STATE CLEARINGHOUSE

NEWSLETTER

November 16-30, 2008

STATE CLEARINGHOUSE NEWSLETTER

The State Clearinghouse distributes draft environmental documents to state agencies for review and comment, pursuant to the California Environmental Quality Act (CEQA). The State Clearinghouse also acts as the State Single Point of Contact for the review of federal grant applications and federal development projects. This Newsletter summarizes the environmental documents and federal grant applications received by the Clearinghouse during the period **November 16-30, 2008**.

CLEARINGHOUSE CONTACTS

Please contact The State Clearinghouse if you have any questions regarding processing of environmental documents or grant applications. We may be reached at:

Telephone: (916) 445-0613
Fax: (916) 323-3018
e-mail: state.clearinghouse@opr.ca.gov
website: www.opr.ca.gov/clearinghouse/clearinghouse.shtml

Questions regarding federal grant notices should be directed to **Sheila Brown**.

Questions regarding processing of environmental documents should be directed to:

Scott Morgan
Senior Planner

CLEARINGHOUSE MAILING ADDRESS

Please do not use our street address (1400 Tenth Street, Room 212) for mailing purposes. The correct mailing address is:

STATE CLEARINGHOUSE
P.O. BOX 3044
SACRAMENTO, CA 95812-3044

INFORMATION AVAILABLE ON-LINE

The 2001 CEQA Guidelines are available from the Resources Agency's website at <http://ceres.ca.gov/ceqa/>.

The State Clearinghouse Handbook, which contains all of our environmental document and grant processing procedures and forms, is available on our website.

MEMORANDUM

DATE: February 13, 2007
TO: State Agency CEQA and Intergovernmental Review Coordinators
FROM: Scott Morgan, Senior Planner
SUBJECT: Distribution of Environmental Documents in CD-ROM Format

The State Clearinghouse has received an increasing number of requests from local and state lead agencies to distribute CEQA documents to state reviewing agencies in an electronic format, typically CD-ROM. The most common reason for these requests is to reduce cost. CD-ROMs are cheaper for the lead agency to reproduce and mail, and cheaper for the State Clearinghouse to distribute, especially in the case of multi-volume documents.

The State Clearinghouse has distributed EIR's and EIS's in CD-ROM format for state agency review and comment since August 1, 2003. Based on our experience with those documents, a survey conducted of state reviewing agencies and the potential cost savings to local and state agencies, we are extending this policy to other environmental documents including Negative Declarations, Mitigated Negative Declarations and Environmental Assessments. The State Clearinghouse will accept environmental documents under the following terms:

- CEQA Lead agencies may provide copies of draft environmental documents to the State Clearinghouse for state agency review in an electronic format. The document must be on a CD-ROM in a common file format such as Word or Acrobat.
- Lead agencies must provide fifteen (15) copies of the CD-ROM to the State Clearinghouse. In addition, each CD-ROM must be accompanied by 15 printed copies of the DEIR summary (as described in CEQA Guidelines §15123), executive summary, or introduction section of a Negative Declaration or Mitigated Negative Declaration. The printed summary allows both the State Clearinghouse and agency CEQA coordinators to distribute the documents quickly without the use of a computer.
- Final environmental documents may be provided in CD-ROM format without a printed summary. Distribution of the final documents is optional under CEQA.
- Federal lead agencies may send electronic copies of environmental documents to the State Clearinghouse in the same manner described for CEQA lead agencies. Distribution of NEPA documents to state agencies through the State Clearinghouse is encouraged pursuant to Presidential Executive Order 12372 and NEPA §102 (42 USC §4332)
- All notices of preparation must continue to be provided in printed format.
- Please provide one Notice of Completion Form with all submittals.

If your agency has difficulty downloading and reviewing any environmental documents please contact:

Scott Morgan, Senior Planner
916-445-0613
scott.morgan@opr.ca.gov .

Thank you for your cooperation in the CEQA review process.

**ENVIRONMENTAL DOCUMENT FILINGS WITH THE STATE CLEARINGHOUSE
1999 through 2007**

All CEQA documents filed with the State Clearinghouse are available for viewing on the Internet at <http://www.ceqanet.ca.gov/>

- ND/MND Negative Declaration/Mitigated Negative Declaration
- NOD Notice of Determination
- NOE Notice of Exemption
- EA Environmental Assessment (federal)
- EIS Draft Environmental Impact Statement (federal)
- OTHER Other types of documents, including Final EIRs, Early Consultation notices, plans, etc.

CEQA Documents

Key for abbreviations of Document Type:

CON	Early Consultation Notice
EIR	Draft Environmental Impact Report
SIR	Supplemental EIR
SBE	Subsequent EIR
EIS	Draft Environmental Impact Statement
EA	Draft Environmental Assessment
JD	Joint Document (CEQA/NEPA)
FONSI	Finding of No Significant Impact
Neg Dec	Negative Declaration/Mitigated Negative Declaration
NOE	Notice of Exemption
NOD	Notice of Determination
NOP	Notice of Preparation (of an EIR)
Oth	Other type (none of the above)

SCH Number	Title / Lead Agency / City--County / Description	Document Type	Ending Date
<u>Documents Received on Monday, November 17, 2008</u>			
2006081138	Atwater-Merced Expressway Merced County Association of Governments Atwater, Merced--Merced NOTE: Recirculated The proposed project will begin at the intersection of existing Route 59 and Bellevue Road north of Rout 99 and end at the intersection of Route 140 and Gurr Road south of Rout 99. The new roadway facility will be constructed as a 4-lane expressway with access control. Two (2) alignment alternatives are being studied in addition to the No-Build Alternative.	EIR	01/05/2009
2007061077	2001 Main Street Project Santa Monica, City of Santa Monica--Los Angeles The project involves the construction of a new three-story mixed use building with 4,130 sf of ground floor commercial space, 14 residential apartment units, and 48 parking spaces (subterranean garage). The 18,090 sf property is located on the south-east corner of Main and Bay Streets in the Commercial Main Street District (CM-2). The site currently developed with a two-story residence and a one-story commercial building, a portion of which was designated as a City Landmark by the City's Landmarks Commission (May 2007). The project will retain and rehabilitate the landmarked portion (west wing) of the existing building, while the remaining structures will be demolished to accommodate the new building. The applicant is requesting the approval of a Development Review Permit and a Certificate of Apprriatness.	EIR	12/31/2008
2008091014	Koll San Juan San Juan Capistrano, City of San Juan Capistrano--Orange The project consists of a proposal by the applicant, Koll Development Company, to develop a 68,000 square foot, nine (9) building, commercial office complex on an existing 7.8 net acre (9.2 gross acres) property. Building Nos. 1, 4, 7, and 9 are proposed to be two-story in height while the remaining buildings (Nos. 2, 3, 5, 6, and 8) are proposed to be single-story. The property consists of two legal parcels located on the east side of Rancho Viejo Road north of Spotted Bull Lane.	EIR	12/31/2008
2005031129	Specific Plan Amendment (SPA08-001) Lemon Grove, City of Lemon Grove--San Diego The project is a city initiated amendment tot he Downtown Village Specific Plan (SPA08-001) to incorporate an expanded and enhanced version of the pedestrian promenade concept and a linear park in the Main Street Promenade District. The expanded pedestrian promenade requires the elimination of vehicular traffic on Main Street between North Avenue and Broadway and elimination of through-traffic between Broadway and Pacific Avenue on Main Street. The development of the pedestrian will require: vacation of public right-of-way, acquisition of private property along the Broadway street frontage, and establishment of easements. The proposed project is located in Lemon Grove. Downtown Village Specific Plan-Main Street Promenade District City of Lemon Grove and the Main Street public street right-of-way located south of North Avenue	MND	12/16/2008

	and north of Pacific Avenue right of way.		
2008111059	Pipelines 3 and 4 Relining Project--Miramar Hill to State Route 52 San Diego County Water Authority San Diego--San Diego The proposed project consists of the rehabilitation of approximately 44,000 linear feet of existing Prestressed Concrete Cylinder Pipe (PCCP) along the existing San Diego County Water Authority (Water Authority) Pipeline 3 (32,000 ft) and Pipeline 4 (12,000 ft). The proposed project would rehabilitate Pipelines 3 and 4 through instillation of a steel liner into the existing PCCP along two continuous segments of the pipelines within the City of San Diego. Thirty temporary pipeline access portals would be constructed as part of the proposed project, as would three valve vaults. Installation of three inline valves, an inline bulkhead, a drain valve and replacement drain, cathodic station testing wires, and a reconnection of Pipeline 4 to Pipeline 3 on the south of SR 52 also would be included in the proposed project.	MND	12/16/2008
2008111060	Medical Marijuana Cooperatives/Collectives Ordinance-Zoning Text Amendment 03-08 Desert Hot Springs, City of Desert Hot Springs--Riverside A City initiated by Zoning Text Amendment for an amendment to City of Desert Hot Springs Zoning Ordinance regarding medical marijuana collectives, cooperatives and/or dispensaries to be permitted within the Light Industrial zoning district with application and approval of a Conditional Use Permit.	MND	12/16/2008
2008112060	Watts Self-Storage Facility (ZF #2008-032) Yolo County Woodland--Yolo The proposed project is a request for a Use Permit to construct and operate a self-storage and RV/boat storage facility in the Airport Zone (AV). The 15.45 acre parcel is accessed off County Road 94B at the intersection of State Route 128, and adjoins the Watts-Woodland Airport and Yolo County Flood Control and Water Conservation District offices and equipment storage yard. The property is currently vacant and undeveloped, consisting of wild grasses and approximately 34 one-to-ten-inch almond trees proposed for removal. The property is located within the vicinity of the Watts Woodland Airport Comprehensive Land Use Plan (December 1988) and designated as an 'overflight zone'.	MND	12/16/2008
2008112061	Bowman Road and Hooker Creek School Site Evergreen Union School District --Tehama Land acquisition approval of 100.02 acres for the eventual development of a high school and possibly a middle school of ~60,000 and 40,000 sf, respectively. Projected enrollments are 600 and 400 students, respectively.	MND	12/16/2008
2008112064	CZ 2008-0001; TPM 2008-011; CUP 2008-0012; VAR 2008-0005 Yuba County Marysville--Yuba The project would allow the creation of three parcels (two 40 acre parcels and one 13 acre parcel) and for the relocation of an existing burl processing plant (Hardwoods Unlimited) out of the floodplain from its current Jack Slough Road location. The applicant is requesting to change the existing zoning designation from the "AE-80" Exclusive Agricultural zone (80 acre minimum parcel size) and subdivide the existing parcel into three new parcels with a changed zoning designation of "AE-40" Exclusive Agricultural (40 acre minimum parcel size) for	MND	12/16/2008

	two parcels and "AE-10" Exclusive Agricultural (10 acre minimum parcel size) for one parcel on a parcel consisting of 93.26. The conditional use permit would allow for Hardwoods Unlimited to move a component of their burl processing facility to land located outside the 100-year floodplain. Hardwood Unlimited's proposal for their new facility would include the construction of up to 60,000 sf of storage/processing buildings, an office, parking lot, and an outside storage area. A Parking Variance application would reduce the number of required from 60 (1 space per 1000 sf of storage area) to 25 spaces. The proposed 25 spaces would provide adequate parking all proposed employees (20) and 5 remaining spaces would be available for vendors and customers.		
2008112065	Empire Avenue Widening Oakley, City of Oakley--Contra Costa The project consists of the widening of Empire Avenue to a four-lane divided roadway with a median, from Carpenter Road to Meeks Lane. In addition to road widening, the project includes traffic signal modifications, relocation or utilities, drainage systems, and a landscaped median.	MND	12/16/2008
2008112062	#P07-00719-UP (Cimarossa Winery Use Permit) Napa County St. Helena--Napa Approval of a Use Permits to establish a new 10,000 gallon per year winery with (1) a 3,613 sf two-story winery building (less than 3,600 sf of interior space), a 902 sf covered outdoor work area 2,500 of caves and conversion of an existing 1,360 sf barn to wine barrel storage for a winery totaling 8,375 sf; (2) two full-time and two part-time employees; (3) five parking spaces; (4) tours and tasting by appointment only with a maximum of eight visitors per day and 56 visitors per week; (5) a marketing plan with: two 20-person events per month; two 40-person events per year; and, two 100-person Wine Auction related events per year (all events to be catered); (6) installation of fire protection and winery use water tanks totaling 20,000 gallons on a 400 sf concrete pad; (7) installation of a wastewater treatment system; and (8) approval of an Exception to the County Road and Street Standards to allow: (A) improvements and routine maintenance to be made to Frieden Drive (an existing private road that is currently 10 to 16 ft wide serving the winery) and, (B) widening the existing private winery driveway to an average of 10 to 14 ft with a 2 ft shoulder and 2 fire turn-around areas (18 ft plus two foot shoulders required for both roads). The winery project located on a 56.81 acre parcel on the south side of Frieden Drive ~1.25 miles northwest of its intersection with North Whit Cottage Road and is accessed via Buckeye Lane which begins 550 ft north of the intersection of Keyes Avenue and North White Cottage Road within an AW (Agricultural Watershed) zoning district.	Neg	12/16/2008

	<p>CALSTAR modular administration building, an adjacent 24' X 60' pad for a crew quarters modular building, an exclusive right to use six (6) parking spaces for CALSTAR employee personal vehicles plus the right to use one (1) additional parking space for visitors. CALSTAR will also have the non-exclusive right to use a back-up landing site and the right to station a fuel truck on the leased premises to refuel helicopters while on the helicopter pad. The project will not cause any alteration of the existing facility beyond the current use. The lease renewal is an administrative process that will not result in environmental impacts.</p>		
2008118138	<p>Alma Forest Fire Station - Barracks Forestry and Fire Protection, Department of Los Gatos--Santa Clara This project involves placing a temporary modular barracks building approximately 64' X 24' in size onto an existing location where other warehouse buildings once stood. The existing warehouse buildings were removed last year. The pad where the warehouse once stood will be improved with rock base. The new modular building will be placed on this location. The existing driveway will be used for access to the site.</p>	NOE	
2008118139	<p>Temporary Emergency Permit to Store and Treat Hazardous Waste by Dilution, Northrop Grumman Space Technology Toxic Substances Control, Department of --Los Angeles A temporary emergency Hazardous Waste Permit has been granted to Northrop Grumman Space Technology (NGST) to store hazardous waste for up to 90 days and then to treat the hazardous waste by dilution in order to transport it offsite for disposal. The hazardous waste to be stored and treated is approximately 2 gallons of a reactive mixture, consisting of 20% hydroxyethylhydrazinium nitrate (HEHN), 70% water, and 10% organic solvents. The hazardous waste was generated from research activities. The waste was inaccurately classified as a flammable liquid rather than an explosive hazard, delaying shipment of the waste to a disposal site. The 90-day limit for storage of a hazardous waste allowed under a previous emergency permit will expire before permission is secured from Department of Transportation to ship the hazardous waste. Before shipment, the mixture will be treated by further dilution with water from approximately 20% HEHN to 1% to 2% HEHN. The final volume of hazardous waste will be approximately 40 gallons. As NGST does not hold a facility hazardous waste management permit for the location where the storage and treatment would take place, the Department of Toxic Substances Control (DTSC) has determined that an emergency permit should be issued. The permit is effective from November 13, 2008 to February 10, 2009.</p>	NOE	
2008118141	<p>Enhanced Outpatient Program Treatment and Office Space, California State Prison - Sacramento, Folsom, California Corrections and Rehabilitation, Department of --Sacramento <input type="checkbox"/> the project consists of the conversion of an existing warehouse at California State Prison, Sacramento (SAC) into office and treatment space for the existing 192-bed Enhanced Outpatient Program (EOP) that is currently housed in SAC's Facility B. The purpose of the project is to provide large space for the existing EOP program so that existing SAC staff can more effectively deliver healthcare to inmates The warehouse that will be converted to EOP space is a former Prison Industries Authority (PIA) building located between SAC's Facility A and Facility B. The</p>	NOE

	warehouse is no longer used by PIA, and the part to be converted (the western end of the building adjacent to facility B) is presently empty with the exception of some medical supply storage that will be relocated elsewhere within the building. The conversion will include construction of approximately 16,700 square feet of interior space to accommodate administration, treatment, and custody functions associated with the existing EOP program. Other improvements associated with the project include the extension of existing utilities, and the installation of a new chiller that will be located in a new outdoor chiller yard adjacent to the building.		
2008118142	Adoption of Resolution Approving an Amendment to Coachella Valley Portion of Transportation Expenditure Plan and Retail Transaction and Use Tax Ord. No. 88-1 Wildomar, City of Palm Springs, Indio--Riverside The Riverside County Transportation Commission ("RCTC") Transportation Expenditure Plan and Retail Transaction and Use Tax Ordinance, Ordinance No. 88-1 (the "Plan") was approved by 78.9 percent of the voters in Riverside County in 1988. The purpose of this Plan is to relieve traffic congestion, increase safety, improve air quality, and provide funding for essential countywide transportation improvements. The Plan listed the locations of anticipated improvements in Riverside County, including the Coachella Valley area. Due to unanticipated realignments in roadways and the relinquishment of State control over other roadways and highways in Coachella Valley, the Plan must now be amended to reflect current conditions and specify the current roadway segments which are eligible for funding. The resolution approving an amendment to the Plan adopted by the City on 11-12, 2008 does not approve the construction of any transportation improvement, but instead approve an amendment to the Plan in order to make funding available for the planning and environmental review of future transportation improvements. The beneficiaries of these improvements include the residents of Riverside County, particularly those of the Coachella Valley area.	NOE

The proposed interchange will be constructed south of the existing Sierra Avenue Interchange and north of the existing Summit Avenue Interchange along I-15.	JD	12/17/2008
2007042146	GPA 2007-04 REZ 2007-04 PMA 2008-11 WAC 2007-03- Sun Dry Products Inc. Stanislaus County --Stanislaus This is a request to amend the General Plan and rezone the Sun Dry property from Agriculture/A-20 (General Agriculture) to P-D (Planned Development) on 103.2 acres, and to subdivide the total 200 +/- acre parcel into four parcels. The proposed new business is no longer limited to serving the agricultural community and requires a land use designation change. Major expansion of the operation is not proposed at this time, and no new buildings are proposed. The proposal would allow the continued operation of the reclamation and recycling of agricultural products. It would include an industrial hauffer, processing of commercial feed products, and demolition operations (to include construction debris, pallets, and sulfur and gypsum wall board). These uses would be considered consistent with a Planned Development zone. Current project activities can be found in the initial Study. The project also includes a Williamson Act Cancellation on the 103.2 acre Sun Dry property.	MND	12/22/2008
2008051034	ENV-2007-4488-MND Los Angeles, City of Los Angeles, City of--Los Angeles Parcel Map, Coastal Development Permit, San Pedro Specific Plan Project Permit Compliance determination, and Mello Act Compliance determination to permit a one-lot subdivision for 3 attached residential condominium units, contained within a new, approximately 6,600 square foot, 28 feet in height, two-story residential building over a semi-subterranean parking garage, providing 2 parking spaces per unit and a total of 2 additional parking spaces, on a 4,635 square foot lot located within the R3-1XL Zone. The building will include a 500 square foot rooftop deck for each unit. As proposed, all existing structures and landscaping will be removed, including 3 significant non-protected trees, and approximately 950 cubic yards of dirt will be exported from the site. 2008118149	Emergency Piepleine Replacement Project Caltrans #10 --San Joaquin The California Department of Transportation (Caltrans) proposes an emergency project to install a new section of a 36-inch diameter irrigation pipeline, in order to replace a section of failed pipeline located beneath Interstate 5(I-5). Construction, access, and staging would occur on previously disturbed areas and existing dirt roads owned by the Union Pacific Railroad, Banta Irrigation District, private land holders, and Caltrans. A permit to enter would be required for work outside of state right of way. To allow enough area and depth to operate a directional drill two jack and bore puts would be excavated on either side of I-5, one 420 square foot and the other 160 square foot. Manhole to access the pipeline would be constructed at the location of each boring pit once the new pipeline is installed. Previous efforts have been attempted by Caltrans and Banta Irrigation District to clean out the failing section of pipeline without success. Banta Irrigation District has bypassed the failed section of pipeline to allow irrigation flow to their customers. The purpose of the project is to replace a failed section of irrigation pipeline. The failed pipeline may cause deterioration of the fill under I-5 if not repaired. The project is essential for the safety and welfare of the traveling public.	NOE

2008112073	Elkhorn Regional Park Educational Trail and Riparian Restoration Project Yolo County West Sacramento--Yolo Construction of a university accessible trail and restoration of wildlife habitat in an existing regional park owned by Yolo County. Trail construction will include a raised platform constructed of steel and post consumer waste lumber (recycled plastic), and secondary trails through existing parking lots and picnic areas to provide pedestrian access for nature study, bird watching, and docent led tours of the riparian habitat. Additional work will restore degraded wildlife habitat by planting native California grasses, riparian vegetation, and installing educational panels to educate the public on the value of natural resources.	Neg	12/24/2008
2008112076	Siskiyou Telephone Use Permit-08-14 Siskiyou County Yreka--Siskiyou The applicant is requesting UP-08-14 approval to construct a 100 ft tall, steel monopole to support existing and proposed wireless communications equipment. The proposed tower would replace an existing legal-nonconforming, 44 ft tall, wood monopole, located on the project site.	Neg	12/19/2008
2002011023	Orange County Gateway Placentia, City of Placentia--Orange The proposed action is an improvement to the Orangethorpe railroad corridor and consists of standard grade separations at 8 arterial road crossings along an approx. 5 mi. long segment of the Burlington Northern Santa Fe railroad alignments in the Cities of Placentia and Anaheim and unincorporated Orange Co. from west of Bradford Ave. to west of Imperial Highway (SR 90). Overcrossings across the BNSF will be provided at Orangethorpe Ave., Tustin Ave./Rose Dr., Lakeview Ave., Jefferson St., Van Buren St., and Richfield Rd. Undercrossings will be provided at Kraemer Blvd. and Kellogg Dr. Potential project benefits include traffic congestion relief, improved traffic circulation, improved vehicle and pedestrian safety, and reduced train whistle noise. Adverse project impacts include those related to property acquisition, residential and commercial relocations, temporary impacts to circulation and access during construction, visual impacts associated with new structures, and increased surface transportation noise. 2008082031	Antelope Valley and Smithneck Creek Wildlife Areas Land Management Plan Fish & Game #2 Loyalton--Sierra The project being proposed is the adoption and implementation of the Land Management Plan (LMP). The LMP will guide the Department's management, planning, and operations of the Antelope Valley Wildlife Area (AVWA) and Smithneck Creek Wildfire Area (SCWA).	NOD	
2008092059	Meadows School Site Acquisition Marysville Unified School District Marysville--Yuba Marysville Joint Union School District is proposing the acquisition of the Meadows site for the intended future development of a high school, middle school, associated recreational facilities, and possibly a District bus yard. The proposed site consists of an undeveloped parcel with an area of 75 acres. Currently there are no formal plans for development of the future high school, middle school and associated recreational facilities, and the program is only in its conceptual stages. No specific design parameter or construction timing have been determined, so analysis of future development is speculative at this time. However, the conceptual future development program for the proposed site could include: 1,500 student capacity high school with 1,800 student capacity as an impacted size; access to the high school off of Plumas Arboga Road; lighted Stadium, open field area shared with middle school; joint use opportunities with aquatic center, gym and library; 800 student capacity middle school with 1,000 student capacity as an impacted size, access to the middle school off of Broadway Road; shared fields with the high school; joint use opportunities same as high school in addition to soccer fields; and possible site of District regional bus yard (10-15 buses).	NOD	
2008102041	Prospect Village II Santa Rosa, City of Santa Rosa--Sonoma Tentative Map and Conditional Use Permit for a small lot subdivision and minor modifications to the Policy Statement for the PD-0396 (Prospect Village Planned Development) zoning district, to subdivide two parcels, totaling 1.85 acres, into 14 lots for the construction of 10 single-family, detached residences and one duet structure, the two existing residences will remain.	NOD	
2008102046	Lee Residence Santa Clara County Saratoga--Santa Clara The subject application is for Building Site Approval by the Architectural and Site Approval committee. Design Review and Grading for the construction of a two story, 4235 sf residence on a 1.39 acre site located on Congress Springs Road, north west of the city of Saratoga in Santa Clara County. Construction will also entail installation of a driveway from Congress Springs Road (Highway 9) and an onsite septic system to service the residence. On site well will provide the domestic water supply for the residence through an individual water system installed to Environmental Health standards. The total estimated grading quantities for the subject project include 820 cubic yards of cut and 320 cubic yards of fill for the construction of the house and the driveway, and landscaping. The project will result in the removal of two oak trees (eight inch diameter 4.5 feet above ground), one maple (14 inch diameter 4.5 feet above ground), and a pine (9 inch diameter 4.5 feet above ground). 2005071114	Nipomo Community Services District Waterline Intertie Nipomo Community Services District Nipomo--San Luis Obispo The project involves the construction of a new pipeline and related pumping, storage and treatment facilities. The project is intended to provide the capacity to transport up to 6,300 acre ft per year of new water to the Nipomo Mesa to minimize the adverse impacts of groundwater overdraft in the Nipomo Mesa. The new water would in part replace water previously provided by groundwater wells and in part meet the needs of new development.	EIR	01/05/2009
2006042009	Dutch Slough Tidal Marsh Restoration Project Water Resources, Department of Oakley--Contra Costa The Dutch Slough Tidal Marsh Restoration Project proposes to restore tidal action to three diked parcels in eastern Contra Costa County near Oakley. Lease holders currently graze beef cattle on the property. The three parcels total 1166 acres, and are bounded on the south by the Contra Costa Canal and on the north by Dutch Slough. The westernmost parcel is bounded on the west by Marsh Creek, and the easternmost parcel is bounded on the east by Jersey Island Road. The central parcel is separated from the other two by Emerson Slough on the west and Little Dutch Slough on the east. The Project has three goals: to provide ecosystem benefits including habitats for sensitive aquatic species, to assess the development of those habitats and measure ecosystem responses so that future Delta restoration projects will be more successful, and to provide opportunities for public access, education, and recreation.	EIR	01/19/2009

2008011095	<p>Fire Station #71 Modernization Project Fontana, City of Fontana--San Bernardino</p> <p>The existing Fire Station #71 was originally built in 1929, and remodeled in the 1930s. It is the oldest, smallest and busiest Fire Station in the City of Fontana, and no longer meets the fire protection and safety needs of the City. It needs to be expanded and modernized to provide adequate fire protection services to the central part of the City. The existing Fire Station currently occupies one parcel that totals 16,400 sf (0.38 acres).</p> <p>The project involves the consolidation of three parcels and portions of two other parcels to the north to provide the site area needed for a modern fire station to serve Downtown Fontana. Those three parcels are approximately equal size, and currently contain the vacant property that previously contained the abandoned American Legion Post 262, the existing historic Fire Station #71, and a portion of historic A. B. Miller Park.</p>	EIR	01/05/2009
2008021053	<p>Replacement of National Oceanic and Atmospheric Administration Southwest Fisheries Science Center University of California, San Diego La Jolla--San Diego</p> <p>The SWFSC in La Jolla, California, manages and conducts research involving Pacific fisheries and marine mammal research for the protection and management of these resources throughout the Eastern Pacific and Antarctica. The existing SWFSC facility, built in 1964, is adjacent to a coastal bluff that is undergoing severe erosion and retreat. NOAA proposes to construct a new roughly 124,000 sf SWFSC building at a 3.3 acre undeveloped site on the UCSD Scripps Institution of Oceanography (SIO) campus to replace existing SWFSC facility. Buildings B and C at the existing SWFSC would be demolished and Buildings A and D would be returned to UCSD/SIO for possible future research/academic use.</p>	JD	01/05/2008
2008112083	<p>Newcastle Sanitary District Wastewater Treatment Plan Closure and Pipeline Project Newcastle Sanitary District --Placer</p> <p>The Newcastle Sanitary District (NSD) is planning to close the existing Newcastle Wastewater Treatment Plant (WWTP) as part of the Newcastle Sanitary District Wastewater Treatment Plan Closure and Pipeline Project. The Proposed Project would also include the installation of a sewer conveyance pipeline and a pumping station for connection with the South Placer Municipal Utility District (SPMUD). As part of the Proposed Project, the NSD service area would be annexed into the SPMUD service area.</p> <p>The improvements would consist of required earthwork and demolition to retire the treatment ponds, construction of a pump station and equalization storage facilities for the pumping operation, and installation of a force main to convey NSD wastewater to the SPMUD wastewater collection system approximately 1.5 miles to the southwest. The wastewater would then be conveyed to the Regional Dry Creek Wastewater Treatment Plant in Roseville. The existing NSD WWTP would be decommissioned and the site would be used solely to accommodate the wastewater pump station and equalization storage facilities.</p> <p>The new conveyance pipeline would share a portion of the alignment with the pipeline proposed as part of the Placer County Water Agency (PCWA) Foothill Water Treatment Plant project. The alignment runs parallel to the PCWA waterline along Taylor Road and connects with the existing SPMUD collection systems.</p>	JD	12/19/2008

2008111073	Rainbow Transfer Station and Material Recovery Facility Improvements Project Huntington Beach, City of Huntington Beach--Orange The project includes 193,150 sf of new building space including two transfer stations, a secondary recycling building, office, and enclosure of existing material recovery facility (MRF) canopy. Rainbow proposes to expand the capacity of the existing transfer station and MRF from 2,800 to 4,000 tons/day. The expansion would enable Rainbow to continue to process curbside recyclables, construction and demolition debris, green waste, and commercial municipal solid waste. The acquisition of additional land would not be required. All improvements would occur within the existing facility boundary, and no off-site improvements would be required. The project includes upgrades that will reduce noise, odor and emissions. Due to automation, the facility will be able to process a greater amount of waste/recyclables with fewer employees.	MND	12/19/2008
2008111074	Brokaw Nursery Inc Monterey County Soledad--Monterey Minor subdivision of two legal lots of record (currently under one assessor's parcel number 165-073-006-000) of 60 acres and 67 acres, resulting in three parcels of 40 acre (lot 1), 40 acres (lot 2) and 47.3 (lot 3), respectively. The property is located at 37102 Foothill Road, Soledad (assessor's parcel number 165-073-006-000), Central Salinas Valley Area.	MND	12/19/2008
2008111075	2008 Housing Element Update Thousand Oaks, City of Thousand Oaks--Ventura The housing element, one of the required elements of the General Plan, is a plan for meeting the existing and projected housing needs of the City. This update is required by State law to plan for the period from 2006 to 2014. The Housing Element Update deals primarily with administrative and financial matters that could not have a physical effect on the environment. However, the Update also contains programs for changing the Municipal Code to remove constraints on housing development and identifying at least one zone to accommodate a year-round emergency shelter for the homeless. These changes would not change the density nor intensity of development allowed under the existing zoning regulations. Therefore, they would not have an effect on the environment.	MND	12/19/2008
2008112080	Ishi Conservation Camp Replacement Project California Board of Forestry and Fire Protection --Tehama The purpose of the project is to allow the ICC to more efficiently operate at its current capacity, primarily by replacing and expanding the current infrastructure and service facilities. The project would include construction of a new 110-man kitchen/mess hall (+/- 7,588 sf); a 110-man inmate barracks (+/- 10,900 sf); a laundry/warehouse (+/- 1,940 sf); an inmate hobby building (+/- 2,480 sf); a CalFire office (+/- 1,960 sf); a CalFire 12-bed barracks/kitchen (+/- 3,753 sf); CDCR offices (+/- 3,600 sf); inmate training/recreation rooms (+/- 2,880 sf); a remodel of the Crew Carrying Vehicle/Emergency Crew Transport garage to include a maintenance/woodshop (+/- 1,984 sf); a Fire Engine Garage and Mobile Food Dispensing Unit Garage (+/- 3,968 sf); a staging area restroom for cover crews (+/- 1,000 sf); a generation/pump/storage building (+/- 740 sf); covered vehicle wash rack with filtration/recycle system (+/- 1,200 sf) and a building to	MND	12/19/2008

	lobby, restrooms, and locker and shower rooms. The gymnasium would include two basketball courts, a lobby, offices, restrooms, and locker and shower rooms. Vehicular access and circulation at Burgess Park would not be altered as part of the proposed project.		
2008111069	Proposed South Region High School No. 12-Site 1 Toxic Substances Control, Department of Los Angeles, City--Los Angeles The project involves approval of a Remedial Action Plan (RAP) by the Department of Toxic Substances Control for the proposed South Region High School #12, Site 1 pursuant to Health and Safety Code chapter 6.8. The RAP focuses on (1) excavation and off-site disposal of onsite shallow soils impacted with metals and total petroleum hydrocarbons; (2) a combination of excavation and off-site disposal, installation and operation of a soil vapor extraction system (SVE), for deeper soils impacted with volatile organic compounds (VOCs); and (3) in situ chemical oxidation of groundwater impacted with chlorinated VOCs. An approved Operations, Monitoring, and Maintenance Plan will be conducted after the Site is backfilled, SVE is initiated and in Situ Chemical Oxidation is completed.	Neg	12/19/2008
2008111070	Ramona Care Facility San Diego County --San Diego The project is a Site Plan for a 14,050 sf two story, 28 bedroom assisted care facility for the memory impaired senior citizen community.	Neg	12/19/2008
2008111071	Campus Photovoltaic Energy Project California State University, Pomona Pomona--Los Angeles The project consists of retrofitting various facilities within the California State Polytechnic University, Ponomo campus with photovoltaic (PV), i.e. solar, panels that will provide up to 5.0 mW of electricity to the campus. The solar utility provider will design, install, and operate the panels and sell the power generated by the panels back to the campus for a period of 20 years. The retrofit primarily involves installation of roof-mounted panels on campus buildings and canopy mounted panels on parking structures. Ground-based panels may be installed in the garage areas of existing buildings and academic research areas. The proposed retrofit is part of the University'd ongoing initiative to create a more sustainable campus environment.	Neg	12/19/2008

2008112084	Over Snow Vehicle Snow Program Cost Sharing Agreements Parks and Recreation, Department of --Butte, El Dorado, Mono, Siskiyou, Lassen, Shasta, Plumas, ... OHMVR Division proposes snow program funding in 11 National Forests for the operation, maintenance and grooming of winter recreation trails and trailheads within the Project Area. The groomed trails are predominately maintained for snowmobile or OSV use. The project locations extend from the Oregon border south towards Bakersfield. In total, the Project involves plowing 62 miles of access road, plowing and maintaining 27 trailhead parking areas (garbage collection and restroom cleaning), grooming 1,721 miles of trail.	Neg	12/19/2008
2007071155	University Hills Specific Plan San Bernardino, City of San Bernardino--San Bernardino The UHSP consists of 404.3 total acres, with 169.5 acres or 42 percent of the site proposed for residential and related uses, including 10.2 acres of parks and recreational uses. The project proposes a total of 980 units with a gross density of 2.4 dwelling units per acre (980 units divided by 404.3 acres) and a net density of 5.8 units per acre, excluding natural open space (980 units divided by 169.5 acres).	NOD	
2007102073	Church of the Latter Day Saints Wheatland Meetinghouse Wheatland, City of Wheatland--Yuba The proposed project includes the construction of a church meetinghouse on a 5.04-acre site. The church meetinghouse would be an ~16,558 sf one-story structure, which is 28' in height and includes a 67' steeple. In addition, the project site would include the construction of a 168 sf storage building and a parking lot with 210 parking spaces. The project includes a rezone of the site to Residential (R-3) for consistency with the current General Plan land use designation of High Density Residential, a Use Permit to allow construction of a church in a residential zone, and an Architectural Review Permit.	NOD	
2008051055	Environmental Health and Safety Expansion University of California, Riverside Riverside--Riverside UC Riverside will construct a replacement facility for campus Environmental Health and Safety (EH&S) labs, classrooms, offices and waste facilities. The approx. 30,000sf. building will be located on a 6 acre project site in the West Campus, east of Canyon Crest Dr., north of Martin Luther King Blvd. and southwest of I-215/SR60. The north half of the project site will be used for EH&S Expansion Building and the south half of the site will be used for parking. The project site has been used as a staging area for Caltrans freeway improvements for the last four years.	NOD	
2008061011	Interstate 215 Widening Project from Murrieta Hot Springs Road to Scott Road Caltrans #8 Murrieta--Riverside The California Department of Transportation, in coordination with the Riverside County Transportation Commission (RCTC), proposes to widen Interstate 215 from Murrieta Hot Springs Road to Scott Road in Riverside County. For the proposed project the existing facility would be widened from two to three lanes in both the northbound and southbound directions by adding a third mixed flow lane within the median, as well as overlaying the remainder of the existing facility with	NOD

2008118192	<p>Castaic Lake Slope Stabilization (Lower Lagoon) Parks and Recreation, Department of --Los Angeles</p> <p>The project would result in stabilization of a approximately 870 feet of the eastern perimeter of the lower lagoon at Castaic Lake. This would be accomplished by construction of revetment along this shoreline to provide enhanced shore fishing opportunities in this recreation area. Limited grading and filling of the shoreline would be required, followed by placement of a permeable filter fabric, and placement of a rock layer. Work would be done utilizing environmental protection measures and in accordance with the terms and conditions of an ACOR Nationwide Permit, 401 water quality certification and lake/streambed alteration agreement. Park improvements above the shoreline would include new picnic areas, repaving of the parking lot, replacement of sidewalks and fencing.</p>	NOE	
2008118193	<p>Annexation to Beaumont Cherry Valley Water District Beaumont-Cherry Valley Water District Beaumont--Riverside</p> <p>The project would consist of annexation of portions of eleven privately-owned parcels of land into the Beaumont Cherry Valley Water District. These parcels total approximately 18 acres of land are within the District's sphere of influence, but outside the current service area. The annexation would not result in any construction or installation of new facilities or services at this time. The purpose of the annexation is to provide water service by the Beaumont Cherry Valley Water District. Annexation would be conducted in accordance with the Plan of Services to meet requirements of Senate Bills 221 and 610. Individual property owners would be the beneficiaries of this project.</p>	NOE	
2008118194	<p>Lower Dock Sediment Removal Parks and Recreation, Department of --Imperial</p> <p>Remove approximately 2,500 cubic yards of sediment that was deposited during a September flash flood in a channel at the Lower Dock at Pichacho State Recreation Area. The sediments will be removed using a long-reach excavator and hauled to an area within the park that will not allow them to be redeposited during any future flood event. The area of sediment removal is a channel averaging 50 feet wide and is approximately 120 feet long. It will be returned to an average depth of eight feet from the current average depth of one foot. The silted-in channel currently prevents State Park Rangers from having a patrol boat at the ready to respond to emergency situations.</p>	NOE	
2008118195	<p>Pioneer Wellhead Treatment System Expansion Health Services, Department of Norwalk--Los Angeles</p> <p>The GAC treatment system will be expanded to allow all three well to operate simultaneously. Three vessels each holding 10,000 pound of GAC will be added to easterly site (11508 Pioneer Blvd.) so that the two wells on the site (wells 1 and 2) will have separate treatment systems with lead/lag configuration of the GAC vessels. Two GAC vessels will be added to the westerly site (11505 Pioneer) so that well 3 will have its own GAC treatment with lad/lag configuration. Additionally, a permanent chemical building will be added to each site, and the hyropneumatic tank will be removed from the easterly site. The current chemical building at each site will be removed.</p>	NOE

The Project generally consists of an outreach site/learning center of the Modesto Junior College, which is anticipated to accommodate a student population of up to approximately 450 students, and up to 25 faculty/support personnel intended to serve the westside of Stanislaus County. The hours of operation will be generally between the hours of 8:00 am to 9:00 pm Monday through Thursday, and 8:00 am to 5:00 pm on Friday. The campus may experience a Saturday half-day use based upon class scheduling and community events.	MND	12/22/2008
2008112088	Rocketship Two Public School Project Rocketship Education San Jose--Santa Clara Construct a K-5 public school with a capacity of 450 students. The project would consist of four factory built buildings. Parking would be provided on-site for 21 cars.	MND	12/22/2008
2008111078	Los Banos Wal-Mart Expansion Project Los Banos, City of Los Banos--Merced The proposed project consists of two phases: 1) expanding the existing Wal-Mart store and 2) creating three commercial outlots. Phase 1 consists of expanding the existing 109,508 square-foot Wal-Mart store by a maximum of 108,492 square feet, for a total of 218,000 square feet. The Wal-Mart would retail groceries, in addition to general merchandise, and operate 24 hours a day, 7 days a week. Phase I also involves developing a new road (Stonecreek Blvd) that would intersect with State Route 152 and expanding the Wal-Mart parking area to 994 spaces. Phase II would create three outlots with a development potential of 69,900 square feet on the west side of the Wal-Mart. The outlots would be expected to contain end uses such as specialty retail and restaurants.	NOP	12/22/2008
2008111080	Zone Change 07-0117, Development Plan Review 07-0119 and Agricultural Diminishment 07-0118 Perris, City of Perris--Riverside The proposed project is an approximately 1,191,080 square foot distribution center on approximately 61.63 gross acres. The project also includes approximately 720 standard, 13 handicapped and 353 trailer parking spaces. The MWD property to the north would be leased for use as overflow truck parking. The land will be removed from the existing agricultural conservation contract.	NOP	12/22/2008
2008111082	Joshua Basin Water District Recharge Basin and Pipeline Project Joshua Basin Water District --San Bernardino The Joshua Basin Water District project includes the construction of recharge basins and pipeline.	NOP	12/22/2008

2008112089	Oakley Downtown Specific Plan Oakley, City of Oakley--Contra Costa Adoption of a Specific Plan to implement GP policies and goals. The Plan area totals 80 acres and contains a range of land uses and types of development including: older storefront commercial buildings; small-scale highway commercial development; light-industrial; auto-related development; and residential uses. Approximately 29 acres are vacant. As part of the improvements to the downtown, a Main Street Realignment would be constructed to help reduce through traffic and create additional street frontage to accommodate downtown business and pedestrian traffic. Implementation of the Specific Plan could result in development of up to 300 dwelling units and 360,000 square feet of commercial space.	NOP	12/22/2008
2008111077	Yucaipa Valley Youth Soccer Lighting Development Project San Bernardino County Yucaipa--San Bernardino San Bernardino County Regional Parks Department in cooperation with the City of the Yucaipa Valley Youth Soccer Association (YVYSO) propose to install sports lighting improvements to the YVYSO Soccer Complex at Yucaipa Regional Park. The intent of the project is to light up to three existing soccer fields. The project shall include the installation of ten or twelve sports lighting standards, all accompanying electrical infrastructure; switch gear, control panel, timer, conduit and wire. The proposed design will utilize double light banks, back to back on a common pole for lighting two of the soccer fields. Soccer field lights will be programmed to shut off at 9:45 pm at night, with one light standard remaining on for an additional fifteen minutes. Minor grading and turf restoration.	Neg	12/22/2008
2008111079	Banning Property Acquisition Project Mt. San Jacinto Community College District Banning--Riverside An Initial Study/Negative Declaration has been prepared under the CEQA for the acquisition of a 1.5 acre parcel site and removal of on-site improvements by the San Jacinto Community College District for future use as an entryway, visitor center, and pedestrian mall for the planned San Geronio Pass Educational Center. The site is not included on any hazardous waste disposal lists (Government Code Section 65962.5)	Neg	12/22/2008
2008111081	Campus Drive Railroad Crossing Hanford, City of Hanford--Kings Campus Drive Railroad Crossing Project is the possible acquisition of property and construction of a new at-grade railroad crossing with improvements located approximately 100 ft north and 100 ft south of the Campus Drive alignment where it intersects the Union Pacific-owned tracks operated by the San Joaquin Valley Railroad Company. 2006111033	The Pavilion at Oceanside Oceanside, City of Oceanside--San Diego Proposed 950,000 square foot shopping center on a 92-acre parcel.	NOD	
2008021120	GPA 06-08 - Adams Street Subdivision Carlsbad, City of Carlsbad--San Diego The proposed project involves a General Plan Amendment (GPA), Zone Change (ZC), Local Coastal Program Amendment (LCPA), Planned Development Permit (PUD), Hillside Development Permit (HDP), Variance (V), Habitat Management Plan Permit (HMP), and Minor Subdivision (MS) to allow for the subdivision and development of a 1.08-acre parcel located on Adams Streets along the north shore of the Agua Hedionda Lagoon between Highland Drive and Park Drive. The parcel will be subdivided into four separate lots. Lot 1 is approximately 0.16 acre in size and will contain a 3,000s.f., two-story custom home. Lot 2 is approximately 0.22 acre in size will also contain a 3,243s.f., two-story custom home. Lot 3 is approximately 0.60 acre in size and will remain in open space. Lot 4 is approximately 0.10 acre in size and will be developed as a common area lot (driveway and parking area) for the two proposed residences. A pedestrian trail is proposed along the lagoon edge in accordance with the Agua Hedionda Lagoon Segment of the Local Coastal Program.	NOD	
2008071097	Carmel River State Beach Lagoon Water Level Management Project Parks and Recreation, Department of Carmel-by-the-Sea--Monterey The purposed of this project is to enhance habitat for fish and wildlife. The enhancement will be accomplished by management of the Carmel River Lagoon's water level each spring to maximize the volume of freshwater in the lagoon at the beginning of the summer dry season. A major objective of the project is to protect and enhance habitat for the Carmel River populations of the federal threatened steelhead trout and California red legged frog. To raise the lagoon level the sandy beach separating the lagoon from the ocean will be modified each spring using bulldozers to increase the height of the beach and creating a high-elevation outlet channel. Specific decisions regarding the timing of management actions each year will be made by State Parks in consultation with the Carmel Lagoon Technical Advisory committee (TAC).	NOD	
2008091031	Inyo County Collaborative Bikeways Plan Inyo County --Inyo The Inyo Co. Collaborative Bikeways Plan (ICCBP) is a long-term planning document meant to identify needs and opportunities for the growth of the Co.'s bikeway systems. The ICCBP was updated in 2002 and a Draft Collaborative Bikeways Plan was prepared in 2007, but not adopted. This current 2008 Collaborative Bikeways Plan provides an update to both previous plans and accomplishes the following: describes existing bicycle facilities and programs within Inyo Co.; evaluates the need for bicycle facilities and programs throughout the county, including the City of Bishop, unincorporated communities and the Bishop reservation; and describes their relationships to existing facilities and programs; proposes new bikeway facilities and programs and prioritizes their	NOD

	cutting native and on-native vegetation growing within the channel with hand tools such as hand trimmers, weed whippers, and chain saws. Vegetation will be trimmed to 2 to 6 inches above ground, and cut material will be removed from the channel and transported to the staging area by hand. Vegetation clearing will occur when the channel segments are dry (expecting occasional pockets of standing water). All heavy mechanized equipment will be located on existing paved roads and no heavy equipment will be utilized in any of the channel segments. Prior to commencement of any vegetation trimming, a biologist will survey the proposed area of work and will identify sensitive vegetation (e.g. southern willow scrub, freshwater marsh, or other riparian habitat) to be avoided. As a result, no impacts to sensitive vegetation are anticipated.		
2008118239	Rogas Pipeline Removal Project, Agreement No. 2008-0133-R4 Fish & Game #4 --Kern Removal of the existing, out-of-use 3-inch pipeline that spans the Kern River Bypass Channel, adjacent banks and levees. The length of pipeline to be removed measures approximately 2900 feet. A temporary construction corridor approximately 40 feet wide will be required within the permanent Inergy Right-of-Way (ROW). Work will occur when the ephemeral stream is dry, and disturbed areas will be recontoured and revegetated.	NOE	
2008118240	Twin Ponds Lane Culvert Extension (1600-2008-0270-R2) Fish & Game #2 Lincoln--Placer Placement of a twenty foot extension of an existing culvert under Twin Ponds Lane and creation of a new headwall where the new culvert extension ends. This will allow for a widening of the road to comply with county fire codes. Willow and Oak trees within the pathway for the widened road will be removed for a distance of approximately 40 feet. The work is proposed to begin after the end of the irrigation season around October 15th.	NOE	
2008118241	LEASE AGREEMENT TO LEASE 1754 Sacramento County Sacramento--Sacramento The project consists of a lease agreement for 11,259 square feet of a 12,485 square foot building to house a new District Attorney's Office for the County of Sacramento. The lease will last 10 years.	NOE	
2008118242	OCIT ROAD SITE AT METRO FIRE DISTRICT STATION Sacramento County Citrus Heights--Sacramento The project is a request for authorization to enter into an agreement with the Sacramento Metropolitan fire District for use of property located at their Fire Station 21 on Greenback Lane to support a radio telecommunications tower and equipment compound. 2008118244	Caltrans, highway 101 Storm Damage Repair Project Regional Water Quality Control Board, Region 1 (North Coast), Santa Rosa --Mendocino The purpose and objective of the project are to repair and upgrade a degraded double barreled culvert to protect the roadway from erosion and potential structural damage. The proposed construction activities will consists o: installing two plastic pipes; replacing the rock slop protection (RSP); excavating failed slopes; reconstructing and repaving the damaged roadway; replacing degraded downdrains; revegetating the disturbed soil area; and conducting erosion control. Both temporary and permanent impacts are proposed to an intermittent tributary to Forsythe Creek, a tributary to the Russian River. The project will result in temporary impacts to 3,779 feet^2 (131 linear feet) waters of the I.A. and waters of the State. However, the majority of impacts are within the existing drainage facilities (i.e. culverts and RSP). To compensate for the impacts to waters of the U.S. and waters of the State associated with project, Caltrans proposes to plant approximately 600 feet^2 of riparian vegetation adjacent to the RSP at the outfall of location PM 36.41.	NOE	
2008118245	Application TC08-015 Tuolumne County --Tuolumne Ordinance (TC08-015) to amend the Tuolumne County Ordinance Code relative to Flood Damage Prevention as required by the Federal Emergency Management Agency (FEMA) by repealing Chapter 15.24 and replacing it with a new Chapter 15.24.	NOE	
2008118246	SR 75 Parking Striping Imperial Beach, City of Imperial Beach--San Diego City's proposal to install / paint regulated parking stalls and red curbing on both sides (North and South) of SR-75 from Rainbow Drive to 13th Street. has gone through the NEPA process and concluded with a finding of no significant impact. According to the NEPA documents no special status animal or plant species were found. BLM also consulted with local Native American tribes and no issues were identified for the project. A BLM archeologist also cleared the project regarding cultural resources.

2008118250	<p>Adoption of Resolution Approving an Amendment to Coachella Valley Portion of Transportation Expenditure Plan and Retail Transaction and Use Tax Ord. No. 88-1 Lake Elsinore, City of Lake Elsinore--Riverside</p> <p>The Riverside County Transportation Commission Transportation ("RCTC") Expenditure Plan and Retail Transaction and Use Tax Ordinance, Ordinance No. 88-1 (the "Plan") was approved by 78.9 percent of the voters in Riverside County in 1988. The purpose of this Plan is to relieve traffic congestion, increase safety, improve air quality, and provide funding for essential countywide transportation improvements. The Plan listed the locations of anticipated improvements in Riverside County, including the Coachella Valley area. Due to unanticipated realignments in roadways and the relinquishment of State control over other roadways and highways in Coachella Valley, the Plan must now be amended to reflect current conditions and specify the current roadway segments which are eligible for funding. The resolutions approving an amendment to the Plan adopted by the City on Nov. 11, 200 does not approve the construction of any transportation improvement, but instead approves an amendment to the Plan in order to make funding available for the planning and environmental review of future transportation improvements. The beneficiaries of these improvements include the residents of Riverside County, particularly those of the Coachella Valley area.</p>	NOE

2008118272	Adoption of Resolution Approving an Amendment to Coachella Valley Portion of Transportation Expenditure Plan & Retail Transaction and Use Tax Ordinance No. 88-1 Cathedral City Palm Springs, Indio--Riverside The Riverside County Transportation Commission ("RCTC") Transportation Expenditure Plan and Retail Transaction and Use Tax Ordinance, Ordinance No. 88-1 (the "Plan") was approved by 78.9 percent of the voters in Riverside County in 1988. The purpose of this Plan is to relieve traffic congestion, increase safety, improve air quality, and provide funding for essential countywide transportation improvements. The Plan listed the locations of anticipated improvements in Riverside County, including the Coachella Valley area. Due to unanticipated realignments in roadways and the relinquishment of State control over other roadways and highways in Coachella Valley, the Plan must now be amended to reflect current conditions and specify the current roadway segments which are eligible for funding. The resolution approving an amendment to the Plan adopted by the City on , 2008 does not approve the construction of any transportation improvement, but instead approve an amendment to the Plan in order to make funding available for the planning and environmental review of future transportation improvements. The beneficiaries of these improvements include the residents of Riverside County, particularly those of the Coachella Valley area.	NOE

2008118275	Emergency Bridge Removal Parks and Recreation, Department of --Monterey The Summer 2008 big Sur Basin Complex fire burned a significant portion of the area surrounding Pfeiffer Big Sure State Park, making land within the park unit vulnerable to sever damage caused by upcoming winter rains. The project involves using cranes to disassemble the timber Weyland Camp Bridge and steel truss bridges are at risk of being dislodged during flooding from the Big Sur River. If dislodged, the bridges would wash downstream and could damage the State Route 1 bridge over the river. Place canvas under each bridge during disassembly to collect falling debris and dispose of debris off-site. Remove asphalt from steel bridge and dispose of asphalt off-site. Bridget abutments will remain in place for reinstallation of the two bridges at a later time. Cranes and other heavy equipment used to remove and relocate bridges to winter storage areas will remain on existing paved surfaces. Store the Weyland Bridge in a nearby log lot on previously disturbed ground and store the steel bridge on the adjacent asphalt road.	NOE

2008082086	Napa River Rutherford Reach Restoration Project Napa County Napa--Napa The purpose of the proposed project is to reduce existing bank erosion and associated inputs of fine sediments into the Napa River, and to enhance riparian and aquatic habitats within the reach to support native fish and wildlife. The project proposes to reduce existing bank erosion and enhance riparian and aquatic habitats by setting back existing earthen berms from the top of the river bank and creating vegetated buffers between the river and adjacent land uses, excavating and planting inset floodplain benches (1.5- to 2-year flood recurrence interval), removing non-native invasive species (e.g., Himalayan blackberry, periwinkle, giant reed, tree-of-heaven) and planting native understory species, installing biotechnical bank stabilization to stabilize actively eroding banks, and installing large woody debris structures and other features to improve aquatic habitat.	NOD

2006072024	Aviano Adult Community Project Antioch, City of Antioch--Contra Costa The proposed project is an adult residential development that comprises up to 535 adult single-family units on approx 93 acres, a 4.8 acre recreational facility, approx 24 acres of parks and landscaped areas, a segment of the Sand Creek regional trail, a 4.7 acre creek buffer area, 32 acres of open space and associated parking, roadway, and utility improvements. Some of the roadway and utility improvements would occur off-site. The average density of residential development would be approx 2.8 units per gross acre.	EIR	01/09/2009
2007081117	San Fernando Parking Lots Projects San Fernando, City of San Fernando--Los Angeles On Feb 20, 2008, the City of San Francisco Parking Lots Project Draft EIR for a 6-day review period. Since issuance of the Draft EIR, a second development scenario has been submitted for Parking Lot 3 (Gangi Development). Parking Lots 8 and 10 (Plaza Del Sol Mixed-Use Development), Parking Lot 5 (Marbella), Parking Lot 4 (Miraflores), and Parking Lot 7 (Commercial Development) remain unchanged from the Feb 2008 Draft EIR. Additionally, the construction phasing for the Project would be modified so that the construction of lot 3 (Gangi) would commence and be completed prior to construction of the other sites. Potential impacts resulting from Gangi Scenario No 2 are discussed herein. The addition of Gangi Scenario No 2 would result in modifications to the previously analyzed project description (Feb 2008); however, development of Gangi Scenario 2 would not change the basic conclusions presented in the Feb 2008 Draft EIR regarding potentially significant impacts of the proposed project or the need for mitigation.	EIR	01/30/2009
2007121037	South Stadium Redevelopment Plan Fresno, City of Fresno--Fresno The South Stadium Project includes the acquisition, clearance, and transfer of land and development of a mixed-use residential and commercial district in the City's downtown. The proposed project would provide residential living, pedestrian oriented spaces, outdoor seating, water features, and other public amenities along with commercial uses. The proposed project would be developed in three phases. Phase 1 consists of ~770 multiple family residential dwelling units in three and four-story structures. Multi-family units would be offered in a variety of product types including flats and townhouses. Parking would be provided by ~3 parking structures adjacent to the units. Approx 60,100 sf of ground floor commercial is also proposed for the first phase, along with amenities that include a ~1.5 acre community park and water features, and public spaces to display artwork created by local artisans. Future phases include commercial development containing a multi-screen movie theater and ~425,000 sf of gross leasable area along with ~600 multi-family units. Other components of the project would include landscaping, and necessary upgrades to utility systems.	EIR	01/09/2009
2008032052	San Francisco Bicycle Plan Project San Francisco, City and County of San Francisco--San Francisco The San Francisco Bicycle Plan would involve the adoption of a citywide bicycle transportation plan to include adoption of near-term improvements, long-term improvements, and minor improvements to the bicycle route network, and policy actions to support safe bicycling in the City of San Francisco. The Bicycle Plan	EIR	01/09/2009

	would also include amendments to the San Francisco General plan, the San Francisco Planning Code, and the San Francisco Transportation Code.		
2008051074	Valley Region Elementary School #13 Los Angeles Unified School District --Los Angeles The proposed project would provide 38 classrooms for kindergarten through fifth grade students. The proposed facilities would consist of two main structures, each two stories (approximately 34 feet in height), which would encompass approximately 73,000 square feet of building area. In addition, the Proposed Project includes a multipurpose room, 86 surface parking spaces for faculty and staff, a library, administrative areas, food services (including a lunch shelter) and playfields.	FIN	
2008111095	ENV-2008-3558 Los Angeles, City of --Los Angeles Conditional Use Permit to allow the sale of beer and wine for on-site and off-site consumption in conjunction with an existing 2,950 sq ft market/restaurant, with hours of operation from 7:00 am to 3:00 am, seven days a week, with 53 seats including 20 seats in an open patio; Zone Variance to provide off-site parking by lease all within the C2-1-O-CA Zone.	MND	12/26/2008
2008111096	ENV-2008-3820 Los Angeles, City of --Los Angeles Variance to allow the installation and operation of a recycling "Buyback Center" providing 10 parking spaces with hours of operation from 7:00 am to 5:00 pm, Monday through Saturday on a vacant 7,000 sq ft lot within a PF-1XL Zoned property.	MND	12/26/2008
2008111098	Vista de Catalina Debris Basin and Storm Drain Improvements Three Arch Bay, City of Laguna Beach--Orange The project proposal calls for the current multi-step debris basins above Vista de Catalina to be consolidated into a concrete-lined basin with a new outlet will be constructed. A new curb opening and catch basin will be constructed on North Stonington Road to eliminate the existing diversion into the Vista de Catalina drain line, and a new storm drain line will be constructed to the TAB boundary line, with a new outlet.	MND	12/26/2008
2008111099	Single-Family Residence, 3443 E. Chevy Chase Drive Glendale, City of Glendale--Los Angeles The applicant is proposing to construct a new, approx 7,956 sf house with an attached four-car garage on a 67,735 sf lot. In addition, the construction will require 2,200 cubic yards of cut and 140 cubic yards of fill (the cut earth material in excess of the fill will be exported). A Conditional Use Permit is required, since more than 1,500 cubic yards of earth material is proposed to be moved and the average current slope of the site of 59.8% exceeds 50%. A design review application is also required.	MND	12/26/2008

2008112106	Nordheimer flat Line Extension Grant Project Public Utilities Commission --Siskiyou The proposed project involves the installation of a telephone cable line in two conduits within the right-of-way of Salmon River Road between the end of Siskiyou Telephone's current cable facility two miles southwest of Forks of Salmon, and the terminating telecommunications pedestal at Red Cap Ranch. The length of the proposed line would be 2.76 miles, and is projected to take eight weeks to construct (weather permitting). The telecommunications line would provide telephone and dial-up internet services to two private residences and the USFS Nordheimer Flat campground in Siskiyou County, CA.	MND	12/26/2008
1988020824	Delta Wetlands Project Place of Use EIR Semitropic Water Storage District --Contra Costa, San Joaquin The project has five basic parts: Diversion of water in the Sacramento-San Joaquin River Delta (Delta); water storage in two Delta islands; habitat creation; supplemental water storage in groundwater banks south of the Delta; and provision of water supply for south-of-Delta users. The primary aspects of the Project are substantially unchanged from the Project as analyzed in the Final EIR issued by the State Water Board in January 2001, and the Final EIS issued by the U.S. Army Corps of Engineers in July 2001. The portions of the Project that remain unchanged are not within the scope of this EIR.	NOP	12/26/2008
2007112088	Natomas Crossing Sacramento, City of Sacramento--Sacramento The project site is located between Interstate 5 and East Commerce Way in the North Natomas area of the City of Sacramento, with 65.3 net acres north of Arena Boulevard and 94.5 net acres south of Arena Boulevard for a total of 159.8 net acres. As originally proposed, the southern portion of Quadrant B will be rezoned to Shopping Center to allow for the future development of retail space; however, development of Quadrant B is not proposed at this time. The northern portion of Quadrant B, which is now being added to the proposed project area, would not require a rezone as the proposed uses are consistent with the types of uses planned for the site as part of the previous approval of the overall Natomas Crossing PUD. Future development of the northern portion of Quadrant B is anticipated to include residential, hotel, and office uses. The 47-acre Quadrant C portion of the project would consist of a tentative subdivision map to subdivide the quadrant for office and retail development, with a large retail pad. Quadrant C would include regional retail uses and office uses. Quadrant D would include the development of a hospital and medical office uses. The conceptual hospital site plan also includes a helicopter landing pad. This helicopter pad would be used in emergency situations. Two above-ground parking structures are proposed. Primary access to the project would be provided via entrances along East Commerce Way and Arena Boulevard.	NOP	12/26/2008
2008111094	Golden Shore Master Plan Long Beach, City of Long Beach--Los Angeles The proposed project would provide new residential, office, retail, and potential hotel uses, along with associated parking and open space. The project includes two development options, a Residential Option and a Hotel Option, both of which would be entitled through the City of Long Beach. However, only one option would	NOP	12/26/2008

2008112108	O'Brian Annexation, General Plan Amendment and Prezone and City of Roseville/Public Homes General Plan Amendment, Rezone and Lot Line Adjustments Roseville, City of Roseville--Placer Phase 1: The applicant, the City of Roseville Planning and Redevelopment Department, requests approval of an Annexation of two City owned parcels totaling 10.06+ac into the City of Roseville, a General Plan Amendment from Agriculture/Timberland 80 ac to Commercial and industrial; and a Pre-zone from F-B-X 80 ac. minimum to General Commercial and Light Industrial. Phase 2: After annexation the City proposes to process a lot line adjustment with the adjacent property to the west owned by PL Roseville (Pulte). Currently the City's parcels and Pulte's parcel are long and narrow making access and site design on both properties challenging. Pulte has agreed to adjust the property lines so that Pulte and the City will have resulting parcels with better visibility, better access and more design flexibility. The lot line adjustment with Pulte will also include a GPA and Rezone of the Pulte property so that the resultant lots will have appropriate zoning to accommodate a future animal shelter and a more viable commercial parcel on the corner of future Blue Oaks Blvd. and West Side Dr.	Neg	12/26/2008
2007041085	Santa Margarita Area Annexation Temecula, City of Temecula--Riverside, San Diego The proposed project is the annexation of 4,997 acres into the City of Temecula which will include a Sphere of Influence expansion for the city; and amendment to the General Plan Land Use Map designating the land uses within n the S.O.I. expansion area; and the pre zoning of the annexation area with zoning designations consistent with the land use designations. The proposed Santa Margarita Area Annexation includes the following land use applications: Planning Application PA-07-0225 -Planning Application PA07-0225 consists of two components, an amendment to the City of Temecula General Plan (GPA) and the Pre-zoning of the annexation area (Change of Zone) described as follows: GPA proposing to update the General Plan's Land Use Map with land use designations over the 4,443 acres of the Santa Margarita Annexation Area located outside of the City's current S.O.I. The 477 acres currently designated "Rural Mountainous" (1 DU/10 AC) in Riverside Co. will become "Hillside Residential" (1 DU/10 AC) in the City of Temecula, and 3,961 acres of the 3,966 acres designated "Open Space-Conservation Habitat" in the County would be designated "Open Space" in the City and 5 acres currently designated "Open Space Conservation-Habitat" in the County will become	Oth

	"Hillside Residential" (1 DU/10AC) in the City of Temecula. Planning Application PA07-0226 -S.O.I. Expansion proposing the expansion of the City of Temecula's S.O.I. to include that 4,443 acre portion of the 4,997 acre Santa Margarita Annexation Area outside of the City's current S.O.I., with ultimate approval by the Riverside County Local Agency Formation Commission (LAFCO). -Annexation proposing the annexation of the Santa Margarita Annexation Area consisting of ~4,995 acres into the City of Temecula, with ultimate approval by the Riverside County Local Agency Formation Commission (LAFCO).		
1996082016	Tuolumne County General Plan Update Tuolumne County Ordinance for Zone Change RZ08-023 to rezone a 4.4+/- acre as follows: 0.7+/- acre parcel (Assessor's Parcel No. 44-370-10) from RE01 (Residential Estate, One Acre Minimum) to R-1:MX (Single Family Residential:Mobilehome Exclusion Combining); 3.3+/- acre parcel Assessor's Parcel No. 44-370-01) from M-1(Light Industrial) to R-1:MX; and 0.3+/- acre parcel (Assessor's Parcel No. 44-150-17) from R-1 (Single Family Residential) to R-1:MX under Title 17 of the Tuolumne County Ordinance Code.	NOD	
2003041010	First Street Bridge Replacement King City King City--Monterey Replace the existing two-lane bridge and the existing pedestrian bridge with a new bridge located immediately adjacent to and west of the existing bridge. The existing bridge, built in 1924, would be demolished and replaced with a new bridge approximately 50 feet wide. The new bridge would include two vehicle travel lanes with a shoulder and pedestrian sidewalk on each side.	NOD	
2007071040	HCG Irvine Irvine, City of Irvine--Orange The proposed project consists of a zone change for reduced setbacks, development agreement, Master Plan to develop 785,000 sf. of office space and 15,500 sf. of retail/restaurant space and conditional use permit for restaurant use. Implementation of the proposed project would require the demolition and removal of the existing 169,555 sf. one-story office and industrial building. Three parking structures will be provided (above ground and sublevel). A large open space area, approx. two acres, between, and accessible from, the proposed five to seven buildings will be provided.	NOD	
2007072023	Modesto Master EIR Update and General Plan Amendment Modesto, City of Modesto--Stanislaus The project is a Conditional Use Permit to add a 75-ft high, slim-line cellular monopole with up to 12 antennas concealed within a fiberglass radome, with associated equipment cabinets inside a 336-sq. ft. lease area, surrounded by a six-foot tall decorative fence. Although the use is permitted in the C-1 Zone, a conditional use permit is required because the height exceeds the height limit of 35 ft allowed in the zone.	NOD

2008118297	Exposition Park Land Exchange Science Center, California Los Angeles, City of--Los Angeles The project consists of the exchange of three parcels within Exposition Park by the 6th Agricultural district of the State of California (California Science Center) and the City of Los Angeles, Department of Recreation and Parks (city). The objective of the exchange is to resolve historic property boundary issues, consolidate title with existing leases and recognize the long-term management of the existing surface uses. The exchange will consist of the transfer by the City of Los Angeles of a 6.58 acre parcel, the northern half which is improved with the Los Angeles Museum of Natural History, the southern half has an open space area known as the South lawn. In addition the California Science Center will receive two small (.915 acres) parcels situated along Figueroa Street that contain a portion of the California African American Museum, and a small parking area in front of the Los Angeles Sports Arena. The exchange also includes the transfer to the City of Los Angeles, a 7.17acre parcel, known as the "historic Exposition Park Rose Garden". The exchange of all four parcels, will result in no changes or underlying ownership of these public lands by the California Science Center and City of Los Angeles. In addition, the California Science Center will simultaneously enter into a Operating Agreement with the City for five years firm, and an option to renew annually at the Science Center's discretion for an additional twenty years, to be used as a playfield for youth athletic events. None of the herein described events are in conflict with the Master Plan for Exposition Park Environmental Impact Report filled with the California State Office of Planning and Research on September 2, 1993.
