STATE CLEARINGHOUSE

NEWSLETTER

September 1-15, 2007

STATE CLEARINGHOUSE NEWSLETTER

The State Clearinghouse distributes draft environmental documents to state agencies for review and comment, pursuant to the California Environmental Quality Act (CEQA). The State Clearinghouse also acts as the State Single Point of Contact for the review of federal grant applications and federal development projects. This Newsletter summarizes the environmental documents and federal grant applications received by the Clearinghouse during the period **September 1-15, 2007.**

CLEARINGHOUSE CONTACTS

Please contact The State Clearinghouse if you have any questions regarding processing of environmental documents or grant applications. We may be reached at:

Telephone: (916) 445-0613
Fax: (916) 323-3018
e-mail: state.clearinghouse@opr.ca.gov
website: www.opr.ca.gov/clearinghouse/clearinghouse.shtml

Questions regarding federal grant notices should be directed to **Sheila Brown.**

Questions regarding processing of environmental documents should be directed to:

Scott Morgan
Senior Planner

CLEARINGHOUSE MAILING ADDRESS

Please do not use our street address (1400 Tenth Street, Room 212) for mailing purposes. The correct mailing address is:

STATE CLEARINGHOUSE
P.O. BOX 3044
SACRAMENTO, CA 95812-3044

INFORMATION AVAILABLE ON-LINE

The 2001 CEQA Guidelines are available from the Resources Agency's website at <http://ceres.ca.gov/ceqa/>.

The State Clearinghouse Handbook, which contains all of our environmental document and grant processing procedures and forms, is available on our website.

MEMORANDUM

DATE: February 13, 2007
TO: State Agency CEQA and Intergovernmental Review Coordinators
FROM: Scott Morgan, Senior Planner
SUBJECT: Distribution of Environmental Documents in CD-ROM Format

The State Clearinghouse has received an increasing number of requests from local and state lead agencies to distribute CEQA documents to state reviewing agencies in an electronic format, typically CD-ROM. The most common reason for these requests is to reduce cost. CD-ROMs are cheaper for the lead agency to reproduce and mail, and cheaper for the State Clearinghouse to distribute, especially in the case of multi-volume documents.

The State Clearinghouse has distributed EIR's and EIS's in CD-ROM format for state agency review and comment since August 1, 2003. Based on our experience with those documents, a survey conducted of state reviewing agencies and the potential cost savings to local and state agencies, we are extending this policy to other environmental documents including Negative Declarations, Mitigated Negative Declarations and Environmental Assessments. The State Clearinghouse will accept environmental documents under the following terms:

- CEQA Lead agencies may provide copies of draft environmental documents to the State Clearinghouse for state agency review in an electronic format. The document must be on a CD-ROM in a common file format such as Word or Acrobat.
- Lead agencies must provide fifteen (15) copies of the CD-ROM to the State Clearinghouse. In addition, each CD-ROM must be accompanied by 15 printed copies of the DEIR summary (as described in CEQA Guidelines §15123), executive summary, or introduction section of a Negative Declaration or Mitigated Negative Declaration. The printed summary allows both the State Clearinghouse and agency CEQA coordinators to distribute the documents quickly without the use of a computer.
- Final environmental documents may be provided in CD-ROM format without a printed summary. Distribution of the final documents is optional under CEQA.
- Federal lead agencies may send electronic copies of environmental documents to the State Clearinghouse in the same manner described for CEQA lead agencies. Distribution of NEPA documents to state agencies through the State Clearinghouse is encouraged pursuant to Presidential Executive Order 12372 and NEPA §102 (42 USC §4332)
- All notices of preparation must continue to be provided in printed format.
- Please provide one Notice of Completion Form with all submittals.

If your agency has difficulty downloading and reviewing any environmental documents please contact:

Scott Morgan, Senior Planner
916-445-0613
scott.morgan@opr.ca.gov .

Thank you for your cooperation in the CEQA review process.

**ENVIRONMENTAL DOCUMENT FILINGS WITH THE STATE CLEARINGHOUSE
1999 through 2006**

All CEQA documents filed with the State Clearinghouse are available for viewing on the Internet at <http://www.ceqanet.ca.gov/>

SCH Number	Title / Lead Agency / City--County / Description	Document Type	Ending Date
<u>Documents Received on Tuesday, September 04, 2007</u>			
2002091010	Rancho Los Robles Monterey County Watsonville--Monterey Subdivision for two parcels of 16.96 and 16.62 acres into 101 units: 97 single family residential parcels with lot sizes from 4,050 square feet to 19,742 square feet, commercial development of 17,000 square feet, and four townhouses.	EIR	10/29/2007
2005061013	State Lease PRC 421 Recommissioning Project California State Lands Commission Goleta--Santa Barbara The PRC 421 oil wells occupy State tide and submerged lands under the jurisdiction of the California State Lands Commission (CSLC). Venoco is a privately held, independent oil and gas company that has filed an application with the CSLC to return oil and gas lease PRC 421 to oil production.	EIR	11/02/2007
2006081080	Valley Region Monroe Span K-8 Addition Los Angeles Unified School District --Los Angeles The proposed project entails the construction and operation of middle school facilities on the existing Rosa Parks Learning Center, formerly the New Monroe Elementary School No. 2. The proposed project also involves conversion of the existing facilities to accommodate the proposed project and existing elementary school program needs.	FIN	
2006102063	Mercer Fraser Company Cooks Valley Bar Conditional Use/Surface Mining Permits and Reclamation Plan Humboldt County Community Development Services --Humboldt A Conditional Use Permit/Surface Permit and approval of a Reclamation Plan for the continued annual extraction from the South Fork Eel River gravel. Gravel extraction was previously permitted under CUP-21-88. The current project proposes an annual extraction of up to 20,000 cubic yards of river run gravel, and includes the existing processing facility which involves material crushing and/or sorting; onsite storage of material; loading activities; weight and hauling by truck and equipment repairs. Materials from outside sources, including gravel, quarry rock, road and landslide debris and other clean fill materials, are brought to the site for stockpiling, processing and sale as recycled aggregate or backfill materials. The existing hot-mix asphalt plant has been operational since the start of the Mercer Fraser operations in 1969, and is not part of this application. The existing asphalt plant activities are part of an existing environment, and set an existing environmental baseline. The current project does not propose to alter or expand the existing use of the asphalt plant.	MND	10/03/2007
2007091006	State Route 216/Houston Avenue 4-Lane Widening Caltrans #6 Visalia--Tulare The California Department of Transportation (Caltrans) proposes to widen State Route 216 from Lovers Lane in the City of Visalia to Road 152 in Tulare County (post miles 1.9 to 3.7). The proposed project would convert the existing highway from a two-lane to a four-lane conventional highway with a median strip within the Visalia city limits, then transition to a two-lane conventional highway with standard shoulders from just east of the city limit near post mile 2.99 to Road 152 in Tulare	MND	10/03/2007

	County. The intersection at Road 152 would be realigned, while intersections at Lovers Lane and McAuliff Road would be upgraded with additional left-turn lanes.		
2007092002	Turner Final Map Subdivision Humboldt County Community Development Services --Humboldt A Final Map Subdivision of an approx. 59,270 sq. ft. parcel into 8 residential lots ranging in size from 5,937 sq. ft. to 12,800 sq. ft. The parcels will be served both by Underwood Road and by an interior roadway off of Underwood Road. The existing residence will remain on proposed Parcel 1. An exception request to allow a reduced right of way width to serve lots 5, 6, 7, and 8 is also part of this project. All parcels will be served by McKinleyville Community Services District.	MND	10/03/2007
2007092003	Mahony Final Map Subdivision Humboldt County Community Development Services --Humboldt A Zone Reclassification from Agriculture Exclusive (AE) to Agricultural General with a Special Building Site Combining Zone specifying a 60 acre minimum (AG-B-5(60)) or other zone consistent with the General Plan. The rezone will facilitate the Final Map Subdivision to subdivide 492 acres into five lots ranging in size from 75 to 120 acres. The project includes a Merger/ Lot Line Adjustment to result in Parcel A of approx. 203 acres and Parcel B of 492 acres that is proposed for subdivision. The merger/ LLA will correct a conveyance in violation of subdivision regulations. The lands zoned TPZ are unaffected by the LLA. The lands are undeveloped, and resultant parcels will be served by on-site water and sewage disposal systems and accessed via Lauffer and Island Mountain Roads. The project requires exception to lot frontage requirements, exception to road category requirements from the California Department of Forestry and Fire Protection, and exemption to solar access standards.	MND	10/03/2007
2007092006	Trinidad Pier Reconstruction Trinidad, City of Trinidad--Humboldt A proposal by the Trinidad Rancheria to reconstruct the Trinidad Pier adjacent to the City of Trinidad in Humboldt County. The 540 foot (165 meter) long pier is located on tidelines granted by the State of California to the City of Trinidad and leased by the Trinidad Rancheria.	MND	10/03/2007
2007091007	941 Camino Del Mar Del Mar, City of Del Mar--San Diego The proposed project includes the development of approximately 20,000 square feet of gross floor area of small commercial condominium spaces for office, restaurant and retail use. The proposed project would consist of an open campus of six two-story buildings arranged in three rows parallel to Camino del Mar and organized around three public plazas - one at the corner of Camino del Mar and 10th Street, a second central plaza, and a third viewing plaza on the second level. The front row/street-level commercial spaces along Camino del Mar and bordering the corner public plaza would be reserved for retail and restaurant uses to ensure an active pedestrian-oriented streetscape. The three rows of buildings would buffer the residential neighborhoods from the street level noise and activity along Camino del Mar. With the exception of a small two-story former residence that contains a hair salon in the northeast corner of the site, the project site is vacant.	NOP	10/03/2007

2007091008	Bradley Ranch East Project Santa Maria, City of --Santa Barbara A predominately residential master planned new community, 2,300 acres, with up to 9,500 dwelling units, up to 356 gross acres of commercial uses, 83 gross acres of industrial uses, and up to 8 new schools (6 elementary, one junior high and one senior high).	NOP	10/03/2007
2007092001	Extension of Limited Urban Services to the Towns of Franklin and Freeport Sacramento County Sacramento, Elk Grove--Sacramento A General Plan Amendment to the Land Use Element of the 1993 General Plan to allow the extension of limited urban services to the towns of Franklin and Freeport.	NOP	10/03/2007
2007092004	Cullinan Ranch Restoration Project Fish & Game #3 --Solano, Napa The proposed project would involve protection or enhancement of the levee supporting the Highway 37 roadway and other levees in anticipation of the reintroduction of tidal influence to the project site, including construction of breaches in the levee that separates the project site from adjacent sloughs.	NOP	10/03/2007
2007092005	39th and Adeline Mixed-Use Project Emeryville, City of Emeryville, Oakland--Alameda Implementation of the proposed project would result in the demolition of the existing structure on the project site and development of four three-story + mezzanine buildings. In total, the buildings would contain 101 residential units (including studios, one-bedroom units, two-bedroom units, three-bedroom units, and live/work and work/live spaces), 1,000 square feet of retail space located at the corner of Adeline Street and 39th Street, and 119 parking spaces (including 114 parking spaces for residential uses and five guest parking spaces). All parking would be located below grade. In addition, the project would also include a multi-purpose room and landscaped courtyard.	NOP	10/03/2007
2007091001	Regency Centers Project Highland, City of Highland--San Bernardino The proposed project includes the development of approximately 93,425 square feet of commercial space and 474 space surface parking lot. Project includes dedication of public right-of-way and street improvements along Greenspot Road; new curb cuts and improved driveway access along Greenspot Road; contribution to intersection improvements at the primary shared entrance driveway with the proposed land use to the west; and utility, water, and waste water lateral connections between the Project and the mainline facilities located in Greenspot Road.	Neg	10/03/2007
2007091002	06-MAD-CR-Madera County, Road 28 Bridge Replacement at Cottonwood Creek Madera County Madera, Fresno--Madera The County of Madera and the California Department of Transportation (Caltrans) proposes to replace an existing 1914 bridge on County Road 28 in Madera County to provide greater structural integrity and to meet current safety standards. The bridge is located approx. 4 miles south of the City of Madera, where Road 28 crosses Cottonwood Creek.	Neg	10/03/2007

	proposes to replace much of the existing, impermeable surfacing of the property (including concrete and related hardscape) with new, permeable surfaces such as additional landscaping. The project proposes 120 onsite parking spaces as well as to provide valet service. The project will utilize an alternative onsite wastewater treatment system (AOWTS) providing primary, secondary, and tertiary treatment. A conditional use permit (CUP) is required in order to permit restaurant facilities, as well as for the sale and serving of alcohol in the CG zoning district.		
2007051069	Surface Removal Action at Mission Trails Regional Park, Former Camp Elliott, San Diego, California Toxic Substances Control, Department of Santee--San Diego The project will be taken place in Camp Elliott, a formerly used defense site program. The proposed surface removal action includes a magnetometer-assisted surface clearance of the areas; mark and determine known and suspected MEC for investigations; and disposal of all marked UXO/MEC. In-place detonations of MEC and limited vegetation trimming may occur.	NOD	
2007062090	Freshwater County Park Environmental, Recreational, and Educational Improvement Project Humboldt County Eureka--Humboldt The proposed project consists of various improvements to environmental, recreational, and educational aspects of Freshwater County Park. The County of Humboldt has proposed this project to expand and enhance high-quality, outdoor recreational opportunities for the public, especially families and visitors with disabilities, while simultaneously providing increased environmental protection and awareness.	NOD	
2007062126	Antelope Fuel Break (8CA05684 and 8CA05684.A1) Forestry and Fire Protection, Department of --Amador Develop a shaded fuel break to influence fire behavior allowing for fire crews a better chance of stopping the fire which will reduce the damage to watersheds and water quality. Vegetation in the form of brush and small trees less than eight inches in diameter at breast height will be removed by manual thinning and pruning and mechanical mastication methods. Total treated area is approximately 147 acres.	NOD	
2007071163	San Luis Creek Bypass Silt Removal (ER 90-07) San Luis Obispo, City of San Luis Obispo--San Luis Obispo In 1978 the City constructed a high flow bypass channel for San Luis Obispo Creek near Los Osos Valley Road. This bypass channel allows larger flows (flows greater than a 10-year event) with an alternate path of travel than the natural stream channel. Since 1978 little maintenance has been performed on the bypass channel and the channel now has large deposits of silt and excess vegetation which do not allow the channel to perform as designed. The project will remove approximately 3,500 cubic yards of sediment and thin existing vegetation. The project area is approximately 400 feet by 70 feet (0.65 acres). The anticipated depth of silt to be removed is 3.5 feet. During the excavation, islands of vegetation will remain and after the excavation is complete the disturbed area will be seed cast in order to expedite vegetation growth. The removed silt will be trucked out of the project area outside of the flood plain. In order to remove the material, the	NOD

2007098011	<p>MEU Unit Headquarters - Water Delivery System Replacement Forestry and Fire Protection, Department of Willits--Mendocino</p> <p>Replacement of the water delivery system for CAL FIRE's Mendocino Unit (MEU) Headquarters, a compound also known as Howard Forest, to provide clean, safe drinking water to personnel and to provide water for fire suppression. This project includes installing new water distribution lines, a booster pump, backflow prevention, a new 64,000-gallon storage tank, new fire hydrants, and one or possibly two generators as emergency power backup. The new main waterline will primarily follow the existing asphalted roadways and the secondary lines will be connected to existing building service lines. Pre-existing buried transite pipes and storage tanks not in use as part of this replacement delivery system will be abandoned in place.</p>	NOE	
2007098012	<p>Burney Forest Fire Station - Fuel Vault Installations Forestry and Fire Protection, Department of --Shasta</p> <p>Project is located on an approximate 4-acre parcel of state land which currently operates as a California Department of Forestry and Fire Protection (CAL FIRE) Forest Fire Station. The project will consist of pouring an 8 x 30 foot concrete pad on an area that is currently landscaped lawn. Two above-ground, 1,000-gallon fuel vaults will be set on concrete pad. These tanks will be relocated to this station from their current position at the Weaverville Forest Fire Station.</p>	NOE	
2007098013	<p>Culvert and Gabion Wall Repair Parks and Recreation, Department of --Sonoma</p> <p>Repair the culvert and gabion wall retaining system at Sugarloaf Ridge State Park to reduce erosion and maintain the integrity of the gabion wall, which supports the steep east slope and the Park entrance road. Work will improve the drainage pattern on the Pony Gate Trail to divert runoff; replace the existing 24" culvert with 36" corrugated steel culvert and protect inlet and outlet with rip rap and concrete headwall, 5' x 4' trench on Park Entrance road will be backfilled and repaved; install invert I-beam protection on arched culvert at Ponygate Gulch by encasing I-beams in concrete, remove one Alder tree; replace missing gabion rock with light rock throughout the stream section protected by gabions and grout in-place with concrete, rock will be placed to encourage cascading flow conditions to dissipate energy; extend concrete 6' up the gabion wall with Shotcrete ® to increase and protect wall stability.</p>	NOE	
2007098014	<p>Removal Action Workplan, Lambert Road Property, Fairfield-Suisun Unified School District Toxic Substances Control, Department of Fairfield, Unincorporated--Solano</p> <p>This project involves DTSC's approval of a Removal Action Workplan (RAW) which will be carried out at the Lamber Road Property site for the excavation and off-site disposal of approximately 17,667 cubic yards of soils contaminated with arsenic, lead and the organochlorine pesticide dieldrin. Maximum detected levels of these contaminants were found to be 110 parts per million (ppm), 300 ppm, and 0.12 ppm, respectively.</p>	NOE

2007098015	<p>Temporary Emergency Permit to Store and Treat Hazardous Waste, Ampac Fine Chemicals LLC Toxic Substances Control, Department of Rancho Cordova--Sacramento</p> <p>A temporary emergency Hazardous Waste Storage and Treatment Permit has been granted to Ampac Fine Chemicals LLC (AFC) to treat 350 gallons of an intermediate product from the manufacture of a pharmaceutical. The hazardous waste was generated due to an error during the production process.</p> <p>The hazardous waste contains a component that has the potential to form shock sensitive compounds, and as such, cannot be transported to a hazardous waste disposal site. Treatment will consist of deactivating the hazardous compound on-site, using the standard manufacturing process. AFC has also been granted an emergency permit for storage of this waste, in the event that treatment and disposal is not completed within the allowed 90-day accumulation time limit for storage of hazardous waste.</p> <p>The activity will take place at AFC, which is located within the property of Aerojet-General Corporation (Aerojet), approximately 20 miles east of Sacramento. Treatment will be carried out inside the production facility by experienced AFC personnel. Transfer of the deactivated hazardous waste will be by a registered hazardous waste transporter.</p>	NOE	
2007098016	<p>Temporary Emergency Permit to Burn Unstable High Explosives at the Mojave Airport, Kern County Toxic Substances Control, Department of Mojave--Kern</p> <p>A temporary emergency Hazardous Waste Treatment Permit has been granted to Alpha Explosives to treat 74 boxes of commercial 1.1D high explosive, totaling approximately 4,000 pounds, by open burn. The hazardous waste is from a fire and explosion at the Mojave Airport on June 3, 2007, which caused explosives to be expelled from Alpha Explosives' explosive storage area.</p> <p>The explosives have been damaged so that they cannot be safely used or stored. Because the Department of Transportation packaging has been compromised, they cannot be moved on public roads, so they must be treated on site. The permit is effective from August 9 to August 17, 2007. The burn will take place as weather conditions permit.</p> <p>The activity will take place at a rocket engine test site, which is located at a remote section of the Mojave Airport, approximately one-half mile from the explosive storage area. Treatment will be carried out by Alpha Explosives personnel, under a permit issued by the Kern County Fire Department for Burning of Scrap Explosives. The rocket engine test site is a concrete pad covered by a sheet steel plate and surrounded by earthen berms. The test site has steel trays to contain the waste. The burn will be initiated with approximately 25 gallons of kerosene. Access roads to the test site area will be barricaded during the burn. The burn will be monitored by remote video. Once activities have been completed, the treatment area will be cleared of all residential hazardous waste generated from this emergency treatment and all generated waste will be properly disposed of.</p>	NOE

The project would also replace three existing corrugated steel pipes and add flared-end sections at post mile 0.4, 0.5, and 0.7. Between post miles 0.8 and 0.9, new right of way would be purchased and the existing slope would be cut further back forming a 2:1 slope. In the same location, an asphalt concrete dike and overside drain would be installed and rock slope protection would be placed on the downstream side. Rumble strips would be added to the highway to designate the highway shoulder.</p>	NOD

	overcrossing. All remaining existing ramps would be reconstructed to accommodate these two new loop ramps.		
2007091021	Conditional Use Permit #07-0019 Hudson Ranch Power I, LLC Imperial County Planning Department Calipatria--Imperial The original location of the Hudson Ranch power plant was north of McDonald Road and east of Davis Road. The relocation of the flash power plant is due to an inability to come to terms with the surface landowner. The production/injection well brine pipelines will be plumbed to the new plant site by undergrounding the pipelines below McDonald Road and the IID canal/drainage system.	MND	10/05/2007
	There are no significant changes to the proposed geothermal brine processing facilities, the turbine-generator facility and/or the construction of a 92-kV transmission line along McDonald Road to the existing Imperial Irrigation District electrical grid system. An asphalt-paved access road from McDonald Road into the plant site will be constructed with the parking lot and all internal plant roads also going to be asphalt-paved with water to be supplied from the IID system.		
2007091026	Requa Avenue Interceptor Project Valley Sanitary District Indio--Riverside 4.25 miles of proposed gravity sewer pipeline that will collect and convey sanitary sewer flows through central Indio to the existing Wastewater Treatment Plant operated by Valley Sanitary District. In addition, the City of Indio is preparing a joint venture on this project with Valley Sanitary District to do roadway reconstruction and or repairs within the public rights-of-way disturbed during pipeline installation. As part of this capital improvement project, the City also proposes to install water lines within the existing rights-of-way of all roadways included in the sewer line installation. The proposed pipeline route includes several roadway segments and proposed alternative routes.	MND	10/05/2007
2007092015	A07-0007, 2007-0016, PD07-0012, TM07-1441 / Shinn Ranch El Dorado County Placerville--El Dorado General Plan Amendment, modification to the existing Community Region boundary line that bisects the project site to the south to be co-terminus with Shinn Ranch Road, rezone parcels, planned development and vesting tentative subdivision map, and design waiver.	MND	10/05/2007
2007092016	Hedge Training Facility Building Expansion and Fire Access Road Project Sacramento Municipal Utility District --Sacramento Upgrade and expand the Hedge Training Facility. The proposed project would include updating and expanding the existing training building (metal building with training room and tool storage) and constructing a new fire access road adjacent to the training facility property. The existing metal building would be expanded to include 2,284 square feet of new indoor class space and 1,812 square feet of outdoor training space, and additional 6,250 square feet would also be added that includes classrooms, an office area, new restrooms, and exercise room. A 600-foot long paved emergency fire access road would be constructed west of and adjacent to the existing Hedge Training Facility yard chain-link fence, to provide access separate from through the training facility yard. 	Street/Airport Boulevard intersection south to Avenue 86. The connection will result in the elimination of the smaller hydropneumatic Thermal Airport Water Pressure Zone and allow CVWD to provide more reliable domestic water service from the Middleton Road Water Pressure Zone. The water transmission pipeline terminus at the Coachella Canal will provide a connection point for a potential surface water treatment facility and/or a reservoir in the future.		
2007071139	EA No. 07-029, Modifying CUP C-0/3-47 Mitigation Measures Fresno, City of Fresno--Fresno The Orange Avenue Landfill reached capacity and ceased operations on June 26, 2007. Landfill closure activities are required to be implemented pursuant to Solid Waste Facility permitting requirements. The detailed Final Closure and Post Closure Maintenance Plan for Orange Avenue Landfill ("Final Closure Plan") is subject to approval of the California Integrated Waste Management Board (with Fresno County Environmental Health acting as Lead Enforcement Agency); the California Environmental Protection Agency Central Valley Regional Water Quality Control Board; and the San Joaquin Valley Unified Air Pollution Control District. Due to changes in regulations over the intervening years, it was necessary to update the terminology in mitigation measures originally certified for the EIR for CUP No. 93-47.	NOD

2007031128	Henry J. Kaiser High School Stadium Fontana Unified School District Fontana--San Bernardino The Fontana Unified School District, as the Lead Agency, proposes the construction of a new 4,108-seat athletic stadium onsite at Henry J. Kaiser High School. The stadium would be constructed along the south side of the campus in an area presently developed with the school's football field and athletic track. The project would include the construction and installation of home and visiting team bleachers, elevated field lighting, a public address/sound system, scoreboard, and two concession stand/restroom facilities.	FIN	
2007052080	Parcel Map 06-048 Shasta County --Shasta The request is for a land division resulting in four parcels ranging in size from 10.3 acres to 14.3 acres. The total acreage on the site is 47.71 acres. All parcels will share access to State Route 44 through a common easement.	MND	10/09/2007
2007091027	TM 34345 Riverside, City of Riverside--Riverside The applicant is proposing to subdivide approximately 20 vacant acres into 8 single family residential lots. The residential lots will range from 21,947 square feet to 42,019 square feet in size. Approximately 13.25 acres will be dedicated as open space. Access to the site will be provided through a public cul-de-sac street, accessible from Celeste Drive and Massachusetts Avenue. The property has an average natural slope of 25%. However, the average natural slopes of the areas to be graded will range from 7.16% to 9.91%. A trail will be provided through the open space area, beginning at Rena Way and ending at Valencia Hill Drive. The proposed map complies with all Zoning Code requirements of the RC - Residential Conservation Zone and Grading Code. No variances or grading exceptions are necessary.	MND	10/09/2007
2007091029	Orange Avenue Reinforced Culvert Crossing Perris, City of Perris--Riverside The proposed culvert crossing of the Perris Valley Drainage Channel at Orange Avenue will be a 11-barrel, 14 feet wide by 7 feet high, reinforced concrete box culvert with a total length of 162 feet and 56 feet in width. The culvert crossing is designed for the 10-year storm event. The project requires roadway improvements along Orange Avenue from Murrieta Road to Evans Road (2,800 linear feet).	MND	10/09/2007
2007091031	Corporate Aviation Center at the San Bernardino International Airport San Bernardino International Airport Authority San Bernardino--San Bernardino The proposed project involves the construction of new hangar buildings, support facilities, and related infrastructure. When constructed, these facilities will provide the services to support corporate and general aviation activities and needs in the San Bernardino area. These new corporate and general aviation uses would be housed in approximately 403,835 square feet of new hangar and support buildings. Exclusive or specific dedicated uses represent approximately 346,000 square feet of space including over 200,000 square feet for governmental law enforcement, and almost 440,000 square feet for private flight training facilities,	MND	10/09/2007

2007091036	Chromium 6 Demonstration Sites Glendale, City of Glendale, Los Angeles, City of--Los Angeles The proposed project includes the construction of two different viable chromium 6 demonstration water treatment facilities using two different technologies. The sites for these facilities will be at the existing Well Site GS-3 in the City of Los Angeles on Goodwin Street near San Fernando Road, and the other in the Glendale Water and Power Field Operations Center adjacent to the existing Glendale Water Treatment Plant (GWTP) on Flower Street. Well Site GS-3 and the Glendale Water Treatment Plant (GWTP) are part of a U.S. Environmental Protection Agency (EPA) federal Superfund project and the chromium 6 demonstration facilities would be added to the existing water facilities at these sites.	MND	10/09/2007
2007091037	Schmidt Property Sand Mine CUP and Reclamation Plan Merced County Unincorporated--Merced The project consists of a phased mining program that would excavate onsite alluvial (sand) materials and transport them to various offsite locations. The project would include three mining phases with each phase mined sequentially to facilitate reclamation. No processing of materials would occur onsite as part of the project. The applicant expects that total production would be 1.5 million cubic yards or 2.25 million tons (one cubic yard equals 1.5 tons) of material over approx. 10 years. This rate of extraction would result in a maximum annual production of up to 225,000 tons annually. Final reclamation of the project site is expected to be completed approx. two years following the completion of the last mining phase and is estimated for the end of 2019.	MND	10/09/2007
2007091066	Telemedicine and PRIME-HEq Education Facility University of California, San Diego La Jolla--San Diego The Telemedicine and Program in Medical Education: Health Equity (PRIME-HEq) Education Facility project would be built on an approx. 2 acre site on the south central portion of the UCSD West Campus. The proposed project consists of construction of a new 82,350 gross sq. ft. (gsf) building that would provide a large auditorium; a new Club Med food service facility to replace the existing Club Med that would be demolished as part of this project; large and medium group teaching rooms; offices and general administration areas; telemedicine assembly and large meeting/ conference rooms; plaza/ courtyards areas; computing centers; and simulation centers/ skills laboratories. The proposed project is designed as a three story above grade building with a below ground basement.	MND	10/09/2007

	residential uses and limited to farming activities.		
2007092019	Kerry Ranch I, II & III Santa Rosa, City of Santa Rosa--Sonoma To rezone and subdivide 14.64 acres into 95 single family homes with 42 second unit dwellings within three separate Tentative Map applications.	MND	10/09/2007
2007092020	Parcel Map 06-063, Metcalf Shasta County --Shasta The request is for approval of a two parcel land division resulting in one 43 acre parcel and one 37 acre parcel. Proposed Parcel A is developed with a single family residence. The project would allow for the construction of a single family residence on proposed Parcel B.	MND	10/09/2007
2007092021	Zone Amendment 07-012, Parcel Map 07-016 (Hartgraves) Shasta County --Shasta The proposed project is a Zone Amendment to change the existing Limited Agriculture, combined with Mobile Home and minimum building site area of 10 acres (A-1-T-BA-10) zone districts to Limited Agriculture, combined with Mobile Home (A-1-T) zone district on 56 acres. The Zone Amendment is requested in conjunction with a Parcel Map consisting of three 5-acre parcels, one 20.5-acre parcel, and a 20.5-acre remainder parcel.	MND	10/09/2007
2007092022	Parcel Map 07-024- Harris Shasta County --Shasta The request is for a two parcel land division. Improvements would be limited to four foot shoulder for Gas Point Road to be constructed along the project frontage.	MND	10/09/2007
2007092024	Klein Foods, Inc; Cooley Ranch Water Rights Applications 31304, 31362, and 31636 State Water Resources Control Board, Division of Water Rights Cloverdale--Sonoma The project is approval of Water Rights Applications 31304, 31362, and 31363, which involves diversion and use of 226 acre feet of water per year for the purposes of irrigation and recreation. Major project features include development of four onstream reservoirs, one offstream reservoir, six offset wells, and 280 acres of vineyard. The project will also include construction of access roads, pipelines, culverts, and development of other agricultural appurtenances. Additional detail is provided in the Initial Study for this project.	MND	10/09/2007
2007092026	Hernandez Minor Subdivision Sonoma County Petaluma--Sonoma The project involves the subdivision of 7.75 acres into three lots including a 5.75 acre parcel and two one acre parcels. Two of the three existing homes on proposed lot one would be converted to storage to accommodate two new homes on lots two and three. Rezoning of lot one to the B7, frozen lot size, will be required to be initiated prior to recordation of the Final Map.	MND	10/18/2007

2007092017	Idaho-Maryland Mine Project Grass Valley, City of Grass Valley--Nevada To reopen the Idaho-Maryland Mine and process gold and ceramic products.	NOP	10/09/2007
2007092025	Fieldcrest Villages Project Fairfield, City of Fairfield--Solano The project applicant proposes to develop 394 single-family homes within two villages on the project site. In 1994, the proposed development of 394 units had a previously approved Tentative Subdivision Map and Development Agreement supported by a Mitigated Negative Declaration. For the project under review, extensive grading is required due to past landslide activity. After grading, approximately 44 percent of the site would be developed and 56 percent would be maintained as open space. Approximately 92 acres, which would be graded and considered part of the project for this EIR, would be maintained by the project applicant after development of the project and would not be considered part of the Fieldcrest Villages development. Vehicular ingress to and egress from the project site would be provided via the existing roadways of Redtop Road/Oakbrook Drive to the north and Gold Hill Road/Lopes Road to the east. A new roadway is proposed to be constructed along the project site's eastern boundary that would be parallel to and west of Oakbrook Drive. A second point of access for emergency purposes only would be provided through an access road that originates on Oakbrook Circle.	NOP

	existing DWP wells could be turned off more frequently, thereby reducing localized water table drawdown associated with pumping. The proposed production well would also serve to replace production lost because existing wells have been removed from production for maintenance, water quality or other reasons. The DWP evaluated geologic literature, the mapping of sedimentary materials in Bear Valley and the results of recently conducted test wells. The proposed project is the drilling of a new production well just west of Big Bear Boulevard located on the south side of Bear Valley. The proposed project site is located on a DWP owned property already developed with other well facilities. The property is a strip of land located between existing commercial developments and bounded on the northwest by Big Bear Boulevard and on the south by Fox Farm Road.		
2007091033	LTRID Tule River Intertie Project Lower Tule River Irrigation District Porterville--Tulare The project is composed of three connected pieces: (1) the Tule River Diversion Rehabilitation, (2) the Wood Central Ditch Modification, and (3) the construction of the Intertie Canal for improved delivery and increase recharging operations.	Neg	10/09/2007
2007092023	880 Toyota Dealership Oakland, Port of Oakland--Alameda The building design would consist of a long narrow building that mimics the shape of the project site. The largest portion of the building (western portion), would be two stories, while the eastern section of the building, near Interstate 880, would be five stories. The building would include a showroom, retail sales offices, and space for vehicle parts sales and vehicle servicing on the first floor, which would have a footprint of approx. 91,340 sq. ft. The showroom would provide parking for approx. six vehicles to be displayed. The second floor would be used for office (16,369 sq. ft.) and parts (9,876 sq. ft), totaling approx. 27,648 sq. ft. The third floor, at approx. 84,170 sq. ft., would be used for vehicle storage. The fourth and fifth floors would be used for vehicle display along the I-880 frontage, and would be approx. 8,200 sq. ft. each.	Neg	10/09/2007
1999031048	Talega Specific Plan Amendment (SPA 98-05) San Clemente, City of San Clemente--Orange The CDFG is issuing an Agreement regarding the Stream Alteration to the project applicant, Ms. Sonia Nasser, representing the County of Orange. The applicant proposes to alter the streambed of the Talega Business Park Detention Basin #5, unnamed tributary to Segunda Deshecha, Orange County to accommodate the Talega Sedimentation Basin Maintenance Project. Project activities include (1) grading deposits within the basin to maintain functionality when alluvial deposits at the inlet structures create zones of ponded water, and (2) removing surface sediments when sediment accumulation is greater than 18 inches or 10 percent of the basin volume, whichever is less. 2007098060	#038 - Remove Mat & Abate Adhesive - JOC 05-012.056.01 California State University Trustees --San Luis Obispo The project consists of removing the mat from play area at building #038U, abate adhesive under mat, remove green non-skid paint from concrete flooring, and scrape loose and flaky paint from platform wall. Materials have been confirmed to contain either lead or asbestos and are to be removed by a CAL OSHA certified abatement contractor. This is not a hazardous waste site and all clean up will be done pursuant to all applicable safety procedures for clean up, handling and disposal.	NOE	
2007098061	#047 - CLA Dean's Office Expansion JOC 05-012.057.00 California State University Trustees --San Luis Obispo The project consists of an office expansion in an existing building on campus.	NOE	
2007098062	#047 - Dean's Office Expansion - JOC 05-012.057.01 California State University Trustees --San Luis Obispo The project consists of interior improvements to the building expansion.	NOE	
2007098063	#047 - Dean's Office Expansion - JOC 05-012.057.02 California State University Trustees --San Luis Obispo The project consists of an interior remodel of Building #047.	NOE	
2007098064	Replace Mott Pool - JOC 05-012.058.00 California State University Trustees --San Luis Obispo The project consists of renovating the existing pool on campus. The finish coat of plaster and tile on the pool wall and deck contain asbestos and lead respectively and must be removed by a CAL OSHA certified abatement contractor. This is not a hazardous waste site and all clean up will be done pursuant to all applicable safety procedures for clean up, handling and disposal.	NOE	
2007098065	#021 Move Lab Equipment at Engineering West - JOC 05-012.062.00 California State University Trustees --San Luis Obispo The project consists of moving heavy equipment within the Engineering West Building.	NOE	
2007098066	A.N.C. - Install Security Fence - JOC 05-012.064.00 California State University Trustees --San Luis Obispo The project consists of installing security fencing at the Animal Nutrition Center.	NOE	
2007098067	Napa Valley Reserve PD Removal and Bank Stabilization Fish & Game #3 Napa--Napa The project will involve riparian restoration and Pierce's Disease management on the east bank of the Napa River. A short section of land, ~80 feet in length, was moderately damaged by erosion in the December 31, 2005 flood/storm event. Plans call for the bank to be treated with reinforced brush layering (vegetated geogrid) and willow barb bio-engineered practices. Additional areas in the river vicinity will be managed for control of Pierce's Disease and will be restored to native grasses, trees, and shrubs. The Dept. of Fish and Game is issuing a	NOE

	Streambed Alteration Agreement Number 1600-2007-0350-3 is pursuant to Fish and Game Code Section 1602.		
2007098068	Wimberly Bank Stabilization Fish & Game #3 Napa--Napa The project will involve stream bank restoration on Redwood Creek. The proposed project will repair and stabilize scour along the right bank of Redwood Creek caused by over-bank flow and scour, during hte December 31, 2005 flood event. The bank is ~6 feet high and is reasonably stable along most of its reach. The project involves construction of a maximum 30-foot long willow wall connecting the existing bank alignment adjacent to the hollow. The Dept. of Fish and Game is issuing a Streambed Alteration Agreement Number 1600-2007-0367-3 is pursuant to Fish and Game Code Section 1602.	NOE	
2007098069	Carpenter Bank Stabilization Fish & Game #3 St. Helena--Napa The proposed project will involve stream bank restoration on the Napa River at the Carpenter property north of St. Helena. The project will repair ~400 linear feet of bank erosion caused by the 05/06 New Years flood event. The project has been designed in coordination with the NRCS EQUIP program. The Dept. of Fish and Game is issuing a Streambed Alteration Agreement Number 1600-2007-0156-3 is pursuant to Fish and Game Code Section 1602.	NOE	
2007098070	Codornices Stream Restoration Fish & Game #3 Albany--Alameda The project operator proposes to do restoration of 450 feet of Codornices Creek. Issuance of a Streambed Alteration Agreement Number 1600-2006-0298-3 is pursuant to Fish and Game Code Section 1602.	NOE	
2007098071	Zone 4 Line A Fish & Game #3 Hayward--Alameda The project includes restoration of the design flood flow and protection of the bank from erosion. Issuance of a Streambed Alteration Agreement Number 1600-2007-0329-3 is pursuant to Fish and Game Code Section 1602.	NOE	
2007098072	PG&E Vaca-Dixon Substation 115k-v BAAH Reliability Project Regional Water Quality Control Board, Region 5 (Central Valley), Sacramento Dixon--Solano The project is to construct a new 115 kV breaker and a half (BAAH) bus configuration in the western portion of the existing substation to provide greater flexibility in switching circuits and improving reliability. The new extension will cover 2.75 acres. The western security fence will be extended 300 feet and three 115 kV steel towers, two 115 kV wood towers and two 12 kV poles will be relocated into the extension area. No increase in capacity is provided and all work will take place on existing PG&E property.	NOE	
2007098073	Quail Ridge Natural Reserve Wireless Infrastructure Project University of California, Davis --Napa Upgrade an existing wireless infrastructure project to improve the capabilities of researchers' ability to send data from remote sensors to the campus using radios. Improvements will include 4 new permanent towers and 6 portable towers.	NOE

	Pre-fabricated permanent aluminum towers will be 40, 30 (2 tower) and 20 ft. tall with a base require a 4 x 4 x 4 ft. excavation which will be back-filled with concrete.		
2007098074	8-inch Oso Creek Pipeline Repair Santa Margarita Water District Mission Viejo--Orange Proposed project actions involve the demolition and removal of the existing pipeline and replacement of similar size and material within a protective concrete encasement structure within Oso Creek. The new pipeline will be placed below the existing streambed grade consistent with the original installation. Water transmission rates would remain consistent with existing conditions. The project would not represent an increase in the transmission of water supply.	NOE	
2007098075	Safe Routes to School Improvements lone, City of lone--Amador The project is to construct curb, gutter and sidewalk along several streets in the City of lone. The curbs, gutters and sidewalks on Shakeley Lane, Sacramento Street, and Jackson Street will replace existing dirt paths and, in some locations, existing curbs and gutters. The sidewalk along the north bank of Sutter Creek will connect existing pedestrian sidewalk and bicycle routes with the nearly constructed Pedestrian/Bicycle bridge west of SR 104/124 crossing of Sutter Creek. No curb, gutter or other drainage facilities will be constructed in this specific location.	NOE	
2007098076	Streambed Alteration Agreement Concerning Nestor Creek, Tributary to Otay River Fish & Game #5 San Diego--San Diego CDFG is intending to execute a Lake and Streambed Alteration Agreement pursuant to Section 1602 of the Fish and Game Code (SAA #1600-2007-0202-R5) to the project applicant, City of San Diego, General Services Department, Storm Drains Section. The applicant proposes to alter the stream/lake to hand clear emergent wetland vegetation within a 1,000-foot segment of 30-foot-wide cinderblock and rip-rap sided channel. The cut vegetation will be disposed of at an appropriate green waste facility. Lateral branches of arroyo willow will be trimmed as needed to create two access paths to remove the cut vegetation from the site.	NOE	
2007098077	Transfer of Coverage to El Dorado County APN 33-651-08 (Walthers) Tahoe Conservancy --El Dorado Project consists of the sale and transfer of 450 sq. ft. of potential coverage rights from Conservancy-owned land to a receiving parcel on which a private residence will be constructed. The transfer enables the receiving landowner to carry out the project without any net increase in the amount of existing land coverage in the hydrologically-related area.	NOE	
2007098078	State Seismic Retrofit Program, Structural Retrofit of the Stockton National Guard Armory Military Department, California National Guard Stockton--San Joaquin The proposed project would seismically upgrade the Stockton National Guard Armory, from Risk Level V to Risk Level III. The proposed retrofit includes anchorage of the roof to the walls in the low roof area, addition of collector elements at the wall corners in the low roof area, and addition of collector-strut elements in the high roof area. These modifications would take place entirely within	NOE

the existing structure and will place the building in category III of seismic resistance, greatly improving survivability of the facility and the occupants in a severe earthquake event.

2007098079	Cichlid Removal and Saugus Wastewater Outflow Diversion Fish & Game #5 Santa Clarita--Los Angeles The Operator intends to alter the streambed by creating a temporary water diversion to gain access to the main channel for removal of the non-native cichlid (<i>Archocentrus nigrofasciatus</i>) species. The diversion channel will be constructed across the bike path, under the steel railing and out a short distance into the river bed. The temporary channel will be constructed of sandbags and heavy plastic sheets. Two parallel rows of sandbags, stacked at least two high, will be placed across the bike path and out into the river bed.	NOE

2006101105	Hoag Health Center Project Newport Beach, City of Newport Beach--Orange Newport Beach, Healthcare Center, LLC, is requesting the approval of an amendment to Use Permit No. 2006-010 to allow: (1) the conversion of the remaining 232,414 square feet of general office/R&D floor area, of the total 329,414 square feet of floor area currently permitted on-site, to medical office use within the M-1-A (Controlled Manufacturing) zoning district; and (2) the construction of an additional 20,586 square feet of medical office and ancillary medical uses on-site, for a total of 350,000 gross square feet of medical office floor area. The total new medical office floor area requested in the proposed Use Permit amendment is 253,000 square feet. The request is consistent with the City's General Plan that designates the 13.7 acre site for Medical Commercial Office (CO-M) land uses and establishes a precise development limitation of 350,000 sq. ft. of floor area. The land use designation is intended to provide primarily medical related uses. Additionally, approval of a traffic study is being requested pursuant to the City of Newport Beach Traffic Phasing Ordinance (TPO). A total of 1,985 parking spaces previously approved in Use Permit 2006-010 are provided to accommodate the development, including 427 surface parking spaces and 1,558 spaces in two parking structures. Total parking exceeds the minimum on-site parking requirement of 1,750 spaces prescribed by the City's parking code.	EIR	10/24/2007
2006112062	North Connector Project Solano Transportation Authority Fairfield--Solano The North Connector Project is intended to provide east-west transportation capacity north of I-80 for local traffic, which in turn will reduce congestion on I-80. Project consists of constructing a 4-lane roadway between Abernathy Road and Suisun Creek north of I-80 (East End) and extending Business Center Drive to the west as a 2-lane roadway to connect with SR 12 at Red Top Road (West End). Construction of the East End would also include construction of a multi-use path on the north side of the North Connector roadway and a bridge across Suisun	EIR	10/24/2007

2007051032	Sunrise Senior Assisted Living Project Westlake Village, City of Westlake Village--Los Angeles The proposed project would develop three contiguous parcels comprising 6.52 acres with a full-service senior-citizen independent and assisted living residential facility, including 170 independent living units and 40 assisted living units. Independent living units are proposed to be from 700 to 1,500 square feet in size, with one-and two-bedroom suites. Assisted-living units would range from 400 to 640 square feet in size, including studios and one-bedroom units. The facility would also include communal dining areas, a library, a living room with computer stations, a multi-purpose room for activities such as dances and seminars, a media room, exercise area, swimming pool, spa/massage therapy room, hair and nail salon, card room, arts and crafts room valet and a sundries store. Residents of this facility are anticipated to be in the 70 and above age group.	EIR	10/24/2007
2007052090	Riverwalk Villas Planned Development Lincoln, City of Lincoln--Placer The Proposed Project would develop 5.6 acres with 80 residential units, and designated the 3.2 acres adjacent to Auburn Ravine Open Space.	FIN	
2007071154	Chittenden Pass Realignment Caltrans #5 Watsonville--Santa Cruz The California Department of Transportation (Caltrans) proposes to realign State Route 129 in an area known as Chittenden Pass and Pajaro Gap in Santa Cruz County approximately eight miles east of the City of Watsonville. This project would remove a compound curve and replace it with one curve. This curve correction would require the existing retaining wall to be removed and replaced with a soldier pile retaining wall. The purpose of the project is to improve safety for the traveling public on this portion of Route 129. This project is needed because the current total accident rate of 7.87 accidents per million vehicle miles (ACCS/MVM) is nearly six times the statewide average of 1.34 ACCS/MVM for similar facilities.	FIN	
2006041005	Revised Central Area In-Situ Remediation Pilot Study Project Regional Water Quality Control Board, Region 6 (Lahontan), South Lake Tahoe --San Bernardino Pacific Gas and Electric Company proposes to revise the original project adopted in 2006. The changes include: (1) injecting ethanol, fluorescein, eosine, and well rehabilitation acids to groundwater; (2) increasing the project area to 1,800 ft. X 1,600 ft.; and (3) increasing well spacing.	MND	10/09/2007

2007091041	Site Plan PLN07-00101 Victorville, City of Victorville--San Bernardino To allow for the development of a 1,045,839 sq. ft. distribution warehouse and necessary infrastructure improvements located on 52 acres of disturbed land.	MND	10/09/2007
2007091043	Temblor Petroleum Co., LLC Fresno County San Joaquin, Unincorporated--Fresno Allow an exploratory gas well and related facilities for the drilling operations of natural gas and oil on a 70,000 sq. ft. portion of a 315.15 acre parcel of land in the AE-20 Zone District.	MND	10/09/2007
2007091046	Flyin' J. Ranch Fresno County Unincorporated--Fresno Allow a mobile home park for 24 factory built homes, a caretaker's residence, and recreational facilities for member use on a 109 acre portion of a 189.65 acre parcel in the RE (Recreational, two acre minimum parcel size) Zone District, and allow a private use airport on an existing airstrip located on the property.	MND	10/09/2007
2007092028	United Spiral Pipe LLC Manufacturing Plant Pittsburg, City of Pittsburg--Contra Costa Application by United Spiral Pipe LLC requesting use permit and design review approval to construct and operate a steel pipe manufacturing facility including one 45 foot tall, 340,000 sq. ft. manufacturing building, one 45 foot tall, 12,000 sq. ft. administration building, and related site improvements on a 44.8 acre site located at 900 East Third Street in the IG (General Industrial) District. The applicant is also requesting a variance to reduce the minimum parking requirement from one space per 1,000 sq. ft. to one space per 1,787 sq. ft.	MND	10/09/2007
2007092029	Kiernan Business Park South FMP/IFP and Mana/Wagner Vesting Tentative Parcel Maps (P-TPM-06-012 and P-TPM-07-007) Modesto, City of Modesto--Stanislaus The project includes development of a Facilities Master Plan/ Infrastructure Financing Plan for the entire project site, totaling just under 80 acres. Development of the project site is expected to occur in three phases. Two vesting tentative parcels have been filed for the first two phases and encompass the eastern 38.33 acres of the project site and propose to subdivide two existing parcels into 19 total parcels, ranging in size from 0.49 acres to 9.11 acres. No development plans have been submitted at this time. The remainder of the project site, identified as Phase 3, encompasses approx. 33.5 acres and no development plans or subdivision applications have been submitted at this time.	MND	10/09/2007
2007091038	Valley Center Road Widening Project Deletion of Noise Wall Mitigation San Diego County --San Diego The project proposes to eliminate one noise wall proposed as mitigation for future noise impacts associated with the Valley Center Road Widening Project at the request of the property owner who is opposed to construction of a noise wall on his property, resulting in a significant unmitigable impact related to noise (identified as significant and mitigable in previously certified EIR (2000)). 2007091045	Civic Center Vista, City of Vista--San Diego The project would entail the redevelopment and expansion of the City's Civic Center facilities (ex. City Hall Complex 50,000 sq. ft., expansion to 100,000 sq. ft.); and include three new civic center buildings, public street improvements, pedestrian and vehicular access, parking, landscaping, and associated site improvements.	Neg	10/09/2007
2004071046	Fontana Promenade Specific Plan Fontana, City of --San Bernardino The Fontana Promenade Specific Plan is a 125-acre Master Planned Mixed Use Community that focuses on creating a vibrant, "people oriented place" which combines a wide range of retail and office space uses as well as shops, restaurants, and entertainment facilities with a variety of residential product types and densities. "The Promenade" is located in the north-central part of Fontana west of the Walnut Village Specific Plan, and south of the Sierra Lakes Specific Plan, next to the Fontana Auto Center and the 210 Freeway. The "Ponte Promenade" Pedestrian Walkway within the Specific Plan area is a central, north/south curvilinear corridor that encourages residents and visitors to enjoy a village atmosphere with quaint shops, quality restaurants, movie theaters and other entertainment uses needed in Fontana. The focal point of the Fontana Promenade is a unique Traffic Circle, or "Round About" along Walnut Avenue that incorporates a pedestrian bridge and tower feature that bring together the southern and northern portions of the Specific Plan project area. It also conveys a sense of distinctiveness in this region of the Inland Empire. The community's theme focuses on a walkable Tuscan village with a protected and pleasant central Promenade that reflects a strong Mediterranean design influence.	Oth	
1996032045	Continental Plaza, Phase IV Sacramento, City of SACRAMENTO--SACRAMENTO The applicant is requesting a Development Agreement to vest development rights of Continental Plaza Phase IV consisting of a 810,000 gross square foot (gsf) office building, off-site parking, and a 4,300 gsf child care facility in the existing Phase I office building for an additional 10 years (2017). In addition to the Development Agreement the applicant is requesting to amend the Continental Plaza Development (PUD) Guidelines with respect to parking. The request is to modify the maximum parking ratio from 1:600 to 1:325 to be more competitive with suburban office development and to incorporate approximately 1.19 gross acres into the Continental Plaza PUD by amending the Schematic Plan to incorporate the former rail spur to the east. 	and removal of one building located on the northeast corner of the site. The project is anticipated to be ready for occupancy in 2010.		
2006101172	Orange Coast Memorial Medical Center Fountain Valley, City of Fountain Valley--Orange Phase 1 (PCP building phase) would involve the demolition of four buildings and the construction of a 162,500 square foot, six story medical office building, pedestrian overpass, loading dock, surface parking lots, and landscaping. Phase 2 (Emergency Department Expansion Phase) would involve construction of a 5,000 square foot addition to the emergency department at the hospital and reconfiguration of emergency vehicle circulation and parking. Phase 3 (Parking Structure Expansion Phase) would involve the demolition of surface parking and landscaping areas, and the construction of an expansion to the existing parking structure (approximately 400 spaces). The project also includes several discretionary actions including a General Plan Amendment, a Zone Change, and Specific Plan, Precise Plan, Tentative Parcel Map, and a Development Agreement.	NOD	
2007011060	The 2006 Klamath River Restoration Grant Program in Humboldt and Siskiyou Counties Fish & Game #1 --Shasta The project proposes: two roughened riffles, a new set of pumps, intake structure and a fish screen will be installed at the existing intake structure on the Shasta River and to trench and place a 24-inch pipe below the bed of Julian Creek.	NOD	
2007011103	Varner Harbor Dredging Project Parks and Recreation, Department of --Riverside The Department is issuing a Lake and Streambed Alteration Agreement for the project who proposes to remove 7,000 to 8,000 cubic yards of natural deposit material throughout the 450-foot long harbor channel. All dredged materials will be placed on the beach immediately north of the harbor channel. The dredged material will then be spread over a 1.5-2.0 acre area. All dredged material will be placed behind the berm to prevent any surface flow of dredge material or water back into the sea. If needed, straw waddles will also be placed on the upslope side of the berm to aid in this retention. The project proponent also proposes to reconstruct the north jetty of Varner Harbor before the channel is dredged. The reconstructed jetty will provide access for equipment to conduct dredging on the harbor. This structure will be approximately 200 feet long by 12 feet wide by 6 feet high. The jetty will be constructed of approximately 570 cubic yards of exploded angular rip rap, filter fabric, and native soils. The jetty will be built over the footprint of the original north jetty, which is now submerged below the current level of the sea.	NOD	
2007032159	Stormwater Attenuation and Floodplain Restoration Project Yreka, City of Yreka--Siskiyou The project proposes the widening of the floodplain, removal of debris, rip-rap, and bridge abutments, removal of non-native species, revegetation using native plant species, configuration of the floodplain to enhance riparian and aquatic habitat, activities to enhance the stream roughness for aquatic habitat, and additional space for a recreational trail system on Yreka Creek. 2007051159	Riverway Substation Project Public Utilities Commission Visalia--Tulare Southern California Edison Company (SCE) proposes to construct a new 66/12 kV low profile substation, including two 28 megavolt-ampere (MVA) transformers, two 4.8 megavolt-ampere reactive (MVAR) 12 kV capacitor banks, and six 12 kV distribution lines. The project would include approximately 1,200 feet of underground 66 kV subtransmission lines, as well as new fiber optic cable and communication equipment to connect the substation to SCE's existing telecommunication system.	NOD	
2007071154	Chittenden Pass Realignment Caltrans #5 Watsonville--Santa Cruz The California Department of Transportation (Caltrans) proposes to realign State Route 129 in an area known as Chittenden Pass and Pajaro Gap in Santa Cruz County approximately eight miles east of the City of Watsonville. This project would remove a compound curve and replace it with one curve. This curve correction would require the existing retaining wall to be removed and replaced with a soldier pile retaining wall. The purpose of the project is to improve safety for the traveling public on this portion of Route 129.	NOD	
2007072025	Valley of the Moon Water District Well No. 5 Replacement Project Valley of the Moon Water District --Sonoma The Valley of the Moon Water District (District) proposes to replace an abandoned production well on the 7,500 square foot parcel it owns on the south side of Verano Avenue near the intersection of Arnold Drive in El Verano. The depth of the well would be 680 feet, and the pumping rate would be approximately 300 gallons per minute (GPM) over a 24 hour per day period. The well would be used to augment the District's existing water supply during peak water demand periods; therefore, the well is expected to be in use for approximately four months each year. The annual water production from this well is projected to total approximately 160 acre feet. A small concrete block building would be built to house the well, pump, and appurtenances.	NOD	
2007098080	Streambed Alteration Agreement Concerning San Diego River Fish & Game #5 --San Diego The California Department of Fish and Game is executing a Lake and Streambed Alteration Agreement number 1600-2007-0190-R5 pursuant to Section 1602 of the Fish and Game Code to the project applicant, Helix Water District. The applicant proposes to alter the stream/lake to maintain the existing Diverting Dam. Project activities include removing vegetation around the dam and removing sediment to keep the four gates on the dam clear in order to facilitate repairs and allow silt to move downstream.	NOE	
2007098081	New Leased Facility California Highway Patrol, Department of West Sacramento--Yolo The California Highway Patrol plans to lease approximately 2,500 square feet of space in an existing office building at 830 Riverside Parkway to house a unit of the California Highway Patrol. Use of the office will require minimal alterations to accommodate the planned office uses; the planned state office operations will be	NOE

	consistent with the subject property. The building within the space will be leased by the state and has adequate parking. There will be little, if any, modification to the outside of the office building for this tenant.		
2007098082	Shafter Well No. 16 Shafter, City of Shafter--Kern The City of Shafter owns and operates seven active groundwater wells that deliver domestic water to its municipal distribution system (State of California System No. 1510019). The City is proposing to drill and construct a new groundwater well on existing well site #6, with supporting treatment systems, to improve the operating efficiency of the distribution system. Well #6 contains one existing groundwater well and is operated on a City-owned lot located at 690 Minter Avenue. The well site is 9,109 square feet in size and is large enough to accommodate the project drilling and construction without impacting the operation of Well #6 and adjacent properties or residences. The well site is a corner lot with public right-of-way along its northern and eastern boundaries and an ally along its southern boundary. There is one residential lot located adjacent along its western boundary. The source identification number of this well that is recognized by the State of California Department of Health Services (DHS) is 28S/25E-10R03 M. The new groundwater well project, hereinafter referred to as "Well #16," includes a more advanced pump motor, a hydropneumatic tank and water treatment facilities. The Well #16 pump motor and treatment facilities will be enclosed in a ventilated and secured structure to minimize noise and ensure only authorized personnel can access these critical well components. Well #16's discharge piping shall utilize the same tie-in point to the distribution system that Well #6 is using. Upon completion of the new well construction and DHS permitting, the Well #6 will be abandoned as directed by DHS or other regulatory agencies.	NOE	
2007098083	Agreement 2006-0204-R4; Groveland Creek; Culvert Extension Fish & Game #4 --Tuolumne Install a 10-foot extension of 30-inch diameter corrugated metal pipe to an existing culvert and place fill and a 6-inch thick layer of concrete, 20 feet long and 10 feet wide, to construct the stream crossing improvement. 2007052100	Foothills Grizzly Bluff Gas Field Project CUP-06-22/CDP-06-71 Humboldt County Planning Department --Humboldt The applicant proposes to conduct further exploratory drilling with possible production of natural gas resources in the project area. The objectives of the proposed project is to locate untapped natural gas sources with potential for development both within and/or outside of existing natural gas fields. Foothills is requesting permits to construct a two natural gas well pads this year and drill up to five natural gas wells from each pad. The ultimate project could include a total maximum of 16 well pads. If drilling is successful at a given location, Foothills proposes to install the necessary production equipment and natural gas gathering lines in order to produce and transport the natural gas to market. Additional Coastal and Conditional Use Permits would be required for development of more than two additional well pads.	EIR	10/25/2007
2007071142	County Operations Center Master Plan San Diego County San Diego--San Diego The proposed project would demolish the majority of the existing COC facilities (approximately 425,000 gross square feet (gsf) and replace them with approximately 1,209,000 gsf of new COC office buildings. Additionally, two parking structures will be constructed comprising of approximately 442,500 gsf and 660,000 gsf.	EIR	10/25/2007

	property. P-D(537) consists of one large retail building and three free-standing retail pads totaling 135,000 square feet in size. The 10.05-acre project site makes up the southern portion of the 19.7-acre subject property.		
2006022089	Vernalis West and East Project San Joaquin County Community Development Department Tracy--San Joaquin The applicant is proposing to mine and reclaim ~790 acres of Portland cement concrete quality aggregate reserves on the ~1,071 acre project site. The mining would occur in four phases over a 40 year period. The maximum mining depths of each phase will range from 110 feet to 225 feet below the current grade. Materials mined at Vernalis West & East would be transported via electronic conveyor to Teichert's existing Vernalis facility for processing and sale.	NOD	
2006121037	Conditional Use Permit 2005-102, Tentative Tract Map 2005-103, and General Plan Amendment/Zone Change 2006-039 Big Bear Lake, City of Big Bear Lake--San Bernardino The project is the development of 70 multi family residential condominium units in 24 buildings over 8.1 acres. The project will be constructed in four phases. A Tentative Tract Map application has been submitted to subdivide the property for condominium purposes. General Plan and Zone Change applications have been submitted to revise the General Plan Land Use designation of Single-Family Residential-3 to Multi-Family, and the zone district from R-1-10,000 to R-3 on a 1.46 acre-portion of the project site.	NOD	
2007062098	Proctor Heights Path Project Santa Rosa, City of Santa Rosa--Sonoma The project consists of adding a 5-foot wide path that extends up the hill and through the trees from Alice Street to Del Rosa Avenue. The path would provide a pedestrian link between the Proctor Heights neighborhood and the commercial area at Sunridge Drive and Farmers Lane. The path complies with Americans with Disabilities Act (ADA) requirements.	NOD	
2007072046	Bridgeville Forest Fire Station Replacement Project Forestry and Fire Protection, Department of --Humboldt Station Replacement - including demolition of all existing buildings and structures, raising the elevation by ~5 feet with engineered fill, and construction of a new Forest Fire Station facility on the same site.	NOD

	improvements to serve the project area. At buildout, the Specific Plan will include up to 770,000 sq. ft. of commercial development.		
2006091084	Batiquitos Bluffs Encinitas, City of Encinitas--San Diego The project proposes 19 single family residential lots on 47.81 acres.	EIR	10/26/2007
2005041134	Burton Mesa Ecological Reserve Management Plan Fish and Game, Lands and Facilities Lompoc--Santa Barbara The project is a Land Management Plan for the 5,200 acre Burton Mesa Ecological Reserve in northern Santa Barbara County. The property is owned by the State of California, administered by the State Lands Commission, and managed, under a 49-year lease by the California Department of Fish and Game. The Land Management Plan guides management of habitats, species, and programs to achieve the Department's mission to protect and enhance wildlife values. It serves as a guide for appropriate public uses of the property, and provides a descriptive inventory of fish, wildlife and native plant habitats which occur on or use the property. It provides an overview of the property's operation and maintenance, and personnel requirements to implement management goals. It serves as a budget planning aid for annual regional budget preparation. It provides a description of potential and actual environmental impacts and subsequent mitigation which may occur during management, and contains environmental documentation to comply with state and federal statutes and regulations.	FIN	
2005061168	Panama Lane Shopping Center File No.: GPA/ZC 02-0193 Bakersfield, City of Bakersfield--Kern The project applicant, Panama 99/Properties LLC, and the applicant of a similar but larger proposed shopping center, Castle & Cooke Commercial, Inc., located 3.6 miles west of the proposed Panama Lane Shopping Center, applied in early 2002 for project approvals, associated Zone Changes and General Plan Amendments for each of their respective properties. The other project is known as the Gosford Village Shopping Center. Separate EIRs were prepared for each development project. The City certified both EIRs, approved the projects, and approved the associated General Plan Amendments and Zoning Changes to the applicants in February 2003. Construction commenced on both project sites soon thereafter. These approvals were challenged in litigation and ultimately, in Bakersfield Citizens for Local Control v. City of Bakersfield, the Fifth District Court of Appeal invalidated the 2002 EIR and the General Plan Amendment and Zone Change. In order to comply with the direction provided by the Court of Appeal, this document will evaluate the environmental impacts of the proposed project, and will provide a full environmental analysis as if there were no construction on the site.	FIN	
2005061169	Gosford Village Shopping Center File No. GPA/ZC 02-0030 Bakersfield, City of Bakersfield--Kern The project includes the development of a commercial retail center, which includes a maximum of 700,000 square feet on 73.53 acres. The project includes the development of 23 pads for tenants that include various major retail, fast food, and commercial retail uses, as well as a gas station. The project is anticipated to be anchored by seven major retail tenants, including Sam's Club, Kohl's Department Store, and a Wal-Mart Supercenter. The four remaining major retail tenants are	FIN

2001051010	Jeffrey Open Space Spine, 00317631-PPA and Supplemental Environmental Impact Report for the Northern Sphere Area. (SCH 2001051010). Irvine, City of Irvine--Orange Work consists of installing small ponds, channels, and piping on the floor of the existing basin to provide water quality treatment to low flows entering the basin from the tributary watershed.	NOD	
2003081107	Moorpark College Master Plan EIR Second Supplement Ventura County Community College District Moorpark--Ventura The project is a long-range Campus master Plan guiding the physical development for the Moorpark College campus. The Campus Master Plan identifies appropriate locations and design guidelines for projects funded through the Bond Measure "S" program, as well as providing a guide for the future development of the campus beyond the expenditure of the Measure "S" bond funds.	NOD	
2004051049	Mojave River West Levee Improvement Project San Bernardino Flood Control District --San Bernardino The California Department of Fish and Game is executing a Lake and Streambed Alteration Agreement number pursuant to Section 1601 (SAA # 1600-2007-0103-R6) of the Fish and Game Code to the project applicant, San Bernardino County Flood Control. The applicant proposes to provide ungrouted rock slope protection to the existing west levee of the Mojave River. Slope protection will consist of ungrouted rock installed below the channel bed surface to the top of the levee bank. Portions of a stand of cottonwood and willow trees will be removed to allow construction equipment to access existing earthen levee.	NOD	
2004082018	Mt. Tamalpais Watershed Road and Trail Master Plan Marin Municipal Water District Corte Madera, Fairfax, Larkspur, Mill Valley, Ross, ...--Marin This project will fund the protection of the foothill yellow-legged frog (<i>Rana boylei</i>), a federal and State listed Species of Special Concern by restoring natural conditions and safeguarding breeding habitat by rerouting a well-used series of "volunteer" trails to more appropriate terrain, installing exclusionary fencing around the falls, and installing interpretive signage to educate the public about the frogs.	NOD	
2005041134	Burton Mesa Ecological Reserve Management Plan Fish and Game, Lands and Facilities Lompoc--Santa Barbara The project is a Land Management Plan for the 5,200 acre Burton Mesa Ecological Reserve in northern Santa Barbara County. The property is owned by the State of California, administered by the State Lands Commission, and managed, under a 49-year lease by the California Department of Fish and Game.	NOD	
2006052146	Livermore to Pleasanton Arroyo Trail Connection; City Project No. 2006-47 Livermore, City of Livermore--Alameda This project is a 1.5 mile long, 12-foot wide, gravel trail between the west end of West Jack London Boulevard and El Charro Road. The project includes a clear-span pedestrian bridge over Arroyo Las Positas, trail fencing, and interpretive enhancements along Arroyo Las Positas near El Charro Road.	NOD

2007011103	<p>Varner Harbor Dredging Project Parks and Recreation, Department of --Riverside</p> <p>The Department is issuing a Lake and Streambed Alteration Agreement for the project who proposes to remove 7,000 to 8,000 cubic yards of natural deposit material throughout the 450-foot long harbor channel. All dredged materials will be placed on the beach immediately north of the harbor channel. The dredged material will then be spread over a 1.5-2.0 acre area. All dredged material will be placed behind the berm to prevent any surface flow of dredge material or water back into the sea. If needed, straw waddles will also be placed on the upslope side of the berm to aid in this retention. The project proponent also proposes to reconstruct the north jetty of Varner Harbor before the channel is dredged. The reconstructed jetty will provide access for equipment to conduct dredging on the harbor. This structure will be approximately 200 feet long by 12 feet wide by 6 feet high. The jetty will be constructed of approximately 570 cubic yards of exploded angular rip rap, filter fabric, and native soils. The jetty will be built over the footprint of the original north jetty, which is now submerged below the current level of the sea.</p>	NOD	
2007061073	<p>City of Livingston Industrial Wastewater Treatment Plant Upgrade Project Livingston, City of Livingston--Merced</p> <p>The City of Livingston is currently planning an upgrade to the City-owned Industrial Wastewater Treatment Plant (IWWTP) in order to accommodate new water quality requirements being implemented by the California Regional Water Quality Control Board (RWQCB) for waters discharged by the IWWTP. Physical improvements to the site include the introduction of a Biological Nutrient Removal process which requires installation of new oxidation ditches, pipeline, clarifiers, flow splitter boxes, effluent pump station, sludge holding tanks, and centrifuge facilities.</p>	NOD	
2007062122	<p>Weissenberger Minor Subdivision, Coastal Development and Special Permit Humboldt County Community Development Services --Humboldt</p> <p>A merger of APNs 400-031-09 and -10 and resubdivision to result in four parcels. The Parcel Map subdivision will create four parcels of approximately 6,658 square feet, 5,034 square feet, 5,434 square feet, and 26,531 square feet. A Coastal Development Permit is required for the subdivision and the subsequent construction of a single-family residence with attached garage on Parcels 1 and 2. The residences will be two-story (maximum height of 30 feet) and have a maximum size of 800 square feet with an attached two car garage of approximately 800 square feet below and approximately 200 square feet of decking. The finished floors of the residences will be at or above the 30-foot elevation above mean sea level. A Special Permit is requested to allow a secondary dwelling unit to remain on proposed Parcel 3 and to allow the shop to remain on proposed Parcel 3 prior to the construction of a primary residence. Minimal grading will be required and up to ten eucalyptus trees may be removed to accommodate subdivision improvements. The parcels will be served by the Manila Community Services District. As part of the project proposal, the applicant is voluntarily contributing to the Tsunami Ready Program fund administered through the County Office of Emergency Services (OES).</p>	NOD

2007032119	<p>Shadowhawk Development Plan Ripon, City of Ripon--San Joaquin</p> <p>The project proposes the development of approximately 769 residential units in a variety of sizes and product types. Of these, 114 will have second units attached to the garages. The project also proposes an approximately 14-acre elementary school, an approximately 18-acre neighborhood park/detention basin, and an approximately 0.5-acre city domestic supply water well. As part of the project, Brookfield Ripon LLC (applicant) has submitted a detailed development proposal for approx. 721 of the 769 proposed residential units (the Shadowhawk Subdivision). This proposal covers the land that is bounded by River Road on the north, North Ripon Road to the west, and West Boesch Road on the south, and covers approx. 226 of the 241 acres of the project site. Development of the Shadowhawk Subdivision is anticipated to be constructed in five phases, commencing in 2007 (with the construction of necessary improvements) and ending in 2013. A neighborhood commercial area of approx. 7.31 acres would be provided at the southeast corner of North Ripon Road and River Road, but no specific development proposal has been submitted to date.</p>	EIR	10/29/2007
2007062068	<p>King and Dobbin Transit Village Planned Development Zoning and US 101/Oakland/Mabury Area Development Policy San Jose, City of San Jose--Santa Clara</p> <p>The zoning project site is currently developed with approx. 421,000 sq. ft. of light industrial and warehouse buildings. The project proposes rezoning the site to allow residential densities ranging from 20 to 110 dwelling units per acre (DU/AC). The project proposes to demolish the existing structures on the site and construct up to 1,287 residential units, between 10,000 and 25,000 sq. ft. of commercial space, and an approx. one acre park. The proposed residential units include approx. 138 affordable residential units that will accommodate the relocated San Jose Family Shelter. The policy is proposed to manage the traffic congestion associated with near term "smart growth" development in the US 101/Oakland/Mabury area, including Transit Oriented Development near the planned BART Berryessa Station, Japantown Neighborhood Business District, Jackson Taylor Specific Plan, and Luna Park/13th Street Neighborhood Business District. The policy allows the levels of service (LOS) at intersections along the Oakland Road and US 101 interchange corridor to temporarily degrade below the City of San Jose's LOS standards, with a corresponding level of congestion, prior to the construction of improvements to the Oakland Road/US 101 interchange and construction of the Mabury Road/US 101 interchange improvements.</p>	EIR	10/29/2007

	lanes in each direction; standard outside shoulders; auxiliary lanes to facilitate weaving traffic movements between the SR-116 and Rohnert Park Expressway interchanges; ramp geometry modifications at the Old Redwood Highway interchange; northbound climbing lane over the Cotati Grade to improve safety and operations and facilitate truck movements; replacement of the Railroad Avenue undercrossing, modifications at the Highway 101/SR-116 interchange; widening of several bridge structures to accommodate the HOV widening; lengthening the cattlepass undercrossing south of Railroad Avenue; modification of the existing truck brake inspection area at the top of the Cotati Grade; and on-ramp improvements to accommodate future ramp metering, provide California Highway Patrol enforcement areas, and provide for HOV preferential lanes where minimum requirements are met.		
2007091067	Conditional Use Permit No. 2971, Revised Permit No. 1 Riverside County Planning Department --Riverside Proposes to extend the life of the permit for an additional ten years and add a 4,800 sq. ft. metal structure of office and garage uses. Conditional Use Permit No. 2971 was originally approved in 1995 for ten years and has expired in 2005; the revised permit was applied for before the permit expired. The project also proposes two 6,000 gallon vault diesel fuel storage tanks with containment curb, a six foot high chain link fence along the eastern and southern property lines, 5,331 sq. ft. of landscaping and 13 parking spaces including one accessible parking space for persons with disabilities on a 17.02 gross acre lot. The project site currently operates an existing construction material recycling facility and office which will remain.	MND	10/12/2007
2007091068	Tentative Tract Map No. 33372 Riverside County Planning Department --Riverside Tentative Tract Map No. 33372 proposes to subdivide 58.31 gross acres into 94 single family lots, trails along Apricot Avenue, and several linear water quality swales/ basins.	MND	10/12/2007
2007092041	South Trunk Sanitary Sewer Relief Project San Mateo, City of San Mateo--San Mateo The City's proposed project includes the construction of approx. 8,350 feet of new pipelines ranging in size from 15 inches to 24 inches in diameter to serve the planned new development and redevelopment. The purpose of the proposed project is to serve as a relief sewer to carry the equivalent flows generated by the new development for which there is not sufficient capacity in the existing trunk sewers. In fact, this project is part of the mitigation measures that were identified and agreed to as part of the approvals for the new development and redevelopment in the South Trunk Service area.	MND	10/15/2007

2006121101	Highway 86 Domestic Water Transmission Main Coachella Valley Water District Coachella--Riverside The proposed Highway 86 Domestic Water Transmission Main project will supply the communities of Valerie Jean and Oasis with domestic water from a more reliable groundwater source located approx. 8 miles to the north of the Thermal area. The proposed route of the pipeline parallels Highway 86 in the west shoulder within the existing right-of-way (ROW). The 30 inch diameter pipeline will connect to an existing 18 inch diameter pipeline on the east side of Highway 86 at Avenue 58 and cross to the west side of Highway 86. From Avenue 58 south to Avenue 62, the pipeline will be aligned approx. 26 feet from the existing centerline within the highway ROW. Approaching Avenue 66, the proposed pipeline will be located 35 feet from the centerline (15 feet from the edge of asphalt and 15 feet from the ROW line). The pipeline follows this alignment from Avenue 66 south to Avenue 74, a distance of approx. 4 miles. The pipeline will be installed with a minimum of three feet of earth cover. Vertical deflections will be installed where the proposed pipeline crosses other utilities including irrigation mains, agricultural drain lines, storm drain culverts and buried telephone lines. In line valves will be installed at 0.5 mile intervals and crosses for future connections will be installed at approx. 8 locations. The pipeline will be replaced in polyethylene wrap to protect the pipe from mildly corrosive soils. The primary purpose of this project is to provide reliable domestic water supplies to communicate in CVWD's lower valley service area, including Valerie Jean and Oasis.	Neg	10/12/2007
2007091069	Benson Boreyko & Thomas Alkazin San Marcos, City of San Marcos--San Diego Review of a Tentative Parcel Map (TPM) and Site Development Plan (SDP) to allow a two lot subdivision of a 4.99 acre lot, and construction of a 10,347 sq. ft. office building on the west side of the property (1.61 acre Parcel A), respectively.	Neg	10/12/2007

	mercury-containing electronic waste, and white goods (refrigerators and other large appliances). These materials, with the exception of the white goods, would be contained in bales, containers, or on shrink-wrapped pallets, or some other containment system. No green waste or municipal solid waste would be stored outside.		
2006102114	UTC Facility Site Closure Santa Clara County San Jose--Santa Clara The proposed project entails the closure, general restoration, and remediation of the United Technologies Corporation - Pratt & Whitney Rocketdyne (UTC-PWR) San Jose Facility. Between 1959 and 2004, the facility was used to design and manufacture solid propellant rocket motors for the U.S. Department of Defense as well as the aerospace industry.	EIR	10/29/2007
2007062016	Natomas Levee Improvement Program Landside Improvements Project Sacramento Area Flood Control Agency Sacramento--Sacramento The specific objectives of the proposed project are to: (1) Provide at least 100-year flood protection as quickly as possible while laying the groundwork to achieve at least urban standard ("200-year") flood protection over time, (2) use flood control projects in the vicinity of Sacramento International Airport to facilitate changes in the management of Airport lands that reduce hazards to aviation safety, and (3) use flood control projects to enhance habitat values by increasing the extent and connectivity of the lands in Natomas being managed to provide habitat for giant garter snake, Swainson's hawk, and other special-status species.	EIR	10/29/2007
2007062017	Natomas Levee Improvement Program (NLIP) - Bank Protection Project Sacramento Area Flood Control Agency Sacramento--Sacramento SAFCA is proposing to implement bank protection measures at nine sites along the east (left) bank of the Sacramento River in order to control erosion that threatens the integrity of the flood control system protecting the Natomas Basin area of Sacramento and Sutter Counties. The nine sites are located between RM 69 (upstream of the confluence with the American River at approximately the Interstate 5 river crossing) and RM 79 (the confluence with the Natomas Cross Canal). The project objectives are to (1) prevent erosion that could undermine or increase seepage through the existing levees by installing hardscape and vegetation to prevent further retreat of the existing riverbank as a result of floodflow scour and wave erosion; (2) allow as much of the existing vegetation as possible to remain in areas where work will be performed; (3) re-create riparian habitat and SRA cover in areas where bank protection work takes place; (4) mitigate any loss of riparian habitat and SRA cover associated with the project at the project site; and (5) provide net increases in riparian habitat that can offset future levee-tree removals for various sites throughout the project reach or adjacent reaches. This EIR analyzes the bank protection components of the NLIP that are proposed for construction in 2008 through 2010 and is tiered from the analysis in the EIR on Local Funding Mechanisms. Bank protection measures may be implemented	EIR	10/29/2007

	using water-based construction options such as barges, or land-based construction options such as trucks and excavators. Both options have been evaluated in this EIR. The EIR also evaluates options for completing construction in 1, 2, or 3 years.		
2007091075	General Plan Amendment 747, Change of Zone 7160, Tentative Tract Map 32332 Riverside County Planning Department --Riverside General Plan Amendment No. 747 is a proposal to change the existing Agriculture (AG) Land Use Designation to Rural Community- Low Density Residential (RC:LDR) (0.5 acre minimum). Change of Zone No. 7160 is a proposal to change the existing Light Agriculture- 10 acre minimum (A-1-10) zoning designation to Residential- Agriculture (R-A); and Tentative Tract Map No. 32332 is a proposal for the subdivision of 23.70 acres into 34 single family residential lots with a 0.5 acre minimum lot size.	MND	10/15/2007
2007092044	Via Este Left Turn Channelization Caltrans #6 Sonora--Tuolumne The California Department of Transportation (Caltrans) would add a left turn lane and associated lane tapers by widening the highway on the north side. The shoulders would also be widened to the north. At the intersection, new right-of-way would be required to the north.	MND	10/15/2007
2004092041	Waterfront Drive Extension Project Eureka, City of Eureka--Humboldt The City purposes to construct a two-lane extension of Waterfront Drive (approximately 9,000 lineal feet) southerly from Del Norte Street to Hilfiker Lane primarily along and within existing Northcoast Railroad Authority and City of Eureka Rights-of-way. A connection to U.S. Route 101/Broadway will be provided at Trusedale Avenue, with additional possible connections at McCullens Avenue and Bayshore Way. The new street section is proposed to vary between 36 feet (two 11-foot travel lanes, two 5-foot bike lanes, and a 4-foot sidewalk) and 46 feet wide (two 14-foot travel lanes, two 6-foot bike lanes, and a 6-foot sidewalk); the sidewalk is proposed along the eastern side of the roadway from the Bayshore Mall south. A Class 1 multi-use trail will parallel the bay side of the roadway, separated from it by a 4-ft. wide landscaped strip, from Del Norte Street to Truesdale Avenue. Another multi-use trail will be located along PALCO Marsh and Vigo Street in the same location as the existing trail/utility road, with the exception that the first 400 feet of the trail will be located slightly to the east of its current location. A traffic signal is proposed at the Broadway and Hilfiker Lane intersection. Other possible roadway connections to Broadway will include either traffic signal modification or new installations, depending on the intersection.	NOP	10/15/2007
2007051066	Revisions to the City of Redlands Downtown Specific Plan Redlands, City of Redlands--San Bernardino The proposed project involves revisions to the Downtown Specific Plan, including expansion of its boundaries, modification of its goals, and establishment of a development program that will provide a pedestrian-friendly, amenity-rich mixed use environment in both the immediate and long-range future. The project proposes to extend the Specific Plan Area boundaries to generally include the area south of Redlands Boulevard between Texas Street and Church Street. The	NOP	10/15/2007

2006122029	General Plan Amendment No. 2006-07 & Rezone No. 2006-11 - Belaski Repair Shop Stanislaus County Ceres--Stanislaus Request to amend the land use designation of the Stanislaus County General Plan and rezone the subject site. These actions would result in actions which will legitimize the existing, but unauthorized, automobile/vehicle repair shop operating at the site. The site is 1.54 acres in size and has a single-family residence and accessory storage building in addition to the unauthorized vehicle repair facility.	Neg	10/15/2007
2007091073	Bar 20 Dairy San Joaquin Valley Air Pollution Control District Kerman--Fresno The project proponent has applied to the San Joaquin Valley Air Pollution Control District for a permit to increase the number of milking cows on existing dairy facilities by 6,496 from 2,904 to 9,400; and make concomitant changes in the dairies' support stock. The dairy facilities (corrals, dairy barn, feed storage, manure management area and process water storage area, etc.) are located at 24387 Whites Bridge Road (SR-180), approx. six miles west of Kerman, in Fresno County.	Neg	10/15/2007
2007091076	Johnston Minor Use Permit ED (06-229) San Luis Obispo County --San Luis Obispo Request by Richard Johnston for a Development Plan/ Coastal Development Permit to allow the construction of a two phased commercial project. Phase 1 would comprise construction of two commercial buildings totaling approx. 13,814 sq. ft. (Building A: approx. 5,797 sq. ft.; Building B: approx. 8,017 sq. ft.) and would be used only as commercial interior storage. Phase 1 would also include construction of all County required on and off site infrastructure improvements. Phase 2 would be initiated at the time of connection to a community sewer system, or to a non-discharge system approved by the Regional Water Quality Control Board (RWQCB), and would allow the commercial storage buildings to be utilized in a manor consistent with allowed uses in the Commercial Service land use category. The project will result in the disturbance of approx. 0.95 acres on a 1.1 acre parcel. The proposed project is within the Commercial Service land use category and is located at the southwest corner of the intersection of Santa Ynez Avenue and Fairchild Way, in the community of Los Osos. The site is in the Estero planning area.	Neg	10/15/2007

APN 49-162-09 is currently 9,569+/- sq. ft. in area and is proposed to be reduced to 7,849+/- sq. ft. in area.	NOE	
2007098160	Tuolumne County Sheriff's Department 2007-2008 Off-Highway Vehicle Grant Tuolumne County --Tuolumne This grant will provide funding for the Tuolumne County Sheriff's Department to conduct Off-Highway Vehicle and Over Snow Vehicle law enforcement programs and purchase equipment for these programs. The grant funds will be used to provide law enforcement OHV/OSV patrols, medical first responders, and search and rescue operations within the 30,000 acres available for OHV/OSV recreation in the Stanislaus National Forest. The grant funds will be used for patrolling of snowmobile trails, off-highway vehicle trails and staging areas, purchase of equipment, and fuel for and maintenance of equipment.	NOE	
2007098162	Streambed Alteration Agreement Concerning Chollas Creek, Tributary to San Diego Bay Fish & Game #5 San Diego--San Diego The California Department of Fish and Game is executing a Lake and Streambed Alteration Agreement number 1600-2007-0330-R5 pursuant to Section 1602 of the Fish and Game Code to the project applicant, City of San Diego, Transportation Engineering Division. The applicant proposes to temporarily alter the stream/lake to remove trash and hand clear non-native vegetation within a 900-foot segment of the Chollas Creek channel between 41st and 43rd Avenue, south of National Avenue in San Diego, located in San Diego County. The trash pickup and hand clearing activities will be carried out by a citizen community group as part of a statewide coastal cleanup event. The cut vegetation will be disposed of at an appropriate facility. No heavy mechanized equipment will be used within the stream, and no impacts will occur to the soft bottom of the channel. Herbicide treatments appropriate for use in aquatic systems will follow the initial removal and will be conducted by a licensed Pest Control Applicator according to local, regional, and federal regulations.	NOE
