# STATE CLEARINGHOUSE NEWSLETTER

The State Clearinghouse distributes draft environmental documents to state agencies for review and comment, pursuant to the California Environmental Quality Act (CEQA). The State Clearinghouse also acts as the State Single Point of Contact for the review of federal grant applications and federal development projects. This Newsletter summarizes the environmental documents and federal grant applications received by the Clearinghouse during the period **September 1 through 15, 2002.**

## CLEARINGHOUSE CONTACTS

Please contact The State Clearinghouse if you have any questions regarding processing of environmental documents or grant applications. We may be reached at:

Telephone: (916) 445-0613  
Fax: (916) 323-3018  
e-mail: [state.clearinghouse@opr.ca.gov](mailto:state.clearinghouse@opr.ca.gov)  
website: [www.opr.ca.gov/clearinghouse.html#clearinghouse](http://www.opr.ca.gov/clearinghouse.html#clearinghouse)

Questions regarding federal grant notices should be directed to Sheila Brown.

Questions regarding processing of environmental documents should be directed to:

Gregoria Garcia (for projects in Northern California)  
Becky Frank (for projects in Southern California)

## CLEARINGHOUSE MAILING ADDRESS

Please do not use our street address (1400 Tenth Street, Room 222) for mailing purposes. The correct mailing address is:

STATE CLEARINGHOUSE  
P.O. BOX 3044  
SACRAMENTO, CA 95812-3044

## INFORMATION AVAILABLE ON-LINE

The 2001 CEQA Guidelines are available from the Resources Agency's website at <http://ceres.ca.gov/ceqa/>.

The State Clearinghouse Handbook, which contains all of our environmental document and grant processing procedures and forms, is available on our website.

Ms. Terry Roberts  
Director, State Clearinghouse  
Office of Governor Gray Davis  
Planning and Research  
1400 Tenth Street  
Sacramento, CA 95814

Dear Ms. Roberts:

The California Department of Transportation (Department) hereby submits this notice for Intergovernmental Review (IGR) process purposes for projects in the 2002 Federal Statewide Transportation Improvement Program (FSTIP). These projects are referenced in the Federal Transportation Programming documents adopted by the Metropolitan Planning Organizations (MPOs) shown on the attached list.

If you have any questions or would like to obtain copies of these documents, please contact Kris Balaji, Chief, Office of Federal Transportation Management Program, at (916) 654-2983.

Sincerely,

**Original Signed By**

JIM NICHOLAS  
Chief  
Division of Transportation Programming

Enclosures

c: Bob Garcia

# CEQA & Planning Case Law

## Summary of Recent CEQA & Planning Case Law

The following are summaries of recent court cases relating to the California Environmental Quality Act and/or land use planning law.

**No Cases have been selected for the period of September 1-15, 2002.**

*Please be advised, the information contained in these summaries does not constitute legal advice, nor should the summaries be relied upon as a matter of law. Refer to the full text of the cases cited for the complete ruling and case facts.*

DATE: AUGUST 12, 2002  
TO: ALL CEQA LEAD AGENCIES  
FROM: TERRY ROBERTS, STATE CLEARINGHOUSE  
RE: CONFIRMATION OF RECEIPT FOR NOTICES OF DETERMINATION

We regret to inform you that the State Clearinghouse will no longer be able to honor requests for written confirmation of the posting of a Notice of Determination (NOD) or Notice of Exemption (NOE) with the Governor's Office of Planning and Research (OPR). In the past, and as a courtesy, we were able to comply with requests for written confirmation. However, due to recent budget cuts and an increasing volume of special requests, we can no longer provide such confirmation, either by mail or by fax.

Sections 15075 and 15094 of the CEQA Guidelines spell out the responsibility of the State Clearinghouse to post NODs. Section 15062 (c) of the Guidelines spells out the responsibility of the SCH to post NOEs. We realize the importance of timely posting because this begins a statute of limitations on court challenges. OPR will continue to post NODs and NOEs in a timely manner and enter the notice information in our online CEQAnet database.

If you fax a NOD or NOE to the State Clearinghouse, please retain the fax confirmation for your records. If you file a NOD or NOE with us in person, please provide a second copy of the document and we will at that time be happy to date stamp and return it to you immediately. If you mail a NOD or NOE to us, you may call the State Clearinghouse at (916) 445-0613 to request verbal confirmation of receipt, or obtain written confirmation of posting by printing a report from the CEQAnet database at [www.ceqanet.ca.gov](http://www.ceqanet.ca.gov).

We apologize for any inconvenience this may cause and will continue to provide the best possible service to the public within our means.

# CEQA Documents

## Key for abbreviations of Document Type:

CON	Early Consultation Notice
EIR	Draft Environmental Impact Report
SIR	Supplemental EIR
SBE	Subsequent EIR
EIS	Draft Environmental Impact Statement
EA	Draft Environmental Assessment
JD	Joint Document (CEQA/NEPA)
FONSI	Finding of No Significant Impact
Neg Dec	Negative Declaration/Mitigated Negative Declaration
NOE	Notice of Exemption
NOD	Notice of Determination
NOP	Notice of Preparation (of an EIR)
Oth	Other type (none of the above)

SCH Number	Title / Lead Agency / City--County / Description	Document Type	Ending Date
<b><u>Documents Received on Tuesday, September 03, 2002</u></b>			
2001072036	Tiburon Glen Residential Development Project Tiburon, City of Tiburon--Marin Request for approval of a Precise Development Plan for the development of eight single-family lots for subsequent custom development with single-family homes; roadway and utility installation.	<b>EIR</b>	10/17/2002
2002051156	Gosford Village (formerly Southwest Retail Center) Bakersfield, City of Bakersfield--Kern Construction and operation of approximately 700,000 square feet of various retail commercial and service uses, anchored by several major "big-box" retail tenants.	<b>EIR</b>	10/17/2002
2002061080	Elementary School #6 Solana Beach Elementary School District Solana Beach--San Diego The project is the site acquisition, construction, and operation of an elementary school on approximately 10 acres of land. The school is planned to serve 550 students and 45 staff at any one time.	<b>EIR</b>	10/17/2002
1998012049	Napa Oaks Napa, City of Napa--NAPA Residential development of 65 new lots on an 80.6-acre hillside site (original project proposed 85 lots).	<b>FYI</b>	
1993081040	East of 101 Area Traffic Impact Fee South San Francisco, City of South San Francisco--San Mateo Amendment to the East of 101 Area Traffic Impact Fee to include two new improvements.	<b>Neg</b>	10/03/2002
2002091001	CUP02-014 Los Angeles County Department of Regional Planning Whittier--Los Angeles The proposed project is a conditional use permit to authorize sale of beer and wine in a 7-11 store and gas station, to be built on a vacant land. The property is a level vacant 29,355 square feet parcel, located in an urban area at the corner of Imperial Highway and Shoemaker Streets. The proposal is to build a 2,940 square feet 7-11 store and a gas station with 3,600 sq.ft. of canopy over 12 fueling positions. Two fuel tanks located on the west of the parcel along Shoemaker Street will serve the 12 fueling positions. A billboard is currently situated on the lot, which will be removed by the owner. The surrounding land uses are mostly composed of single-family residences on the north and northeast within the unincorporated area and commercial uses (one restaurant, several manufacturing and warehousing businesses, and several vacant commercial lots) on the west and south within the City of Santa Fe Springs. An auto repair facility to the east of the project is also located within the unincorporated area. A church bounds the project on the north.	<b>Neg</b>	10/02/2002

## CEQA Daily Log

Documents Received during the Period: 09/01/2002 - 09/15/2002

SCH Number	Title / Lead Agency / City--County / Description	Document Type	Ending Date
<b><u>Documents Received on Tuesday, September 03, 2002</u></b>			
2002091002	Monahan Residence Pacific Grove, City of Pacific Grove--Monterey Proposed excavation in archaeologically sensitive area to accommodate partial basement and garage addition to existing SFD on site in the coastal zone.	<b>Neg</b>	10/02/2002
2002091003	CUP 02-116 North of 31910 Castaic Road between Castaic Road and Old Ridge Road Los Angeles County Department of Regional Planning --Los Angeles The proposed project is a request for a Conditional Use Permit to allow for the construction of a 150 unit senior citizens' affordable housing apartment complex consisting of two three-story residential buildings, six two-story residential buildings, a clubhouse, swimming pool, and 134 parking spaces. Proposed are a total of sixteen one-bedroom units and one-hundred thirty-four two-bedroom units totaling 122,735 square feet of building space. There are two masonry walls proposed: a six-foot wall on the west side of the property, and an eight foot wall on the east side of the property.	<b>Neg</b>	10/02/2002
2002091004	Brea Water Master Plan Update Brea, City of Brea--Orange Update the existing water master plan.	<b>Neg</b>	10/02/2002
2002091005	Residential Development Project of the Former Anacapa Hospital Site Port Hueneme, City of Port Hueneme--Ventura The 5.28-acre project site is currently partially developed as a hospital and medical office building and is known as the former Anacapa Hospital site. The hospital and medical office building occupy 4.31 acres of the overall site area. These facilities are no longer in operation and the structures have been vacated. The existing structures would be demolished as part of the project. The northerly 0.97 acres of the site are vacant and have been held as a possible expansion site for the hospital. The proposed project would involve the construction of 49 dwelling units comprised of 22 small lot single family detached homes and 27 single-family detached homes at an overall density of 9.3 units per acre.	<b>Neg</b>	10/02/2002
2002091006	Kooklam Residence San Diego, City of La Jolla--San Diego Tentative Map/Coastal Development/Site Development Permit La Jolla Shores Permit (TM/CDP/LJS No. 98-0536) and Site Development Permit (PTS No. 3200) for the relocation of a historically designated structure, lot split and construction of two, new, single-family residences (SFR) located at 7447 Hillside Drive. Parcel 1 (7447 Hillside Drive) consists of a new, one-story, 6,115 square-foot residence with basement and at-grade garage; Parcel 2 (7447 1/2 Hillside Drive) consists of a new, one-story, 5,468 square-foot residence with basement and at-grade garage (Portion of Lot B, La Jolla Hills #2, Map 2087). Each new residence would be constructed on a caisson foundation system, and includes stucco walls, wood casement windows, and terra cotta tile roof. The proposed site for the relocation of the historic building is at 6736 Mission Gorge Road, within the RS-1 zone within the Navajo Community Planning Area.	<b>Neg</b>	10/02/2002

<b><u>Documents Received on Tuesday, September 03, 2002</u></b>			
2002031135	Greenwell Acres Housing Project Santa Barbara, City of Santa Barbara--Santa Barbara The proposed project involves the subdivision of the property into a 28-lot subdivision and Planned Residence Development (PRD) consisting of 25 residential lots and 3 common area lots. The proposed PRD would be accessed from a new public street from Modoc Road through the site, terminating in a cul-de-sac. A sidewalk is proposed along the outer perimeter of the roadway, with additional pedestrian connections through the on-site open spaces. Pedestrian access is also proposed from this project to Pine Drive. The proposed units will be a combination of the following four building types.	<b>NOD</b>	
2002041089	Amargosa Creek Improvement Project; Project Number 422 Palmdale, City of Palmdale--Los Angeles The proposed project consists of several components: * Channelize a 1,500 linear foot section of Amargosa Creek immediately downstream of SR-14. * Construct a bypass channel on Amargosa Creek around the western and northern boundaries of the AVCC. * Relocate (to the west) the section of the Amargosa Creek channel from immediately north of AVCC to Avenue O. * Lower the channel elevation in an approximately 1,300 linear foot section of Amargosa Creek north of Avenue O.	<b>NOD</b>	
2002051128	Minor Residential Subdivision, TPM 20506, Log No. 00-14-010 San Diego County Department of Planning and Land Use --San Diego The project proposes a minor subdivision of 2.42 net acres into three parcels ranging in size from 0.62 to 0.90 net acres, with a 0.50 acre minimum lot size for two residential building sites. There is one existing single-family residence on the property, which will remain on Parcel 2. The remaining two lots will be developed with single-family homes and accessed through new driveways. All lots will be on sewer and water services provided by the Otay Municipal Water District. Grading proposed for project implementation will involve approximately 2,500 cubic yards of cut and 600 cubic yards of fill with a maximum cut and fill slope ratio 2:1 and maximum height of 14 feet. Access to the project site is from Hidden Mesa Court via a 40 foot wide private road easement. The project is located at 1430 Hidden Mesa Court in the Valle de Oro Community Planning Area within an unincorporated portion of San Diego County.	<b>NOD</b>	
2002062048	Forestville River Access Project Sonoma County Regional Parks --Sonoma The proposed project generally includes adding 11.62 acres of land to the Regional Parks system developing a 16-space off-street parking area, minor improvements to the existing public trail section, providing suite amenities such as garbage cans, park boundary markers, and signage, and making minor improvements to a section of River Drive in cooperation with the Sonoma County Department of Transportation and Public Works. The purposes of the proposed project are to develop, adopt, and implement a Master Plan for the Forestville River Access, provide off-street river parking, formalize existing use of the project area, and improve disabled access to the riverfront beach. No work will occur within the Russian River.	<b>NOD</b>

<b><u>Documents Received on Tuesday, September 03, 2002</u></b>			
2002071004	Weemes ES Playground Expansion Los Angeles Unified School District Los Angeles, City of--Los Angeles LAUSD is proposing to acquire approximately 0.65 acres of property and demolish four single-family residences in order to accommodate the expansion of the playground area at Weemes Elementary School. The purpose of the proposed playground expansion project is to increase the ratio of available palyground area to students.	<b>NOD</b>	
2002071038	Mission Road/ Via Monserate Improvements San Diego County Department of Public Works Fallbrook--San Diego Minor widening is proposed along the west side of Mission Road to accommodate a left turn pocket at Via Monserate and improve the turn radius at Hellers Bend and Mission Road. In addition, the project proposes to replace existing drainage pipes along Mission Road that are in need of repair or are dysfunctional in order to minimize flooding and improve drainage at Hellers Bend. These improvements include the construction of approximately 1460 feet of reinforced concrete pipe stormdrain along the west side of Mission Road. An outfall structure of approximately 120 square feet, including a headwall and riprap to prevent erosion of the creek bank, will be constructed at the discharge point of the stormdrain.	<b>NOD</b>	
2002099001	Gilman Springs Road Realignment Riverside County Transportation & Land Management Agency --Riverside SAA #6-2002-107 The applicant proposes to widen and realign a 1.4 mile section of Gilman Springs Road and replace and enlarge existing culverts in four washes from 1 mile southeast of Bridge Road to 0.6 miles northwest of State Route 79 in western Riverside County. The project would impact 0.15 acres and temporary impact 0.04 acres of sparsely vegetated streambed.	<b>NOD</b>	
2002099050	Hernandez Reservoir Intake Tower Modification San Benito County Water District --San Benito Raising of the intake tower by approximately 10-feet. The extended tower would be constructed of reinforced concrete.	<b>NOD</b>	
2002098000	The Nature Conservancy Arundo Removal in the Santa Clarita River Fish & Game #5 Santa Paula--Ventura To alter the streambed by removing invasive species (Arundo donax) from the Santa Clara River. Access will be via existing roads and trails. The Arundo will be cut down and treated with herbicide (Rodeo); cut stalks will either be mulched or hauled away and disposed of properly . If there is mulching, the mulch piles will be treated with Rodeo.	<b>NOE</b>	
2002098001	VS#1 and V224 Repair/Replacement Project Fish & Game #5 Santa Clarita--Los Angeles The project proposes to alter the streambed by excavating two areas that occur in intermittent dry wash channels. Areas VS#1 and V224 will require excavation in the dry channels. The excavation project will determine pipewall integrity. If the integrity of the pipewall is such that replacement is necessary, approximately 1,000 feet of the pipeline (V224) will be replaced. A construction right-of-way of 30	<b>NOE</b>

2002092008	Use Permit Application No. 2002-22 - Grover Landscape Service, Inc. Stanislaus County --Stanislaus Request to establish a compost facility to process green waste and other organic materials on 57.7 acres. The applicant received approval in January 1999 for the same business across the street at 3401 Gaffery Road, Vernalis Area.	<b>CON</b>	10/19/2002
2001052081	ER-00-2/Consolidated Forward Landfill San Joaquin County Stockton--San Joaquin A Use Permit application to combine the Forward and Austin Road landfills into a single disposal facility.	<b>EIR</b>	10/18/2002
2002041161	Mount San Antonio College Campus Master Plan Mt. San Antonio Community College Walnut--Los Angeles Mt. San Antonio College includes 821,929 assignable square feet (ASF). (ASF is used by the California Community College Chancellor's Office in their review of campus plans; gross square footage may be 30 percent higher). The proposed Campus Master Plan results in a net increase of 255,468 ASF with 1,076,760 ASF at buildout in 2016 and a projected enrollment of 33,142 FTE in 2016. (The FTE projections are from the Vision 2020 plan). Phases 1-3 propose a net increase of 84,708, 100,962 and 69,798 ASF respectively. Relevant statistics for the project area included in Table 1. Seven of the existing campus buildings proposed for demolition were built as military barracks in 1949-53 and have outdated heating, ventilation and air conditioning systems and operational deficiencies.	<b>EIR</b>	10/18/2002

2002091015	<p>Historic Resources EIR for 2020-2064 Alameda Padre Serra Santa Barbara, City of Santa Barbara--Santa Barbara</p> <p>The proposed project involves the development of a Specific Plan for the Riviera Park Research and Communications Center located at 2020-2064 Alameda Padre Serra. The project site is currently developed with seven buildings totaling 92,292 gross square feet. Many of these buildings have historical significance, as they were built as the State Normal School beginning in 1912. There are approximately 267 parking spaces in separate parking lots throughout the property, which serve the buildings. A large landscaped open space is located at the front of the property, above Alameda Padre Serra. The Specific Plan is intended to establish allowed land uses, development and use standards, historic building designations, and allow specific future development and building upgrades. Also proposed is the demolition of the existing 9,467 square foot Brooks Hall building and construction of a 12,369 square foot replacement building, adding 2,902 square feet. Fourteen new parking spaces located in the central and northern portions of the campus are also proposed.</p>	<b>NOP</b>	10/03/2002
2002091016	<p>New Rancho Santa Fe Elementary School Rancho Santa Fe School District --San Diego</p> <p>Development of the proposed project includes site acquisition, construction and operation of a public school for kindergarten through grade eight students. The school will provide enrollment relief to the existing Rancho Santa Fe school, in the Rancho Santa Fe community. The school project will include a new elementary school and related facilities including athletic fields, hard courts, parking, landscaping, and associated improvements on an approximately 27.5 acres (gross size) of land. The school will be sized to accommodate up to 600 students and would employ approximately 45 teachers, administrators, and other employees.</p>	<b>NOP</b>	10/03/2002
2002082090	<p>Saratoga Fire Station Saratoga Fire Station Saratoga--Santa Clara</p> <p>The project is a continuation of an existing use within the Professional Administrative (P-A) zone. The Saratoga Fire District is requesting a Temporary Use Permit, Set-back Variance, Design Review, Alley Vacation, Conditional Use Permit and a Lot Line Adjustment. The project includes demolition of two existing buildings; the 7,690 square feet existing Fire Station, and the 4,000 s.f. "Contempo" office building south of the Fire Station at 20473 Saratoga-Los Gatos Road, installation of a temporary fire station, and construction of a new Saratoga Fire Department Headquarters Fire Station at 14380 Saratoga Avenue. The total site area of the two lots is 35,484 square feet. The total number of employees is 20; 8 firefighters and 4 administrative staff, and 8 shift-change firefighters. The project will be implemented in three phases.</p>	<b>Neg</b>	10/04/2002
2002091011	<p>Community Road Widening Poway, City of Poway--San Diego</p> <p>The Community Road Widening project proposes a 4,000 linear foot road improvement that the 1,300 linear foot widening of the east side of Community Road from two to four lanes located along a segment between Ketron Avenue and Aubrey Street. The improved roadway width will be increased from an average of 60 feet to 74 feet and will include four 12-foot wide travel lanes, two 5-foot bike lanes, and a 16-foot wide, painted, median within a public right-of-way that varies</p>	<b>Neg</b>	10/03/2002

2002091013	EA DM 2-02(a) PD Plan #37, Map 81; (b) ZV #19, Map 81; Love's County Stores by Porter-Robertson Kern County Planning Department Bakersfield--Kern A precise Development Plan for the development of a travel center, in an M-2 PD (Medium Industrial, Precise Development Combining) District. The facility will be designed to provide services to the traveling public, including the interstate trucking industry. The property is designated Service Industrial by the Metropolitan Bakersfield 2010 Plan and is zoned M-2PD. The facility will provide a truck fueling station, a 6914-sf. building which will contain 4560-sf. travel center and a 2344-sf. fast food restaurant . The travel center will offer a convenience store, shower area, lounge and small Laundromat. A 115-foot-tall pole sign will be located near the southwest corner of the property. Forty-five full-time and part-time employees will work at the site. Four 20, 000-gallon underground fuel tanks will be constructed. Site access will be from one drive way along Seventh Standard Road and two dirveways along Industry Parkway Drive. The propped method of sewage disposal is the North of the River Sanitary District.	<b>Neg</b>	10/03/2002
2002091014	Magnolia Trunk Line Los Angeles, City of Los Angeles, City of--Los Angeles The proposed Magnolia Trunk Line would involve the construction of approximately 14,300 linear feet (about 2.7 miles) of 54-inch diameter water pipeline and appurtenant structures/facilities. A majority of the construction would take place along Magnolia Boulevard from Noble Avenue to Coldwater Canyon Avenue with a regulator station proposed for construction in Willis Avenue south of Magnolia Boulevard.	<b>Neg</b>	10/03/2002

<b><u>Documents Received on Wednesday, September 04, 2002</u></b>			
2002092006	Peyton Slough Remediation Project Regional Water Quality Control Board, Region 2 (San Francisco Bay), Oakland Martinez--Contra Costa The project will consist of two phases: (1) excavating and dredging a new alignment east of the existing Peyton Slough, then rerouting the tidal exchange between the Carquinez Strait and McNabney Marsh via the new alignment, and (2) dewatering, filling, then capping the existing Peyton Slough. A layer of soil will be placed above the cap within which natural habitat will be re-established. A new, full slough re-alignment will begin at a location approximately 200 feet north of the railroad crossing at Waterfront Road and continue to the Strait. The new alignment will run parallel to and to the east of the existing Slough, breaching the levee that separates the northern and southern sections of the Site. The project will consist of the following major activities; site preparation and tide gate installation, removal of certain materials, excavation in the new alignment, transition to new alignment, dewatering excavated materials, and capping the existing Slough.	<b>Neg</b>	10/03/2002

<b><u>Documents Received on Thursday, September 05, 2002</u></b>			
2002092012	Final Design Plan for Pond and Stream Remediation at Arcata Particle Board Plant Fish & Game #1 Arcata--Humboldt The North Fork of Janes Creek will be dredged to remove accumulated sediments for approximately 4,200 feet as required by Stipulated Judgement entered between Owner and State of California. Dredged materials will be exported for off-site disposal. The excavated stream reach will be reshaped and replanted.	<b>Neg</b>	10/04/2002
2002092013	Alameda Improvement Plans' Amendments and Merger Alameda County Alameda--Alameda Amend the APIP and BWIP boundaries to consolidate the entire Catellus East Housing within both the contiguous APIP and BWIP Project Areas. Amend and merge the BWIP and WECIP for the purposes of pooling tax increment revenue between the two Project Areas; and make various technical changes to the APIP, BWIP and WECIP to enable continued and more effective implementation of three improvement Plans.	<b>Neg</b>	10/04/2002
2002092014	General Plan Housing Element Amendment Milpitas, City of Milpitas--Santa Clara The project is the updated Housing Element of the Milpitas General Plan. The new element would replace the 1994 Housing Element, establishing updated policies and programs relating to housing construction, preservation, and affordability. State law requires completion of the update. The components of the Housing Element are a Needs Assessment, an Analysis of Constraints, and Resources and a Housing Plan. The analysis indicates that the City has sufficient land to accommodate its fair share assignment, but must take a number of actions to facilitate construction. The major of the City's Housing sites is located in the Midtown Specific Plan Area. The capacity for over 5,000 new housing units has been identified in the Midtown Specific Plan Environmental Impact Report. The General Plan amendments and Zoning Changes will not be necessary to accommodate the fair share allocation.	<b>Neg</b>	10/04/2002
1998071076	Golden Valley Road Extension and High School Construction Fish & Game #5 Santa Clarita--LOS ANGELES The William S. Hart Union High School District ("District") proposes to undertake the construction and operation of the Golden Valley High School ("Project"). The Project will consist of the construction and operation of a 2,400 student high school on approximately 49.6 acres.	<b>NOD</b>	
2000022042	Congregation Beth El Synagogue and School Berkeley, City of Berkeley--Alameda The Operator proposes to construct a boulder/woody material cascade to eliminate the existing barrier to fish passage, a 5-foot high waterfall from the outfall of the existing Spruce Street culvert outlet to the streambed located on Codornices Creek at 1301 Oxford Street, Berkeley, Alameda County. The proposed 118-foot project reach cascade will be accomplished by constructing a step-pool channel with a mean slope of 7.4 percent. The proposed project also includes a total of 35 on-site parking spaces connected to a one-way internal circulation roadway. As part of the overall development of the site, the exposed portion of Codornices	<b>NOD</b>

<b><u>Documents Received on Friday, September 06, 2002</u></b>			
2001122067	<p>Metcalf Road Property General Plan Amendment and Planned Development Zoning San Jose, City of San Jose--Santa Clara Up to 213 single-family detached residential units on 38.3 gross acres, and preservation of 218 acres as public and private open space. A General Plan Amendment is required to change the San Jose 2020 General Plan Land Use/Transportation Diagram designation from Low Density Residential (8-16) du/ac) on 38.3 gross acres of the 257.2 gross acre site. A Planned Development Rezoning is required from R-1-1 Residence District to A (PD) Planned Development on the entire 257.2 gross acre site.</p>	<b>EIR</b>	10/21/2002
2002072048	<p>Mathematical Sciences Building University of California Davis--Yolo The project would include construction and operation of a four-story, approximately 65,000 gross square foot (37,704 assignable square foot) Mathematical Sciences Building. To accommodate the proposed project, the campus is considering three potential plans for the Hog Barn building (a structure that meets the criteria for listing on the California Register of Historic Places), including: demolition, relocation to a site in the central campus located southwest of the Silo complex, or relocation to a site in the west campus.</p>	<b>EIR</b>	10/21/2002
2001101149	<p>Palo Verde Irrigation District (PVID) Land Management, Crop Rotation and Water Supply Program Palo Verde Irrigation District Blythe--Riverside, Imperial The proposed program would provide the Metropolitan Water District of Southern California with a water supply option of 25,000 acre-feet up to approximately 111,000 acre-feet of Colorado River water per year for 35 years. Under the proposed program, water normally used to irrigate farmland within the Palo Verde Valley portion of PVID would be 'saved' and an equal amount of water would be made available to Metropolitan. The water would be 'saved' through land management and crop rotation measures, which are part of the proposed program.</p>	<b>FIN</b>	
1999052026	<p>American River Watershed Project (Common Features) California Sacramento River East Levee and Natomas Cross Canal Levee Modifications Reclamation Board The U.S. Army Corps of Engineers, The Reclamation Board of the State of California, and the Sacramento Area Flood Control Agency are conducting a study on modifying the levees in the Natomas Basin area, which will be documented in the upcoming Supplemental Environmental Impact Statement and Environmental Impact Report. The study focuses on ways to improve flood protection to portions of the City and County of Sacramento and the portion of Sutter County which lies within the Natomas Basin. The Corps is the federal sponsor, the Board is the nonfederal sponsor, and SAFCA is the local sponsor. The SEIS/EIR will address an array of flood control improvement alternatives. Alternatives analyzed during the investigation will include a combination of one or more flood protection measures. These measures include levee raising, seepage berms, seepage relief wells, and slurry walls. Significant issues to be analyzed in depth in the SEIS/EIR include adverse effects on vegetation and wildlife resources, special-status species, aesthetics, cultural resources, recreation, land use, fisheries, water quality, air quality, noise, transportation and socioeconomics, and cumulative</p>	<b>NOP</b>	10/07/2002

	<p>continues to flow out to the Pacific Ocean. This project would involve the installation of 8-inch polyethylene pipes to a depth of two to four feet within the drainage to divert summer runoff into a nearby sewer line. The diversion structures will be installed on the southwestern side of Coast Highway (except for two of the drainages, which will have diversion structures installed on the northeastern side of Coast highway), such that the water will be diverted from the drainage before it reaches the beach. Once constructed, the diversion structure shall only divert summer runoff from the drainages from April 15-October 15.</p>		
2002098035	<p>Streambed Alteration Agreement to Remove Cattails from the Perimeter of Four Man-Made Ponds for Mosquito Control Purposes Fish &amp; Game #5 --Orange</p> <p>The Operator proposes to alter the streambed to remove cattails from the perimeter of four man-made ponds for mosquito control measures. Pond #1 is located immediately north of South Bend Drive, while Ponds #2, 3-A and 3-B are located immediately south of South Bend Drive, within the community of Coto de Caza, Orange County. The vegetation removal shall consist of removing a four-foot wide swath of cattails from the perimeter of each pond. These swaths shall at minimum include a portion of the bank. In addition, a channel, not to exceed four feet in width, may be cut perpendicular to the bank every ten to fifteen feet. The vegetation removal shall be limited to the above ground portion of the cattails, leaving the below ground portions intact for regrowth purposes. All vegetation removal shall be done by hand methods or by using a hand-operated mower only. To avoid impacts to nesting birds, the Operator shall not remove vegetation or conduct any work from February 15 to September 15.</p>	<b>NOE</b>	
2002098036	<p>Railroad Bridge Maintenance Fish &amp; Game #5 Ventura--Ventura</p> <p>The operator proposes to clear brush, trees, and other vegetation from railroad bridge structures, conduct regular maintenance of track and bridge structures (such as painting), and remove flood debris from bridge structures, as required by the Federal Railroad Administration.</p>	<b>NOE</b>	
2002098037	<p>Los Penasquito Trunk Sewer Emergency Cleaning and Repairs San Diego, City of San Diego--San Diego</p> <p>Emergency cleaning by City forces of a 34-year old sewer line for a distance of approximately 10,963 feet. Large rocks, severe root intrusion, multiple cracks, infiltration, and corrosion have been noted via recent televising of this line. The pipe size varies from 18 to 30 inches in diameter and is made of vitrified clay and PVC. Construction will be needed in this canyon to approximately 38 manholes. Access to additional manholes may be required during emergency cleaning. These construction activities include grading, repair of maintenance access, and installation of water crossings, if needed. Once this is completed, other side canyon areas may need to be accessed and sewer lines cleaned depending upon the results of further inspections. All work will be coordinated with the community and be monitored by a biologist.</p>	<b>NOE</b>

2002098038	Lake Murray Trunk Sewer Emergency Cleanin and Repairs San Diego, City of San Diego--San Diego Emergency cleaning by City forces of a 43-year old sewer line for a distance of approximately 20,430 feet. Severe grease buildup, heavy root infiltration, cracks, sagging pipe sections, and rocks have been noted via recent televising of this line. Sewer overflows have been reported along this line on 2/15/2000, 9/21/2000, 3/5/2001, 5/21/2001, and 8/21/2001. The pipe size varies from 8 to 18 inches in diameter and is made of vitrified clay and PVC. Construction will be needed in this canyon to approximately 104 manholes. Access to additional manholes may be required during emergency cleaning. These construction activities include grading, repair of maintenance access, and installation of water crossings, if needed. Once this is completed, other side canyon areas may need to be accessed and sewer lines cleaned depending upon the results of further inspections. All work will be coordinated with the community and be monitored by a biologist.	<b>NOE</b>	
2002098039	Ray Park Restroom Upgrade Burlingame, City of Burlingame--San Mateo The project consists of the remodeling of and addition to an existing restroom facility located at Ray Park, a neighborhood park located at 1525 Balboa Avenue in Burlingame. The facility will be upgraded to provide improved security and access to meet the Americans with Disabilities Act (ADA) access requirements. A 250 sf addition to the 250 sf building is proposed to provide a storage room.	<b>NOE</b>	
2002098040	Cuernavaca Park Restroom and Playground Upgrade Burlingame, City of Burlingame--San Mateo The project consists of the remodeling of an existing restroom facility located at Cuernavaca Park, a neighborhood park located at 3075 Hunt Drive in Burlingame. The facility will be remodeled to provide improved security and will include the addition of an access ramp to bring the facility into compliance with the ADA access requirements. The project also includes replacing the existing playground equipment and construction fo a new 1000 SF shade structure within the existing playground area. The new shade structure will cover four new picnic tables. New equipment and surfacing will be installed in the playground area to comply with ADA and Consumer Product Safety requirements.	<b>NOE</b>	
2002098041	Twin View N/B Off Ramp Caltrans #2 --Shasta Currently northbound left turning traffic backs up during peak hours. Reight turning vehicles proceed to the stop bar by driving on the right shoulder, thus creating a safety and maintenance problem. Caltrans will construct addition paved ramp width to create a right hand turn lane and shoulder on the northbound Twin View off ramp on I5.	<b>NOE</b>	
2002098042	Virginia Parks Elementary School-Addition of 1 Emergency Portable Classrooms Ceres Unified School District Ceres--Stanislaus The District will be adding one State Emergency Portable Classrooms to house the music program at the school. The direct beneficiaries of the project are the music students, the faculty, and administration.	<b>NOE</b>

	accommodate advances in library information transfer. The renovation would also provide improved spatial configuration and functional adjacencies. The proposed addition, located on the south side of the existing library, is planned as a two-story building connecting into both floors of the existing library, which will include a partial basement for a loading dock and service acces via elevators to upper floors.		
2002092019	Highway 92 Mini-Storage Half Moon Bay, City of --San Mateo  Theproposal is for a mini storage facility. The facility would include three single-story metal buildings with a total area of 19,100 square feet, approximately 12,000 square feet of graveled outside storage space, and new circulation, landscaping and fencing. The storage units would be comprised of 28 units (10' X 25"), 34 units (10" X 15"), and 6 units (30" X 25"). The buildings would range from 13 to 16 feet in height and be of metal construction.	<b>Neg</b>	10/08/2002
2002092020	Grading/Clearing Permit GP 02-06-Natichionne Shasta Lake, City of Shasta Lake--Shasta  The project includes grading and land clearing of an approximatley 75-acre parcel. Clearing will be accomplished with a crawler tractor with a brush rake on slopes less than 30%, with hand clearing only on steeper slopes. Cleared brush will be loaded into a drum grinder with the resulting chipped bursh hauled away via dump trucks. Only minor amounts of actual grading will occur. There are two proposed vehicular entrances that are both off Pine Grove Avenue. Some grading and rocking of these entrances will be required. In addition, some minor amount of grading will be required to allow equipment and dump truck access to the work area. Since equipment will be limited to slopes under 30%, this grading will result in cuts and fills under one foot in depth.	<b>Neg</b>	10/08/2002
2002092021	Grand Archer Winery - PLP01-0095 Sonoma County Permit and Resources Management Department Santa Rosa--Sonoma  Phased used permit for a winery with a maximum annual production capacity of 650,000 cases to include related offices, barrel and casegood storage, and a tasting room (by appointment only) and related marketing events on 15 acres and the adjacent 45 acre parcel will contain realted offices, storage buildings, shop, and the wastewater disposal system serving the winery use.	<b>Neg</b>	10/08/2002
2002092022	I-AM School, Campus Expansion Mount Shasta, City of Mount Shasta--Siskiyou  The I AM School, a private non-profit corporation, is proposing to expans their facilities located at 118 Siskiyou Avenue in the City of Mount Shasta. The School has previousl obtained a CUP for the existing facility, but the immediate project requires a Conditional Use Permit. The new facilities will consists of three new classroom and shop buildings for a total of 9,274 square feer, and two (2) new residential dormitories totaling 10,080 square feet. At full build-out, the new school facilities will serve 75 students in grades Prescholl through 12. The project will include constructing parking facilities, sidewalk, fire access lane, and an addition to the existing campus facility that consists of adding a second story to the north half of the building.	<b>Neg</b>	10/08/2002

<b><u>Documents Received on Monday, September 09, 2002</u></b>			
2002051025	Westar Mixed Use Commercial Complex Lompoc, City of Lompoc--Santa Barbara Amend General Plan Land Use Designation from Business Park with a Park Overlay to Community Facility (9.46 acres), General Industrial (3.08 acres), and General Commercial (4.5 acres); and Amend the General Plan Circulation Map designation for North Twelfth Street and Laurel Avenue. Amend the Zoning Map designation from Business Park to Public Facilities (PF), Commercial Industrial (C-M), and Planned Commercial Development (PCD).	<b>NOD</b>	
2002052098	Sterling Point Estates, Lot 17, Elimination of Wetland and Open Space Easement (EIAQ-3690) Placer County --Placer Modification to the Sterling Pointe Subdivision Map and Conditional Use Permit in order to remove the wetland and open space riparian easement from lot #17.	<b>NOD</b>	
2002061054	Valleydale Park General Improvements Project Los Angeles County Department of Public Works --Los Angeles This project would involve the refurbishment and enhancement of existing facilities at the park, including expansion of the multi-purpose building, construction of a new parking lot, and renovation of the kitchen in the existing multi-purpose building. New park features would also include a picnic shelter, multi-purpose court with lighting (basketball/tennis/volleyball), perimeter exercise bath, relocated horseshoe pit, and security lighting. Completion of the project would require approximately nine months. No major improvements have occurred at this popular local park since the 1950s.	<b>NOD</b>	
2002071030	Pebble Beach Community Services District Facilities Improvements Project Pebble Beach Community Services District --Monterey The proposed project is a combined development permit for expansion and other improvements at the existing PBCSD facility site and a parcel adjacent to the site. The proposed project includes a coastal development permit, a tree removal permit, a lot line adjustment, a variance, and design approval.	<b>NOD</b>	
2002071122	SANCO Recyclable Materials Processing Facility Escondido, City of Escondido--San Diego A Conditional Use Permit for 54,000 +/- S.F. processing facility for presorted commercial, industrial and residential recyclable materials on 2.87 acres in the General Industrial zone (M2). The operation would handle up to 250 tons of material per day, generating approximately 325 Average Daily Trips (ADT). The facility would include a 2,500 S.F. truck maintenance building, a truck scale, truck wash area, fueling station, and recessed loading dock. A railroad spur would be extended into the site from the rail line adjacent to the southwestern property line.	<b>NOD</b>	
2002072076	Redwood Drive Road Repair 02-0207 Fish & Game #3 --Santa Cruz The project includes repair of roadway embankment adjacent to Shingle Creek near Oak Drive in Felton. The work will include installation of a cribwall, culvert, and headwalls. The California Department of Fish and Game is executing a Lake and Streambed Alteration Agreement Number R3-2002-0272 pursuant to Section	<b>NOD</b>

<b><u>Documents Received on Monday, September 09, 2002</u></b>			
2002099013	Orcutt and Acacia Creeks Re-alignment and Stabilization San Luis Obispo, City of San Luis Obispo--San Luis Obispo Orcutt Creek will be realigned over approximately 650 feet to accommodate new athletic fields. The banks of Acacia Creek (900 linear feet) will be stabilized at locations where they are currently vertical. Bank stabilization of both creeks will include elevating the top of the bank to ensure that runoff from the athletic fields does not enter the drainage. The project is located on the west side of Broad Street (Highway 227) at the eastern edge of the City of San Luis Obispo. The California Department of Fish and Game is executing a Lake and Streambed Alteration Agreement Number R3-2001-1066 pursuant to Section 1601 of the Fish and Game Code to the project operator, Paul LeSage, Director, Parks and Recreation Department.	<b>NOD</b>	
2002099014	Mumford Dam Fish Passage and Riparian Restoration Project Sonoma County Water Agency --Sonoma The objective of the Mumford Dam Fish Passage and Riparian Restoration Project is to restore anadromous fish passage, restore riparian habitat, and stabilize eroding stream banks. Restoration will occur through 3 phases: bio-technical channel adjustments, bank re-contouring, and re-vegetation. The project area is located on the West Fork of the Russian River 1 mile upstream of the town of Redwood Valley.	<b>NOD</b>	
2002099015	Lake Nacimiento Tributaries Culvert Installations San Luis Obispo County --San Luis Obispo The proposed project will install thirteen culverts in ephemeral drainages adjacent to the northwest arm of Nacimiento Lake to create an access and fire road for a large housing development. All culverts will be constructed of 18- to 24-inch diameter high density polyethylene (HDPE) pipe. The culverts will be placed on gravel beds, and will range in length from 50 linear feet (Culverts 11 and 12) to 500 linear feet (Culvert 10). Nacimiento Lake is located in the rugged, coastal Santa Lucia Mountains in northern San Lucia Mountains in northern San Luis Obispo County. The California Department of Fish and Game (DFG) is executing a Lake and Streambed Alteration Agreement Number R3-2002-0308 pursuant to Section 1603 of the Fish and Game Code to the project operator, Ms. Natalie Wurth, Newport Equity, Inc.	<b>NOD</b>	
2002099016	Acquisition & Improvements of the Bidwell Water Company by the Indian Valley Community Services District Plumas County --Plumas The Indian Valley Community Services District is in the process of acquiring the privately owned Bidwell Water Company which distributes water to the Community of Geenville. After the purchase some deteriorated and undersized lines will be replaced.	<b>NOD</b>	
2002098060	Access Across Conservancy Land for a Triathlon Event Tahoe Conservancy --Placer Execution of a license agreement to provide access for a triathlon event on Conservancy property. An inspection will be conducted prior to and after the event to monitor these temporary activities.	<b>NOE</b>

2002092027	Gardella Use Permit 02CUP-13 Tuolumne County Community Development Dept. --Tuolumne Use Permit 02CUP-13 to allow the expansion of an existing recycled water storage pond from a capacity of 8.5 acre feet to 40 acre feet. The resulting pond will be approximately 1,200 feet in length, 250 feet in width, and 15 feet deep. The dam will be up to 24 feet in height. Excavation of the pond will generate 48,283+ cubic yards of material. Construction of the dam will require 32,825+ cubic yards of material. The remaining 15,458+ cubic yards of material will be disposed of in a fill area approximately 1.2 acres in area located approximately 150 feet southeast of the pond. All proposed improvements will be constructed on property zoned AE-37 (Exclusive Agricultural, thirty-seven acre minimum) under Title 17 of the Tuolumne County Ordinance Code and under a Williamson Act land conservation contract pursuant to Tuolumne County Resolution 122-70.	<b>Neg</b>	10/09/2002
1987092304	Oak Canyon Community Park Rancho Simi Recreation and Park District The applicant proposes to remove a small water diversion structure within Medea Creek. The project is located in the City of Thousand Oaks in Ventura County.	<b>NOD</b>	
2002034003	Picayune Rancheria Fee-To-Trust U.S. Department of the Interior --Madera The project consists of general plan amendment from RR (Rural Residential) to CC (Community Commercial) and a rezoning from RRS 2 1/2 (Residential, Rural, Single-Family - 2 1/2 Acre) and ARF (Agricultural, Rural, Foothill) to PCD (Planned Commercial Development) to allow the development of a parking lot and related amenities for a planned hotel and casino located on the adjacent property. A zoning permit was also approved to allow an off premise sign for the planned casino.	<b>NOD</b>	
2002061029	San Bernardino Regional Emergency Training Center Project San Bernardino County San Bernardino--San Bernardino The proposed project is an Aircraft Rescue and Firefighting (ARFF) training center, hereafter called the San Bernardino Regional Emergency Training Center (SBRETC) at the San Bernardino International Airport (SBIA) in San Bernardino, California. The SBRETC will provide aircraft rescue and firefighting training in a safe, realistic and environmentally acceptable facility to firefighters in the Southern California and Southern Nevada region.	<b>NOD</b>	
2002062068	Proposed Richfield Elementary School Site, Additional Classrooms Project Richfield Elementary School District Corning--Tehama The Richfield Elementary School District proposes to construct two to four classrooms for approximately 200 students on approximately three acres of a 10-acre parcel located directly east of Olive Road, across from the current Richfield School. These new classrooms will be used in addition to the existing Richfield School facilities west of Olive Road. The School District has been denied approval to construct the necessary additional classrooms on the current school site due to an underground natural gas pipeline on the western boundary of the current school site.	<b>NOD</b>

2002091044	<p>Pinecrest Production Well Project Crestline Village Water District --San Bernardino</p> <p>The proposed project consists of development and production of a vertical well using the existing well casing. A submersible pump with a 10 (+/-) horsepower submersible electric motor, power cable, and discharge piping will be installed within the well casing. A small segment (approximately 100 feet to 250 feet) of pipe is needed to connect the well to the existing water main and a small protective structure will be built on top of the reinforced concrete slab surrounding the well casing in the center of the graded well pad.</p>	<b>Neg</b>	10/10/2002
2002091046	<p>Chamois Production Well Project Crestline Village Water District --San Bernardino</p> <p>The proposed project consists of development and production of a vertical well using the existing well casing within the community of Crestline. a submersible pump with a 10 (+/-) horsepower submersible electric motor, power cable, and discharge piping will be installed within the well casing. A small segment (approximately 50 linear feet) of pipe is needed to connect the well to the existing water main and a small protective structure will be built on top of the reinforced concrete slab surrounding the well casing in the center of the graded well pad. The new facilities will augment water supply for existing and future development consistent with the CVWD's Urban Water Management Plan and the San Bernardino County General Plan.</p>	<b>Neg</b>	10/10/2002
2002091047	<p>Agnes Elementary School Expansion Lynwood Unified School District Lynwood--Los Angeles</p> <p>The Lynwood Unified School District proposes to expand Agnes Elementary School by 2.17 acres while decreasing its enrollment from 766 to 720 students. No overall increase in District enrollment is projected as a result of the proposed project. To provide a site of sufficient size to accommodate school expansion, the District proposes to acquire 35 residential dwelling units that are located immediately north and west of the existing school site. The proposed project includes site expansion that would replace the 35 existing residential dwelling units with new classroom buildings, landscaped open space areas, a playing field, a kindergarten play yard, and hard court area. These new structures would be constructed along the eastern edge of the proposed project site, and would include a 2-story building with 16 classrooms, a kindergarten building, and a hard court. In addition to the proposed off-site improvements described above, the District also proposes on-site improvements to the Agnes Elementary School, including the replacement of existing temporary classrooms with a permanent classroom building and hard court play areas.</p>	<b>Neg</b>	10/10/2002

2002091049	Calavera Creek Improvement Project Oceanside, City of Oceanside--San Diego The proposed project consists of removing sediment from Calavera Creek, fixing a drop structure, and removing a drop structure further downstream and constructing a pedestrian bridge across the creek.	<b>Neg</b>	10/10/2002
2002091050	Capehart Open Space Dog Park San Diego, City of San Diego--San Diego Site development permit No. 4786 to allow the development of 1.14 acres for two fenced, off-leash dog areas and park amenities on a designated 4.5 acre open space parcel.	<b>Neg</b>	10/10/2002
2002091090	Renovation of the Olivas Park and Buenaventura Golf Course Renovations San Buenaventura, City of Ventura--Ventura As proposed, the project involves the renovation of the City of Ventura's two municipal golf courses, Olivas Park and Buenaventura. The proposed project supports the City's plan to address structural, infrastructure, and safety issues at both facilities. The deficiencies at both courses are due to two basic causes: non-systematic design modifications, a significant portion of which resulted from damaging floods; and deterioration largely due to aging. The project will result in improvements in the following areas: treatment of on site irrigation and stormwater runoff, golf course drainage, the use of effluent water in irrigation applications, traffic safety, hazards from errant golf shots, disabled access to the facilities, structures within the flood plain and overall service to the public. A key design objective for both golf courses is to incorporate the American Disabilities Act (ADA) guidelines.	<b>Neg</b>	10/10/2002
2002092028	Glass Beach Site Remediation Fort Bragg, City of Fort Bragg--Mendocino Coastal Development Permit for implementation of a Remedial Action Plan (RAP) for the approximately 38-acre Glass Beach property. The RAP presents guidelines for remediation of the site through excavation of approximately 2,000 cubic yards of buried refuse and soils from several locations near the westerly terminus of site access roads which extend west from Elm Street. The project also includes the removal of two concrete retaining walls/abutments from the coastal bluff.	<b>Neg</b>	10/10/2002

	roadbed from Simpson Road (a private road) to the site, a distance of approximately 1.4 miles. The existing access road contains a stream-crossing. No microwave antennas would be installed at the site and no propane tanks or diesel-powered generators are proposed. Only one low-wattage, manually controlled light would be allowed on each equipment shelter. The facility would not be continuously lighted.		
2002092031	Mills Ranch (Singular Wireless) Use Permit (UP-01-21) (Freeway Lake Site) Siskiyou County --Siskiyou The applicants request approval to modify an existing, approved Use Permit (UP-00-32) to remove the existing 35-foot wood monopole and replace it with a 55-foot steel monopole painted a non-reflective dark brown. The project also includes two panel antennas in addition to the relocation of the panel antennas on the existing monopole, an additional flat-panel microwave dish and the construction of an additional equipment shelter to house electronic equipment. All these facilities would be within the existing 0.06-acre, or 50-foot x 50-foot (2,500 square foot) fenced area within a 143-acre parcel.	<b>Neg</b>	10/10/2002
2002092032	Highland Springs Caltrans #3 Lakeport--Lake Caltrans proposes to improve a section of State Route 29, approximately 3.2 (2.0 mi) south of the town of Lakeport in Lake County, CA. This section of SR 29 will be widened to four lanes from PM 38.3/38.9, with traffic signals and left turn lane pockets also installed. The box culverts for Thompson Creek (and its overflow) and two additional culverts will also be widened.	<b>Neg</b>	10/10/2002
2000041146	Lewis Road (portion of SR 34) Widening from Ventura Boulevard to Hueneme Road Bridge Ventura County Camarillo--Ventura Widen Lewis Road between Ventura Boulevard and the Hueneme Road.	<b>NOD</b>	
2001101064	El Paso Global Networks California Telecommunication System Project Public Utilities Commission --San Bernardino, Riverside, Los Angeles The project involves the construction and operation of an underground fiber optic telecommunication system between the California/Arizona border and Blythe and Los Angeles, California. The proposed project would involve the placement of fiber optic conduit and cable within previously disturbed areas within existing rights-of-way, and construction of six OP-AMP stations. The route is approximately 337 miles in length. The fiber optic facilities will be installed at an average depth of 42 inches primarily by trenching within paved road rights-of-way, plowing in road shoulders and directional boring where required.	<b>NOD</b>	
2002022074	Cameron Park Self-Storage -S01-18 and PD01-10 El Dorado County Planning Department --El Dorado Construction and operation of a self-storage facility. The project is proposed in two phases and includes on-site managers's quarters/office, climate controlled self-storage units, and indoor/outdoor recreational vehicle storage.	<b>NOD</b>	

## CEQA Daily Log

Documents Received during the Period: 09/01/2002 - 09/15/2002

SCH Number	Title / Lead Agency / City--County / Description	Document Type	Ending Date
<b><u>Documents Received on Wednesday, September 11, 2002</u></b>			
2002032025	S01-34/Toogood Estate Winery El Dorado County Planning Department --El Dorado Rezone from Residential Agricultural Forty-acre (RA-40) to Planned Agricultural Forty-acre (PA-40) and special use permit to allow a 1,200 square foot retail shop, art gallery, and food preparation facility within manmade caves on site, and six on-site signs.	<b>NOD</b>	
2002032052	State Route 29 and Coyote Creek Bridge Widening Caltrans #3 --Lake SAA R3-2002-0642 The project consists of the widening of the Coyote Creek Bridge 0.8 meters and the roadway shoulders 1.2 meters on each side of the highway between PM 11.7 and PM 12.1. Coyote Creek flows intermittently with small pools during the summer months and the area under the bridge should be dry during the construction period. However, if flow is present during construction a temporary coffer dam above and below the bridge will be constructed and flows diverted around the work area via a culvert of flexible pipe. The majority of the widening work on the bridge will be done from the existing bridge structure. To prepare for widening the bridge falsework will be erected beneath the bridge. This falsework will prevent construction materials and debris from falling into the creek and will provide access for the widening work. To erect the falsework temporary footings will be placed in the streambed immediately below the bridge. To place the footings, a small piece of equipment such as a bobcat will need to access the stream. All stream access will be from the northeast side. Upon completion of the work the falsework and footings will be removed and the streambed restored to pre-project conditions. A number of riparian plant species will be restored to better than pre-construction conditions by revegetating both banks approximately 50 feet upstream and downstream of the bridge. Construction will comply with Caltrans' Storm Water Management Plan and Best Management Practices to prevent sediment and spills from entering the streambed and water supply.	<b>NOD</b>	
2002042072	06-TUL 245 KP 25.7-26.9 (PM 16.0-16.7) Cottonwood Creek Bridge Replacement Caltrans #6 Woodlake--Tulare The project will replace Cottonwood Creek Bridge and realign the bridge approaches.	<b>NOD</b>

<b><u>Documents Received on Wednesday, September 11, 2002</u></b>			
2002098155	<p>Streambed Alteration Agreement to Perform Geotechnical Investigations within Arroyo Trabuco Creek Santa Margarita Water District Mission Viejo--Orange</p> <p>The operator proposes to alter the streambed to perform geotechnical investigations within Arroyo Trabuco Creek for future water transmission mains. All work will take place south of the Oso Parkway Bridge within the County of Orange's O'Neill Park. To perform the needed survey activity, four or five soil test pits or vertical drill holes will be made directly along the proposed 450-foot long tunnel alignment. Vertical boring holes will temporarily impact approximately 40 square feet each. If required, one or two test pits may be excavated instead of borings and shall be performed within a maximum 40-foot diameter work area each. Access to the site will be from an existing dirt road crossing the streambed. All impacts will be temporary, and all disturbed areas will be returned to pre-existing conditions.</p>	<b>NOE</b>	
2002098156	<p>Seismic Retrofit of N Building at Patton State Hospital Mental Health, Department of San Bernardino--San Bernardino</p> <p>The proposed project consists of a seismic retrofit of the N Building at Patton State Hospital. The N Building is categorized as a Risk Level VI on an I to VII scale, with VII being the highest risk level in the scale. This means that in a maximum credible earthquake, there would be extensive structural and non-structural damage, with collapse of some of the building components likely to occur. The seismic retrofit is necessary for the life and safety and security of the building occupants. The proposed seismic retrofit project would bring this building to Risk Level III. The proposed project includes construction of exterior concrete buttresses, strengthening end walls by eight-inch thick shotcrete at each wing, and installation of carbon fiber reinforced jackets for columns. The buttresses would be 15-inch thick reinforced concrete walls supported by three-foot thick reinforced concrete slab/pile cap with twelve 18-inch diameter drilled and cast-in-place piles. The buttresses would be located on the exterior of both stories in four locations on each of the radiating wings of the N building.</p>	<b>NOE</b>	
2002098157	<p>Emergency Tilted Concrete Slabs Repair - Bourn Clubhouse Parks and Recreation, Department of --Nevada</p> <p>Repair approximately four tilted concrete slabs located south of Bourn Clubhouse at Empire Mine State Historic Park, which present a tripping hazard to general public. Drill a small diameter holes into corners of tilted slabs, then pressure-pump grout into holes to raise slabs level with adjacent walkway. Project protected public health and safety.</p>	<b>NOE</b>

	correct cross section and profile.		
1994081075	Westpoint Homes 250 Unit Residential Project in Walnut Canyon, City of Moorpark Moorpark, City of Moorpark--Ventura California epartment of Fish and Game is executing a Lake and Streambed Alteration Agreement pursuant to Section 1603 (SAA #5-2002-0139) o th Fish and Game Code to the project applicant, James Rasmussen of West Point Homes. The applicant proposes to construct two basins and fill 400 feet of Walnut canyon Creek and tributaries. The project is located in Moorpark in Ventura County.	<b>NOD</b>	
1996101050	Orchard Run Specific Plan San Diego County --San Diego The proposal is for a Major Use Permit to allow the construction and operation of a wastewater treatment facility to serve the proposed and adjacent Orchard Run Subdivision. The Orchard Run Specific Plan (SP-95-004) and Tentative Map (TM 5087) were approved by the Board of Supervisors on June 17, 1998. The proposed WTP will be located on a previously designated 5.8 acre site in the northern portion of the Specific Plan, immediately north of Moosa Creek. The pant will receive water service from the Valley Center Municipal Water District. Access to the project site will be off a private road through the proposed Orchard Run subdivision. The WTP will provide water treatment and storage of treated wastewater for the Orchard Run Residential Subdivision and will be operated by the Valley Center Municipal Water District. The plant will be designed with an average tertiary treatment capacity of 77,000 gallons per day and a peak treatment capacity of 300,000 gallons per day.	<b>NOD</b>	
2001051113	La Canada Flintridge Sewer Collection System - Area 2 La Canada Flintridge, City of La Canada-Flintridge--Los Angeles The purpose of the proposed project is to construct approximately 86,500 linear feet of 8 inch and 10 inch clay pipe amd 31,600 linear feet of 6 inch lateral lines to collect wastewater from single family homes, school, a service station, commercial properties, and a public library.	<b>NOD</b>	
2001101074	Francis Parker Lower School Phase 2 San Diego, City of San Diego--San Diego City Council approval (Process 5) of a Conditional Use Permit (CUP), Street Vacation (SV), Planned Development Permit (PDP), Parcel Map (PM), and Site Development Permit (SDP) No. 40-1050. The Francis Parker project proposes to vacate a portion of Plumosa Way and three sewer easements on a Parcel Map, and expand and remodel the existing 36,172 square foot elementary school on an existing 4.86-acre site. The project would require the demolition of the existing north wing of the school, one- and two-story classrooms, and an existing one-story residence. Proposed construction activities would consist of 22,910 square feet of new building space, 10,908 square feet of interior tenant improvements, and a new 33 space parking lot. Overall, the expansion and remodeling would provide for a library, a science and technology building, a cafeteria and classrooms. There would be no increase in enrollment as a result of this project.	<b>NOD</b>

	rezoning has been made in conjunction with development proposed at 300 Spear Street on Assessor's Block 3745, Lot 1, that would be a part of the rezoned area.		
2001091083	AT&T Fiber Optic Cable Project-San Luis Obispo to Los Angeles San Luis Obispo County --San Luis Obispo, Los Angeles The applicant is proposing to construct a fiber optic cable project to install buried fiber optic cable from the City of San Luis Obispo to the City of Los Angeles. The project length is 246.2 miles. Construction will be largely located within UPRR right-of-way, with portions within city, county, and state rights-of-way. A majority of the cable will be installed in existing buried conduits with the remainder requiring construction and installation of new conduits and cable.	<b>FIN</b>	
2002012065	I-580/Greenville Road Interchange Program EIR Livermore, City of Livermore--Alameda Acquisition of properties needed for eventual construction of interchange improvements. Property acquisition is needed now for protection of right-of-way. Actual interchange improvements would include new on-and off-ramps connecting to I-580, but final design and construction of these improvements is not anticipated for 5 to 7 years.	<b>FIN</b>	
2002092044	Napa County Juvenile Justice Center Replacement Project Napa County Napa--Napa Napa County proposes demolition of a 47-year old, 34-bed linear juvenile hall and construction of a 60 bed, podular, new-generation design facility. The existing juvenile hall is "grand fathered" at every Board of Corrections inspection due to its age and inability to meet the current regulations. A new facility will improve programming options, allow for the classification and appropriate housing of minors, and will eliminate facility issues such as inadequate capacity, design flaws, structural integrity, safety and security vulnerabilities, and physical deterioration.	<b>JD</b>	10/15/2002
2002091061	Southeast Urban Center Specific Plan Clovis, City of Clovis--Fresno The proposed project is a specific plan for the Southeast Urban Center area of the City of Clovis. The project area is approximately 3,307 acres. The concept for the development a high-quality residential community focused around two mixed-use community centers, a business campus, and the Reagan Educational Center.	<b>NOP</b>	10/15/2002
2002092039	Morgan Hill Courthouse Project Santa Clara County Morgan Hill--Santa Clara The proposed project site consists of approximately 8 acres. The proposed project includes the development of two parallel buildings, totaling up to 79,000 square feet, and would include courtrooms, jury deliberation and assembly space, a Court Clerk's office and court day-holding facilities. In addition, office space would be provided for the District Attorney, Public Defender and Probation Department.	<b>NOP</b>	10/15/2002

	program of groundwater level and quality monitoring. The project site is a undeveloped parcel located at the intersection of La Crescenta Avenue and Pickens Canyon Channel in a developed urbanized area within the City of Glendale.		
2002091067	Pay and Display Parking Management Plan Carmel-by-the-Sea, City of Carmel--Monterey Adoption of metered parking and establishment of parking zones.	<b>Neg</b>	10/15/2002
2002091068	Pacific Comtech Park General Plan Amendment Merced County Atwater--Merced The project would include: To expand the Castle Specific Urban Development Plan boundary to include a 376 acre site, to redesignate the property from Agricultural to industrial, to rezone the property from A-1 (General Agricultural) to Industrial Planned Development (PD-1) and adopt related code text.	<b>Neg</b>	10/15/2002
2002092035	DY Ranch General Partnership Use Permit and Reclamation Plan (UP-01-59/RP-01-04) Siskiyou County Montague--Siskiyou The applicants propose a Use Permit and Reclamation Plan to establish and operate a rock quarry. The quarry is planned to occupy a total of 8.0 acres with quarrying operations dedicated to two phased quarry areas. Each area is planned to be phased in succession, with a 3 to 10 year life. The quarry areas would be reclaimed as operations relocate to the ensuing area. The rock quarry would be operated on a seasonal and intermittent basis for 20 years. 350,000 cubic yards of material are planned for harvest with annual production estimated at 5,000 to 100,000 cubic yards. Material excavation, screening, and crushing are all planned. Some blasting of material may be necessary as operations necessitate and minor quantities of water would be used for washing of screens, dust control and for per-wetting material prior to transport. Available water sources on the trench will be used and water is proposed to be delivered via truck to the site. No washing of material or material batching is proposed.	<b>Neg</b>	10/15/2002
2002092036	Zone Change for Scott Waite/Louie Sbarbaro/Cammie Cayce (Z-02-07) Siskiyou County Mount Shasta--Siskiyou The applicants propose a zone change intended to remedy multiple zoning designations on the subject parcels. The zoning for each parcel would be modified to contain a single zoning district (currently both contain Rural Residential and also Commercial zoning districts). The zone change is proposed to convert all of Parcel A (0.94 acres) consisting of 0.81 acres of PD-CU (Planned Development with Neighborhood Commercial Uses) and 0.13 acres of R-R-B-5 (Rural Residential Agricultural, with 5 acre minimum parcel size) to 0.94 acres of C-U(Neighborhood Commercial and to convert all of Parcel B (3.1 acres) consisting of 2.97 acres of R-R-B-5 and 0.13 acres of PD-CU to 3.1 acres of R-R-B-5.	<b>Neg</b>	10/15/2002
