancho Cordova--Sacramento Amendments to existing use permit and reclamation plan for currently permitted aggregate mining operation known as Aspen V South in order to increase the area of the Aspen V site by approximately 35.7 acres.	FIN	
2005062129	I-580 Isabel Avenue Interchange Construction Project Caltrans #4 Livermore--Alameda The project involves construction of a new interchange over I-580 between Airway Boulevard interchange and the Portola Avenue interchange. Construction would occur north and south of I-580.	FON	
2007111073	Tract Map 5540 (Alves Ranch) Selma, City of Selma--Fresno The proposed project is a Tentative Subdivision Tract Map consisting of 103 single family residential lots to be located on a site consisting of approximately 27.8 acres. All lots will comply with the minimum lot size for the R-1 Zoning district. Project entitlements will include the following: - Vesting Tentative Subdivision Tract Map - Pre-Zoning - Annexation	MND	12/17/2007
2007111074	DHS Development Desert Hot Springs, City of Desert Hot Springs--Riverside Subdivision of 76.73 acres into 224 residential lots for single family attached and detached homes, open space (natural and recreational), retention, private streets, a 14.39 acre remainder (not a part) lot that will not be developed, proposed vacation of an existing easement for road and utility purposes, and a Conditional Use Permit for a Planned Residential Development to include decreased lot sizes and two story homes within the project. 2007112079	<p>Ted Stodder Final Map Subdivision Humboldt County Community Development Services Eureka--Humboldt</p> <p>The division of a +/- 2.3 acre parcel into eight (8) single-family residential lots with a ninth parcel to be owned and managed by a Homeowner's Association or other similar organization. The subdivision utilizes the County's PUD Ordinance to reduce parcel sizes below the minimum 6,000 sf of the zone in order to minimize impacts to existing wetlands on the site. The proposed parcels range in size from +/- 951 sf to +/- 1,170 sf and will benefit from the 0' lot line provisions of the PUD Ordinance. The site will be accessed via an 18' wide paved private road off Alpha Street, a public County-maintained road. The reduced road width requires an exception per S325-9 of the Subdivision Ordinance. All residences will be served by community water and sewer. Wetland mitigation will be required for the development of appropriate residential building sites. Only the very rear or southern portion of the parcel is in the Coastal Zone.</p>	MND	12/17/2007
2007112081	<p>Mountain House Commerce Center San Joaquin County Community Development Department Tracy--San Joaquin</p> <p>Three applications:</p> <ol style="list-style-type: none"> 1. A Major Subdivision to create a 58 lot industrial subdivision on 105 acres. 2. A Master Plan Amendment to change various figures in the Mountain House Master Plan. 3. A Specific Plan Amendment to change various figures in Mountain House Specific Plan I. 	MND	12/17/2007
2007112083	<p>Ridge Point Subdivision Santa Rosa, City of Santa Rosa--Sonoma</p> <p>The applicants are requesting a rezoning from RR-40 to R-3-18 and approval of a Tentative Map and Design Review for the development of 56 condominium townhouse units.</p>	MND	12/18/2007
2007111080	<p>South I Street Industrial Park Specific Plan Tulare, City of Tulare--Tulare</p> <p>The project is located adjacent to and south of the City of Tulare, in western Tulare County, south of Bardsley Avenue, between Pratt Street and South I Street, and north and approximately 1/2 mile south of Paige Avenue. The project includes the annexation of approximately 458 acres from the County into the Tulare City limits. The proposed area will be divided into 123 acres of Light Industrial (M-1), 259 acres of Heavy Industrial (M-2) and 76 acres of Urban and Suburban Residential;. Both Heavy and Light Industrial Districts provide locations for industrial activities; protect industrial areas from the intrusion of incompatible types of land uses; adhere to performance standards provided for the protection of City of Tulare residents and the environment, and provide industrial employment opportunities for residents of the City of Tulare. The proposed project will also include the extension of South H Street as an arterial, connecting south to Paige Avenue, approximately 1 mile. The potential for rail spur connections is desired for all parcels, both north and south of Paige.</p>	NOP	12/17/2007

2003082037	Marin Municipal Water District Desalination Project Marin Municipal Water District San Rafael--Marin A desalination plant is proposed that could ultimately supply up to 15 MGD. As currently envisioned, the project would be constructed in phases. The first phase would construct a 5 MGD facility. A 5 MGD facility would provide supplemental water supply, particularly during drought years, but would not completely balance projected supply and demand. In 2025, a continued imbalance of approximately 2,100 acre-feet of demand is projected, compared to supply available, even with a 5 MGD facility. MMWD has a number of options to make up this shortfall, one of the most promising of which is conservation. In June 2007, MMWD adopted a Water Conservation Master Plan, which defines a roadmap for augmenting MMWD's existing conservation programs and forecasts demand reductions that could result from successful implementation of these programs. These conservation programs are analyzed in this document as a supplemental and an alternative to a desalination facility. Subsequent phases could add capacity to the facility for an ultimate capacity of 15 MGD.	EIR	03/06/2008				
2007031129	California State University, Dominguez Hills Master Plan California State University Trustees Carson--Los Angeles The CSUDH Campus Master Plan was prepared in 2006 as an update to the original 1964 Master Plan, in order to provide CSUDH with a framework for future campus development. The Master Plan proposes new academic and student	EIR	01/02/2008

	<p>service facilities as well as remodeled existing facilities to accommodate near-term future student enrollment of 11,000 full-time-equivalent students (FTES) by 2017, and long-term student enrollment of 20,000 FTES by 2040. Current student enrollment is approximately 9,000 FTES. The master plan proposes several near-term projects, including construction of new academic buildings (a science and health professions laboratory building and an extended education complex addition), a parking structure on Lot 7, and a new campus entrance off Central Avenue at Beachey Place. Housing for students and faculty/staff is also proposed, as is renovation of the existing Cain Library, social and behavioral sciences building, natural sciences and mathematics building (classrooms and offices), and student fitness center/gymnasium. Construction of a cogeneration plant is also part of the master plan. These near term projects would be constructed in phases over the next 10 years, until 2017, and contingent upon an enrollment level of 11,000 FTE students and the availability of funding. If enrollment levels do not reach 11,000 FTE students by 2017, or if funding is unavailable, some near term projects may not be built.</p> <p>Long-term projects are those that would be required to accommodate 20,000 FTE students. The projects have been defined in concept only; no formal design efforts have begun. According to current growth trends, university enrollment would reach 20,000 FTE students by 2040. Long-term development envisioned in the master plan includes academic/administrative facilities; campus life and student support facilities; access, circulation, and parking projects; campus infrastructure; and athletic fields.</p>		
2007042161	<p>Lewiston-Dark Gulch Rehabilitation Project Trinity County --Trinity</p> <p>The project would implement important provisions of the Interior Secretary's December 19, 2000 Record of Decision (ROD) for Trinity River Restoration. Physical channel rehabilitation is identified in the ROD as a necessary step towards recovery of the Trinity River's anadromous fishery and fulfillment of the federal government's tribal trust responsibility. The purpose of the proposed Lewiston-Dark Gulch Rehabilitation Project is to provide increased juvenile salmonid rearing habitat on the mainstem Trinity River (River Mile 105.4 to 111.7). Construction will create additional fish and wildlife habitat that is expected to increase over time as river processes are restored. Work to be performed includes re-contouring bank and floodplain features, as well as conducting in-river work such as gravel placement and grade control removal. Project work would start in summer 2008 with gravel additions to the river expected to be performed annually thereafter.</p>	EIR	01/08/2008
2007072107	<p>Helios Energy Research Facility University of California, Regents of the Berkeley--Alameda</p> <p>LBNL is proposing to construct a new 160,000 gross square foot, 4-story research facility that would house research programs focused on alternatives and renewable energy sources: the Helios research program and the Energy Biosciences Institute (EBI) research program. The Helios research program is a collaborative effort between LBNL and UC Berkeley that would conduct research to utilize sunlight to generate efficient energy sources. The EBI is a grant-funded program through British Petroleum (BP) that would conduct research with BP partners, LBNL, UC Berkeley, and the University of Illinois, Urbana-Champaign</p>	EIR	01/07/2008

	(UIUC) and would focus research primarily on renewable biofuels for transportation and conversion of heavy hydrocarbons to clean fuels.		
2005092019	Moraga Road Pipeline Project East Bay Municipal Utility District Moraga, Lafayette--Contra Costa This document analyzes a section of the Project along Moraga Road where pipeline construction would require full road closure with restricted access. The section starts at Nemea Court (at the north end) where the pipeline enters Moraga Road and ends where Moraga Road intersects with Sky-Hy Road. Also analyzed is a proposed change in construction method at the intersection of Rheem Boulevard and Moraga Road to open trench construction.	FIN	
2007112090	St. Joseph's Senior and Family Housing Project Oakland, City of Oakland--Alameda The project is proposed as an affordable housing project that involves adaptive re-use of portions of the historic St. Joseph's Complex for senior housing and affordable family housing, and construction of new affordable family housing on other portions of the site. The project will provide a total of up to 164 residential units.	JD	12/18/2007
2007111082	TPM 21023/ER 06-03-004/Jenkins Tentative Parcel Map San Diego County Department of Planning and Land Use Unincorporated, Pauma Valley--San Diego The site contains an existing manufactured home with accessory structures to remain. Access would be provided by two separate driveways off of Quail Drive, a private road, connecting to Rincon Rancho Road, a publicly maintained road. The project would be served by on-site septic systems and imported water from the Yuima Municipal Water District. Earthwork will consist of 1,002 cubic yards of material, for a net import of 885 cubic yards. The project includes off-site improvements to two existing roads, Quail Drive and Rincon Rancho Road.	MND	12/18/2007
2007111085	Rancho Mira Vista Subdivision and Annexation Holtville, City of Holtville--Imperial The project consists of the development of 103 homes on a 27.27 acre site (Parcel A) of which approximately 5 acres will be dedicated for public improvements including a park/retention basin area and roadways. The project incorporates an innovative design where no driveways will access the front yards but rather provide primary access from rear-loading alleys. The design concept necessitates a variance from the front yard setback of 20 feet minimum to a 13 feet minimum. The remaining 5.70 acres (Parcel B) of existing industrial proposed to be annexed into the City of Holtville will continue to operate as a light agricultural operation and will be pre-zoned as I-1 Light Industrial. Prior to annexation, Parcel B requires a lot line adjustment between the abutting parcel to the south (Parcel 045-570-018) reducing the total acreage of Parcel B by an approximate 2.33 acres.	MND	12/31/2007
2007111086	Conejo Valley Community Learning Center Conejo Valley Unified School District Thousand Oaks--Ventura The CVUSD is proposing to relocate Conejo Valley High School (CVHS) from the existing campus at 1872 Newbury Road in Newbury Park to the undeveloped, CVUSD-owned site adjacent to the CVUSD offices at 1400 East Janss Road in Thousand Oaks. The proposed new facility, Conejo Valley Community Learning	MND	12/18/2007

	residential building elements above. The project proposes to include 158 for-sale condominium and townhome units, and will set aside 5% of its total units (8 units) for very low-income households.		
2007112086	Case No. 2007-0168E - Hunters View Redevelopment San Francisco Planning Department San Francisco--San Francisco Hunters View is a 267-unit public housing project developed by the San Francisco Housing Authority (SFHA) in 1957. The project sponsor proposes to construct a mixed-income community comprised of between about 650 and 800 units. The project would include one-for-one replacement of the existing 267 public housing units. The project would likely also include some ground-floor commercial space and children's play areas. The project would be based on sustainable "green" building technologies and LEED certification components.	NOP	12/18/2007
2007112088	Natomas Crossing Sacramento, City of Sacramento--Sacramento The project site is located between Interstate 5 and East Commerce Way in the North Natomas area of the City of Sacramento, with 36 net acres north of Arena Boulevard and 47 net acres south of Arena Boulevard for a total of 82 net acres. The project encompasses 41 gross acres for Quadrant B and 53 gross acres for Quadrant C for a total of 94 gross acres. The current Sacramento General Plan land use designations for the project site are Mixed Use and Community/Neighborhood Commercial and Offices, and the current North Natomas Community Plan land use designations include Community Commercial (COMC), Employment Center (EC-40), and Employment Center (EC-50). The current zoning is Limited Commercial (C-1), EC-40, and EC-50. Quadrant B will be rezoned to Shopping Center to allow for the future development of retail space within the range of 319,500 to 426,000 square feet (sf); however, development of Quadrant B is not proposed at this time. The 47-acre Quadrant C portion of the project consists of a retail development. One large retail pad is located in the northern portion of the project, consisting of a large format retail pad with an attached garden center. Another large retail pad is located in the southern part of the project. Quadrant C includes approximately 483,245 sf in various buildings. Primary access to the project would be provided via entrances along East Commerce Way and Arena Boulevard. The required amount of parking spaces is also included in the project proposal.	NOP	12/18/2007
2007112089	Sacramento Natural Gas Storage Project Public Utilities Commission --Sacramento The proposed project consists of the construction and operation of a natural gas storage facility in the City of Sacramento. Proposed project components would be located within the City of Sacramento, the City of West Sacramento, the County of Sacramento, and Yolo County. The proposed project includes the underground natural gas storage reservoir; a wellhead site; a compressor station; a buried 16-inch interconnection pipeline between the wellhead and compressor site; a buried 16-inch interconnection pipeline between the compressor site and Sacramento Municipal Utilities District (SMUD) Line 700; and the Yolo County interconnection consisting of a buried 12-inch interconnection pipeline between SMUD Line 700 and PG&E Line 172 and associated metering facilities. 2007111083	Jespersen Ranch (Blodgett) Tract Map and Conditional Use Permit SUB2005-00172 ED07-028 San Luis Obispo County San Luis Obispo--San Luis Obispo Request by Jespersen Ranch LLC for a Vesting Tentative Tract (Tract 2811) and Conditional Use Permit for a major agricultural cluster to subdivide an existing 121-acre parcel into a total of seven parcels, including six residential parcels of approximately 1 acre each for the purpose of sale and/or development, and one 115-acre agriculture-open space parcel with a 6,000 square foot residential building envelope. The project includes off-site road improvements. The project will result in the disturbance of approximately 8 acres of a 121-acre parcel as a result of grading for residential structures, driveway access, and street improvements. The division will create an on-site residential road. The proposed project is within the Agriculture land use category and is located, on the southwest portion of the intersection of Buckley Road and Jespersen Road (at 4737 Jespersen Road), south of the City of San Luis Obispo. The site is in the San Luis Obispo planning area.	Neg	12/18/2007
2007111088	Ratiola Lot Split Santa Barbara County --Santa Barbara The request is for a Vesting Tentative Parcel Map (TPM 14,644) to divide one legal lot of 9.14 gross acres into three lots of 3.06 acres (Proposed Parcel 1), 3.05 acres (Proposed Parcel 2), and 3.03 acres (Proposed Parcel 3). Proposed Parcels 2 and 3 are currently undeveloped and no new development is proposed as part of the lot split request. Development envelopes have been designated on Proposed Parcels 2 and 3 to confine future site preparation activities and structural development. Grading for access driveways and utilities would be confined within proposed easements as shown on the tentative map.	Neg	12/18/2007
2007111093	Location and Development Plan 07-09, Tentative Tract Map 18611 Adelanto, City of Adelanto--San Bernardino A request by the applicant, Adelanto, LLC, to develop a 5.0 gross acre property with 20 duplexes, for a total of 40 units, with 2 recreation areas, within the Medium Density Residential (R3-8) zoning district located on the north side of Auburn Avenue, 600 feet east of Aster Road.	Neg	12/19/2007
2007112082	2008 Enterprise Zone Re-application Oakland, City of Oakland, Emeryville--Alameda The proposed project is a re-application by the City of Oakland for the California State Enterprise Zone, to continue the existing designation that began in 1993 for the next 15 years. The proposed project area encompasses 73 census tracts and covers approximately 23,500 acres, including most of the City of Oakland west of I-580, and portions of the City of Emeryville. The project will continue the annual hiring of 4,500 employees in the project area, through a package of economic development incentives. The area within the project boundary is fully urbanized, and the proposed re-designation does not require any new commercial or industrial development. No land use changes to either the General Plan or the Planning code are expected because of the proposed project.	Neg	12/18/2007

2007102006	Carlotta County Occasions Conditional Use Permit and Lot Line Adjustment for Outdoor Special Events (CUP-06-29/LLA-06-31) Humboldt County Community Development Services --Humboldt A Lot Line Adjustment between APN 206-101-28 and 206-101-41 to result in Parcels 1 and 2 of approximately 9.79 and 40 acres respectively. Approximately 4 acres will be exchanged from Parcel 1 to Parcel 2. Parcel 1 is developed with a single family residence. Parcel 2 is currently developed with a single family residence, a garage, two barns, and a gazebo. The Lot Line Adjustment will place the barn that currently straddles both parcels onto Parcel 2 and will address access issues. The LLA does not affect the TPZ portion of the property. A Conditional Use Permit is also requested for the operation of seasonal outdoor public events venue on the reconfigured Parcel 2. The plan of operation proposes a maximum of 300 guests with events held Friday through Sunday May 15 to October 15. The hours of operation will be 10 am to 10 pm. The parcel is served by on site septic and water. An additional sewage disposal system will be installed and a permanent bathroom facility will be constructed to service the events. No trees are proposed to be removed and minimal grading is required. No new development is proposed for Parcel 1.	NOD

1999022064	Elworthy Ranch Residential Development Danville, City of Danville--Contra Costa Elworthy West, LLC proposes the development of a portion of a 459-acre site located on the west side of San Ramon Valley Boulevard in the southwest quadrant of Danville. The project would develop approximately 12 acres of the project site with 84 two-story single-family residences and two two-story buildings containing a total of 12 multi-family apartment units, including five units that would be affordable to very low income households. Included within the 12-acre development area would be a community pool, barbecue area and tot-lot. An existing single-family residence would be retained on a separate five-acre parcel. Of the remaining 442 acres, 232 acres would be offered for dedication to the East Bay Regional Park District (EBRPD), 186 acres would have a scenic easement established to preserve the area for open space and limited recreational use, and 24 acres would be set aside as a mitigation site. A trailhead parking area as well as a private equestrian facility, proposed on approximately five acres, would be located within the scenic easement area. Frontage improvements, including widening along San Ramon Valley Boulevard are also proposed.	EIR	01/04/2008
2007041101	South Gate Gateway Project South Gate, City of South Gate--Los Angeles Construction of an urban retail shopping center in proximity of Atlantic Avenue and Firestone Boulevard, containing up to 600,000 square feet of occupied building area, with a design that features a large amount of static and streaming content media.	EIR	01/03/2008
2007102049	Stoneridge Joint Use Water Storage Project Roseville, City of Roseville--Placer The project will construct two storage tanks for treated municipal water supply and related conveyance facilities to deliver and distribute water to and from the tank site. The project site is located within the Stoneridge East residential development in East Roseville just west of Sierra College Boulevard. The proposed project will be constructed in two phases: Phase 1 will include a 2.9 million gallon (MG) reservoir to be owned and operated by the City of Roseville Environmental Utilities Department. Phase 2 will construct a 2.6 MG reservoir to be owned and operated by San Juan Water District. At the present time, it is anticipated that construction of Phase 1 will occur in 2008 while Phase 2 of the project will occur five to seven years after Phase 1.	EIR	01/04/2008
2007114001	Mammoth Yosemite Airport Air Service Federal Aviation Administration Mammoth Lakes--Mono Horizon Air proposes to initiate scheduled commercial air service into Mammoth Yosemite Airport (MMH), which is owned and operated by the Town of Mammoth Lakes, CA. The proposed service would begin in December 2008 with two daily flights from Los Angeles International Airport (LAX) to MMH during the winter ski season (approximately December to April). FAA's Proposed Federal Action consists of: approval of the proposed amendment to operations specifications for Horizon Air to permit and schedule commercial air service to MMH using the Bombardier Q400 Dash 8 aircraft pursuant to 14 CFR Part 119. 2003124005	Chico Casino Fee-to-Trust Acquisition Bureau of Indian Affairs, Sacramento Area Chico--Butte Acquisition of two parcels encompassing a total of 630 acres by the United State for the Mechoopda Indian Tribe of the Chico Rancheria, and the subsequent development of a gaming facility.	FON	
2007111094	PA05-0073 (Tentative Tract Map 33626) Moreno Valley, City of Moreno Valley--Riverside The proposed project consists of the subdivision of approximately 33 acres in the Residential 2 (maximum 2 dwelling units per acre) and Hillside Residential land use districts. The subdivision design proposes creation of 23 residential lots ranging from a minimum area of 20,000 square feet to approximately 1.9 acres. The approximately 12 acres encompassing the upper slopes of the site are to be preserved in an open space lot and the natural drainage course along the south site boundary is also preserved. The project would realign the Morton Road/Gernert Road interface to create a new T-intersection at Gernert Road. Project improvements also include a water quality basin, a debris basin, and reestablishment of a drainage culvert under Morton Road.	MND	12/19/2007
2007112091	Ghio Parcel Map and Rezone Paradise, City of Paradise--Butte Formal applications requesting a property rezone from Rural Residential-1 acre minimum (RR-1) to Rural Residential-1/2 acre minimum (RR-1/2) for a +/- 2.72 acre property and approval of a parcel map to divide the property into four parcels of record.	MND	12/19/2007
2007112094	PacifiCorp's Morrison Creek Substation Project Public Utilities Commission --Del Norte Through its CPUC application (A.07-07-018) filed on July 20, 2007, pursuant to CPUC General Order (GO) 131-D, PacifiCorp seeks a Permit to Construct (PTC) the proposed Morrison Creek Substation and remove the existing Simonson Substation (Proposed Project). The existing Simonson Substation, which currently steps voltage down from 69 kilovolt (kV) to 12.5 kV, would be replaced with the proposed Morrison Creek Substation which would have the same distribution capabilities. The objective of the Proposed Project is to increase system reliability in order to continue safe and reliable electric service to customers in the area.	MND	12/19/2007
2007112095	Hilltop Master Plan Truckee, City of Truckee--Nevada (1) Master Plan to implement the Downtown Specific Plan with land use types, intensities, and densities; planned development to modify development standards and transfer density; streetscape standards; design guidelines; and infrastructure plan. (2) Rezoning of properties from Downtown Master Plan to Downtown Mixed Use, Downtown High Density Residential, Downtown Medium Density Residential, and Downtown Single Family Residential, and General Commercial. (3) Downtown Specific amendments to redesignate small portion of land from Master Plan to Commercial and Single Family Residential and minor text amendments, and modify general guidelines for development. 	from that point ~150' to Bixler Rd., then it would continue north on Bixler Rd. for 1,800' to the proposed school access road.		
2006082022	Poppy Hills Curve Correction Project Caltrans #6 Sonora--Tuolumne Caltrans proposes to improve Poppy Hills Drive at its intersection with SR-49 (post mile 23.1 to 23.5) in Tuolumne County by realigning and widening the roadbed to meet current standards. The project would be built on a new alignment, and involve cut and fill and drainage improvements. Right-of-way acquisition and construction easements would need to be acquired.	NOD	
2007041026	EDA Grant 07-49-05623 Inland Valley, City of San Bernardino--San Bernardino One of the key projects envisioned in the San Bernardino International Trade Center (SBITC) is the development of the Alliance California Airport Business Park (ACABP). The location selected for the ACABP is 180-acre site which contains 31 existing structures that were constructed and used by the Air Force. These structures total about 1.7 million square feet of area and are in poor condition and do not meet current City Building standards. The site also contains about 70-acres of paved area (roads, parking, etc.). The buildings are also known to contain hazardous materials such as asbestos and lead based paint. Other hazardous materials which may occur on the site are PCB's and petroleum products. To allow for future development of the site, IVDA is proposing to demolish, remove, and dispose of the existing structures, paving and utilities. The purpose of the project is to leave a "clean" site that can be graded and developed in the manner envisioned in the SBITC.	NOD	
2007052004	Quail Ridge Car Wash (PEAQ T20060875) Placer County Planning Department --Placer Applicant proposes to construct a 6,503 square foot full-service car wash facility, with two exterior vacuum pumps and 15 onsite parking spaces.	NOD	
2007071028	Former Riverside Manufactured Gas Plant Site Toxic Substances Control, Department of Riverside--Riverside DTSC is proposing to approve a draft Remedial Action Plan for the Former Riverside Manufactured Gas Plant site pursuant to authority granted under Chapter 6.8, Division 20, California Health and Safety Code Section 25355(a)(1). The draft RAP, which has been prepared by Parsons on behalf of Southern California Gas Company, proposes to excavate ~50,000 cy of soil.	NOD	
2007081055	Housing and Dining Services Administrative Building Project University of California, San Diego La Jolla--San Diego The Housing and Dining Services Administration Building project will construct a 4-story building for house and dining service support that is ~42,000 sf in size. Specific uses of the building will consist of office, conference, and support space as well as 7,000 sf catering kitchen.	NOD

2007111098	Proposed Amended Rule 1171 - Solvent Cleaning Operations South Coast Air Quality Management District -- The proposed project involves: 1) extending final compliance with a lower volatile organic compound (VOC) content limit for ultraviolet or electron beam (UV/EB) ink application equipment for one year until January 1, 2009; 2) create a new solvent coating subcategory called on-press cleaning of screens and provide one-year extension of final compliance date; and 3) create a new metering roller, dampening roller, and printing plate category applicable only to UV/EB ink application equipment and extend the final compliance one year. Other amendments include new requirements for labeling and reporting from suppliers, as well as removing outdated rule requirements. Delaying the final compliance date will result in emission reductions foregone that would exceed the SACQMD's daily VOC operational significance threshold, so the air quality impacts have been determined to be significant.	EA	01/04/2007				
2004071164	High School No. 5 Fontana Unified School District Fontana--San Bernardino The District proposes to develop and operate a 2,100-seat comprehensive high school serving students in grades 9 through 12 with a 4,000-seat football stadium. The proposed student population may increase to approximately 3,200 students in the future through additional projects, if required to accommodate District growth. School buildings would include administration, media/library, food service/physical education, math/science, magnet, restrooms/storage areas, special education,	EIR	01/04/2008

	humanities, and the performing arts theater, all under one building. Kitchen and staff dining would be provided in a separate building. Operation of the high school would begin for the 2010 academic year.		
2006092063	The Preserve Stockton, City of Stockton--San Joaquin Development of "The Preserve" will include the master planning of +/- 359 acres of residential development, consisting of single family residential lots (653 units), small lots (278 units), cluster residential (129 units), alley-load lots (248 units) and condominiums (96 +/- units). The project site will contain approximately 52 acres of local park area including easement parks under WAPA power line easement. The public facilities within the project area will contain a 13-acre elementary school and a new fire station. A wetland feature is also planned within the power line easement that will serve to improve the water quality of project runoff and to provide flood control storage. A separate levee improvement project, administered by Reclamation District 2126, will surround the site on three sides providing 300-year flood protection. The project will develop a trails system on top of the levees, once the levee improvement project is complete. The project is located to the west of I-5 and south of Bear Creek within the City of Stockton jurisdictional boundaries. The project site is bounded on the north by Bear Creek, on the west and south by Mosher Slough, and on the east, by the existing Twin Creeks Estates, about 1,200 feet west of I-5.	EIR	01/09/2008
2007081047	Emerald Acres/Koby Annexation and Pre-Zoning Actions Hemet, City of Hemet--Riverside The proposed project includes the expansion of the City of Hemet Sphere of Influence; the adoption of pre-zoning for and annexation of approximately 379 acres of land into the City of Hemet, and adoption of a Specific Plan. Up to approximately 20 additional acres will become part of the sphere of influence, but no pre-zoning or annexation of these acres would occur. The project could result in the development of up to 1,274 dwelling units. 522,720 sq. ft. commercial development, a 7.5 acre recreation center, 4.1 acres of greenbelt/greenspace, a 11 acre detention basin and 156.5 acres undeveloped open space. The project includes improvements to Highway 74 (Florida Avenue), Stetson Avenue and roadways within the proposed specific plan area.	EIR	01/04/2008
2007112098	Franklin Boulevard/Elk Grove Boulevard Intersection Widening and Bus Turnouts Project Elk Grove, City of Elk Grove--Sacramento The proposed project includes widening a portion of Elk Grove Boulevard from five through lanes to six through lanes and a portion of Franklin Boulevard from four through lanes to six through lanes. This widening would allow for two new free right-turn lanes on eastbound-to-southbound Elk Grove Boulevard and two bus turnouts on southbound Franklin Boulevard. The project also includes widening of the west side of Franklin Boulevard from just south of the Laguna South Channel, North Drainage culvert approximately 150 feet to allow for the roadway to taper from six through lanes down to four lanes. 2007111096	Brown-Strauss Steel Industrial Warehouse Fontana, City of Fontana--San Bernardino The project site is currently a grassy vacant lot with a few scattered trees. The subject property is designated as Light Industrial (I-L) in the Southwest Industrial Park Specific Plan. The proposed project consists of the construction of a 134,851 square foot industrial warehouse, with internal office space and an overhead crane system. The proposed project would also include on-site parking, landscaping, stormwater drainage infrastructure, and driveways, as well as off-site roadway and infrastructure improvements on abutting segments of Jurupa and Live Oak Avenues.	NOP	12/20/2007
2007111099	North County Jail, Project No. 07EIR-00000-00003, 07GPA-00000-00011 Santa Barbara County Santa Maria--Santa Barbara The County of Santa Barbara proposes 808-1,520 bed detention facility on approximately 50 acres at the southwest corner of Black Road and Betteravia Road in the Santa Maria area.	NOP	12/20/2007
2003101160	Rancho Valley Farms San Diego, City of San Diego--San Diego Planned Development Permit (PDP), Coastal Development Permit (CDP), Site Development Permit (SDP), Vesting Tentative Map (VTM), and Neighborhood Use Permit (NUP) to create ten residential lots and construct 10 single-family homes on a 41.83-acre site located between Old El Camino Real and El Camino Real, south of the San Dieguito River. The site is zoned AR-1-1 (Agriculture Residential) and is located in Subarea II, within the Coastal Overlay Zone in the City and County of San Diego.	Neg	12/20/2007
2007111097	General Plan GPA2007-27 Comprehensive Update Mission Viejo, City of Mission Viejo--Orange The project consists of an amendment to the City's General Plan to provide a comprehensive update to elements in compliance with State law. Five (5) of the seven (7) mandatory elements of the City's General Plan require updating. State law requires that the mandatory elements of a General Plan be updated within 8 years of their adoption. The elements that are proposed to be updated include; Land Use, Conservation/Open Space, Circulation and Public Safety. The Housing Element is not part of this amendment and will be updated separately.	Neg	01/04/2007
2007112097	Signorello Vineyard Conversion #P06-01168-ECPA Napa County Napa--Napa The project includes earthmoving activities, and the installation and maintenance of erosion control measures associated with the expansion of existing vineyard by 6.45 acres within a 56.59 acre holding. The site topography ranges from gentle to moderately sloping (slopes typically 6% to 20%) grassland, at elevations between approximately 155 and 240 feet above mean sea level.	Neg	12/20/2007

2007112099	Central San Joaquin Water Conservation District Annexation Central San Joaquin Water Conservation District --San Joaquin The annexation of approximately 20,089 acres into the Central San Joaquin Water Conservation District. Project will annex three areas adjacent to the North-Eastern and South-Western boundaries of the District. These areas are all within San Joaquin County and overlie the common groundwater basin of the District.	Neg	12/26/2007
2007051023	West Covina Office Center EIR West Covina, City of West Covina--Los Angeles Developer, M&A Gabae Limited Partnership, proposes to develop approximately 375,270 sf of commercial office space in three buildings on a 7.2-acre site located on a portion of the former BKK Landfill in the City of West Covina. Office uses would be split evenly between medical office use and general office use. The site consists of two non-contiguous parcels. Lot 12, located on the western side of the project site, is approximately 4.68 acres (of which one acre on the eastern side of Lot 12 would be retained by the Community Development Commission). Lot 13, located on the eastern side of the project, encompasses approximately 2.52 acres. Situated on the northwestern edge of the former landfill property, the proposed project would be located near existing residential development at the foot of Fairgrove Avenue near the intersection of Aroma Drive. In addition, the developer proposes to construct a new 2.65-mile water line to the project site that would extend from the foot of S. Citrus Street in West Covina to the northern perimeter of the former landfill, and westward to the office center site. The proposed project would also require amendments to the General Plan and Zoning Ordinance, and approval of a precise plan and variance. The amendment to the General Plan would change the land use classifications from neighborhood commercial and open space to service commercial, which allows for intense commercial use.	SIR	01/09/2008
2004091132	A Children's Village; P04-036, Log No. 04-20-002 San Diego County Department of Planning and Land Use --San Diego Proposed project is for an institutional facility for 200 foster children on a 118 acre parcel.	NOD	
2004122013	Black Diamond Redevelopment Project Pittsburg, City of Pittsburg--Contra Costa The redevelopment Agency of the City of Pittsburg entered into a Disposition and Development Agreement (DDA) dated November 7, 2005 with Black Diamond Old Town, LLC, to develop a three block, mixed use project in downtown Pittsburg. The development will consist of 195 condominium residential units and approximately 32,000 square feet of ground floor commercial space. The Agency entered into a First Amendment to the First Amended and Restated DDA on May 21, 2007, in order to allocate additional funds for the project and to change certain timeframes outlined in the Schedule of Performance associated with Phase II of the development. The Agency and City Council has subsequently entered into a Second Amendment to the DDA to further increase the Agency's fiscal contribution to Phase II of the development, and the again change certain timeframes outlined in the Scheduled of Performance associated with Phase II. 2006011001	Merced Union High School District, Bellevue High School Merced Union High School District Merced--Merced The proposed project is the construction of Bellevue High School. The new high school will provide classroom space for up to 2,000 students (with the ability to expand, if necessary, to 2,400 students) in grades 9 through 12, and school staff of approximately 160 on a 58-acre site. Buildings will total approximately 190,000 square feet, with a gymnasium building, cafeteria, administration building, library, and a total of 83 classrooms in the first phase. As funding becomes available, a 4,000 seat outdoor athletic stadium will be constructed.	NOD	
2007011125	Wyndham Boutique Hotel/High-Rise Residential Project Costa Mesa, City of Costa Mesa--Orange The proposed "Wyndham Boutique Hotel/High-Rise Residential Project" involves reuse of the project site as a mixed-use development with both hotel and residential uses. The existing Wyndham Hotel would be renovated. Although there would be no change to the building square footage associated with the hotel, there would be reduction in hotel rooms create a boutique hotel. To accommodate the proposed 23-story, 120-unit high-rise residential tower, the existing hotel parking structure would be demolished. A seven-level parking structure (480 parking spaces) would be constructed east of the new residential tower to serve the residential tower to serve the residential tower and the hotel. The project includes a General Plan amendment for a site-specific density and FAR, North Costa Mesa Specific Plan amendment for additional development standards, Final Master Plan, and Vesting Tentative Tract Map. Overrule of the Airport Land Use Commission's Inconsistency Determination was also required.	NOD	
2007052067	Legacy Eden Shores Hayward, City of Hayward--Alameda The proposed project includes amendments to the General Plan, Zoning Ordinance, and South of Route 92 Specific Plan, Development Guidelines and Development Agreement to provide for a greater variety of land uses within the approx. 60 acres generally located west of Hesperian Blvd. and east of Marina Drive, between Industrial Blvd. and Eden Park Place.	NOD	
2007062029	Freeport Marketplace (P03-018) Sacramento, City of Sacramento--Sacramento The proposed project includes the development of four commercial buildings including a 17,272 sq. ft. drugstore, 3,177 sq. ft. fast food restaurant, a 5,952 sq. ft. retail space (possible sit down restaurant), and a 25,785 sq. ft. veterinary clinic on 6.1 acres for a total of approximately 52,186 sq. ft. of commercial mixed use buildings in the proposed Shopping Center (SC) zone within the Airport Meadowview Community Plan area. NOD	
2007092028	United Spiral Pipe LLC Manufacturing Plant Pittsburg, City of Pittsburg--Contra Costa Request for approval for a use permit and design review approval to construct and operate a steel pipe manufacturing facility including one 45-foot tall, 341,500 square foot manufacturing building, one single-story 20-foot tall, 12,000 square foot administration building, and related site improvements on a 44.8 acre site located at 900 East Third Street in the IG (General Industrial) District. The application also includes a request for a variance to reduce the minimum off-street parking requirements from one space per 1,000 square feet to one space per 1,787 square feet.	NOD	
2007092089	Posey Final Map Subdivision and Special Permit; Case No. FMS-06-09/SP-07-10 Humboldt County Community Development Services --Humboldt A major subdivision of two parcels totaling approximately 1.72 acres into 8 lots ranging in size from 5,500 to 10,570 sq. ft. The properties are currently developed with 2 residences and outbuildings which will remain. A Special Permit is required to allow the reduction in the exterior side yard setback on proposed lot 1 from 20 ft. to approximately 12 ft. All existing eucalyptus trees are to be removed from the site. The parcel is and will be served by McKinleyville Community Services District.	NOD	
2007102007	PWM Inc. / MetroPCS Special Permit (SP-06-59) for a 120 Foot Tall Cellular Communication Tower Humboldt County Community Development Services Fortuna--Humboldt A Special Permit for the proposed installation of a cellular communications tower, exceeding the allowed 35-foot height limit in the Agricultural General (AG) zone. The proposed tower will be 120 feet tall. The tower will be a monopole or lattice design (painted dark green) without top lighting. Six panel antennas are proposed to be located at the top of the tower and (no microwave antennas are proposed at this time). Three more sets of panels are proposed to be located on the tower at a future date. The applicant has leased a portion of a 3,600 square foot area on the subject 10 +/- acre parcel which will be reached via a 20 foot wide access easement off of an existing private road which serves the property. The lease area will be surrounded by a 6 foot high chain link fence with barbed wire on top. A concrete slab is proposed to be located at the base of the tower and will contain several cellular equipment cabinets. Other providers will be able to co-locate on this tower and place additional cabinets within the lease area. An RF Report (prepared by Hammett & Edison, April 2007) is on file with the Planning Division and concludes that the proposed tower could accommodate a variety of antennas without exceeding FCC exposure levels. A Building Permit and cumulative RF Study will be required of this applicant and each future provider proposing to co-locate. The +/- 10 acre parcel is currently partially developed with a single family residence, outbuildings, and other miscellaneous improvements.	NOD

2007112104	Newman Variance Contra Costa County Community Development Alamo--Contra Costa Applicant requests variance approval for the construction of retaining walls ranging in heights from 2 to 20 feet within required setback areas. Retaining walls will support a new driveway. In addition, a request to remove 14 code-protected trees and work within the dripline of up to 25 additional trees.	MND	12/27/2007
2007112105	City of Williams Wastewater Treatment Facility Improvement Project Williams, City of Williams--Colusa The City of Williams wastewater improvement project will convert the existing aerated pond treatment system, which currently produces equivalent secondary effluent, to an activated sludge/filtration process. The new treatment plant will provide nutrient removal, filters, and disinfection, and produce tertiary effluent. The existing ponds will be removed from service and the sludge removed. A portion of the existing ponds may be used as influent flow equalization and/or sludge storage. Treated effluent will continue to be discharged to Salt Creek. The improved WWTF will have capacity to treat up to 480,000 gallons per day (gpd). In addition, the upgraded plant will have the capacity to handle a peak day flow rate of at least 1.5 million gpd.	MND	12/26/2007
2003101142	Dana Point Harbor Marina Improvement Project Orange County Dana Point--Orange The Dana Point Harbor Marina Improvement project renovations will include removal of nearly all floating docks and piles; reconstruction of portions of the degraded quay wall; installation of new docks, guide piles (or alternate anchoring methods), gangways, security gates, dock boxes, and utilities. In addition, the reconfiguration of the Youth and Group docks may require dredging in the basin area on the northwest side of the facility. Other areas under the new slips may also require maintenance dredging not to exceed original design depths in the basin (this maintenance dredging is not a part of the Waterside project). Other marina project components include improved lighting on the docks and public access improvements, including gangways and docks in compliance with the Americans with Disabilities Act (ADA) guidelines. At project completion the total number of boat slips under the County's preferred design would decrease from 2,409 to 2,035, resulting in a net loss of 374 slips. However, the average slip length would increase from 30 (29.85) ft. to 34 (33.96) ft.	NOP	12/26/2007
2007111106	Crafton Hills Reservoir Expansion Project Water Resources, Department of Yucaipa--San Bernardino The proposed project would enlarge the Crafton Hills Reservoir from a useable storage capacity of 85 acre-feet to approximately 225 acre-feet. A notch in the ridge dividing the drainages would be excavated to enlarge the reservoir into the adjacent drainage. An earthfill dam would be constructed within the drainage course adjacent to the existing reservoir. Access roads, cut slopes, and operational dam equipment would be installed. In addition, a 1/2 mile segment of 48-inch connector pipeline would be built to connect to the East Branch Extension Pipeline Reach I to the 48-inch Yucaipa Pipeline owned and operated by the San Bernardino Valley Municipal Water District. The pipeline would allow DWR to maintain water deliveries to Reach 2 and Reach 3 segments of the East Branch Extension while the reservoir is being enlarged. After the proposed project is	NOP	12/26/2007

2007111107	ENV-2007-857-MND Los Angeles City Planning Department Westlake Village--Los Angeles Tentative Tract Map No. 68434 to permit a one-lot subdivision for the construction of a four-story, 16-unit condominium, plus one (400 square-foot) commercial unit, with 37 parking spaces on approximately 10,430 net square-feet of land, in the CW Zone.	Neg	12/27/2007
2004051126	Nightingale Care Facility ER 2003-19, 2003-26-CUP Escondido, City of Escondido--San Diego A Conditional Use Permit originally was approved by the Planning Commission in 2003 for a 74,903 square foot, two- and three-story residential-care facility for up to 165 clients/residents on the 3.48-acre site. The facility is proposed to be constructed in two phases (Phase 1 - Assisted Living Component; Phase 2 - Skilled Nursing Component). The permit was modified in 2004 (Case No. 2004-61-CUP) to construct a separate 900 square foot (36' x 25'), seven to nine-foot-high mechanical enclosure area to accommodate a variety of mechanical equipment, trash bins, and a 132 kW emergency standby generator. The permit was modified again in 2007 (Case No. 2007-33-CUP) to revise the enclosure design and construct a 2,478 square foot, two-story central plant building. Several modifications to the site/grading plans, retaining wall design and relocation of the equipment area also are necessary to accommodate current Fire Department access requirements within the southern parking area/drive aisle, and to remove the portion of the retaining wall that was planned to be constructed over an existing public sewer line.	NOD	
2007081122	Robert A. Skinner Water Treatment Plant Solar Power Generation Facility Metropolitan Water District of Southern California Hemet--Riverside The project consists of the construction and installation of a 1-megawatt (MW) solar power generation facility on a pre-existing materials storage pad within the boundaries of the Robert A. Skinner Water Treatment Plant.	NOD

2007111115	<p>Tract Map #973 (Procalamos Industrial Project) Imperial County Calexico--Imperial</p> <p>Potable water is proposed to be provided from the existing Gateway water treatment plant and sewer services provided by the sewer treatment plant both located south of the State Highway 98. The water and sewer lines are proposed to be extended northward to service the created lots within the Procalamos Tract Map area. The law enforcement will be provided by the Imperial County Sheriff with fire protection provided from the Imperial County Fire/OES Department. The applicants propose to have storm water runoff to be retained on-site via on-site detention basins and storm water delivery into the Imperial Irrigation District drainage system. There are two proposed access points into the project site, Rice Road is proposed to be extended northward on the western side of the project site and Menvielle Road will be extended northward on the easterly side of the subdivided area. The County may require the applicants to establish a Community Facilities District to be established to maintain future public utilities, landscaping and the required service systems prior to the recordation of the initial Final Map.</p>	MND	12/28/2007
2007111114	<p>Costello Pool and Bathhouse Replacement Los Angeles City Department of Recreation and Parks --Los Angeles</p> <p>The Los Angeles Department of Recreation and Parks has proposed the replacement and modernization of the facilities located at the Lou Costello Jr. Youth Center and Pool. Originally created in 1945 by Lou Costello Jr. and Bud Abbott, the pool and youth center were created with the purpose of helping underprivileged youth, and decreasing local juvenile delinquency by providing beneficial social programs in a secure, protected, well-equipped physical environment.</p> <p>The proposed project includes replacing the existing pool and bathhouse complex, redeveloping the adjacent basketball area, as well as relocating the entry into Lou Costello Jr. Park and upgrading adjacent landscaping. The proposed project area will be less than a third of the total park area, which also includes baseball fields, a senior center and a youth/community center. The project site consists only of the existing pool, bathhouse and basketball court.</p> <p>The proposed renovations to the bathhouse complex include the development of outdoor changing stalls, shower towers, a one meter diving board, outdoor lavatories, a wash pad, a large row of benches and shade trellis, and a large Storage Pavilion for pool toys, lanes and covers. In addition, the proposed project also plans for the construction of a Staff/Entry Pavilion, which includes a reception desk and facilities for the storage of personal effects. Finally, the existing entrance to the park facility will be relocated to the corner of E. Olympic Boulevard and S. Grande Vista Avenue an area currently occupied by a shady courtyard serving the Senior Center.</p> <p>The purpose of the proposed project is to provide a quality, up-to-date recreational facility that meets the growing demands of the area. The proposed changes to the park would provide entertaining and athletic opportunities to the neighboring community, and are designated with the goal of providing children and adults with a venue for both passive and active recreation.</p>	NOP	12/28/2007

2007112108	NuStar Energy Marine Terminal 30-year Lease Renewal California State Lands Commission --Contra Costa Proposed new 30-year lease of 10.09 acres of California sovereign lands would allow NuStar Energy, L.P. to continue its marine oil terminal operations for vessel transfers of crude oil and petroleum products. The terminal enables transfers to on-land storage facilities approximately 1 mile west of the Carquinez Crockett-Vallejo Bridge, south shore of Carquinez Strait.	NOP	12/28/2007
2007112109	Westfield General Plan Amendment Gilroy, City of --Santa Clara General Plan Amendment of about 185.5 acres from "General Industrial" and "Campus Industrial" to new, "Regional Serving" land use designation.	NOP	12/28/2007
2007111116	Remedial Action Plan at Central Region Middle School No. 7 Toxic Substances Control, Department of Los Angeles, City of--Los Angeles The project is the implementation of a Remedial Action Plan (RAP) at the proposed Central Region Middle School No. 7 (Site), focusing on mitigation of on-site tetrachloroethene (PCE) sources and the reduction of off-site sources. The RAP also include a Removal Action Workplan which focuses on excavation and offsite disposal of shallow soils impacted with lead, arsenic, cadmium, copper and total petroleum hydrocarbons (TPHs). The proposed RAP project is part of a new school construction project of the Los Angeles Unified School District (LAUSD).	Neg	12/28/2007
2007111117	Grant Minor Use Permit and Coastal Development Permit DRC2006-00040 San Luis Obispo County Morro Bay--San Luis Obispo Request by Daniel Grant for a Minor Use Permit/Coastal Development Permit as a required follow up permit to an issued emergency permit which allowed the installation of an approximately 40 foot by 10 foot single span bridge across Little Morro Creek for access to an existing property. The project resulted in the disturbance of approximately 2,200 square feet which includes the area of the bridge and the entrance/exit aprons with associated grading under aprons. The project is within the Agriculture land use category and is located at 1731 Little Morro Creek Road, approximately two and a half miles east of the City of Morro Bay. The site is in the Estero planning area. The bridge allows access to the subject property from Little Morro Creek Road, which is the only legal access to this property. Historically the property has gained access across a neighboring property, however has never had any formal access agreement or easement from the neighbor. The neighbor has denied their continuing access, therefore the existing agricultural operation was unable to continue without gaining access to the county road (Little Morro Creek Road). With issuance of the emergency permit for this bridge (issued November 1, 2006) the property owners were able to continue to allow trucks, vehicles, and farm equipment to enter and exit the property for the existing avocado farm on site. The minor use permit is the required follow-up to the issuance of the emergency permit.	Neg	12/28/2007

2007112110	<p>13333 Kiefer Boulevard Grading Permit Sacramento County --Sacramento</p> <p>The project proposes to establish approximately 12 +/- acres of wetlands, including vernal pools and swales. The subject property encompasses 586 +/- acres in its entirety; however, project area is approximately 317 +/- acres, of which 195 +/- acres will be preserved and protected in its current condition. The areas to be preserved will be demarked prior to beginning of construction. Spoils from excavation of the project site will be used to recreate natural vernal pool mound-intermound micro topography. The organic layer and the top 0.2 feet of topsoil from excavated areas will be stripped and used to vegetate the newly create uplands. The subgrade will be compacted by wheel-rolling with rubber-tired excavation equipment. The excavated basins and adjacent mounded watershed will be at fine grade to create natural appearing wetlands. The excavated basin at fine grade will allow for placement of 0.1 foot to 0.2 foot layer of vernal pool inoculum in each pool basin. Swales will be graded to direct flow from created pools to other existing jurisdictional wetlands. The salvaged topsoil will be spread and harrowed. The final grade will be left in optimal conditions for seeding. Disturbed and newly created uplands will also be vegetated by seeding with erosion control mix and mulching.</p> <p>An existing stream that is partially traversing the property is hydrologically connected to Deer Creek which is located south of the project area. This unnamed stream will be filled and abandoned. A new meandering and shallower channel will be created to provide hydraulic relief to the new vernal pool preserve.</p>	Neg	12/28/2007
2007112111	<p>Smith River Rancheria - V0803C - Variance to Construct an Off-Site Wastewater Collection System & Treatment Disposal Facility Del Norte County Planning Department --Del Norte</p> <p>Smith River Rancheria proposes to construct an off-site wastewater collection system and treatment and disposal facility to serve existing and future uses of the Smith River Rancheria. A variance request is required since the uses are not located on the project site. Effluent will be collected from multiple locations within the Rancheria and pumped to the new treatment facility. Two creek crossings will be required in order to located the needed piping. Directional drilling underneath the streambed is proposed for the Gilbert Creek crossing. White pipeline will cross Lopez Creek within the roadbed above the existing culvert. Effluent will be disposed of either in on-site leachfields or used for spray irrigation of non-edible crops grown on-site.</p>	Neg	12/28/2007

The new intake would improve CCWD's water quality, but would not increase CCWD's total diversion capacity (permitted rate or average annual quantity). The new intake would have a capacity of up to 250 cubic feet per second and would be a part of CCWD's Old River conveyance system.</p>	NOD	
2005022068	<p>White Mountain Estates SP/DEIR for Tentative Tract Map 37-46 Mono County Planning Department --Mono</p> <p>The White Mountain Estates Specific Plan includes the following components: (1) subdivision of a total of 70.38 acres into 45 single family residential lots (overall project density of 1.5 acres per dwelling unit), one utility lot (0.78 acres) for water and propane tanks, three lots for open space uses (1.46 acres, 3.81 acres, and 9.08 acres), and a remainder parcel (19.23 acres) that allows one single family residence. Tract Map 37-46 addresses the subdivision of the property.</p> <p>(2) Designation of the project site as Specific Plan (SP). Within the Specific Plan, planned land uses include Single Family Residential with a 1/2 acre minimum lot size (SFR-1/2), Open Space (OS), Utility (U), and Specific Plan/Single Family Residential (SP/SFR). An application for a General Plan Amendment (GPA 06-01) addresses the redesignation of the parcels from Rural Mobile Home (RMH) to the Specific Plan land use designations.</p> <p>(3) Development of required infrastructure on site, including paved two lane roads, pedestrian paths, a domestic and fire protection water system (wells, water distribution and storage system, fire hydrants), a propane tank area and underground propane distribution system, a storm drainage system, an underground electrical and telephone system, and individual septic systems for all lots. On site infrastructure improvements would be developed in two phases by White Mountain Estates LLC.</p> <p>(4) White Mountain Estates LLC is proposing to install either factory built housing or traditional stick built housing. Any factory built housing on site will be installed on an engineered load bearing foundation system. Housing materials and colors are intended to blend aesthetically into surrounding environment. The residential lots would be developed by White Mountain Estates LLC in two consecutive phases.</p> <p>(5) The project, including all associated public infrastructure, would be privately</p>	NOD

	funded.		
2005062111	Proposed Lower Yuba River Accord Yuba County Water Agency Marysville--Yuba Approval of the Conjunctive Use Agreement portion of the Accord.	NOD	
2005062134	Gibson Crossing Sacramento County Citrus Heights--Sacramento The California Department of Fish and Game is executing a Lake and Streambed Alteration Agreement number 1600-2005-0239-R2 pursuant to Section 1602 of the Fish and Game Code to the project applicant, Gibson Crossing, L.P. Filling of a man-made stock pond and an unnamed swale in conjunction with loss of foraging habitat for Swainson's Hawk and removal of numerous trees.	NOD	
2005092019	Moraga Road Pipeline Project East Bay Municipal Utility District Moraga, Lafayette--Contra Costa Includes new facilities and upgrades to existing facilities in Contra Costa County. In December 2006, the EBMUD Board of Directors approved the Water Treatment and Transmission Improvements Program (WTTIP) and certified an Environmental Impact Report (EIR) on the WTTIP. Since then, EBMUD has advanced the design of some WTTIP projects and is now proposing to modify the Moraga Road Pipeline. The purpose of the Moraga Road Pipeline is to provide additional treated water transmission capacity to portions of Moraga, Lafayette, and Orinda. The Moraga Road Pipeline alignment is approximately 3 miles long, extending between the Lafayette Water Treatment Plant in Lafayette and the Moraga/Draeger Drive intersection in the Town of Moraga. Consistent with CEQA, the SEIR evaluates environmental impacts associated with proposed changes in two locations along the proposed pipeline alignment. Between Old Jonas Hill Road in Lafayette and Sky-Hy Drive in Moraga construction of the project would require full closure of Moraga Road during construction hours for the pipeline segment from Nemea Court to Sky-Hy Drive. At the intersection of Rheem Boulevard and Moraga Road, open-trench construction (instead of bore-and-jack construction), with construction hours up to 24 hours per day, is now proposed.	NOD	
2005112116	Route 238 Corridor Improvement Project Hayward, City of Hayward--Alameda The Route 238 Corridor Improvement Project is intended to improve traffic conditions along Foothill and Mission Boulevard between Highway 580 and Industrial Parkway. The proposed project includes changes in circulation, changes in lane directions and controls, a downtown one-way loop street system, improvements to the Mission Boulevard/Carlos Bee Boulevard intersection, and other roadway improvements along Foothill and Mission Boulevards.	NOD	
2005122039	Angora 3 Erosion Control Project and Angora Creek Fisheries Enhancement Project El Dorado County South Lake Tahoe--El Dorado The County proposes to construct and maintain storm water facilities and implement erosion control practices in the Mtn. View Estates subdivision, as identified in the Lake Tahoe Environmental Improvement Program. Also included in this project is a fisheries enhancement project to improve fish passage and	NOD

2007011037	Riker Gerald Helen (Clegg); TM 5286RPL^4, Log No. 02-14-031 San Diego County Department of Planning and Land Use --San Diego The project is the subdivision of 6.25 acres into 13 residential lots.	NOD	
2007042063	Beaver Creek Reservoir Sediment Removal Project Northern California Power Agency --Calaveras, Tuolumne The California Department of Fish and Game is executing a Lake and Streambed Alteration Agreement pursuant to Section 1602 of the Fish and Game Code to the project applicant, Brenda Snow. The applicant proposes to remove approximately 3,500 cubic yards of accumulated sediments from the area closest to the dam to a point upstream at the mouth of Beaver Creek. Sediments will be removed from an area 75 to 150 feet wide and to a depth of between 5 to 7.5 feet. Draining the reservoir prior to dredging, diverting surface water flows around the work area, and removing dredged sediments from the reservoir vicinity to an offsite location are also proposed.	NOD	
2007082090	2006-15 Tentative Parcel Map for Firman Brown Calaveras County Planning Department Angels Camp--Calaveras The applicants are requesting approval of a Tentative Parcel Map to divide 40 +/- acres into two parcels of 20 acres each.	NOD	
2007092077	Schapiro Reservoir Replacement Project East Bay Municipal Utility District Richmond, San Pablo--Contra Costa Construction of a new 1.0-MG reservoir at the existing reservoir location between Bonita Road and Capital Hill Avenue; installation of a 40-foot diameter temporary tank on the reservoir site during construction of the new reservoir; construction of a new regulator on the Pearl Pumping Plant site on North Arlington Boulevard; construction of a new 320-foot, 16-inch diameter inlet/outlet pipeline between the proposed 1.0-MG tank and the new reservoir valve pit at the Pearl Pumping Plant site; and installation of a seismic isolation valve within the new valve vault at the Pearl Pumping Plant site.	NOD	
2007101065	Safety-Kleen Systems, Inc., Reedley Recycle Center, Hazardous Waste Facility Permit Renewal and Corrective Action Remedy Selection Toxic Substances Control, Department of Reedley--Fresno The Facility is a solvent recycling and wastewater treatment facility. The recycle center receives spent organic solvents from Safety-Kleen service centers and from industrial and commercial generators. The spent solvents are received in bulk and in containers and once reclaimed, are shipped off-site as cleaned processed solvent also in bulk and in containers. The facility also receives wastewater for treatment primarily from used aqueous parts washing solution.	NOD

2007118342	Issuance of Streambed Alteration Agreement No. R1-07-0623, Trinity River Fish & Game #1 --Trinity The project is limited to the replacement of a non-functional seep well. Work will include excavation of the floodplain to install on seep well, pump, water supply lines, and installation of electrical conduits to divert water pursuant to the Responsible Party's legal water rights.	NOE	
2007118343	Issuance of Streambed Alteration Agreement No. R1-07-0533, Black Butte Creek Fish & Game #1 Weed--Siskiyou Completion of work in the Restoration Plan for Black Butte Creek, submitted and approved by the North Coast Regional Water Quality Control Board.	NOE	
2007118344	Pioneer Union Elementary School District Replacement Well Pioneer Union Elementary School District Hanford--Kings Pioneer Elementary School operates its own water system from 2-wells constantly exceed the Maximum Contaminant Level (MCL) for arsenic. This Project involves the drilling of a new deep well that would replace Well #2. It is anticipated that this new deep well will be similar in quality to the recently constructed deep wells in the city of Hanford, therefore, an arsenic treatment facility is not anticipated to be required with the new well.	NOE	
2007118345	California Forest Highway 138-1, Mammoth Scentic Loop Raod Rehabilitation, Restoration and Resurfacing Mammoth Lakes, City of Mammoth Lakes--Mono The purpose of this project is to rehabilitate, restore and resurface the existing roadway pavement. The proposed rehabilitation will correct existing roadway deficiencies, including alligator cracking and general pavement deterioration. The proposed design will also improve safety for bicyclists, hikers and vehicular traffic, and reduce maintenance cost borne by the Town.	NOE	
2007118346	Issuance of Streambed Alteration Agreement No. R1-07-0562; Little Castle Creek Fish & Game #1 --Shasta The work authorized by this Agreement is limited to: removing concrete rip-rap from the bed and bank of Little Castle Creek and re-planting the disturbed areas with willow cuttings.	NOE	
2007118347	Extension of Time Exemption Permit #12947B State Water Resources Control Board, Division of Water Rights Ukiah--Mendocino On December 19, 2005, the Permittee filed a petition requesting a two-year extension of time within which to apply water to beneficial use. The Permittee state that the 8,000 acre-feet per annum (afa) annual diversion limit authorized by Permit 12947B has been put to full beneficial use. Permit 12947B requires that diversions be metered. Due to litigation, meter installation was delayed until 2005.	NOE
