

Arnold Schwarzenegger, Governor

STATE CLEARINGHOUSE

NEWSLETTER

November 16-30, 2006

STATE CLEARINGHOUSE NEWSLETTER

The State Clearinghouse distributes draft environmental documents to state agencies for review and comment, pursuant to the California Environmental Quality Act (CEQA). The State Clearinghouse also acts as the State Single Point of Contact for the review of federal grant applications and federal development projects. This Newsletter summarizes the environmental documents and federal grant applications received by the Clearinghouse during the period **November 16-30 2006**.

CLEARINGHOUSE CONTACTS

Please contact The State Clearinghouse if you have any questions regarding processing of environmental documents or grant applications. We may be reached at:

Telephone: (916) 445-0613
Fax: (916) 323-3018
e-mail: state.clearinghouse@opr.ca.gov
website: www.opr.ca.gov/clearinghouse/clearinghouse.shtml

Questions regarding federal grant notices should be directed to **Sheila Brown**.

Questions regarding processing of environmental documents should be directed to:

Scott Morgan
Senior Planner

CLEARINGHOUSE MAILING ADDRESS

Please do not use our street address (1400 Tenth Street, Room 212) for mailing purposes. The correct mailing address is:

STATE CLEARINGHOUSE
P.O. BOX 3044
SACRAMENTO, CA 95812-3044

INFORMATION AVAILABLE ON-LINE

The 2001 CEQA Guidelines are available from the Resources Agency's website at <http://ceres.ca.gov/ceqa/>.

The State Clearinghouse Handbook, which contains all of our environmental document and grant processing procedures and forms, is available on our website.

MEMORANDUM

Governor's Office of Planning and Research State Clearinghouse

Date: December 5, 2003

To: All CEQA Lead Agencies

From: Terry Roberts, Director, State Clearinghouse

Re: Submission of Electronic CEQA Documents to State Clearinghouse

In order to take advantage of the cost and time savings associated with electronic documents, the State Clearinghouse will accept electronic documents under the following conditions:

1. Electronic documents shall be on CD, and the file format shall be either Adobe PDF or Microsoft Word.
2. For EIRs, each CD must be accompanied by a printed copy of the Executive Summary. This allows the State Clearinghouse and the reviewing agencies to efficiently route the document to the proper persons.
3. Negative Declarations and Mitigated Negative Declarations will not be accepted on CD. However, any separately bound technical appendices to the document may be submitted on CD.
4. For certain projects, particularly large infrastructure projects such as airport expansions, the State Clearinghouse may request a certain number of hard copies. In addition, the lead agency shall honor a special request from a responsible or trustee agency which requires a hardcopy for purposes of review and comment.
5. This policy does not invalidate CEQA Guideline §15205, which requires a public agency submitting printed documents to the State Clearinghouse to send, in addition, an electronic copy of the document, *if available*.

If you have any questions regarding the submission and circulation of environmental documents, please contact the State Clearinghouse at (916) 445-0613 or state.clearinghouse@opr.ca.gov.

**ENVIRONMENTAL DOCUMENT FILINGS WITH THE STATE CLEARINGHOUSE
1999 through 2005**

All CEQA documents filed with the State Clearinghouse are available for viewing on the Internet at <http://www.ceqanet.ca.gov/>

<u>Documents Received on Thursday, November 16, 2006</u>			
2006114001	Santa Fe Dam Kare Youth League Athletic Park U.S. Army Corps of Engineers Irwindale--Los Angeles Proposed 17-acre recreational athletic park to be located on U.S. Army Corps of Engineers property. The preferred alternative includes development of 4 soccer/football fields (ranging in size from 80 ft x 150 ft to 168 ft x 360 ft); 1 full-sized baseball field (340-ft. foul lines), 3 baseball/softball fields (180-ft. foul lines), 7 basketball courts (ranging in size from 25 ft x 50 ft to 50 ft x 90 ft), and 250 paved parking spaces. Also included would be a multi-purpose office/administration building with snack bar and indoor activity rooms; a picnic area and tot-lot playground; a locker/restroom facility; and lighting structures for night-time activities.	EA	12/18/2006
2006062111	San Carlos Retail Center Project San Carlos, City of San Carlos--San Mateo A portion of the subject property at 1133 Industrial Road is proposed to be redeveloped for a new regional retail shopping center. The proposed project would involve the demolition of the existing 140,698-square-foot, vacant retail "Breuners" building, and the construction of an approximately 95,940-square-foot, three-tenant retail building and an approximately 12,100-square-foot, multi-tenant ancillary retail building. The proposed project would result in a net reduction of 32,660 square feet of developed floor area at the project site.	EIR	01/02/2007
2006072098	Local Funding Mechanism for Comprehensive Flood Control Improvements for the Sacramento Area; Natomas Cross Canal South Levee Phase I Improvements Sacramento Area Flood Control Agency Sacramento--Sacramento, Sutter, Placer The overall project objective is to create new funding mechanisms for the local share of the cost of constructing and maintaining flood control improvements and related environmental mitigation and habitat enhancements along the lower American and Sacramento Rivers and their tributaries in the Sacramento metropolitan area (Sacramento). The specific project objectives are to: (1) complete the projects necessary to provide 100-year flood protection for developed areas in Sacramento's major floodplains as quickly as possible; (2) provide urban-standard ("200-year") flood protection for developed areas in Sacramento's major floodplains does not substantially increase the expected damage of an uncontrolled flood.	EIR	01/02/2007
1991022017	Lakeview Subdivision Map Resubmission Sacramento County --Sacramento A resubmission of a previously-approved map that expired. Resubmitted map is of 99 residential lots.	FIN	
2006111082	Tippecanoe Well Construction Project Elsinore Valley Municipal Water District San Bernardino--San Bernardino Meeks and Daley Water Company (M&D) intends to construct a new well adjacent to Gage Canal Company's existing Gage 98-1 Well located in the City of San Bernardino. The well would be constructed to replace another well claimed by Caltrans under eminent domain. The new well will be owned by M&D, but	MND	12/15/2006

	operated by the City of Riverside.		
	Construction will include approximately 40 linear feet of 16-inch diameter discharge pipe that will connect to the existing Gage Canal piping. A stub out will be provided to allow for a future connection of approximately 2,400 feet of pipe. An approximate well flow rate of 3,000 gallons per minute (gpm) is anticipated. The well pump will be designed to provide 3,000 gpm with a minimum 20 pounds per square inch (psi) at the current connection point and 5 psi at the ultimate discharge point 2,400 feet from the wellhead.		
2006112104	I-5/CR 102 Interchange Improvement Project Woodland, City of Woodland--Yolo The City of Woodland, Caltrans, and FHWA are proposing to improve the I-5/CR 102 interchange. The purpose of the project is to relieve existing and future traffic congestion, improve the flow of traffic moving north-south on CR 102, improve pedestrian and vehicle safety and improve traffic operations. The work includes reconfiguring on- and off-ramps between traffic signals, widening CR 102, construction Class II bicycle lanes on CR 102 from Maxwell Drive to the northbound I-5/CR 102 intersection and adding a new ramp from CR 102 to southbound I-5.	MND	12/18/2006
2006112060	Rocklin 60 Residential Subdivision Project Rocklin, City of Rocklin--Placer The project consists of a residential subdivision of 56.9+/- acres of a site located south of Interstate 80 and east of Sierra College Boulevard in the City of Rocklin. The site would be subdivided into 177 detached, single-family residential lots (ranging from a minimum size of 6,000 square feet to a maximum of 46,510 square feet, with an average lot size of 6,500 square feet) and three large lots (totaling 8.81 +/- acres) for a stormwater detention basin and for open space along the Secret Ravine riparian corridor.	NOP	12/15/2006
2006112097	Rocklin Crossings Project Rocklin, City of Rocklin--Placer The project consists of a regional shopping center on 49.53 acres (net) near the interchange of Interstate 80 and Sierra College Boulevard in the City of Rocklin. The project proposes to subdivide the property into 18 parcels. A variety of retail uses are proposed for the center, including major tenants (potentially including a Wal-Mart Supercenter and a Home Depot), smaller retail, and restaurants. Other traveler-serving uses could also be developed within the project site, such as gas stations. preliminary plans call for approximately 23 buildings totaling a maximum of 543,500 square feet.	NOP	12/15/2006
2006112101	Gold Village Lone, City of Lone--Amador The project applicant is requesting a Tentative Subdivision Map to be developed in two phases. Phase 1 is comprised of approximately 20.60 acres that will create 49 detached single-family residential lots. The lots are proposed to be a maximum of 22,160 square feet and a minimum of 5,750 square feet. Approximately 0.88 acre is designated for open space. Access to the site is provided from Foothill Boulevard, a 60-foot wide non-exclusive access and Public Utility Easement	NOP	12/15/2006

	extending south into the site from SR-104.		
	Phase 2 proposes to develop three parcels located directly west of Phase 1. Parcel A (1.69 acres) and Parcel B (1.63 acres) are proposed to contain approximately 31,500 square feet of commercial retail and office buildings. The applicant is also including 78 parking stalls for the commercial/office development. A road will bisect Parcel A and B along an east-west lateral. The eastern side of the road will terminate at the Lone Elementary School. The applicant proposes to designate parcel C of Phase 2 for 101 multi-family units that will be developed at a later date. The site is approximately 6.78 acres, which will result in a density of approximately 15 units per acre.		
2006022048	Apollo Energy Liquefied Natural Gas Facility San Joaquin County Stockton--San Joaquin Site approval application for a liquefied natural gas (LNG) production facility. The project is located on the east side of Wolfe Road, 1,850 feet south of French Camp. The proposed project is a temporary facility that would be in operation for 5-10 years until the natural gas supply was depleted.	Neg	12/15/2006
2006111079	Wallace Parcel Map / SUB2005-00080 San Luis Obispo County --San Luis Obispo Request by Paul Wallace and Shelly Wallace for a tentative parcel map to subdivide an existing 20-acre lot into two parcels of approximately 10 acres each for the purpose of sale and/or development.	Neg	12/15/2006

	Highlands Parcel A - A request for approval of a general plan amendment to amend the locations and change the project site land use designation from 25.2 acres Low Density Residential (LDR) to 24.5 acres Rural Residential (RR), and amend the locations and increase the area designated Recreation Conservation (R-C) from 4.9 acres to 5.6 acres; a rezone and general development plan to change the zoning designation on the project site from Planned Development 1.5 dwelling units per acre (PD-1.5) to Planned Development 0.67 dwelling units per acre (PD-0.67) and establish development criteria; a tentative subdivision map and a tree preservation plan permit to allow the 30.14 acre site to be subdivided into 20 single family residential lots, on approximately 7.27 acres (including streets), and four open space parcels, on approximately 22.89 acres.		
2004071142	Amendment 2006 to the Stanton Consolidated Redevelopment Plan Supplemental EIR Stanton Redevelopment Agency Stanton--Orange The City of Stanton and the Stanton Redevelopment Agency desire to amend the Stanton Consolidated Redevelopment Project. The purpose of the amendment is to increase the limitation on the number of dollars to be allocated to the Agency from the Stanton Community Development Project Area and to eliminate the annual maximum amount of tax increment collected by the Agency. In addition, the amendment proposes to include significant capital improvement projects, which are not presently listed in the Redevelopment Plan for the Stanton Consolidated Redevelopment Project.	NOD	
2005012101	Alternative Intake Project Contra Costa Water District Brentwood--Contra Costa, San Joaquin Construction of a new intake and fish screen at a site along the lower third of Victoria Canal (in the south-central part of the Delta), a pumping plant, and an associated pipeline across Victoria Island from the new intake to CCWD's Old River conveyance system on Byron Tract. The project purpose is to protect and improve the quality of water delivered to CCWD's untreated- and treated-water customers.	NOD	
2005051008	California State University, Northridge 2005 Master Plan California State University, Northridge --Los Angeles This proposed project is for the east portion of the main campus, immediately east of the Student Health Center and Chisholm Hall. The project will be constructed over an existing surface parking lot to provide 1,449 new spaces (1,463 spaces in the structure and 36 surface parking spaces), increasing the campus inventory by a net of 1,090 spaces. The structure will have five levels including roof level parking. Vehicle entries and exits are located to minimize vehicular traffic within the campus, avoid vehicle/pedestrian conflicts, and provide for optimal pedestrian flow onto campus walks and promenades. The design focuses on security and safety in and around the structure as exemplified by the open floor plans, exterior stairs and elevator placement.	NOD

Documents Received on Friday, November 17, 2006

2004051134	<p>Five Bridges Specific Plan Banning, City of Banning--Riverside</p> <p>The Five Bridges Specific Plan would develop 548.4 acres as a master-planned community consisting of residential units, a commercial center, and open space uses. The project includes the development of up to 2,160 residential units, consisting of single-family homes, garden courts, and townhomes. A 51.6-acre commercial area is proposed at the northeast corner of the project site, which would support a variety of commercial, institutional, or light industrial uses such as office, retail, recreational vehicle storage, mini-storage, senior housing, and day care.</p>	EIR	01/02/2007
2005042117	<p>General Plan Amendment 04-002, Zone Amendment 04-003, and Use Permit 05-006, for the proposed Shasta Regional Auto Mall Shasta County --Shasta</p> <p>The request is to obtain approval for a 107-acre regional auto mall. This would require amendment of the General Plan land use designation of approximately 101 acres of the project site from Part-Time Agricultural (A-cg) to Commercial (C), and to amend the zone district for that same portion of the property from the Limited Agriculture (A-1) District and the Limited Agriculture District combined with the Restrictive Flood District (A-1-F-2) to the Community Commercial District combined with the Design Review District (C-2-DR).</p>	EIR	01/02/2007
2006072060	<p>Central Coast Marine Protected Areas Project Fish & Game Commission --</p> <p>Designation of central California coast component of statewide network of marine protected areas as required by the Marine Life Protection Act. Project objectives are to help protect, maintain, restore, enhance and manage living marine resources. Take of finfish, marine plants, and/or invertebrates would be prohibited or restricted in several areas by regulations established by the Fish and Game Commission and implemented by the Department of Fish and Game.</p>	EIR	01/02/2007
2006081126	<p>Tulare Protein Harvesting and Processing Plant Tulare, City of Tulare--Tulare</p> <p>The construction and operation of a protein harvesting plant composed of three separate facilities, a harvesting and processing plant, a cold storage and freezer plant, and a co-gen plant that will convert animal waste to energy.</p>	EIR	01/02/2007
2006012065	<p>Weber Ranch - PUD 2004-04 & SD 8919 Danville, City of Danville--Contra Costa</p> <p>Preliminary Development Plan - Rezoning (PUD 94-04) and Final Development Plan - Major Subdivision request (SD 8919) to rezone a 15 +/- acre site from R-20; Single Family Residential District to P-1; Planned Unit Development District and to subdivide the site into 22 single-family residential lots and one remainder 4 +/- acre parcel. A Tree Removal request is included to allow the removal of 28 Town-protected trees.</p>	MND	12/18/2006

Documents Received during the Period: 11/16/2006 - 11/30/2006

SCH Number	Title / Lead Agency / City--County / Description	Document Type	Ending Date
<u>Documents Received on Friday, November 17, 2006</u>			
2006092077	Campion Tentative Map Grass Valley, City of Grass Valley--Nevada The project, Tentative Map (06PLN-13) application for Kevin and Richard Campion to subdivide a 10.29 acre parcel into four parcels.	MND	12/18/2006
2006111089	Aspen Investments Industrial Subdivision 2005-TM-02 Santa Paula, City of Santa Paula--Ventura The proposed project involves the subdivision of the 25.02-acre site into 10 industrial lots. A cul-de-sac street would be created by this subdivision. No buildings are proposed at this time. However, the applicant would grade and build infrastructure for the site. Grading would involve the importation of approximately 123,505 cubic yards of fill material to raise building pads two-feet above the 100-year flood zone.	MND	12/18/2006
2006111090	Watson Creek Culvert Replacement San Diego, City of --San Diego Site Development Permit to allow the replacement of an existing Arizona-type stream crossing over Watson Ranch Creek with a reinforced concrete box culvert. The 0.01-acre project site is located in the Torrey Glen Development along Watson Creek. The site is located approximately 0.25 mile north of State Route 56 and immediately east of Camino Del Sur, between Watson Creek Road and Waterford Lane cul-de-sac within the Rancho Penasquitos Community Plan area.	MND	12/18/2006
2006111092	La Costa Glen Corporate Center - GPA 06-02/MP 92-01(B)/LCPA 06-01/HMPP 06-11/SDP 05-16/CDP 05-51/HDP 05-11/MS 05-28 Carlsbad, City of Carlsbad--San Diego A General Plan Amendment, Master Plan Amendment, Local Coastal Program Amendment, Habitat Management Plan Permit, Site Development Plan, Coastal Development Permit, Hillside Development Permit, and Minor Subdivision Map are required for the proposed 4-lot subdivision and development which will result in two developable parcels and two open space parcels. A proposed 21,904 sf office building is proposed for Lot 1 and future development of Lot 2 would be limited to approximately 13,000 sf of commercial retail use. Open Space Lots 3 and 4 comprise 2.67 acrs (34% of the project area). The open space lots will have new General Plan Land Use designations of OS (Open Space).	MND	12/18/2006
2006111093	Plot Plan Application PP 06-05; Project Garden March Joint Powers Authority --Riverside Project Garden consists of the development of an approximately 208,000 square foot concrete building for food processing uses, ancillary office areas, and a refrigerated warehouse. The proposed project involves the washing, cutting, mixing and blending of fresh vegetables, and ancillary preparation of carbohydrate products such as rice and pasta to be added to salad dishes. The facility would process fresh fruit and vegetables by washing, cutting, mixing and blending the produce to create prepared ready to eat salads. Cooking for carbohydrate products is limited to rice, potatoes, and pasta, as added to salad dishes.	MND	12/18/2006

<u>Documents Received on Friday, November 17, 2006</u>			
2006111094	Plot Plan Application PP 06-04; Project Sunfield March Joint Powers Authority --Riverside Project Sunfield consists of the development of an approximately 179,500 square foot concrete building for food processing, ancillary office, and refrigerated warehouse uses. Food processing uses would involve the cutting, grinding, and packaging of meat products. The facility would be a separately owned part of the Meridian Business Park distribution and manufacturing campus for receiving, sorting, repackaging, storage and distribution of food products. All products would arrive boxed. Raw material would be a combination of boneless vacuum packed primal cuts and whole chickens. This raw material would be sliced, diced or ground to produce finished retail "shelf ready" packs.	MND	12/18/2006
2006112103	601 Duboce Avenue, Noe Medical Office Building, Davies Campus, #2004.0603E San Francisco Planning Department San Francisco--San Francisco The proposed project involves construction of a four-story medical office building (MOB) on a portion of two surface parking lots on the northeast corner of the California Pacific Medical Center Davies campus on the Duboce Triangle neighborhood. the 50,100 (46,000 as measured by the Planning Code) gsf MOB would contain offices, a Neuromuscular and Electroencephalogram Clinic, a pharmacy and admitting station for the existing ambulatory surgery department of the CPMC Hospital North Tower. Patient drop-off would be located adjacent the MOB's third floor, accessible via the existing Duboce Avenue service drive. The MOB would include two pedestrian entries: southern entrance along Noe Street and a northern entrance located along Duboce Avenue across from the N-Judah MUNI stop. The project would result in removal of 75 onsite surface parking spaces; no new off-street parking spaces would be constructed as part of the project. Pedestrian and streetscape improvements, including a public plaza, landscaping and sidewalk widening along Noe Street would be undertaken as part of the project. The project site is in the RH-3 (Residential House, Three Family) Zoning District and the 65-D Height and Bulk District, and would require Conditional Use authorization for expansion of an institutional use in an RH-3 Zoning District, an amendment CPMC's Planned Unit Development, permits from the Department of Public Works for tree removal and new landscaping, as well as building permits from the Department of Building Inspection.	MND	12/18/2006
2006112106	Fish Screen Project Patterson Irrigation District Patterson--Stanislaus The proposed project consists of constructing a screened diversion to comply with the CDFG and the NOAA Fisheries fish screen design criteria.	MND	12/20/2006
2006111085	Uptown Specific Plan Whittier, City of Whittier--Los Angeles The project is a Specific Plan which outlines a program of targeted, historically-sensitive infill in the Uptown area of Whittier. The project would result in approximately 1,000 new dwelling units and 2 million square feet of non-residential use (mainly commercial and retail).	NOP	12/18/2006

2006111087	Industry Civic-Recreational-Industrial Redevelopment Project No. 4 Industry Urban-Development Agency Industry--Los Angeles The Agency is proposing adoption of the Redevelopment Plan to assist the City of implement the goals and objectives of the General Plan in the Project Area, and to cause the long-term revitalization of the Project Area and may include, but not necessarily be limited to, construction of new and upgrading of existing public facilities and infrastructure, and promoting and facilitating economic development and job growth. In addition, the CCRL requires that redevelopment agencies set aside 20 percent of all tax increment revenues generated by the Project Area for the purpose of increasing, improving and preserving affordable housing within the Agency's jurisdiction.	NOP	12/18/2006
2006112102	Pilarcitos Quarry Expansion San Mateo County --San Mateo The project applicant, West Coast Aggregates, Inc., proposes a long-term expansion of the existing Pilarcitos Quarry. The project applicant has requested the necessary entitlements from the County of San Mateo to enable expansion of the quarry and to ensure mining reserves within the proposed expansion areas of the quarry property would be conserved and protected. This will include approval of a proposed master plan for mining and reclamation over the next 75 years, under which approximately 256 acres of the approximate 593-acre property will be disturbed. The master plan includes a detailed mining and reclamation plan for an initial 7.36-acre expansion area located adjacent to, and north of, the existing permitted quarry area.	NOP	12/18/2006

<u>Documents Received on Friday, November 17, 2006</u>			
2006118136	Oceano Dunes - State Vehicle Recreational Area/La Grande Beach Tract General Services, Department of --San Luis Obispo The proposed project consists of an acquisition of approximately 283 acres currently owned by the County of San Luis Obispo. The project will transfer the ownership of land to the California Department of Parks and Recreation without a change in property land use.	NOE	
2006118137	California's First Theater Rehabilitation Parks and Recreation, Department of --Monterey Project involves the following for the California's First Theater located at Monterey State Park: design and construction for structural retrofit and stabilization; design for upgrades to existing building systems; and design for building and site accessibility improvements. The Theater was built between 1847 and 1849 and is in the National Register of Historic Places. The project also consists of pest control activities and necessary associated repairs and the removal of two Cypress trees that, due to their close proximity to the structure, are negatively impacting the existing foundation. In recent weeks one of the trees in question has dropped several limbs on the Theater, causing damage to the roof and forcing the closure of the building to the public for an indefinite period of time. All work shall comply with the Limited Historic Structures Report prepared by California State Parks and Architectural Resources Group, 2002; the Secretary of the Interior's Standards for the Rehabilitation of Historic Structures; and the California State Historic Building Code.	NOE	
2006118138	Tree Hazard Removal - Prairie City State Vehicular Recreation Area (SVRA) Parks and Recreation, Department of Rancho Cordova--Sacramento This project will remove hazardous trees and/or trim, thin or remove limbs from trees throughout the park. Tree species include cottonwood, mulberry, and alder.	NOE	
2006118139	Vegetation Island Re-Vegetation: Table Top, Oceano Dunes State Vehicular Recreation Area (SVRA) Parks and Recreation, Department of --San Luis Obispo This project involves the stabilization of the vegetated dune island known at Table Top. The area to be covered is broken up and covers approximately 2.5 acres. Stabilization known as "hay blowing" is the method that will be applied. A hay blower lays down 200 bales of hay/acre over bare sand. This is then punched in using a sheep foot attachment. Seed collected from the Oceano Dunes, Re-Green (200 lbs/A) and fertilizer (200 lbs/A) are broadcasted among the prepared area. Supplemental planting of native plants grown at Oceano Dunes greenhouse facility will be installed after the second storm front. All stabilization projects are dependent on the rains as irrigation is impossible in the dunes. This island is losing the westward ridge and the sand blowing in is cutting the island into three sections. Without punching hay onto the bare surfaces and installing plants, the stability of this island will be in jeopardy.	NOE

<p>at 729 Tennessee Street, San Francisco, on behalf of the San Francisco campus of the University of California (UCSF). The building would be renovated for operation of the Infant, Child and Adolescent Psychiatry Programs ("Children's Center"). The 36,000 gsf Children's Center would provide interview and group therapy rooms, observation/child play rooms, conference/seminar rooms, and offices. The program would be jointly operated by the psychiatry faculty from San Francisco General Hospital and UCSF's Langlely Porter Psychiatric Institute. Subsequent to the donor's purchase of the property, the Regents would lease it from the donor to facilitate the entitlement of the project and to allow the orderly completion of the tenant improvements by the donor.</p>	NOE		
2006118141	<p>DWR 2006 Critical Levee Emergency Repair Project - Site 20051230-039-001 Water Resources, Department of Rio Vista--Sacramento</p> <p>A series of storms struck Northern California and Nevada in late December and early January 2005/2006. The Sacramento River and associated tributaries reached flood stage. High flows, high tides, and high winds were experienced in the Sacramento-San Joaquin Delta. A Federal Disaster Declaration was issued for 31 California counties due to floods, mudslides, and landslides caused by the storms.</p> <p>The project site is located in the Brannan Andrus Levee Maintenance District in southern Sacramento County. The site is located along the eastern bank of the Sacramento River approximately 3/4 mile southeast of the City of Rio Vista. The site is approximately 3,700 feet long and 75 feet wide for a total project footprint of approximately 6.4 acres. The repairs for this levee site would consist of restoring the original protection by reconstructing the levee embankment to the pre-flood slope and height by restoring the rock protection on the waterside. Debris deposited by the flood fight on the eroded slopes and material placed by Caltrans during the flood fight will be removed in order to complete the repairs. The levee slope will be constructed over a rockfill platform constructed 2 feet above the summer high water mark.</p>	NOE

2004021002	<p>The Landmark Village Project, Project No. 00-196, TR 53108/ CP00-196/ROAK-OT00-196/RCUP200500112 Los Angeles County Department of Regional Planning Santa Clarita--Los Angeles</p> <p>The project consists of 418 lots to include a maximum of 1,444 residential units, a maximum of 1,353,000 square feet of non-residential mixed-use, an elementary school, a community park, three private recreational facilities, open space, and river trail uses. The site is currently used for agricultural purposes and contains miscellaneous, ancillary sheds for agricultural storage and dirt roads. There is southern willow and cottonwood riparian habitat that extends to the central portion of the site along the southern boundary of the tract map. Three oak trees exist on site. Chiquita Canyon Landfill is located to the north of the project site. Several active and abandoned oil wells are located within the tract boundary. The project also includes all on-site and off-site infrastructures necessary to support the proposed project, including a domestic water system, sanitary sewer system, and a drainage network. Some off-site infrastructure improvements will be within SEA 23, Santa Clara River, containing habitat for the endangered stickleback. To protect the development from flood hazards, a bank stabilization system will be installed along portions of Santa Clara River. This project will require 4.2 million cubic yards of removal and recompaction of existing materials, and approximately 5.8 million cubic yards of import from the offsite adobe canyon barrow site. There are two water tanks north of Highway 126 that will service the project site. The EIR analyzes the construction of the Long Canyon Road Bridge across the Santa Clarita River.</p>	EIR	01/03/2007
2006012024	<p>Sierra Point Biotech Project Brisbane, City of Brisbane--San Mateo</p> <p>The proposed project is the redevelopment of an approximately 22.8-acre site with 540,185 square feet of office/research and development space, parking facilities, 2,500 square feet of retail, and improvements to the Bay Trail. The project also includes an amendment to the Brisbane zoning ordinance and General Plan that would allow research and development uses including limited live animal testing, within the Sierra Point Commercial (SP-CRO) zoning district and the Sierra Point Commercial/Retail/Office (SP C/R/O) General Plan land use designation.</p>	EIR	01/03/2007
2006051032	<p>Solana Beach Gateway Resort Project Solana Beach, City of Solana Beach--San Diego</p> <p>The project consists of a 30-unit hotel development with associated clubhouse, outdoor pool and spa. Each unit would consist of a basement and a ground story with patios on each level and a roof deck on top. The condotel concept involves hotel operation with individual ownership of each of the units. Use of the units by owners would be limited to a set period of time with a limit on the number of consecutive days and they would be required to check in and out like all guests. Nightly rates would be effective for all other guests. Services such as a reception, pool and spa, gym and lounge would be available for all guests. A total of 37 parking spaces are proposed for the site. Primary access to the property would be from Highway 101 and would be located at an approximate mid-point along the property frontage.</p>	EIR	01/03/2007

2006114002	<p>Success Dam Seismic Remediation Project U.S. Army Corps of Engineers Porterville--Tulare</p> <p>The U.S. Army Corps of Engineers proposes to modify Success Dam located on the Tule River, 8 miles east of Porterville, CA. Structural deficiencies in the dam's foundation could result in potential dam failure in the event of major earthquake. Modifications to the existing dam are needed to eliminate the dam safety risk of catastrophic dam failure and downstream flooding, and to restore full project benefits, including flood damage reduction, irrigation, and recreation. In addition to flood damage reduction, and water supply, the Lake Success project also provides recreation opportunities, including boating, water skiing, swimming, and fishing.</p>	EIS	01/09/2007
2005061132	<p>Castroville Community Plan Monterey County Housing and Redevelopment --Monterey</p> <p>The Castroville Community Plan serves as a long-range plan designed to direct growth and development in a manner than enhances the quality of life in the community of Castroville. The proposed Community Plan provides a guide to promote growth that effectively uses land resources, and provides a safe and attractive environment that is environmentally sensitive and economically viable, while preserving those significant qualities that define Castroville as a unique and desirable community. The proposed Community Plan for Castroville identifies several areas for future growth and redevelopment that have been designated as "Opportunity Areas," which include the Merritt Street Corridor Opportunity Area, Cypress Residential Opportunity Area, Commuter Train Station Opportunity Area, North Entrance Opportunity Area, and New Industrial Opportunity Area. In addition, there are several vacant and underutilized properties within the community that provide additional in-fill development areas and redevelopment opportunities. If the Opportunity Areas and additional in-fill areas were fully developed as contemplated by the proposed Community Plan, approximately 1,655 residential units, 40 new parcels of light industrial development, 50,000 square feet of commercial development, several recreational parks, and a commuter rail station would be built on approximately 403 acres.</p>	FIN

2006111102	Tentative Tract Map 34230 Calimesa, City of Calimesa--Riverside Subdivision of property to accommodate future development of 11 residential lots and 1 detention basin and existing church facility.	MND	12/19/2006
2006111103	Capistrano Bluffs/Pines Park Sewer Project South Coast Water District Dana Point--Orange The Capistrano Bluffs/Pines Park Sewer Project, proposed by the South Coast Water District, is intended to relieve an existing sewer line operating at full capacity. The proposed project would consist of a ten-inch pipeline that would convey sewage from an eight-inch pipeline within Camino Capistrano to an 18-inch pipeline within Coast Highway. The proposed pipeline would traverse through the northwestern portion of Pines Park and along an existing surfer trail down to Coast Highway. A total of seven new manholes are proposed as part of the project. Raised (above grade) for aesthetic and safety reasons. There are no pump stations proposed, as the sewage flows would be conveyed by gravity. The proposed pipeline would have a design capacity of at least 1.5 million gallons per day (MGD).	MND	12/19/2006
2006111105	Whittier Hills Eucalyptus Fuel Reduction Project Los Angeles County Fire Department Whittier--Los Angeles The City of Whittier and the County of Los Angeles Fire Department recognize the potential threat of catastrophic wildfires burning in the Whittier Hills and surrounding lands. This project will strategically reduce the fuel load of eucalyptus and other non-native tree species from City of Whittier property easterly and westerly of Colima Road, north of Mar Vista Street. Groves of eucalyptus cover an estimated 80 to 100 acres within the project area. Eucalyptus trees are recognized as being an extremely flammable species in terms of foliage and litter produced. Their removal will increase fire safety for adjacent subdivisions as well as allow for suitable conditions for replanting the area with native species.	MND	12/19/2006
2006111108	Zone Change 2006-07, Conditional Use Permit 2006-06, Tentative Tract Map 35175 Blythe, City of Blythe--Riverside Of the 18.7 acre site, approximately 14.16 acres are in agricultural production with the balance occupied by residential and industrial structures and/or uses. All existing structures (2 residential/1 industrial) will be raised prior to site development. The proposed project entails a change of zone for the entire 18.7 acre site from Low Density Residential (minimum 7,800 sf lots) to Planned Development; issuance of a Conditional Use Permit for a proposed 20 bed assisted living facility to be located on a one acre parcel at the northwest corner of the site; and, approval of a 103 parcel tentative tract map [101 residential parcels; one assisted living parcel; and, one recreation center parcel] to allow development of the site as proposed. Development of the site will be accomplished in two phases, with phase one consisting of 47 residential units, the recreation center	MND	12/19/2006

	and the 20 bed assisted living facility.		
2006111112	Burbank Water Reclamation Plant (BWRP) Equalization Basin Project Burbank, City of Burbank--Los Angeles The City of Burbank is proposing a number of improvements to the Burbank Water Reclamation Plant (BWRP). These improvements would be implemented in two packages. Package A and Package B, which are collectively referred to as the "Equalization Basin Project." Package A includes changing the plant's disinfection system from sodium hypochlorite to chloramination, and is being provided as a means for the City to lower the trihalomethanes (THMs) and haloacetic acids (HAAs) in the plant effluent. Aqua ammonia will be injected into the filter effluent pipeline upstream of Chlorine Contact Tank No. 1 (CCT1) to allow for complete mixing with the effluent prior to dosing chlorine to maximize formation of monochloramine in the effluent. The primary feed point for sodium hypochlorite is CCT1 and the backup feed points are at CCT2.	MND	12/20/2006
2006112107	McEvoy Design Review Marin County Novato, Petaluma--Marin The currently proposed project is for the construction of an approximately 250-kW wind energy conversion system for the generation of electricity. The proposed wind energy conversion system (WECS) consists of approximately 138-foot tall tubular tower with a 14-foot diameter base mounted with a Furlander FL250 wind turbine or equivalent wind turbine. The Furlander FL250 wind turbine rotor has a radius of 52 feet resulting in a maximum WECS height of approximately 189 feet. The project includes the installation of an underground 6-inch, 12k volt power line delivering electricity generated from the windmill to an existing transformer station. The project also includes improvements to an existing roadway for regular maintenance activities, and construction of a roadway extension to access the project site for purposes of erecting the WECS.	MND	12/19/2006
2006112108	Riley Final Map Subdivision, Planned Unit Development, Coastal Development and Special Permit Humboldt County Community Development Services --Humboldt Final Map subdivision to divide an approximately 8.5 acre parcel into 17 parcels ranging in size from 4,144 square feet to 12,847 square feet, with a remainder of 5.1 acres which is primarily wetlands and proposed to be dedicated as open space to be owned and maintained by the Manila Community Services District. The proposed subdivision is to be a Planned Unit Development which allows for reduced parcels sizes with dedicated open spaces. A Blanket Coastal Development is requested for the subdivision and the subsequent construction of single family residences with attached garages on each of the parcels. The residences will be two or three story (maximum height of 35 feet) and have a maximum size of 4,200 square feet (most residences will be in the range of 1,900 to 2,800 square feet). A Special Permit is required to allow for fill within a wetland buffer area, for major vegetation removal, and for wetland restoration following fill placement. The applicant also requests an exception to the lot frontage requirement and exception to solar shading requirements. The parcels will be served by the Manila Community Services District. 2006112109	Turton Minor Land Division (PMLD T20060180) Placer County Planning Department --Placer Proposed to divide the property into 4 single-family lots with a minimum of 4.6 acres each.	MND	12/19/2006
2006112110	U.S. Cellular Cell Tower Trinity County Planning Department --Trinity Proposed Use Permit to allow 150 foot cellular communications tower (including 2 small antennas, mounted to the tower at 100 feet and 150 feet) along with the necessary radio cabinets and electrical metering equipment to be located inside a 100' x 100' leased area on property located off Norwegian Ranch Road near the Community of Trinity Center.	MND	12/19/2006
2006112114	Emmett House Relocation and Rehabilitation Belmont, City of Belmont--San Mateo Relocation and rehabilitation of the historic Emmett House from a commercial site at 843 Ralston to a vacant site at 1000 O'Neill Avenue. Rehabilitation will include restoring original architectural details and conversion of current office spaces to two units designated for low-income residents. Site improvements include construction of a 4-car detached garage, landscaping and reconfiguration of Sixth Avenue to provide additional land area on the project site through the abandonment of excess right-of-way. Belmont Creek meanders through the north half of the site.	MND	12/19/2006
2006112116	Calaveras County Water District La Contenta Wastewater Treatment Plant Phase 2 - Effluent Disposal Spray Field (CIP Project No. 15027) Calaveras County Water District --Calaveras The proposed project includes development of a new effluent disposal spray field for the Calaveras County Water District (CCWD) La Contenta Wastewater Treatment Plant, including pumping, piping, and irrigation facilities, to match the current storage and treatment capacity to disposal capacity. The primary objective of the proposed project is to increase the disposal capacity such that the capacities of the treatment, storage, and disposal facilities are equal and have an equivalent average dry weather flow of 0.20 million gallons per day. In addition to the new spray field, the existing chlorine contact basin would be replaced with an ultra violet disinfection system. The proposed treated effluent conveyance system includes a treated effluence pumping station, wet well, and a recycled water pipeline to serve the new spray field. CCWD has purchased approximately 55 acres of land to increase disposal capacity as required for the proposed project. The project site, which includes the 25 acres for the effluent spray field and the alignment for the recycled water pipeline, is located southeast of the town of Valley Springs, along Hogan Dam Road.	MND	12/19/2006

	Ramon Creek may potentially migrate laterally into the westerly bridge foundation creating a major risk to public safety.		
2006111097	Town Center Specific Plan (Indian Wells Tennis Garden) Indian Wells, City of --Riverside Existing tennis stadium complex on 51.9 acres and 33.9 acres of temporary parking (Indian Wells Tennis Garden). Town Center Specific Plan is 97 acres and 400,000 sq. ft. of mixed use (retail, offices, restaurants, theater) and a 267-room hotel.	NOP	12/19/2006
2006111106	Bundy Village and Medical Park Los Angeles, City of Los Angeles, City of--Los Angeles The Project would involve the development of a mixed-use project with associated parking in Parcel A, which fronts Bundy Drive, and medical offices and associated parking on Parcel B, which fronts Olympic Boulevard. Parcel A would include the development of approximately 385 dwelling units (comprised of approximately 131 market-rate senior units, 77 affordable senior units, and 177 market-rate units), approximately 112,338 square feet of retail and restaurant uses in Parcel A. Access to Parcel A would be provided from Bundy Drive, near the Missouri Avenue intersection. Parcel B would include approximately 384,730 square feet of medical offices and approximately 1,968 parking spaces. Access to Parcel B would be provided from Olympic Boulevard, near the Centinela Avenue intersection. The Project Applicant is requesting the following discretionary approvals as part of the Proposed Project: Zone Change from M2-1 to RAS3-1; General Plan Amendment to change the land use designation from Light Industrial to General Commercial in Parcel A; Conditional Use Permit to allow medical offices in M2-1 zone in Parcel B; Vesting Tentative Tract Map; Site Plan Review Findings; Haul Route approval; and any other ministerial or discretionary permits or approvals to allow for development of the Project.	NOP	12/19/2006
2006111107	Garrett Ranch Specific Plan (SP 06-2) Hemet, City of --Riverside The proposed project applicant, The Garrett Group, LLC, proposes to develop 204 acres within the Northwest Hemet Neighborhood Planning Area of the City of Hemet. The current land use designation of the project site is Specific Plan (Northwest Specific Plan) per the City's General Plan Land Use Element and would remain Specific Plan with project implementation. The current zoning designations of the project site are A-5 (Heavy Agricultural), C-2 (General Commercial), M-2 (Heavy Manufacturing), and R-1-6 (Single-Family Residential) per the City's Zoning Code. The proposed zoning of the project site would be determined by the specific plan, which would also contain the development standards and design guidelines of the proposed project.	NOP	12/19/2006
2006112117	2007 Amendment to the Redevelopment Plan for the Galt Redevelopment Project Galt, City of Galt--Sacramento Initial Study for a Program EIR for the proposed 2007 Amendment to the Redevelopment Plan for the Galt Redevelopment Project.	NOP	12/19/2006

	water to spread out and cover a larger area. By creating a flatter surface along the creek bottom, OCWD would be able to increase the surface water flow that recharges into the groundwater basin from 15 cfs up to about 30 cfs. Assuming water is available for recharge six months of the year, approximately 5,400 acre-feet of water could be replenished annually into the groundwater basin.		
2006112112	To Minor Subdivision Humboldt County Community Development Services Eureka--Humboldt The subdivision of a 0.52 acre parcel into three parcels ranging in size from 6,705 sf to 9,090 sf (net). Proposed Parcels 1 and 2 already have residences. Proposed Parcel 3 is vacant. The parcels are accessed via Amigo Court, a private road within a 40' wide right of way. Water and sewer provided by HCSD. The Special Permit is for an exception to the rear yard setback for proposed Parcel 1 per §314-99.1.3.5, HCC.	Neg	12/19/2006
2006112113	Feldman Minor Subdivision and Special Permit Humboldt County Community Development Services Arcata--Humboldt A minor subdivision of an approximately 30.74 acre parcel into two equally sized parcels of approximately 15.37 acres. The property is currently developed with three single family residences (legally constructed) and on-site wastewater treatment systems. Two of the residences, sharing a septic system, will be situated on Proposed Parcel 2. Proposed Parcel 1 is developed with the third residence, a separate septic system and a well serving all three dwellings. A Special Permit is requested to permit the smaller residence on proposed Parcel 2 as a secondary dwelling unit. No trees are proposed to be removed and no grading is proposed.	Neg	12/19/2006
2006112115	Gayle Lane/Sunshine Meadows/Campbell Drive Water Pipeline Project Christian Valley Park Community Services District Auburn--Placer The proposed project consists of the construction of a water pipeline extension to supply treated water to approximately 60 residences that currently do not receive treated water. The majority of the project will be located underground within the shoulders of existing roads; one section approximately 500 feet in length will require trenching along the property line of two parcels. The new pipeline extension will also provide a second connection for the existing distribution system, increasing reliability and helping to alleviate pressure fluctuations located further downstream.	Neg	12/19/2006
1988062220	Metropolis Mixed-Use Project Los Angeles, City of Los Angeles, City of--Los Angeles The project consists of approximately 3.2 million gross square feet of residential, office, hotel and retail uses in four high rise buildings with associated parking and open space in downtown Los Angeles. The project would include 836 residential units and a 480 room hotel. The maximum building height would be up to 620 feet above the existing grade exclusive of antennas and other rooftop mechanical equipment. Parking would be provided in excess of code requirements within a five-story parking podium with one at-grade level, four above-grade levels, and from one to four subterranean levels varying by phase. The potential environmental effects of the project have been the subject of a certified Final EIR, an Addendum approved in 2000. The project was approved by the CRA in	SIR	01/03/2007

2006118170	Boron ASR Project Regional Water Quality Control Board, Region 6 (Lahontan), Victorville --Kern Natural groundwater at Well No 15 does not meet drinking water standards for arsenic and fluoride. Boron CSD now relies exclusively on imported State Water Project water from the Antelope Valley East Kern (AVEK) Water Agency. The CA Dept. of Health Services requires BCSD to develop secondary water source. BCSD proposes a pilot test to import AVEK water, inject 60 acre-feet over 60 days into Well NO 15, wait 2 months, and extract water for blending with AVEK water.	NOE	
2006118171	Agreement 2006-0080-R4; Mill Creek Pipe Crossing Fish & Game #4 Visalia--Tulare Excavate a trench to install a pipe, with concrete slurr around and over the pipe, to transport irrigation water and manure to outlying farmlands.	NOE	
2006118172	Plate Boundary Observatory - Ocotillo Wells State Vehicular Recreation Area (SVRA) Parks and Recreation, Department of --San Diego This project will install a Plate Boundary Observatory that will monitor tectonic processes using Global Positioning Systems (GPS). The project will install one high precision, permanent GPS, station. The GPS measurements will play a key role in scientific research and mitigation of geologic hazards in the San Jacinto fault. The GPS station will operate until at least September 30, 2017.	NOE	
2006118173	San Pedro Creek Fish Passage at Adobe Bridge California State Coastal Conservancy Pacifica--San Mateo Grant to the City of Pacifica to improve fish passage by removing a box culvert where San Pedro Creek flows below the Adobe Street bridge. The project consists of 1) removing the culvert, 2) reconstructing a natural creek bed with placement of rock weirs to facilitate fish passage, and 3) post-project effectiveness monitoring for at least three years following construction.	NOE	
2006118174	Six Rivers to the Sea; Valley View Ranch Conservation Easement California State Coastal Conservancy --Humboldt California Department of Forestry and Fire Protection will acquire a conservation easement over 1,532 acres of grazing and timber lands for the purposes of protecting and preserving working ranch and timber resources and the natural and open space and habitat qualities and values associated with grazing land, and protect and preserve riparian habitat. 	planning and monitoring measures to insure that no significant adverse impacts will occur due to this project.		
2004052002	UCDMC Davis Tower Exterior Sign Project University of California Sacramento--Sacramento The proposed project is the nighttime illumination of two exterior signs attached to the north and west facades of the Davis Tower at the UC Davis Medical Center campus. The top of the parapet is approximately 197 off the ground. One sign faces north toward V Street and U.S. Highway 50 and the other sign faces west toward Stockton Avenue and Business I-80/SR 99. The letter sizes range from 3.5 to 5 feet tall. Each letter of the signs would be opaque blue plastic outlined with one-inch wide white translucent material that would include a white light source. The signs would appear blue during the day; at night, only the white outline of the letters would be visible when the signs are illuminated.	NOD	
2005121094	Interstate 10 at Ramon Road/Bob Hope Drive Interchange Caltrans #8 --Riverside This project will construct a roadway extension and a new eight lane overcrossing over I-10.	NOD	
2006091048	City of Murrieta General Plan Amendment; Monroe Avenue Improvement Project Murrieta, City of Murrieta--Riverside The City of Murrieta proposes to construct a section of Monroe Avenue, which would include improvements to the north-south Monroe Avenue roadway to meet the design criteria proposed by the General Plan Circulation Element. The project would also eliminate access to Shoshonee Drive from Los Alamos Road. Shoshonee Drive would be reconfigured to end in a "knuckle" at its connection to Symeron Way. Elimination of access to Los Alamos Road from Shoshonee Avenue is required within the context of the proposed Monroe Avenue improvements to maintain minimum distances between intersections for safety along Los Alamos Road. The project also includes the construction of traffic signals at the intersections of Monroe Avenue and Los Alamos Road and Monroe Avenue and Symphony Park Lane, two signals within the new section of Monroe Avenue, and pavement, curb and gutter improvements along the northern side of Los Alamos Road at its current intersection with Shoshonee Drive.	NOD	
2006091146	Cove K-8 School San Jacinto Unified School District San Jacinto--Riverside The project proposes to acquire an approximately 13.9-acre site to construct and operate the new Cove K-8 School within The Cove Specific Plan, which is currently under construction. The proposed new K-8 school is intended to accommodate the student population generated as a result of the new residential development within the Specific Plan area as well as additional development within the City and District. The school would serve grades kindergarten through eight and have an enrollment capacity of 1,121 students. The K-8 school is projected to open in the fall of 2008 and is anticipated to operate on a traditional calendar, classes begin in early September and end in mid/late June the following year.	NOD

2005062160	Parkmoor/Race Residential General Plan Amendment and Planned Development Rezoning San Jose, City of San Jose--Santa Clara The proposed General Plan Amendments would change the City's General Plan Land Use designation on the entire 21.5-acre site from Industrial Park to High Density Residential (25-50 dwelling units per acre). Two Planned Developed (PD) zonings proposed on 19.3 acres of the site would allow development of up to 969 residential units and 5,000 square feet of commercial space. The first rezoning (PDC06-024) includes the 8.7 acres located north of the UPRR and LRT tracks and would allow development of up to 435 residential units on this portion of the site. The second rezoning (PDC06-025) includes the 10.6 acres located south of the tracks and would allow up to 534 residential units and 5,000 square feet of commercial space. The project includes demolition of the existing 348,000 square feet of offices and research and development (R&D) space on the site. The specific development project proposed on a 19.3-acre portion of the site would consist of up to 969 units, including townhouses and up to four stories of apartment/condominium development above a partially below-grade parking garage. The project also includes approximately 5,000 square feet of retail space near the intersection of Race Street and Parkmoor Avenue, adjacent to the existing Race Street LRT station.	EIR	01/05/2007

2005091071	Gateway Village Area Plan Madera County Madera--Madera A development of a comprehensive planned conversion of 2,062-acre site to urban uses. The master planned community as proposed would consist of 1,457 acres of 5,836 low-density residential units, 132 acres of commercial and mixed use (including 742 residential units), 40 acres of highway service commercial uses, 19 acres of neighborhood commercial uses, 148 acres of open space, and 177 acres of right-of-way. The project site also includes existing light industrial uses (89 acres). In addition, the project includes improvements to some off-site area (approximately 2,940 acres) related to infrastructure improvements.	EIR	01/05/2007
2006111118	Scott Road Booster Station and Pipeline Project Eastern Municipal Water District --Riverside The proposed project would consist of a 5,000 gallon per minute booster station and the installation of approximately 12,000 linear feet of water transmission pipeline to convey potable between the 1627 and 1700 pressure zones to serve development in the Menifee area.	MND	12/21/2006
2006112128	Foundry Demolition Project Benicia, City of Benicia, Vallejo--Solano The project consists of the demolition of a City Landmark, formally known as the "foundry" building located at 720 East H Street. The building is located on an industrial site vacant of any use and contains two buildings that have been designated by the City of Benicia as historic landmarks. The other structure is commonly referred to as the "office" building, which is not part of the demolition.	MND	12/21/2006
2006112130	California Family Fitness GPA and Rezone (EG-06-1014) Elk Grove, City of Elk Grove--Sacramento This project consists of a General Plan Amendment (GPA) to change the land use designation from Light Industry to Commercial and a Rezone from Light Industrial (M-1) to General Commercial (GC) of a 21.5 acre parcel. The intent of the GPA and Rezone is to allow for the development of a complex of buildings with a Fitness Center as the primary use and associated retail, office, restaurant, and other complimentary commercial uses. Initially the GPA and Rezone would allow for commercial uses to occupy and operate within an existing 188,000 square foot building that currently is on the site. Although the GPA and Rezone project does not include a Design Review for any immediate development, a conceptual master plan has been submitted for review with this project. The conceptual master site plan shows seven new buildings totaling 50,425 square feet and additional parking fields in the current undeveloped northern 5 acres. The purpose of this IS is to analyze the potentially adverse environmental effects of the proposed GPA, Rezone, and future commercial development. The future development of the site will be subject to discretionary actions by the City, however, additional environmental review should not be necessary.	MND	12/21/2006

storms.

The project site is located within the Lower San Joaquin Reclamation District in Madera County. The site is located along the western bank of the Chowchilla Canal, approximately 4.5 miles northeast of the City of Mendota, and protects an agricultural area near the City of Firebaugh. The area of erosion is approximately 100 by 40 feet. Total project footprint is approximately 1.5 acres.

The repairs for this levee site would consist of restoring the original level of protection by reconstructing the levee embankment to the pre-flood slope and height and by restoring the rock protection on the levee slope. Debris deposited by the flood fight on the eroded slopes and rockfill material placed by the Lower San Joaquin Levee District (LSJLD) during the flood fight will be removed and stockpiled in order to complete the repairs. A layer of compacted impervious fill will be constructed on the waterside slope to prevent seepage through the levee, and the levee crown will be built up using compacted aggregate-base course material. The stockpiled rockfill will be placed landside of the levee toe creating a berm-blanket.

2006118200	Peterson Road II Defensible Fuels Profile Project Forestry and Fire Protection, Department of --Fresno	NOE	
	Construct a fuel break 200 feet each side of Peterson Road for approximately 3 miles. The project will encompass 90 acres. The scope of the project is to remove heavy slash build up on the forest floor, reduce the brush component, and thin out dense understory trees. Overstory trees shall be pruned to a minimum height of 10 feet. Hand cutting and a roadside chipper will be used. Slash will be stacked and burned as allowed. Chipping will occur on those days that burning is not allowed. Chips will be spread to a depth of no more than 4 inches.

2006112140	<p>El Dorado Street Widening Project Stockton, City of Stockton--San Joaquin</p> <p>The project proposes to widen El Dorado Street from Mariposa Avenue to the Calaveras River. Each side of the existing roadway will be widened to accommodate an additional northbound traffic lane. Landscaping between the existing curb and sidewalk on both sides of the street will be removed, and new curb, gutter, five-foot sidewalks, and street lighting will be constructed. Intersection improvements at Alpine Avenue, Fulton Street, and Churchill Street will consist of replacing signals and modifying left turn lanes.</p>	MND	12/26/2006
2005121046	<p>Specific Plan for the Urban Transit Village Project El Monte, City of El Monte--Los Angeles</p> <p>Implementation of the Specific Plan would involve substantial demolition; extensive construction activities, including major multi-story structures and modifications to the planning area utility infrastructure; and possible major modifications to the area circulation system and integration of the land uses with the public mass transit systems that serve the project area.</p>	NOP	12/26/2006
2006111123	<p>Tesoro Viejo Development Madera County --Madera</p> <p>The Tesoro Viejo Project would consist of the development of a new community on a 1,600+/- acre property known locally as the Peck Ranch that is part of the Rio Mesa Area Plan (RMAP) about 8 miles north of Fresno between the San Joaquin River to the east and Highway 41 to the west. Tesoro Viejo will encompass almost all of that area designated in the RMAP as the Rio Mesa Community or Core Village. An additional 155 acres of land in other ownerships to the north is included in the Rio Mesa Community Village and its potential development may also be evaluated in the EIR although no proposals have been made for such development.</p>	NOP	12/26/2006
2006112133	<p>Ralston Investments Subdivision 2005-043 Lassen County --Lassen</p> <p>The project applicant is proposing a subdivision of a 68.77 acre parcel in the unincorporated community of Johnstonville to create 60 single-family residential lots averaging 1.14 acres in size. The project includes a rezone of the site from R-1-A-B-2.5 (Single-Family Residential, Agriculture and Building Site Combining zones, 2.5 acre minimum parcel size) to R-1-B-1 (Single-Family Residential, Building Site Combining District, 1-acre minimum).</p>	NOP	12/26/2006
2006112139	<p>Sunridge Specific Plan Traffic Thresholds Project Rancho Cordova, City of --Sacramento</p> <p>Objectives of the proposed project are as follows:</p> <ul style="list-style-type: none"> - Provide the City with flexibility in the prioritization of roadway improvements in response to available funding, roadway capacity, demand, and the need for local, State, and federal agency approvals; - Facilitate the implementation of the City's General Plan by allowing for timely delivery of development projects and thus the ongoing generation of fees to fund transportation improvements; and - Facilitate the implementation of the City's Capital Improvement Program (CIP) by 	NOP	12/26/2006

2005101112	LA Ventana II General Plan Amendment / Zone Change Santa Maria, City of Santa Maria--Santa Barbara The proposed General Plan amendment and zone change would allow for the development of up to 100 single-family residences, 60 condominiums and a 70,000-square foot commercial center.	NOD	
2006021121	KB Home Residential Project at 17210 Oak Street Fountain Valley, City of Fountain Valley--Orange Development of 55 single-family dwelling units on approximately 15 acres requiring a Zone Change (No. 408), Precise Plan (No. 485), Tentative Tract Map (No. 16902), and Development Agreement.	NOD	
2006101002	Reservoir 7990-2 Coachella Valley Water District --Riverside The Reservoir 7990-2 project proposes the construction of a 500,000-gallon, steel water reservoir on the same 2-acre parcel of the existing 500,000-gallon Reservoir 7990-1 that was constructed in 1973. The project includes shallow excavation to construct a concrete ring wall and all appurtenances necessary to connect the reservoir to the existing domestic water system on-site. The purpose of the Reservoir 7990-2 project is to provide additional water storage for increasing domestic water and fire protection demands within the North Shore and Area 23 Pressure Zones, which include the areas of North Shore, Bombay Beach, and Hot Mineral Spa. This additional water storage reservoir will provide energy savings by alleviating the need to operate associated domestic water wells during peak electrical consumption periods. In addition, a second reservoir will allow removal of one reservoir from service for routine maintenance and repairs.	NOD	
2006101003	Reservoir 1092-2 Coachella Valley Water District --Imperial The Reservoir 1092-2 project proposes the construction of a 2.5-million gallon, steel water reservoir on the same 5-acre parcel of existing 1.0-million-gallon Reservoir 1092-1 that was constructed in 1964. The project includes shallow excavation to construct a concrete ring wall and all appurtenances necessary to connect the reservoir to the existing domestic water system on-site. The purpose of the Reservoir 1092-2 project is to provide additional water storage for increasing domestic water and fire protection demands within the Sunrise and improvement District 11 Pressure Zones. This additional water storage reservoir will provide energy savings by alleviating the need to operate associated domestic water wells during peak electrical consumption periods. In addition, a second reservoir will allow removal of one reservoir from service for routine maintenance and repairs.	NOD

2006118204	Washington Street Bridge Rehabilitation Project Fish & Game #3 Petaluma--Sonoma The project operator proposes to repair the Washington Street Bridge over the Petaluma River. The area around the 13 column supports in the center of the bridge will be dewatered and dredged to allow access to the entire length of the columns and their steel piles. The columns and steel piles will be cleaned and any unsound concrete will be removed. Permanent encapsulation jackets made of concrete, fiber reinforced polymer, or some other protective material will be placed around the columns to shield them from the marine environment. The dredged river mud will be replaced once the repairs have been made. Issuance of a Streambed Alteration Agreement Number 1600-2006-0311-3 is pursuant to Fish and Game Code Section 1602.	NOE	
2006118205	Colonial Park Wall Repair Fish & Game #3 Santa Rosa--Sonoma The project will protect two eroding sections of a wall adjacent to Pruitt Creek by placing approximately 32 cubic yards of rock rip-rap and clean rock fill along the retaining wall where it is being undermined. This rock will be placed in two sections, one about 50 feet long and one about 14 feet long. The rock will be placed against the wall and tapered out into the low flow channel three or four feet. Issuance of a Streambed Alteration Agreement Number 1600-2006-0658-3 is pursuant to Fish and Game Code Section 1602.	NOE	
2006118206	Bridge Installation, Non-native Vegetation Removal and Native Plant Restoration Fish & Game #3 Los Gatos--Santa Clara The proposed project involves the installation of a wooden bridge, the removal of non-native vegetation and two tree stumps, and the revegetation of the creek banks with native plants. There are also two utility pipes that cross the creek near the top of the bank that may need to be relocated and attached to the bridge. The bridge will be supported by cement piers that will be placed outside the creek banks, allowing the bridge to span the whole creek.	NOE	
2006118207	Palo Prieto Conservation Bank, Still Parcel Conservation Easement Fish & Game #3 --San Luis Obispo, Kern As part of the establishment of the Palo Prieto Conservation Bank the Department of Fish and Game through the Wildlife Conservation is accepting the dedication of a conservation easement on the 876 acre Still Parcel. The conservation easement, which provides for perpetual protection of the natural habitat of the site, in conjunction with implementation of management actions, primarily grazing, will serve as mitigation for the impacts of development project to San Joaquin kit fox habitat.	NOE	
2006118208	Wheelchair Ramps at 4th & 6th Street (HES) Taft, City of Taft--Kern The proposed project includes the installation of new wheelchair ramps and installation of new curb and gutter in designated areas in order to match existing conditions and meet ADA standards.	NOE

2006118215	<p>Sunrise Fuel Break Forestry and Fire Protection, Department of --San Diego</p> <p>This project consists of the maintenance of the historic Sunrise Fuel Break established during the 1950's. The existing fuel break stretches for about 8.5 miles and averages 300' wide. The fuel break was designed to help protect the community of Julian and their outlying rural areas from wildfires coming from the east. The flammable fuels consist of; mixed chaparral, grassy meadows, and some dead conifers killed by either the bark beetle or past fires. Work to be done consists of brush removal, falling of dead trees, and pruning limbs of live hardwoods and conifers up to 6 feet. The maintenance the fuel break will be accomplished by either mechanical chipping of material, piling and burning, or broadcast burning. Hand lines may be constructed on the perimeter of the fuel break when burning the fuel break. The property owners consist of private, BLM and State Parks. All fuel break maintenance shall be done in cooperation with these partners.</p>	NOE	
2006118216	<p>Southern Edge Drainage Improvement Project Fish & Game #5 Montebello--Los Angeles</p> <p>The operator proposes to remediate the erosion problem associated with the existing dirt access road and utility easement that runs the entire length of the southern boundary of the 488 acre oilfield. The proposed action would improve stormwater runoff collection and the drainage system to avoid sediment deposits into the residential area below the oilfield. The project as proposed will impact approximately 0.128 acre of the CDFG stream, including 0.06 acre of riparian habitat and 0.068 acre of unvegetated drainage. SAA# 1600-2006-0186-R5</p>	NOE	
2006118217	<p>Pacific Gas and Electric Company, Diablo Canyon Power Plant Hazardous Waste Treatment and Storage Permit Renewal Toxic Substances Control, Department of --San Luis Obispo</p> <p>PG&E has applied to the DTSC for the authorization to continue the operation of hazardous waste treatment and storage facility at the Diablo Canyon Power Plant. Diablo Canyon Power Plant (DCPP) is a nuclear electric generation facility owned and operated by the PG&E Company. DCPP site consists of approximately 585 acre high security zone within a total of 12,000 acres of coastline property jointly owned by PG&E and Eureka Energy Company, a subsidiary of PG&E.</p>	NOE	
2006118218	<p>Acquisition of Warner Springs Fire Station Property General Services, Department of --San Diego</p> <p>The proposed action consists of the fee acquisition of land currently leased for the existing Warner Springs Fire Station in San Diego County. The site is approximately four acres; the APN is 137-092-26. The parcel has been leased by the California Department of Forestry and Fire Protection for several years for the fire station and associated improvements. The state is acquiring the parcel to assure it remains available for operation of the existing station and to facilitate potential future improvements to this critical public safety facility.</p>	NOE

2006081078	City of El Centro Zone Change 05-02 and Tentative Subdivision Map (Miller Burson) El Centro, City of El Centro--Imperial Project implementation includes annexation, a zone change from County zoning, General Agriculture/Urban Overlay (A2U) to City zoning Single Family Residential (R-1). Project implementation will result in the subdivision of approximately 160 acres of farmland into 496 lots, which will allow for the development of 494 single-family residences on an average lot size of 7,200 square foot lots, 8.78 acre detention basin, and the dedication of approximately 11.77 acres for a future elementary school (with a proposed joint use school/park). Project implementation will also require the extension and/or upgrade of public services and utilities and the internal circulation system.	EIR	01/11/2007
2006012007	Yuki Pear Orchard Removal Sacramento County Sacramento--Sacramento The project proposes the following actions to the project site: 1. Remove the pear orchard and all other trees on the site and on the Airport Operating Area adjacent to the site using excavations or similar equipment. The trees would be chipped or disposed of in the most appropriate manner. It is anticipated that a wood recycling feasibility analysis will be conducted. 2. Replace the orchard with a grass monoculture similar to the grass in the airfield, or Airport Operating Area (AOA). The grass will be maintained through periodic disking to eliminate habitat for wildlife species that regularly intrude into the nearby AOA, thereby posing a hazard to safe aircraft operations. 3. The existing airfield perimeter fence that forms the northern and eastern sides of the property (bounded by Delta and Walnut Roads, respectively) will be removed. A new, higher airport perimeter fence compliant with Federal Aviation Administration (FAA) requirements will be installed in such a manner that the entire property will be completely enclosed within the secure airfield. 4. Houses and other farm structures will be removed by demolition or through a joint training exercise for Aircraft Rescue and Fire Fighting (ARFF) and City of	FIN

	Sacramento Fire Stations 3 and 30. The decision to proceed with such a training exercise will be based on the results of an analysis of lead-based paint and asbestos containing materials in the structures.		
2006101012	Wespac Pipelines' Jet Fuel Storage Tank Expansion Project San Diego Unified Port District San Diego--San Diego The proposed project is to expand the petroleum storage capacity at the Tenth Avenue Bunker Fuel Facility by approximately 50,000 barrels (177,000 barrels to approximately 220,000 barrels) by removing two out-of-service 25-foot diameter tanks and installing one 80-foot diameter cone roof tank in the vacated space.	FIN	
2006111131	Buttonwillow Wastewater Project Buttonwillow County Water District --Kern Buttonwillow County Water District has a 50 year old sewage collection, treatment and disposal system. The wastewater treatment system uses an old IMHOFF Tank that is deteriorated and not capable of adequately treating the wastewater to meet State of California acceptable effluent discharge requirements. Nitrate levels in the groundwater ion the surrounding area have increased. The Regional Water Quality Control Board has accepted the declaration of a potential pollution problem by the County Health officer and recommended the project be placed in a Class B Priority for Small Community Wastewater Grant funds. The District plans on obtaining State Small Community Wastewater Grant funds and/or Federal funds to replace the District's existing old sewage treatment and disposal system on existing District land. The new wastewater system will provide improved treatment and disposal capacity needed to serve the existing community and meet wastewater discharge requirements.	MND	12/27/2006
2006112145	Belmont View Belmont, City of Belmont--San Mateo The proposed project would entail development of a three-story structure on the vacant lot. Development plans include a sub-grade parking level, a ground floor containing two commercial units, and second and third floors providing six residential units. The project would provide 12 on-site parking spaces in the basement level of the structure.	MND	12/27/2006
2003042113	Lodi Shopping Center Lodi, City of Lodi--San Joaquin The description has not changed from that described in the original EIR. The project includes the construction of approximately 340,000 square feet of commercial retail uses. The primary user will be Wal-Mart which will occupy approximately 227,000 square feet of floor area, including approximately 70,000 square feet of grocery sales. The remainder of the project will consist of several buildings of varying sizes which will be occupied by such retail uses as a pharmacy , financial services/bank, professional/business services, and other retail sales and services. <u>Documents Received on Tuesday, November 28, 2006</u>			
2006111132	500 Orange Center Orange, City of Orange--Orange The proposed project consists of three office buildings (five to nine levels in height) containing 475,000 square feet of office space with related above-ground parking structures, and an 8,000 square foot retail component serving the immediate area. Also proposed as part of the project is a network of roadways for automobile access and circulation and related landscape amenities. The project site, currently vacant, is referred to as Phase 2 of the Koll Center Orange development. The intention is for the project to be integrated with the existing development (Phase 1 Koll Center Orange). Phase 1 consists of a 14-story office building, one-story office building, one-story restaurant, 10-story Hilton Hotel, a health club (approximately 42,000 sf), and surface and structured parking (four stories in height).	NOP	12/27/2006
2006111133	California State University Bakersfield Campus Master Plan Update California State University Trustees --Kern The project is an update of California State University Bakersfield's Campus Master Plan (CMP). The purpose of the CMP Update is to provide a comprehensive, coordinated plan for the expansion of CSUB's physical facilities to accommodate an expected increase in enrollment from the current level of 7,000 full-time enrolled students (FTES) to 18,000 FTES over the next ten years.	NOP	12/27/2006
2006112141	Tuolumne County 2005/06 Regional Transportation Plan Tuolumne County --Tuolumne The proposed project is the adoption and implementation of the RTP in Tuolumne County. The RTP is a blueprint for the systematic development of a balanced, comprehensive, multi-modal transportation system, including but not limited to: roadways, transit, aviation, goods movement, bikeways, pedestrian facilities, transportation systems management and intelligent transportation systems. In addition, the RTP is action oriented and pragmatic, considering both the short-term (up to ten year) and long-term (ten to twenty year) periods.	NOP	12/27/2006
2006111130	Density Bonus Overlay (DB) Zone District Inyo County Planning Department --Inyo An amendment of Inyo County's residential Density Bonus Overlay (DB) Zone District. The amendment will update the zone district to comply with the State of California's Density Bonus Law.	Neg	12/27/2006
2006112144	SP 05-01: Revised Grading, Erosion Control and Hillside Development Ordinance Shasta Lake, City of Shasta Lake--Shasta The proposed project is a revision of the City of Shasta Lake Grading, Excavation and Filling Standards Ordinance (Title 12 of the Shasta Lake Municipal Code). The new Ordinance, entitled "Grading, Erosion Control and Hillside Development" would be codified as Title 15 of the Shasta Lake Municipal Code. The Ordinance incorporates requirements for grading and clearing permits, environmental review, required inspections, erosion control, and design criteria for all projects within a hillside area and projects within skyline and ridgeline areas. The ordinance also incorporates guidelines for penalties and remedies.	Neg	12/27/2006

2006118230	<p>Sacramento River Bank Protection Project 2006 Critical Levee Emergency Repair Project - 14 Sites Reclamation Board --Sacramento, Yolo, Solano, Sutter</p> <p>The Governor declared a State of Emergency for the California levee system on February 24, 2006 and on March 7, 2006 issued Executive Order S-01-06. The Governor's proclamation and executive order focused on the imminent threat of catastrophic levee failure at 24 critical levee erosion sites (CLES). Nine additional sites were subsequently added to this repair effort for a total of 33 initial CLES.</p> <p>The Corps through the SRBPP partnership with the Board agreed to repair 14 of the 24 new sites chosen. The first phase will secure the site against imminent levee failure by providing a quarry stone rock buttress extending below the water surface from the levee toe up to the mean summer water elevation (MSE). During the second phase, to commence following the recession of high water in late spring or early summer 2007, rock benches will be constructed at all sites and covered with soil to support the placement of in-stream woody material (IWM), tree plantings and shrub vegetation to promote bank stabilization and increased in-stream habitat value, riparian habitat and shaded riverine aquatic habitat.</p>	NOE

2005092083	<p>Sonoma Valley Recycled Water Project (SVRWP) Sonoma County Sanitation District --Sonoma</p> <p>The project would consist of construction, operation, and maintenance of the following components:</p> <ul style="list-style-type: none"> - 34 miles of recycled water pipelines extending from the SVCSW wastewater treatment facility to the users; - Storage facilities, i.e., (1) an operational and capacity storage reservoir adjacent to the SVCSW wastewater treatment facility, (2) two abandoned City of Sonoma steel water storage tanks for operational storage, and (3) additional capacity storage reservoirs for long-term storage; - Pumping facilities, i.e., (1) one booster pump station to maintain sufficient water pressure to supply recycled water through the distribution system; and (2) one distribution pump station to pump recycled water from one operational and one capacity storage reservoir to the pipelines; - Service turnouts for pipelines and other facilities for the purpose of maintenance; and - Associated connecting pipelines and other appurtenances for connecting project components. 	FIN	
2006111144	<p>General Waste Discharge Requirements for Groundwater Remediation for Petroleum Hydrocarbon Fuel, VOCs and Chromium 6 Regional Water Quality Control Board, Region 4 (Los Angeles) --Los Angeles, Ventura</p> <p>The Regional Board is proposing to adopt General Waste Discharge Requirements (WDRs) for groundwater remediation at sites impacted by petroleum hydrocarbon fuel, volatile organic compounds and/or hexavalent chromium. Petroleum hydrocarbon fuel, volatile organic compounds and/or hexavalent chromium contaminate groundwater at various sites throughout the Los Angeles Region and causes or threatens to cause adverse impacts to existing and potential beneficial uses of the region's groundwater resources. Remediation/cleanup of groundwater at these sites includes the use and application of chemical, biological, and physical treatment processes, such as oxygen enhanced process, chemical oxidation, chemical reduction, nutrient or chemical addition for enhanced biodegradation, or groundwater pump and treat technology with the return of treated groundwater to the same aquifer zone in some cases.</p>	MND	12/29/2006
2006111145	<p>Abandonment of Plains Pipeline, L.P. Gaviota Booster Pump Station Santa Barbara County --Santa Barbara</p> <p>Plains Pipeline, L.P., the owner/operator for the Gaviota Booster Pump Station, proposes to abandon their facility located on the Gaviota Terminal Company property. Plains proposes to carry out the demolition and reclamation of the Gaviota Booster Pump Station in two phases. Phase 1 would consist of removing all surface structures including piping, valves, equipment and other related above ground materials. Phase 1 is estimated to take approximately two weeks to complete. Phase 2 would involve removing a control/storage building, subsurface pumps, piping, valves, electrical cabling, conduit, other buried material, and grading the site to the grade and contour of the surrounding site area. Phase 2 is estimated to take approximately four weeks to complete.</p>	MND	12/29/2006

2006111146	Tentative Tract TT-06-060 Victorville, City of Victorville--San Bernardino To allow for the development of a 78-lot single-family residential subdivision on approximately 20 gross acres of land.	MND	12/29/2006
2006112151	A Special Permit to Allow Development within a Streamside Management Area (SMA) Humboldt County Community Development Services --Humboldt A Special Permit for a reduction of the 100' Streamside Management Area (SMA) for several tributaries to Little Larabee Creek to accommodate construction of a single-family dwelling and septic system. The septic tank is proposed to be constructed within the SMA, but the leachfields are to be located more than 300' from all stream and other wet area transition lines. The proposed single family dwelling is sited +/- 43' from the stream transition line of the western intermittent drainage course (swale) and approximately 47 feet from an "other wet area" as defined by the biologist in relation to the County's Streamside Management Area Ordinance system of classification. A biological report has been prepared and circulated to the Redding office of DFG for comments. The report proposes several mitigation measures to insure all potential runoff and pollutants are controlled, eliminated, or captured. The report also recommends extensive planting of native vegetation to reduce potential erosion and stabilize disturbed areas, and prohibits grading during the wet season.	MND	12/29/2006
2006112155	Danco Group Conditional Use Permit Modification, Lot Line Adjustment and Special Permit Humboldt County Community Development Services --Humboldt A Lot Line Adjustment and Modification to an existing Conditional Use Permit to allow the expansion of the Timber Ridge Assisted Living Facility and the construction of a Dementia Facility. The Lot Line Adjustment will involve the two parcels of 2.65 acres and 16.85 acres each. The parcels will exchange +/- 0.75 acre to result in one parcel of 3.40 acres and the other of 16.10 acres. The smaller of the parcels is developed with the Timber Ridge Assisted Living Facility, the larger is currently vacant. The assisted living center will add 74 beds and the dementia care facility will be constructed with 24 beds. A Special Permit is being processed with the CUP Modification to establish parking based on the parking ratio established for the original CUP approved for Timber Ridge McKinleyville. The development is and will be served by McKinleyville Community Services District.	MND	12/29/2006
2006111138	Conoco Phillips Los Angeles Refinery PM10 and NOx Reduction Projects South Coast Air Quality Management District Carson--Los Angeles ConocoPhillips is proposing particulate matter less than 10 microns (PM10) and nitrogen oxide (NOx) reduction projects at its Los Angeles Refinery at both its Wilmington and Carson Plants to comply with SCAQMD rule requirements to reduce PM10 and NOx emissions. The projects include modifications at both locations designed to comply with SCAQMD Rules 1105.1 and Regulation XX (RECLAIM). Proposed changes at the Wilmington Plant include a new Wet Gas Scrubber and a new Selective Catalytic Reduction (SCR) unit. Changes to the Carson Plant include one new SCR unit. The potential environmental impacts of the proposed project on environmental resources will be analyzed in the Draft EIR.	NOP	12/29/2006

2006061134	Conditional Use Permit Application No. C-06-133 Fresno, City of --Fresno Conditional Use Permit Application No. C-06-133 requests authorization to construct Water Well Pump Station #61A. The proposed facility will pump groundwater into the City's municipal water distribution system and has been configured to use water remediation tools. The facility will be constructed in three phases.	Neg	01/02/2007
2006111137	PM063463 / RENVT200600009 / 2576 1/2 Turnbull Canyon Road, Hacienda Heights Ca Los Angeles County Department of Regional Planning --Los Angeles The proposed project is a request for a Tentative Parcel Map to subdivide one existing parcel (1.01 acres) into three lots (ranging from 12,220 to 17,054 sq. ft. lots). The project site presently has one single family home built in 2004 that will remain. The existing single family home will continue access from Daytona, the remaining two parcels will be accessed via Vallecito Drive. The proposed 2-story, 3,000 sq. ft. single family dwellings will consist of 4 bedrooms and 3 car garages. There are two oak trees on the premises that will be removed (an oak tree permit is required).	Neg	12/29/2006
2006111140	Morning Drive Pipeline Project East Niles Community Services District Bakersfield--Kern The project will connect the Morning Drive pump station located on Morning Drive near College Avenue to the Freeway Tank site located near the south right-of-way of State Highway 178 with an 18-inch potable water pipeline. 2006111141	Redbank Road Pipeline Project East Niles Community Services District Bakersfield--Kern The ENCSD is planning to install a 12-inch PVC pipeline from the intersection of Weedpatch Hwy. and Redbank Road west along Redbank Road to South Fairfax Road and then north along Fairfax to Shirley Lane. The pipeline will run for approximately 1.26 miles.	Neg	12/29/2006
2006111142	Orcutt Aquacenter Santa Barbara County --Santa Barbara The proposed project site is located near the southeast corner of Union Valley Parkway and Hummel Drive in the community of Orcutt. The project would provide a variety of water-oriented sport and recreation facilities, including: a 16,845 square foot main building, an Olympic-sized outdoor swimming pool, a 9,872 square foot building with an indoor swimming pool and other related facilities, a 4,357 square-foot storage building, outdoor water play equipment and picnic area, and 199 parking spaces. The proposed storage building would require the approval of a modification to reduce the required sideyard setback adjacent to a residentially-zoned property from 25 feet to approximately 20 feet.	Neg	12/29/2006
2006111143	Park Hill Estates Santa Barbara County Goleta--Santa Barbara Proposal to subdivide 14.36 acre parcel into 12, 1 acre residential parcels and 1 open space parcel of 2+ acres to be used for native grassland restoration and a retardation basin.	Neg	12/29/2006
2006112149	Camp Hammer Flesh Board Dam Fish & Game #3 --Santa Cruz The applicant has applied to the Department of Fish and Game for a Streambed Alteration Agreement to install a seasonal flesh board dam during 5 months/year to create a 15,000 sf pond at Camp Hammer located near Boulevard Creek in Santa Cruz County.	Neg	12/29/2006
2006112150	CFY, Inc. - Use Permit for Multi-Family Residences in a Commercial Zone - UP0710 Del Norte County Planning Department Crescent City--Del Norte The applicant has applied for a use permit to construct 81 apartments in a commercial zone district. The apartments will be connected to public water and sewer. The project is to provide affordable housing to low income households. A buffer is applied to the drainage creek on the project's western boundary. Disturbance of the buffer area is being considered to cross the creek with an access road and to construct a drainage facility. Wetlands will be disturbed near the creek crossing but will be mitigated on-site. The applicant must secure appropriate permits from the California Department of Fish and Game and Army Corps of Engineers.	Neg	12/29/2006

2006112152	Ross Nash Parcel Map Subdivision APN: 306-381-11 (S. Eureka area) Case No.: PMS-06-13 Humboldt County Community Development Services Eureka--Humboldt A Parcel Map Subdivision to divide a 1.19 acre parcel into two parcels of 11,750 sf (net) and 34,207 sf (net), respectively. A residence on the larger proposed parcel. Parcel 1, is currently under construction. Proposed Parcel 2 is vacant. The project includes an Ultimate Development Plan which depicts future subdivision of the site. It also includes an exception request per §325-9 of the Subdivision Regulations for a reduction of the required 40' road width to a 25' wide access width. Both parcels are and will be served with community water and sewer.	Neg	12/29/2006
2006112154	Bottlebrush Subdivision Redding, City of Redding--Shasta The proposed project is a 28-lot, single-family residential subdivision on a currently vacant 8.95 acre parcel. Two existing adjacent streets - Bottlebrush Drive on the north and Alamine Drive on the west - will be extended to provide access to the subdivision, and to serve as the local residential streets for lots on the east and south portions of the subdivision. A new, L-shaped residential street will serve the north and west lots. Existing utilities in the adjacent neighborhoods will be extended to serve the subdivision. Construction is expected to start in early 2007, and buildout of the project will take approximately 2 years. The extension of Alamine Drive will extend across a city-owned open space area, and will require construction of a road crossing over an intermittent creek.	Neg	12/29/2006
