STATE CLEARINGHOUSE

NEWSLETTER

November 16-30, 2009

STATE CLEARINGHOUSE NEWSLETTER

The State Clearinghouse distributes draft environmental documents to state agencies for review and comment, pursuant to the California Environmental Quality Act (CEQA). The State Clearinghouse also acts as the State Single Point of Contact for the review of federal grant applications and federal development projects. This Newsletter summarizes the environmental documents and federal grant applications received by the Clearinghouse during the period **November 16-30, 2009**.

CLEARINGHOUSE CONTACTS

Please contact The State Clearinghouse if you have any questions regarding processing of environmental documents or grant applications. We may be reached at:

Telephone: (916) 445-0613
Fax: (916) 323-3018
e-mail: state.clearinghouse@opr.ca.gov
website: www.opr.ca.gov/clearinghouse/clearinghouse.shtml

Questions regarding federal grant notices should be directed to **Sheila Brown**.

Questions regarding processing of environmental documents should be directed to:

Scott Morgan
Acting Director

CLEARINGHOUSE MAILING ADDRESS

Please do not use our street address (1400 Tenth Street, Room 212) for mailing purposes. The correct mailing address is:

STATE CLEARINGHOUSE
P.O. BOX 3044
SACRAMENTO, CA 95812-3044

INFORMATION AVAILABLE ON-LINE

The 2001 CEQA Guidelines are available from the Resources Agency's website at <http://ceres.ca.gov/ceqa/>.

The State Clearinghouse Handbook, which contains all of our environmental document and grant processing procedures and forms, is available on our website.

MEMORANDUM

DATE: February 13, 2007
TO: State Agency CEQA and Intergovernmental Review Coordinators
FROM: Scott Morgan, Senior Planner
SUBJECT: Distribution of Environmental Documents in CD-ROM Format

The State Clearinghouse has received an increasing number of requests from local and state lead agencies to distribute CEQA documents to state reviewing agencies in an electronic format, typically CD-ROM. The most common reason for these requests is to reduce cost. CD-ROMs are cheaper for the lead agency to reproduce and mail, and cheaper for the State Clearinghouse to distribute, especially in the case of multi-volume documents.

The State Clearinghouse has distributed EIR's and EIS's in CD-ROM format for state agency review and comment since August 1, 2003. Based on our experience with those documents, a survey conducted of state reviewing agencies and the potential cost savings to local and state agencies, we are extending this policy to other environmental documents including Negative Declarations, Mitigated Negative Declarations and Environmental Assessments. The State Clearinghouse will accept environmental documents under the following terms:

- CEQA Lead agencies may provide copies of draft environmental documents to the State Clearinghouse for state agency review in an electronic format. The document must be on a CD-ROM in a common file format such as Word or Acrobat.
- Lead agencies must provide fifteen (15) copies of the CD-ROM to the State Clearinghouse. In addition, each CD-ROM must be accompanied by 15 printed copies of the DEIR summary (as described in CEQA Guidelines §15123), executive summary, or introduction section of a Negative Declaration or Mitigated Negative Declaration. The printed summary allows both the State Clearinghouse and agency CEQA coordinators to distribute the documents quickly without the use of a computer.
- Final environmental documents may be provided in CD-ROM format without a printed summary. Distribution of the final documents is optional under CEQA.
- Federal lead agencies may send electronic copies of environmental documents to the State Clearinghouse in the same manner described for CEQA lead agencies. Distribution of NEPA documents to state agencies through the State Clearinghouse is encouraged pursuant to Presidential Executive Order 12372 and NEPA §102 (42 USC §4332)
- All notices of preparation must continue to be provided in printed format.
- Please provide one Notice of Completion Form with all submittals.

If your agency has difficulty downloading and reviewing any environmental documents please contact:

Scott Morgan, Senior Planner
916-445-0613
scott.morgan@opr.ca.gov

Thank you for your cooperation in the CEQA review process.

**ENVIRONMENTAL DOCUMENT FILINGS WITH THE STATE CLEARINGHOUSE
2000 through 2008**

All CEQA documents filed with the State Clearinghouse are available for viewing on the Internet at <http://www.ceqanet.ca.gov/>

2008071143	Beach Edinger Corridors Specific Plan Huntington Beach, City of Huntington Beach--Orange The proposed Specific Plan is intended to implement a clear and comprehensive vision for growth and change along Beach Boulevard and Edinger Avenue. In particular, the proposed project is designed to coordinate private and public investment activities in the project site that will enhance the visual quality and economic vitality of primary commercial corridors in the City. The proposed Specific Plan establishes the primary means of regulating land use and development intensity and standards related to site layout, building design, and landscaping within the project site.	FIN	
2009111053	Cabazon Civic Center Project Riverside County Economic Development Agency --Riverside The proposed Cabazon Civic Center will be developed at the existing site of the James A. Venable Community Center in the community of Cabazon in Riverside County. Existing facilities to be demolished include: a Fire Station, basketball court, picnic shade structures, and a restroom building. Two storage sheds and two portable offices (used for counseling and by Family Services Association) will be removed from the site. New facilities to be constructed include a library (5470 sf), a child development center (13,026 sf), an administration building for Cabazon Water District (3,300 sf), basketball courts, play areas, picnic shade shelters, a skate park, restroom	MND	12/15/2009

2009112048	<p>building (772 sf), additional multi-purpose turf area, a maintenance building (1,665 sf), and associated parking.</p> <p>Village Green Skilled Nursing Facility Gilroy, City of Gilroy--Santa Clara NOTE: Review Per Lead</p>	MND	12/17/2009
2009112049	<p>The proposed project consists of a zone change to remove the restriction on the parcel that it remains an estate lot, and the subsequent development of a skilled nursing facility, ambulatory surgery center, and community garden. The two-story skilled nursing facility would include 120 licensed beds and would total 54,925 sf. The one-story ambulatory surgery center would total 5,300 sf.</p> <p>City of Foster City Housing Element Foster City Foster City--San Mateo NOTE: Review Per Lead</p>	MND	12/17/2009
2009112050	<p>The State of California requires that all jurisdictions periodically update the Housing Element of their General Plans. Within these Housing Elements, the State mandates that local governments plan for their share of the region's housing need for all income categories. In the case of the San Francisco Bay Area, the Association of Bay Area Governments (ABAG) and the State Housing and Community Development Department (HCD), determine the number of plan for 486 units in the 2007-2014 period.</p> <p>Bruce Residence Sausalito, City of Sausalito--Marin</p> <p>The project site consists of a 14,002 sf irregularly shaped parcel. The parcel is occupied by a 3,708 sf duplex at the southeastern corner of the lot. The applicant is requesting City approval of a Tentative Parcel Map and Design Review Permit to subdivide the existing parcel into two parcels and construct a new single-family residence on the newly created parcel. The new parcels would consist of ~8,974 and 5,048 sf in area. The proposed 3 story Bruce residence, located at the southern portion of the lower parcel, would be ~2,504 sf in size. The applicant has requested an Encroachment Agreement for a driveway encroachment into the Sausalito Blvd right-of-way and existing encroachments into the Marion Avenue right-of-way. In addition, the proposed project includes installation of steps which would complete a partially-installed walkway in the South Street right-of-way between Edwards Avenue and Marion Avenue. The applicant has also requested a Tree-Removal permit to remove three Heritage/Protected trees on the subject site.</p>	MND	12/15/2009
2009112053	<p>CVSD MPP2 Phase 1 Sewer Improvements - District Project No. 69 Castro Valley Sanitary District --Alameda</p> <p>The MPP2 Phase 1 Sewer Improvements include the construction of ~4,422 ft of new sewers and 21 new manholes, and abandonment of 974 ft of existing sewer. These improvements are primarily new 12 inch diameter trunk sewers to replace or parallel existing sewers that do not have sufficient capacity to convey existing peak wet weather flows.</p>	MND	12/15/2009

2009112056	Vistas at Kawana Springs Santa Rosa, City of Santa Rosa--Sonoma The proposed project would rezone 10.0 acres to the R-1-6 Single Family Residential zoning district and develop 95 residential units, including 55 single family attached homes, 30 multifamily residential apartment units, and 10 single family detached homes resulting in residential density of 9.5 units per acre. The project has been designed to generally preserve natural hillside conditions and significant Oak trees in the northwestern area of the site by focusing most of the units in the western area of the site and providing low density, custom lots in the northeastern area of the site where slopes exceed 10%.	MND	12/15/2009
2000061027	City of Rancho Cucamonga General Plan Update Rancho Cucamonga, City of Rancho Cucamonga--San Bernardino The project involves an update to the current (2001) General Plan, including a redistribution of land uses to accommodate the future, anticipated City growth. Specifically, the project evaluates an additional 7,450 dwelling units, 23,900 increase in population, 19.7 million additional square feet of non-residential development and an increase of 25,690 jobs.	NOP	12/15/2009
2007051074	Cuyamaca Rancho State Park Equestrian Facilities Project Parks and Recreation, Department of --San Diego The project proposes to develop or enhance equestrian facilities in several locations in the Park. An equestrian facility near the southern portion of the Park will contain a campground and day-use staging area with trailhead parking. One loop of the family campground at Green Valley will be converted to equestrian camping, and a new day-use staging area with amenities will be constructed near the central portion of the Park at Paso Pichacho. Trail connections will be established between the new facilities and other, established trails.	NOP	12/15/2009
2009111054	Park Station at the Crossroads of La Mesa Specific Plan EIR La Mesa, City of La Mesa--San Diego South Baltimore LLC is proposing the amendment of the existing Downtown Village Specific Plan, to allow for the development of a mixed-use urban village on a 6.5 acre infill site located at the southeast corner of El Cajon Boulevard and Baltimore Drive in downtown La Mesa. The proposed project site is situated directly south of El Cajon Boulevard, east of Baltimore Drive and University Avenue, west of Spring Street and adjacent trolley tracks, and southwest of Interstate 8. The site currently consists of auto retail including World Auto Sales and Elite Auto Body; tile retail including Del Mar Marble and Tile, and other retail sales uses. The proposed project would allow for mixed use development including: residential units, commercial or neighborhood-serving retail, office space, a hotel, parking facilities, and a passive linear park for community recreation. These project components will be developed within 4 different planning areas as outline in the Downtown Village Specific Plan Addendum. The four planning areas are: Baltimore Drive, Spring Street, University Avenue, and Linear Park.	NOP	12/15/2009

2009111055	Historic Downtown Upland Specific Plan Upland, City of Upland--San Bernardino The Specific Plan provides permitted uses, development standards, and design guidelines to guide development within nine districts to achieve the overall vision for the Specific Plan area. The Specific Plan proposes development and redevelopment of vacant and underutilized sites, adaptive reuse of existing structures, and the creation of open space uses within Downtown Upland. The Specific Plan would allow for commercial/retail, office, commercial/flex, public/institutional, industrial and public open space, and residential uses.	NOP	12/15/2009
2009112051	Niles Canyon Safety Improvement Project Caltrans #4 --Alameda This safety project proposes roadway widening to facilitate shoulder improvements and curve correction in a rural portion of Alameda County of State Route (SR) 84, a winding two-lane, undivided, conventional State highway consisting of multiple horizontal and vertical curves, between Alameda Creek Bridge (approximately PM 13.6) and the SR 84/I-680 Separation (PM 18.0) in Sunol.	NOP	12/15/2009
2009112052	Sacred Heart Schools Master Plan Project Atherton, City of Atherton--San Mateo Master Plan for school improvements, including construction of replacement elementary school, middle school, library and administrative buildings, parking facilities, roadway/access improvements, sports field relocations, and associated landscaping.	NOP	12/15/2009
2009112054	Moraga Canyon Sports Fields Piedmont, City of Piedmont--Alameda The project entails improvements at the Coaches Field and Blair Park sites, located on opposite sides of Moraga Avenue at Red Rock Road. The City proposes to install lighting and artificial turf at the existing 1.9-acre Coaches Field site. The approximately 5.6-acre Blair Park site, located across the street from Coaches Field on the south side of Moraga Avenue, would be developed with two new youth sports fields, one approximately 150 feet by 300 feet and the other 75 feet by 150 feet. Blair park improvements would include ancillary structures (e.g., spectator bleachers and concession and restroom facilities), landscpaing, 4 driveways for vehicle ingress and egress, and 40 parking spaces to accommodate the new facilities. A pedestrian bridge spanning Moraga Avenue would be constructed to connect the two sites.	NOP	12/15/2009
2009111051	San Fernando Road Widening Between Elm St. and Eagle Rock Blvd. Los Angeles, City of Los Angeles, City of--Los Angeles The project would widen San Fernando Rd. between Elm St. and Eagle Rock Blvd. to install one additional northbound lane. The intersection of San Fernando Rd., Eagle Blvd., Verdugo Rd., and Cypress Ave. would be reconfigured. Sidewalks throughout the project would be expanded to a width of 10 ft. Improvements are also proposed for San Fernando Road at the 2 Freeway. A new southbound San Fernando Rd. to NB freeway on-ramp would be constructed by cutting into the adjacent slope and construction a retaining wall ~100 ft in length and up to 10 ft in height. This new on-ramp would join the existing NB on-ramp. The off-ramp from	Neg	12/15/2009

	accommodate housing needs for the balance of goals not achieved through existing housing. Through these approaches the City plans to meet the City's Regional Housing Needs Assessment target of 427 housing units. These programs are the focus of the EIR analysis because they have the potential to result in impacts to the environment.		
2007082014	Sunol Valley Water Treatment Plant (SVWTP) Expansion and Treated Water Reservoir San Francisco, City and County of San Francisco--San Francisco NOTE: Review Per Lead	FIN	
	The project involves the expansion of the treatment plant, which is located in the Sunol Valley in an unincorporated portion of Alameda County on the west side of Alameda Creek ~3.4 miles north of Calaveras Reservoir. The proposed project involves the construction and operation of a new 17.5 MG treated water reservoir, 3.5 MG chlorine contact tank, flocculation and sedimentation basin, construction of new effluent pipelines within the SVWTP, and a new 78 inch pipeline connecting the new treated water reservoir to the existing 78 inch plant discharge pipeline, which transports water from the plant to the existing Alameda Siphons. The proposed project would improve treatment reliability by increasing the plant's sustainable capacity to 160 million gallons per day and bring the SVWTP in compliance with CDPH.		
2009111057	Salt Creek Plaza - Change of Zone No. 6994, Tentative Parcel Map No. 34486, Plot Plan No. 2009-053, Conditional Use Permit No. 3450 and EA No. 39644 Menifee, City of Menifee--Riverside Change of Zone No. 6994 proposes to alter the site's existing zoning classification from One-Family Dwellings (R-1) to General Commercial (C-1/C-P) for consistency with the existing General Plan land use designation Community Development: Commercial Retail (CD:CR)(0.20-0.35 floor area ratio). Parcel Map No. 334486 is a proposal for a Schedule "E" subdivision of 5.08 gross acres into 2 parcels. Plot Plan No. 2009-053 proposes the construction of a shopping center and a mini-storage facility on a 5 acre parcel. The shopping center is comprised of 2 single story buildings, 12,157 sf and 15,020 sf, with a total of 27,177 sf of retail floor area and 154 parking spaces. The proposed mini-storage facility provides a total of 288 units, 29 of which are large enough to store recreational vehicles and includes 3 single story buildings, 2,232 sf (Storage B), 2,976 sf (Storage A and Office) and 21,118 sf (Storage C), and one 2 story building with a height of 22 ft consisting of 21,329 sf on the first floor and 21,606 sf on the second floor (Storage D). The mini-storage facility includes an 1,440 sf office and caretakers residence and provides 5 parking spaces. Conditional Use Permit No. 3450 proposes to allow for the mini storage/warehouse use. 	<p>The applicants request to develop a wireless communication facility. The facility would include a 150 ft lattice tower (4 sided), 720 sf equipment shelter, and backup diesel generator to be enclosed by a 100 ft x 100 ft chain link fence. The proposed facility will be constructed to accommodate multiple carriers for future co-location.</p>		
2008072007	City of Gridley 2030 General Plan Gridley, City of Gridley--Butte	Oth	
	<p>Full build out of the General Plan could result in: the construction of up to 3,850 to 4,700 housing units; Additional population growth of up to 9,000 to 12,000; addition of up to 1 to 1.3 million sf of commercial building space; addition of up to 3.2 to 4 million sf of building space for industrial, light industrial, and agricultural processing uses; and, parks; schools; open for conservation, buffering and drainage, and recreation; and other land uses.</p>		
2007022049	Visitacion Valley Redevelopment Program San Francisco Redevelopment Agency San Francisco--San Francisco	NOD	
	<p>The Department of Toxic Substance Control has approved a Remedial Action Plan for the Schlage OU, which consists of remediation of contaminated soils with volatile organic compounds (VOCs) and metals (lead, arsenic and cadmium); and groundwater with VOCs. The soil remediation consists of treating of approximately 15,000 cubic yards of soil contaminated with VOCs by aeration and capping of approximately 22,000 cubic yards of soil contaminated with metals. The groundwater will be treated through an Enhanced Reductive Dechlorination (ERD) process using sodium lactate.</p>		
2008052118	Old Priest Grade Guardrail and Widening Project (TC08-012) Tuolumne County --Tuolumne	NOD	
	<p>Installation of approximately 2,500 lineal feet of metal beam guard rail (MBGR) on Old Priest Grade Road. The MBGR will be installed in two locations. Approximately 1,000 feet will be installed between Stations 45+00 and 55+00 and approximately 1,530 feet will be installed between Stations 70+00 and 85+00. MBGR will be installed on the outside of the roadway in accordance with Caltrans standard plans detail A77A1 with a minimum hinge point of two feet and type SKT end treatments per A77L2.</p>		
	<p>The project will include removing some areas of existing pavement and providing new base and asphalt in those areas to accommodate minor widening of the road. The travel way will remain the same width as it currently is (20 feet). Small cuts will be made into the existing hillside and the excess material will be used to raise existing parking areas to road grade for better access.</p>		
	<p>All construction is anticipated to be accomplished from the existing road with equipment such as an excavator and bulldozer. The road will be closed during construction.</p>

	poles (including all existing polymer horizontal insulators) to replace the existing wood poles supporting a single 230 kV circuit. The execution plan is to complete the pole replacement and upgrades in three phases. The "S" Line will be upgraded at distinct locations with an assigned order of importance on the basis of system outages, structural reliability, risk, construction feasibility and costs.		
2009111064	B Street Shore Power Project San Diego, Port of San Diego--San Diego The Proposed Project allows for shore powering cruise ships while at berth at the B Street or Broadway piers, rather than using on-board combustion engines. Phase 1 of the Proposed Project would provide shore power to one ship at a time, regardless of which berth it is at. Phase 2 operations, scheduled to begin in 2017, will enable shore power to be provided at two berths simultaneously. The Proposed Project requires the installation of transformers and electrical equipment on B Street Pier within structures adding up to ~70 ft of length, 40 ft of width, and up to 12 ft tall. Cabling and cable management equipment will be installed on Broadway Pier and run along North Harbor Drive between the piers and from an SDG&E substation located west of Kettner Boulevard and southeast of E Street.	MND	12/17/2009
2009111066	Coastal Planned Development Permit LU06-0124 Ventura County Malibu--Ventura New Construction of a 3,606 sf one-story single family dwelling with an attached 1,064 sf garage, a 25 ft wind turbine, and four 6 ft tall solar panels.	MND	12/17/2009
2009112060	UC Davis Sacramento Campus Long Range Development Plan University of California, Regents of the Sacramento--Sacramento The University of California, Davis (UC Davis) Health System will propose to The Regents of the University of California the adoption of the 2010 Long Range Development Plan (2010 LRDP) that would guide future land use and physical development of the UC Davis Sacramento Campus through a projected horizon year of 2025. The UC Davis Sacramento Campus is located east of Stockton Boulevard, south of V Street, and north of Broadway Street in Sacramento. The proposed 2010 LRDP would accommodate an additional 3.13 million gross square feet (gsf) of building space on the Sacramento Campus for a total of 6.57 million gsf of building space at full development under the 2010 LRDP. When fully implemented, the 2010 LRDP is projected to add approximately 7,200 additional people to the campus population.	NOP	12/17/2009
2009111065	West Side Sewer Trunk Line Victorville, City of Victorville--San Bernardino NOTE: Review Per Lead The project consists of installing a 27 inch diameter sewer trunk line, ~19,800 ft or 3.75 miles, and connecting to the IWWTP to the north of SCLA. The sewer trunk line will connect one of the main sewer arteries of the City to the new SCLA-West Side Sewer Trunk Line. The sewer trunk alignment will stay within the existing easements and rights-of-way.	Neg	12/21/2009

2009112059	Minor Subdivision No. MS-06-09 (Dhillon) Solano County Dixon--Solano 3 lot subdivision of 158 acre agricultural parcel.	Neg	12/17/2009
2009112061	Latrobe Road Property Annexation to El Dorado Irrigation District El Dorado Union High School District --El Dorado EDUHSD proposed the annexation of a 215 acre area into the El Dorado Irrigation District (EID). A proposed high school project may be located on ~65 acres, and was analyzed in a 2002 EIR (2001072007). The current analysis considers the potential environmental impacts that could result from the full development of the Site; the zoning and General Plan land use designations indicate that the 150 acre balance of the Site not utilized for school purposes could be developed with up to 15 dwelling units.	Neg	12/17/2009
2007062091	PG&E Line 406/407 Project California State Lands Commission Woodland, Sacramento, Roseville--Yolo, Sutter, Sacramento, Placer PG&E is proposing to construct a 30-inch diameter natural gas pipeline (Lines 406 and 407) and a new distribution feeder main from Esparto in Yolo county east, to a location near Roseville, in Placer county. The project would also include the construction of six above-ground facilities.	NOD	
2007111108	Santa Fe Aggregates, Inc. Snelling Tailings Project Use Permit and Reclamation Plan Merced County --Merced The Project consist of a surface tailings removal mine that would excavate onsite aggregate materials and transport them to various locations. The Project would include six mining phases. Processing of materials would occur onsite as part of the Project. The Applicant expects that total production would be approximately 8 million tons of material over a maximum of fifty years. This rate of extraction would result in a maximum annual production of 435,000 cubic yards annually.	NOD	
2007112031	Creekside Mobile Home Park Deck Repair Clearlake, City of Clearlake--Lake SAA # 1600-2009-0189-R2 Restore a concrete boat ramp and wooden decks to their original condition. Project also involves the removal of failing concrete walkway decks, the addition of 1,135 cubic yards of rip rap to 407 feet of eroding stream bank. A total of 0.24 acres of streambed and bank will be impacted as a result of this project. Willow stakes will be added to the ends of rip rap areas, and both cottonwood and alder trees will be added outside of the rip rap area.	NOD	
2008052026	2008 Fisheries Restoration Grant Program Project Fish & Game #2 --Mendocino The Project proposes to enhance a section of Shackleford Creek, in Siskiyou County. The instream enhancement shall include a suite of different bioengineered structure types; stabilization by mechanical reshaping, rock armoring and vegetation planting.	NOD

2009091105	Alkali Sink Ecological Reserve Prescribed Burn Fish & Game #4 Mendota--Fresno NOTE: Review Per Lead The DFG, in cooperation with CalFire proposes to employ a prescribed partial burn on the ~930 acre Alkali Sink Ecological Reserve. The burn is being conducted in order to reduce fuel loads and to enhance habitat quality for State and Federally listed Endangered and Threatened species and Species of Special Concern. The habitat quality for these species is currently degraded due to excessive thatch and high densities of non-native grasses.	NOD	
2009092004	Nicasio School Water System Improvement Project SDWSRF # 2100582-01 Nicasio School District --Marin The proposed project includes either drilling a new deep water well or upgrading the existing water treatment facilities to surface water treatment standards and continuing to use the existing well. The new well will be in the school property, located outside of the Nicasio Creek corridor, and located away from the existing waste water disposal system. If the water treatment facilities are upgraded, it will occur within the footprint of the existing system.	NOD	
2009101037	Edwards Air Force Base Solid Waste Facility Permit (SWFP No. 15-AA-0150) Amendment Kern County Mojave--Kern The proeject is to expand the landfill vertically an additional 10 feet from 2448 feet above mean sea level to 2458 feet above mean sea level, increase the peak daily tonnage from 180 tons per day (120 tons per day for disposal and 60 tons per day for composting) to a peak daily tonnage of 510 tons per day (350 tons per day of refuse including construction and demolition debris and 160 tons per day of green waste for composting) and increase the peak daily number of vehicles from 50 vehicles per day to 100 vehicles per day.	NOD	
2009118117	Green Valley Lake Maintenance Dredging Project Regional Water Quality Control Board, Region 6 (Lahontan), South Lake Tahoe --San Bernardino The purpose of this project is to dredge 1,500 cubic yards of sediment from the shallow inlets of Green Valley Lake. By removing the accumulated sediment, water depths will be increased thereby reducing navigation riskd and enhancing recreational use of the lake. The lake will be lowered 15 feet to expose the areas to be dredged and allow access for the equipment. The dredged sediments will be contained and dewatered on site.	NOE	
2009118118	Grizzly Flats Community Services District Water System Improvement Project Grizzly Flats Community Service District -- The project will address various water system deficiencies in the water supply, raw water storage, water treatment, water distribution, installation of a SCADA system, and installation of new stream gauges at North Canyon and Big Canyon diversion points. All of these improvements will be constructed either on or in District owned properties or facilities, or in established roadway easements in previously disturbed soils.	NOE

2008061060	<p>The Lorenzo Project Los Angeles, City of Los Angeles, City of--Los Angeles The Proposed Project would redevelop the site with a total of 1,400 multi-family residential units (230 one-bedroom units, 888 two-bedroom units, and 282 three-bedroom units totaling ~1,663,061 sf of residential floor area) and ancillary common area and recreation amenities totaling ~65,480 sf. The Proposed Project would also provide ~34,000 sf of commercial retail uses, including ~6,000 sf of restaurant use, at street level fronting the future Exposition Line light rail station along South Flower Street at West 23rd Street. The total square footage of the project is 1,762,541 sf.</p>	EIR	01/04/2010
2008042112	<p>Amendment to the Sonoma Countywide Integrated Waste Management Plan Sonoma County --Sonoma The Sonoma County Waste Management Agency (SCWMA) is proposing an Amendment to the Sonoma Countywide Integrated Waste Management Plan (ColWMP). The proposed project includes amendments to the ColWMP Household Hazards Waste Element (HHWE) and the Siting Element. Revisions to the Siting Element would reflect that all landfilling of solid waste at the County's Central Disposal Site has been suspended and that no waste is currently disposed of or proposed to be disposed of within Sonoma County. The revisions to the siting element also include the option of divestiture of the County Disposal System to a private owner. Strategies for disposal include truck and/or train hauling the refuse to out-of-County disposal sites. The HHWE would be modified to allow for additional household hazardous waste collection facilities to be established in Sonoma County.</p>	FIN	
2008101136	<p>PP 09-02: Plot Plan and Design Plan for Expansion of Fresh and Easy Food Processing and Warehouse Facility March Joint Powers Authority Riverside--Riverside NOTE: Review Per Lead; Reference SCH# 2002071089.</p> <p>PP 09-02: Request for Plot plan and Design Plan approval for the expansion of a food processing and warehouse distribution facility by the project applicant, Fresh & Ready Neighborhood Market Inc (F&E). F&E currently has an existing 766,304 sf facility, on ~88.4 acres, that receives, sorts, prepares, re-packages, stores, and distributes food and household products to up to ~235 retail stores located in Southern CA, AZ, and NV. The existing facility was approved by the March JPA in 2006.</p> <p>F&E is currently proposing additional development on the existing 88.4 acres site to serve an additional 315 stores located in Southern CA, AZ, and NV. The expansion may also supply products to warehouse and manufacturing facilities anticipated to be located in Northern CA (which would directly supply Northern CA stores). This expansion would add ~1,141,600 sf warehouse, food processing, office and related space, as well as additional parking to the existing facility. The expansion of the existing facility would take place entirely within the existing 88.4 acre project site. Under the proposed project, a total of ~550 retail stores would be supplied from the F&E facility.</p>	FIN

1989071210	Sunshine Gas Producers Renewable Energy Project Los Angeles County Los Angeles, City of--Los Angeles NOTE: NOP of a Subsequent EIR/ Reference SCH# 1992041053.	NOP	12/21/2009
	Sunshine Gas Producers (SGP) is proposing to develop and operate a gas turbine electricity generation facility at the existing Sunshine Canyon Landfill. The facility would use otherwise flared landfill gas (LFG) to generate electricity. The electrical generation facility will use LFG extracted from the landfill as fuel in gas turbines to drive electricity generators. The proposed facility would consist of LFG treatment equipment for compression, gas dewatering, filtration, and siloxane removal; five gas turbines engines connected to individual electricity generators; and ancillary equipment.		
2009111067	Nipomo Community Park Master Plan Program EIR San Luis Obispo County Nipomo--San Luis Obispo The NCPMP proposes approximately 15.96 acres of new recreational uses, 3.96 acres of new open play area (turf), and 7.57 acres of new infrastructure. Approximately 27.5 acres of existing undeveloped area and dirt trails would be converted to accommodate these new uses. The proposed project includes the expansion of the following existing uses: 4,000-square foot expansion of the library near Tefft Street; an additional 8,276 square feet of playground, including a play structure and open play area near Osage Street and Camino Caballo; 19,000-square foot expansion of the off-leash dog park; an additional 14,400 square feet of tennis courts; and additional three acres of paved and unpaved trails/walkways; restoration of spur trails; an additional four acres of open play area (turf). In addition, the NCPMP includes an additional 10 acres of multi-use sports fields.	NOP	12/21/2009
2009052064	General Plan Amendment Application No. 2009-01 and Rezone Application No. 2009-02 - Derrel's Mini Storage Stanislaus County Modesto--Stanislaus Request to amend the General Plan designation from Agriculture to Planned Development and rezone approximately 7.37 acres from A-2-40 to Planned Development. The adjacent 15+ acre property previously underwent a General Plan Amendment and rezone to allow the operation of Derrel's Mini Storage in November of 1999 (GPA 99-05, REZ 99-11 - Derrel A. Ridenour). This request will allow the property to have 130+ roof only structures to be rented for RV storage. The proposed RV storage operation will expand the existing Derrel's Mini Storage operation. The storage area will include electric hook-ups only. No septic or well is anticipated for the site. Parking and restrooms for customers are available on the adjacent mini-storage site. The site has access from Tunson Road through the existing mini-storage facility. The property is located just outside of the City of Modesto Sphere of Influence, which extends to the south side of Kiernan.	Neg	12/21/2009

	Road (PM 66.5) within Death Valley National Park in Inyo County, CA. The project would reduce the potential negative impact of an unstable slope by realigning the roadway to the west of the existing centerline and using rockfall containment methods.		
2009111070	East Shafter Waterline Extension Shafter, City of Shafter--Kern The proposed project will extend Shafter's existing water service to the east side of SR 99 in order to provide domestic water service to existing commercial developments located within the Shafter city limits on the east side of the highway. The proposed project will include the installation of ~3,000 linear ft of 16 inch diameter water line and two, 2-inch diameter conduits for future installation of optical fiber cables from the west side of Zerker Road, east through a 28 inch diameter steel casing pipe placed within a boring under the Union Pacific Railroad tracks and SR 99, north along an existing dirt farm road and vacant commercial property to the south side of Ledro Highway ~600 ft. Public utility easement(s) (~30 ft wide) will be obtained for the project alignment.	Neg	12/21/2009
2009111073	Huntington Beach Distributed Antenna System Public Utilities Commission Huntington Beach--Orange NOTE: Review Per Lead The proposed project is to be constructed entirely within the public right-of-way within the City of Huntington Beach. A portion of the proposed project was approved and constructed under the Notice of Proceed (NTP) process prior to the CPUC being requested to analyze the entire project within the City under CEQA. Once complete, the new system would include a total of 8,96 ft of underground fiber-optic cable, 112,975 ft of aboveground fiber-optic cable, and 15 node antennae.	Neg	12/22/2009
2009112062	Mendocino Coast District Hospital Diagnostic Imaging Building Project Fort Bragg, City of Fort Bragg--Mendocino NOTE: Review Per Lead The project includes the construction of an ~8,000 sf, single story, diagnostic imaging facility and new connecting hallway on the east side of the Hospital property. Additionally, existing parking areas will be reconfigured, additional parking will be constructed, the east alley (between Cypress and Kemppe Way) will be repaved and a drainage swale will be constructed along the south eastern portion of the alley.	Neg	01/13/2009
2009112063	American Canyon Housing Element Update American Canyon, City of American Canyon--Napa The State Legislature has mandated that a Housing Element be included in every General Plan since 1969. The Housing Element is one of 7 required elements in a General Plan. The City of American Canyon proposes to adopt a Housing Element as mandated by Sections 65580-65589 of the Government Code. State Housing Element law that cities and counties identify and analyze existing and projected housing needs within their jurisdiction and prepare goals, policies, programs, and quantified objectives to further the development, improvement, and	Neg	12/21/2009

	preservation of housing. Housing and its productions are critical to the economic and social well-being and vitality of the community and its residents.		
2006051094	Marina Del Rey 18-inch Pipeline Phases II & III Los Angeles County Los Angeles, City of, Santa Monica--Los Angeles The project includes the construction of approximately 20,000 feet of water main which will be installed in two phases. The Department of Public Health SDWSRF program will be funding only II of the project.	NOD	
2008071021	March Lifecare Campus Specific Plan March Joint Powers Authority Riverside, Moreno Valley--Riverside (1) approval of a proposed General Plan amendment to the March JPA General Plan - Land Use Element designating the Project site as "Medical Campus" (MC) land use allowing medical and other supporting uses: (2) approval of an amendment to the March JPA zoning map, redesignating the Project site as "Specific Plan" with development conforming to the MLCSP; (3) adoption of the MLCSP; and (4) other related actions). The MLCSP is a comprehensive plan on an approximate 236-acre portion of the former base, which provides for the construction of a medical campus with ~ 3.555 million square feet of building area and 2.5 million square feet of parking area. Parcels within the MLCSP will be sold to individual users. The MLCSP serves as a development policy statement, zoning, and as a tool for implementing the General Plan as it relates to the campus.	NOD	
2008072024	Triangle Specific Plan Amendment West Sacramento, City of West Sacramento--Yolo The proposed project would amend the Triangle Specific Plan, which was adopted in 1993, to include development since that time and to reflect more recent objectives. The adopted plan was intended to guide development within the plan area in a manner consistent with a set of goals, policies, development regulations, and design guidelines. The amended Plan would provide a land use framework intended to be market responsive in terms of the exact type and density of future development. While the basic land use plan and street layout would remain the same for each neighborhood, one neighborhood would be eliminated and other parcels and planned commercial and residential development would be moved from some of the neighborhoods to the Core neighborhood.	NOD	
2009012006	San Jose State University Student Center Facilities Project California State University Trustees San Jose--Santa Clara This project will construct a new facility (53,854 GSF) that will house the student health center and counseling services, creating a single destination for all student health related services. The new facility will be located at the site of the existing 1959 Building BB, which will be demolished as part of this project. This is a prime location as it sits amidst the student housing and the recreation complex in the southeast quadrant of the campus. Associated Students, currently housed in Building BB, will move into the newly renovated and expanded Student Union upon project completion. The existing student health center currently occupies 14,627 GSF on the first and second floors of the Health Building, which also houses the nursing program. The student health center employs a full-time staff of	NOD

2009021039	<p>45 practitioners and administrators plus six part-time "per diem" staff and 25 student assistants. Counseling services currently occupy 5,500 GSF on the second floor of the Administration Building. The Student Health Center provide mental health and counseling support services with a full-time staff of 20 with assistance from postdoctoral and graduate student interns. The building is designed to accommodate photovoltaic panels in the future and to increase water efficiency by using reclaimed water. The building is being designed to achieve LEED Gold certification.</p> <p>Buchanan High School Performing Arts Center Clovis Unified School District Clovis--Fresno</p> <p>The project consists of the construction and operation of a Performing Arts Center on the campus of Buchanan High School. The project will be constructed in two phases.</p> <p>Phase 1 consists of the construction of an open ampitheater, which will seat approximately 300 persons, and a performance stage. Phase 1 will also include enclosed dressing rooms, restrooms, make-up room, green room, a receiving area and equipment storage rooms (6,824 square feet total).</p> <p>Phase 2 consists of the complete enclosure of the open ampitheater and performance stage area (20,900 square feet). The total building area for the Performing Arts Center when completely finished will be 27,724 square feet.</p> <p>The District anticipates Phase 1 to be constructed and operational by January 2011 and Phase 2 by August 2013. The funding of Phase 2 will be subject to the approval of a future bond measure; therefore, the actual timing for construction will be subject to funding availability.</p>	NOD	
2009041043	<p>Los Angeles International Airport (LAX) Central Utility Plant (CUP) Replacement Project Los Angeles World Airports Los Angeles, City of--Los Angeles</p> <p>The proposed project provides for the replacement of the existing Central Utility Plant (CUP) and cogeneration facilities at LAX. The existing CUP provides heating and cooling for the terminals within the Central Terminal Area and generates electricity that is sold back to the Los Angeles Department of Water and Power (LADWP). The CUP-RP consists of the following components: replacement of the existing CUP and maintenance shop building, including replacement of the boilers and electrical co-generation equipment; replacement of existing cooling tower system; construction of an underground thermal energy storage tank at the site of the existing CUP; electrical upgrades to include a new electrical substation and a retrofit of the existing LADWP substation; installation of a new fire management system and a new fire life safety system; and replacement of the direct buried chilled water and hot water service lines in the CTA. The project includes the demolition of the existing CUP and associated ancillary facilities. In addition, the project includes the potential installation of an off-site recycled/reclaimed treatment system and water pipeline, and the possible use of blogs from digesters at the Hyperion Treatment Plan to augment the existing natural gas system at the CUP.</p>	NOD

2009071022	West Kern Water District Groundwater Banking Project West Kern Water Agency --Kern The West Kern Water District is proposing to implement a Groundwater Banking Project to aid in the management of West Kern's existing water supplies and develop new reliable water supplies to meet increasing water demands within the district. The Project involves the acquisition of approximately 500 acres of land on the Kern River Fan area and the construction of recharge basins, monitoring wells and water production wells. Pending completion of the analysis currently underway, the project may have a recover capacity of up to 24,000 acre-feet oer year from the underlying groundwater basin. Thr amount recovered would be limited to the amount of water previously banked for WKWD on the subject property, the south end of the Buena Vista Storage District (BVWSD), the Tule Elk State Natural Reserve, the Outlet Canal, and the Kern Water Bank (KWB), less up to 10% to account for losses (6% for rechargeand 4% for migration). Further, a conveyance pipeline would be constructed linking the new facilities with WKWD's existing Pump Station "A." The Project would occur in an unincorporated area of western Kern County on land currently used for agricultural purposes.	EIR	01/06/2010
2009071068	Stockdale Ranch (GPA/ZC 09-0263, Annexation No. 548) Bakersfield, City of Bakersfield--Kern NOTE: Review Per Lead The proposed Project consists of the annexation of the proposed Project site into the City of Bakersfield, amendments to the Metropolitan Bakersfield General Plan (MBGP) Land Use Element and Circulation Element and Circulation Element, and concurrent zone changes. The proposed Project requests plan amendments (GPA) that would allow for ~ 3,583 residential dwelling units on ~370.85 acres and ~941,700 total sf of general commercial/business park uses. A665,200 sf business park is proposed for the OC (Office Commercial) land use designation on ~43.63 acres. Tenant spaces would be flexible and would lend itself to a variety of uses. The remaining 25.39 acres would consist of 276,000 sf of general commercial uses. Additionally, ~20 acres of land will be reserved for OS-P (Open Space-Parks). The proposed Project also includes proposed collector and local roads and multi-use trail designated to the parallel the south side of Claudia Autumn Drive. An area located in the southeastern portion of the proposed Project site (with an existing water pump station facility) is owned by the Kern County Water Agency, and is part of the Agency's Cross Valley Canal property. This area is not proposed for re-designation or re-zoning.	EIR	01/07/2010
2003102061	Ascension Heights Subdivision Project San Mateo County San Mateo--San Mateo NOTE: Notice of Availability of FEIR The 13.25 acre project would be subdivided into 25 legal parcels for development of 25 single family lots. The lots would be located on both sides of a new 32 ft wide	FIN

2009111078	Woodbridge High School Expansion and Pool Irvine Unified School District Tustin--Orange NOTE: Review Per Lead The project consists of construction and operation 18,056 sf Music/Fitness Center, an aquatic center with 50 meter swimming pool and 5,530 sf equipment building, 7 modular classrooms, and 2 portable classroom buildings, reconfigured parking lot, and other school facility improvements.	MND	12/28/2009
2009111079	GE Solar, LLC by URS Corporation Kern County Tehachapi--Kern NOTE: Review Per Lead NOTE: Review Per Lead The applicant is requesting a Conditional Use Permit for a 40 Megawatt Solar Voltaic Project on 350 acres in the Tehachapi are of Kern County. The applicant is also proposing a transmission line to the existing Tehachapi Substation which connects to the Southern California Edison transmission system. The solar panels are contained within the area of the project that has zoning classification of A WE (Exclusive Agriculture-Wind Energy Combining). The transmission lines for the project will be placed above the area of the project zoned A WE (Exclusive Agriculture/Wind Energy Combining) and M-2 PD (Medium Industrial-Precise Development Combing). Currently the site is vacant except for the area below the proposed transmission lines. This are contains an existing manufacturing facility that is owned by the applicant. Access is provided by Chantico Road. Water requirements will be provided by a small vehicle/truck from GE's water service supply point at 13681 Chiantico Road or other existing water service supply point in the project vicinity. No sewage will be generated by the project.	MND	12/23/2009

2009082010	<p>depending on the slope of the proposed parcels. The current zone for the property is Limited Agriculture, which requires a minimum lot size of the proposed for septic. The project will be served by the following agencies/district: Padre Dam Municipal Water District, Alpine Fire Protection District, Grossmont Union High School District, and Alpine Union School District.</p> <p>Bar-Or Land Division Marin County --Marin</p> <p>Pursuant to Marin County Coastal Zoning COde Sections 22.32.110I and 22.56130I a Land Divison and Coastal Permit was approved to divide APN 119-122-24, (historic lots 25 and 26 of Map No. 1 Point Reyes Lands Co., R.M.Bk 4. P.30). The project was approved to divide the APN into two lots that will be 3.53 acres (Parcel 1) and 6.77 acres (Parcel 2) in size. Parcel 1 will retain the existing residence and Parcel 2 will retain all existing equestrian facilities, and is approved for one new dwelling unit within the location of northern barn. A Conservation Area is approved that will encompass all of Tomasini Creek and the existing pond, and will protect the lands within 100 ft from the top of bank and the edge of pond, and 50 ft outward from the edge of riparian vegetation. The Conservation Area will total 5.3 acres in size and will preserve ~2.0 acres in Parcel 1, and ~3.3 acres in Parcel 2. The Conservation Area will be protected from future development. All existing facilities and improvements will remain. Access to both lots will be from Knob Hill Road. Parcel 2 will be granted a 23 ft wide access and utility easement through Parcel 1 that will be ~185 ft in length. Sanitary service will be provided by individual on-site sewage disposal. A section on the eastern portion of Parcel 1 will be reserved for a new mound septic system, which will be ~60 ft long and 50 ft wide, and will be used exclusively by Parcel 1. Parcel 2 will continue to use the existing septic system and leachfield in the southwest corner of the lot that is ~85 ft long and 35 ft wide. Water is currently provided to the site by North Marin Water District and construction of new water service facilities are not required. No vegetation of tree removal is approved.</p>	NOD	
2009092089	<p>Television Efficiency Standards Energy Commission --</p> <p>The project is a proposal for statewide regulations to establish or amend the levels of efficiency required for televisions which are not covered by federal appliance efficiency standars. The required new efficiency standards apply to newly manufactured products and are attainable through normal manufacturing processes. No material changes in how televisions are manufactured or constructed are expected to result from these new regualtions. However it is expected that there will be reduction of up to 30% in the use of mercury-containing flourescent lamps used in the more efficient Liquid Crystal Display (LCD) televisions.</p>	NOD	
2009101003	<p>Redding Minor Subdivision; TPM 21112 San Diego County Escondido--San Diego</p> <p>The project proposes a Tentative Parcel Map to subdivide a 10.11 acre property (APN 239-360-08) into 3 residential parcels (between 2 and 4 acres in size) located at the terminus of Puebla Street at Mary Lane within the North County Metro Community Planning Area of unincorporated San Diego County. The site is zoned as A70 and is subject to the General Plan Regional Category "Current Urban Development Area" (CUDA), Land Use Designation (1) Residential.</p>	NOD

2000082110	Atwood Ranch Unit III Subdivision (EIAQ-3456) Placer County Auburn--Placer The applicant is requesting a Modification to Condition 14 to allow additional grading and the construction of concrete slab foundations on Lots 100-108, 112-114, 119-131 and 140-143, lots that are specifically cited by this condition. The applicant is also requesting a Variance to the six-foot height restriction for fencing along rear property lines to allow for a fence height of eight feet on Lots 1-10 in the northeastern portion of the subdivision and a Variance to reduce the front setback for the livable portions of new residences on Lots 100-121, 125-137 and 140-143 from 20 feet to 15 feet.	NOD	
2008012097	Cosumnes River Preserve Management Plan Fish & Game #2 Galt--Sacramento, San Joaquin The California Department of Fish and Game has directed the preparation of and intends to adopt an IS/ND for the proposed project in compliance with the California Environmental Quality Act and the State CEQA Guidelines. The project being proposed is the adoption and implementation of the Management Plan. The Preserve's mission is to protect and enhance riparian forest, freshwater wetland, vernal pool grassland, oak woodland, and agricultural lands within the Cosumnes River watershed in order to preserve native biodiversity and benefit declining, threatened and endangered species of wildlife and plants and to provide compatible public use and recreation.	NOD	
2008122101	Olson Construction Headquarters, Kings Beach (PMPB T20080193) Placer County --Placer The project proposes to remodel a 3,100 sf building and to construct an approximately 6,500 sf building for offices, warehouse and employee residence.	NOD	
2009052033	Copper Cove Pond No. 6 Enlargement Calaveras County Water District --Calaveras During 1990, the Calaveras County Water District (CCWD) constructed the existing Copper Cove Pond 6 to store reclaimed. At a maximum storage elevation of 756 feet, the maximum storage capacity is 205 acre-feet. The Calaveras County Water District intends to raise the maximum storage level from 756 feet elevation to 766 feet elevation. Allowing for the required 2 feet of residual freeboard, the net total storage capacity will increase to 442 acre-feet at a maximum water surface elevation of 764 feet.	NOD	
2009062012	Kings Beach Housing Now, Site #1 Deer Street (PMPA T20080189) Placer County --Placer Project proposes approval of a Design Site Review and Voluntary Merger of nine lots to construct a total of 18 new affordable housing units.	NOD	
2009081047	City of Corcoran Police Station Corcoran, City of Corcoran--Kings The proposed Project is the construction and operation of a proposed new police station, which is to be constructed to serve as the headquarters for the City of Corcoran Police Department. 	Request for a new Sutter hospital and Luther Burbank Memorial Foundation Master Plan on an ~53 acre site located at 50 Mark West Springs Road, Santa Rosa, CA.		
2009022075	City of Lodi General Plan Update Lodi, City of Lodi--San Joaquin The proposed Lodi General Plan is intended to respond directly to changes experienced in Lodi since the preparation of the current (1991) General Plan, and to the growth projected for the city in coming decades. The Plan establishes a planning framework and policies for a 20 yr planning period and will replace the City's existing General Plan. The proposed General Plan focuses on maintaining a compact urban form, phasing future development, preserving agricultural land, enhancing existing neighborhoods, providing land for employment growth, and expanding open space and recreation opportunities. It responds to community members' preferences about where different land uses such as housing, shopping, industry and public facilities should be located and how City resources should be used to achieve the Plan's goals.	EIR	01/11/2010
2009062070	South San Francisco General Plan Amendment South San Francisco, City of San Francisco--San Francisco The proposed Amendment aims to target higher intensities and mixed-use development in the southern portion of El Camino Real in the City of South San Francisco, to stimulate revitalization, and transition the corridor into a thriving, pedestrian-oriented area, with a mix of uses. The proposed Amendment would incorporate a new land use designation, El Camino Real Mixed Use, into the General Plan. This designation is intended to accommodate high-intensity active uses and mixed-use development in the South El Camino Real area. Retail and department stores; eating and drinking establishments; hotels; commercial recreations; financial, business, and personal services; residential; educational and social services; and office uses are permitted.	EIR	01/11/2010
2009091098	Euclid Street/Slater Avenue Street Improvements Fountain Valley, City of Fountain Valley--Orange The City of Fountain Valley proposes street improvements to Euclid Street north and south of its intersection with Slater Avenue to: 1) improve the afternoon (PM) peak hour level of service (LOS) of the Euclid Street/Slater Avenue intersection from LOS "E" (unacceptable) to LOS "C" (acceptable); 2) comply with a mitigation measure of the Southpark Development Plan that requires improvements to the Euclid Street/Slater Avenue intersection upon development of 50% of the Southpark Development Plan (Southpark is approximately 65% developed). The street improvements include eliminating all on-street parking (approximately 43 parallel parking spaces) along the east side of Euclid Street from Slater Avenue north to Hospital Campus Drive, restripe the east side of the Euclid Street to provide a third 12 foot wide northbound travel lane, and widen the east side of the Euclid Street south of Slater Avenue by 12 feet from Grace Avenue on the south to Slater Avenue on the north. 2009091101	<p>Access and Additional Parking Area / Westside Elementary School Coachella Valley Unified School District --Riverside</p>	NOD	
	<p>The Coachella Valley Unified School District proposes to acquire ~4.08 acres of land, identified generally as portions of Riverside County for the construction of an access, parking lot area and bus turnaround adjacent to the Westside School, an elementary school serving students from Kindergarten to Sixth Grade (School Project). The proposed School project is located southerly of Airport Boulevard and east of Monroe Street within the unincorporated area of riverside County known as Vista Santa Rosa.</p>		
	<p>The School Project presently is conteplated as access and additional parking located adjacent to, westerly of and southerly of the Westside School. The School Project will provide teachers, visitors and staff additional area to park their vehicles in close proximity to the Westside School. The School Project also provides access and a bus turnaround adjacent to the Westside School. The School Project will include landscaping as deemed necessary. Lighting may include low level security lighting and illumination of related parking and pedestrian areas. The School Project will serve the needs of the District and the surrounding community.</p>		
2009101047	<p>San Joaquin River Restoration Program Geotechnical Investigation and Well Installation Project Water Resources, Department of Fresno, Firebaugh--Fresno, Madera, Merced</p>	NOD	
	<p>Geotechnical data will be gathered to support designs to convey both Interim and Restoration flows and allow for adequate fish passage in the restoration sections of the San Joaquin River. The geotechnical investigation will consist of exploration holes at existing and potential new levers, control structures, river crossing structures, and test pits for the identification of possible borrow material. Groundwater monitoring wells will also be installed for the development of a</p>

2009111104	Ordinances to Ban Plastic Carryout Bags in Los Angeles County Los Angeles County --Los Angeles The County of Los Angeles (County) consists of proposed Ordinances to Ban Plastic Carryout Bags in Los Angeles County (proposed ordinances). This project would entail adoption of an ordinance to ban plastic carryout bags issued by certain stores in the unincorporated territories of the County and the adoption of comparable ordinances by the 88 incorporated cities within the County.	NOP	12/29/2009
2009111097	IRWD-Jackson Ranch Water Allocation Project Irvine Ranch Water District Kettleman--Kings, Kern IRWD intends to adopt a Neg. Dec. for the Jackson Ranch Water Allocation Project. The project is the acquisition of up to 884 acres of the Jackson Ranch property located within the Dudley Ridge Water District in the unincorporated areas of Kings County. This property acquisition includes any State Water Project (SWP) water amounts, water banking participation rights and water from other source allocated to the land. IRWD intends to enter into and facilitate agreements with DRWD, the DWR, the Kern County Water Agency, and a State Water Contractor (i.e. Metropolitan's SWP contracts and pertinent policies, rules, and regulations to allow for the permanent transfer of a 2 for 1 unbalanced exchange or execution of other transactions approved DWR that would enable the water allocated to the property to be delivered to the Strand Ranch Intergrated Water Banking Project (Strand Ranch) currently operated by IRWD in Kern County. The water would ultimately be recovered and exchanged for delivery to the IRWD service area to enhance water supply reliability to its customers. The property to be acquired by IRWD is located in southwestern Kings County and consists of 8 parcels that are bounded by the California Aqueduct on the west and I-5 freeway on the east. The parcels and all adjacent parcels are used for agricultural purposes.	Neg	12/29/2009
2000011033	05-SLO-46 KP 51.8/90.6 (PM 32.2/56.3) Route 46 Corridor Improvement Project Caltrans #5 San Luis Obispo--San Luis Obispo The CDFG is executing a Lake and Streambed Alteration Agreement, pursuant to Section 1602 of the Fish and Game Code, to the Project applicant. Caltrans proposes the following activities at Location 1: The existing 113 ft long, 66 inch diameter reinforced concrete pipe (RCP) and headwalls will be removed and replaced with a new 318 ft long, 66 inch diameter RCP with new head and wingwalls. Rock Slope (RSP) will be placed at the outlet. Location 2: An ephermal drainage that meanders parallel to the highway needs to be re-aligned to accommodate the highway widening and a retaining wall that will prevent the removal of four blue oaks. Location 3: The Project would permanently fill ~500 ft of this drainage. After construction, this water will be conveyed through rock-lined swales and culverts into a storm water retention basin before it rejoins the existing drainage alignment. Location 4: Two new bridges will be constructed on a new alignment ~160 ft to the south of the existing bridge. The new bridges will be ~70 to 94 ft high and 962 ft long. The existing 138 inch structural steel plate pipe (SSPP) that conveys Pine Creek under the highway will remain and be extended ~27 ft at the inlet and ~160 ft at the outlet. The Project will place RSP at the outlet and at the inlet.	NOD
