# STATE CLEARINGHOUSE NEWSLETTER

The State Clearinghouse distributes draft environmental documents to state agencies for review and comment, pursuant to the California Environmental Quality Act (CEQA). The State Clearinghouse also acts as the State Single Point of Contact for the review of federal grant applications and federal development projects. This Newsletter summarizes the environmental documents and federal grant applications received by the Clearinghouse during the period **September 1-15, 2006.**

## CLEARINGHOUSE CONTACTS

Please contact The State Clearinghouse if you have any questions regarding processing of environmental documents or grant applications. We may be reached at:

Telephone: (916) 445-0613  
Fax: (916) 323-3018  
e-mail: [state.clearinghouse@opr.ca.gov](mailto:state.clearinghouse@opr.ca.gov)  
website: [www.opr.ca.gov/clearinghouse/clearinghouse.shtml](http://www.opr.ca.gov/clearinghouse/clearinghouse.shtml)

Questions regarding federal grant notices should be directed to **Sheila Brown.**

Questions regarding processing of environmental documents should be directed to:

**Scott Morgan**  
Senior Planner

## CLEARINGHOUSE MAILING ADDRESS

Please do not use our street address (1400 Tenth Street, Room 212) for mailing purposes. The correct mailing address is:

STATE CLEARINGHOUSE  
P.O. BOX 3044  
SACRAMENTO, CA 95812-3044

## INFORMATION AVAILABLE ON-LINE

The 2001 CEQA Guidelines are available from the Resources Agency's website at <http://ceres.ca.gov/ceqa/>.

The State Clearinghouse Handbook, which contains all of our environmental document and grant processing procedures and forms, is available on our website.

## MEMORANDUM

### Governor's Office of Planning and Research State Clearinghouse

**Date:** December 5, 2003  
**To:** All CEQA Lead Agencies  
**From:** Terry Roberts, Director, State Clearinghouse  
**Re:** Submission of Electronic CEQA Documents to State Clearinghouse

In order to take advantage of the cost and time savings associated with electronic documents, the State Clearinghouse will accept electronic documents under the following conditions:

1. Electronic documents shall be on CD, and the file format shall be either Adobe PDF or Microsoft Word.
2. For EIRs, each CD must be accompanied by a printed copy of the Executive Summary. This allows the State Clearinghouse and the reviewing agencies to efficiently route the document to the proper persons.
3. Negative Declarations and Mitigated Negative Declarations will not be accepted on CD. However, any separately bound technical appendices to the document may be submitted on CD.
4. For certain projects, particularly large infrastructure projects such as airport expansions, the State Clearinghouse may request a certain number of hard copies. In addition, the lead agency shall honor a special request from a responsible or trustee agency which requires a hardcopy for purposes of review and comment.
5. This policy does not invalidate CEQA Guideline §15205, which requires a public agency submitting printed documents to the State Clearinghouse to send, in addition, an electronic copy of the document, *if available*.

If you have any questions regarding the submission and circulation of environmental documents, please contact the State Clearinghouse at (916) 445-0613 or [state.clearinghouse@opr.ca.gov](mailto:state.clearinghouse@opr.ca.gov).

**ENVIRONMENTAL DOCUMENT FILINGS WITH THE STATE CLEARINGHOUSE  
1999 through 2005**

All CEQA documents filed with the State Clearinghouse are available for viewing on the Internet at <http://www.ceqanet.ca.gov/>

<b><u>Documents Received on Friday, September 01, 2006</u></b>			
2006091008	<p>City of Fresno E.A. No. R-05-104 / T-5633 for "Los Olivos II" Fresno, City of Fresno--Fresno</p> <p>1) Rezone 98.8 acres from Rural Residential (RR) to R-1/UGM, Single Family Residential and 7.5 acres from R-R to O/UGM, Open Space. 2) Subdivide 106.3 acre property into 461 residential lots and 7 outlots for Open Space, including a 7.5-acre park. 3) Cancel Fresno County Agricultural Land Conservation Contracts Nos. 1298 and 2956 and partially cancel ALCC No. 845 (action by Fresno County). 4) Annex property to City of Fresno and detach from County Service Districts.</p>	EA	10/02/2006
2005051055	<p>West Ming Specific Plan Bakersfield, City of Bakersfield--Kern</p> <p>The proposed project includes the development of a new community with residential, commercial, recreational, schools, and light industrial uses. The project includes a maximum of 7,450 residential units, 478,880 square feet of commercial (including office, service, and retail), 331,200 square feet of town center commercial and mixed use (including office, service, and retail), 1,135,000 square feet of special uses (light industrial, mineral and petroleum, public facilities, open space, parks, public transportation, office, and other uses permitted by the Specific Plan). The proposed schools will be located within the residential neighborhoods of the project site.</p>	EIR	10/16/2006
2005121180	<p>Mirasera Riverside County Planning Department Palm Desert--Riverside</p> <p>Proposed Specific Plan No. 338 contains 189.8 acres divided into seven Planning Areas containing Community Retail, Office, Business Park/Medical, Mixed-Use, Hotel and a variety of dwelling unit types including apartments, condominiums, town homes and clustered detached single-family homes. The project also integrates numerous ancillary improvements into its overall design including parks, improved open space, flood control facilities, street improvements, transportation facilities, underground utilities, landscaping, signage, recreational facilities, and other amenities.</p>	EIR	10/16/2006
2006042067	<p>275 Tenth Street San Francisco Planning Department San Francisco--San Francisco</p> <p>The project site comprises three contiguous parcels located at 275 Tenth Street, 1350 Folsom Street, and 64-72 Dore Street in San Francisco's South of Market Area. The approximately 20,500-square foot site is located on the southern portion of the block, with frontages on 10th Street to the west, Dore Street to the east, and Folsom Street to the south. The site is occupied by three interconnected one- and two-story buildings that contain a total of 27,690 sf, partially occupied by a garment manufacturing business and warehousing space. No parking is provided on the project site. The proposed project involves the demolition of the existing onsite buildings and the construction of a new five-story, 86,692 gross square foot building containing approximately 63,490 gsf of residential use on floors two through five and 3,460 gsf of accessory office and support space, 1,600 gsf of communal space, and 2,510 gsf of commercial retail space on the ground</p>	EIR	10/13/2006

## CEQA Daily Log

Documents Received during the Period: 09/01/2006 - 09/15/2006

<b><u>Documents Received on Friday, September 01, 2006</u></b>			
	floor fronting Folsom Street. The proposed project would include a total of 135 units: 134 single-room occupancy-type very low-income dwelling units for homeless adults with on-site access to supportive services, and one unit for an onsite resident property manager. The project would include an at-grade parking garage accessible from Dore Street that would contain 11 off-street parking spaces. Open space for residents' use would be provided at the ground floor and within a second floor courtyard. The proposed building would be 50 feet in height.		
2006072020	Fox Property General Plan Amendment San Jose, City of San Jose--Santa Clara The proposal consists of a General Plan Amendment (GP06-04-02) to change the Land Use/Transportation Diagram designation of the San Jose 2020 General Plan from Industrial Park to High Density Residential (25-50 Dwelling Units per Acre) on 21 acres of the project area and Neighborhood/Community Commercial on six acres.	<b>EIR</b>	10/16/2006
2006091005	Dana Point Town Center Plan Dana Point, City of Dana Point--Orange The City of Dana Point proposes to establish a more vibrant, community-oriented Town Center for residents and visitors. The City of Dana Point seeks to create an environment where people can live, work, and recreate all in the same general area. Several conditions limit the Town Center from realizing its full potential. A primary issue for the community in creating the Town Center is the speed of traffic along Pacific Coast Highway and Del Prado, as well as a lack of a strong pedestrian environment, mix of retail uses, housing, and landscape amenities.	<b>MND</b>	10/02/2006
2006092001	Thornton Road Widening Project Stockton, City of Stockton--San Joaquin The City of Stockton Public Works Department proposes to widen Thornton Road to three travel lanes, and class II bicycle lanes, in each direction between Bear Creek and Pershing Avenue with a two-way left-turn lane running the entire length of the proposed widening project. The improvements will include construction of soundwalls, installation of new curb, gutters, and sidewalks, including wheelchair ramps to comply with the ADA standards, streetlights, street trees, and modifications of traffic signals at intersections.	<b>MND</b>	10/02/2006
2006092003	NCVRC Veterans Transitional Facility Eureka, City of Eureka--Humboldt The North Coast Veterans Resource Center (NCVRC), a division of Vietnam Veterans of California, Inc. (VVC) is requesting a conditional use permit to authorize the development of a Veterans Resource Center at 109 & 121 4th Street. The project proposes to demolish and remodel existing structures and utilize the property to house the offices, staff and programs of the NCVRC; the programs include education, training and housing. NCVRC expects to have up to 100 active enrolled participants at any given time that may visit the center for up to an hour on a weekly basis; it is estimated that an average of three participants would visit per hour. In addition, the NCVRC proposes to provide transitional housing for up to 34 veterans; eligible veterans could be housed up to two years as needed. The facility will be operational 24 hours per day, seven days per week with a supervisor on site at all times. There will be up to 12 staff members	<b>MND</b>	10/02/2006

	employed with eight to ten staff members on site during normal business hours.		
2006092006	PacifiCorp Yreka-Weed Transmission Line Upgrade Public Utilities Commission Yreka, Weed--Siskiyou PacifiCorp, in its California Public Utilities Commission (CPUC) application (A.05-12-011) filed on December 13, 2005, seeks a Permit to Construct (PTC) approximately 18.6 miles of 115 kV single-circuit transmission line between the Yreka and Weed Junction Substations pursuant to CPUC General Order (GO) 131-D. Also included in this CEQA review, although not included as part of PacifiCorp's original application, is a planned rebuilding of the Weed Substation and upgrade of approximately 1.5 miles of single-circuit 69 kV transmission line to a double-circuit 115 kV transmission line (collectively called the Weed Segment) which was added to the CEQA review by order of Commissioner Brown in his "Ruling Regarding Piecemealing and Substations," filed June 5, 2006.  The objective of the proposed project is to improve reliability by increasing transmission capacity in the Yreka-Weed area in order to continue safe and reliable electric service to customers in the area, and to meet contractual obligations. The objective of the Weed Segment is to handle increased load and to provide transmission capacity.	<b>MND</b>	10/02/2006
2006092007	Cutino Property - Subdivision 9104 Oakley, City of Oakley--Contra Costa The proposed 4.74-acre project site includes 20 single-family residential lots as an in-fill development surrounded by the residential development on the north, south, and east of the project site. In addition, the project application includes a rezone from Agriculture (A-2) to Planned Unit District (P-1).	<b>MND</b>	10/02/2006
2006092009	Tri-C Tire Recycling Woodland, City of Woodland--Yolo The applicant proposes to locate a major tire recycling facility at 1500 E. Kentucky Avenue in the City of Woodland, CA. The proposed tire recycling facility would be located on two adjacent parcels located in an industrial zoned area of the City. The proposed site is comprised of approximately 6.5 acres of land with approximately 58,900 square feet of existing building space (split out between two buildings). The two existing buildings located on the site are constructed mainly of steel, with steel siding and in some areas a combination of concrete and steel. No exterior alterations to the existing buildings are planned as part of this proposed new facility. Currently, there are a total of 38 existing designated parking spaces with painted white lines on the proposed site. There are 28 spaces located on the far northern side of the property next to the northern building, with an additional 10 spaces located around the main office building.  The proposed facility would collect and process approximately 7,000 waste tires per day. Tires are collected and delivered by three methods: in containers delivered by trucks; by truck routes with pick-up points; and, on a limited basis, from the public. There are three main scrap tire groups that are generated in the State of California: passenger car and light truck; semi-truck; and off-road.	<b>MND</b>	10/02/2006

2006092010	Ishi Conservation Camp - Waterline/Sewerline Replacement Forestry and Fire Protection, Department of --Tehama Install 2.4 miles of waterline and 280 feet of sewerline at Ishi Conservation Camp to replace existing utilities that are failing.	<b>MND</b>	10/02/2006
2006092011	Application to Appropriate Water - Applications 30364 and 30385 State Water Resources Control Board, Division of Water Rights Cloverdale--Sonoma Application 30364 requests the right to divert 23 acre-feet per annum (afa) of water to storage from an unnamed stream tributary to the Russian River in Sonoma County. The water will be stored in an existing five-acre-foot reservoir at the point of diversion (POD) and in an existing off-stream 18-acre-foot reservoir. The season of diversion is December 15 through March 31, and the purpose of use is irrigation. Application 30365 requests the right to divert a total of five afa of water at the rate of three cubic feet per second (cfs) from the POD described above. The season of diversion is March 15 through March 31, and the purpose of use is frost protection. The place of use for both applications is 49 acres of existing vineyard.	<b>MND</b>	10/04/2006
2006092013	Lake Del Valle Spillway Vegetation Removal Project Water Resources, Department of Livermore--Alameda DWR intends to clear the center 1/2 of Arroyo Valle channel (approximately 50 feet of the 100 foot width) of accumulated vegetation for a distance of 500 feet from Lake Del Valle dam spillway pool. DWR will also undertake annual or biannual maintenance of the cleared portion of the channel to remove new vegetation growth in center section of the channel to insure the continued adequacy of flow regimes. No sediment will be removed, and crews will not be working in open water. The work will occur between October 9 and October 31, 2006.	<b>MND</b>	10/04/2006
2006092014	Tract Map 06-1013, Jason & Anna Abel Tehama County Planning Department --Tehama To subdivide an existing 5.5 acre parcel and create 12 parcels ranging from 15,000 sq. ft. to 23,500 sq. ft. in size.	<b>MND</b>	10/04/2006
2006092015	Tract Map #06-1011, TBT Development, LLC Tehama County Planning Department Red Bluff--Tehama To create 2 parcels of approximately 20.085 acres each in an R1-A-MH-B:435; One-Family Residential - Special Animal Combining - Special Mobilehome Combining - Special Building Site Combining (435,000 sq. ft., 10 acre minimum) Zoning District.	<b>MND</b>	10/04/2006
2006091002	Los Robles del Mar Annexation San Luis Obispo County Local Agency Formation Commission Pismo Beach--San Luis Obispo The basic objective of this environmental document is to address the potential impacts associated with the proposed use of wells located on the Los Robles del Mar site as a municipal water source for the City of Pismo Beach. The SEIR intended to accomplish the following objectives: 1. Evaluate the City's plan to utilize on-site water wells to augment the municipal water supply and determine the impacts of this use upon wells in the surrounding	<b>NOP</b>	10/02/2006

	area. 2. Analyze the cumulative impacts of this use of on-site wells in combination with private and municipal wells in the vicinity on the groundwater basin. 3. Identify any potential impacts of the pumping of on-site wells upon biological resources in the area. 4. Assess the potential land use/growth-inducing impacts of these actions.		
2006091003	Victorville East Retail Center Project Victorville, City of Victorville--San Bernardino The Project proposes construction of approximately 375,900 square feet of commercial/retail shopping center uses within an approximately 25.92 acre site. Primary facilities include a "major" reatail anchor at 240,000 square feet, and miscellaneous supporting retail/commercial uses totaling approximately 35,900 square feet.	<b>NOP</b>	10/02/2006
2006092004	Los Gatos Creek Trail Reach 5 San Jose, City of San Jose--Santa Clara The City of San Jose proposes to construct a multi-use trail along Los Gatos Creek to accommodate bicyclists and pedestrians. The trail will be located along the west side of Los Gatos Creek from Auzerais Avenue to W. San Fernando Street. At W. San Fernando Street, the trail will cross the creek on the existing bridge on W. San Fernando Street and extend along the east side of Los Gatos Creek to Santa Clara Street. The trail will consist of a Class 1, 12-foot wide paved path, with two-foot wide compacted base rock shoulders on each side where space allows. The trail includes two bridge undercrossings, three at-grade street crossings, and one at-grade crossing of the City light rail tracks. Portions of the trail will extend along existing sidewalks that will be improved to accommodate the trail. The trail also includes wayfinding signage, hardscape improvements at intersections, and incidental landscaping.	<b>NOP</b>	10/02/2006
2006092005	City of Oroville Enterprise Zone Oroville, City of Oroville--Butte The project consists of renewing and re-establishing the City of Oroville's Enterprise Zone (EZ), while at the same time, modifying the EZ's geographical boundaries. The existing Oroville EZ is due to expire in November 2006. The EZ program is regulated by the State of California Department of Housing and Community Development, which promotes business growth and land development through business tax reductions and a number of other fiscal mechanisms.	<b>NOP</b>	10/02/2006
2006092008	Lake County General Plan Lake County Community Development Department --Lake Preparation of a comprehensive update to the Lake County General Plan. The plan addresses all mandatory elements plus a geothermal element and a water resources element. The plan includes policies and implementation measures regarding future development within the County. The general plan update keeps many of the policies from the 1981 general plan, but includes a significant number of new and refined policies, including infill and smart growth policies. Community area boundaries are included for each of the communities within County jurisdiction, and policies are included to limit development outside of these boundaries to preserve agricultural soils and open space.	<b>NOP</b>	10/02/2006

2006092027	Rivieras Area Plan Lake County Community Development Department --Lake Preparation of the Rivieras Area Plan, as required by the Lake County General Plan. The plan addresses natural resources, public safety and community development and provides comprehensive text and policies to guide land use and development decisions in the Rivieras planning area through the year 2025.	<b>EIR</b>	10/19/2006
2006011066	Colorado River 500 Specific Plan EIR Blythe, City of Blythe--Riverside The Colorado River 500 (CR-500) Specific Plan project would provide a mix of residential, commercial, recreation and open space uses and include both upland and in-water project elements. Proposed specific plan land use designations include: Resort Residential, Recreational Vehicle Park, Commercial Riverfront, Commercial General Resort, Commercial Service Resort, and Open Space. Maintenance dredging at the mouth of the lagoon, installation of a boat dock north of the existing boat ramp, replacement of an existing pipe culvert, pedestrian bridge at the mouth of the lagoon are also proposed to be built. The project is proposed to be built in seven phases with full build-out anticipated within six to eight years from project approval.	<b>FIN</b>	
2006021132	Reedley Waste Water Treatment Plant Reedley, City of Reedley--Fresno The City of Reedley Wastewater Treatment Plant is located at 1295 W. Olson, Reedley, CA 93654, Fresno County. The project consists of the adoption of the proposed 20-year Master Plan for the City of Reedley Wastewater Treatment Plant (WWTP) and the associated expansion. The project site is located within the boundaires of the WWTP, which is approximately 1.5 miles southwest of the center of the City, on the west bank of the Kings River, south of Olson and Huntsman Avenues. The proposed project will increase WWTP capacity to 7.0 million gallons per day (mgd) in two phases over the 20-year planning period. Phase I will increase capacity to 5.0 mgd and should provide sufficient capacity through the year 2022. As maximum month flows approach 5.0 mgd, the City would begin planning, designing and construction of Phase 2 which will increase capacity to 7.0 mgd.	<b>FIN</b>	
2005122124	Hungarian Pentecostal Church, Multi-Purpose Room (PMPM T20040371) Placer County Planning Department Roseville--Placer Proposed 1,610 sq. ft. addition to existing church building for use as a multi-purpose room.	<b>MND</b>	10/04/2006

2006031041	Metro East Mixed Use Overlay Zone Santa Ana, City of Santa Ana--Orange The purpose of the proposed overlay zone is to allow for the development of mixed-use and/or residential land uses within the Overlay Area. To accommodate this objective, the City will need to amend the current General Plan to permit these new land uses, and amend the Zoning Code to establish development standards that implement the City's vision for the development of mixed-use and/or residential projects within the Overlay Area.	<b>NOP</b>	10/04/2006
2006091012	The Gateway Project Pismo Beach, City of Pismo Beach--San Luis Obispo A shared use commercial condominium project consisting of retail commercial, professional office and hotel components. The project site includes C-1, and RR, zoning and a portion of Bay Street, a public right of way. As proposed, the development will require that the Bay Street segment adjacent to the corner of Dolliver and Price be closed to vehicular traffic. The development will also require placement of structures above and below the Bay Street right of way. The total lot area of the project is 61,281 sq ft. The total building area is 73,338 sq ft comprised of 26,659 sq ft of commercial-retail space, 5,361 sq ft of professional office space and 41,364 sq ft of hotel space. Parking for the project will be subterranean in the development basement. Building heights will not exceed 35 feet with the exception of a number of "architectural features", which will not exceed a 15% increase in building height. The project also includes the construction of the Gateway towers at the corner of Dolliver and Price Street. It is the developer's intention to make the towers and icon for nboth the project and the City of Pismo Beach.	<b>NOP</b>	10/04/2006
2006092012	Richmond Enterprise Zone Application Richmond, City of Richmond--Contra Costa The City of Richmond Planning Department will be the lead agency and will prepare an Environmental Impact Report for the proposed re-designation of certain areas of the City of Richmond as a California Enterprise Zone.	<b>NOP</b>	10/04/2006
2005081095	CUP 04-023 / ROAKT200500045 Los Angeles County Department of Regional Planning --Los Angeles CUP application to operate a health retreat facility for voluntary substance abuse withdrawal and education program. There are currently 11 existing buildings (total of 16,531 s.f.), three water wells, two water tanks (42,000 gal. and 210,000 gal.), two dirt volleyball courts, a basketball court, a corral, a swimming pool, an undeveloped field for softball, and orchards. Proposed improvements include construction of three 4' wide concrete walkways, an Arizona crossing, a secondary emergency access road with a bridge crossing, and a 4" sewer line; relocation of an entry sign; remodeling building facades and the interior of buildings #7, 8, 9, 10, and 11; widening the fire lane to 20' wide; and demolishing a portion of existing buildings #5 and 6. The project will utilize two existing septic tanks and a leach field with an expansion area for waste disposal. A total of 29 parking space will be provided including two proposed parking spaces. Approximately 2,000 c.y. of grading will be requirec which will be balanced onsite. An estimated maximum amount of water usage for domestic use and landscaping will be approximately 16,000 gallons per day. This facility will be a 24 hour operation with a total of 16	<b>Neg</b>	10/04/2006

2006091019	Creekside Vistas Chula Vista, City of Chula Vista--San Diego The 5.5-acre project site is located at 914-942 Third Avenue, Chula Vista. The proposal consists of a mixed-use development that includes a 4,000 square foot one-story retail building and 167 multi-family residential units. The proposed project involves potential impacts to environmentally sensitive vegetation that will require a Habitat Loss Incidental Take (HLIT) Permit in accordance with the City of Chula Vista Multiple Species Conservation Program (MSCP) Subarea Plan. The proposed project site is located in the CCP (Central Commercial/Precise Plan) Zoning and MUR (Mixed Use Residential) General Plan land use designations.	<b>MND</b>	10/05/2006
2006091021	CDP 05-50 - Carlsbad Slope and Drainage Repair Carlsbad, City of Carlsbad--San Diego The coastal bluff and drainage system, along the western edge of the south bound lane of Carlsbad Blvd. (Hwy. 101) between the western terminus of Palomar Airport Road and Solamar Drive, had been damaged in early March 2005 as a result of storm water runoff that has undermined and washed out portions of the storm drain system and undercut a small section of the south bound lane of Carlsbad Boulevard and threatened portions of the existing old road which is now used for pedestrian and bike traffic. At least two storm drain inlet boxes and the attendant inlet and outlet pipes failed and were deposited on the slope. In addition, six separate areas of the bluff face, with varying widths, lengths and depths also washed out as a result of storm water runoff. Erosion gullies were back filled with imported soil and the drainage system was repaired.	<b>MND</b>	10/05/2006
2006092024	CEQA 07-01 Bidwell Reach Restoration Butte County Chico--Butte Streaminders is applying for a Floodplain Development Permit in conjunction with floodplain creation and riparian enhancement on the north side of Big Chico Creek. Floodplain creation will take place immediately west of the State Highway 32 Nord Avenue Bridge, while riparian enhancement will occur from the bridge to a point approximately 1/3 mile downstream. The project's purpose is to enhance the area's ecological integrity and recreational amenities by increasing bank stability, expanding Big Chico Creek's carrying capacity, and restoring native vegetation.	<b>MND</b>	10/05/2006

	west along the foothills of the San Bernardino Mountains. The existing channel is located to the north of Greenspot Road, between the Santa Ana River on the east and La Crestia Street on the west. It supplies water to approximately 25,000 city residents and it also provides nearly 4.5 million gallons of irrigated water to agricultural users in the area. During the October 2003 wildfires in southern California, EVWD's North Fork irrigation channel had been subject to damage and contamination, and water supply and service were temporarily affected. EVWD hopes to minimize the threat of property damage and risks to public health and safety in the project vicinity in the future. The purpose of this project is to utilize FEMA's HMGP funding to reduce the long-term risks associated with potential damages to the North Fork irrigation channel from natural hazards.

2004112063	<p>Master Permit for Env. Enhancement Projects Santa Cruz County Capitola, Santa Cruz, Scotts Valley, Watsonville--Santa Cruz</p> <p>The goal of the project is to eradicate a 10' x 40' stand of exotic Arundo. Eradication of the Arundo stand at this site will require work over at least two construction seasons under the Permit Coordination Program. During the first year, the Arundo will be treated with the "cut stump" method. The "cut stump" eradication method has an approximate 80-90% success rate of killing Arundo upon the first visit, if done properly, and minimizes soil disturbance. It requires the physical cutting of the Arundo stalks within inches of the ground. The stand will be systematically hand cut using chainsaws and then herbicide will be painted (Rodeo glyphosate) to the cut stumps within minutes of the cut. Following work during this first year, a temporary erosion control mix (i.e., barley) will be applied to the site to ensure stability during the winter months. Next year, if re-growth of Arundo occurs, a repeat cutting and herbicide application will be done to address any remaining Arundo. All Arundo removed from the site during both years will be disposed of at a licensed disposal site. Following successful eradication of the Arundo, the site will be replanted with native shrubs. Techniques used for this restoration will emphasize environmentally sensitive alternatives including hand labor, and painting of herbicide.</p> <p>The California Department of Fish and Game is executing a Lake and Streambed Alteration Agreement number 1600-2006-0351-3 pursuant to Section 1602 of the Fish and Game Code to the project operator, Karen Christensen / Santa Cruz County Resource Conservation District.</p>	<b>NOD</b>

Eradication of the Arundo stand at this site will require work over at least two construction seasons under the Permit Coordination Program. During the first year, the Arundo will be treated with the "cut stump" method. The "cut stump" eradication method has an approximate 80-90% success rate of killing Arundo stalks within inches of the ground. The stand will be systematically hand cut using chainsaws and then herbicide will be painted (Rodeo glyphosate) to the cut stumps within minutes of the cut. Following work during this first year, a temporary erosion control mix (i.e., barley) will be applied to the site to ensure stability during the winter months. Next year, if re-growth of Arundo occurs, a repeat cutting and herbicide application will be done to address any remaining Arundo. All Arundo removed from the site during both years will be disposed of at a licensed disposal site. Following successful eradication of the Arundo, the site will be replanted with native shrubs. Techniques used for this restoration will emphasize environmentally sensitive alternatives including hand labor, and painting of herbicide.</p> <p>The California Department of Fish and Game is executing a Lake and Streambed Alteration Agreement number 1600-2006-0348-3 pursuant to Section 1602 of the Fish and Game Code to the project operator, Karen Christensen / Santa Cruz County Resource Conservation District.</p>	<b>NOD</b>	
2005051078	<p>Laurel Creek Condominiums Vista, City of Vista--San Diego</p> <p>The operator proposes to alter one unnamed streambed, tributary to Buena Vista Creek, San Diego County to accommodate the construction of the Laurel Creek Condominium Project (SAA# 1600-2006-0077-R5). Construction activity consists of grading and fill, impacting 0.44 acre of streambed. The project includes biological buffers that are less than the recommended 50 feet from the outer edge of the canopy in several places and these areas are considered wetland impacts. In addition, one pedestrian footbridge approximately 7' wide and 40' long will also be placed across the streambed.</p>	<b>NOD</b>	
2005071054	<p>Kline Ranch Warehouse/Distribution Facility Rialto, City of Rialto--San Bernardino</p> <p>The Kline Ranch Warehouse Facility is a warehouse/distribution facility consisting of two buildings totaling 1,396,495 square feet. Building A will cover an area of approximately 796,841 square feet, which will consist of approximately 16,000 square feet of office space and 780,841 square feet of warehouse space. Building B will cover an area of approximately 599,654 square feet which will consist of 12,000 square feet of office space and 587,654 square feet of warehouse space. There are 12 loading docks proposed for Building A and 10 loading docks proposed for Building B. All loading docks are located on the east side of the buildings, facing southeasterly.</p>	<b>NOD</b>

2006071059	Coastal Development Permit No. 05-087, Lot Line Adjustment No. 02-002 Malibu, City of Malibu--Los Angeles An application to allow lot line adjustments on four adjoining parcels. No new parcels will be created and no new development is proposed at this time.	<b>NOD</b>	
2006071081	St. Joseph Street Well Project Los Alamos Community Services District --Santa Barbara Install a new potable water well and ancillary facilities within the Community of Los Alamos.	<b>NOD</b>	
2006082056	Corte Madera Creek Annual Dredging Ross, City of Ross--Marin This is a sediment removal project. As part of the proposed project the Town of Ross proposes to excavate a 400-foot segment of stream channel under and just up and downstream of Lagunitas Road Bridge and near Ross Town Hall. Approximately 2 to 3 feet of gravel and other sediments accumulate in gravel bars under and near the Lagunitas Road Bridge each year. The proposed activity is part of an annual project to remove accumulated sediment from below and near Lagunitas Road Bridge in order to restore hydraulic capacity in Corte Madera Creek. A single bulldozer will be used to move sediments to a removal point. An excavator, working from top of bank, will remove the sediment for off-site hauling. Up to 1,400 +/- cubic yards of material will be removed. Work will be performed when the creek is dry, or the area will be dewatered.  The California Department of Fish and Game is executing a Lake and Streambed Alteration Agreement number 1600-2006-0465-3 pursuant to Section 1602 of the Fish and Game Code to the project operator, Mel Jarjoura.	<b>NOD</b>	
2006089081	Freestone Flat Road Improvement Sonoma County Permit and Resource Management Department --Sonoma The project involves the improvement of an existing road, several elements including the installation of approximately 90 liner feet of steel sheet piles along sections within the top of the bank of Salmon Creek in order to provide a base for the widening of Freestone Flat Road. The project site is located within and around the riparian zone of Salmon Creek on Freestone Flat Road near the intersection of Bohemian Highway in the town of Freestone, Sonoma County of the Camp Meeker 7.5 minute U.S. Geological Survey quadrangle. The operator proposes to trim and remove areas of the riparian zone to accommodate the placement of the sheet piles likely utilizing an excavator and/or backhoe and dumpster for removal of vegetation and soil/fill outside of the immediate riparian zone of Salmon Creek. The riparian zone of Salmon Creek at this location currently consists of a mix of native and non-native plant species and trees. The California Department of Fish and Game is executing a Lake and Streambed Alteration Agreement number 1600-2006-0144-3 pursuant to Section 1602 of the Fish and Game Code to the project operator, Bill Phelps / New West, LLC.	<b>NOD</b>

	Related applications include: Change of Zone No. 07185 to change the zoning classifications on the site from "Heavy Agriculture, Ten-acre minimum lot size (A-2-10)" to "One Family Dwellings (R-1)."		
2006061046	Self Storage/ Retail Center at Beach/Edinger (Case 2006-06) Westminster, City of Westminster--Orange The proposed project includes construction and operation of commercial retail uses and a self-storage facility. The proposed project involves development of three buildings totaling 139,877 square feet. The self-storage facility would comprise 133,100 square feet, and would be developed with three-stories above ground and one subterranean basement floor. The second building (Building A) would comprise 2,637-square feet of food and retail use, and would be one story. The third building (Building B) would comprise 4,140-square feet of food and retail use. The project site plan includes 48 surface parking spaces for the retail uses and 13 spaces for the storage building.	<b>EIR</b>	10/23/2006
2003071115	Carpinteria Sanitary District's South Coast Beach Communities Septic to Sewer Project Supplemental Environmental Impact Report Carpinteria Sanitary District Carpinteria--Santa Barbara, Ventura The project consists of annexations of property into the CSD, establishment of assessment districts for project financing, and construction and operation of wastewater collection and transfer infrastructure. The proposed infrastructure component of the project would involve the construction and operation of five separate wastewater conveyance systems to serve each of the five beach communities. Each would require the construction of public and private sewer facilities. Public sewer facilities would be constructed and operated by CSD, and would provide each homeowner with the opportunity to have public sanitary sewer service. Private sewer facilities would be required to connect homes to public sewer system, from which wastewater would be conveyed to the Carpinteria Wastewater Treatment Plant (CWWTP). The public infrastructure would include gravity sewers, force mains, laterals to the property lines of the private lots, pump stations, manholes, and cleanout stations.	<b>FIN</b>	
	The project, as described above, was the subject of a Final Environmental Impact

	complex will be moved to a new location within the next year and will be replaced by a new Physical Sciences building.		
	The School of Law at UC Davis moved into Martin Luther King, Jr. Hall, in 1968. To accommodate planned growth and the emergence of new programs as legal education evolved over the past 40 years, the School has incrementally partitioned and converted the space of the existing building to new functions. The result is a facility configuration that is inefficient, disjointed, over-crowded, and fundamentally insufficient to support the teaching, research, and service programs of the School.		
1999041035	Draft SEIR 597, Second Amendment to the 2001 Prima Deshecha General Development Plan Orange County San Juan Capistrano--Orange The project evaluates the potential environmental impacts associated with the implementation of the Second Amendment to the 2001 General Development Plan at the Prima Deshecha Landfill (PDL). This SEIR is a supplement to EIR 575 that assessed the impacts of the 2001 GDP, and documents the potential impacts of the proposed project related to geophysical resources, soils, hydrology/water quality, air quality, and biological resources. The proposed project includes a change in the area of disturbance for the two landfill zones (1 and 4) within the PDL site from 800 acres to 1,078 acres to accommodate short-term impacts from installation of landslide remediation features; redesign of the PDL desilting system for Zone 4; implementation of features to supplement water supply in Prima Deshecha Canada stream channel; modification of the potential excavation phasing limits for Zones 1 and 4 to construct landslide remediation features and updated fill phasing limits for Zone 1; coordination and implementation of a comprehensive pre-mitigation plan to mitigate for biological impacts through project build-out; and development of a comprehensive conceptual plan identifying regional environmental enhancement opportunities on the site.	<b>SIR</b>	10/23/2006
1998102084	Specific Plan Amendment No. 3 to the Bridle Ridge Specific Plan (SP 98-01) Oakdale, City of Oakdale--Stanislaus For approval of a General Plan Amendment to incorporate the Specific Plan Amendments to the Bridle Ridge Specific Plan 02 and approval of Vesting Tentative Subdivision Map for the purposes of dividing 5.67 +/- acres (APN 063-026-003) and 8,953.44 square feet (APN 063-026-002) of land into 35 lots for single-family residences within a portion of the Bridle Ridge Specific Plan (BRSP) area. The project site is situated south of Greger Street, east of Crane Road and northwest of the Crane Lateral. Considerations of the General Plan Amendments include amending the land use plan from Single Family Low Density Residential (SFLDR) to Low Density Residential (LDR) for APN 063-026-002 and 003 included in Vesting Tentative Subdivision Map 2005-04 and to incorporate the Bridle Ridge Specific Plan amendments as requested.	<b>NOD</b>

	East 5th Avenue Improvement Project, outfall installation. Activities include the construction of two new stormwater outfalls in Lindo Channel. The first outfall will be located upstream (east) of the Esplanade and the second outfall will be located north of Sherman Avenue. Each outfall will include the placement of rock-slope protection below the stormwater outfall for erosion protection.		
2002122132	Z01-06 and PD02-01/EI Dorado Card Lock Fueling Facility El Dorado County Planning Department Placerville--El Dorado Rezone from One-acre Residential (R1A) to Commercial-Planned Development (C-PD) and development plan for a commercial card lock fueling facility with four fueling stations pumping both gasoline and diesel fuel.	<b>NOD</b>	
2003012079	Navarro River Watershed Permit Coordination Program Regional Water Quality Control Board, Region 1 (North Coast), Santa Rosa --Mendocino The project involves culvert replacement work on Indian Creek, tributary to the Navarro River. The project is enrolled in the Navarro Watershed Partners in Restoration Permit Coordination Program. The California Department of Fish and Game is executing a Lake and Streambed Alteration Agreement number 1600-2006-0391-3 pursuant to Section 1602 of the Fish and Game Code to Mr. Jeff Meyers in coordination with the Mendocino County Resource Conservation District.	<b>NOD</b>	
2003102144	Orchard Estates / Lake Road Grizzly Ranch EIR Parcel Map 2003-45 Stanislaus County --Stanislaus The project would divide the 2,843-acre agricultural parcel into 71 40-acre parcels. Each parcel would contain a 1.5 acre envelope, and the remaining property would be a cultivated almond orchard. The applicant proposed an easement agreement with future property owners that would provide for a 25-year period of orchard cultivation by a third party on the remaining 38.5 acres of almond orchard on each of the 40-acre lots created.	<b>NOD</b>	
2004102080	City of Galt Land Lease and Wastewater Treatment Plant Reclamation Project Galt, City of Galt--Sacramento The City of Galt proposes to acquire (lease) 130-171 acres of land east of its wastewater treatment plant (WWTP) and use it to plant crops and irrigate them with secondary treated effluent. The project involves constructing and operating facilities to convey treated wastewater effluent from the WWTP, under the UPRR tracks, and on to the adjacent agricultural lands and then sublease those lands to a farmer who will grow acceptable crops and use the treated effluent for irrigation and reclamation activities under contract with the City. Berms/levees will be constructed around the entire perimeter of the site and directly around Skunk Creek which flows through the site. Irrigation return flows would thereby be captured to prevent runoff of any treated effluent directly into Skunk Creek or from traveling off site. Recapture ditches or detention basins will be constructed and all runoff would be directed back to the WWTP. Maintenance roads would be constructed on top of the levees and a perimeter fence with appropriate signage will be installed. A Conditional Use Permit from Sacramento County is required to irrigate agricultural crops with secondary treated effluent.	<b>NOD</b>

SCH Number	Title / Lead Agency / City--County / Description	Document Type	Ending Date
<b><u>Documents Received on Monday, September 11, 2006</u></b>			
2006092048	Southwood Valley Subdivision Orinda, City of Orinda--Contra Costa The City is considering an application by the owner of a 43.08-acre site on the south side of State Route (SR) 24 to construct a residential subdivision. The City's General Plan allows the property to be subdivided into 33 acres of open space and 10 acres of low-density residential housing (up to a maximum of 20 units). The proposed project comprises 16 residential lots and one open space lot on the 43.08 acre parcel. Although the City's General Plan identifies the Southwood Valley as a potential residential development site, the proposed project is not consistent with the General Plan land use map and would therefore require a General Plan amendment.	<b>NOP</b>	10/10/2006
2006092050	255 Seventh Street (Westbrook Plaza) San Francisco Planning Department San Francisco--San Francisco The proposed project would result in the construction of two new buildings. A five-story, 50-foot building with three levels of residential above a two-level health center would front Seventh Street (the Seventh Street Building). A four-story, 40-foot residential building would front Moss Street (the Moss Street Building). The two buildings would share a mid-block courtyard. The proposed project would also include a subsurface parking lot with 45 off-street parking spaces. The Seventh Street Building would contain an approximately 20,000 square foot out-patient South of Market Health Center (SMHC). The third, fourth, and fifth floors of the Seventh Street Building would be occupied by 10 affordable dwelling units each, for a total of 30 affordable dwelling units. Access to the dwelling units, the SMHC and the pharmacy would be provided through three separate entry/exit points along Seventh Street.	<b>NOP</b>	10/10/2006
2006092051	Riverbank General Plan Update EIR Riverbank, City of Riverbank--Stanislaus The General Plan is Riverbank's "blueprint" for future land uses change and development. It outlines the goals and policies upon which the City Council and Planning Commission will base their land use decisions. The General Plan has an emphasis on the long-term, in this case, a 20-year planning horizon. This document identifies the types of development that will be allowed, the spatial relationships among land uses, and the general pattern of future development. All propose private development projects, public works projects, and zoning decisions must be consistent with the General Plan. Any specific plan adopted by the City must be consistent with the General Plan.	<b>NOP</b>	10/10/2006
2006092054	494 Forbes Boulevard - Office/R&D Project South San Francisco, City of South San Francisco--San Mateo The project proposes the construction of two new office/research and development buildings (one four stories tall and one five stories tall) totaling 326,020 square feet, and a three level parking garage (with 863 parking spaces) on a 7.48 acre site.	<b>NOP</b>	10/11/2006

<b><u>Documents Received on Monday, September 11, 2006</u></b>			
2003011043	R2006-00115, RCUP 200600010, RENV 200600010, Block of 25700 of Pluma Road, Calabasas Los Angeles County Department of Regional Planning Malibu, Calabasas--Los Angeles A conditional use permit application to authorize the installation of a power meter pedestal and a three foot high retaining wall along the west, east, and south side of the pedestal in the public road right-of-way. The power meter pedestal is associated with a previously approved CUP 02-070, which authorized the installation of a wireless telecommunications facility onto an existing utility pole in the public right-of-way. CUP02-070 authorized the placement of two eight foot long cable extension arms and three sector antennas at 31' above ground, three Telcos (28'6", 25'10" and 25' above ground), and an eight feet high equipment cabinet mounted onto an existing 50 foot high utility pole. All excavated materials will be used as backfill within the project site.	<b>Neg</b>	10/10/2006
2006091040	La Palma Avenue/Kraemer Boulevard Intersection Improvements Anaheim, City of Anaheim--Orange The project proposes roadway widening to accommodate the addition of one northbound through lane, one southbound left turn lane and one eastbound left turn lane. Partial property acquisition would be required.	<b>Neg</b>	10/10/2006
2006091043	Zone Variance 05-003 / Minor Subdivision 05-075 Merced County Merced--Merced The subdivision of an 8 acre parcel into four parcels, each 1.35 acres in size, and a remainder parcel of 2.4 acres. A zone variance from minimum parcel size standards is required in order for the subdivision to be approved.	<b>Neg</b>	10/10/2006
2006091048	City of Murrieta General Plan Amendment; Monroe Avenue Improvement Project Murrieta, City of Murrieta--Riverside The City of Murrieta proposes to construct a section of Monroe Avenue, which would include improvements to the north-south Monroe Avenue roadway, complete with curb and gutter to meet the design criteria proposed by the General Plan Circulation Element. The project would also eliminate access to Shoshonee Drive from Los Alamos Road. Shoshonee Drive would be reconfigured to end in a "knuckle" at its connection to Symeron Way. Elimination of access to Los Alamos Road from Shoshonee Avenue is required within the context of the proposed Monroe Avenue improvements to maintain minimum distances between intersections for safety along Los Alamos Road. The project also includes the construction of traffic signals at the intersections of Monroe Avenue and Los Alamos Road and Monroe Avenue and Symphony Park Lane, two signals within the new section of Monroe Avenue, and pavement, curb and gutter improvements along the northern side of Los Alamos Road at its current intersection with Shoshonee Drive.	<b>Neg</b>	10/10/2006

	into 77 lots ranging in size from 6,026 square feet (net) to 10,880 square feet (net) for residential use and a 24,975 square foot (net) sump lot; five limited design variations; development variations to the Development Standards to allow a reduction in the required 660-foot separation along a major highway and to allow a reduction in the minimum separation between local streets.		
2006091052	Holly Street Ventures San Bernardino County Land Use Services Department Rialto--San Bernardino The proposed project is a Conditional Use Permit to establish a 392,620 SF warehouse distribution building on 18.58 acres. The project is located on Holly Road, approximately 718' east of Agua Mansa Road. The project site is in the unincorporated portion of the County of San Bernardino in the Agua Mansa Industrial Center. The Agua Mansa Specific Plan designates the project site as Heavy Industrial, with a Improvement Level One (IL-1). The project is within the City of Rialto Sphere of Influence.	<b>Neg</b>	10/10/2006
2006092041	Alpine County General Plan Amendment: Safety Element - Policies Regarding Fire Protection Alpine County Planning Department --Alpine The project is an amendment of the Safety Element of the Alpine County General Plan. It includes revisions to existing policies and adoption of new policies and implementation measures related to fire hazards and fire protection in the wildland urban interface; and recommended implementation measures related to fuels reduction, water supply, access, fire protection planning and capability. The proposed revisions will not directly cause physical impacts on the environment. The mitigation measures identified in this initial study will apply to site specific projects and activities that may occur in the future. Also, it is likely that some of the actions recommended in the Safety Element will occur as part of a future land development project such as a subdivision. In such cases, the potential environmental effects will also be evaluated as part of the environmental analysis for the future development project.	<b>Neg</b>	10/10/2006
2006092042	Planned Development Overlay 05-02, Tentative Subdivision Map 05-04, Environmental Assessment 05-06, Kyle's Ct. Placerville, City of Placerville--El Dorado A request for Tentative Subdivision Map and Planned Development Overlay for the subdivision of one 3.41-acre project site into eight parcels, the creation of a 1.26-acre Conservation Easement, and the modification of the following R1-6,000 Zone development standards for each parcel: - Reduction in the front yard building setback, from 20 feet to 15 feet. - Reduction in the side yard building setback, from 10 feet or 10% of parcel width to 5 feet. - Request 25' road right-of-way for new road, Kyle Court, with no sidewalk.	<b>Neg</b>	10/10/2006
2006092046	Rasmussen Final Map Subdivision and Special Permit Humboldt County Community Development Services --Humboldt A Final Map Subdivision of an approximately 76,500 square foot parcel into 6 residential lots ranging in size from 10,050 square feet (net) to 16,818 square feet (net). The parcels will be served by an interior roadway off of Second Road with a 40 foot right of way. The existing residence on proposed Parcel 1 will abandon the	<b>Neg</b>	10/10/2006

1999082041	Modesto Urban Area General Plan Amendment-Housing Element Update Modesto, City of Modesto--Stanislaus Application to amend P-D(564) to change the use for the restaurant located on the northeast corner of the project site from a restaurant as permitted in the C-1 zone to a restaurant with a pub as permitted in the C-2 zone.	<b>NOD</b>	
1999082041	Modesto Urban Area General Plan Amendment-Housing Element Update Modesto, City of Modesto--Stanislaus Rezone Residential R-1 zoned parcel to Planned Development Zone P-D(575) to allow the development of a medical and professional office complex.	<b>NOD</b>	
2005011085	Lake Hodges Pedestrian/Bicycle Bridge San Dieguito River Park Joint Powers Authority --San Diego The operator proposes to alter the streambed of Lake Hodges, tributary to the San Dieguito River, tributary to the Pacific Ocean, to accommodate the Lake Hodges Pedestrian/Bicycle Bridge Project, a 990-foot long bridge with related trail connections for pedestrians and bicyclists across Lake Hodges. The bridge will be a stress ribbon type structure with two piers placed in the lake and concrete abutments at either end of the bridge. Construction includes installing a series of pre-cast concrete panels, strung on cable anchored into the two bridge abutments. The cables will be stressed with tension to support the bridge platform. The two piers beneath the platform will rest on footings made from pre-cast concrete piles fabricated off-site and positioned by a crane in the lake. Both bridge abutments will consist of below-grade, concrete base structures. The project impacts 0.77 acre of streambed (Streambed Alteration Agreement #1600-2004-0470-R5).	<b>NOD</b>

	disposal at a permitted quarry. An excavator, wheel loader, and off-road dump truck will be used.		
	SAA# 1600-2006-0106-R5		
2006098054	San Geronimo Creek Emergency Bank Stabilization Fish & Game #3 --Marin The proposed project involves: repairing elements of the Creamery Road bridge wing walls/abutments. Rock riprap (18-24" diameter) will be placed along the uppermost bank of San Geronimo Creek adjacent to Creamery Bridge. The existing rock riprap will remain in place and new rock will be placed on top of the existing rock at the uppermost area of the bank to stabilize and repair the downstream concrete bridge abutments. The rock riprap (12-18" diameter) will be used to prevent further wash-out of the road shoulder that is currently eroding. All work will be done from the road and during summer low stream flows, thereby minimizing adverse impacts to the creek channel and aquatic resources. The California Department of Fish and Game is executing a Lake and Streambed Alteration Agreement number 1600-2006-0553-3 pursuant to Section 1602.	<b>NOE</b>	
2006098055	Sleepy Hollow Creek Bank Stabilization Fish & Game #3 San Anselmo--Marin The proposed project involves: (1) manually or mechanical removal of concrete debris that threatens to obstruct water flow during the coming winter; (2) manual removing other loose material (e.g., dirt, dead vegetation) at the site; (3) excavating a small footing along the toe of the bank; (4) installing a geo-textile fabric; (5) manually placing approximately 6 to 8 cubic yards of rock rip-rap to form a low wall to stabilize the bank, restore the channel's gentle historical curve, and protect the bridge; (6) inter-planting the site with site-appropriate native plants recommended by the Marin County Stormwater Pollution Prevention Program's Creek Care guidelines. The applicant expects the project to be completed in approximately three days with minimal adverse environmental impact. The California Department of Fish and Game is executing a Lake and Streambed Alteration Agreement number 1600-2006-0536-3 pursuant to Section 1602.	<b>NOE</b>	
2006098056	Van Winkle Creek Bank Stabilization Fish & Game #3 San Anselmo--Marin The proposed project involves: removing the existing sack concrete from the creek bank and replacing it with approximately 18 cubic yards of 24-inch diameter rock riprap (dimensions 40 feet long by 6 feet wide by 2 feet deep). All work will be done from the road (or opposite bank), using a small excavator. The rock riprap will be keyed into the toe of the bank, filter fabric will be placed over the slope, and the rock riprap will be locked in place on top of the fabric along the creek bank. The existing mature walnut tree located above the sack concrete will be removed to facilitate placement of the rock riprap. All sack concrete below the walnut trees and excess fill will be transported to an upland site at the Nicasio Corporation Yard. After project completion, DPW staff will plant three willow cuttings (5-gallon size) at the top of the bank where the mature walnut tree will be removed. The California Department of Fish and Game is executing a Lake and Streambed Alteration Agreement number 1600-2006-0550-3 pursuant to Section 1602.	<b>NOE</b>

2006098057	Nathanson Creek Repair Plan Fish & Game #3 Sonoma--Sonoma The proposed project is the stabilization of the banks of Nathanson Creek. The project area experienced substantial damage during the storm events of December 2005. The proposed bank stabilization uses rock toe protection in a three-foot trench near the flow-line of the stream with turf reinforcement mat on the stream banks. Bank protection will be placed along about 500 feet of bank and will follow the existing bank alignment. The rip-rap will be placed and along the top of bank. Issuance of a Streambed Alteration Agreement Number 1600-2006-0383-3 pursuant to Fish and Game Code Section.	<b>NOE</b>	
2006098058	Agreement 2006-0077-R4; Tehachapi Creek; Bridge Repair Fish & Game #4 --Kern Construct a temporary causeway by placing earth fill and several culverts to replace the existing deck of the bridge.	<b>NOE</b>	
2006098059	Bear Valley Fuel Reduction Program (8CA05672) Alpine County Planning Department --Alpine The proposed project is to create a shaded fuel break on approximately 30.25 acres in the vicinity of the community of Bear Valley. Horizontal and vertical fuel loading will be reduced so as to reduce the risk of catastrophic fire.	<b>NOE</b>	
2006098060	Mountain Vista Specific Plan Geotechnical Investigation Trenching Project Fish & Game Eastern Sierra-Inland Deserts Region Yucca Valley--San Bernardino The Department is issuing a 1602 Streambed Alteration Agreement to the project proponent who proposes to excavate up to three trenches to be used for geotechnical investigations on the site. Of these, up to two will be within the wash at this location. The Mountain Vista Specific Plan Geotechnical Investigation Trenching Project will result in excavation of these trenches on the Mountain Vista Specific Plan site, which is located in the eastern portion of the Town of Yucca Valley. The proposed Specific Plan site encompasses approximately 485 +/- acres, of which approximately 5.34 acres will be impacted by the proposed trenching. The subject trenching project is necessary to allow project engineers to conduct soil and earthquake fault testing prior to development of the Specific Plan site. There are two mapped blue line streams on the Mountain Vista Specific Plan site. Of these, only the La Contenta Wash, which occurs in the eastern portion of the site, will be impacted by the proposed trenching. Trenches No. 1 and No. 3 are within and adjacent to the streambed. Trench No. 2 occurs outside the streambed. Trench No. 3 will occur only if the findings of the geotechnical investigations conducted in Trenches No. 1 and No. 2 warrant excavation of a third trench. All impacts are temporary. Trenches will be back-filled to 90% and regarded to their pre-trenching topography. Trench No. 1 will include an area of disturbance within the streambed approximately 50 feet wide and 150 feet long. Based on this, Trench No. 1 will result in 7,500 square feet, or 0.17 acre, of temporary disturbance. Should Trench No. 3 be required, the area of disturbance will be equivalent to those of Trench No. 1. Therefore, the trenching project has potential to impact up to 0.34 acre of streambed.	<b>NOE</b>

2006091059	Court Theater Redevelopment/Renovation Livingston, City of Livingston--Merced The City of Livingston proposes to renovate and expand the Court Theatre, located in the commercial district of Livingston. The 5,400 square foot theater was built in the 1940's and includes a 50' tall frontage at 620 Main Street (previously 3rd Street). Renovation plans for the structure involve its conversion to a theater 'dinner' venue with a flat floor area served from an adjacent restaurant and kitchen addition to the north and new dressing rooms in the southwest corner. The second story of the north addition will be used for office spaces for a total addition of 5,368 square feet. The City also proposed a 5,368 square foot addition to the south that will be used as office spaces. The offices will have access to the proposed kitchen utilized by the restaurant and theatre venue. Revenue generated by the office rental spaces will provide a cash flow to endow the theater operations.	<b>JD</b>	10/11/2006

2006091056	GPA-2006-02, ZC-2006-02 & TT-17980 Hesperia, City of Hesperia--San Bernardino Consideration of a General Plan amendment from Very Low density residential (VL) to Medium Low density residential (ML) on 108.6 gross acres, from VL to Public on 6.1 gross acres, and from VL to Commercial (C) on 10.2 gross acres; a zone change from Rural Residential with a minimum lot size of 2.5 acres (RR-2.5) to Single-family Residence (R-1) on 108.6 gross acres, from RR-2.5 to P-I on 22.9 gross acres, and from RR-2.5 to General Commercial (C-2) on 10.2 gross acres; and a tentative tract to create 351 single-family residential lots on 108.6 gross acres, two lots totaling 22.9 gross acres for a park with a well site, and a 10.2 gross acre lot for a retail center.	<b>MND</b>	10/11/2006
2006091058	GPA #1, ZCC #11, Map 139-22 Kern County Planning Department Taft--Kern (a) Amend the Kern County General Plan from 8.1 (Intensive Agriculture) to 5.7 (Residential - Minimum 5 gross acres/dwelling unit); (b) a change in zone classification from A (Exclusive Agriculture) to E (5) RS MH (Estate - Minimum 5 acre parcels - Residential Suburban - Mobile Home). The project site is approximately 39 acres total of vacant land. Staff approximates a maximum of 8 dwelling units to be built on the site. The Valley Acres/Dustin Acres Burn Dump site is within close proximity (1/4 mile) to the project site. The site is not under a Williamson Act land use contract, and has been excluded from Agriculture Preserve #3. As proposed, sewage disposal will be provided through individual septic systems, and West Kern Water will provide the water. Access will be provided from Evans Ranch Road, an unpaved access easement.	<b>MND</b>	10/11/2006
2006092065	Use Permit 06-004 - Palo Cedro Community Park Shasta County --Shasta The Palo Cedro Community Action Team, a private non-profit corporation, has requested approval of a community park, which would include a baseball/softball field, soccer field, tennis and basketball courts, horseshoe pits and bocce ball areas, a play area, a 6,000 square foot community building, and a wedding gazebo.	<b>MND</b>	10/11/2006
2006092069	Zone Amendment 06-027-Hawes Shasta County Redding--Shasta The applicant proposes to amend and expand the existing Planned Development (PD) to encompass all 38 acres of the project site. Permitted uses will include the existing retail farm and ranch supply (including fuel) and general merchandise sales on north portion of site. On the southern portion of the project site permitted uses will include a variety of seasonal recreational/amusement-type activities for children and families. The activities would be related to and based on existing and future agricultural uses of the property. Examples include corn maze, u-pick pumpkin patch, hay jumps, hay bale obstacle course, etc.	<b>MND</b>	10/11/2006
2006091053	Proposed Mixed Use Development The Beverly Hilton Oasis Beverly Hills, City of --Los Angeles The proposed project would redevelop the hotel campus. With the exception of the 8-story main hotel tower, all buildings on-site would be demolished. The	<b>NOP</b>	10/11/2006

2006091054	Pacific Coast Highway Repair and Improvement Project Dana Point, City of Dana Point--Orange The City of Dana Point is proposing to widen Pacific Coast Highway between Crystal Lantern and the San Juan Creek Bridge within the existing roadway right-of-way to accommodate an additional travel lane in each direction. The City is also proposing to construct a new pedestrian accessway into Doheny State Beach Park extending from Pacific Coast Highway east of Doheny Park Plaza. Other improvements include the construction of a new historic wall and fence, which will replace the damaged fence located along the Doheny State Beach Park property line on PCH. A pedestrian accessway will also be constructed over Pacific Coast Highway east of the Del Obispo Street/Pacific Coast Highway intersection. Implementation of the proposed project will encroach into State Department of Parks and Recreation. In addition to the easement, project approval will necessitate the approval of Coastal Development Permits (CDPs) by the City of Dana Point and California Coastal Commission.	<b>Neg</b>	10/11/2006
2006091055	Conditional Use Permit 05-0045 Perris, City of Perris--Riverside Proposed reuse of an existing downtown industrial site by a transportation company (Dial-a-Ride) and a sanitary service company (Diamond Environmental). Dial-a-Ride has bus storage, maintenance, administration, and driver dispatch within existing office and automotive service buildings. Diamond Environmental will store portable toilets and sinks, trucks and trailers, and construct a new 8,750 sf service building with office, shop, dump facility, and service bays. The site is fully paved and screened by an 8" wall, with new landscape areas to be added on	<b>Neg</b>	10/11/2006

	site and within the right of way.		
2006091060	New 2-Story Modular Building Addition - South Hills High School Covina Valley Unified School District West Covina--Los Angeles The District proposes to construct a new 2-story Modular Building to replace a small gymnasium/workout rooms, storage facilities, portable buildings, a transformer station and parking area. The new facility will contain 25-30 classrooms to meet educational needs. The site is within a described area of the current South Hills High School.	<b>Neg</b>	10/11/2006
2006091061	CUP 06-07 California City California City--Kern CUP 06-07 requests to construct a solar energy farm (electric substation) on the 2.76-acre site. The California City Municipal Code allows electric substations in O/RA zone with a conditional use permit.	<b>Neg</b>	10/12/2006
2006091062	VTTM 6864 California City California City--Kern VTTM 6864 is a 60-acre residential/commercial subdivision to construct 28 single family residential homes with one commercial lot and one park/basin lot.	<b>Neg</b>	10/12/2006
2006092066	Parcel Map 06-038 Mello Shasta County Anderson--Shasta Parcel Map 06-038 is located in the Anderson area on a 14.93-acre parcel on the northwest side of Deschutes Road approximately two-tenths of a mile northeast of Jade Lane. David and Leslie Mello have requested approval of a two parcel land division into 9.43 and 5.50-acre parcels.	<b>Neg</b>	10/11/2006
2006092067	Use Permit 06-026 Shasta County --Shasta The FGNMC has requested to develop a professional office building to support an off-site mining operation. The project site was previously occupied by a single family residence that was destroyed by wildfire. Little, if any of the project site has not been previously disturbed by human activities and natural occurrences. The parcel is level to gently sloping at the rear. An existing irrigation ditch transects the site from north to south at approximately 135 feet as measured from the front property line. Flora consists of grasses and a single tree at the northwest corner. Site preparation is to include routing the existing irrigation ditch in place through a conduit. The lone tree will be retained.	<b>Neg</b>	10/11/2006
2006092068	Parcel Map 06-045 and Zone Amendment 06-023 Shasta County --Shasta The applicant proposes to divide the 2.68 acre parcel, creating a 1.16 acre parcel and a 1.52 acre parcel. One of the proposed parcels contains an existing single family residence. The other was previously developed for residential purposes, the mobile home has since been removed. The applicant proposes to change the current Unclassified zoning district to the Mixed Use zoning district. The zone amendment is consistent with the MU general plan designation.	<b>Neg</b>	10/11/2006

2006092070	Western Slope Animal Shelter El Dorado County General Services Department --El Dorado The goal of the proposed project is to construct and operate an animal control facility for the western slope of El Dorado County. The proposed project would replace the existing western slope animal control facility currently located in Placerville. Key elements of the main building would consist of space to house animals, office space, together with an area for the public to interact with animals available for adoption. Additional outbuildings and fencing will be constructed for the housing of larger livestock, together with fenced area outdoor exercise area for dogs and a dog park available for public use. In addition to the 15,000 square foot main building, site improvements would include outbuildings, together with field fencing for livestock and 47 parking spaces for staff and visitors. The holding area for dogs would be inside, except for outdoor exercise areas that would be in use during the day time hours. Anticipated hours the facility would be open to the public are as follows: Monday and Tuesday - 9:30 am to 4:30 pm, Wednesday - 1:30 pm to 7:00 pm, Thursday, Friday, and Saturday 9:30 am to 4:30 pm, and closed on Sunday and major holidays. Staff will occupy the facility during non-public hours. In addition to these hours, staff will provide on-call service 24 hours a day. The facility anticipates housing 32-45 dogs, 28-40 cats, 2-6 larger animals (livestock), and 2-10 small animals on a daily basis. Access to the facility will be from newly proposed roadways connecting the facility to Pleasant Valley Road.	<b>MND</b>	10/12/2006

	limits of existing WDR permits. However, by removing the ammonia in the wastewater to meet permit limits, the Districts are faced with the potential formation of THMs, a known carcinogen that forms during the chlorination disinfection process in the absence of ammonia. To achieve both removal of ammonia and reduction of THM formation, the Districts will add a small amount of ammonia to the wastewater prior to disinfection.		
2003031036	MarBorg C&D Recycling and Transfer Facility Santa Barbara County Santa Barbara--Santa Barbara The Solid Waste Facilities Permit was revised to reflect an increase in daily tonnage from 750 tons per day (tpd) to 1,250 tpd; the acceptance of inert materials, e-waste and tires; and increase the permitted operating hours to include onsite waste processing, receiving and waste transfer on major holidays from 8:00 am to noon.	<b>NOD</b>	
2005071048	West Main Street Corridor Master Plan Project Alhambra, City of Alhambra--Los Angeles The City of Alhambra proposes to implement the West Main Street Corridor Master Plan initially through development of four development sites along West Main Street: Sites 4, 5, 6, and 7 (the western portion). Site 4 would be redeveloped as a five-story, mixed-use residential, retail, and office structure. Site 5, the present library site, would be developed with a five-story mixed-use residential, retail, and office building. Site 6 would be developed with a four-story, mixed-use residential and retail building. The western portion of Site 7 would be redeveloped with 140 for-sale condominium units and 21,500 square feet of commercial uses.	<b>NOD</b>	
2005081106	SDG&E Silvergate Transmission Substation Project - CPCN Application No. 05-03-024 Public Utilities Commission San Diego, Chula Vista--San Diego SDG&E is proposing to replace the aging 139/69 kV Main Street Substation with a new 230/69 kV substation (Silvergate). The new Silvergate Substation would be located across the street from the existing Main Street Substation on SDG&E owned property and on adjoining property in the Barrio Logan community in the City of San Diego. In addition, SDG&E is proposing two associated projects: installation of a Special Protection System at transmission substations dispatching power from the South Bay Power Plant and 138 kV line undergrounding and removal of lattice steel bridge structures located within the SDG&E's right-of-way between South Bay Power Plant and the Sweetwater River.	<b>NOD</b>	
2005091175	Lambert Ranch General Plan Amendment and Zone Change EIR Irvine, City of Irvine--Orange The proposed project consists of a General Plan Amendment (00387430 - PGA), Zone Change (00388680 - PZC), Conceptual Master Plan (00387431 - PMP), Park Plan (00387432 - PPP), and Vesting Tentative Tract Map (00388680 - PTT) to allow for the development of 169 single-family dwelling units on a 51.1-acre site. There are three planned detached housing types, and the existing Lambert Family Home will be retained. From the main entry to the community, a landscaped "esplanade" provides a physical and visual connection to the existing "landscaped" hillside. The end of the esplanade provides a link to the 1.77-acre neighborhood	<b>NOD</b>

2003081085	Tracy Development Project Rancho Cucamonga, City of Rancho Cucamonga--San Bernardino The California Department of Fish and Game is executing a Lake and Streambed Alteration Agreement number 1600-2005-0080-R6 pursuant to Section 1602 of the Fish and Game Code to the project applicant, Mr. Tom Tracy of Traigh Pacific. The project will permanently impact 0.495 acres, including 0.01 acre of willow scrub habitat within the drainages. The project will temporarily impact 800 square feet or 0.018 acre of East Etiwanda Creek to install the outfall structures. Total project impacts are 22,338 square feet or 0.513 acre of jurisdictional waters.	<b>NOD</b>	
2003101127	SR 126/Commerce Center Drive Interchange Project Caltrans #7 Santa Clarita--Los Angeles The California Department of Transportation (Caltrans) District 7, in coordination with the Federal Highway Administration, Los Angeles County, the Newhall Land and Farming Company, proposes to construct a grade-separated interchange at the existing, signalized intersection of State Route 126 (SR-126) and Commerce Center Drive. The Commerce Center intersection with Henry Mayo would also be reconfigured. The proposed project is located northwest of the City of Santa Clarita in Los Angeles County.	<b>NOD</b>	
2005031008	Pump Station Forcemain Replacement Project Solana Beach, City of Encinitas--San Diego The operator proposes to construct a new forcemain pipeline underneath the San Elijo Lagoon, replacing a 40 year old pipeline buried at a separate location under the lagoon. The forcemain pipeline will be installed 45 or more feet below the surface of the lagoon, using both conventional trenching methods and Horizontal Directional Boring (HDD). Disruption of the lagoon involves the manual surveying placement (on foot) of several individual survey beacon trackers and/or two guide wires across the lagoon surface to electronically guide the pipeline during the HDD effort. The survey beacon trackers and/or guide wires will be removed upon completion of the project. (SAA# 1600-2006-0175-R5)	<b>NOD</b>	
2005091025	Construction and Operation of New Water Well and Pipelines (Phase 2 Water System Improvements) Indio, City of Indio--Riverside The City of Indio is proposing the construction and operation of a new water well and an associated 24-inch water distribution pipeline in the City. The proposed project would service new residential development in the northeast portion of the City. The proposed project is known as Segment 2 of the City of Indio's Water Master Plan.	<b>NOD</b>	
2005121125	Deep Rose Geothermal Exploration Project Division of Oil, Gas, and Geothermal Resources --Inyo The proposed project includes the drilling, testing and monitoring of up to four geothermal exploration wells to depths of 18,000 +/- feet. The California Department of Fish and Game is issuing an incidental take permit for the Mohave ground squirrel, a species protected under the California Endangered Species Act.	<b>NOD</b>

2006032090	Laytonville Curve Improvement Caltrans #1 --Mendocino Caltrans proposes to improve roadway geometrics, visibility, and pedestrian access on U.S. 101 in Mendocino County by lowering the height of a vertical curve in the highway, adding superelevation to a horizontal curve, constructing ADA-compliant curbs, gutters and sidewalks, improving intersection lighting and eliminating on-street parking within the project limits.	<b>NOD</b>	
2006042173	St. Helena Hospital, File #P05-0139-UP Napa County Conservation Development & Planning Department St. Helena--Napa Approval of a Use Permit to modernize the St. Helena Hospital in four to five phases over the next 20-25 years. The use permit authorizes Phase 1 only, which includes: (1) constructing a new two-story 24,000 sf outpatient services/cancer center; (2) a 4,400 sf cogeneration power plant; and (3) a 1,200 sf chiller plant. Approximately 114 new parking spaces will be provided along Hillcrest Road, east of the hospital. A shuttle service will provide access from the parking areas to the hospital buildings. Approximately 89 of the new parking spaces will be temporary until the parking structure included in the second phase is completed. Two existing buildings totaling 1,705 sf would be demolished to accommodate the new outpatient services building/cancer center. Exterior building materials will be stucco or cement plaster. The site currently has 370,748 sf of floor area, including 19 residential structures with 43,168 sf of floor area occupied by hospital employees. Phase 1 would add 27,895 sf of floor area and impervious surfaces. No changes are proposed to the number of hospital beds, the number of full and part-time employees (during the highest shift), the number of visitors, the number of deliveries and pickups, days of operation, hours of operation, water use, or waste disposal as part of the modernization plan.	<b>NOD</b>	
2006052083	Napa Harvest Winery, File #03528-UP / 03527-VAR Napa County Conservation Development & Planning Department Napa--Napa Approval of a Use Permit to establish a new 36,000 gallon per year winery with: (1) construction of a new two-story building totaling 4,453 square feet (to be built in two phases) and 3,650 square feet of caves for a winery totaling 8,103 square feet; (2) an 800 square foot uncovered crush pad; (3) a 1,476 square foot uncovered tank pad; (4) two full-time and two part-time employees during crush activities and special events; (5) on-site parking for five vehicles; (6) tours and tastings and retail sales by appointment only; (7) a marketing plan with eight activities per year consisting of: two private grand opening events after the completion of each phase of construction for 50 people each; one annual private event with two groupings (from 10:00 am to 2:00 pm and 5:00 pm to 10:00 pm) with 50 guests at each grouping; two private wine and food tasting events per year for wine trade personnel (from 10:00 am to 2:00 pm and 5:00 pm to 10:00 pm) with 20 guests at each grouping; and, two private wine and food tasting events per year for non-wine trade persons (from 10:00 am to 4:00 pm and 5:00 pm to 10:00 pm) with 20 guests at each grouping; and (8) a new access drive off Monticello Road (State Highway 121). The request also includes approval of a variance to allow a winery building at approximately 490 feet from the centerline of Monticello Road where 600 feet is required.	<b>NOD</b>

2006052169	Waugh Winery File #P05-0391-UP#P06-01008-UP Napa County Conservation Development & Planning Department Napa--Napa Approval under the Viewshed Protection Program to construct a 1,200 square foot second unit and a 1,000 square foot guest cottage located less than 25-feet below the major ridgeline as defined in 18.106.020 of the Napa County Code.	<b>NOD</b>	
2006052169	Waugh Winery File #P05-0391-UP#P06-01008-UP Napa County Conservation Development & Planning Department Napa--Napa Approval of a Use Permit to establish a new 30,000 gallon per year winery with: (1) construction of +/- 16,000 square feet of caves to be used for all winery operations; (2) on-site parking for six vehicles; (3) three full-time employees and one part-time employee; (4) tours, tastings and retail sales by appointment only with a maximum of 30 people on the busiest day, and an average of 70 per week; (5) a marketing plan with 17 activities per year consisting of: six private wine and food events for wine trade personnel per year with a maximum of 20 guests and an average of 10 guests; ten private wine and food events per year with a maximum of 100 guests and an average of 30 guests; one private harvest event per year with a maximum of 200 guests; (6) an open house (for one day) during the Napa Valley Wine Auction for Auction ticket holders from 11:00 am to 5:00 pm during Wine Auction week; (7) a new access driveway off an existing private road; and (8) three 15,000-gallon water storage tanks for fire protection, domestic water, and waste water processing. The request also includes approval of a Use Permit Exception to the Conservation Regulations to construct a new driveway and the parking lot at the winery cave entrance on slopes that exceed 30%.	<b>NOD</b>	
2006099009	Made in Napa Valley Napa County Conservation Development & Planning Department Napa--Napa Approval to construct three manufacturing/industrial buildings totaling 72,499 square feet. Two buildings totaling 47,011 square feet are proposed for the Made in Napa Valley food manufacturing facility. The third building, with 25,488 square feet, is proposed for speculative warehouse, light industrial and office use. The project also includes a request to subdivide the existing 5.35 acre lot into two parcels consisting of approximately 3.0 acres for the Made in Napa Valley facility and approximately 2.3 acres for a speculative light industrial building, and to further divide the speculative light industrial building into four airspace condominiums with an associated common area. A Comprehensive Sign Program is also included with the proposal.	<b>NOD</b>	
2006099010	City of Santa Clarita River Bank Stabilization Santa Clarita, City of Santa Clarita--Los Angeles The California Department of Fish and Game is executing a Lake and Streambed Alteration Agreement number 1600-2006-0160-R5 pursuant to Section 1602 of the Fish and Game Code. The City of Santa Clarita will stabilize an eroded section of riverbank with ungrouted rock riprap to prevent further erosion.	<b>NOD</b>

	information about new research on energy-efficient lighting, whether done by CLTC, by California researchers, or by others across the country.		
2006098093	Parlin Fork Conservation Camp Sawmill Yard Re-Surfacing Forestry and Fire Protection, Department of Fort Bragg--Mendocino The project consists of the placement of approximately 350-400 cubic yards of clean, rock fill on the surface of an existing sawmill yard. The fill is to be provided by Caltrans from an off-site location. The fill is to be spread and graded to form a level surface for the operation of heavy equipment and the decking of logs.  A CDF Archaeological Site survey of the project has been conducted. There are no cultural or historical sites in the vicinity of the sawmill yard requiring protection. CDF Associate Archaeologist has been consulted in regard to the proposed project.	<b>NOE</b>	
2006098094	Adoption and Implementation of the 2005 Water Management Plan: Dudley Ridge Water District and San Gabriel Valley Municipal Water District Water Exchange Progra Water Resources, Department of, Division of Engineering --Kings, Los Angeles The proposed project by DRWD is to request DWR to deliver State Water Project long term water supply contract water for exchange with SGVMWD in accordance with the DRWD's existing water exchange program which has been in effect since 1995 and the 2005 Water Management Plan (SCH# 2004121103). The water exchange program provides for DRWD to deliver SWP water to SGVMWD and SGVMWD to return 95% of the delivered water back to DRWD in future years. The maximum water that SGVMWD is obligated to retain on account for DRWD is 12,500 acre-feet at any time. This is an exchange between state water contractors, within the SWP place of use, with existing turnin/turnout agreements for, but not limited to, water quality procedures. No construction, land use change, or modification to existing facilities have been required to implement the program; no new lands will be brought into production as a result of the program.	<b>NOE</b>	
2006098095	Maintenance of Storm Drain System for the Lake Eleanor Project Site Fish & Game #5 Westlake Village--Los Angeles The Operator intends to alter the streambed by conducting maintenance activities within the storm drain system for the Lake Eleanor Project Site (Tract 47962), which includes four Debris Basin and inlet structures and one outlet structure. The total impacts associated with the maintenance activities are 1.75 acres of permanent impacts. Maintenance will include the periodic removal of vegetation and sediment in order to allow each basin to function at its designed capacity. Maintenance activities will be conducted using both hand equipment and light construction equipment.  SAA# 1600-2006-0032-R5	<b>NOE</b>	
2006098096	Cascades Golf Course Debris Basin Maintenance Fish & Game #5 --Los Angeles The Operator proposes to alter the streambed by conducting maintenance of an existing debris basin (aka, Cascades Golf Course). Maintenance will include the removal of accumulated sediment, debris, and vegetation from within the debris	<b>NOE</b>

	and retention basins. SAA# 1600-2006-0170-R5		
2006098097	Oak Woodland and Prairie Restoration Parks and Recreation, Department of --Sonoma Selectively remove Douglas-fir seedlings, saplings, and poles and occasional seed trees from locations threatened by loss of habitat (oak woodlands and prairies) and significant fuel loading within Armstrong Redwoods State Reserve and Austin Creek State Recreation Area. The project is long-term. Treatment areas are prioritized according to areas that face the most likely loss of habitat. Treatments include hand removal, mechanical removal and chemical control (manizpur). Seedlings, saplings and poles will be lopped and scattered. Occasional seed trees may be girdled by chainsaw or receive a basal bark treatment. All mechanical work will be accomplished between September 1 and January 31 to avoid impacts to northern spotted owl. Trees containing nesting birds will not be removed. No mature trees (> 28 cm) will be felled. Future projects on site could include the introduction of prescribed fire; if so those projects would be further evaluated during project construction (including but not limited to dark soil containing shellfish, bone, flaked stone, groundstone, or deposits of historic trash), work within the immediate vicinity of the find will be temporarily halted or diverted until a DPR-qualified cultural resource specialist has evaluated the find and implemented appropriate treatment and disposition of the artifact(s). Project protects and preserves natural resources.	<b>NOE</b>	
2006098098	Ratchev House Chimney Stabilization and Electrical Upgrade Parks and Recreation, Department of --Sonoma Stabilize and brace existing historic chimney within the attic space and upgrade the existing electrical system within the historic Ratchev House located in Fort Ross State Historic Park. All work will be similar in design and materials to that of the existing structure and will be documented. Any pieces removed that may contain historical information will be kept and identified. Project will improve visitor safety and support continued use and maintenance of a publicly owned facility.	<b>NOE</b>	
2006098099	Groundwater Supply Well Siting Program Crestline Lake Arrowhead Water Agency --San Bernardino The Crestline-Lake Arrowhead Water Agency wishes to investigate and identify potential locations for new vertical water supply wells. Phase I of the investigation will entail site screening and site reconnaissance. Phase II will involve limited geophysical exploration and limited test holes.	<b>NOE</b>	
2006098100	2006 Electrical Control Panel Shed Mendocino, City of --Mendocino The project is for Mendocino City Community Services District to construct a 120 square foot shed over existing electrical panels. The panels are located above the tertiary filters in the treatment plant. The purpose for the shed is to protect the power supply and electrical controls that operate the treatment plant from the weather, and to provide a safety working area for treatment plant operators.	<b>NOE</b>

	thirty seven (37) residential lots with a minimum lot size of 7,200 square feet.		
2006092078	Weaverville West Connector Roadway Trinity County --Trinity The Weaverville West Connector Roadway would consist of a two lane rural major collector roadway designed to allow 45 mph speeds, with 12-foot lanes and 6-foot paved shoulders with Class II bicycle lanes on both sides. Because of the steep grade, the western segment of the proposed connector may include a truck-climbing lane. The Roadway would connect with four dead-end residential County roads: Glen Road, Mountain View Street, Mill Street, and Oregon Street. The Roadway will be designed with the capacity to handle the Design Hourly (traffic) Volume projected for the year 2030, expected to be 2,800 vehicles per day.	<b>NOP</b>	10/16/2006
2006091072	Marina Del Rey Sewer Upgrade Phases 1, 2, and 3 Los Angeles County Department of Public Works Los Angeles, City of, Santa Monica--Los Angeles The project is to install approximately 6,342 linear feet of sewer pipeline to add on to the existing undersize sewer main.	<b>Neg</b>	10/16/2006
2006091077	SP-S-15 AMD#2/TP-S-631/PD-S-978 Simi Valley, City of Simi Valley--Ventura An agreement to a Specific Plan to allow commercial uses in the Commercial Recreation Land Use matrix, creation of 5 lots from one lot and construction of 26 office buildings totaling 85,103 square feet. The proposal includes preservation of an approximate 1.8 acre wetland area with associated walnut woodland on the eastern portion of the site.	<b>Neg</b>	10/16/2006
2006091078	City of Gardena Municipal Code and Zoning Map Amendment to Conform to the General Plan 2006 Gardena, City of Gardena--Los Angeles The project proposes to amend the City's Municipal Code (Title 18, Title 8) and the Zoning Map to reflect the recently adopted General Plan 2006 policies.	<b>Neg</b>	10/16/2006
2006091080	Draft Remedial Investigation Work Plan for the Former Trabuco Bombing Range, Rancho Santa Margarita Toxic Substances Control, Department of Rancho Santa Margarita--Orange DTSC is proposing to approve a draft Remedial Investigation Work Plan (RI) pursuant to authority granted under Chapter 6.8, Division 20, California Health and Safety Code (H&SC). The RI includes the following activities: soil investigation, geophysical survey to characterize ordinance and explosives (OE) concentration and location, and a non-time critical removal action at Trabuco, a Formerly Use Defense Site (FUDS). Project activities will also include intrusive excavation of anomalies identified by the geophysical survey and may include demolition of OE.	<b>Neg</b>	10/16/2006
2006091082	Markham Tank No. 2 Western Municipal Water District Riverside--Riverside The project consists of the construction of a 6.6 MG water reservoir facility with appurtenances; retrofit work for the existing 7.0 MG tank with appurtenances; as well as all necessary rough and finish site grading, including over-extraction and re-compaction; tree and stump removal; off-site disposal of excess dirt or	<b>Neg</b>	10/16/2006

2006098115	Carmel Valley Road Enhancement (05/06-SD-50) Parks and Recreation, Department of --San Diego This project consists of the widening of Carmel Valley Road on its south side from Portifino Drive to Via Mar Valle. The City of San Diego is the lead agency on this project. The widening will encroach on State Park property and will include new asphalt roadway to accommodate a bike lane and parking, curb and gutter, a 4' wide decomposed granite path, a split rail type barrier to separate the path from the wetlands area, and new fill embankment. The project will also construct new drainage units fitted with water quality devices. The unit's concrete cellular mat (erosion control), and in some instances the concrete headwall will outfall on State Property. All improvements and construction related impacts are to remain outside of defined wetland areas. An approved EIR (LDR#98-0718) dated March 27, 2001 and a Coastal Development Permit have been completed and maintained by the City. Approvals from pertinent agencies have been obtained by the City.	<b>NOE</b>	
2006098116	West Canal Levee Maintenance Fish & Game #2 Byron--Contra Costa Issuance of a Streambed Alteration Agreement 1600-2006-0002-0000-BD for the fill and stabilization of eroded bank along West Canal. This project will complete work started in 2005 under a previous 1600 Agreement, which permitted the repair of 15 sites along 450 linear feet of bank damaged by 2003 winter storms causing rip-rap and soil erosion along the western levee of West Canal.	<b>NOE</b>	
2006098117	Mill Creek Lahontan Cutthroat Trout Habitat Enhancement Project Regional Water Quality Control Board, Region 6 (Lahontan), South Lake Tahoe --Mono Improve Lahontan Cutthroat Trout habitat in By Day Creek by improving a road crossing and upgrading a fish barrier.	<b>NOE</b>	
2006098118	By Day Creek Habitat Enhancement and Road-Stream Crossing Improvement Regional Water Quality Control Board, Region 6 (Lahontan), South Lake Tahoe --Mono Improve Lahontan Cutthroat Trout habitat in By Day Creek by improving a road crossing and upgrading 2 fish barriers.	<b>NOE</b>	
2006098119	Crosswhite Pier Addition Regional Water Quality Control Board, Region 6 (Lahontan), South Lake Tahoe --Placer Remove 6 existing pier pilings, relocate 4 existing pier pilings, widen the pierhead, and add a 3' adjustable catwalk and 6,000-lb boatlift.	<b>NOE</b>	
2006098120	Wolf House & Gravesite Interpretive Panels Parks and Recreation, Department of --Sonoma Update exhibits at Wolf House and Jack London gravesite at Jack London State Historic Park. Replace existing faded Wolf House and gravesite pavel with same sized pressure laminate panels. Two new panels will be installed to the existing split rail fence at the head of the Hill Road access leading to the Wolf House and at the road junction to the gravesite. Two existing panels at the Wolf House will be replaced. Panels will be installed at locations that have a minimal impact on the historic landscape. Panels will be installed only at pre-selected locations identified by the district historian. Project supports visitor services.	<b>NOE</b>
