# NEWSLETTER

**October 16-31, 2009**

# STATE CLEARINGHOUSE NEWSLETTER

The State Clearinghouse distributes draft environmental documents to state agencies for review and comment, pursuant to the California Environmental Quality Act (CEQA). The State Clearinghouse also acts as the State Single Point of Contact for the review of federal grant applications and federal development projects. This Newsletter summarizes the environmental documents and federal grant applications received by the Clearinghouse during the period **October 16-31, 2009**.

## CLEARINGHOUSE CONTACTS

Please contact The State Clearinghouse if you have any questions regarding processing of environmental documents or grant applications. We may be reached at:

Telephone: (916) 445-0613  
Fax: (916) 323-3018  
e-mail: [state.clearinghouse@opr.ca.gov](mailto:state.clearinghouse@opr.ca.gov)  
website: [www.opr.ca.gov/clearinghouse/clearinghouse.shtml](http://www.opr.ca.gov/clearinghouse/clearinghouse.shtml)

Questions regarding federal grant notices should be directed to **Sheila Brown**.

Questions regarding processing of environmental documents should be directed to:

**Scott Morgan**  
Acting Director

## CLEARINGHOUSE MAILING ADDRESS

Please do not use our street address (1400 Tenth Street, Room 212) for mailing purposes. The correct mailing address is:

STATE CLEARINGHOUSE  
P.O. BOX 3044  
SACRAMENTO, CA 95812-3044

## INFORMATION AVAILABLE ON-LINE

The 2001 CEQA Guidelines are available from the Resources Agency's website at <http://ceres.ca.gov/ceqa/>.

The State Clearinghouse Handbook, which contains all of our environmental document and grant processing procedures and forms, is available on our website.

Arnold Schwarzenegger  
Governor

STATE OF CALIFORNIA  
Governor's Office of Planning and Research  
State Clearinghouse and Planning Unit

Cynthia Bryant  
Director

## MEMORANDUM

DATE: February 13, 2007  
TO: State Agency CEQA and Intergovernmental Review Coordinators  
FROM: Scott Morgan, Senior Planner  
SUBJECT: Distribution of Environmental Documents in CD-ROM Format

The State Clearinghouse has received an increasing number of requests from local and state lead agencies to distribute CEQA documents to state reviewing agencies in an electronic format, typically CD-ROM. The most common reason for these requests is to reduce cost. CD-ROMs are cheaper for the lead agency to reproduce and mail, and cheaper for the State Clearinghouse to distribute, especially in the case of multi-volume documents.

The State Clearinghouse has distributed EIR's and EIS's in CD-ROM format for state agency review and comment since August 1, 2003. Based on our experience with those documents, a survey conducted of state reviewing agencies and the potential cost savings to local and state agencies, we are extending this policy to other environmental documents including Negative Declarations, Mitigated Negative Declarations and Environmental Assessments. The State Clearinghouse will accept environmental documents under the following terms:

- CEQA Lead agencies may provide copies of draft environmental documents to the State Clearinghouse for state agency review in an electronic format. The document must be on a CD-ROM in a common file format such as Word or Acrobat.
- Lead agencies must provide fifteen (15) copies of the CD-ROM to the State Clearinghouse. In addition, each CD-ROM must be accompanied by 15 printed copies of the DEIR summary (as described in CEQA Guidelines §15123), executive summary, or introduction section of a Negative Declaration or Mitigated Negative Declaration. The printed summary allows both the State Clearinghouse and agency CEQA coordinators to distribute the documents quickly without the use of a computer.
- Final environmental documents may be provided in CD-ROM format without a printed summary. Distribution of the final documents is optional under CEQA.
- Federal lead agencies may send electronic copies of environmental documents to the State Clearinghouse in the same manner described for CEQA lead agencies. Distribution of NEPA documents to state agencies through the State Clearinghouse is encouraged pursuant to Presidential Executive Order 12372 and NEPA §102 (42 USC §4332)
- All notices of preparation must continue to be provided in printed format.
- Please provide one Notice of Completion Form with all submittals.

If your agency has difficulty downloading and reviewing any environmental documents please contact:

Scott Morgan, Senior Planner  
916-445-0613  
[scott.morgan@opr.ca.gov](mailto:scott.morgan@opr.ca.gov) .

Thank you for your cooperation in the CEQA review process.

**ENVIRONMENTAL DOCUMENT FILINGS WITH THE STATE CLEARINGHOUSE  
2000 through 2008**

All CEQA documents filed with the State Clearinghouse are available for viewing on the Internet at <http://www.ceqanet.ca.gov/>

|  | would occur over a period of 2-6 weeks between 7/1 and 11/30 of each year. The CW would be released into the North Yuba River from New Bullards Bar Reservoir consistent with the Yuba River Accord, and would flow through Englebright Reservoir and down the lower Yuba, Feather, and Sacramento Rivers in excess of existing minimum flow requirements to the Delta. Delta pumping of the CW would be subject to all past and future SWRCB decisions and orders; any applicable court orders, and all applicable BOs covering CVP and SWP operations, and any other laws and regulations governing the Delta at the time the transfers are initiated.  |                  |                |
| 2009102062   | Napa Creek Improvement Project<br>Napa County<br>Napa--Napa<br>The U.S. Army Corps of Engineers and the Napa County Flood Control and Water Conservation District are implementing the Napa River/Napa Creek Flood Protection Project in the City of Napa, CA. The Napa Creek Improvement Project, a component of the Project, is to provide flood protection and bank stabilization while preserving the natural characteristics of Napa Creek. A Supplemental Environmental Impact Statement/Environmental Impact Report (SEIS/EIR) was certified in 1999 for the Project. A Draft Environmental Assessment/Initial Study (EA/IS) has been prepared to address the additional flood control elements and bank stabilization features. These modification necessitate acquisition of additional property rights. In addition, a parking lot is proposed to be constructed near the vicinity of Brown and Clinton Street to mitigate lost parking spaces impacted by the Project. Acquisition of additional property rights is also being proposed in order to construct a cul de sac at the end of Behrens Street near Napa Creek. | <b>JD</b>        | 11/17/2009     |
| 2009101061   | Water Recycling Demonstration Project<br>Anaheim, City of<br>Anaheim, Fullerton--Orange<br>NOTE: Review Per Lead<br><br>Installation of a 2,000 sf enclosed facility that utilizes advanced treatment technologies to treat wastewater and produce recycled water. The project includes installation of a pump station at the Lemon Street trunk sewer, as well as collection and distribution piping. Equipment related to the water recycling process will be contained within the water recycling facility (WRF) including an ultrafiltration membrane system, a granular activated carbon odor control system, and disinfection. The project's first phase will result in 50,000 gallons per day (gpd) of recycled water for City Hall (irrigation); Anaheim West Tower (formerly known as City Hall West (toilet flushing)); and irrigation of the landscaped medians located on Anaheim Boulevard and the ~2 acres interim park area next to the Downtown Community Center.   | <b>MND</b>       | 11/18/2009     |
| 2009101063   | LDS Rectory<br>Newport Beach, City of<br>Newport Beach--Orange<br>The Church of Jesus Christ of Latter Day Saints proposes the construction of a rectory building (residence) with 1,825 sf of living space and a 491 sf, attached 2 car garage. The proposed building is an accessory use to an existing place of religious worship. The project includes the establishment of a fuel modification buffer zone up to the property line adjacent to the structure.  | <b>MND</b>       | 11/17/2009     |

|  | residential units, and two levels of underground parking. The new building would be 55,566 sf and would cover most of the site in approximately the same location as the existing 21,600 sf building. The maximum building height is 50 ft. The existing lot does not include any parking. The underground parking would include 94 parking spaces. The garage vehicular access is on Ash Street, and the building will have the main pedestrian entrance on Sherman Avenue. The proposed landscaping will include various ground cover and low plantings, and numerous trees, including the retention of one protected oak and the relocation of two protected oaks to the adjacent public park.           |                  |                |
| 2009102064   | Access Improvements from Railyards to Richards Boulevard and Interstate 5 Project<br>Sacramento, City of<br>Sacramento--Sacramento<br>NOTE: Review Per Lead   | <b>MND</b>       | 11/18/2009     |
|  | The I-5/Richards Boulevard interchange provides primary access to the Richards Boulevard Redevelopment Area, which is located north of the City's Central Business District. This redevelopment area encompasses the RSP area as well as the Township 9 development site.   |                  |                |
|  | Full buildout of the Railyards and Township 9 developments will add numerous residences and business, resulting in substantial traffic to the area and requiring a number of transportation and circulation improvements, including improvements to the I-5/Richards Boulevard interchange. The City is pursuing an immediate project on the local road system that would provide the most beneficial set of access and circulation improvements given the constraints posed by I-5, the existing interchange, and existing development. Upgrades to the ultimate I-5/Richards Boulevard interchange configuration to meet long-term capacity needs would be conducted as a separate project in the future. |                  |                |
| 2009102061   | Middletown Area Plan<br>Lake County<br>Lakeport--Lake   | <b>NOP</b>       | 11/17/2009     |
|  | Preparation of a 20-year planning and zoning document for the Middletown planning area, as required by the Lake County General Plan. The plan will address natural resources, public safety and community development and include policies and implementation measures regarding future development within the planning area. This Plan updates and replaces the previous Middletown Area Plan adopted in 1989. The Middletown Planning Area is one of the eight designated planning areas in the Lake County General plan. The planning area covers approximately 150 square miles located in the unincorporated area of Lake County.  |                  |                |

|  | jurisdictional limits of the City. The project would improve traffic operations, by reducing congestion on the adjacent I-15/Oak Hill Road, I-15/Joshua Streetm and I-15/Main Street interchanges, reduce out-of-direction travel and commute time, and improve freeway access for the City and other communities in the Victor Valley Region.   |                  |                |
| 2009101066   | San Benito County Housing Element Update<br>San Benito County<br>Hollister--San Benito<br>The project is the update to the County of San Benito's General Plan Housing Element. State law requires every city and county to adopt a general plan containing at least seven mandatory elements (chapters). One required element is the housing element, which must be updated every five years. The County's updated Housing Element covers the planning period of 2007 to 2014. The purpose for requiring local housing elements is to ensure that each jurisdiction provide its fair share of regional demand for housing. The State of California Department of Housing and Community Development (HCD) allocated regional shares of statewide housing needs. These allocations are provided to a region's Council of Government (COG), which determines each jurisdiction's fair share contribution. The San Benito County Council of Governments (SCOG) encompasses the cities of Hollister and San Juan Bautista and the unincorporated areas of San Benito County. SCOG indicated each jurisdiction contribution through the creation of a Regional Housing Need Allocation (RHNA). The RHNA for the period of 2007-2014 for the SCOG region is 4,754 new housing units. | <b>Neg</b>       | 11/17/2009     |
| 2009102054   | Sacramento River Access at Pine Creek Facilities Development and Habitat Restoration Project<br>Parks and Recreation, Department of<br>--Butte<br>DPR proposes to provide day-use facilities adjacent to the Sacramento River on a 41 acre parcel at the confluence of Pine Creek in Bidwell-Sacramento River State Park. Construct ~7,100 ft of trail around the park; Create a two acre "play meadow"; Create picnic sites with concrete pads, tables and barbecues; Construction a restroom, a new potable well and septic waste water system; Install a gravel parking area; Restore ~25 acres of walnut orchard to native habitat; Enhance ~7 acres of existing riparian habitat; Install boundary-fencing, signage, interpretive displays, and recycle and trash containers.   | <b>Neg</b>       | 11/17/2009     |
| 2009102055   | Mt. Vernon Road Safety Project<br>Placer County<br>Auburn--Placer<br>The project is to improve safety on a two lane rural road. The project will remove 9 trees on the outside of a roadway curve; soften an existing 2:1 slope to a 5:1 slope by placing less than 100 cy of fill materials; extend existing culvert, revegetate all disturbed areas; place new fence; obtain right of way from the adjacent property owner.  | <b>Neg</b>       | 11/17/2009     |

|  | economic levels. The updated housing Element includes changes to reflect more recent statistics regarding City of Patterson demographics and changes necessary for compliance with State law. The Housing Element is based on a Regional Housing Needs Allocation of 686 housing units for the period from 2007 to 2014, as established by the Stanislaus Council of Governments.   |                  |                |
| 2009102057   | Zoning Code Amendments (Definition of Discount Superstores and a Water Conservation Landscape Ordinance)<br>San Leandro, City of<br>San Leandro--Alameda<br>There are two proposed zoning code ordinance changes. The first proposed ordinance would amend the City of San Leandro Zoning Code by adding new definitions and use characteristics of discount superstores to the city zoning code. The second proposed change would create new water efficient landscape ordinance that will require water conservation standards for some new landscape installations. The proposed landscape ordinance would apply to all zoning districts in the City, including Planned Development Districts, and the discount superstore ordinance would apply to commercial and industrial zones. The proposed ordinances will not result in any new construction of physical improvements. The water conservation ordinance will control the creation of regional supercenters that would otherwise produce additional traffic and associated air quality impacts throughout the local area. | <b>Neg</b>       | 11/17/2009     |

| 2004081136   | <p>2008 Regional Transportation Plan Amended EIR<br/>Santa Barbara County Association of Governments<br/>--Santa Barbara<br/>The RTP is a regional transportation planning document that includes a long-term (20 year) horizon that reflects regional needs, a twenty-year transportation improvement plan, and short-term improvements. Regional issues and problems are identified and alternative solutions incorporating all modes of travel are developed and evaluated. The physical and operational requirements of all modes of transportation are considered including automobile, truck, transit, bike, rail, pedestrian, plane, marine, and freight and passenger rail. Projects in the local option sales tax renewal, Measure A, are also evaluated. Finally, the RTP recommends a comprehensive solution that provides direction for programming decisions that meet identified regional transportation needs. The objective of the Santa Barbara County Co. AOG RTP is to provide for a comprehensive transportation system of facilities and services that meets the public's need for the movement of people and goods, and that is consistent with the social, economic, and environmental goals and policies of the region.</p> | <b>NOD</b>       |                |

| 2009081083   | Rally's Restaurant Site Plan 2009-02<br>Los Banos, City of<br>Los Banos--Merced<br>The proposed project consists of a 1,055 sf fast food commercial building with a double drive through and an outdoor seating area of 1,250 sf. The project includes 9 parking spaces with 1 handicapped parking stall and landscaping which will meet City requirements. The project proposes to utilize 2 existing driveways along Pacheco Boulevard in accordance with Caltrans requirements. The project site until 2007 has been used as a card lock fuel station and is currently vacant.   | <b>NOD</b>       |                |
| 2009081103   | Garner Basin<br>Kings County<br>Hanford--Kings<br>The Project is a modification and an improvement to an existing basin that has been in use for many year. The Project includes the construction of a single-cell 36.6 acre basin. The existing basin would be significantly expanded and the location of the basin shifted slightly to allow and adjacent landowner to reclaim some agricultural land. The portion of the existing basin that is to be reclaimed would be filled to match grade with adjacent fields with material from the newly excavated basin. The basin would be excavated to a maximum depth of 8 ft. Excavated materials would be used to create the new basin's levees, onsite grading, and to reclaim some of the existing basin area. The remaining excavated material is planned to be sold to other agencies or the public, if necessary. There is a reasonable expectation that the excess material from excavation of the site will be utilized for road fill for the State of California widening of SR 198. Approximately 8 willow trees (2 large trees and 6 smaller trees) would be removed during project construction.  | <b>NOD</b>       |                |

|   | Interchange). The proposed project passes through the Cities of San Bernardino and Loma Linda in the San Bernardino County, CA.   |                  |                |
| 2009101067  | Twin Oaks Elementary School Improvements Project<br>San Marcos Unified School District<br>San Marcos--San Diego<br>The SMUSD proposes improvements at Twin Oaks Elementary School, an existing school site. The project involves the development of two vacant District-owned parcels, adjacent to the east and to the northeast of the existing school campus. The site would be used for the construction of a new access road connecting Cassou Road to Olive Street, an agricultural learning center that would be relocated from its current site at San Marcos High School, and between 15 and 30 high school students would be enrolled in the program.  | <b>MND</b>       | 11/18/2009     |
| 2009101070  | Acquisition of Property and Construction Thereon of Romoland Middle School (aka Heritage Lake #2 School)<br>Romoland School District<br>--Riverside<br>The acquisition of ~20 acres and the construction of a new middle school, including a gymnasium to accommodate the need for additional student housing resulting from increased residential growth in the neighboring areas.   | <b>MND</b>       | 11/18/2009     |
| 2009101086  | 5511 JRF, ZCC 9, PD 1, ZC 2, Map 231-24<br>Kern County<br>--Kern<br>The applicant is requesting a Zone Change from E (2 1/2) RS MH to R-2 (Medium Density Residential, Precise Development) on the 20.15 acre project area and a Precise Development Plan to construct 87 duplexes (174 units). The duplexes will be constructed in up to 6 phases, as economic conditions permit. The submitted Precise Development Plan demonstrates that the project will comply with the multi-family special-development-standards contained within the Kern County Zoning Ordinance, including the requirements for common useable space, landscaping, parking and fencing. Because some of the units will be slightly closer to the centerline of the internal streets than is permitted, the application includes a request for a Zone Variance to allow for a reduced front yard setback of 19.5 ft where 25 ft is required. Additionally, the applicant is proposing to locate individual trash receptacles at each unit instead of providing common-use trash enclosures as is required by the special development standards. The maximum height of the proposed buildings is 20 ft (one story), which will ensure that the project will remain compatible with the operation of the Rosamond Skypark. | <b>MND</b>       | 11/18/2009     |
| 2009102066  | Lands of Claypool; MNS08-0023<br>Sonoma County<br>Sebastopol--Sonoma<br>Request for minor subdivision of 33.26 acres creating two parcels of 2.86 acres and 3.94 acres and a designated remainder of 25.96 acres.   | <b>MND</b>       | 11/18/2009     |
| 2009102067  | Calvary Christian Center<br>Yuba City<br>Yuba City--Sutter<br>Use permit for the proposed construction of a church campus on 23 acres located at the southeast corner of State Route 20 and El Margarita Road. The proposed project will be constructed in phases and consists of the following buildings and improvements: 80,000 sf, 2084 seat sanctuary building with staff offices (Phase 1) 16,380 sf elementary school capable of accommodating up to 200 students  | <b>MND</b>       | 11/18/2009     |

|   | <p>uses based on the net of ~139 acres and a Floor Area Ratio (FAR) of 0.40. The 0.40 FAR allows the construction of up to 40% of the net area (139 acres) of the Project area with actual buildings. The Project also includes the opportunity for Live/Work units. The types of uses anticipated for the Live/Work units include artist studios, professionals/consultants, photo studios, etc. Approximately 113 acres are currently designated by the Clovis General Plan as Very Low Density Residential, 19.9 acres are designated as Commercial, and 20.1 acres as High Density Residential by the Clovis General Plan. The Herndon-Shepherd designated the Project site as Large Lot Residential (2.2 du/ac) and Open Space. It also provided for "floating" designations of Neighborhood Commercial and Multi-Family. The Project would amend both the Clovis General Plan and the Herndon-Shepherd Specific Plan and establish a new land use area, Mixed Use Area 40, which includes primary uses of Research and Technology Business and provides opportunity for secondary uses of Live/Work units. The Project will require an amendment to the clovis General Plan Circulation Element and Herndon-Shepherd Specific Plan Circulation Element to allow required changes to area circulation including the extension of Alluvial Avenue from Temporance Avenue through the Project site and revised roadway development standards for Nees and Locan Avenues.</p> |                  |                |
| 2007121104  | <p>Fillmore Santa Clara River Permeable Weirs<br/>Fillmore, City of<br/>Fillmore--Ventura</p> <p>The Ventura County Resources different locations on the north bank of the Santa Clara River. a single palisade structure consists of 3-11 steel will be 8 ft in height. The netting material will be 4 inches in width with a mesh size of 13.75-18.75 inches high by 21-23 inches wide. The palisades will be oriented at a 25 degree downstream angle and will range from 65-195 linear ft each. Each palisade structure will be buried with native material and a 4 ft thick surface layer of riprap. Ultimately, these structures will be buried below the streambed elevation or along the banks, which will be backfilled. Approximately 13 palisade structures will be installed adjacent to the Fillmore City wastewater treatment plant. Eight palisades will be installed at the Riverwalk Development, adjacent to the existing soil cement levee. Areas impacted by the installation will be planted with native riparian species and irrigated. The project will be phased, with the estimated palisade system installation at the Fillmore Wastewater Treatment Plant conducted in 2009, and the estimated palisade system installation at the Riverwalk development to follow in 2011.</p>  | <b>NOD</b>       |                |

| 2005122002 | <p>Sacramento GreenCycle<br/>Sacramento County<br/>--Sacramento</p> <p>The project is the construction and operation of a solid waste facility that will accept and process a maximum of 600 tons per day of green material from Sacramento County residential green refuse. The facility will compost and recycle the green material.</p>  | <b>EIR</b> | 12/07/2009 |
| 2008062059 | <p>Gateway Business Park Master Plan Project<br/>South San Francisco, City of<br/>South San Francisco--San Mateo</p> <p>Phased removal and replacement of existing buildings on the 22.6 acre project site and construction of five to six new office buildings and two to four parking structures. The project proposes increase in development at the site from approximately 284,000 sf to approximately 1,230,570 sf., or a net change of 946,570 sf.</p>   | <b>EIR</b> | 12/07/2009 |
| 2008071060 | <p>South Perris Industrial<br/>Perris, City of<br/>Perris--Riverside</p> <p>The proposed project will be located in south Perris, roughly bordered by the I-215 Freeway to the north, the I-215 and San Jacinto River to the east, the San Jacinto River to the south, and Goetz Road/A Street to the west. The project is comprised of three noncontiguous industrial development sites that will be constructed separately in three phases, with infrastructure improvements constructed for each phase built on a schedule to accommodate the project's street, water, recycled water, and sewer needs. The three development sites total 7,399,291 sf of industrial warehouse space on ~454.7 acres. The Phase 1 site will include ~783,700 sf of space on ~38 acres, the Phase 2 site will include ~3,166,857 sf of space on ~215.7 acres. The project will include potentially 182,000 sf of office use. Infrastructure improvements will provide additional capacity over and above that needed to accommodate project-specific street, water, recycled water, and sewer needs, thus providing an infrastructure benefit within the project vicinity. The project also proposes a total of ~73 acres of conservation land in compliance with the Western Riverside County Multiple Species Habitat Conservation Plan, which is broken up into three different areas along the San Jacinto River.</p> | <b>EIR</b> | 12/07/2009 |

|   | descriptions.<br>Classrooms G8 and H8 Modernization - Classrooms G8 and H8 were originally proposed to be demolished to accommodate the Math and Science Complex. The modernization, which will be integrated into the Math/Science Complex would modernize Classrooms G8 and H8 which were originally constructed in 1963 and 1961 respectively. This modernization will bring the existing buildings up to current code and life safety standard and provide modernized classroom space to meet current and future enrollment.   |                  |                |
| 2009101076  | Vandenberg Air Force Base (VAFB) Military Munitions Response Program Surface Clearance Interim Removal Action Work Plan<br>Toxic Substances Control, Department of Lompoc--Santa Barbara<br>The project is for the Department of Toxic Substances Control's (DTSC's) approval of an Interim Removal Action (IRA) to perform a munitions surface clearance to remove visible surface material including munitions and explosives of concern (MEC), munitions debris (MD), and other related metallic items to facilitate an efficient and expeditious Remedial Investigation (RI), at eight of the munitions response sites (MRSs) at Vandenberg Air Force Base (VAFB) recommended for further evaluation in the Comprehensive Site Evaluation (CSE) Phase II report: MU803, Rail Garrison; MU804 Tracking Station; TM807, Grenade Course; MU809, Purisima Point; TM817A, Training and Maneuver Area MEC Area 1; and TM817E, Training and Maneuver Area MEC Area 5; TM817F, Training and Maneuver Area MEC Area 6; and TM817K, Training and Maneuver Area MEC Area 8. This project will be performed in accordance with the IRA Work Plan prepared for the United States Air Force by Shaw Environmental, Inc., September 2009, which is incorporated by reference. | <b>Neg</b>       | 11/19/2009     |
| 2009031056  | LA Water, LLC Chemical Manufacturing Facility<br>South Gate, City of<br>South Gate--Los Angeles<br>The proposed project involves construction of a new plant for the production of drinking water and wastewater purification products. The new products would be liquid in form and would include ferric chloride, ferrous chloride, ferric sulfate and ferrous sulfate. These products are predominantly used in the purification of both municipal wastewater and drinking water. Nearly every municipality in the southern California area uses one or more of these products in their municipal drinking water and wastewater treatment plant. Raw materials used in the manufacturing process would be delivered primarily by rail. Finished products would be shipped from the site as liquids primarily in bulk truck tank wagons. There would also be some product shipments to customers in rail cars. Many of the raw materials and products are considered hazardous because they are acidic in nature. The only raw material or product that would require any special permit is the handling of liquid chlorine in tank cars.  | <b>Oth</b>       |                |
| 1996082016  | Tuolumne County General Plan Update<br>Tuolumne County<br>The project entails rezoning the subject property to a zoning district that is consistent with the General Plan land use designation. Therefore, pursuant to Section 15162 of the State CEQA Guidelines, no additional review under CEQA is required for the proposed zone change.   | <b>NOD</b>       |                |

The garden will be constructed to replace existing turf grass area in the center of Campus.</p>   | <b>NOE</b>       |                |
| 2009108182  | <p>Milford Thin Blanket Overlay<br/>Caltrans #2<br/>--Lassen<br/>Using both state and federal funds the Caltrans will place a 0.10' thin blanket overlay with isolated 4" digouts. Other work will include: adding shoulder backing, upgrading guardrail to current standards as needed, and re-striping. Specific pull-outs have been identified for staging and stockpiling use. No work will be performed on bridge decks.</p>   | <b>NOE</b>       |                |
| 2009108183  | <p>Shotgun Creek Fish Ladder Clean-out<br/>Caltrans #2<br/>--Shasta<br/>Using only state funds the Caltrans will remove rocks and boulders blocking access to a fish ladder in the Shotgun Creek culvert where the creek crosses Interstate 5. Heavy equipment will be used to remove material around and inside both ends of the fish ladder. The rock removal areas will both be ~15' wide and 15' long. The rocks will be moved to the banks of the channel, outside the ordinary high water mark. Approximately 2 cy of material will be moved from the outlet side and 4 cy from the inlet side.</p>   | <b>NOE</b>       |                |
| 2009108184  | <p>Final Draft Preliminary Endangerment Assessment and Removal Action Workplan (PEA/RAW), Placer County Water Agency (PCWA) Sierra Center Parking Facility<br/>Toxic Substances Control, Department of<br/>Auburn--Placer<br/>The intent of the project is to mitigate impacted soils that exceed the proposed project-specific commercial cleanup level for arsenic in spoil at 25 mg/kg. The RAW proposes to manage the arsenic contaminated spoil on-Site by utilizing selective excavation and grading mechanisms, and construction of an asphalt pavement "cap". The estimated volume of contaminated soil proposed for on-Site encapsulation is ~1,550 cy. No contaminated soil will be transported off-site for disposal. DTSC will require an Operation and Maintenance (O&amp;M) Agreement and Deed Restriction be placed on the Site property upon completion of the proposed RAW.<br/><br/>The Raw will also require the import of clean fill material to complete the Site's proposed grading specifications.</p> | <b>NOE</b>       |                |

Also requested is a Zoning Amendment to change the zoning from RC (Rural Commercial) to RA (Residential Agriculture) for about a 0.75 +/- acre portion of APN: 057-012-021 to facilitate a future boundary line adjustment. The parcels are contiguous. The property is located at 4423 Six Mile Road, at the intersection with Hwy 4 in Murphys.</p>   | <b>MND</b>       | 11/30/2009     |
| 2009101079   | <p>Channel Islands Telecommunication Project<br/>Public Utilities Commission<br/>--Ventura, Santa Barbara<br/>The CITC is proposing to install the cellular telecommunication infrastructure at 17 project locations on the five islands: Anacapa Island; San Miguel Island, Santa Barbara Island, Santa Cruz Island, and Santa Rosa Island that make up the Channel Islands National Park.<br/>The proposed project is needed because NPS staff currently has limited ability to communicate between locations on the Channel Islands and with personnel and other contact points on the mainland. The islands have a very high frequency (VHF) radio system that allows communication among radio-equipped ranger stations on the five islands. There is also satellite internet service at some ranger stations that allows secure access to government internet provider (IP) addresses on the mainland. NPS personnel also possess cellular telephones; however, cellular service is unreliable because the islands are at the outer limit of the cellular service area. As such, the location of the islands makes cellular telephone service unreliable on some parts of the islands and wholly absent on others.</p> | <b>NOP</b>       | 11/23/2009     |

|  | and a 97 acre business park. The project establishes that a maximum number of 3,830 dwelling units would be developed under the Specific Plan. Within these major areas are other proposed uses, including warehouse industrial, commercial, retail, mixed use, parks and schools.  |                  |                |
| 2008122111   | Napa Pipe<br>Napa County<br>Napa--Napa<br>NOTE: Review Per Lead   | <b>EIR</b>       | 12/22/2009     |
|  | The project proposal includes amendments to the County General Plan and zoning ordinance, as well as a development plan, subdivision map compliance, and design guidelines for the project site. These draft documents are collectively referred to as the "Comprehensive Development Application." The proposed project would redevelop a "Brownfield" site involving the remediation of contaminated soil and groundwater, importing fill to raise the elevation of the site above the base flood elevation, and phased construction of a new neighborhood.   |                  |                |
| 2009082070   | Elimination of Non-special-education, Home-to-school Bus Service<br>San Juan Unified School District<br>--Sacramento<br>NOTE: Extended review per lead.   | <b>EIR</b>       | 12/16/2009     |
|  | The San Juan Unified School District (SJUSD) is considering the possible elimination of home-to-school bus service for non-special education students within the district. This change in busing policy would be part of the district's efforts to assist in balancing its 2010-2011 budget in the face of state funding cuts and dropping enrollment. If approved, the policy would take effect at the beginning of the upcoming school year in August 2010. Transportation services mandated by state, federal, or other SJUSD Board of Education policies, such as home-to-school bus service for special education students would continue under the revised policy.  |                  |                |
| 2008072055   | Doctors Park Association Zone Change (Z-06-02) & Vesting Tentative Parcel Map (TPM-06-04)<br>Siskiyou County<br>Mount Shasta--Siskiyou<br>The applicants request concurrent Zone Change and Vesting Tentative Parcel Map approval to modify the existing Planned Development (PD) zone designation to develop an additional 20,000 square feet of commercial office space to be used for professional office uses and health care facilities. Ten thousand square feet of commercial office space is proposed to be developed in one structure located within Parcel 3. The additional 10,000 square feet of commercial office space would be developed in two separate structures within the designated Remainder Parcel. The Vesting Tentative Parcel Map would subdivide the 3.06 acre Remainder Parcel into two parcels encompassing 0.52 acre (Parcel 4) and 2.80 acres (Remainder). | <b>MND</b>       | 11/23/2009     |

| 2009062070   | <p>South San Francisco General Plan Amendment<br/>South San Francisco, City of<br/>San Francisco--San Francisco</p> <p>The proposed General Plan Amendment will adopt planning goals, objectives, and policies to allow for dense (60 du/acre) and intense (3.0 FAR) mixed-use development along the El Camino Real corridor, south of Chestnut Avenue. The proposed General Plan Amendment and the supporting Zoning and Design Guidelines are consistent with the intent of the "Grand Boulevard Initiative" for El Camino Real and with "Smart Growth" principles, which include, but are not limited to, creating: mixed land uses, a range of housing opportunities and choices, walkable neighborhoods, compact urban form, opportunities for transportation/transit alternatives, and an effective use of available infrastructure. Further, the City believes that by allowing more dense, mixed-use development in the El Camion Real corridor, it is progressively addressing issues identified in the State of California 2006 Global Warming Solutions Act (AB32) and the State's greenhouse gas emissions law (SB375).</p> | <b>NOP</b>       | 11/23/2009     |
| 2009101084   | <p>City of Tehachapi General Plan<br/>Tehachapi, City of<br/>Tehachapi--Kern</p> <p>This update of the 1999 General Plan incorporates and addresses the applicable requirements of state law in Government Code Section 65302, including but not limited to the required elements: Land Use, Housing, Circulation, Open Space, Conservation, Noise, and Safety, as well as optional elements: Community Design, Parks and Recreation, Economic Development, Energy, Water, and Culture.</p> <p>The Tehachapi General Plan applies to all property within the adopted Tehachapi Sphere of Influence. This plan shall be administered by the Tehachapi Community Development Department, the Tehachapi Planning Commission and, the Tehachapi City Council according to the procedures and requirements set forth in the Tehachapi Municipal Code.</p>  | <b>NOP</b>       | 11/23/2009     |
| 2009102075   | <p>Altamont Corridor Rail Project<br/>High Speed Rail Authority, California<br/>--San Joaquin, Alameda, Santa Clara</p> <p>NOTE: NOP/NOI</p> <p>The Authority and SJRRC are proposing to develop a dedicated regional rail corridor through Altamont Pass and the Tri Valley area capable of supporting intercity and commuter rail passenger services. The project would improve the existing Altamont Commuter Express (ACE) service managed by SJRRC by accommodating more trains per day, reducing travel times, and eliminating freight railroad delays by providing separate passenger tracks. The Altamont Corridor will serve as a feeder to the Statewide High Speed Train (HST) System being planned and developed by the Authority. The project will consider connections between the Altamont Corridor and the HST mainline between Stockton and Modesto and HST - compatible infrastructure that would allow trains to run from one rail line to the other in order to accommodate intercity travel between stations along the Altamont Corridor and regional stops on the greater Statewide HST System.</p>               | <b>NOP</b>       | 11/23/2009     |

A total of 2.92 acres of Department jurisdictional streams are present on the site, all of which will be impacted by the proposed project. Mitigation will include 5.64 acres of California walnut woodland/southern sycamore riparian woodland dominated by southern California black walnut ( <i>Juglans californica californica</i> ), western sycamore ( <i>Platanus racemosa</i> ), and coast live oak ( <i>Quercus agrifolia</i> ) (3:1 for the permanent impacts); 2.08 acres of southern willow scrub dominated by black willow ( <i>Salix goodingii</i> ), arroyo willow ( <i>Salix lasiolepis</i> ), sandbar willow ( <i>Salix exigua</i> ), mule fat ( <i>Baccharis salicifolia</i> ), and freshwater marsh dominated by cattails ( <i>Typha</i> sp.) (2:1 for the permanent impacts). The project is located on the south side of the San Bernardino Freeway, ~450 ft east of Palomino Drive, in the Covina Highlands zoned district, in Los Angeles County. | <b>NOD</b>       |                |
| 2009108211   | Trio Trail Maintenance and Vista Trail Footbridge Replacement<br>Parks and Recreation, Department of<br>--Sonoma<br>Accomplish trio maintenance along Headwaters, Red Mountain and Vista Trails at Sugarloaf Ridge State Park, working within the existing footprints of these trails. Replace three footbridges comprised of creosote rail road lines that span a wet seep area along Vista Trail to maintain pedestrian access to the existing hiking trail and protect natural resources. Remove bridges that are approximately 4 foot (ft) long by 5 ft wide; remove accumulated silt underneath and in near vicinity up and down stream of each bridge and place silt on vegetated areas where it will not re-enter the creek; and install three new, approximately 4 ft by 5 ft wide bridges composed of redwood lumber.  | <b>NOE</b>       |                |
| 2009108212   | San Antonio Pipeline Project SAA # 1600-2009-0141-R2<br>Fish & Game #2<br>--Calaveras<br>Project proposes to replace an existing pipeline from a spring to the Operators residence. The pipeline will be placed with the stream zone of San Antonio Creek. Pipe will be buried in a ditch approximately 3 feet deep and 18 inches wide and 80 foot long. The trench will then be backfilled with native river rock and compacted down to prevent sedimentation during the rainy season.   | <b>NOE</b>       |                |

| 2009108213   | Kelly Road Bank Repair<br>Fish & Game #3<br>Cloverdale--Sonoma<br>The applicant proposes to stabilize an existing road along Flatridge creek in Sonoma County. In the recent past, a large land slide occurred, which delivered sediment and large woody debris in the channel of Flatridge creek. Consequently, the channel of Flatridge creek meandered alongside Kelly Road and has begun to undercut the stream bank and the road. The applicant proposes to stabilize approximately 1600 square feet of Flatridge creek using a combination of willow sprigs and 3ft to 6ft diameter rock. SAA #1600-2009-0355-3   | <b>NOE</b>       |                |
| 2009108214   | Demolition Permit Review D09-007<br>Tuolumne County<br>--Tuolumne<br>Demolition Permit D09-007 for demolition of a cabin built in 1952. The 14.7+/- acre property is zoned A-10 (General Agricultural district, Ten Acre Minimum) under Title 17 of the Tuolumne County Ordinance Code.   | <b>NOE</b>       |                |

| 2009101089   | <p>Conditional Use Permit Application No. C-09-158<br/>Fresno, City of<br/>Fresno--Fresno</p> <p>Conditional Use Permit Application No. C-09-158 requests authorization to construct a water storage and treatment facility (T-3 Facility). The City intends to operate the southeast surface water treatment component of the T-3 Facility for the next 10 yrs, during which time a new, larger southeast surface water treatment plant (SWTP) will be constructed at a different site. After the permanent southeast SWTP is operational, the T-3 treatment plant will be decommissioned and the treatment equipment either removed from the site or abandoned place. The water storage and pumping components of the T-3 Facility are permanent and will remain in operation after the southeast SWTP is constructed.</p>   | <b>MND</b>       | 11/24/2009     |
| 2009101090   | <p>Early College Academic and Technical School<br/>Long Beach Unified School District<br/>Long Beach--Los Angeles</p> <p>Demolition of the existing Cecil B. DeMille Middle School and construction of a 150,000 sf thematic high school, with ~1,200 students Grades 9 through 12.</p>  | <b>MND</b>       | 11/24/2009     |
| 2009101092   | <p>Teckman Minor Use Permit<br/>San Luis Obispo County<br/>--San Luis Obispo</p> <p>Request by Dave Teckman for a Minor Use Permit to allow a conversion of an existing 1,826 sf building (guesthouse) into a winery with a public tasting room. The project includes a request to modify the setback requirement of 200 ft from the nearest property line for a winery with public tasting to allow a tasting room to be located ~110 ft from the front property line, 92 ft rear property line, and 75 ft from the east-side property line. The project also includes a request to modify the setback requirements of 400 ft from the nearest residence to allow a tasting room to be located within 315 ft. The project does not include any special events. The annual maximum case production would be up to 5,000 cases produced from both future on-site and off-site grapes. The project will result in the disturbance of ~1,050 sf on a 3.6 acre parcel.</p> | <b>MND</b>       | 11/24/2009     |
| 2009101093   | <p>Minor Use Permit (R&amp;M Rossi)<br/>San Luis Obispo County<br/>--San Luis Obispo</p> <p>Request by R&amp;M Rossi Road Development, LLC for a Minor Use Permit to authorize the development of a commercial retail center to include three buildings with ~12,400, 4,500 and 3,000 sf each. The project will involve 2,200 cy of cut and 12,600 cy of fill and a site distribution area of 91,476 sf (2.1 acres) on a 2.18 acre parcel.</p>   | <b>MND</b>       | 11/24/2009     |
| 2009101094   | <p>Searidge Investment/Merrill Parcel Map<br/>San Luis Obispo County<br/>--San Luis Obispo</p> <p>Request by the Thomas A. Murrell Family Trust and Searidge Investments, LLC for a parcel map (CO-05-0014/ SUB2007-00221) to subdivide a 2.01 acre parcel into three parcels of 0.64 acres (Parcel One), 0.70 acres (Parcel Two) and 0.66 acres (Parcel Three) for the purposes of sale and/or development. This is a cluster subdivision, with a 28,208 open space parcel. The project will result in the disturbance of ~1.2 acres including development within three building envelopes and access improvements. The project is within the Residential Single Family land use category and is located at 320 Old County Road, east of the intersection</p>   | <b>MND</b>       | 11/24/2009     |

| 2009102081   | Emergency Operations Facility Project<br>Marin County<br>San Rafael--Marin<br>A new Emergency Operations Facility ("EOF") proposed for design and construction to accommodate current and future safety needs and provide for continuity of communication and coordination operations by the County after a major disaster. The EOF is intended to be the focal point for communications with disaster worker and coordination of these workers within all of Marin County. The preferred EOF site is an approximately 8.07 acre "L-shaped" site located east across Civic Center Drive and Armory Drive.  | <b>NOP</b>       | 11/24/2009     |
| 2006072085   | New Irvington Tunnel Project<br>San Francisco, City and County of<br>Fremont--Alameda<br>The proposed New Irvington Tunnel project would be ~3.5 miles long, extending west from the new Alameda West Portal on the west side of the Sunol Valley to the new Irvington Portal in the City of Fremont. The new tunnel would be located south and approximately parallel to the existing tunnel, separated by a distance of ~100 to 700 ft from the existing tunnel. The final internal diameter of the tunnel would be between 8.5 and 10.5 ft. The depth of the tunnel would range from ~30 ft below ground surface at the portals to 700 ft below the techniques. The purpose of this project is to construct a new tunnel that would: 1) be built using modern earthquake engineering designs, materials and technology resulting in more resistance to damage during major seismic events; 2) allow the SFPUC to take the existing tunnel out of service for inspection, maintenance, and repairs; and 3) improve overall system delivery reliability by providing a redundant tunnel in the event of a major seismic event or other impact on the existing tunnel requiring maintenance and/or repair. | <b>Oth</b>       |                |
| 1995044002   | FLOOD CONTROL PROJECT, NAPA RIVER<br>U.S. Army Corps of Engineers<br>NAPA--NAPA<br>The Applicant, the Napa County Flood Control and Water Conservation District is proposing to implement and complete construction associated with the Napa River/Napa Creek Flood Protection Project.  | <b>NOD</b>       |                |

| 2009104003 | <p>Red Oak Fee-to-Trust Application<br/>Bureau of Indian Affairs<br/>--San Diego</p> <p>The proposed action is the transfer of ~88.5 acres of fee land into Federal trust by the Bureau of Indian Affairs (BIA) on behalf of the Viejas Band of Kumeyaay Indians. The proposed acquisition lands would be used for Tribal member housing and for cultural resource preservation.</p>  | <b>EA</b>  | 11/30/2009 |
| 2007102107 | <p>Patterson Ranch Planned District<br/>Fremont, City of<br/>Fremont--Alameda</p> <p>The project is the Patterson Ranch Planned District, which provides for future development on ~154 acres of the 428 acre site and the donation of the remaining 274 acres to a public agency. Implementation of the project would allow the development of up to 839 housing units and up to 39 secondary dwelling units (83 acres), up to 50,000 sf of neighborhood commercial uses (4 acres), an elementary school (10 acres), two religious facilities (10 acres), a community park (30 acres), and various neighborhood park and trail within the developed areas. Two pedestrian paths would connect the project to the Alameda Creek Regional Trail. Approximately 1 acre of the project area (at Ardenwood Blvd and the flood control channels) would be donated to the Union Sanitary District for use as a pump site. The future use of the pump site is not part of this environmental evaluation.</p> | <b>EIR</b> | 12/14/2009 |
| 2009101100 | <p>Weyrick Conditional Use Permit DRC 2007-00024<br/>San Luis Obispo County<br/>--San Luis Obispo</p> <p>Request to allow an as-built 8-acre expansion of a lumber operation including paving, storage of materials, installation of landscaping, and 50 parking spaces. Additional proposed uses include: 1) eleven pole barns to store and screen lumberyard materials, including one 14,000 sf, one 12,000 sf, six 6,000 sf, and three 5,300 sf in size; 2) an ~1,500 sf stationary band saw station; 3) expansion of two existing detention basins (~7,000 and 4,3200 additional cf each); and 4) a request for a curb, gutter, and sidewalk waiver. The project resulted in the disturbance of ~8 acres, and is currently used for the un-permitted open storage of lumberyard materials and equipment and two stationary saws.</p>  | <b>MND</b> | 11/30/2009 |
| 2009101101 | <p>Main Street Widening Project<br/>Riverside County Transportation Commission<br/>--Riverside</p> <p>The Riverside County Transportation Department (RCTD) is proposing to widen the existing AC pavement from 18 ft to 24 ft on the south half of Main Street from TaylorStreet to Michigan Avenue to accommodate two 12 ft wide travel lanes. In addition, curb, gutter and a 5 ft wide sidewalk would be installed which would require the elimination of on-street parking along the south side of Main Street. A 13 ft wide median with a 6 ft high fence would also be constructed. The existing catch basins along the south side of Main Street would be relocated and rebuilt along with the relocation of electrical power poles. Handicap access ramps would be installed at Sanrive Avenue and Michigan Avenue. In addition, a traffic signal at the intersection of Main Street and Michigan Avenue is also included in the</p>   | <b>MND</b> | 11/30/2009 |

|   | project but will be constructed at a later time.   |                  |                |
| 2009102087  | Foresthill Heights<br>Placer County<br>--Placer<br>1. Conditional Use Permit to allow for a Planned Development (PD) with a density of .22 on the project site.<br><br>2. Tentative Subdivision Map proposing an 8 lot single family residential subdivision.<br><br>The project would involve the development of an 8 lot single family residential subdivision with parcels ranging in size from 2.3 acres to 4.1 acres. Approximately 46% of the gross property acreage (44.74) acres would consist of open space, and 54% would be developed.<br>Water service for the project would be provided by the Forest Utility District, and wastewater service would be provided by individual septic systems. Access to the project site would be from Foresthill Road.  | <b>MND</b>       | 11/30/2009     |
| 2009102088  | Logvy Community Park Teen / Art Center<br>Calistoga, City of<br>Calistoga--Napa<br>NOTE: Reference SCH #1999032073<br><br>The proposed project involves construction of a new Teen / Art Center facility in Logvy Community Park, a 10.24 acre city-owned park located in central Calistoga. The project site - approximately 1.35 acres in size - is located in the northern portion of the existing community park, adjacent to the Napa County Fairgrounds. The project generally consists of a new 3,500 sf Teen / Art Center building, a manicured landscape area for passive activities, a 28 space gravel parking lot, and sidewalk and landscaping improvements along the site's N. Oak Street frontage. The proposed improvements and uses are consistent with planned uses and improvements envisioned in the recently updated Logvy Community Park Master Plan. | <b>MND</b>       | 11/30/2009     |
| 2009102089  | Auxiliary Water Supply System Seismic Upgrade<br>San Francisco, City and County of<br>San Francisco--San Francisco<br>The proposed project would involve seismic retrofit and upgrade construction work to ensure seismic safety and reliability of the City & County of San Francisco's supplementary fire-fighting water supply and pumping capabilities; removal and replacement of old pipes, machinery and equipment; and installation of modern equipment and machinery related to the operation of the existing CCSF Auxiliary Water Supply System (AWSS). Seismic upgrade, repair and modernization work would involve all the five existing water storage and pumping facilities of the AWSS, but would not extend to the below-ground AWSS distribution pipe network.  | <b>MND</b>       | 11/30/2009     |
| 2009102090  | Tahoe-Pyramid Bikeway (Hirschdale to Stateline)<br>Truckee-Donner Rec and Park District<br>Truckee--Nevada, Sierra<br>Tahoe-Pyramid Bikeway is a bi-state 116 mile-trail following the Truckee River from Lake Tahoe to Pyramid Lake. The California portion covered under this environmental document is 10 miles long, from Hirschdale to the Nevada State line, lying mostly on I-80 right-of-way. The trail will re-use old Highway 40   | <b>MND</b>       | 11/30/2009     |

## CEQA Daily Log

Documents Received during the Period: 10/16/2009 - 10/31/2009

|   | remnants as much as possible, and will require construction of new trailer for 3.3 to 4.8 miles. Where new trail construction is required, it will be 8-12 ft wide, surfaced with compacted soil and gravel (unpaved) and will include retaining walls or rip-rap for side-slope stabilization where needed. In one narrow point, a cantilever or bridge alongside I-80 will be needed for 100 ft, plus a crossing of I-80 by bridge or tunnel. Significantly, Caltrans has endorsed the project in concept, because it eventually may get bicycles off I-80.   |                  |                |
| 2009102091  | Environmental Innovation Center (Las Plumas Warehouse)<br>San Jose, City of<br>San Jose--Santa Clara<br>The City of San Jose is proposing to develop the property at 1608 Las Plumas Avenue as an Environmental Innovation Center (EIC). The EIC would host a permanent household hazardous waste collection facility, a clean technology demonstration and prototype manufacturing center (including manufacturing of prototype renewable energy vehicles), workforce training opportunities targeting the green economy, construction and demolition material reuse operations, and shocases for green and energy efficient design and solar energy production. The site would also demonstrate best practices for onsite stormwater management, waste reduction, and sustainable landscaping. The EIC would include the existing Las Plumas warehouse building, and a new 7,000 sf building for the permanent household hazardous waste facility.  | <b>MND</b>       | 11/30/2009     |
| 2009102092  | Butte County Mosquito & Vector Control Substation<br>Chico, City of<br>Chico--Butte<br>The proposed project is the construction of a tilt-up concrete warehouse structure totaling 10,000 sf and associated site improvements (parking, landscaping, outdoor employee area, fencing, lighting, etc.) on a site that is 2.2 acres in size.<br><br>The project also involves the construction of one mosquito fish pond that is ~3 ft deep. The pond will not be lined with materials, so that natural vegetation can grow and that bio-mass break down may occur. This pond will contain water year round and within the rear fenced yard area at the rear of the structure. A second pond, located near the drive entrance, will not house mosquito fish and is intended to be an educational/demonstration pond for field trips, and to capture water run-off. Except for the front pond, all run-off is proposed to remain on-site through site design techniques and various porous materials used. This pond is designed to allow run-off to be collected, stored, and filtered to City of Chico standards (first flush), and when peak capacity is reached it will release water into the City storm system. | <b>MND</b>       | 11/30/2009     |
| 2009102093  | WPCP Outfall Channel Alternative Disinfection Dechlorination Sodium Bisulfite Pipeline Public Project, File No. PP09-173<br>San Jose, City of<br>San Jose--Santa Clara<br>Alternative Disinfection Outfall Channel Dechlorination Public Project for the underground installation of ~3,200 linear ft of 3 inch dedicated sodium (SBS) pipeline from the San Jose/Santa Clara Water Pollution Control Plant (WPCP) near the existing filter influent pump station to the plant outfall channel dosing point. Horizontal dierectional drilling will be used to install the pipeline under Los Esteros Road, with the remainder of pipeline being installed via trenching up to 3 ft deep within the existing WPCP access road and west berm of the outfall channel, terminating at the existing outfall channel diffuser, which will also be repaired or   | <b>Neg</b>       | 11/30/2009     |

| 2009101103   | Settlers Point TM 5423; REZ 05-004<br>San Diego County<br>--San Diego<br>The project is a residential subdivision for multi-family housing. The zoning reclassification and tentative map would allow no more than 266 units on 21.89 acres. The rezone proposes to change the zoning from RS4 to RV-14.5.   | <b>MND</b>       | 11/30/2009     |
| 2009101104   | Golden Land LLC Lot Line Adjustment<br>San Luis Obispo County<br>--San Luis Obispo<br>Request by Golden Land LLC / Wendell Gutter a Lot Line Adjustment COAL 08-0055 to adjust the lot lines between 4 parcels of 40, 160, 160 and 160 acres each. The adjustment will result in 4 parcels of 85, 85, 160 and 190 acres each. The project will not result in the creation of any additional parcels. The proposed project is within the Rural Lands land use category. The project is located on Old Camino Real ~1/4 of a mile Southeast of Nacimiento Lake Drive, South of the Monterey County line. The site is in the Nacimiento planning area.  | <b>MND</b>       | 11/30/2009     |
| 2009102096   | Pond DR06 Repair<br>Midpeninsula Regional Open Space District<br>--San Mateo<br>The purpose of the project is to repair a failing earthen berm at stock pond DR06 at an active cattle ranch, thereby preventing erosion and downstream sedimentation, improving California red-legged frog (CRLF) habitat, and improving cattle access at the pond.  | <b>MND</b>       | 11/30/2009     |
| 2009102098   | Park Plaza<br>Palo Alto, City of<br>Palo Alto--Santa Clara<br>NOTE: Review Per Lead<br><br>Board (Caltrain) property and 3405 Park Boulevard. The project site consists of three parcels (APNs 0132-32-003, 132-32-004, and 132-32-052). The lot-lines of these three parcels would be eliminated upon the granting of a Certificate of Compliance by the City of Palo Alto to create a single parcel of 2.52 acres (gross) and 2.41 acres (net). An 11 ft street easement extends along the southwest property line adjacent to Park Boulevard. The Caltrain railways property defines the northeast project site property line. Alma Street parallels the Caltrain right-of-way along its northeast side. Single and multiple family residences face Alma Street along its northeast side. Page Mill Road defines the northwest boundary of the project site: a vacant lot is across Page Mill Road. Adjacent uses include railroad tracks, automobile body shop and repair, automobile sales and service, vacant offices formerly occupied by Agilent Technologies and law offices. | <b>MND</b>       | 12/01/2009     |
| 2009101105   | Riverside North Aquifer Storage and Recovery Project<br>Riverside, City of<br>Colton--San Bernardino<br>The project proposes the construction of an inflatable rubber dam across the Santa Ana River and the construction of groundwater recharge basins in the south part of the City of Colton, allowing active groundwater recharge in this part of the Santa Ana River. Other improvements associated with the project may include: construction of a passive recreational park (includes a fishing pond, trails, and picnic areas), a pedestrian bridge across the Santa Ana River, the re-alignment of East Fogg Street, and the provision of railroad right of way for future re-alignment  | <b>NOP</b>       | 11/30/2009     |

The project will be completed in two phases. At full build out, the project will include an 88,226 sf x 37 ft tall worship hall building, 348 parking spaces with tree pockets, 4 ponding basins, a 24 ft wide private access driveway, a Diamond Vision Screen 4 ft x 4 ft x 8 ft tall (digital) monument sign, a fountain, and 10,127 sf amphitheater. The site will be landscaped.   | <b>Neg</b>       | 12/02/2009     |
| 2009102094   | Clipper Creek Siphon Replacement<br>Nevada Irrigation District<br>Nevada City--Nevada<br>The intent of this project is to construct a new welded steel, ductile iron or concrete cylinder pipe material raw watre transmission pipeline to convey the raw water that currently flows through the existing Clipper Creek Siphon. This existing pipeline was constructed using Techite pipe: a reinforced plastic mortar pipe material manufactured on the 1970s. Approximately 5,400 ft of Techite in the Cascade Shores Siphon upstream of the Clipper Creek Siphon was removed and replaced with concrete cylinder pipe in the late 1970s after a significant pipe rupture. The remainder of the Cascade Shores Siphon was replaced with the Cascade Flume Replacement Project in 2002, with the Techite materials replaced with welded steel pipe. | <b>Neg</b>       | 11/30/2009     |

| 1998092078   | Shasta Valley Asphalt and Aggregate Plant Expansion Project<br>Yreka, City of<br>Weed--Siskiyou<br>Expansion of operations under Use Permit #2858 issued by the City of Yreka. The project consists of expansion of operation at the existing asphalt batch plant to include: 1) Expansion of site disturbance; 2) Expansion of operations to produce Rubberized Asphalt Concrete (RAC); and (3) Expansion of hours to intermittent nighttime operations typically during the months of April through October, as required for public projects. The project will require modification of the existing use permit (#2858) issued in 1999. The existing use permit excludes the production of rubberized asphalt and nighttime operations of the existing asphalt batch plant. The project also includes relocation of the existing stormwater runoff of the entire project site, including the previous "avoidance area." Additionally, the project proposes a new office (to relocate the office that was proposed on the original 1999 site plan, but has never been constructed), a shop to be located to the northwest of the existing asphalt plant baghouse and landscaping along the northern edge of the project property. | <b>SIR</b>       | 12/14/2009     |
| 2006062053   | Stoneridge Drive Specific Plan Amendment/Staples Ranch<br>Pleasanton, City of<br>Pleasanton--Alameda<br>The Proposed Project evaluated in the Stoneridge Drive Specific Plan Amendment/Staples Ranch Environmental Impact Report (EIR) assumed modification of the land uses of the Stoneridge Drive Specific Plan for the 124 acre Staples Ranch project site from 100 acres of retail and service commercial uses and a 17 acre community park to a 46 acre senior continuing care community, a 37 acre auto mall, an 11 acre retail/commercial center, a 5 acre neighborhood park and a 17 acre community park (Stoneridge Drive Specific Plan Amendment). The EIR also assessed the effects of a four-rink ice-skating center in the community park, together with the other Proposed Project land uses, as a project alternative (Ice Center Alternative).   | <b>SIR</b>       | 12/14/2009     |

|  | Pipeline Component B is an estimated 16,100 linear foot pipeline that would begin at the driveway of the J.B. Latham Wastewater Treatment Plant and connect to the existing Golden Lantern Reservoir via Del Obispo Drive, Camino del Avion and Golden Lantern Drive. Pipeline Component B will have a 16 inch diameter and will be installed within the service boundary of neighboring South Coast Water District.   |                  |                |
| 2009101108   | Vande Vegte Tentative Map 3100-5243<br>San Diego County<br>Fallbrook--San Diego<br>The project is a request for a Tentative Map to subdivide a 16 acre property into 8 discrete residential lots. The project site contains several biological open space easements that would remain preserved. Access to Lot 5 would be provided from Fallbrook Street, a public road. Access to all other Lots would be taken from Beaver Creek Lane, a private road. Beaver Creek Lane would be extended through the property to connect to Fallbrook Street. The project is located at 495 Beaver Creek Lane in the Fallbrook Community Planning area, within the unincorporated area of San Diego County.  | <b>MND</b>       | 11/30/2009     |
| 2009102099   | Ridge Cut Giant Garter Snake Conservation Bank<br>Yolo County<br>--Yolo<br>The proposed project is the restoration and preservation of 185.9 acres of habitat for the federally and state listed giant garter snake at the Ridge Cut Garter Snake Conservation Bank site. The proposed project will preserve and enhance 48.4 acres of perennial marsh, 57.4 acres of open water, and 8.01 acres of uplands. There are two agricultural ditches adjacent to the site (Oat Creek to the south and an unnamed ditch at the northwest corner of the property) that currently support populations of giant garter snake. The created habitat will be hydrologically connected to these ditches in order to provide additional habitat for these active populations of the snake.   | <b>MND</b>       | 11/30/2009     |
| 2009102101   | 1250, 1252, 1254 Edgewood Road Annexation and Subdivision Project<br>Redwood City<br>Redwood City--San Mateo<br>The project would prezone and annex 5 parcels from San Mateo County to Redwood City. The affected properties are currently arranged as 3 parcels each developed with single family homes (1250, 1252, 1254 Edgewood Road). They are in unincorporated San Mateo County within Redwood City's sphere of influence. Proposed zoning is residential hillside (R-H). The project also includes subdividing the 1250 parcel into 3 lots, demolishing the existing home and redeveloping each lot with a single family home. The subdivision results in a net addition of two homes. No specific home designs are currently proposed, however, provisions for utilities, drainage, grading, and driveway access are contained in the VTPM. No physical improvements are proposed for the 1252 and 1254 parcels, they are accessed by a private drive belonging to the 1250 parcel. | <b>MND</b>       | 11/30/2009     |
| 2009102100   | Safeway Shopping Center - College and Claremont Avenues File No. ER09-0006<br>Oakland, City of<br>Oakland--Alameda<br>The project would involve demolition of the existing 25,000-square-foot store, parking lot and service station and construction of a two-story, approximately 64,860-square-foot building that would contain a 50,400-square-foot Safeway supermarket, about 11, 500 square feet of ground-floor retail spaces (for  | <b>NOP</b>       | 11/29/2009     |

|  | approximately eight retail shops), and a partially below-grade parking garage with about 173 parking spaces.  |                  |                |
| 2009101106   | Zone Change of Planned Developments PD 16-165, PD 17-153, PD 19-163 and Development Code Amendment (09ZC01) and (09DCA01)<br>Chino Hills, City of<br>Chino Hills--San Bernardino<br>The proposed project will change the zoning designation of the properties within Planned Development PD 13-165, PD 17-153 and PD 19-163 to Agriculture-Ranch (R-A), Rural Residential (R-R) and R-A zones, respectively. Additionally, an ~6.3 acre parcel within PD 13-165 will be development plan; therefore, the development standards proposed within these documents are now void. PD 17-153 does not provide development standards to guide the development of the site. Changing the zoning designation of these properties will provide conformity between the City's General Plan Land Use Element and the City's Zoning Map and will provide standards for the future development of these sites. This project does not propose any physical development of these sites and will result in the intensification of any future development or use beyond the uses and intensities designated in the City's General Plan. | <b>Neg</b>       | 11/30/2009     |
| 2009101107   | Tentative Parcel Map No. 18516 - Woodview Plaza<br>Chino Hills, City of<br>Chino Hills--San Bernardino<br>The Project is a tentative parcel map to subdivide the existing Woodview Plaza shopping center into 6 parcels with no new construction proposed. Each parcel will contain one of 6 existing buildings at Woodview Plaza. The proposed parcels will range in size from 20,344 sf to 124,030 sf.  | <b>Neg</b>       | 11/30/2009     |
| 2009101109   | 2009 Amendment to the Barstow Redevelopment Plans for Project Area No. 1 and Project Area No. 2<br>Barstow, City of<br>Barstow--San Bernardino<br>The proposed project is an amendment to the Barstow Redevelopment Agency's existing Redevelopment Plans for project Area No. 1, as amended (Amendment Areas No. 1 and 2) and Project Area No. 2, as amended (Amendment Area No. 1). The project is to reinstate the Agency's authority to use the power of eminent domain, if necessary and as a last resort, to acquire non-residential property only within Project Area No. 1, Amendment Area No. 2 (PA 1-2) and Project Area No. 2 (PA 2) and its Amendment Area No. 1 (PA 2-1). The eminent domain powers do not extend to properties that are legally occupied as a residence. Therefore, the amendment only applies to these three areas, PA 1-2, PA 2 and PA 2-1 (Amendment Area), which totals 2,983 acres.  | <b>Neg</b>       | 11/30/2009     |

| 2009109019   | Streambed Alteration Agreement 1600-2009-0209-3/THP #1-08-073 SRC<br>Forestry and Fire Protection, Department of<br>--Santa Cruz<br>The Applicant proposes to replace a rusted culvert, install a large critical dip over an existing culvert, and install an armored critical dip and armor the inlet and outlet of another existing culvert. All project locations are along Class II watercourses that are tributaries to Two Bar Creek, which flows into the San Lorenzo River, then empties into the Pacific Ocean. The California Department of Fish and Game (DFG) is executing a Lake and Streambed Alteration Agreement No. 1600-2009-0209-3 pursuant to Section 1602 of the Fish and Game Code to the project applicant, Eric Bushnell.   | <b>NOD</b>       |                |
| 2009109020   | Streambed Alteration Agreement 1600-2009-0256-3/THP #1-08-091 SCR<br>Forestry and Fire Protection, Department of<br>--Santa Cruz<br>The Applicant proposes to remove a rusted culvert and replace it with a rock armored crossing. The project is located along a Class II watercourse that is a tributary to Day Creek, which flows into Boulder Creek, a Class I watercourse. Boulder Creek flows into the San Lorenzo River which empties into the Pacific Ocean. The California Department of Fish and Game (DFG) is executing a Lake and Streambed Alteration Agreement No. 1600-2009-0256-3 pursuant to Section 1602 of the Fish and Game Code to the project applicant, Mildred Holmes.  | <b>NOD</b>       |                |
| 2009108322   | Gilroy Hot Springs Caretaker Trailer/ Modular Home Facilities<br>Parks and Recreation, Department of<br>--Santa Clara<br>Install new utilities at Gilroy Hot Springs located within Henry W. Coe State Park for service to a caretaker trailer or modular home to be placed on existing concrete slab. Work will include installation of new water line, fire hydrant, above-ground 5,000 gallon plastic water storage tank, 6'X6'X10'9" pump control shed with solar panels and electrical conductor, water service including hose bib connection, and new septic system. Area of disturbance for septic tank and entire leach field will not be greater than 3,000 square feet. Trenches for electrical, water, and sewer systems will be approximately 2360' long and 3' to 8' deep. A 10 feet diameter gravel pad with metal edging will be installed for the water tank. The ground will be scraped to remove approximately a foot of top organics and then compacted. | <b>NOE</b>       |                |

| 2009108326   | <p>Copeland Creek Bank Stabilization<br/>Fish &amp; Game #3<br/>--Sonoma</p> <p>The Applicant proposes to stabilize 4,700 square feet of bank along Copeland Creek. The flow line of Copeland creek has meandered towards the southern bank and has eroded into an existing vineyard and is threatening the existing vines. The Applicant proposes to stabilize the bank with rock rip-rap per Cal-Trans standard specification. The rock rip-rap will consist of approximately 350 cubic yards of 1/2-ton classification. The rip-rap will be keyed into a toe trench (3 feet deep) and the existing bank will be sloped back to a 2:1 slope. All riparian trees will remain, and to provide some fish and wildlife habitat the applicant will plant willow springs from local sources amongst the rip-rap and top of bank. The California Department of Fish and Game is executing a Lake and Streambed Alteration Agreement Number 1600-2009-0234-03 pursuant to Section 1602 of the Fish and Game Code.</p> | <b>NOE</b>       |                |

| 2009108328   | <p>Camp Joe Scherman Hazardous Fuels Treatment<br/>Forestry and Fire Protection, Department of<br/>--Riverside</p> <p>This project will consist of the removal of storm damaged oak vegetation and spacing of chamise and ribbonwood brush species within the ownership of the Camp Joe Scherman Girl Scouts Camp. Several large diameter live oaks were toppled under the unusually heavy snow loads experienced in the lower elevation areas of the San Jacinto and Santa Rosa Mountains this past winter. These down and damaged oaks have contributed greatly to fuel loads surrounding this seasonal recreational facility. CAL FIRE inmate crews will limb and buck the downed material in preparation for removal. Understory brush species will also be thinned</p>   | <b>NOE</b>       |                |

|  | to a more natural level and either chipped on site or hauled off to a grinding facility. Any usable bole wood from the oaks will be processed into firewood for the use of the camp. Another function of this project will be to thin hazardous fuels within fifty feet of an access road within the ownership that provides access to water storage facilities for the camp. Work will be accomplished with CAL FIRE inmate crews, as well as county owned equipment including a rubber tracked skidsteer and Hook-Lift trucking system.   |                  |                |
| 2009108329   | Fiddymont Training Burn<br>Forestry and Fire Protection, Department of<br>--Placer<br>The proposed project is located on Placer County property managed as a Material Recycling Facility. The project objective is to provide live fire training for new firefighter recruits from Sierra and Yuba Regional Academies. The focus will be on mobile attack, hose lays, hand line construction and wildland fire safety. A CAL FIRE Registered Professional Forester has consulted with the California Department of Fish and Game, conducted an environmental review and determined the project will not result in significant environmental impacts. A CAL FIRE archaeologist has also completed a site visit and found no elements of concern. | <b>NOE</b>       |                |
