STATE CLEARINGHOUSE

---

**SUMMARY  
OF  
POSTINGS**

**October 1 – 15, 2013**

# STATE CLEARINGHOUSE SUMMARY OF POSTINGS

The State Clearinghouse distributes draft environmental documents to state agencies for review and comment, pursuant to the California Environmental Quality Act (CEQA). The State Clearinghouse also acts as the State Single Point of Contact for the review of federal grant applications and federal development projects. This Summary of Postings summarizes the environmental documents and federal grant applications received by the Clearinghouse during the period **October 1 – 15, 2013**.

## CLEARINGHOUSE CONTACTS

Please contact The State Clearinghouse if you have any questions regarding processing of environmental documents or grant applications. We may be reached at:

Telephone: (916) 445-0613  
Fax: (916) 323-3018  
e-mail: [state.clearinghouse@opr.ca.gov](mailto:state.clearinghouse@opr.ca.gov)  
website: [www.opr.ca.gov](http://www.opr.ca.gov)

Questions regarding federal grant notices should be directed to **Sheila Brown**.

Questions regarding processing of environmental documents should be directed to:

**Scott Morgan**  
Director

## CLEARINGHOUSE MAILING ADDRESS

The mailing address is:

### USPS:

State Clearinghouse  
P.O. Box 3044  
Sacramento, CA 95812-3044

OR

### USPS/Courier Service / Hand Deliveries:

State Clearinghouse  
1400 Tenth Street, Room 113  
Sacramento, CA 95814

## INFORMATION AVAILABLE ON-LINE

The CEQA Statute and Guidelines are available through the Natural Resources Agency's website at:

<http://ceres.ca.gov/ceqa/>.

The State Clearinghouse Handbook, which contains all of our environmental document and grant processing procedures and forms, is available on our website.

## Environmental Document Filings with the State Clearinghouse 1999-2012

All CEQA documents filed with the State Clearinghouse are available for viewing on the internet at [www.ceqanet.ca.gov](http://www.ceqanet.ca.gov).

2008112043	Permit 10478 Time Extension Project East Bay Municipal Utility District --Alameda, Contra Costa, Amador, Calaveras, San Joaquin Note: Extended review per lead	<b>EIR</b>	01/10/2014
	<p>The proposed project evaluated in this document is the extension of Permit 10478 to allow EBMUD additional time to apply water provided by the permit to beneficial uses. In November 2000, EBMUD filed a petition with the State Water Board to extend and continue the terms of Permit 10478 to the year 2040. EBMUD is not proposing to alter the quantities that is authorized to divert from the Mokelumne River, obtain any authorizations for new rights, construct new facilities, or change operations.</p>		
2012061013	Highway 43/198 Commercial Center Project Hanford, City of Hanford--Kings Amend the Hanford General Plan to Planned Commercial and rezone to Planned Commercial on approximately 58 acres of land. Off-site infrastructure improvements including water, sewer, street improvements. Commercial building area is 499,000 sf to be constructed in four phases based on market demand. First phase of 275,000 sf is planned to consist of a discount club between 130,000-150-000 sf including a fueling center; approximately 95,000 sf of anchor retail; 6,500 sf of fast-food restaurant; 5,000 sf of site-down restaurants; and other pads of 9,500 and 4,000 sf. Phase 4 Alternative up to 200 Apartments of 32,000 sf commercial businesses.	<b>EIR</b>	11/14/2013
2013021039	Tulare Solar Center Tulare County --Tulare Note: Extended Review	<b>EIR</b>	01/02/2014
	<p>The Project proposes to construct an 80 MW solar PV generating facility on up to 800 acres of a 1,144.33 acre site near Ducor, a Census Designated Place, located in unincorporated Tulare County.</p>		
2013101003	West 17th Street & Superior Avenue Live/Work Project IS/MND Costa Mesa, City of Costa Mesa--Orange 1) Planning Application PA-13-22 - Urban Master Plan for development of a 29-unit live/work Project within the 19th West Urban Plan area. The proposal includes an attached three-story development with roof decks, two-car garages and open parking areas, commercial "work" space on the ground floor, and living space and bedrooms on the upper levels. A total of 58 garage parking spaces and 29 open parking spaces are proposed. The Project requests approval of two deviations. The IS/MND also provides environmental analysis of a modified project, which involves expanding the development area to include the corner parcel at 17th Street/Superior Avenue and 49 live/work units at 635 and 643-651 West 17th Street and 1677 and 1695 Superior Avenue. 2) Vesting Tentative Tract Map 17639 - Subdivision of a 1.52-acre property for condominium purposes to allow private sale and ownership of the live/work units (Subdivision of a 2.55-acre property for the modified project).	<b>MND</b>	10/30/2013

## CEQA Daily Log

Documents Received during the Period: 10/01/2013 - 10/15/2013

SCH Number	Title / Lead Agency / City--County / Description	Document Type	Ending Date
<b><u>Documents Received on Tuesday, October 01, 2013</u></b>			
	The Project requires City of Costa Mesa approval of the West 17th Street & Superior Avenue Live/Work Master Plan, Vesting Tentative Tract Map No. 17639, deviations from the Urban Plan development standards/regulations, Demolition Permit, Grading Permit, and Building Permit(s).		
2013101004	Commercial Project at Hamner Avenue and Riverside Drive Eastvale, City of Eastvale--Riverside The proposed project includes a request for a General Plan Amendment, Change of Zone, and Major Development Review to permit the development of a new gas station with shared retail and restaurant space and attached car wash, a fast-food restaurant with attached drive-through, and a dine-in restaurant on a 1.7-acre site.	<b>MND</b>	10/30/2013
2001111135	John Wayne Airport Settlement Agreement Amendment Orange County --Orange The proposed project is the modification of certain substantive provisions and an extension of the term of the settlement agreement between the County of Orange, City of Newport Beach, et. al., regarding development and operations at John Wayne Airport.	<b>NOP</b>	10/30/2013
2013102001	South San Francisco Downtown Station Area Plan South San Francisco, City of South San Francisco--San Mateo The Station Area Plan will guide the City in its planning efforts to create a vibrant, transit-supportive, diverse downtown as well as the area surrounding the City's Caltrain commuter rail station. The Station Area Plan would feature an historic core, focused neighborhood and retail centers, an increase in residences within one quarter mile of a relocated Caltrain station (maximum 120 dwelling units per acre), and high intensity office and Research and Development (R&D) uses in the East Side Neighborhood with a maximum allowable density of 3.5 Floor Area Ratio. Increased dwelling units are anticipated to be constructed under the Station Area Plan, as well as a new area of office/R&D uses on the east side of the plan area.	<b>NOP</b>	10/30/2013
2013101001	Housing Element Update Brawley, City of Brawley--Imperial An update of the City of Brawley Housing Element addressing the existing and future needs covering an eight-year period of January 2014 through September 2021. It provides an implementation strategy for effectively addressing the housing needs of Brawley residents during this period.	<b>Neg</b>	10/30/2013
2007092041	South Trunk Sanitary Sewer Relief Project San Mateo, City of San Mateo--San Mateo The project is to construct a new 54 inch diameter sanitary relief sewer in two phases. Phase 1 is to construct a trunk sewer from the Date Avenue Pump Station, underneath US 101, along Sunnybrae Boulevard to Idaho Street. Phase 2 is to construct a trunk sewer from Idaho Street, along Sunnybrae Boulevard, along South Delaware Street, to East 25th Avenue.	<b>NOD</b>

<b><u>Documents Received on Tuesday, October 01, 2013</u></b>			
2011111068	Upper Narrows Pipeline Replacement Project Victor Valley Wastewater Reclamation Authority Victorville--San Bernardino The purposes of the Project at the Lewis Learning Center and the Kemper Campbell Ranch, and terminates in downtown Victorville. The Project is located at the damaged section of the Upper Narrows pipeline, at the Victor Valley Interceptor (VVI; between manholes VV4-26 through VV5-1), and the South Apple Valley Interceptor (SAVI; between manholes AV1 through AV4), in the Upper Narrows section of the Mojave River. Three staging and laydown areas (between 0.38 and 1.0 acre in size) will be located in disturbed areas near the Project construction area, including the Kemper Campbell Ranch, the Lewis Learning Center, and between C and 7th Streets.	<b>NOD</b>	
2013072055	Coyote Valley Open Space Preserve Use and Management Plan Santa Clara County Morgan Hill--Santa Clara The proposed Coyote Valley Open space Preserve use and management Plan calls for visitor access and trail improvements to allow for the public use of the 348 acre Preserve and outlines the maintenance, natural and cultural resource management, and interpretive and partnership programs for the Preserve. Initial improvements for visitor access will include construction of a 26 vehicle parking area with 2 ADA parking - van accessible spaces and 3 equestrian trailer parking spaces, approximately four miles of multi-use trails, and an outdoor learning place shade structure with open barn style design.	<b>NOD</b>	
2011038094	Lake Morena Oak Shores Mutual Water Company Consolidation with Lake Morena RV Park Public Health, Department of --San Diego The California Department of Public Health as the lead agency. The Department's Safe Drinking Water Proposition 84 Program is providing state funds for the project. The Lake Morena Oak Shores Mutual Water Company (Lake) proposes to construct approximately 1,000 linear foot transmission pipeline and booster station for the consolidation of Lake Morena RV Park.	<b>NOE</b>	
2013108001	Lease of Property to Tenant Pasadena Unified School District Pasadena--Los Angeles The Project consists of the leasing of property, including the existing buildings on the property, to a tenant. The leasing of the property will involve negligible or no expansion of size or use of the facilities.	<b>NOE</b>	
2013108002	El Dorado County---Sitka Circle Project Tahoe Conservancy South Lake Tahoe--El Dorado The project consists of revegetating disturbed and compacted soils from an encroaching driveway. Installing of timber log fence, to prevent further resource damage and to help restore the site to a more natural condition.	<b>NOE</b>	
2013108010	Maintenance of Highway - 4H4801 / 04130000150 Caltrans #4 San Francisco--San Francisco This project is to preform Cold In-Place Recycling (CIPR) on the existing mainline. The project is to preserve and maintain the safety and integrity of the Highway.	<b>NOE</b>

**Documents Received on Wednesday, October 02, 2013**

2007042045	1634-1690 Pine Street San Francisco, City and County of San Francisco--San Francisco The proposed project would merge the current six lots into one parcel, demolish most of the existing five buildings on the project site, and construct one building with two 13-story residential towers with commercial use on the ground and second floors. Three of the existing building facades would be restored and incorporated into the proposed project. The proposed project would have a total area of 353,360 gsf and would include approximately 262 new for-sale residential units totaling approximately 221,760 sf; 5,600 sf of commercial space, and 34,600 sf of subterranean parking with 245 parking spaces on one level. The proposed towers would be approximately 130 feet tall. There would be 24 studio units, 120 one-bedroom units, and 118 two-bedroom units.	<b>EIR</b>	11/15/2013
2013101007	Conditional Use Permit #13-0029 Imperial County El Centro--Imperial AT&T Mobility is requesting authorization to construct, operate, and maintain an 120' faux monopalm, freestanding, telecommunications tower with antennas, ancillary equipment, a 12'x20' ground equipment shelter, and fencing.	<b>MND</b>	10/31/2013
2013101008	Citywide Cat Program Los Angeles, City of Los Angeles, City of--Los Angeles The purpose of the proposed project is the establishment of a "Cat Program" involving the citywide coordination of actions and activities that will accomplish increased spay/neuter of cats, generally reduce the euthanasia of cats in City of Los Angeles ("City") animal shelters, accommodate the maintenance and improved management of cats in outdoor locations in a manner that minimizes their impacts on environmentally sensitive habitats, support members of the public with an interest in addressing nuisance issues relating to cats, and facilitate public and community education on cat-related issues. In addition, the proposed program includes: a minor amendment to Section 5.199 of the Los Angeles Administrative Code regarding the scope of use of the Animal Spay and Neuter Trust Fund; increasing the number of cats that may be kept without a kennel permit to five cats; allowing the feeding of free-roaming cats in colonies; and exempting cat colony operators from cat kennel permit requirements. Cat colonies would not be allowed to Environmentally Sensitive Areas or parks. Mitigation Measures have been included to further reduce potential impacts to a less than significant level.	<b>MND</b>	10/31/2013
2013102002	Graniterock Wilder Quarry Expansion Project Santa Cruz County Santa Cruz--Santa Cruz Proposal to expand the existing mining area of the Granite Rock Wilder Quarry into a new area covering approximately 2.8 acres. The project requires a Major Amendment of Certificate of Compliance and Reclamation Plan Approval 92-0331 and a Coastal Zone Approval.	<b>MND</b>	10/31/2013

<b><u>Documents Received on Wednesday, October 02, 2013</u></b>			
2013102003	Fairchild Drive Rowhouse Project City File Number: 454-12-PUD Mountain View, City of Mountain View--Santa Clara The proposed project is the demolition of six apartment units and five small industrial buildings and their replacement with 18 rowhouse dwelling units on a one-acre site. The proposed project includes the removal of 19 trees to accommodate new construction, including eight trees protected by the City's Heritage Tree Ordinance. The proposed residential design consist of three-story dwelling units in each row with front doors facing the public streets, and at-grade parking at the rear of each unit on the interior of the project site.	<b>MND</b>	10/31/2013
2013101005	Monterey-Pacific Grove ASBS Stormwater Management Project EIR Pacific Grove, City of Pacific Grove, Monterey--Monterey The primary goal of the proposed project is to limit flow the improve stormwater quality discharged into the Area of Special Biological Significance (ASBS) located along the Pacific Grove coastline. The project includes the diversion of both dry weather and portions of wet surface water runoff flows into an upgraded stormwater collection and treatment system from the ASBS watershed area, which includes much of the City of Pacific Grove and a portion of the City of Monterey. These flows would be directed to either a new Point Pinos stormwater treatment plant at the former Pacific Grove Wastewater Treatment Plant (PG WTP) site or the Monterey Regional Water Pollution Control Agency (MRWPCA) Regional Water Treatment Plant in the City of Marina.	<b>NOP</b>	10/31/2013
2013101006	Del Webb and San Juan Oaks Specific Plan San Benito County Hollister--San Benito The project provides for construction of a golf-course oriented master planned community and would involve changes to the previously approved Vesting Tentative Tract Map (TSM 02-67 approved in 2004) for the project area to include construction of 1,099 single-family detached residential units (1,032 age-restricted, and 67 conventional), a 17,500 to 25,000 sf amenity center, an ~200-room resort hotel, up to 65,000 sf of neighborhood commercial uses, recreation and open space uses and 57 ac. of agricultural preserves. The project also includes infrastructure and roadway improvements and long-term management and maintenance of an ~1,250-acre Permanent Wildlife Habitat area. The existing golf course would remain largely unchanged, though minor renovations would be completed as part of the project.	<b>NOP</b>	10/31/2013
2013101009	CCTAN/Colorado Street Mixed Use Project Glendale, City of Glendale--Los Angeles The Project proposes development of a mixed-uses consisting of 90 multi-family residential units, 18,000 sf of medical office space, and 1,000 sf of coffee shop space in a five-story building. The development features four "structures" connected at the podium level and by the two levels of subterranean parking underneath. The units would consist of one and two bedroom apartments. A total of 256 subterranean parking spaces would be provided onsite per the Glendale Municipal Code (GMC). Access to the subterranean garage would be provided via one driveway on Colorado Street. A drop-off, circular driveway would be provided for the medical office space proposed on the ground floor of the building adjacent	<b>NOP</b>	10/31/2013

	to West Colorado Street.		
2005129042	Cameron Trust Access Road Improvement Los Angeles County Malibu--Los Angeles CDFW is intending to execute a Lake and Streambed Alteration Agreement pursuant to Section 1602 for the Fish and Game Code (#1600-2013-0094-R5) with the project applicant, Pan Pacific Realty 1, LLC. The project proposes to impact 0.23 acre of Streambed, including 0.02 acre of permanent impact to riparian habitat and 0.21 acre of temporary impact to riparian habitat and mitigate with 0.50 acres of creation, restoration and/or enhancement.	<b>NOD</b>	
2008032060	AP#07-00007 - The Fernandez Ranch Public Access and Creek Restoration Project Contra Costa County Hercules--Contra Costa The project is limited to the repair reconstruction of a fifty foot section of stream-bank along a hairpin turn of Rodeo Creek and the relocation of a pedestrian bridge. The hairpin turn portion of the project proposes to install on-hundred twenty tons of rock toe protection along with native soil fill and a willow pole cutting vegetative mattress. The project will also excavate approximately seventy-five cubic yards of native soil fill, this fill will be used in the fill of the rock veins and in the construction of willow steps downstream of the hairpin that will be used to redirect the channel away from the site of erosion. Access routes will be created through the trimming of tree branches and vegetation and all equipment will operate from above the top of the banks. The pedestrian bridge relocation will move the bridge six feet upstream from its present location on Fern Creek and remove and restore the channel to a more natural condition, no heavy equipment will be employed for this portion of the project. The California Department of Fish and Wildlife is executing a Lake and Streambed Alteration Agreement Number 1600-2013-0345-R3 pursuant to Section 1602 of the Fish and Game Code to the project Applicant, Muir Heritage Land Trust as represented by Linus Eukel.	<b>NOD</b>	
2009101060	Construct 8-foot Shoulders Caltrans #8 Yucca Valley--San Bernardino The Project will construct 8-foot paved standard shoulders on each side of the State Route and adjust existing drainage features which will disturb a total of 15.34 acres, of which a total of 13.34 acres are already heavily disturbed. The project will impact two (2) acres of undeveloped land including 1.3 acres of Waters of the State Drainage activities including replacement of two culverts, upgraded to 24-inch corrugated metal pipe, and installation of 917 square yards of rock slope protection fabric and 543 cubic yards of light rock slope protection. Paved shoulder activities include grubbing, 3-foot shoulder backing and grading of slopes 4:1 in fill and 3:1 in cut and paving using typical highway paving equipment (i.e., trucks, rollers, paving machines, excavators, backhoes).	<b>NOD</b>	
2010111063	Stonegate Well & Pipeline San Benito County --San Benito The California Department of Public Health (Department), as the responsible agency, will be issuing a water supply permit. The CSA # 31- Stonegate System proposed project included the construction of a new groundwater well, well	<b>NOD</b>

	pumping facilities, chlorination and iron/manganese removal treatment, and conveyance pipeline.		
2013051034	Phillips 66 Line 200 Relocation-DWR Milepost 62.26 to 64.46 Project Water Resources, Department of Gustine--Merced The Project to relocate Phillips 66 Line 200 will relocate a portion of the line from the west side of the California Aqueduct to the east side. The new line will cross both Quinto Creek and an Unnamed Creek. At each location an area of approximately 23 feet by 40 feet will be excavated to a maximum depth of 6 feet. A 16-inch steel oil pipe line will be laid into the open trench and then will be backfilled with approximately 508 cubic yards of the excavated native fill. The areas will then be compacted and restored to pre-construction conditions. All work within the stream will occur during naturally dry conditions. No trees will be removed.	<b>NOD</b>	
2013071088	Adelanto Wastewater Treatment Plant 2013 Upgrades Adelanto, City of Adelanto--San Bernardino The Adelanto Public Utility Agency Wastewater Treatment Plant 2013 Upgrades will modify and repurpose existing facilities enabling the facility to operate at the previously approved capacity of 4.0 mgd. Existing Biolac basins will be modified and the existing filters will be repurposed. Four additional filters will be installed when the average wastewater effluent flow approaches 3.3 mgd. Two New clarifiers will be constructed. Piping and pump elements related to the existing clarifiers will be reused to the maximum extent feasible. Recycle and waste sludge pumps for the new clarifiers will be purchased and situated in a new structure. Specific physical improvements include: Installation of screen at headworks; construction of two 70-foot diameter clarifiers and construction of a 1,440 square foot building. The environmental document also assesses potential impacts related to the operation of existing percolation Pond 9.	<b>NOD</b>	
2013108011	Roadside Safety Project: Maintenance Vehicle Pullouts and Gore Paving Caltrans #4 --San Mateo This is a Roadside Safety project to construct roadside paving/access gates to reduce exposure of maintenance to highway vehicles. The project will pave eight locations beyond the gore in San Mateo County within the project post-miles. Six maintenance vehicle pullouts (MVPs) and two access gates are proposed on Route 380.	<b>NOE</b>	
2013108012	McLaughlin Mine Pond 1 Bank Stabilization Project Regional Water Quality Control Board, Region 5 (Central Valley), Sacramento --Lake The Project consists of stabilizing an unnamed ephemeral stream channel that flows adjacent to a small leachate pond named Pond 1. The purpose of Pond 1 is to collect and pump back seepage from the Tailings Impoundment Facility (TIF) for McLaughlin Mine. The TIF is a zero-discharge facility regulated by REQCB-CV.	<b>NOE</b>	
2013108013	Hearst Castle Tennis Court Dressing Rooms & Grounds Office Restoration Parks and Recreation, Department of --San Luis Obispo Repair and restore the tennis court dressing rooms at Hearst San Simeon SHM, currently used as office space for the Hearst Castle grounds staff, to prevent water intrusion, repair electrical circuits, and make the offices safe and dry.	<b>NOE</b>

<b><u>Documents Received on Thursday, October 03, 2013</u></b>			
2013-10	Rincon Band of Luiseno Mission Indians - APNs -133-190-17, -19 Bureau of Indian Affairs --San Diego The subject property consists of land, encompassing ~60 acres more or less. The property lies within the exterior boundaries of the Rincon Indian Reservation.	<b>BIA</b>	11/01/2013
2013101010	New Burton K-8 School Burton School District Porterville--Tulare Note: Shortened Review  The Burton School District plans to purchase approximately 12 acres of land to construct a New K-8 school campus designated by APN 240-070-018. The master plan capacity for the new school site will be 556, including 29 full time staff members. The Project will include 18 classrooms; 12 standard classrooms (960 sf), 2 kindergarten classrooms (1,152 sf), 1 science room (1,152 sf), 1 music classroom/stage (1,057 sf), and 1 computer lab (1,018 sf), totaling 18,203 sf of classroom space. The Site will also include an administrative building, kitchen, 100 car parking lot, kindergarten play ground, outdoor hard courts and grass play field with a baseball and softball field. The Multi-Use building will also have an indoor basketball court. A 100 car parking lot will be located on the west border of the site.	<b>MND</b>	10/23/2013
2013101012	Kaleidoscope Exterior and Interior Renovation Project Mission Viejo, City of Mission Viejo--Orange The project site is currently developed and occupied by the Kaleidoscope Mall. The Kaleidoscope Mall is located at 27741 Crown Valley Parkway, north of the Crown Valley Parkway, east of the I-5 Freeway, in the City of Mission Viejo (City). The Kaleidoscope Exterior and Interior Renovation Project (herein referenced as the "project") proposes to add 3,441 sf of gross leasable space to the existing center entitlements of 247,541 sf, of which 238,679 sf are currently built-out, and 3,000 sf of patio space to the interior of the existing structure. An update to the master sign program, including non-digital, on premise lifestyle graphics and movie promotion for anchor and sub-anchor tenants are also proposed. Exterior modifications would include architectural treatments (glass curtain wall along the west facade, revised parapet details, entry features, and signage) and new exterior paint scheme. New lighting associated with the glass curtain wall, lifestyle graphics, and entry feature is also proposed and new landscaping would be provided within the existing landscaped areas.	<b>MND</b>	11/01/2013
2013101013	ENV-2008-840-MND / 4030 N. Pine Nut Drive Los Angeles, City of --Los Angeles The proposed project includes requests for a General Plan Amendment from Minimum Residential to Very Low I Residential, a Zone Change from [Q]A2-1 to (T)(Q)RE20-1, and a Zoning Administrator's Adjustment to allow for reduced front yard setback on two of the five lots, all for the construction and use of five single-family dwellings on an approximately 6.77-acre site. The property is vacant and unimproved. The proposed project includes a request for a Haul Route for the export of approximately 2,459 cubic yards of dirt from the site.	<b>MND</b>	11/01/2013

<b><u>Documents Received on Thursday, October 03, 2013</u></b>			
2013101014	ENV-2013-688-MND / 14730 W. Mulholland Drive Los Angeles, City of --Los Angeles The project is the construction of a new, two-story over a basement, 10,170 sf, single-family dwelling and a 772 sf garage, for a total of 10,942 sf on a 216,181.6 sf lot. The maximum building height of the single-family dwelling is 50-feet and Building Envelope Height not to exceed 30-feet. The project includes the construction of up to three retaining walls, ranging in height from 2-feet to 15-feet. The project requires 3,714 cubic yards of cut, 12,824 cubic yards of fill and 9,110 cubic yards of export. The project proposes the removal of six, California Black Walnut ( <i>Juglans Californica</i> ). The project requires a Zoning Administrator's Determination to permit up to three retaining walls, ranging in height from 2-feet to 15-feet; Zoning Administrator's Adjustments to permit a fence with a maximum height of 4-feet and one retaining wall with a maximum height 12-feet within the front yard (Mulholland Drive right-of-way), in lieu of the maximum permitted 3-1/2 feet; a Project Permit Compliance and Design Board Review approval for the construction of a new single-family dwelling within the Mulholland Scenic Parkway Specific Plan, and Haul Route for the export of 9,110 cubic yards of earth.	<b>MND</b>	11/01/2013
2013102006	Martin Ranch Subdivision Oroville, City of Oroville--Butte The proposed project includes a tentative parcel map, rezoning, and General Plan Amendment. The project site is currently zoned R-1 Single-Family Residential. The proposed project would retain the R-1 Single-Family Residential zoning on 44.5 acres of the 71-acre project site, with 267 units. On 26.5 acres of land, the proposed project would change the zoning category from R-1 Single-Family Residential to RP High Density Residential/Professional with a PD Planned Development Overlay. The PD Overlay would permit office and commercial use in accordance with the MXN designation. The General Plan designation would change to Mixed-Use. This area would accommodate 795 multifamily residences and 38,400 sf of commercial/office.	<b>MND</b>	11/04/2013
2013101011	Crown Castle Santa Rita Hills Telecommunications Facility Santa Barbara County Lompoc--Santa Barbara Request for a Minor Conditional Use Permit to allow for the construction of an unmanned wireless telecommunications facility to be used by two future carriers consisting of a 50-foot high monoelm (faux elm tree) antenna support structure, two equipment pads for future carriers, a utility rack pad, improvements to an existing unpaved access road, a new access road gate, and new utility conduits. The project would require grading of 225 cubic yards cut / 257 cubic yards of fill for site preparation and access road improvements. Removal of five pine trees near the access road gate is proposed.	<b>Neg</b>	11/01/2013
2013102004	CDL Truck Solutions-Site Approval San Joaquin County --San Joaquin A Site Approval Application to change a nonconforming equipment sales and repair farm machinery operation to a nonconforming truck sales and services operation. No new structures or new repair facilities are proposed with this application. This project is not under a Williamson Act Contract.	<b>Neg</b>	11/01/2013

<b><u>Documents Received on Thursday, October 03, 2013</u></b>			
2013102005	Big Gulch Permanent Restoration Project Caltrans #3 --Mendocino Caltrans proposes to repair storm damage along SR 1 between postmiles 2.34 to 2.53 in Mendocino County. The project proposes to construct a soldier pile retaining wall and metal beam guardrail, reconstruct the roadway, and improve drainage along SR 1. No right of way acquisition would be required and all work would occur within the existing right of way.	<b>Neg</b>	11/01/2013
2008061108	Aliso and Wood Canyons Wilderness Park Resource Management Plan Orange County Laguna Niguel--Orange (1) Construction of new trails and circulation improvements, native landscaping, signage, and visitor amenities; and (2) planning and design of new visitor-serving and administrative buildings.	<b>NOD</b>	
2010051087	Town of Apple Valley Wastewater Reclamation Plant, City of Hesperia Wastewater Reclamation Plant, and Related Victor Valley Wastewater Reclamation Authority Apple Valley, Hesperia--San Bernardino A Public Facility Review to include outdoor percolation ponds as part of an approved 11-acre-sub-regional sewage treatment plant (wastewater reclamation plant) and relocation of the approved lift station and force main (pressure pipeline) to another site on the north side of Fresno Street, west of its previously approved location.	<b>NOD</b>	
2012051075	Daily II Tank Project Eastern Municipal Water District Menifee--Riverside Eastern Municipal Water District proposes the construction of a new 2.0 million gallon above ground welded steel potable water tank measuring 40 feet in height, with an internal diameter of 102 feet. The tank would be painted to blend the surrounding environment. The project also proposes the construction of a 0.15-MG detention basin to accommodate the project site's storm water flow, and any overflow from the tank. Following construction of the new Daily II Tank, the existing Daily I Tank would be demolished.	<b>NOD</b>	
2013071086	Orangefair Multi-Family Development Project # PRJ13-0001 Fullerton, City of Fullerton--Orange The proposed project consists of removing approximately 9,420 sf of an existing restaurant, approximately 9,900 sf (gross) of existing retail space, existing park area, and landscape islands in order to construct two-four-story wood framed residential apartment buildings (west building and east building) on a 5.7 -acre site. The residential apartment buildings will house 323 units with associated parking (739 total stalls) within the existing 30-acre Orangefair Shopping Center. The project also includes street, driveway and landscape improvements. There will be two parking garages containing 717 stalls (250 stalls at the west building garage and 467 stalls at the east building garage) within the development and an additional 22 parking spaces at grade level along South Lemon Street.	<b>NOD</b>

2013108018	<p>Countywide Stormwater Low Impact Development and Best Management Practices Santa Cruz County --Santa Cruz</p> <p>The project is a countywide stormwater Low Impact Development (LID) and Best Management Practice (BMP) implementation effort led by the County of Santa Cruz to reduce stormwater volumes, improve water quality on groundwater recharge. LID projects will be implemented at a park and parking lots at four locations in the County; Including Scotts Valley, Santa Cruz, Soquel and Live Oak. Project related outreach and technical assistance program will be conducted. This phase of the project includes project planning. Subsequent project specific CEQA will be conducted prior to construction at each of the four project sites. Funding for this project is provided in part by the State Water Resources Control Board Proposition 84 Stormwater Grant Program.</p>	<b>NOE</b>	
2013108019	<p>Water Street Bridge Debris Removal Project Fish &amp; Wildlife #3 Santa Cruz--Santa Cruz</p> <p>The project is limited to the removal of an estimated 1,150 cubic yards of material from approximately 1,800 square feet of the channel of the San Lorenzo River consisting of concrete rubble, construction debris and poured concrete leftover from the construction of the Water Street Bridge during the 1990's. As a result of the debris left over from the 1990's the low flow channel has incised below the elevation of historic design. SAA #1600-2013-0246-R3.</p>	<b>NOE</b>	
2013108020	<p>Riparian Vegetation Restoration Plan Fish &amp; Wildlife #3 Sebastopol--Sonoma</p> <p>The project is limited to the implementation of a Riparian Vegetation Restoration Plan, herbicide treatment of non-native Himalayan blackberry and English ivy along two stream segments of an unnamed tributary to Atascadero Creek, as well as removal of a single 36-inch DBH eucalyptus tree from the top of bank of the lower stream segment. The Riparian Vegetation Restoration Plan will include planting, maintaining and irrigating approximately 0.91 acres of riparian vegetation within approximately 50 feet of the top of the bank of the upper (western most) and lower (eastern most) stream segments on the property.</p>	<b>NOE</b>	
2013108021	<p>Alms Road Connector Improvement Fish &amp; Wildlife #3 San Francisco--San Francisco</p> <p>The project is limited to the realignment of an existing dirt road connector away from the creek, re-grading and resurfacing the road and construction of a new cast-in-place concrete retaining wall. The road will be resurfaced with natural crushed stone surfacing over aggregate road base with a soil stabilization product. The retaining wall will be constructed along 115 feet of the north edge of the re-graded road. The project also includes landscaping the area with native species. SAA #1600-2012-0355-R3.</p>	<b>NOE</b>	
2013108022	<p>Rocky Point Culvert Replacement Fish &amp; Wildlife #3 --Sonoma</p> <p>The project is limited to the replacement of an existing 36-inch-diameter by 40-foot-long culvert with a new 72-inch-diameter by 60-foot-long culvert on a Class II watercourse that drains to the Pacific Ocean. The replacement culvert diameter</p>	<b>NOE</b>

	of approximately 315 units, or a net increase of 126 dwelling units. However, based upon Land Use assumptions used to calculate the development which could be reasonably anticipated it was determined that the rezone could result in an increase of 62 units.		
2012101003	Back Bay Landing Project Newport Beach, City of Newport Beach--Orange The proposed project involves various legislative approvals for the future development of the Back Bay Landing Project (the "proposed project"), which is proposed to be an integrated, mixed-use waterfront village on 6.974 acres in the City of Newport Beach.	<b>EIR</b>	11/18/2013
2013032036	EI Dorado Forebay Dam Modification Project EI Dorado Irrigation District --EI Dorado The Forebay is a component of the EI Dorado Hydroelectric Project, which is owned and operated by EID and licensed by FERC as FERC Project No. 184. EID operates Project No. 184 facilities to provide water for drinking water supply and renewable hydroelectric power generation. The EI Dorado Forebay Dam Modification Project is required to satisfy specific regulatory mandates issued, to EID, by both the DWR DSOD and FERC to meet dam safety standards. Additionally, the Project would improve the reliability of the drinking water supply and minimize impacts on EID ratepayers through optimized power generation revenue. The Project involves constructing an earthen stability buttress on the dry side of the Forebay Dam, raising the Forebay Dam, raising the Forebay Dam 10 vertical feet, and remediation associated facilities.	<b>EIR</b>	11/18/2013
2013061037	Sierra Industrial Warehouse Project Fontana, City of Fontana--San Bernardino The proposed Sierra Industrial Project includes the construction and operation of approximately 742,142 sf "high-cube" logistic warehouse use. The proposed warehouse includes two potential office spaces totaling approximately 35,000 sf that would be located at the northwest corner and southwest corner of the building. Commensurate with the Warehousing Distribution Logistic Overlay District requirements, the proposed project will also include the construction of Mango Avenue along the project site's easterly frontage and continuing south for another approximately .9 miles.	<b>EIR</b>	11/18/2013
2013101017	IS Application No. 6707 (John Ford) Fresno County Reedley--Fresno Allow a high-intensity park with related improvements for weddings and similar special events appropriate and incidental to parks on a 2.32-acre parcel in the AE-20 (Exclusive Agriculture; 20-acre minimum parcel size required) Zone District. The project is located on the west side of Park Avenue between E. Muscat and E. Central Avenues approximately five miles northeast of the nearest city limits of the City of Reedley in Fresno County (3617 S. Park Avenue) (SUP. DIST.: 4) (APN: 185-151-60).	<b>MND</b>	11/05/2013

2013101019	E.A.R. C.R.P. 13-02, Metrolink Parking Lot Expansion Rialto, City of Rialto--San Bernardino The proposed project involves the expansion of the existing Metrolink Depot parking lot. The expansion consists of the development of thirteen parcels totaling approximately 2.75 acres into additional parking lot area. The project will add 269 parking spaces to the existing parking lot, which currently has 230 spaces. 10 parking stalls will be removed from the existing parking lot to accommodate access between the expansion and the existing parking lot, and in the end, a total of 489 parking spaces will be provided.	<b>MND</b>	11/05/2013
2013102009	Ascension Heights Subdivision Project San Mateo County --San Mateo The project would subdivide 6 parcels on 13.32 acres into 21 lots for 19 single-family residences with the remaining 2 lots (~7.8 acres) maintained as a conservation area. Potable water would be provided by connection to the Mid-Peninsula Water District, and wastewater collection would be provided by the Crystal Springs Sanitation District with treatment at the City of San Mateo Wastewater Treatment Plant. The project is a re-design of a previous project, which proposed a subdivision of the project site into 27 parcels, 25 of which would have been developed; the previous project was denied by the San Mateo County Planning Commission in 2009. The applicant and County have since engaged the community in a discussion of the project and the revised project for reconsideration as a reduced intensity project.	<b>NOP</b>	11/04/2013
2013101015	Agriculture Preserve Contract Cancellation 2013-01 Arvin, City of Arvin--Kern The project is a request for early cancellation of an ag preserve contract (about two years ahead of "natural" cancellation (a Notice of Non Renewal was filed about 7 1/2 years ago).	<b>Neg</b>	11/04/2013
2013101016	2013-2021 Housing Element Santa Monica, City of Santa Monica--Los Angeles The 2013-2021 Housing Element is an element of the City of Santa Monica General Plan that provides broad-based guidance to plan for housing needs over the next eight years. The 2013-2021 Housing Elements is essentially an update of the 2008-2014 Housing Element that retains the same goals and objectives that guide the City's commitment to high quality housing for a diverse community, with an emphasis on efforts to produce affordable housing units and retain affordability and access to housing for households at all income levels. The 2013-2021 Housing Element has been developed to meet CA State legal requirements, including the need to plan for the City's share of the Regional Housing Needs Assessment (RHNA), and is subject to review and certification by the State Department of Housing and Community Development (HCD).	<b>Neg</b>	11/04/2013
2013102007	PA-1300170(TA) San Joaquin County --San Joaquin A Development Title Text Amendment to prohibit marketing events for a proposed winery or off-site wine cellar application. This Text Amendment does not affect existing permitted wineries or off-site wine cellars with permitted marketing events.	<b>Neg</b>	11/04/2013

	However, a Revisions of Approved Actions application to increase the number of marketing events or the number of attendees for existing marketing events will also be prohibited. If approved, this text amendment is proposed to be effective for twelve months.		
2013102008	Karuna LLC Master Plan, Subdivision Vesting Tentative Map and Precise Development Plan Marin County San Anselmo--Marin The project sponsor, Jerry Draper, proposes to subdivide a 10.6-acre lot into six lots for residential development, one remainder parcel, and an access and utilities parcel. Development would entail the construction of six new single-family residences, as well as access, utility, and other associated improvements. The residential lots would range in size from 3,539 sf for Lot 4 to 6,119 sf for Lot 2. The remainder parcel would be 9.2 acres. The proposed single family residences would each be approximately 1,500 sf in size and reach the following heights: Lot 1-33 feet; Lot 2-31.5 feet; Lot 3-27.5 feet Lot 4-29 feet; Lot 5-29.5 feet Lot 6-29 feet. The residences would be built in two groups of three in a row aligned along the east (uphill) side of proposed driveway. One of the residences, on Lot 4, would be designated as an affordable unit...	<b>Neg</b>	11/04/2013
2003062071	Southtown Project Vacaville, City of Vacaville--Solano The Project is limited to excavating an approximately 85-foot long, 5-foot-wide, and up to 9.5-foot-deep trench to install a 15-inch diameter truck sewer main. Three abandoned pipes in the channel will be removed during project activities. The excavation location is presently armored with existing riprap. Following the completion of the sewer crossing, the riprap will be replaced in the same footprint and the Project area will be returned to pre-project conditions.	<b>NOD</b>	
2004121065	Aquifer Storage and Recovery Project Monterey Peninsula Water Management District Carmel, Monterey, Seaside--Monterey California-American Water Company filed Application 27614A for a water right permit. Water will be diverted from Carmel River well for use on lands which comprise a portion of the Monterey Peninsula Water Management District (MPWMD) service area. The wells and MPWMD service area were evaluated in the MPWMD EIR. The diversion quantities and diversion season were existing at the time of submittal of Appli	<b>NOD</b>	
2006012037	Los Vaqueros Reservoir Expansion Project Contra Costa Water District Byron, Brentwood--Contra Costa, Alameda The project is limited to the routine maintenance of the Los Vaqueros Reservoir Dam which will consist of an initial vegetation removal phase, annual vegetation management phase, and an emergency discharge exercise. The initial vegetation removal phase will permanently impact 0.47 acres of habitat at a level in which to allow the conveyance of water safety from the dam structure. The emergency discharge exercise will release approximately 336,000 gallons of water into Kellogg Creek once per year. Mitigation for this project consists of the improvement of 745 linear feet on both banks of Kellogg Creek in a downstream area of the project that will total 1.0 acre in habitat enhancements through the planting of native tree and hydrophilic plant species along the creek riparian area	<b>NOD</b>

	and the removal of invasive species.		
2008052009	<p>Upper American River Project (UARP) Relicensing, Including a New Pumped-storage Development Sacramento Municipal Utility District Placerville--El Dorado, Sacramento</p> <p>The project is issuance of water quality certification for the Federal Energy Regulatory Commission (FERC), relicensing of the UARP, which is owned and operated by the Sacramento Municipal Utility District (SMUD). SMUD, is a lead agency, prepared a Final California Environmental Quality Act (CEQA) Supplemental Analysis to the FERC/United States Forest Service Final Environmental Impact Statement (Final CEQA Supplement) for the UARP and filed a Notice of Determination on July 24, 2012. The State Water Resources Control Board (State Water Board) considered the Final CEQA Supplement during the development of its water quality certification for the UARP.</p> <p>The UARP has been operating pursuant to its current FERC license since operations began in 1961 and consists of seven hydroelectric developments with a total of 11 reservoirs and eight powerhouses that together can generate up to 688 megawatts (MW) of electrical power. The UARP also includes 11 transmission lines with combined length of 180 miles, about 28 miles of power tunnels/penstocks, one-1.9 mile long canal and about 700 developed public-use campsites. The UARP FERC boundary encompasses 6,375.2 acres of United States-owned land administered by the United States Department of Agriculture Forest Service as part of the Eldorado National Forest, and 53.9 acres of United States-owned land administered by the United States Bureau of Land Management. SMUD's FERC license application also includes the proposed Iowa Hill Development, a pumped-storage development that will entail the construction of an off-channel upper reservoir and underground powerhouse above the UARP's existing Slab Creek Reservoir, located on the SF American River near Camino.</p> <p>SMUD, as part of the Settlement Agreement signed by resource agencies, conservation groups and other stakeholders, proposes to implement a set of environmental measures to minimize impacts and improve existing conditions in the vicinity of the UARP. These measures include, but are not limited to increased instream flows; ramping rates; resource monitoring; adaptive management; streamflow and reservoir gaging; public information services; recreational streamflow requirements; improvements to recreation facilities; and measures that address the design and operation of the Iowa Hill development. While the water quality certification includes conditions that cover the operation of the Iowa Hill development, should the project be approved by SMUD, Iowa Hill construction activities may require additional environmental review and permitting.</p>	<b>NOD</b>	
2008061104	<p>The Triangle Specific Plan (SP0-007-2452) Murrieta, City of Murrieta--Riverside</p> <p>The Triangle Specific Plan is an amendment and restatement of previously approved Specific Plan No. 276 and allows for the implementation of a mixed-use development consisting of approximately 1.77 million gross square feet (gsf) within an open-air retail commercial district. Proposed users include restaurant (125,258 gsf), commercial/retail (640,914 gsf), theater (74,660 gsf), office (779,082 gsf) and a 220-room hotel (148,000 gsf). The Triangle Specific plan is divided into four planning areas, and includes vehicular and non-vehicular circulation</p>	<b>NOD</b>

	improvements, landscaping/lighting, signage and utility infrastructure. The Triangle Specific Plan is regulated by the maximum gross building area for the site, building heights, property setbacks and parking requirements as outlined in the amended and restated Specific Plan. The proposed project involves a General Plan Amendment to modify the City of Murrieta General Plan 2035 text related to Specific Plan No. 276 to reflect The Triangle Specific Plan.		
2012091066	Eastern Kern County Acquisition Parks and Recreation, Department of --Kern The OHMVR Division is proposing to acquire up to 59 privately-owned parcels (approximately 28,275 acres) in eastern Kern County, California, from ReNu Resources, LLC. The parcels are interspersed with lands owned by the Bureau of Land Management in the western Mojave Desert, approximately 20 miles north of Mojave and west of State Route 14. Off-highway vehicle recreation occurs on many of the parcels, largely on designated roads and trails. The project comprises purchase and management of the parcels for the resource protection.	<b>NOD</b>	
2012111067	Majestic Chino Gateway Chino, City of Chino--San Bernardino The project is a request to construct (3) concrete tilt-up industrial warehouse buildings in addition to a retail component consisting of (4) retail buildings, resulting in a total of 3,117,000 square feet of building space. Development of the project will occupy approximately 46 percent of the approximately 156-acre site. Existing agriculture on the project site would be removed and replaced by the proposed project, consisting of approximately 3,070,400 square feet of warehouse/distribution building space and approximately 46,000 square feet of retail building space (totaling 3,117,000 square feet). The proposed project is anticipated to be built in more than one phase, with initial grading and construction scheduled to commence in fall of 2013.	<b>NOD</b>	
2013022018	Swainson's Grassland Preserve Grading Permit (DGP 5049) Placer County Lincoln--Placer The Swainson's Grassland Preserve Riparian Restoration Project consists of converting an existing irrigated pasture into Clean Water Act Section 404 mitigation wetlands.	<b>NOD</b>	
2013061039	Sunset Gap Monitoring Wells Project Orange County Water District Seal Beach, Huntington Beach--Orange The project involves the construction and operation of six below ground monitoring wells and the destruction of existing monitoring well at Seal Beach Naval Weapons Station and the destruction of two existing monitoring wells in the City of Huntington Beach.	<b>NOD</b>	
2013071101	East Division Police Substation Project Long Beach, City of Long Beach--Los Angeles The project would transfer of the Schroeder Hall U.S. Army Reserve Center property from the U.S. Department of Defense to the City of Long Beach. After transfer, the City would relocate the existing Long Beach Police Department East Division Substation and Juvenile Investigations Section to the Schroeder Hall site. The project would include various minor improvements to the existing USARC	<b>NOD</b>

2013108041	Edgewood Fire Trail 44-4 Culvert Replacement Project Fish & Wildlife #3 --Contra Costa The project is limited to the excavation, removal, and replacement of a failed roadway culvert along the Edgewood Fire-Trail 44-4. Two existing culverts will be removed along with five cubic yards of soil via excavator. A new, steel pipe, thirty six inches in diameter and approximately 20 feet in length will be installed and backfilled using the previously excavated soil. Approximately face cubic yards of previously excavated fill and riprap will be installed to secure the culver and reconstruct the road. A temporary water diversion system will be constructed on divert water over the road. Equipment used will include backhoe, excavator, cofferdam, water diversion pump system, personnel vehicle, and hand-tools. Issuance of a Streambed Alteration Agreement Number 1600-2013-0357-R3 is pursuant to Fish and Game Code Section 1602.	<b>NOE</b>	
2013108042	Edgewood Fire-Trail 44-4 Culvert Replacement Project Fish & Wildlife #3 San Pablo--Contra Costa The project is limited to the removal and repair of 75-foot long concrete masonry unit wall that has failed along a 30-foot section and collapsed into Wildcat Creek. The project will remove the failed well and shot-rete from the pedestrian bridge along Wildcat Creek. After removal is complete the project will install a rock toe foundation and grade the slopes back to a 2 to 1 grade. The rock toe will be keyed into the slope and a brush mattress will be keyed in the above the rock toe and along the new slope. The brush mattress will consist of willow pole cuttings. Approximately 10 cubic yards of sediment will be excavated from the channel below the repair site and one redwood tree shall be removed. All equipment will perform work from the top of the bank. Equipment employed will include excavator/blackhoe, personnel vehicles, and hand-tools. Issuance of a Streambed Alteration Agreement Number 1600-2013-0371-R3 is pursuant to Fish and Game Code Section 1602.	<b>NOE</b>	
2013108043	Corte Madera Marsh Ecological Reserve Restoration Fish & Wildlife #3 Corte Madera--Marin The project will clear non-native, rural upland plants using a small excavator and provide access for dump trucks to remove concrete rubble. The rubble will be removed by a small excavator and loaded into dump trucks and hauled to an offsite concrete recycling facility. The project will also install native plant species. Revegetation shall be completed by hand with native transition zone (acetone) plants. The planted areas will have temporary fencing installed to protect native plants and informational signs to restrict users from accessing sensitive areas.	<b>NOE</b>

	enhancement and protection, and sustainable timber production.		
2013108046	Electrical Systems Upgrade Project Corrections and Rehabilitation, Department of --Amador CDCR will construct the Electrical System Upgrade project at MCSP to correct existing system deficiencies and provide a reliable electrical system for the institution to maintain safety and security in a cost-efficient manner. The upgrades include a new generator system consisting of two new 2-megawatt generators with associated switchgear and electrical equipment to connect the existing and new distribution circuits. The emergency generation system will include weather tight enclosures, main breaker, transformer, and two-above ground diesel fuel storage tanks. Specific high-voltage cabling will be replaced. The existing 3-megawatt cogeneration plant, which results in operation, maintenance, and repair costs and additional electrical demand charges that frustrate efforts to provide consistent and reliable electrical power in cost efficient manner to the institution, will be deactivated and abandoned in place, and nay hazardous materials removed and disposed of in any State approved and regulated off-site disposal facility. The project includes constructing a new 60 kilovolt substation to allow for savings in acquiring electrical power at transmission level rates. The project includes a 1,900 square feet pre-engineered metal building to house the new switchgear, electrical panels, and automatic transfer switch. The new diesel fuel tank and the two generators will be located outside of the new building. A notice of exemption for this project was filed February 2013, but since then, the location of the project within MCSP has changed. The new project are will not result in any environmental effects and the project will be located in a developed area of MCSP.	<b>NOE</b>

2012111083	San Joaquin River Restoration Program - SCARF and Related Management Actions Project Fish & Game #4 --Butte, Contra Costa, Fresno, Madera, Mariposa, Merced, Napa, ... Note: Extended Review per lead  The primary purpose of the Salmon Conservation and Research Facility (SCARF) is to produce Chinook salmon for reintroduction to the San Joaquin River. The SCARF also would serve as a research facility for studies related to Chinook salmon in the San Joaquin River Restoration Program Restoration Area. The SCARF would provide CDFW with the ability to use relatively small numbers of Chinook salmon eggs and juveniles collected from various donor populations to develop a broodstock. This broodstock would enable CDFW to produce a conservation stock that is genetically diverse, while minimizing impacts to source populations. The SCARF would include structures, a parking area, water supply and wastewater systems, drainage and stormwater management, an access road, up to two staff residences, and other ancillary improvements.	<b>EIR</b>	12/05/2013
2013031048	BNSF Railway/UPRR Mojave Subdivision Tehachapi Rail Improvement Project Caltrans #6 Tehachapi--Kern The proposed project is a railroad infrastructure improvement and construction project located within an existing 25 mile railroad corridor in the Tehachapi Pass. The project would construct an additional track along two of nine single-track segments that are located in the Tehachapi Pass. The Walong to Marcel segment spans a distance of 1.01 miles, and the Cliff Siding Extension segment spans a distance of .37 miles, which will result in "double tracking" of a total distance of	<b>EIR</b>	11/21/2013

	1.38 miles. The project would also extend and improve existing culverts as needed to accommodate the additional track.		
2012051075	Daily II Tank Project Eastern Municipal Water District Menifee--Riverside NOTE: Final - 1 CD	<b>FIN</b>	
	EMWD proposes to construct a 2.0 million-gallon (MG) water storage tank, including a detention basin, and an access road on APNs 384-030-030 and 384-030-026 within the city of Menifee. The new Daily II tank would be an above ground welded steel tank measuring 32 feet in height, with an internal diameter of 102 feet. An overflow detention basin would be constructed to accommodate the project site's storm water flows, and any overflow from the tank. EMWD also proposes to construct a new 12-inch diameter water transmission pipeline, between the new Daily II tank site and the existing water pipeline in Scott Road. The pipeline would follow the new access road from the Daily II tank to Daily Road, proceeding in a northerly direction along Daily Road to the connection point in Scott Road. Following the construction of the Daily II tank, the existing Daily I tank located on APN 384-010-034, would be demolished.		
2013092013	Bogle Wind Turbine Use Permit and Flood Hazard Development Permit Yolo County --Yolo Note: Revised & Reissued	<b>MND</b>	11/06/2013
	The proposed project is a single large wind turbine that would generate 1.6 megawatts of electricity, to be used to power the large Bogle winery production facility near Clarksburg. The Bogle facility is located at 49762 Hamilton Road, west of Jefferson Blvd. (SR 84), approximately 4.5 miles southwest of Clarksburg. The proposed wind turbine would be constructed at the southwest corner of a 60-acre property, which is one of three adjacent parcels owned by Bogle (APN: 043-310-012). The wind turbine project will require approval of a Major Use Permit as described in Yolo County Code Section 8-2.2418 (Small and Large Wind Energy Systems). The application and proposed design of the project is consistent with the requirements of the Code section. The project will also require the issuance of a Flood Hazard Development Permit because the project is within the 100-year flood zone.		
2013101022	ENV-2013-1644-MND / 1509-1523 S. Colby Avenue Los Angeles, City of Los Angeles, City of--Los Angeles The project is the demolition of 33 multiple-family dwelling units contained within 4 buildings and the construction of a new 4-story, 45 ft. high, 45-unit multiple-family project over a subterranean garage. It is located on the city block between Santa Monica Blvd. and Ohio Ave. in West Los Angeles at 1509-1523 Colby Ave. on the west side of the street. The applicant is seeking approval of 2 Density Bonus Incentives as provided by the LAMC Section 12.22 A 25(e) for a project that sets aside the required number of affordable dwelling units. The 2 incentives are: a 20% FAR increase and a 20% reduction in the required Open Space.	<b>MND</b>	11/05/2013

2013108056	Candlestick Point Eco-Stewards Project California State Coastal Conservancy San Francisco--San Francisco The project involves: 1) coordination of regular stewardship programs to grow, plant, establish, and monitor 5,000 watershed specific native plants at four established restoration sites at the CPSRA, totaling approximately four acres; 2) hosting community engagement events; and 3) developing outreach materials.	<b>NOE</b>	
2013108057	Bay Trail Enhancement Project California State Coastal Conservancy East Palo Alto--San Mateo Engage youth and community members in the enhancement of a section of the San Francisco Bay Trail to increase the trail's recreational, educational, biological, and aesthetic value for residents and the broader public.	<b>NOE</b>	
2013108058	Interpretive Panels for Nontraditional Users California State Coastal Conservancy East Palo Alto--San Mateo Placement of interpretive signs will be small, minor structures that are accessory to the existing trail. Signs will provide environmental interpretation aimed at non-traditional users such as visitors with cognitive disabilities.	<b>NOE</b>	
2013108059	Operation of Pasatiempo Well 5A Public Health, Department of --Santa Cruz The California Department of Public Health, as the responsible agency, will be issuing a water supply permit. The San Lorenzo Valley Water District's proposed project included replacement of Pasatiempo Well 5 with Pasatiempo Well 5A.	<b>NOE</b>	
2013108060	Cordilleras Creek Sediment Removal Project Fish & Wildlife #3 Redwood City--San Mateo The project entails routine maintenance activities, to maintain channel capacity and prevent flooding of Industrial Way along Cordilleras Creek. The proposed work at Industrial Way Bridge crossing involves removal of sediment, debris and trash from the two sumps on either side of the bridge and the three culverts under Industrial Way. The proposed work at the Redwood High School culvert involves the removal of trash and debris from beneath the bridge culvert crossing and would include approximately 40 linear feet of the creek channel upstream and downstream of the crossing. At Stafford Street Bridge culvert sediment, debris and trash will be removed along 15 linear feet upstream and approximately 10 linear feet downstream of culvert. Issuance of a Streambed Alteration Agreement No. 1600-2009-0353-R3 is pursuant to Fish and Game Code Section 1602.	<b>NOE</b>	
2013108061	Levee Maintenance Project in the Sonoma Creek and Petaluma River Watersheds Fish & Wildlife #3 Petaluma, Novato, Sonoma-- The project is limited to the routine maintenance of existing levees under the ownership of the 32 participating Sonoma Resource Conservation District landowners and members. Maintenance activities which both parties agree may be considered "routine" are listed on Attachment A and are hereby made a part of this 1602 Agreement. In brief summary, these activities will include dredging up to four cubic yards of materials per linear foot of levee, not to exceed 10,000 cubic yards or 2,500 linear feet per parcel in one year, for placement onto existing levees. Dredging volumes should not exceed 150,000 cubic yards in any given year.	<b>NOE</b>

	During the 5-year permit term, the SRCD shall oversee work performed by the 32 participating landowners under this agreement. Mechanical dredging would be completed using long-reach excavators or drag lines working from the top of existing levees and dredged materials would be excavated on the outboard side of the levee at the extreme reach of the available equipment to avoid damage to the levee toe. Dredging will not occur within 10 feet of the toe of the levee. Dredged material would be placed on the levee crown and mechanically compressed. Issuance of a Streambed Alteration Agreement Number 1600-2012-0364-3 is pursuant to Fish and Game Code Section 1602.		
2013108062	The Italian Delicatessen- EG-13-050 Elk Grove, City of Elk Grove--Sacramento The applicant is requesting a Type 2 Design Review pursuant to the Old Town Elk Grove Special Planning Area Design Standards and Guidelines to establish one new building wall sign, one new monument sign, one new building awning addition, and awning lettering signage on three awnings.	<b>NOE</b>	
2013108063	Soares Parcel Map-EG-13-027 Elk Grove, City of Elk Grove--Sacramento The project consists of a rezone to change the zoning designation from Agricultural to Residential 2-acre minimum, and a Tentative Parcel Map to subdivide a 5.14 acre parcel into two parcels consisting of 2.6 acres and 2.54 acres, respectively. The Rezone is required in order to approve the Tentative Parcel Map at the proposed lot sizes.	<b>NOE</b>	
2013108064	Business Center Sign Overlay District Ordinance (2nd Reading) Elk Grove, City of -- The City-initiated amendments to Title 23 (Zoning) of the Elk Grove Municipal Code to establish Business Center Sign Overlay District changes to the City's signage regulations for freeway oriented signs to allow identification opportunities for development not immediately adjacent to a freeway.	<b>NOE</b>	
2013108065	Asphaltic Emulsion (Fog Seal Coat) Caltrans #6 --Kern The project proposes to apply Asphaltic Emulsion (Fog Seal Coat) from edge of pavement to edge of payment on Route 2223 near Arvin in Kern County. Project is considered routine maintenance work on State Highways. All work is within the State right of way.	<b>NOE</b>

	existing hospital and related structures and to establish mixed-residential uses. The proposed PUD would provide for construction of up to a total of 125 residential units within a mixed-residential community. The project would also provide for construction of up to 5,000 sf of commercial retail on a residential mixed use parcel that would allow for limited neighborhood commercial uses.		
2013102020	Interstate 680 Southbound High Occupancy Vehicle (HOV) Gap Closure Project Caltrans #4 Walnut Creek--Contra Costa Note: Joint Doc: ND/EA	<b>JD</b>	11/12/2013
	As the CEQA lead agency, Caltrans, in cooperation with the Contra Costa Transportation Authority (CCTA), is proposing to improve traffic operations and relieve congestion by closing the current high-occupancy vehicle (HOV) lane gap on southbound Interstate 680 in Contra Costa between Livorna Road and Geary Road. The HOV lane would be added through roadway widening and restriping of the existing roadway. The median barrier would be upgraded to meet current standards. The South Main Street Undercrossing would be widened to accommodate the HOV lane. The two existing combined retaining/soundwalls located between the Rudgear Road interchange and South Main Street would be replaced, and a new soundwall would be constructed at the edge of the shoulder of NB I-680, just north of the North Main Street interchange. All work would be within existing Caltrans and local street right-of-way.		
2012081081	Soapmine Road Area Nitrate Remediation Project Barstow, City of Barstow--San Bernardino The initial Pilot Project assessed the impact of one pump, a small treatment plant, and approximately 6,000 feet of 8 inch PVC Pipeline. 100,000 gallons of water per day were to be treated. This Pilot Project proved successful, leading the Remediation project proposed and evaluated in 2012. That project called for the extension of a total of 2,617 feet of 8 inch PVC pipeline in the Webster and Clay River Road right-of-way, as well as a small extension of pipeline at the city sewage treatment plant. In addition, a total of six new wells and below ground pumps will be added to the current system (i.e., four wells/pumps assessed in 2012 and two wells/pumps evaluated in the 2013 current report), with the possibility of an above ground booster located near the point where existing pipelines cross the Mojave River. The project is designed to treat approximately 1,400,000 gallons per day; this is the same amount of water that was to be treated by the 2012 project, i.e., the addition of two wells does not add to the treatment capacity of the 2012 proposed treatment system.	<b>MND</b>	11/12/2013
2013101020	Fulton Reservoir Three Valleys Municipal Water District Pomona--Los Angeles The Fulton Reservoir Project consists of construction and operation of a new one million gallon (1 MG) potable water storage reservoir and associated piping and appurtenances at the site of the District's existing hydroelectric facility and pumpback facility, collectively known as the Fulton Plant. The Project includes a partially buried reinforced concrete reservoir that will accept water from and provide water to the District's existing Miramar Pipeline as it passes through the Fulton Plant site.	<b>MND</b>	11/12/2013

The recharge facility consists of a series of five tiered basins, each separated by berms. The facility would have raised embankments along its perimeter so that a portion of the basins will be above the current ground elevation and a portion of the basins will be below the current ground elevation.</p>	<b>Oth</b>	
1996052075	<p>South Sacramento Corridor Phase 2 Extension 69 kV Transmission Line and Joint Pole Facilities Relocation Sacramento Regional Transit District Sacramento, Elk Grove--Sacramento</p> <p>The CDFW issued the existing ITP in order to address and authorize, as fully mitigated, the incidental take of giant garter snake (<i>Thamnophis couchi gigas</i>), a species designated as Threatened under CESA, Minor Amendment No. A1, as approved, modified the existing previously issued CESA ITP, and allowing for the installation of a snake proof fence to minimize impacts and avoid take for work that will occur within 200 feet of giant garter snake aquatic habitat during the snake's inactive period. In approving Minor Amendment No. A1, the CDFW determined that, among other things, no substantial increase in the nature, or scope of the previous authorization provided by the CESA ITP, and that no new significant or substantially more severe environmental impacts than previously considered and disclosed would occur.</p>	<b>NOD</b>	
2007041068	<p>EIR 03-07 Specific Plan Amendment No 66 Map 101 Adoption of Specific Plan Line for Reina Road (SPA No67 Map101v. ZCNo160 Map101 Exclusion) Kern County Bakersfield--Kern</p> <p>The Project consists of a Major Amendment to the CESA ITP referenced above as originally issued by CDFW to Alta Wind X, LLC; Alta Wind XI, LLC; Alta Wind XIII, LLC; Alta Wind XIV, LLC (Permittees) for the Alta South Wind Energy Project in May 2013. The ITP as originally issued authorizes take of Bakersfield cactus (<i>Opuntia basilaris</i> var. <i>treleasei</i>) and desert tortoise (<i>Gopherus agassizii</i>), species designated as endangered and threatened, respectively, under CESA, Major Amendment No. 1 revised the Project Description in order to separate the Project into two sequential construction phases and also fixes an error in the amount of listed on-site temporary habitat impacts. Phase 1 of the Project will consist of the construction of a 4.75-mile long portion of the total 7.6-mile, 230-kilovolt (kV) generation tie line and its associated access roads. Phase 2 of the Project will include the construction of all remaining Project components, including the remaining 2.85-mile generation tie line, 37 WTGs, 2 collector substations, meteorological towers, on-site and off-site access roads, fencing, communication cables, collection systems and laydown area. CDFW issued the original ITP and approved Major Amendment No. 1 as a responsible agency under the California Environmental Quality Act (CEQA) relying on an Environmental Impact Report (EIR), EIR Addendum and Supplemental EIR prepared and certified from the Project by the lead agency, County of Kern.</p>	<b>NOD</b>

	the FEIR/EIS the revised project removes San Clemente Dam and reroutes the Carmel River. Also, Old Carmel River Dam (OCD) will be removed rather than notched. CDWR prepared a Supplement to the EIR (SEIR #2005091148) addressing all project changes except removal of OCD. SIER No. 2 describes the removal of OCD, analyzes potential impacts, and proposes mitigation.		
2013041043	Stanton Zoning Code Update Stanton, City of Stanton--Orange The City of Stanton General Plan 2014-2021 Housing Element identifies and analyzes the existing and projected housing needs, and articulates the City's official policies for the preservation, conservation, improvement, and production of housing within the City.	<b>NOD</b>	
2013041077	Animal Care Center Los Angeles County Palmdale--Los Angeles The Project will consists of development of an approximately 25,5000 square-foot indoor animal care center facility on approximately 5.94 acres of undeveloped property to be acquired from the City of Palmdale to better serve the eastside of the Antelope Valley.	<b>NOD</b>	
2013051007	Bull Creek Road Retaining Wall Caltrans #6 --Mariposa The California Department of Fish and Wildlife is executing a Streambed Alteration Agreement pursuant to Section 1602 of the Fish and Game Code to the Project applicant, the California Department of Transportation. The Project includes activities related to the restoration of retaining wall along SR 140 where scour has undermined approximately 200 feet along the wall. Approximately 60 cubic yards of concrete will be required to fill the void. Staging of all heavy equipment including crane with derrick and boom will be on SR 140 above. All construction materials, appliances and crews will be lowered to the construction area (at the foot of the wall) by a platform hung from the boom. Construction will only occur during naturally dry conditions or when the work area has been isolated from the wetted channel. A sand bag berm with a visqueen barrier will be placed in the channel to maintain dry conditions. Fast setting concrete will be poured into the void area form and/or bounded by the existing ground, wall footing, and form work.	<b>NOD</b>	
2013052017	Calistoga Family Apartments Calistoga, City of Calistoga--Napa The Project is limited to: 1) Removing the existing concrete and pavement in the proposed planting zone as part of the demolition of an abandoned nursing home. 2) Installing a new 6-foot high fence along the east edge (adjacent to the new housing complex) of the planting area. 3) Establishing native riparian vegetation within the project footprint. The planting zone is approximately 490 linear feet in length and varies in width ranging from 15-20 feet, for a total area of approximately 7,457 square feet.  The California Department of Fish and Wildlife is executing a Lake and Streambed Alteration Number 1600-2013-0185-3 pursuant to Section 1602 of the Fish and Wildlife Code to the project Applicant, Jan Krupp, Krupp Brothers, LLC.	<b>NOD</b>

2013101043	IS Application No. 6718 and CUP Application No. 3413 (North Star Solar, LLC) Fresno County Mendota--Fresno The project for purposes of CEQA review consists of two components: a 115 kV Generation Tie Line that is the subject of Unclassified Conditional Use Permit (CUP) Application No. 3413, and a 115 kV Switching Station that will be constructed under California Public Utilities Commission (CPUC) jurisdiction. The 115 kV Generation Tie Line will connect a photovoltaic solar power generation facility that was authorized by CUP No. 3314 in accordance with a MND that was adopted by the Fresno County Planning Commission on April 12, 2012, to the new 115 kV Switching Station, which in turn will be connected to the existing PG&E Mendota Substation. The 115 kV Generation Tie Line will be constructed, owned and operated by North Star Solar, LLC, while the 115 kV Switching Station, which may serve other interconnection customers in the area, will be constructed, owned and operated by PG&E. All improvements associated with this project will be located in the AE-20 Zone District.	<b>MND</b>	11/13/2013
2013102026	Oyster Bay Regional Shoreline Land Use Plan Amendment East Bay Regional Parks District San Leandro--Alameda Implementation of the Oyster Bay Land Use Plan Amendment: The Davis Street Access Improvement Project; Parking to accommodate a maximum of 700 vehicles; Internal vehicular connection between new park roadway and Neptune Drive; Formalization of existing trails; Recreational elements including picnic areas, irrigated turf and landscaped areas, view points and vistas, public art, unleashed dog area, bicycle skills park, disc golf course, special events area, and interpretive programming. Natural Resource Management including tidal marsh enhancement, integrated pest management, and control of non-native wildlife pest species, and vegetation management. Operations and Maintenance: on-going grading, on-going landfill monitoring, development of a service yard, and utilities.	<b>MND</b>	11/14/2013
2013102023	Heritage Oaks Memorial Park, File No. PDC13-016 San Jose, City of San Jose--Santa Clara Planned Development Rezoning to allow the development of a 100 acre cemetery on a 275 acre site. The remaining 175 acres will be retained in private open space. Development of the project would include re-contouring of the site to accommodate proposed improvements.	<b>NOP</b>	11/13/2013

<b><u>Documents Received on Tuesday, October 15, 2013</u></b>			
2013102024	<p>Bottoms Property Residential Project Richmond, City of Richmond--Contra Costa</p> <p>The project proposes to develop 60 units of market-rate condominiums. The project will be developed within approximately 6.23 acres of the 25.27 acre site, resulting in a density of 9.63 units per net acre. A total of nine buildings will be developed as part of the project. The average height of structures would be 33.8 feet. The project will provide a total of 134 bedrooms.</p>	<b>NOP</b>	11/13/2013
2013092005	<p>Tentative Parcel Map Application No. PLN2013-0067 - Goldkuhl Stanislaus County --Stanislaus</p> <p>Request to divide a 186.16 gross acre parcel into four parcels of 42.94, 49.51, 53.71 and 40.00 gross acres in size. Each proposed parcel will have frontage on an existing County-maintained road. The parcel is currently planted in row crops, flood irrigated, and is enrolled in Williamson Act Contract No. 72-1040.</p>	<b>Neg</b>	11/13/2013
2013101044	<p>Road Abandonment 2013-02/Oney Inyo County Bishop--Inyo</p> <p>The applicant is asking the County Board of Supervisors to abandon a section of Birch Street in the community of Bishop, CA. The site is currently being used by the applicant as a recycling center and a storage area for the grocery and hardware stores located to the north of it. There are no plans for development or use changes at the site.</p>	<b>Neg</b>	11/13/2013
2013101045	<p>Health Care Facility Improvement Project for the California Men's Colony, San Luis Obispo County, CA Corrections and Rehabilitation, Department of San Luis Obispo--San Luis Obispo</p> <p>The proposed project includes renovations and additions to existing health care facilities, the construction of small new facilities, and associated infrastructure improvements, all within the developed area of CMC. Improvements at the institution would include a total of 12,492 sf of renovation, 32,849 sf of new building space, and 15,680 sf of additional exterior impervious surface (parking lot and walkways). No high-mast lighting would be installed as part of the project. The project does not include any new inmate beds. Nine additional employees would be hired. The project would not result in expansion of the existing secure perimeter.</p>	<b>Neg</b>	11/13/2013
2013102025	<p>PA-1300100 (MS) San Joaquin County Lathrop--San Joaquin</p> <p>A Minor Subdivision application to subdivide an existing 40.0-acre parcel into one parcel and a designated remainder parcel. Parcel 1 to contain a 2.0-acre homesite parcel and the designated remainder parcel to contain 38.0 acres.</p>	<b>Neg</b>	11/13/2013

<b><u>Documents Received on Tuesday, October 15, 2013</u></b>			
1991105212	Lodestar Resoret and Country Club Mammoth Lakes, City of MAMMOTH LAKES--MONO The tentative tract map would subdivide the Solstice Phase 2 site, located in Development Area 5 of the Lodestar Master Plan into seven single family home lots. The proposed lots conform to the Municipal Code requirements for single family residential lots and are a permitted use in Development Area 5.	<b>NOD</b>	
1999041103	Southern Trails Pipeline Project California State Lands Commission Amendment No. 2 to incidental take permit No. 2081-2010-001-06 includes removal and replacement of an additional 200 feet of existing pipeline, consistent with the original project description. The project as amended will result in temporary impacts to 1.07 acres of desert tortoise habitat. The project is expected to result in incidental take of desert tortoise, which are designated as a threatened species under the CA Endangered Species Act. The ITP referenced above as issued by CDFW and authorizes incidental take of species listed under CESA that may occur as a result of Project implementation.	<b>NOD</b>	
2005114006	Perris II Brackish Groundwater Desalter Eastern Municipal Water District Perris--Riverside Eastern Municipal Water District (EMWD) proposes to construct the Perris II Brackish Groundwater Desalter Project in southwestern Riverside County within the service boundaries of EMWD. The following components will be constructed: (1) a reverse osmosis building; (2) chemical storage and feed facilities; (3) chlorine contact tanks and finished water pump station; (4) a brine pump station and connection to Temescal Valley Regional Interceptor; (5) a field laboratory; and (6) a storage and maintenance facility. The project will provide up to 6,000 acre-feet per year of treated groundwater for potable uses within EMWD's service area. The Metropolitan Water District of Southern California (Metropolitan) has authorized a Local Resources Program (LRP) agreement with EMWD to provide financial incentives for the proposed project.	<b>NOD</b>	
2006102114	UTC Facility Site Closure Program EIR Santa Clara County San Jose--Santa Clara The operator proposes to repair minor drainage problems at two locations on the UTC San Jose Facility. The CA Dept. of Fish and Wildlife (CDFW) is executing a Lake and Streambed Alteration Agreement Number 1600-2013-0385-R3 pursuant to Section 1602 of the Fish and Game Code to the project Applicant, Ms. Renee Welsh of United Technologies Corporation-Pratt and Whitney.	<b>NOD</b>	
2009042133	Enclave at Granite Bay, The (PSUB T20080329) Auburn, City of --Placer The project proposes a modification to the Vesting Tentative Subdivision Map and Conditional use Permit to allow reconfiguration of lot lines, minor extension of Street A, elimination of water and sewer lines through Open Space Lot A, incorporation of a STEP sewer system, and elimination of the 4' sidewalk on easterly side of Street A.	<b>NOD</b>

2011102051	Revised SMP-30 Use Permit, Sunol Valley Aggregate Quarry Alameda County --Alameda This proposed project includes the continuation of current Alameda County Surface Mining Permit 30 (SMP 30) quarry operations as well as the 580-acre quarry expansion. The Sunol Valley Aggregates Quarry operating under SMP 30, which was approved by Alameda County in 1992, authorizes the mining of sand and gravel within a 323-acre area. Under the Revised SMP 30 permit, the Permittee proposes to expand the overall production potential of the quarry by increasing the area under the permit by ~58 acres. The expanded quarry pit will occupy ~32.5 acres and a haul road and berm will occupy 2.44 acres within the 58-acre expansion area. Within the Revised SMP 30 permit boundaries, the active quarry will occupy 310 acres.	<b>NOD</b>	
2013052031	Morgan Creek/Morgan Gated Vehicular Entrances (PCPM 20120208) Placer County Roseville--Placer The project proposes modifications to the existing Conditional Use Permit to add electronic vehicular gates and security system at three entrances to the Morgan Creek community (at Walerga, Vineyard and PFE Roads) and at the one entrances to the Morgan Greens community (at Cook Riolo Road).	<b>NOD</b>	
2013071014	355 W. Jefferson Avenue Structure Removal Project Pomona, City of Pomona--Los Angeles Demolition of a vacant single-family residence located on a 7,264 sf lot within the Wilton Heights Historic District.	<b>NOD</b>	
2013081035	Rainbow Transport Tank Cleaners - Old Wash Rack Groundwater Interim Measure Toxic Substances Control, Department of Carson--Los Angeles The project involves approval of a groundwater interim measure work plan to begin cleanup of contaminated groundwater resulting from historical operations at the site.	<b>NOD</b>	
2013108154	Glen Fire Road Sediment Control Project Fish & Wildlife #3 Mill Valley--Marin The overall project involves road drainage improvements along the 0.9 mile long Glen Fire Road and improvements along a 300-foot segment of Elinor Canyon Fire Road and a 600-foot segment of Corte Madera Ridge Fire Road. New drainage improvements will include road grading, rock ford crossings, rolling dip installation, rocked road surfaces, and armoring roadside drainage swales. Issuance of a Streambed Alteration Agreement Number 1600-2013-0214-R3 is pursuant to Fish and Game Code 1602.	<b>NOE</b>	
2013108155	Chrome Iron Vineyard/Icaria Creek Streambank Restoration Project Regional Water Quality Control Board, Region 1 (North Coast), Santa Rosa Cloverdale--Sonoma The primary purpose of the project is to prevent bank erosion at one site, approximately 170 feet in length, which is contributing sediment to Icaria Creek, tributary to the Russian River, and threatening to capture a vineyard road. The project involves stabilization of the bank using bioengineered live willow structures.	<b>NOE</b>

2013108156	General Plan Amendment 2013-01, Specific Plan 347 & Conditional Use Permit El Cajon, City of El Cajon--San Diego Site upgrade of an existing automotive dealership including removal of a future roadway connection between South Johnson and West Lexington Avenues and the repeal of a specific plan that authorizes a commercial development that was not constructed.	<b>NOE</b>	
2013108157	718 El Cerrito Emergency Erosion Repair Fish & Wildlife #3 Hillsborough--San Mateo The Project is limited to the repair of a 35-foot long section of the northern bank of San Mateo Creek, a perennial tributary to San Francisco Bay. An erosion gully and related slumping has caused the roadway and concrete gutter to sag and crack.	<b>NOE</b>	
2013108158	Roza Irrigation Pipe Replacement Fish & Wildlife #3 Stockton--San Joaquin The project is limited to replacement of an existing 10-inch diameter irrigation pipe with an 8-inch diameter pipe. It will be installed through the levee crown and covered with 18 inches of fill. The invert well will be installed above the 100-year flood elevation. SAA #1600-2012-0451-R3.	<b>NOE</b>	
2013108159	Maya's Deli - Conditional Use Permit No. 2183 (Minor) El Cajon, City of El Cajon--San Diego The project includes the addition of on-sale beer and wine service (Type 4) to an existing restaurant (deli) for the purpose of expanding beverage options for restaurant customers.	<b>NOE</b>	
2013108160	New Space for Modesto StanCATT California Highway Patrol Ceres--Stanislaus Lease approximately 5,400 net usable square feet of existing industrial space.	<b>NOE</b>	
2013108161	Hansen Ditch Water Conservation Project Weaverville Community Services District --Trinity The project area was part of a pre-1914 patented mining claim with appurtenant water rights, to divert 1 cubic foot per second of East Branch of East Weaver Creek. This water is taken from the East Branch via a side hill ditch and conveyed for approximately 0.4 miles southeast before flood irrigating a pasture. Five users benefit from the ditch water. The project will replace the flood irrigation with a sprinkler irrigation system that will use 20%-50% of the water currently used.	<b>NOE</b>	
2013108162	Bundy Canyon Habitat Restoration Mountains Recreation and Conservation Authority --Los Angeles Restoration and enhancement of natural habitat in a riparian, and riparian-adjacent, environment as mitigation for impacts to an offsite streambed associated with a project by another public agency.	<b>NOE</b>
