

Arnold Schwarzenegger, Governor

STATE CLEARINGHOUSE

NEWSLETTER

September 1-15, 2008

STATE CLEARINGHOUSE NEWSLETTER

The State Clearinghouse distributes draft environmental documents to state agencies for review and comment, pursuant to the California Environmental Quality Act (CEQA). The State Clearinghouse also acts as the State Single Point of Contact for the review of federal grant applications and federal development projects. This Newsletter summarizes the environmental documents and federal grant applications received by the Clearinghouse during the period **September 1-15, 2008.**

CLEARINGHOUSE CONTACTS

Please contact The State Clearinghouse if you have any questions regarding processing of environmental documents or grant applications. We may be reached at:

Telephone: (916) 445-0613
Fax: (916) 323-3018
e-mail: state.clearinghouse@opr.ca.gov
website: www.opr.ca.gov/clearinghouse/clearinghouse.shtml

Questions regarding federal grant notices should be directed to **Sheila Brown.**

Questions regarding processing of environmental documents should be directed to:

Scott Morgan
Senior Planner

CLEARINGHOUSE MAILING ADDRESS

Please do not use our street address (1400 Tenth Street, Room 212) for mailing purposes. The correct mailing address is:

STATE CLEARINGHOUSE
P.O. BOX 3044
SACRAMENTO, CA 95812-3044

INFORMATION AVAILABLE ON-LINE

The 2001 CEQA Guidelines are available from the Resources Agency's website at <http://ceres.ca.gov/ceqa/>.

The State Clearinghouse Handbook, which contains all of our environmental document and grant processing procedures and forms, is available on our website.

MEMORANDUM

DATE: February 13, 2007
TO: State Agency CEQA and Intergovernmental Review Coordinators
FROM: Scott Morgan, Senior Planner
SUBJECT: Distribution of Environmental Documents in CD-ROM Format

The State Clearinghouse has received an increasing number of requests from local and state lead agencies to distribute CEQA documents to state reviewing agencies in an electronic format, typically CD-ROM. The most common reason for these requests is to reduce cost. CD-ROMs are cheaper for the lead agency to reproduce and mail, and cheaper for the State Clearinghouse to distribute, especially in the case of multi-volume documents.

The State Clearinghouse has distributed EIR's and EIS's in CD-ROM format for state agency review and comment since August 1, 2003. Based on our experience with those documents, a survey conducted of state reviewing agencies and the potential cost savings to local and state agencies, we are extending this policy to other environmental documents including Negative Declarations, Mitigated Negative Declarations and Environmental Assessments. The State Clearinghouse will accept environmental documents under the following terms:

- CEQA Lead agencies may provide copies of draft environmental documents to the State Clearinghouse for state agency review in an electronic format. The document must be on a CD-ROM in a common file format such as Word or Acrobat.
- Lead agencies must provide fifteen (15) copies of the CD-ROM to the State Clearinghouse. In addition, each CD-ROM must be accompanied by 15 printed copies of the DEIR summary (as described in CEQA Guidelines §15123), executive summary, or introduction section of a Negative Declaration or Mitigated Negative Declaration. The printed summary allows both the State Clearinghouse and agency CEQA coordinators to distribute the documents quickly without the use of a computer.
- Final environmental documents may be provided in CD-ROM format without a printed summary. Distribution of the final documents is optional under CEQA.
- Federal lead agencies may send electronic copies of environmental documents to the State Clearinghouse in the same manner described for CEQA lead agencies. Distribution of NEPA documents to state agencies through the State Clearinghouse is encouraged pursuant to Presidential Executive Order 12372 and NEPA §102 (42 USC §4332)
- All notices of preparation must continue to be provided in printed format.
- Please provide one Notice of Completion Form with all submittals.

If your agency has difficulty downloading and reviewing any environmental documents please contact:

Scott Morgan, Senior Planner
916-445-0613
scott.morgan@opr.ca.gov .

Thank you for your cooperation in the CEQA review process.

**ENVIRONMENTAL DOCUMENT FILINGS WITH THE STATE CLEARINGHOUSE
1999 through 2007**

All CEQA documents filed with the State Clearinghouse are available for viewing on the Internet at <http://www.ceqanet.ca.gov/>

2006112120	<p>Passenger Terminal Replacement Project, Del Norte County Regional Airport/Jack McNamara Field, EA/EIR Del Norte County Crescent City--Del Norte Del Norte County has identified improvements needed at Del Norte County Regional Airport/Jack McNamara Field to accommodate existing aviation activity and future demand. The Proposed Project evaluated in this EA/EIR is the construction of a new terminal building (20,800) square feet) and related facilities (i.e., parking lot, access road, aircraft apron, infrastructure/utilities) at CEC. The size of the new terminal building is based upon projected enplanements for year 2016. The analysis will include a review of potential effects on the environment from the the proposed project in accordance with CEQA regulations. The preferred alternative will be based on a thorough analysis of issues including safety, national policy, efficiency, economic, social, and environmental impacts.</p>	EIR	10/16/2008
2007061044	<p>Foothill Parkway Westerly Extension Corona, City of Corona--Riverside The proposed Foothill Parkway Westerly Extension project is located within the southwesterly limits of the City of Corona and in the unincorporated area of Riverside County within the City's sphere of influence, along the base of the Santa Ana Mountains and would involve the extension of Foothill Parkway as a four-lane roadway, from approximately 600 feet west of Skyline Drive to Green River Road. At Skyline Drive, the roadway would veer to the west into unincorporated Riverside County and continue in an east/west direction along the City/County boundary. The alignment would then curve to the north and connect with Green River Road in the vicinity of Paseo Grande. The project is being designed to protect the existing 108-inch Metropolitan right-of-way acquisition for new landscaping, curbs, shoulders, travel lanes, and landscaped medians. The proposed project also includes up to three new signalized intersections.</p>	EIR	10/16/2008
2008032077	<p>Solano 80 Shopping Center Vallejo, City of Vallejo--Solano Redevelopment of an existing neighborhood shopping center. All existing buildings (3) would be demolished and replaced with new buildings (13) anchored by a grocery store.</p>	MND	10/02/2008
2008091004	<p>EN-2006-10437-MND Los Angeles, City of Los Angeles, City of--Los Angeles General Plan Amendment from Minimum Residential to Limited Manufacturing; Zone Change from A1-1 to M1-1; Conditional Use to permit exceptions from Commercial Corner Development requirements for hours of operation and less than 50% window coverage; and Site Plan Review; in conjunction with the change of use of an approximately 106,000 sq. ft. school building to an office building, new construction of an approx. 210,000 sq. ft.</p>	MND	10/01/2008

	driveway and curb cut is proposed accessing Los Alimos Street, approximately 125-feet east of Gaynor Avenue. One 25-foot tall tree is proposed to be removed and replaced.		
2008091010	Gombos Residence San Diego, City of San Diego, La Jolla--San Diego Site Development Permit (SDP)/Coastal Development Permit (CDP) Amendment to CDP No. 99-0438 and Extension of Time (EOT) No. 23652 to construct a 7,742 square foot, single-family residence with attached four car garage on a vacant 28,750 square foot lot. The project site is located at 1805 Amalfi Street in the RS-1-5 Zone within the La Jolla Community Plan, Coastal Overlay (non-appealable), Coastal Ht Limit, Parking Impact, Residential Tandem Parking, Transit Area. The site is not included on any Government Code Listing of hazardous waste sites.	MND	10/01/2008
2008092001	Rezone, General Plan Amendment, Zone Change and PUD for APN: 039-471-09 (07-0667) Santa Cruz County --Santa Cruz The project proposes a General Plan amendment, zone change, Riparian Exception, and Planned Unit Development (PUD) allowing a maximum development density of 20 dwelling units per usable acre on the project site. A minimum of forty percent of the total number of units is to be affordable. Following project approval, future development of the project site would be by-right. The site contains a maximum of 2.0 developable acres equating to a maximum of 40 dwelling units including the existing historic house. The remaining 3.5 acres would remain in open space to protect riparian areas. The project would amend the General Plan from "Urban Medium Residential: and "Urban Open Space Lands" to "Urban High Residential" and "Urban Open Space Lands" with a PUD. The Urban High Residential would be amended to allow 20 units per net developable acre with a 2,000 square foot lot size requirement. In addition, the parcel would be rezoned from "Multi-Family Residential - 4,000 square foot minimum parcel size (RM-4-L)" to "Multi-Family Residential - 2,000 square foot minimum parcel size and Regional Housing Need Site (RM-2-R/RM-2-L-R)," and "Parks, Recreation and Open Space," and a PUD. The RM-2-L-R Zone includes a Historic Landmark Combining District for the Historic house.	MND	10/01/2008
2008092002	Vacaville Creekwalk Extension Phase II Vacaville, City of Vacaville--Solano Extension of an existing Creekwalk, bike & pathway facility within Andrews Park, City of Vacaville. The project consists of a landscape enhanced walkway extending 400 feet from the eastern terminus of the existing Creekwalk, along the top of the north bank of Ulatis Creek to McClellan Street.	MND	10/01/2008
2008092003	Yuba County Airport Master Plan Report Initial Study Yuba County --Yuba The purpose of the Yuba County Airport Master Plan Report is to guide long-term development of the Airport to meet the aviation needs of the community. The Yuba County Airport Master Plan Report defines the Airport's role over the next twenty years and identifies future facility needs to support this role and meet projected demand. The Initial Study evaluates environmental impacts potentially resulting from implementation of the Master Plan Report.	MND	10/01/2008

	sustainability-related policy framework that is used to guide future development and City operations. Additionally, the City of Tracy is revising residential growth management policies and regulations to implement the proposed changes to the General Plan and SOI.		
2008092007	Great America Campus Expansion Project Santa Clara, City of Santa Clara, San Jose, Sunnyvale--Santa Clara The project involves a rezone from planned development (Planned Industrial) to planned development to construct (2) 12-story office buildings with a combined total of approximately 718,000 square feet of office space, a 25,000 sq. ft. commons building and four-level parking structure, site circulation, surface parking and landscape improvements on a 18.5 acre project site. The project involves demolition of an existing 118,000 sq. ft. two-story office building at the northern portion of the project site and retention of (2) six-story office buildings that total 300,000 sq. ft. at the southern portion of the project site. The project includes a tentative subdivision map. Gross floor area with project build out is approximately 1,018,000 sq. ft. of office and 25,000 sq. ft. of commons building space.	NOP	10/01/2008
2008092008	Homewood Mountain Resort Master Plan Project (PEIR T20080052) Placer County Auburn--Placer Homewood Mountain Resort (HMR) seeks the study and approval of the HMR Master Plan to develop and upgrade a mixed-use base area to the north, a residential base area to the south, and a mid-mountain lodge and support facilities. The proposed project would develop up to: 115 residential condos, 40 fractional ownership units, 40 two-bedroom for sale condo-hotel units, 30 penthouse condo units (top floor of the hotel), and 75 traditional hotel rooms; 25,00 square feet of commercial floor area; 28,000 square foot base mountain facility; 12 units of workforce housing; 11 single-family building envelopes; a 15,000 square foot day lodge at the mid-mountain; and approximately 987 parking spaces.	NOP	10/02/2008
2003121086	Industry Business Center Revised Plan of Development - NFL Stadium Industry, City of Industry, Diamond Bar--Los Angeles Note: Extended Review Per Lead The Industry Business Center (IBC) site consists of a 245-acre parcel on the east side of Grand Avenue and a 347-acre parcel on the west side of Grand Avenue. The 2004 IBC Plan of Development, which was analyzed in the certified 2004 IBC Environmental Impact Report (State Clearinghouse #2003121086), created several large Planning Areas for the development of up to 4.8 million square feet of built space, including 633,000 square feet of industrial uses, 1,268,000 square feet of retail uses, and 2,878,000 square feet of office uses. The proposed revisions to the 2004 IBC Plan of Development would cover approximately 512 acres of the 592-acre IBC site. The proposed changes to the 2004 IBC Plan of Development would eliminate the current conceptual Planning Areas in favor of a specific project plan that would reduce the total square footage of office, retail and industrial space by approximately 1,794,000 square feet and replaces these uses with a new stadium and related facilities. The revised Plan of Development would include, among other things, a National Football League (NFL) stadium with practice fields, team training facilities, and team offices; a sports medical center; retail uses; restaurants; entertainment uses; other office buildings; and parking areas to accommodate all uses. Certain aspects of the 2004 IBC Plan of	SIR	10/17/2008

2008078058	Transfer of Coverage to El Dorado County APN 15-314-25 (Lewis) Tahoe Conservancy --El Dorado Project consists of the sale and transfer of 299 square feet of potential coverage rights from Conservancy-owned land to a receiving parcel on which a private residence will be constructed. The transfer enables the receiving landowner to carry out the project without any net increase in the amount of existing land coverage in the hydrologically-related area.	NOE	
2008098001	North Fork Trinity River Bridge Abutment Repair Regional Water Quality Control Board, Region 1 (North Coast), Santa Rosa --Trinity Repair and restore the abutment armoring and adjacent streambank areas. The area of undermined armoring below the ordinary high water elevation will be replaced by filling the void with 2-ton to 4-ton rock riprap. The large rock will be placed into the undermined areas beyond the previous limits of the eroded grout armoring. The remaining damaged area above the ordinary high water elevation will be repaired by placing a 1.5-foot thick layer of lighted grouted rock (quarter-ton to half-ton) over a layer of woven geotextile fabric.	NOE	
2008098002	Trail Fence Relocation Parks and Recreation, Department of --Marin Relocate existing split rail fence at the northwest corner of the main parking area at Olompali State Historic Park to properly follow the trail alignment to the yellow house. Work will hand dig approximately nine 8"x 18" deep fence post holes.	NOE	
2008098003	Pump-in of Westlands Water District's (WWD's) local groundwater into the California Aqueduct, Reaches 4-7 Water Resources, Department of --Fresno, Kings Westlands Water District is a Central Valley Project contractor with land in Fresno and Kings Counties. The proposed project is WWD's pumpin of local groundwater from wells within WWD's service area into the California Aqueduct through turn-in structures. WWD will discharge up to 20,000 acre-feet of local groundwater into the Aqueduct during the period of June 16, 2008 through September 30, 2008. DWR will deliver equivalent amounts of water to WWD at turnouts downstream on the California Aqueduct to serve water to existing croplands needing additional water this year.	NOE	
2008098004	OCIT Radio Site at Rancho Folsom Sewer Pump House Sacramento County Folsom--Sacramento The project is a request for authorization to enter into an agreement with the City of Folsom for use of property located at the Folsom sewer pump station on River Way to support a two-way radio site for Folsom Police and Fire Departments.	NOE

<u>Documents Received on Tuesday, September 02, 2008</u>			
2008098005	Highlands High Wireless Telecommunications Facility Use Permit Sacramento County --Sacramento The proposed project consists of a Use Permit to allow the collocation of a wireless telecommunications facility on an existing 160 foot high radio tower in the RD-2 zone. The facility will consist of three (3) panel antennas mounted at the 113 foot level of the tower and the placement of one (1) equipment shelter at the base of the tower.	NOE	
2008098006	Highland Way and Alpine Terrace Water Main Replacement Sweetwater Springs Water District --Sonoma Replace approximately 1,200 linear feet of existing 2-inch water main and appurtenances in Highland Way and Alpine Terrace with a 6-inch main between Laurel Way and Delta Way. The existing main serves approximately 10 customers. The replacement main will ensure better service pressures in the service area and reduce water losses. All trenching occurs in roadways. Road surface will be restored consistent with encroachment permits.	NOE	
2008098007	Mad River Bluff, Streambank Protection Project Regional Water Quality Control Board, Region 1 (North Coast), Santa Rosa --Humboldt The Mad River streambank was damaged by high flows during a severe 2005/2006 storm event that was declared a disaster. Substantial erosion and retreat of the adjacent bluff face occurred. The top of the bluff is currently within 15 feet of a single family residence and is very close to several other residences and public infrastructure. The project is designed to improve the erosion habitat, riparian habitat, and water quality benefits.	NOE	
2008098008	Valentine Reserve Stream Improvements Fish & Game #6 Mammoth Lakes--Mono SAA# 1600-2008-0101-R6 Improve flows along 300 feet of a small, spring fed stream that originates on the Reserve by trimming vegetation and removing downed trees of no more than 1000 square feet. The applicant also proposes to repair an existing gabion and install two new gabions. The gabions will be 6 feet wide, 4 feet high and composed of steel fencing and stone cobble.	NOE	
2008098009	Folger Ranch House Remodel Midpeninsula Regional Open Space District --San Mateo This project consists of remodeling of the existing Folger Ranch House, including replacing the roof, installing a domestic water tank, and other associated minor improvements and repairs. No change in the size of the house is proposed.	NOE	
2008098010	Corona Norco Unified School District Network Public Utilities Commission Corona, Norco--Riverside Sunesys installs/operates fiber optic ethernet networks on behalf of school districts, universities, and library systems. The Corona Norco project will involve the installation of 44.37 miles of aerial fiber in existing structures and 17.60 miles of under ground fiber (trenching).	NOE

2004111149	Henry Mayo Newhall Memorial Hospital Master Plan Santa Clarita, City of Santa Clarita--Los Angeles The project sponsors are proposing a long-range Master Plan for the buildout of the HMNMH medical campus. The Master Plan will include the provision of an additional 120 inpatient hospital beds, 18 additional beds in the hospital's Intensive Care Unit, nine additional beds in the existing Nursing Pavilion Building, 200,000 gross square feet of new medical office space to be used for additional outpatient, hospital administration, and associated medical uses, and an additional 1,263 parking spaces than what currently exists on the hospital campus. It is anticipated that nine new structures will be constructed on the existing 30.4-acre hospital campus built over a 15-year period as outlined below in the Development Program, which include three medical office buildings, one inpatient building, two helipads, four parking structures, landscaping improvements, and traffic improvements. The 8,000 square foot Foundation Building would be removed.	EIR	10/17/2008
2008061016	Gavilan San Benito Campus - Fairview Corners Master Plan Gavilan Joint Community College District Hollister--San Benito The Gavilan College San Benito Campus and Fairview Corners projects consist of two main components; a community college campus including 70 on-campus residential units and 35,000 sf of retail on approximately 80 acres on the south side of the site and approximately 220 single-family detached residential houses on approximately 57 acres on the north side of the site.	EIR	10/17/2008
2006041095	Amaral Annexation and Sphere of Influence Amendment Greenfield, City of Greenfield--Monterey The proposed project involves the reorganization of the incorporated City limits of Greenfield, including the annexation of ~155 acres from Monterey County into the City of Greenfield. A SOI amendment will be required concurrent with the annexation application. Proposed residential land use designations include low, medium and high density areas, with a total of 558 dwelling units. Approximately 297 low density homes are planned on about 100 acres with another 119 dwelling units of medium density on ~17 acres. The high density residential area homes features five-unit clusters on ~10 acres with 142 units. The former Jekel winery facility would be reused as a community center and would be surrounded by a large area designated for recreation and open space uses. An agricultural buffer is also proposed for the northern and western boundaries of the project site.	FIN

	The project includes the demolition of a portion (approximately 44,000 square feet) of the existing multi-tenant retail building in the southwestern corner of the site (David M. Brian, Gap Kids, Baby Gap and Mimi Maternity), as well as the entire existing surface parking lot. In their place, a new maximum 107,100-square-foot retail building would be constructed, increasing the potential building space and retail uses on the site from the existing approximately 67,500 square feet to a maximum of approximately 138,400 square feet, a net maximum increase of approximately 71,000 square feet.		
2007102091	Altamont Commuter Express Maintenance Facility San Joaquin Regional Rail Commission Stockton--San Joaquin The Altamont Commuter Express (ACE) Maintenance Facility Project provides for daily inspection, maintenance, and clearing of SJRRC rolling stock, as well as progressive maintenance, including light and heavy repairs of passenger coaches and locomotives. The Project involves development of approximately 106,900 sf of building space within the 64.05-acre Project Site, includes internal driveways, employee parking, and off-site utility and street improvements, and will replace the existing maintenance facility activities at the Stockton Rail Yard. The Project includes a request approvals for annexation of the Project Site into the City of Stockton, a General Plan amendment, and rezoning for the Project Site.	MND	10/02/2008
2008091011	Lompoc Municipal Pool Demolition Lompoc, City of Lompoc--Santa Barbara Demolition of an existing Municipal Pool Structure constructed in 1956. The enclosed pool is to be demolished and the foundation removed. No future use of the site has been identified. The site will be graded and temporary landscaping installed.	MND	10/02/2008
2008091013	R2007-02030-(5) Los Angeles County --Los Angeles The proposed project would consist of an assisted living community for seniors with 278 units of 8.19 acres of land. The unit mix will consist of 200 units for independent Living, 38 Assisted Living Units and 28 Villas for independent living.	MND	10/02/2008
2008091015	Sharon Place Off-Leash Dog Park Buellton, City of Buellton--Santa Barbara A Final Development Plan (08-FDP-01) for the development of an off-leash dog park on a 3.35 acre property owned by the City of Buellton. The project includes fencing, natural paths, signage, handicap access, and benches.	MND	10/02/2008
2008091016	PD-S-0997/TP-S-0650, Rasmussen Industrial Park Simi Valley, City of Simi Valley--Ventura The project proposal is to construct a 167,416-square foot light industrial park on a 13.1-acre site. The project consists of six separate buildings divided into units and ranging in size from 13,500 to 52,749 square feet. It is projected that offices will occupy 25 percent of the square footage in each building. The project includes 514 parking spaces and other paving covering 46 percent of the site, and 24 percent of the site will be landscaped. Roadway widening of West Los Angeles Avenue and the widening and realignment of Quimisa Drive will occur with construction of the project. The project site is currently used as a contractor	MND	10/02/2008

2007031114	<p>The Neptune Marina Apartments and Anchorage/Woodfin Suite Hotel and Timeshare Resort Project Los Angeles County --Los Angeles</p> <p>Proposed project is the Neptune Marina Apartments and Anchorage/Woodfin Suite Hotel Timeshare Resort Project on Parcels 10R, FF, and 9U as well as adjacent Marina Basins. The proposed project consists of five components requiring five Coastal Development Permits, three Conditional Use Permits, three Variances, one Parking Permit, two Plan Amendments to the Marina del Rey Local Coastal Program, and a Tract Map. Component 1 (Parcel 10R) consists of demolishing an existing 136-unit apartment complex to build a total of 400 apartment units and adjacent waterfront public pedestrian promenades. This component also includes the demolition of an existing 198-slip anchorage to construct a new 174-slip anchorage within the Marina Del Rey Basin B. Component 2 (Parcel FF) consists of demolishing an existing 206 space parking lot to build a total of 126 apartment units and adjacent waterfront public pedestrian promenades. Component 3 is for the development of the northerly portion of Parcel 9U. Component 5 is to construct a public-serving boat anchorage that would be situated proximal to parcel 9U within the Marina Del Rey Basin B. This public anchorage would contain approximately 2,923 square foot of dock area and would provide approximately 542 linear feet of transient boat docking space. Approximately 180,000 cubic yards of grading will be required with excess cut material to be exported to a landfill located in Los Angeles County.</p>	EIR	10/20/2008
2007111084	<p>Villagio Project Hanford, City of Hanford--Kings</p> <p>The project would result in the development of 1,428 residential units, 11.6 acres supporting 135,000 square feet of neighborhood commercial uses, an elementary school site, a church site, two detention basins and open space/recreational areas.</p>	EIR	10/20/2008
2007041057	<p>8305 Sunset Boulevard West Hollywood, City of West Hollywood--Los Angeles</p> <p>The proposed development would consist of a five-story building, which would house 11,691 square feet of sit-down restaurant space and 947 square feet of outdoor dining space on the ground floor. Parking would be located on the second through fifth floors, with 177 parking spaces to be provided. The parking is proposed to serve both on-site uses, as well as the general public, as there are more spaces proposed than required.</p>	FIN

	stage would be undertaken solely with State funds. Alternative designs and operating characteristics for each facility would be identified and studied under a separate future Phase II environmental process.		
2008091020	Antonio Minor Subdivision (3 Lots), Tentative Parcel Map, TPM 21030RPL, ER 06-14-036 San Diego County --San Diego Project proposes to subdivide 1.40 acres into 3 lots.	MND	10/03/2008
2008091021	Mid-City Rapid Bus San Diego Association of Governments San Diego--San Diego Development of a rapid bus project, including upgraded stations, traffic signal priority, transit lanes, real-time information, and improved service frequency.	MND	10/03/2008
2007061046	Santa Ana Heights Joint Use Channel Maintenance/Equestrian Facility Newport Beach, City of Newport Beach--Orange The City of Newport Beach is proposing to implement the Santa Ana Heights Joint Use Channel Maintenance/Equestrian Facility, which would provide equestrian recreational opportunities for nearby residents while allowing the area within the Upper Newport Bay Nature Preserve known as "the mesa," which overlooks the Back Bay to be revegetated with native habitat (coastal sage scrub). The proposed equestrian facilities include three riding arenas of varying sizes, a redefined/relocated riding and hiking trail (Mesa Trail), and a treatment train of storm water runoff treatment control BMPs situated throughout the 2.92-acre project area. Because more than one half of the project site is located within the Central Coastal NCCP/HCP Reserve, the City is also proposing a Resource Management Program (RMP), which provides guidelines for the protection of existing natural resources during the construction and ongoing operation of the Santa Ana Heights Joint Use Channel Maintenance/Equestrian Facility. 2006022132	Upper Range Vineyard Project - Rodgers Property Napa County Napa--Napa Project would involve installing erosion control features and practicing erosion control measures for new 161-acre vineyard on privately owned properties in Napa County. Project site comprised of 7 parcels totaling 678 acres. Agricultural uses are within County's "right to farm" policy. However, because project would involve earthmoving activities on slopes greater than 5%, approval of Erosion Control Plan (#02-454-ECPA) by Napa County considered "discretionary", and thus subject to review under CEQA. Project site located in hills between Silverado Trail and Lake Hennessey, about 2 miles northeast of Rutherford, 13 miles north of City of Napa. Erosion control measures to be implemented in proposed vineyard area, covering 161 acres (24% of total 678 acres). Property currently grazed by cattle, which would continue under proposed project. 	activities. The maximum arsenic and lead concentrations detected in soil samples collected from the sulphuret works area were 2,780 and 3,600 mg/kg, respectively.		
2008098058	Homeowner Project: Kirk Culverts Fish & Game #1 Wheatland--Yuba This project will place three 30-inch diameter side by side culverts and compacted gravel base in Grasshopper Slough to support a gravel road providing vehicle access for the landowner from Monarch Trail over the drainage.	NOE	
2008098059	Lower American River Sunrise Side Channel Project Fish & Game #2 -- The project applicant is planning to modify a side channel of the American River to increase the frequency of inundation and subsequent steelhead reproduction and rearing. The project site is about 3.5 miles downstream of Nimbus Dam, just below Sunrise Boulevard Bridge. Approximately 1,200 linear feet of the side channel will be re-contoured. No material will be imported or exported from the site. All excavated material will be used on-site to fill in existing holes and depressions throughout other areas of the point bar that currently have the potential to result in fish stranding. Equipment will access the site using an existing maintenance road and trail, and construction staging will take place outside of the ordinary high water mark in an area covered with ruderal vegetation adjacent to an existing turf area. Invasive and other nonnative plant species will be removed from the grading area and disposed off site. After grading of the side channel banks, the area will be planted with native riparian scrub vegetation to provide cover habitat and refugia for fry and juvenile fish.	NOE	
2008098060	Staglin Family Vineyards Culvert Installation Fish & Game #3 --Napa The proposed project involves modification of an unnamed tributary to the Napa River off Manley Lane as part of the development of the Staglin Winery in Rutherford, California (APN# 27-250-027). Grading for the new driveway shall require the redirection of an existing drainage swale through two 18" culverts on the northwest side of the Staglin Property. The first culvert is proposed to be 82 feet in length and the second is proposed to be 169 feet in length. The Department of Fish and Game is issuing a Streambed Alteration Agreement Number 1600-2008-0175-3 is pursuant to Fish and Game Code Section 1602.	NOE	
2008098061	Pocket Canal Channel Lining - Phase 2 (SAA 1600-2008-0140-R2) Fish & Game #1 Sacramento--Sacramento The project objective is to raise the existing concrete channel lining of the Pocket Canal to prevent continued erosion of the upper earth lined canal banks. A three inch thick layer of concrete will be applied to the graded side slope to raise the level of the existing lining up to 5 feet. A landscape strip above the lining will be planted with Dwarf coyote bush.	NOE

	recreational resort facilities and infrastructure will be developed on 13.8 acres and the remaining 300.8 acres will be a habitat conservation area. The project site is located within the Joshua Tree Planning Area.		
2008092015	Restoration of a Section of the Upper San Diego Ditch and Abandonment of a 1974 Flume Tuolumne Utilities District --Tuolumne The District proposes to restore raw water flows into a previously abandoned section of the ditch and abandon a wooden flume on the District's Upper San Diego Ditch near the Columbia College, which is in disrepair and leaking significantly. The restoration will consist of guniting approximately 80 feet of the ditch and construction of approximately 112 feet of 24" diameter pipe which will circumvent around the northwest side of the flume. The existing flume is approximately 113 feet in length and was constructed by PG&E in 1974 due to formation of a sinkhole.	MND	10/06/2008
2008092016	Tkach Rezone and Tentative Parcel Map P-08-18 Trinity County --Trinity Rezone from Agriculture Forest 20-acre minimum to Agriculture 10-acre minimum, and a tentative parcel map to create three parcels from 43.29 acres.	MND	10/06/2008
2008092017	Chapman Tentative Parcel Map P-08-17 Trinity County --Trinity Tentative parcel map to subdivide 87.97 acres into four parcels and a remainder. This is a project to divide a property between the surviving children of Frank Chapman.	MND	10/06/2008
2008092021	Bayfront Levee Improvements South of San Mateo Creek Project San Mateo, City of San Mateo--San Mateo The proposed project consists of the proposed construction, replacement, and/or improvements to the Bayfront levees at four locations along the shoreline of the San Francisco Bay from south of San Mateo Creek to the Foster City limits with levees and floodwalls that meet the Federal Emergency Management Agency (FEMA) standards for adequate flood protection against coincident 100-year (one-percent) high tides and wind generated waves and wave and wave runoff. The purpose of the proposed project is to improve 100-year flood protection and safety in the area.	MND	10/06/2008

2001031028	<p>Victoria Gardens Master Plan Amendments Rancho Cucamonga, City of Rancho Cucamonga--San Bernardino</p> <p>The Victoria Garden Master Plan was prepared as the governing land use and design document for a 174-acre site within the eastern area of the City of Rancho Cucamonga. The Master Plan was approved by the City in 2001.</p> <p>The project applicant (Forest City) is proposing to amend the Master Plan to include minor technical and conforming amendments to the Victoria Gardens Master Plan (VGMP) and related documents to allow flexibility to construct the remaining number of dwelling units and undeveloped commercial office/retail space as approved within the VGMP. The Victoria Arbors Master Plan is proposed to be amended to include references to the VGMP and a General Plan Amendment amending Table III-4 to increase dwelling unit density within the Residential Land Use designation for the Victoria Gardens Regional Mixed use Lifestyle Center. The amendments are designed to allow for the most efficient use of available land area within the VGMP project area, and to allow for creative and distinctive building design solutions in achieving these goals.</p>	NOP	10/06/2008
2008091026	<p>Topaz Solar Farm (Optisolar) Conditional Use Permit (DRC2008-00009) San Luis Obispo County --San Luis Obispo</p> <p>Request by Optisolar (Topaz Solar Farm)/Twisselman, et al for a 550 megawatt (MW) photovoltaic solar power plant to be installed over an approximate 6,200 acre (9.7 square miles) area. The project would be constructed in two phase where the first phase would install 210 MW in the first phase with the remaining 340 MW in the second phase.</p>	NOP	10/06/2008
2008091028	<p>Riverview Gateway and Cornerstone Church Redevelopment Project National City National City--San Diego</p> <p>The proposed project includes a mixed-use development (Riverview Gateway) and a church youth center (Cornerstone Church Project) on a 23.8 acre site currently developed as a shopping center in National City. The Riverview Gateway project proposes a mixed-use development including the addition of 22,513 sq. ft. of commercial building area (for a total of 187,315 sq. ft.), 643 residential units, 1.35 acres of plaza areas, and a total of 2,417 parking spaces. The project will also include an off-site sewer line upgrade and a new traffic signal of Sweetwater Road. The Cornerstone Church project proposes a youth center with 351,524 sq. ft. for various uses such as administrative offices, an indoor sports room, learning centers, computer lounges, storage facilities and parking. A 3-story parking structure would provide 533 parking spaces for the center.</p>	NOP	10/06/2008
2008091030	<p>VORTEX Specific Plan Desert Hot Springs, City of Desert Hot Springs--Riverside</p> <p>Within the approximately 131.56-acre area designated as Planning Area 0.01 through 3.06, the specific plan would allow for the phased development of a max of 504 residential units and 100 hotel/timeshare units, as well as 491,600 s.f. of retail uses, 77,000 s.f. of public facilities, 76,000 s.f. of institutional uses, and 21,400 s.f. of greenway (open space), for a total of 662,300 s.f. of nonresidential uses. Additionally, within the Civic Center Campus area (20-ac) west of West Drive, a maximum of 185,000 s.f. of public facilities/services use would be allowed.</p>	NOP	10/06/2008

2008092019	<p>Yerba Buena Island Ramps Improvement Project San Francisco County Transportation Authority --San Francisco</p> <p>This project has been proposed to address the geometric and operational deficiencies of the existing on-and off-ramps and their effects on the San Francisco-Oakland Bay Bridge (I-80) mainline without degrading the mainline operation as compared to the no-action alternative. This project would improve safety and facilitate traffic operations at the I-80/Yerba Buena Island (YBI) interchange by replacing the westbound on and off ramps on the east side of YBI. The feasibility of improving the geometric configuration and operational improvements of the eastbound off-ramp to Hillcrest Road on the east side of YBI will also be studied.</p>	NOP	10/06/2008
2008092020	<p>Salt Creek Heights Subdivision Redding, City of Redding--Shasta</p> <p>The proposed Project consists of approximately 272 acres of undeveloped land located on the west side of Redding, with approximately 100 acres of 272 acres that are suitable for development. The project proposes the development of 440 residential units (248 single-family units, 96 clustered single-family units, and 96 apartment units) designed with a mix of housing types, including single-family, multiple-family, cluster homes with motor courts, and custom home sites.</p>	NOP	10/06/2008
2008091025	<p>Approval of Remedial Action Plan for the Former Brown and Bryant, Shafter Site (APN #s 026-190-05 & 026-190-25) Toxic Substances Control, Department of Shafter--Kern</p> <p>The project is for the Department of Toxic Substances Control's approval of the Remedial Action Plan (RAP) for remediation of the former Brown and Bryant, Shafter facility, hereafter referred to as the "Site". The Proposed Action includes implementation of institutional control and land use controls in the form of deed restrictions/land use covenants on the land, continuation of the existing groundwater monitoring program, excavation and offsite disposal of shallow soils (0 to 6 feet) affected by pesticide and metals and in-situ soil vapor extraction (SVE) of deep soil (depths to 120 feet) affected by volatile organic compounds. Approximately 5,100 tons of pesticide and metal affected shallow soil will be excavated from several different locations throughout the site. The excavated soils will be disposed of offsite either at a Class I landfill or a Substitute D landfill depending on disposal profiling. Excavated areas will be backfilled with compacted clean soil once confirmation samples demonstrate that the remediations goals have been met.</p>	Neg	10/06/2008
2008092018	<p>Kiernan Court Office Park Stanislaus County Modesto--Stanislaus</p> <p>Request to amend the General Plan and rezone from HCPD (Highway Commercial Planned Development) / A2-40 (General Agriculture) to Planned Development and create three (3) parcels measuring 1.07, 1.01, and 0.98 acres from a 3.06 acre parcel. The parcels will be served to City of Modesto water and Salida Sanitary District. Although the applicants do not intend to develop the site themselves they are requesting approval of a three (3) story 69,531 square foot office building.</p>	Neg	10/06/2008

Three additional "lettered" parcels are proposed encompassing areas designated as follows: Lot A - Sewage Disposal Area; Lot B - Detention and Water Quality Basin; Lot C - Common Area along the Rock Creek Corridor.	MND	10/07/2008
2008061103	Splash n' Dash Development Plan and Lot Line Adjustment Santa Barbara County --Santa Barbara The proposed project entails: a) 07DVP-00000-00033 for approval of a Final Development Plan to allow for the construction of an approximately 2,107 square foot carwash facility of approximately 28 feet in height, and signage; b) 07CUP-00000-00091 for the approval of a Minor Conditional Use Permit to allow for a mechanical carwash pursuant to Section 35.24.030 of the Santa Barbara County Land Use and Development Code (LUDC). Proposed project signs include a monument sign of approximately 10 feet in height consisting of the words "Splash 'n' Dash Carwash," and a lower digital (non-animated) changeable copy sign of approximately 13 sq. ft., and 1 wall sign consisting of the words "Splash n' Dash Carwash" to be located on the main building, and 1 decorative wall sign to be located on the silo structure face to the west.	MND	10/07/2008
2008091031	Inyo County Collaborative Bikeways Plan Inyo County --Inyo The Inyo County 2008 Collaborative Bikeways Plan is the official Bicycle Transportation Plan of the County of Inyo City of Bishop, and Bishop Paiute Tribe, herein referred to as the "Collaborating Agencies," for the purposes of Streets and Highways Code, Section 891.2 and 891.4 and for state Bicycle Transportation Account (BTA) funding applications. The BMP is a long term planning document meant to identify needs and opportunities for the growth of the County's Bikeway System. The Inyo County BMP was updated in 2002 and a Draft Collaborative Bikeways Plan was prepared in 2007, but not adopted. This current 2008 Collaborative Bikeways Plan provides an update to both previous plans and accomplishes the following: describes existing bicycle facilities and programs within Inyo County, evaluates the need for bicycle facilities and programs throughout the county, including the City of Bishop. Unincorporated communities, and the Bishop Reservation; and describes their relationships to existing facilities and programs; proposes new bikeway facilities and programs and prioritizes their development, identifies funding sources and implementation guidelines and phasing; defines policies and standards for the improvement of bicycle facilities, engineering practices and procedures, education, and law enforcement pertaining to bicycling. This plan supports and expands policies outlines in the Inyo County General Plan and the County's 2002 Regional Transportation Plan (RTP) and Draft 2007/2008 Regional Transportation Plan. 2008091034	<p>El Centro Elementary School Hesperia Unified School District --San Bernardino</p> <p>The Hesperia Unified School District (District) proposes to construct, operate, and maintain a new education facility, El Centro Elementary School (Proposed Project), to assist in the relief of overcrowding at the District's elementary schools. The El Centro Elementary School will have an enrollment capacity of 1,000 students, and 56 classrooms, for kindergarten through sixth grade. The Proposed Project consists of a one-story building encompassing approximately 66,440 square feet of new building development plus 17,280 square feet of modular space.</p>	MND	10/07/2008
2008091035	<p>Children's Lighthouse - P08-0407 (CUP) and P08-0410 (DR) Riverside, City of Riverside--Riverside</p> <p>The applicant has requested approval of a Conditional Use Permit and Design Review application to establish and operate a day care facility for children. The facility will accommodate a maximum of 193 children on a 3.85 acre site, currently developed with a single-family residence. The project includes the demolition of the existing residence, construction of a 10,000 sq. ft., single story daycare building, a 49 stall parking lot with paved driveway, an outdoor play area, and off-site improvements (including curb, gutter, and sidewalk per City standards). The project proposes the 100% avoidance of the existing drainage area located at the southeast corner of the project site.</p>	MND	10/07/2008
2008092025	<p>Overlook Road Septic System Conversion Project West Valley Sanitation District Los Gatos--Santa Clara</p> <p>The District is proposing an amendment to its current Sphere of Influence to facilitate the concurrent annexation of 20 existing residential properties into its service area. The Project would enable for the conversion of existing septic systems to sanitary sewer service. The Project will include the construction of a 6-inch sewer pipeline along portions of Overlook Road and Linda Vista Avenue.</p>	MND	10/07/2008
2008092028	<p>Smith Lake and Mt. Elwell Trail Reroute Eastern Plumas Recreation District --Plumas</p> <p>The proposed project is located in the Lakes Basin Recreational Area, Plumas County, California, which is positioned in the Sierra Nevada Mountains. The Beckwourth Ranger District has analyzed a proposal to reroute portions of the Smith Lake and Mt. Elwell Trails. This proposed project would move the Smith Lake Trail out of the riparian area and install one or two bridge crossings at Smith Creek east of Smith Lake. Boardwalks may also be constructed to raise the trail above the wet areas. It would also move the through trail around Smith Lake (which connects to the Jamison Creek Trail) to the ridge on the north side of the lake. Access for camping and fishing at the lake would still be available using the old trail. The existing trail at the west end of lake, as it climbs out, would be decommissioned. The fisherman path along the southern shore would remain. The reroute of the Smith Lake trail would require approximately 1 mile of new construction.</p> <p>The reroutes for the Mt. Elwell Trail would include the construction and realignment of about a dozen switchbacks. The grades would be reduced from 25%+ to a continuous 8-10%. There would be a few sections that would be slightly</p>	MND	10/07/2008

	greater slope. The switchbacks will be placed to avoid "stacking" of the trail sections, which often leads to trail cutting. Brush and other obstacles will also be used to discourage hikers from leaving the established trail. The trail realignment location avoids all drainages and the cutting of live trees. Some brush work would need to be done. The reroute would include approximately 1 mile of new trail construction.		
2008092029	2006-36 Tentative Subdivision Tract Map Calaveras County Murphys--Calaveras The applicants are requesting Tentative Subdivision Tract Map (TSTM) approval, dividing 4.91 acres into 19 residential lots, and one lot dedicated to the County as a public easement for open space along Angels Creek, consisting of an 8 foot wide pedestrian trail, and a 12 foot wide storm water easement. The subdivision is accessed off of Tom Bell Road via an interior road, Murphys Creek Road. The site is located on the south side of State Highway 4 and approximately 0.1 mile east of the intersection with State Highway 4 and Tom Bell Road in Murphys.	MND	10/07/2008
2008092033	Tract Map 1969 (Anderson) Shasta County Redding--Shasta The request is for approval of an 11-lot subdivision consisting of 2.02 to 2.58-acre parcels for single-family residential development.	MND	10/07/2008
2008092035	Bodega Volunteer Fire Station Sonoma County --Sonoma Use Permit, Design Review, and Variance for a new 4,700 square foot fire station on a half acre lot containing a post office.	MND	10/08/2008
2008092032	Granite Creek Plaza Rocklin, City of Rocklin--Placer The project proposes to subdivide two vacant parcels into 12 retail/commercial lots and one common-interest lot consisting of parking (1,140 spaces), circulation and landscaping. The lots would consist of 2 major (56,000 sf) and 2 minor retail uses (10,000 sf), 7 commercial pads (42,000 sf), and a 16-screen movie theater (54,300). No building designs have been proposed at this time, but the total building footprint is approximately 162,300 sf. The project also seeks an amendment to the City's Parking Ordinance to reduce parking requirements related to the movie theater.	NOP	10/07/2008
2005122050	Use Permit 05-035 - Tatom Shasta County Redding--Shasta The request is for an amendment to the Use Permit for an auto dismantling yard to allow a paint spray booth for painting automobiles and parts. The approximate size of the booth would be 14' by 30' and it would be located in the existing warehouse building on the west side of the parcel.	Neg	10/07/2008
2008091032	Ford Lance Minor Use Permit / DRC2006-00135 San Luis Obispo County --San Luis Obispo Request by Lance Ford for a Minor Use Permit to allow for construction of a winery/tasting room in two buildings. Building A consists of 5,402 square feet and will contain the tasting facility, barrel storage and office/lab area. Building B will	Neg	10/07/2008

1992023051	Neary Lagoon Management Plan Santa Cruz, City of Santa Cruz--Santa Cruz The City proposes to remove tules and bulrush from Neary Lagoon in the City of Santa Cruz to preserve open water areas. Equipment used to carry out the project will include an aquamog with a clam bucket, tule rake or rotoator and a harvester to collect the uprooted material. Vegetation is either pulled out directly by the clam bucket, turned up by the rake, or chopped out with the rotoator. Vegetation is collected by the harvester that follows behind the aquamog. The uprooted vegetation is trucked to an appropriate disposal site outside the project area. The existing floating walkway across the lagoon will be temporarily removed to allow access for the project. The project is located in the City of Santa Cruz, between Laurel and Bay Street and southeast of California Street. The California Department of Fish and Game is executing a Lake and Streambed Alteration Agreement Number 1600-2008-0396-3 pursuant to Section 1602 of the Fish and Game Code to the project Applicant, Santa Cruz City, Department of Public Works. 	<p>Valley Creek channel to remove sediment from the bottom of the channel. Operating from the top of bank or road, a gradall would dig out accumulated sediment from this creek channel and adjacent Silver Hills Creek drainage ditches. Temporary cofferdams would be used to de-water the creek channel, isolate the work area, and protect water quality and aquatic resources. Excavation of sediment will result in the temporary loss of brackish and fresh water marsh vegetation and removal of 12 riparian trees (willows and alders approximately 2-8 inches in diameter). These habitats support the following listed threatened and endangered species that potentially occur within the project area: California black rail, California red-legged frog, coho salmon and steelhead trout. MCDPW will emphasize avoidance of impacts to biological resources and water quality through the use of specific and general measures and provide in-kind replacement of removed riparian trees over 6 inches in trunk diameter.</p>		
2008072091	<p>Secret Special Permit to Reduce a Streamside Management Area Humboldt County --Humboldt</p> <p>A Special Permit to reduce the streamside management area to 75' to allow for the construction of a single family residence (approx. 3,000 square feet). A small unnamed tributary to the Van Duzen River bisects the parcels. The tributary has both ephemeral and perennial reaches on the parcel with prescribed setbacks of 50 and 100 feet respectively. A voluntary notice of merger is also proposed to result in one approximately 2.08 acre parcel. Approximately 40 trees consisting of Douglas fir, tanoak and big leaf maple are proposed to be removed. The applicant will apply with CDF for a less than three acre conversion permit. Minimal grading is required. A workshop (approx. 1,800 square feet) is also proposed. The workshop will not encroach in the streamside management area and is principally permitted.</p>	NOD	
2008099005	<p>Smith Lake and Mt. Elwell Trail Reroute Eastern Plumas Recreation District --Plumas</p> <p>The Beckwourth Ranger District has analyzed a proposal to reroute portions of the Smith Lake and Mt. Elwell Trails. This proposed project would move the Smith Lake Trail out of the riparian area and install one or two bridge crossings at Smith Creek east of Smith lake. It would also move the through trail around Smith Lake to the ridge on the north side of the lake. The reroutes for the Mt. Elwell Trail would include the construction and realignment of about a dozen switchbacks.</p>	NOD

	wetlands into scrub land. Fires in fall 2007 created flashier flows more capable of producing stream erosion, and this project is in response to that possibility of flashier flows.		
2008098069	Trout Creek Bank Restoration Project, Agreement No. 2008-0004-R4 Fish & Game #4 --San Luis Obispo Activities include Reducing a 50-foot long vertical, eroding bank to a 3:1 slope, which will be accomplished using a backhoe operating from the bank; repairing an erosion headcut within a roadside ditch that discharges into Trout Creek, by realigning and lengthening it to create a gradual, 5% grade over 100 feet of length; and installing an anchored tree trunk or brush near the pond outlet to raise the pool elevation enough to improve fish passage through the culvert.	NOE	
2008098070	Chevron Pipeline Replacement and Support Installation, Agreement No. 2007-0117-R4 Fish & Game #4 --Kern Replace a portion of the existing aboveground 18G to 27G 16-inch crude oil line with a new 8-inch pipeline and install a new concrete pipeline support along the aboveground 8-inch pipeline within the intermittent streambed. The project will result in construction activities within an approximately 30 by 60 foot section of the stream. The resulting pipeline support will be approximately 3 feet in diameter, or an area of 7.1 square feet. Work will occur when the ephemeral stream is dry, and disturbed areas will be recontoured and revegetated.	NOE	
2008098071	Sonoma County River Bank Stabilization Fish & Game #3 --Sonoma This project proposes to re-establish 150 lineal feet of river bank to the approximate pre-2006 configuration using rip rap. Prior to the placement of rock, Mirafi 500X fabric will be placed behind the rock against the native soil. 18-inch to 24-inch rip rap will be placed along the toe of the slope. The voids will be filled with 6-inch to 12-inch rock and 3/4 inch gravel. SAA #1600-2008-0324-3	NOE	
2008098072	Humboldt Co. DPW - Alderpoint Road P.M. 45.64, Storm Damage Repair Regional Water Quality Control Board, Region 1 (North Coast), Santa Rosa --Humboldt A large slipout occurred on Alderpoint Road at Post Mile 45.64 during the winter storms of 2005-2006. The slipout is approximately 145 feet at its widest point along the roadway and extends approximately 24 feet down the slope below the roadway. The slipout surrounds an existing 24-inch diameter plastic culvert that conveys an ephemeral stream under the roadway. The purpose of the project is to repair the roadway and slipout area.	NOE	
2008098073	Delta Marina Dredging 2008 Fish & Game #3 Rio Vista--Solano The Delta Marina Yacht Harbor is located on the Sacramento River at 100 Marina Drive in Rio Vista (Solano County). The applicant is proposing maintenance dredging of the existing marina to the original designed depths of -7 MLLW. Depths will be achieved using standard procedure in shallow waters. Dredging will be performed using an excavator, clamshell crane, and/or clamshell excavator mounted on a scow.	NOE

2008098074	Sunnyside Nursery Diversion Fish & Game #3 San Anselmo--Marin The project consists of the operation of an instream diversion that is utilized to pump water from Corte Madera Creek to irrigate nursery stock at a commercial nursery. Facilities associated with the operation of this diversion includes a 1 1/2 hp water pump that draws water from an un-screened diversion intake, or "sump", located on the stream bank/bed that pumps water vertically, approximately 20 feet, up to a small pressure tank with an approximate capacity of 50 gallons. SAA# 1600-2008-0332-3	NOE	
2008098075	Lechuza Beach - Public Access Improvements Project - REVISED Mountains Recreation and Conservation Authority Malibu--Los Angeles This is a public works project consisting of upgrades and repairs to two existing staircases at a public beach to improve safety and accessibility, and establishment of three disabled parking spaces, viewing platform, and view area. One existing staircase and overlook would be reconstructed at the beach terminus of West Sea Level Drive. The other existing staircase and pathway to be improved (Lot 1) spans the area from the intersection of Bunnie Lane and Broad Beach Road, south to the terminus of East Sea Level Drive at the beach.	NOE	
2008098076	Agreement 2008-0087-R4; Ted R. Cooper Properties Culverts Fish & Game #4 --San Luis Obispo The project will consists of installation of two 34 foot long cast-in-place concrete box culverts with flat wingwalls. Culvert No.1 is 10 feet wide by 6 feet tall; wingwalls are 10 feet long and taper from 6 feet tall. Culvert No. 2 is 14 feet wide by 9 feet tall; wingwalls are 20 feet long and taper from 10 feet tall. 42 cubic yards of concrete will be used, and fill will consist of 25 cubic yards of clean soil.	NOE	
2008098077	Lease of Office Space in new Multi-Tenant Building Industrial Relations, Department of Sacramento--Sacramento The Department of Industrial Relations, Division of Workers' Compensation Appeals Board, 31,413 square feet of office space. The office would have approximately 69 employees and includes adequate public parking. Public transit is available within 1/4 mile of the site.	NOE	
2008098078	Folsom State Prison Tower Renovation Project Corrections and Rehabilitation, Department of --Sacramento The Folsom State Prison Tower Renovation Project (Project) consists of assorted renovations and improvements to several of the existing guard towers at Folsom State Prison (FSP). The existing towers at FSP range from approximately 30 to 100 years in age, and many have outlived their useful life expectancy and are in need of renovation. Because of both their age and associated state deterioration, many of the towers do not meet modern security needs, or fire and safety needs, and are in violation of assorted building codes and CAL-OSHA and Title 24 regulations.	NOE

	activities associated with the installation of a signal, drainage improvements, addition of right-turn lanes, left-turn lane lengthening, 5ft retaining wall on Road 415, new lane striping and crosswalk striping, and minimal road widening within the existing footprint for turn channelization.		
2008098099	Lanes Bridge Dr. & Childrens Blvd Traffic Signal Installation Madera County --Madera The project is located on the main service route for one of the largest Children's Hospitals in the San Joaquin Valley at the intersection of Lanes Bridge Drive and Children's Boulevard. Improvements such as three signal lights, a left turn lane, a signal control device for emergency vehicles, and synchronizing existing traffic signals will be installed at the existing intersection facilitating improved traffic flow and safety for motorists traveling this route. All improvements will be constructed within the existing road right of way.	NOE	
2008098100	Willow Slough Bypass Slip Repair Project Fish & Game #2 --Yolo DWR proposes to repair the levee slip by excavating and reshaping the area to the original levee slope design (a 4 vertical to 5 horizontal slope), and then placing approximately 830 cubic yards of a riprap soil mix into the levee slip area. Along the levee toe, a keyway will be excavated approximately 10 feet wide, 140 feet long, and 5 feet deep along the channel. The keyway will be filled with approximately 130 cubic yards of 300-pound riprap. A riprap soil mix will be placed over the keyed in rock and will continue up the levee slope to the toe road.	NOE	
2008098101	Cosumnes River Flash Board Repair Projects Fish & Game #2 Elk Grove--Sacramento The project consists of a flashboard dam facility repair, which includes bank stabilization, pressure grouting and replacemtn of rock riprap to fill all vertical drops created by storm flows on the downstream portion of each dam.	NOE	
2008098102	Christian Valley Orr Creek Culvert Replacement SAA #1600-2008-0232-R2 Fish & Game #2 --Placer Placement of two additional culverts parallel to three existing culverts and construction of replacement headwalls. New headwalls are proposed to protect the roadbed and improve flow through all five culverts. Construction of the concrete headwalls will require minimal vegetation removal within the natural channel, and is not expected to impact the riparian habitiat. Temproary straw waddles will be placed along the banks and downstream of the construction before construction starts.	NOE	
2008098103	Kinder-Morgan Pipeline Washout Protection (1600-2008-0166-R2) Fish & Game #2 Rocklin--Placer Protection of a fuel transmission pipeline where it crosses Antelope creek though the placement of interlinked concrete mats over the pipeline and extending for approximately 10 feet upstream and ten feet downstream of the pipe crossing. The water in the creek will be diverted around the project site by means of an upstream coffer dam with a pump to convey the water through a pipe to a downstream riffle where it will be discharged	NOE

2008098104	Repair Ruck-a-Chucky Portage Trail (SAA #1600-2008-0196-R2) Fish & Game #2 --Placer This project is a repair of the existing Portage Trail at Ruck-a-Chucky rapids. The project includes the reconstruction of approximately 464 cubic feet of structured dry stacked walls to support the trail tread. The project will use rocks from the project vicinity, transporting and shaping the rocks by hand tools, using no mortar or cement products.	NOE	
2008098105	Granite Bay Low Water Boat Ramp Widening Fish & Game #2 --Placer The proposed project will widen the existing concrete low water boat launch ramp at Granite Bay, Folsom Lake. The ramp will be 20 feet to the north (left) and 15 feet to the south (right), for a total of 35 feet. The widening will occur on what is not a rip rap covered slope. The new concrete slab will be 6 inches thick match the existing slab. Two new cables will be installed, replacing the single floating dock, with two floating docks.	NOE	
2008098106	Knuger Culvert Project Fish & Game #2 Paradise--Butte Project proposes to construct four 4 foot culverts in order to construct a crossing over Wilson Creek.	NOE	
2008098107	Truckee River Watershed Monitoring Project Truckee, City of Truckee--Placer, Nevada Project involves a water quality monitoring program and installation of water collection devices. Purpose is to obtain consistent information to track health of watershed and resource evaluation. Data is to be made public and assist in future land use decisions, stormwater management, and to protect the beneficial uses of the waterways.	NOE	
2008098108	Lease of Existing Office Space Fair Employment and Housing, Department of San Bernardino--San Bernardino District Office that investigate, conciliate and prosecute complaints of employment, housing, public accommodation, discrimination and hate crimes.	NOE	
2008098109	Leasing of New Office Space Health Services, Department of Chico--Butte Location for Licensing and Certification Field Office.	NOE	
2008098110	New Office Space State Independent Living Council Sacramento--Sacramento The State Independent Living Council proposes to lease approximately 2,500 square feet of new office space at 1102 Q Street, Suite 100, Sacramento. The space would house approximately 3 employees. Public parking is available. Public transit is available within 1/20 mile of the site.	NOE

2008094001	Augustine Indian Reservation Fee-to-Trust Transfer of Approximately 37-acres Bureau of Indian Affairs --Riverside Note: EA/FONSI The project proposes to take a 37.08-acre (approximately 37-acre) fee-simple parcel owned by the Augustine Band of Cahuilla Mission Indians (Tribe) within the exterior boundaries of the Augustine Indian Reservation into tribal trust status. This would increase the acreage of the existing Reservation from 502 acres to 540 acres. No changes in land use or development are currently proposed or planned. The BIA is the principal federal agency with jurisdiction over Indian trust lands and other trust matters and will use this EA to determine if approval of the transfer to tribal trust status would result in significant effects to the Human Environment. The approximately 37-acre Area of Potential Effect (APE) is located in the south-central portion of Riverside County. It is located on land south of State Route 111 and west of State Route 86. The parcel is located in the southwest corner of Section 18. The project is located in Section 18, Township 6 South, Range 8 East as shown on the Indio USGS 7.5' Quadrangle. Specifically, the project site is located at the northeast corner of Van Buren Street and Airport Boulevard, immediately east of Coachella Valley Union High School. The purpose of the proposed action is to provide increased long-term socio-economic security for the Augustine Band of Cahuilla Mission Indians through the expansion of the Reservation. While no development of the approximately 37 acres is proposed or planned at this time, the Tribe will gain the ability and the authority to make land use decision regarding this parcel.	EA	10/09/2008

	the demolition of the 8,590-square foot Weisz Building.		
2008091047	Modernization of Monrovia High School Monrovia Unified School District Monrovia--Los Angeles Modernization of Monrovia High School including (1) demolition of satellite kitchen, student store, and stadium seating structures; (2) construction of one-story gymnasium, two stadium bleacher structures, one of which will have an elevator, two-story science building with elevator, student lunch seating area outside the cafeteria, and various hardscape and landscape areas; (3) installation of underground utilities; (4) removal of relocatable buildings for an additional parking lot, and (5) installation of artificial turf on the football field and track.	MND	10/09/2008
2008091050	Design and Drilling of RSCD Wells 10 & 11 Rosamond Community Services District --Kern Drill Water well in each parcel. These will be potable water producing wells to serve the Rosamond community.	MND	10/09/2008
2008092039	Arroyo Las Positas Weir Replacement Project Zone 7 Water Agency Livermore--Alameda Zone 7 Water Agency (Zone 7) proposes to remove an existing concrete pad currently used to control stream flow in Arroyo Las Positas under the North Livermore Avenue Bridge and to replace it with a V-notched concrete weir. Because of the increased flow through the Arroyo Las Positas, the existing concrete pad has been unable to sufficiently control flow to allow accurate stage and discharge measurements at the Arroyo Las Positas near Livermore gauging station. The purpose of the project is to provide Zone 7 with a control structure that accommodates seasonal flows that will provide accurate stage and discharge data for the stream, especially during the periods of low flow.	MND	10/09/2008
2008092041	110 The Embarcadero Project San Francisco, City and County of San Francisco--San Francisco The proposed project would entail demolition of an existing two-story office and construction of a new 123 foot-tall, 10-story building containing approximately 50,000 gross square feet of office space and about 700 square feet of retail use on the ground floor. Parking for 14 cars, including disabled-accessible space, would be provided, primarily by means of a mechanical stacker system at the ground floor, accessible from Steuart Street. No off-street loading would be provided. The project sponsor has received a Platinum Leadership in Energy and Environmental Design (LEED) Core & Shell pre-certification for the proposed project through the United States Green Building Council.	MND	10/09/2008
2008092042	Larry Wehmeyer Educational Area Siskiyou County Mount Shasta--Siskiyou Siskiyou County Office of Education is proposing to make improvements to the overall physical infrastructure of the Larry Wehmeyer Environmental Education Area to provide updated and safe facilities for school children for outdoor environmental programs. The site consists of improved and unimproved trails and bridges, waterways, wooded areas and a pond. Improvements will relocate trails out of environmentally sensitive areas and adjacent private property, a restroom, indoor and outdoor education structures, signage and improved parking.	MND	10/09/2008

2008092045	Metteer Minor Land Division (PMLD T20070735) Placer County Auburn--Placer Project proposes to subdivide the 24 acre parcel into four single-family residential lots ranging from 2.7 acres to 11.5 acres.	MND	10/10/2008
2007021054	Aerie (PA2005-196) Newport Beach, City of Newport Beach--Orange The project applicant, Advanced Real Estate Services, Inc., is proposing to develop the 1.4 acre site with an 8-unit condominium development. The total development area will encompass 62,709 square feet and includes living area, storage areas, parking, and circulation and mechanical areas. In addition, the project applicant is also proposing the replacement and reconfiguration of the existing gangway platform, pier walkway and dock facilities on the site. Eight (8) replacement slips and a guest side-tie dock are proposed. Project implementation will necessitate the approval of a General Plan Amendment (GP2005-006), Coastal Land Use Plan Amendment (LC2005-002), Zone Change (CA2005-009), Tract Map (NT2005-004/TT16882), Modification Permit (MD2005-087), and Coastal Residential Development Permit (CR2005-002).	NOP	10/09/2008
2008091048	8801 Sunset Boulevard West Hollywood, City of West Hollywood--Los Angeles The proposed project involves the redevelopment of an approximately 1.0-acre parcel located at 8801 Sunset Boulevard in the City of West Hollywood with 52,031 square-feet of commercial and retail space plus parking. Demolition of the existing one-story, former Tower Records building (totaling 8,660 square-feet) would be required to allow for development of the proposed project. The former Tower Records building is currently occupied by the retail clothing tenant, Live! On Sunset.	NOP	10/09/2008

	removal of a 45-foot long by 10-foot wide retaining wall (450 sq ft) on the west bank; the removal of a 100-foot long by 10-foot (1,000 sq ft) wide section of rock rip rap on the east bank; slope toe reinforcement with boulders, the excavation of soil from 2.5 horizontal to 1 vertical bank; placement of a 48-foot long by 5-foot wide steel stringer, clear span pedestrian bridge; and revegetation of the site with native riparian corridor plants. The project is situated on a portion of the park property known as The Blackberry Farm, formerly a picnic area located at 21975 San fernando Avenue in Cupertino in Santa Clara County. The California Department o Fish and Game is Executing a Lake and Streambed Alteration Agreement Number 1600-2008-0383-3 pursuant to Section 1602 of the Fish and Game Code to the Project Applicant, Terry Greene, City of Cupertino.		
2006112077	New Crystal Springs Bypass Tunnel Project San Francisco, City and County of Hillsborough--San Mateo The New Crystal Springs Bypass Tunnel (NCSBT) would construct a 4,200 foot long tunnel with a 96-inch diameter steel pipeline below Polhemus Road in an unincorporated area of San Mateo County, on the San Francisco Peninsula. The tunnel would convey drinking water to northern San Mateo County and San Francisco customers. An existing 96-inch prestressed concrete pipeline currently conveys water to these customers. The SFPUC determined that the existing pipeline had been subject to significant geologic hazards from slope instability, which could damage the pipeline and interrupt water service. The proposed tunnel would be located approximately parallel to Polhemus Road with one shaft (South Shaft) located adjacent to a decommissioned SFPUC fluoride confluence with Polhemus Creek. Minor ancillary construction would also occur above ground near the North Shaft area. The California Department of Fish and Game is executing a Lake and Streambed Alteration Agreement Number 1600-2007-0503-3 pursuant to Section 1602 of the Fish and Game Code to the project Applicant, Husam Masri, San Francisco Public Utilities Commission.	NOD	
2008011078	Central Region Glassell Park Early Education Center and Affordable Housing Los Angeles Unified School District Los Angeles, City of--Los Angeles The Proposed Project is the construction and operation of a combined use development, the Central Region Glassell Park Early Education Center (EEC) and Affordable Housing project. The proposed project includes an approximately 13,125 square foot play area and up to 50 affordable housing units on a 1.35 acre site. The proposed EEC would provide 175 year-round seats for pre-Kindergarten students in seven classrooms. The proposed EEC complex would also include administrative space within the one-story classroom building.	NOD	
2008099008	County File #LP05-2026 Contra Costa County --Contra Costa This is a request for Land Use Permit with Final Development Plan approval to expand the Sugar Barge Resort and Marina by constructing 19 motal buildings for dry boat storage on 10.5 acres, establishing outdoor Dry Boat storage and Recreational Vehicle (RV) storage with parking on 13 acres. The property is a 38-acre parcel located south of Willow Road and North of Sugar Barge Road in the unincorporated Bethel Island area.	NOD

2008098123	Ambler Park Water Treatment Plant Health Services, Department of Salinas--Monterey The operation of a 600 GPM arsenic treatment system within the existing Ambler Park Water Treatment Facility. The treatment process will produce backwash sludge which will be piped into trucks for disposal at an appropriate waste facility based on chemical sampling.	NOE	
2008098124	Water Storage Replacemtn Project, Desert Research and Extension Center University of California, Davis --Imperial UC Agriculture and Natural Resources proposes to replace eight underground water cisterns with an aboveground water storage tank. A replacement will be more efficient than the expected on-going and extensive maintenance efforts for the cisterns. The underground cisterns will be removed and the new tank will be sited on the same site as the cisterns. The project will not expand water storage or consumption and no offsite utility work is needed to support the proposed project.	NOE	
2008098125	Replacement of Three Potable Water Tanks at Los Banos Creek Reservoir Parks and Recreation, Department of --Merced Replace two 1,000 gallon and one 2,000 gallon existing potable water storage tanks with three new 2,000 gallon potable water storage tanks, in the Los Banos Creek Reservoir Area of San Luis Reservoir State Recreation Area. The locations consist of the boat launch area, day use/campground, and park residence. All three water storage tanks will be equipped with fire suppression piping capabilities for Cal Fire.	NOE	
2008098126	Demonstrating Compatibility of Water Quality and Food Safety Through Research and Implementation (Project); State Water Resources Control Board Salinas, San Juan Bautista, Watsonville--Monterey, San Benito, Santa Cruz The purposes of the Project are to reduce agricultural pollution sources and to develop a risk reduction assessment of food safety parameters. Project Task 2.6 involves conducting field trials to evaluate the efficiency of vegetated treatment systems (existing ponds and drainage ditches) in improving water quality of irrigation runoff/tailwater.	NOE	
2008098128	Fee Schedule Revision Parks and Recreation, Department of --Los Angeles, Monterey Application of the State Park System fee schedule revision for two State Park Units. As set forth in the Statement of Findings, the purpose of the fee change is to fund the operation of the California's State Park System.	NOE

2006102136	<p>Sacramento 8-Hour Ozone Attainment Demonstration and Reasonable Further Progress Plan</p> <p>Sacramento Metropolitan Air Quality Management District --Sacramento, Yolo, Placer, El Dorado, Solano, Sutter</p> <p>The Sacramento Federal Non-Attainment Area (SFNA) is classified as a "serious" ozone nonattainment area for the federal 8-hour ozone standard. Therefore, the air districts within the SFNA are preparing an 8-Hour Ozone Attainment Demonstration and Reasonable Further Progress Plan to meet the federal 8-hour ozone standard. The Plan identifies sufficient control measures to demonstrate that the region will attain the 8-hour standard by the target dates.</p>	EIR	10/27/2008
2007071103	<p>Fashion Square Expansion Project</p> <p>Los Angeles, City of Los Angeles, City of--Los Angeles</p> <p>Project proposed by the applicant, Sherman Oaks Fashion Associates (an affiliated company of Westfield). The applicant seeks approval of to expand the existing Fashion Square shopping center on an approximate 28.8 acre site. Implementation of the shopping center expansion project requires a Zone Change to bring the entire site to (T)(Q)C2-1L, a Conditional Use Permit for construction of a "Major Development Project" (MDP) that exceeds the threshold of 100,000 square feet of non-residential development, a Conditional Use Permit for Commercial Corner development, a Zone Variance to deviate from the 45-foot height restriction of the Commercial Corner regulations, a Conditional Use Permit for the on-site sale and consumption of a full line of alcoholic beverages (CUB), and a request for a Shared Parking.</p> <p>The project involves construction of 280,000 gross leasable square feet (GLSF) of new retail/restaurant commercial space and additional structure parking, resulting in a cumulative total buildout of 1,147,000 GLSF of commercial space and a total of 5,148 parking spaces (combined surface and structured parking). Total new uses are anticipated to include 240,000 GLSF (i.e., 355,227 gross SF) of new "in-line" retail space and 40,000 GLSF (i.e., 71,329 gross SF) of new restaurant space, in addition to approximately 1,235 new parking spaces.</p>	EIR	10/27/2008
2008041088	<p>Central Region Elementary School No. 22</p> <p>Los Angeles Unified School District Los Angeles, City of--Los Angeles</p> <p>The proposed project includes the construction and operation of the Central Region Elementary School No. 22. The project site is located on the Playa Vista Development and is currently vacant. The proposed project would primarily serve students who live in Playa Vista although it is not intended to be exclusive to Playa Vista. The proposed project would provide approximately 650 two-semester seats on a traditional single-track for students in grades K-5 and require approximately 50 to 55 faculty and staff.</p> <p>The proposed project would include approximately 50,000 gross square feet (gsf) of building space on the 4.08-acre project site. Structures would be up to two stories (34 feet). There would be 26 classrooms, a library, administrative spaces, food services with a lunch shelter, a multi-purpose room, hardcourts and a play field.</p>	EIR	10/27/2008

2008051069	<p>Campus West Athletic Complex La Verne, City of La Verne--Los Angeles</p> <p>The project proposes a Tentative Parcel Map to subdivide a 17.27 acre parcel into 3 parcels. The project consists of the dedication of a 40-foot wide private road easement across proposed parcels 1 and 2. The private road easement will be graded to a width of 28 feet with 24 feet improved with disintegrated granite for slopes less than 12% and asphalt concrete for slopes over 12%. The private road includes three fire turnarounds approved by the Rural Fire Protection District. The project also proposes three residential driveways extending from the private road, each graded to a width of 20 feet, improved 16 feet with disintegrated granite for slopes less than 12% and asphalt concrete for slopes over 12%. The project proposes three building pads for the future construction of single family dwellings. The project proposes to dedicate open space on-site along with a limited building zone easement to prevent fire clearing from entering into the open space.</p>	EIR	10/27/2008
2008071047	<p>CVS Pharmacy Huntington Beach, City of Huntington Beach--Orange</p> <p>The proposed project consists of construction of a 14,670 square foot CVS Pharmacy, and associated site improvements on a vacant lot at the southeast corner of Goldenwest Street and McFadden Avenue. The approximate height of the proposed one-story building is 28 feet. The CVS Pharmacy with a drive-thru is proposed to be open 24 hours a day and seven days a week. Access to the site is proposed via a two-way driveway along Goldenwest Street and a two-way driveway along McFadden Avenue. The project includes a General Plan Amendment and Zoning Map Amendment to allow commercial uses at the proposed project site. The project also includes a request for a conditional use permit, variance, design review and a tentative parcel map to create a separate parcel for the proposed development.</p>	MND	10/10/2008
2008091052	<p>Arellano Minor Subdivision San Diego County --San Diego</p> <p>The project proposes a Tentative Parcel Map to subdivide a 17.27 acre parcel into 3 parcels. The project consists of the dedication of a 40-foot wide private road easement across proposed parcels 1 and 2. The private road easement will be graded to a width of 28 feet with 24 feet improved with disintegrated granite for slopes less than 12% and asphalt concrete for slopes over 12%. The private road includes three fire turnarounds approved by the Rural Fire Protection District. 	installed in a vertical shaft in the center of the hill, connecting to the existing pipeline at the top.		
2008091055	SR-98 Widening Caltrans #11 Calexico--Imperial The project proposes to widen SR-98 from two to four lanes from Dogwood Road through just west of Ollie Ave., and from four to six lanes from Ollie Ave. through SR-111, tying back to the existing road at Rockwood Ave. The proposed lane widths are a standard 3.6 meters (12ft.) and a raised median that averages 4.3 meters (14ft.) in width would be incorporated throughout the length of the project. In addition, this alternative would update the number of turning lanes according to traffic needs at each intersection within the project limits.	MND	10/10/2008
2008091056	Equinix Data Center - EA 786 - 455 N. Douglas Street El Segundo, City of El Segundo--Los Angeles The project proposes to expand an existing building to 314,288 square feet and 52 feet in height. Specifically, building renovations would occur in the entrance lobbies, office space, collocation server warehouse, and service bay. New building development would consist of two indoor generator rooms; two outdoor chiller yards; eight underground, double-contained, diesel fuel storage tanks; two thermal storage yards, each containing approximately 188,000 gallons of chilled water; and two 350,000 gallon make-up water storage tanks to serve the northern and southern cooling towers. Parking is proposed for 199 vehicles. The project applicant also proposes landscape improvements.	MND	10/10/2008
2008092048	Gold Country Village Grass Valley, City of Grass Valley--Nevada Development Review and Tentative Map Application (07DRC-13 & 07PLN-36) to subdivide a 14.68 acre property into fifteen (15) single family residential lots and one lot with one hundred and sixty (160) senior apartment units. The project also includes a 3,300-sq.ft. community building and a 2,350-sq.ft. senior center building with those senior apartments. The project includes parking areas, common areas and open space. The senior apartments include 180-parking spaces, with 76-covered. The project would include extending Joerschke Drive from East Main Street westerly through the property of Sierra College.	MND	10/10/2008
2008092049	Conditional Use Permit #2008-003 and Reclamation Plan #2008-001 Glenn County Orland--Glenn North Valley Rock Products, LLC (NVR) has applied for Conditional Use Permit #2008-003 and Reclamation Plan #2008-001 to mine sand and gravel on Assessor's Parcel Numbers (APNs) 023-150-013, 023-160-003, and 023-160-004, NVR expects to mine approximately 20,000,000 tons of material from these parcels and has requested a 40 year permit. The mined material will not be processed onsite; rather, it will be trucked to two existing processing facilities. Material excavated from the site will be transported via County Roads "S", "33", "P", and County Road "39".	MND	10/14/2008

2008091057	Ramona Air Center Development Plan Project San Diego County --San Diego The County of San Diego Department of Public Works Airports Division (County Airports) and Ramona Air Center, LLC (RAC) propose a public-private aviation development on 47.6 acres located immediately north of Ramona Airport and Montecito Road. The project proposes the development of 56 for-sale aircraft hangars, 4,050 square foot Hangar Owners Association (HOA) clubhouse, 203 for-lease aircraft hangars, 38,900 square feet of ground floor airport office space, 5,000 square feet of ground floor aviation food service, and 1,920 square feet of ground floor office building and deli space. The proposed project would also provide surface automobile parking spaces and parking for automobiles within the proposed aircraft hangars.	NOP	10/10/2008
2008091053	Operable Unit 1 Remedial Action Plan, Proposed South Region High School #9 & Middle School #4 Site Toxic Substances Control, Department of South Gate--Los Angeles The proposed involves approval of a Remedial Action Plan (RAP) by the Department of Toxic Substance Control (DTSC) for the proposed South Region High School Site #9 ("the Site") pursuant to Health and Safety Code chapter 6.8. The RAP focuses on excavation and off-site disposal of ~31,740 cubic yards (CY) of onsite soils impacted with metals (mainly antimony, arsenic, barium, cadmium, lead, and mercury), polychlorinated biphenyls (PCBs), volatile organic compounds (VOCs), polycyclic aromatic hydrocarbons (PAHs), and total petroleum hydrocarbons (TPHs). After completion of the planned excavations, cleanup confirmation sampling and Site restoration will be conducted. If necessary, additional soil volume will be excavated to ensure all impacted soils containing the identified chemicals of concern (COCs) at concentrations exceeding the cleanup levels have been properly removed. The RAP also provides temporary land use controls and a monitoring and contingency plan for Parcel 39 as more fully explained below. The Draft Operable Unit 1 Area A (OU 1A) RAP, Proposed South Region High School #9 and Middle School #4 Site is incorporated by reference.	Neg	10/10/2008
2008091100	Schillinger Lot Split Santa Barbara County Carpinteria--Santa Barbara The request is for a Tentative Parcel Map (TPM 14,738) to divide an existing parcel into 2 resultant parcels. The project would divide APN 001-080-027 (6.32 gross acres) into two new parcels of 3.12 gross acres (Parcel 1) and 3.20 gross acres (Parcel 2). Development Envelopes would be recorded on each of the new parcels; all structural development and associated grading, ground disturbance, and construction activities (including septic systems, and construction staging, stockpiling, and washout areas) would be located within the development envelopes. Grading for driveways and utilities would be necessary outside the development envelopes. Each of the resultant parcels would be served by the Carpinteria Valley Water District, private septic systems and the Carpinteria/Summerland Fire Protection District. Access would be taken from Via Real by way of an existing 47-foot wide public right-of-way named Bega Way that transitions to an existing 20-foot private road easement across the Bega property. 2008092046	D'Hondt Grading Permit G08-007 Tuolumne County Sonora--Tuolumne Grading Permit G08-007 to allow excavation and fill of 125+/- cubic yards of material for a building site for a home on a 0.8+/- acre site.	Neg	10/10/2008
2008092047	PA-0800203 San Joaquin County Lodi--San Joaquin A use permit application for an off-site wine cellar within an existing 5,600 square foot agricultural building, to include 5,000 square feet for wine storage and 600 square feet for a wine tasting room.	Neg	10/10/2008
2008031040	Cedars-Sinai Medical Center-West Tower Project Los Angeles, City of Los Angeles, City of--Los Angeles The Cedars-Sinai Medical Center (CSMC or the "Applicant") proposes to develop a new inpatient/medical support facility on the CSMC Campus that would be located on approx. 2 acres at the northwest corner of Gracie Allen Drive and George Burns Road, and which is currently occupied by a two-story building and visitor parking lot. The Project is intended to serve the growing demand for medical services as the area's population increases, as well as to accommodate updated medical technologies and increase efficient within the CSMC Campus.	SIR	10/27/2008
2003101162	Cottonwood Creek Rehabilitation Project Caltrans #6 Madera--Madera The California Department of Fish and Game is executing a Lake and Streambed Alteration Agreement pursuant to Section 1602 of the Fish and Game Code to the project applicant. Caltrans proposes to replace the Cottonwood Creek Bridge as part of the overlay and shoulder widening project in SR 145. Construction staging will require keeping half of the bridge open to traffic while the other half is being built then switching to work on the other side. The bridge will be a concrete structure with a steel rebar skeleton. Concrete support piles will be driven into the bed of Cottonwood Creek to support the structure. Rock slope protection (RSP) will also be placed on the bank and in the channel to prevent erosion around the bridge piers and abutments. A construction staging area of 30 feet on each side of the bridge will include installation of falsework in the channel.	NOD	
2007122006	Gavilan College-Coyote Campus Gavilan Joint Community College District San Jose--Santa Clara The proposed project is the development of a Community College Campus in north Coyote Valley that could serve 10,000 full time equivalent students. The college campus uses are those of a typical community college including classroom and administration buildings, gymnasium, athletic fields, and parking.	NOD	
2008051099	In-Situ Chemical Oxidation (ISCO) Pilot Study Regional Water Quality Control Board, Region 9 (San Diego), San Diego San Marcos--San Diego The project will involve injecting calcium peroxide and sodium persulfate into the subsurface to reduce concentration of petroleum hydrocarbons, volatile organic compounds (VOCs) and fuel oxygenates that was released from a gas station on the site. Additional monitoring wells will be installed in the vicinity of the injection points.	NOD

2008022111	WCCUSD Construction and Renovation of Castro Elementary School to Replace Portola Middle School West Contra Costa Unified School District El Cerrito--Contra Costa The proposed project involves the closure of the existing Castro Elementary School and campus from active use and the new construction and renovations at the existing Castro Elementary School and campus for use as a Middle School. The work at the site would require demolition of some existing buildings and portables, new construction, and renovation of the existing main Castro Elementary School buildings; including the kindergarten building, which will be the subject of a historic resources evaluation.	EIR	10/27/2008
2008022117	Santa Rosa Lowe's Home Improvement Warehouse Project Santa Rosa, City of Santa Rosa--Sonoma The proposed project would develop approximately 165,000 square feet of retail uses on the project site. The project would be anchored by a 155,494-square foot Lowe's Home Improvement Warehouse and feature two 4,500 square-foot restaurant/retail structures. The proposed project would involve a General Plan Amendment to redesignate 8.16 acres of the project site to Retail and Business Services.	EIR	10/27/2008
2008051023	San Clemente Senior Apartment Complex San Clemente, City of San Clemente--Orange A request to construct a 62,565 square foot senior housing apartment complex with 82 units. The project is three stories in height and consists of 66 one bedroom units and 16 two bedroom units with a 35,762-square foot subterranean garage. There will be a total of 99 parking spaces on the project site.	EIR	10/27/2008
2008052127	2008 Butte County Regional Transportation Plan Butte County Association of Governments --Butte The proposed project is the adoption and implementation of the 2008 Butte County Regional Transportation Plan (2008 RTP or proposed project) for Butte County. The RTP embodies three elements: Policy Element, Action Element, and Financial Element. The RTP is a program-level regional planning document that addresses long-term goals and objectives for all transportation modes (highways, local roads, bridges, transit, bicycle, aviation and rail). The Draft EIR provides a detailed description of the 2008 RTP. The full RTP is available for review at the BCAG website.	EIR	10/27/2008
2005032026	Regional University Specific Plan (PEIR T20050187) Placer County Roseville--Placer Proposes a University campus to accommodate approximately 6,000 students; 800 professors and staff; 1,155 residential units for students and faculty; potential private high school with 1,200 students, staff and faculty; and an adjoining community with a variety of residential, commercial, employment, open space, parks, and public uses including a K-6 school and a K-8 school. The community would include 3,232 residential units of varying densities.	FIN

2008011069	The Ripcurl Project Huntington Beach, City of Huntington Beach--Orange As currently proposed, The Ripcurl Project would result in development of 440 units of rental housing above approximately 9,025 square feet of commercial uses on 3.8 acres (166,362 square feet) of developed land. The proposed project would establish a new zoning district, "Transit Center District," and change the General Plan land use designation, as well as the Zoning Map designation, for the subject property. Implementation of the General Plan and Zoning Text Amendments would allow a maximum of 10,000 square feet of commercial development on the project site. Thus, in order to provide a conservative and consistent analysis, the remainder of the EIR analyzes the maximum allowable commercial square footage of 10,000 square feet rather than the currently proposed 9,025 square feet.	FIN	
2005111108	Amend. 2008092057	Lomita Way Subdivision Z07-0023/TM07-1444 El Dorado County --El Dorado A Rezone and Tentative Subdivision Map. The Rezone would amend the project zoning from Estate Residential Ten-Acre (RE-10) to Two-Acre Residential (R2A). The Tentative Subdivision Map would create 22 residential parcels, ranging in size from two to six acres. One remainder parcel would be created totaling 13.6 acres. Three Design Waivers have been submitted to allow the following: a) To reduce the road improvements on Lomita Way and Lomita Court to a modified 101B Standard with a road width of 20 ft. with 2 ft. shoulders; b) To reduce the road improvements the proposed cul-de-sac roadways to a modified 101B Standard with a road width of 18 ft. with 1 ft. shoulders; c) To reduce the right-of-way requirement from 60 ft. to 50 ft. along Lomita Way, Lomita Court and the proposed cul-de-sac roads; d) To allow the reversed curves of 100 ft. radii within Road C to be separated by a tangent of less than 100 ft. in length.	MND	10/14/2008
2008092058	Drinking Water Categorical Exception to the SIP Regional Water Quality Control Board, Region 2 (San Francisco Bay), Oakland -- The San Francisco Bay Regional Water Quality Control Board (Regional Water Board) is proposing to grant a categorical exception to the Policy for Implementation of Toxics Standards for Inland Surface Waters, Enclosed Bays, Estuaries of California (SIP) for drinking water discharges that are short-term or seasonal in nature and that are conducted to fulfill statutory requirements under the federal Safe Drinking Water Act or the California Health and Safety Codes. Discharges in this categorical exception include draining canals and pipelines for maintenance, and draining water treatment facilities for cleaning or maintenance.	MND	10/14/2008
2008092059	Meadows School Site Acquisition Marysville Unified School District Marysville--Yuba Marysville Joint Union School District is proposing the acquisition of the Meadows site for the intended future development of a high school, middle school, associated recreational facilities, and possibly a District bus yard. The proposed site consists of an undeveloped parcel with an area of 75 acres. Currently there are no formal plans for development of the future high school, middle school and associated recreational facilities, and the program is only in its conceptual stages. No specific design parameter or construction timing have been determined, so analysis of future development is speculative at this time. However, the conceptual future development program for the proposed site could include: 1,500 student capacity high school with 1,800 student capacity as an impacted size; access to the high school off of Plumas Arboga Road; lighted Stadium, open field area shared with middle school; joint use opportunities with aquatic center, gym and library; 800 student capacity middle school with 1,000 student capacity as an impacted size, access to the middle school off of Broadway Road; shared fields with the high school; joint use opportunities same as high school in addition to soccer fields; and possible site of District regional bus year (10-15 buses).	MND	10/14/2008

	well as optional elements. The EIR will be prepared in accordance with CEQA, implementing guidelines, relevant case law, and City procedures. CEQA recognizes the authority of the local general planning process in several areas. As a project, the general plan is subject to CEQA review. As a policy document, the general plan provides guidance and sets standards for several areas of mandatory environmental review for later projects that would be undertaken by local governments and the private sector.		
2008092051	Folsom South of U.S. Highway 50 Specific Plan Folsom, City of Folsom--Sacramento The proposed project consists of a mixed-use residential and commercial development on 3,502 acres, with up to 10,045 residential units. The project includes a regional shopping center, a police station, fire station, municipal service center, a network of Class I and II bicycle trails, connections to two new planned interchanges on U.S. Highway 50, five elementary schools, and a joint middle/high school. As required by Measure W, a minimum of 30% of the plan area would be preserved as undeveloped open space. Approximately 1,053 acres of open space- including Alder Creek, a concentration of cultural resource sites, and the highest concentration of oak woodland habitat on the project site--would be preserved.	NOP	11/10/2008
2008092054	Locust Street/Mt. Diablo Boulevard Specific Plan Walnut Creek, City of Walnut Creek--Contra Costa The Locust Street/Mt. Diablo Boulevard Specific plan focuses on approximately 5.3 acres within Walnut Creek's traditional downtown area, north of Mt. Diablo Boulevard. The Specific plan is intended to guide new development in the area over the next five to ten years with the overall goal of enhancing and expanding the existing pedestrian-oriented retail district while preserving the character of the traditional downtown area.	NOP	10/14/2008
2008091063	Pedestrian Master Plan - EA 07-06 Carlsbad, City of Carlsbad--San Diego The Carlsbad Pedestrian Master Plan provides as pedestrian transportation and recreation in the City of Carlsbad. The Pedestrian Master Plan will enhance and expand the existing pedestrian network, connect gaps, address constrained areas, improve intersections, provide for greater local and regional connectivity, and encourage even more residents to walk. The Pedestrian Master Plan provides recommendations for the construction of future pedestrian networks consisting of pedestrian routes, signage, accessibility improvements and safety mechanisms. The plan also identifies areas of pedestrian demand and needs, and recommends a variety of programs to allow safe, efficient and convenient travel within Carlsbad and connecting to regional destinations. Metropolitan will design and construct the modifications. Additionally, Metropolitan is proposing to relocate the existing AMR/air-vent/electrical pedestal away from Warren Road, as part of the service connection modifications.	NOD	
2008021008	Valley Region Span K-8 No. 1 School Los Angeles Unified School District --Los Angeles The proposed project involves construction of approximately 90,000 square feet of building space to accommodate approximately 1,047 students in grades kindergarten through eight, and approximately 85 full- and part-time faculty and staff. The proposed project would include 41 classrooms in two buildings, and includes a multipurpose building with a large multipurpose room, library/media center, food service area, maintenance and administration offices; a lunch shelter; a gymnasium; and hard courts, playgrounds, and play fields. No nighttime field lighting would be provided; however, nighttime security lighting would be provided. Approximately 93 parking spaces would be provided for faculty and staff on a surface level parking lot, located adjacent to the northern boundary of the campus. Access to the parking lot would be from Bledsoe Street.	NOD

<u>Documents Received on Friday, September 12, 2008</u>			
2008021130	Valley Region Blythe Street Elementary School Addition Los Angeles Unified School District --Los Angeles The proposed project includes the construction of approximately 20,000 square feet of building space to accommodate approximately 400 students in grades one through five, and approximately 25 full- and part-time faculty and teachers workroom, storage room, and small group instruction room. The existing lunch shelter area will be expanded. Additionally, minor interior renovations would occur within the existing building area to allow for the expansion of the existing library. Approximately 30 new surface parking stalls for faculty and staff would be added along the western portion of the existing school site near the new addition.	NOD	
2008041166	2008 Housing Element Clovis, City of Clovis--Fresno GPA2008-01, General Plan Amendment to update the Housing Element for the 2006-2013 planning cycle. The Housing Element is comprised of the following components: (a) an analysis of the City's population, household, and employment base, and the characteristics of the housing stock, including a summary of the present and projected housing needs of the City; (b) a review of the constraints to meeting the City's identified housing needs; (c) an evaluation of opportunities that will further development of new housing; and (d) a statement of the Housing Plan to address identified housing needs, including goals, policies, and programs.	NOD	
2008081034	Sewer Forcemain Replacement Project 22nd District Agricultural Association Del Mar--San Diego The proposed project entails the replacement of an existing approximately 35-year old pipeline with a new forcemain pipeline under the San Dieguito River. The new pipeline would have the same carrying diameter as the existing pipeline (eight-inch) and would not increase wastewater flows beyond the amounts agreed upon by the 22nd DAA and the City of Del Mar. The peak flow would remain constant at 630 gallons per minute (gpm). As discussed in Section 1, the 22nd DAA anticipates the need to increase the peak flow in the future based upon the projects proposed in the on-going Master Plan. However, no increase in peak flow is proposed at this time. Environmental review associated with the potential increase in peak flows will be included in the EIR being prepared for the Master Plan. The proposed project would not result in an increase in pipeline pressure nor would it require modifications to the existing pump station. Similarly, infrastructure for receiving the forcemain located within the City of Del Mar's Public Works yard would not need to be modified.	NOD	
2008082017	Iron Canyon Fish Ladder Rehabilitation Chico, City of Chico--Butte The project will repair existing weirs, expand and modify existing weirs, and install 6 new weirs at the Iron Canyon Fish Ladder (Fish Ladder) on Big Chico Creek in Bidwell Park, Chico, California.	NOD

	<p>Regional Land Trust (NRLT). Wood Creek, a perennial stream, crosses through the property before entering Freshwater Slough. To enhance salmonid and tidewater goby access, the project proposes to restore tidal hydrology to diked-former tidelands through the expansion of brackish marsh habitat and the removal of the primary barrier to fish migration on Wood Creek. In 2005, McBain & Tush Inc. developed the Freshwater Slough Estuary Rehabilitation Project for the California Department of Fish and Game. Based on McBain & Tush's work, the NRLT and the Redwood Community Action Agency's Natural Resources Services (RCAA) subsequently applied for and received public funding to implement the Wood Creek Estuary, Tidal Marsh, and Fish Access Enhancement Project (the project). The applicants collected baseline topographic and hydrologic data, proposed four alternative conceptual designs, and with public input selected a preferred design to restore and preserve estuarine and tidal marsh functions, and improve fish access through the conversion of approximately 29 acres of seasonal pasture to brackish marsh habitat. Project activities include: removal of the existing tidegate on Wood Creek, removal of a defunct waterman tidegate and culvert south of Wood Creek, relocation of cattle fencing to the future borders of the restoration area, installation of a salinity sill, improving an existing stream crossing by replacement of a failed culvert with a flat car bridge, excavating slough channels and redistribution of spoils to create desired surface elevations, and the planting of salt marsh and riparian vegetation. The project is located within the California Coastal Commission's retained Coastal Permit jurisdiction. Natural Resources Use Types such as Fish and Wildlife Habitat Management, Watershed Management, and Wetland Restoration are Conditionally Permitted Uses within the Agriculture Exclusive Zone.</p>		
2008099015	<p>Llagas Creek Trail Project Morgan Hill, City of Morgan Hill--Santa Clara The project proposes to improve and extend a trail at the top of the banks along West Little Llagas Creek. The project includes one crossing over a drainage channel that connects to Little Llagas Creek. The project also includes construction of Class II bike lanes along both sides of Watsonville Road near Monterey Road.</p>	NOD	
2008099016	<p>Orange County Loftus Channel BOSC Equities, LLC (aka Brea Plaza Expansion) Project Brea, City of Brea--Orange The California Department of Fish and Game is issuing an Agreement Regarding Proposed Stream or Lake Alteration (SAA#1600-2008-0029-R5) to the project Applicant, California Brea Partners, L.P. The Applicant proposes to alter the streambed and banks through replacing 740 linear feet of the existing open portions of the Loftus diversion channel with a 55 foot wide, enclosed four celled reinforced concrete box culvert. The area above the improved culvert will be used to provide additional parking areas for the Brea Plaza Shopping Center, landscaping, sidewalks, and related improvements. The green grass bio swale provides a stable water quality solution and a more permanent vegetation and biological solution. All existing inlets, which flow into Loftus Channel, will be designed and constructed to flow through the green grass-lined bio swale for water quality filtration prior to low flow entry into Loftus Channel. The Katchall Baffle Filters will be constructed upstream of the new boxed channel to mitigate for water</p>	NOD

2008098159	Columbia Ditch Pipeline Replacement at Cattle Drive Trail Tuolumne Utilities District Sonora--Tuolumne Replacement of a 16" diameter steel riveted pipe that has become corroded and had its supports undermined due to leaks and plugs at its inlet. The pipe is on the Columbia Ditch which is part of the District's raw water conveyance system. The proposed pipe will be 24" diameter PVC and approximately 380 feet in length. The district has a permit from B.L.M. for the existing pipeline and has applied for an amendment for the replacement.	NOE	
2008098160	3 Mile Slough Emergency Fender Repair Caltrans, Planning Isleton--Sacramento A marine vessel/Barge hit the dolphin fender system near pier-3 of the Three Mile Slough, Br. No. 24-0121 on Sac-160. The dolphin fender system is in disrepair and no longer functional. Dolphins protect bridge piers from accidental boat and barge collisions, which could cause catastrophic failure of bridges, sinking of the colliding vessel, or both. The Sacramento River is navigable & marine traffic is very active in this area and the US Coast Guard has directed Caltrans to expedite the repairs of the dolphin fender system.	NOE	
2008098161	HOV re-striping Caltrans, Planning Elk Grove--Sacramento Caltrans proposes to relocate the existing High Occupancy Vehicle (HOV) lane within the Elk Grove interchange on the northbound on-ramp. The change will be made by re-stripping the on-ramp resulting in moving the mixed flow traffic to the inside of the ramp and the HOV "through" traffic to the outside. A minor curve correction will also be undertaken to improve bus right turns and improve traffic flow. Minor electrical work will also take place.	NOE	
2008098162	Permitting and Operation of the Dairy Farmers of America Well and Distillation Facility; Water System #3310037 Health Services, Department of Corona--Riverside The City of Corona will purchase water from an existing well owned by the Dairy Farmers of America (DFA). The DFA Well is 210 feet deep and produces approximately 810 gpm. The City will also treat a portion of the concentrated brine waste from the Temescal Desalter at an existing DFA Distillation Facility. The DFA Distillation Facility will supply approximately 0.4 MGD from this process which will be returned to the Desalter for additional treatment. The well water and distilled water will be used as feed water to the City of Corona's existing Temescal Desalter facility and will serve as new water sources for the City.	NOE	
2008098163	Visitor Center at California Training Facility, Salinas Valley State Prison, Soledad, Monterey County Corrections and Rehabilitation, Department of Soledad--Monterey This project includes installing a pre-built modular visitor processing center on the grounds of CTF, adjacent to an existing visitor parking area and other program buildings. Existing utilities will be extended to the modular. The single-story building will provide visitation area, restrooms, offices, and air conditioning. The building will be constructed on an existing concrete pad. The project will bring the facility into compliance with Title 15 (Crime Prevention and Corrections) of the	NOE

2008098164	<p>California Code of Regulations (Article 7, Sec. 3170), to provide for orderly, safe, accommodating environment conducive to "establish and maintain meaningful family and community relationships." The project will maximize visiting time by increasing the efficiency of visitor processing, will provide more secure visitor processing, and will provided acceptable shelter from inclement weather for visitors. Installation of the modular building will include utility hook ups and new concrete walkway; all site work and construction will be in compliance with Americans with Disabilities Act (ADA).</p> <p>Classroom and Office Modulars Corrections and Rehabilitation, Department of San Diego--San Diego</p> <p>Installation of each modular building includes construction of concrete pad, fence enclosure, utility hook ups, and new concrete walkways; all site work and construction will be in compliance with Americans with Disabilities Act (ADA). Two modular buildings will house new classrooms for the prison's vocational education classes, and one modular building will house a new needs assessment and testing function for the prison's SB 618 program. The project is needed to assist non-violent offenders through prison, by providing services to help ensure a successful transition back into the community, thus reducing recidivism and improving public safety. The buildings will be constructed next to existing program buildings in bare, disturbed areas devoid of sensitive environmental resources. The buildings will be connected to adjacent services and utilities. The program will accommodate existing program staff.</p>	NOE	
2008098165	<p>Blast Chillers For Main Kitchen Corrections and Rehabilitation, Department of Wasco--Kern</p> <p>CDCR is planning to install two additional blast chillers in the main kitchen at WSP to accommodate the food service demands of the existing inmate population. Currently, WSP has five-blast chiller units continually working beyond the manufacturer's recommended capacity. In addition, WSP must also use conventional cooking methods to fully meet the food production demands of the increased inmate population. Conventional cooking methods are not in accordance with institutional design and approved practices. Installing two additional blast-chillers will reduce the down time associated with repairs to the existing blast-chillers and eliminate the need to routinely produce food with conventional cooking methods. The two new blast-chillers will be installed in existing space on the main floor of the main kitchen and the condensing units will be installed outside the building.</p>	NOE	
2008098166	<p>Install Dumbwaiter in Donner (D) Section Corrections and Rehabilitation, Department of --Marin</p> <p>CDCR will install a dumbwaiter in the Donner (D) Section of the South Block Administrative Segregation Unit (ASU) to enable safe and efficient food service to the five tiers of D Section. The current cell feeding process of ASU inmates requires meals to be assembled on plastic trays and served from a rolling cart. This cart is rolled from the food service kitchen to the D section where custody staff must deliver the trays to inmates by carrying six to seven stacked trays, weighing 25-30 pounds, up steep, narrow stairs to tiers two through five. Health and Safety Code, Title 15, Section 3050 requires that ASU inmates are served "two hot meals a day." San Quentin received complaints from ASU inmates that their food is cold, lawsuit has been threatened. The project includes the installation</p>	NOE

2008098167	<p>of a prefabricated unit, assembled on-site. A section of the building's concrete floor will be demolished to create a pit to accommodate the dumbwaiter. A walkway will be established from the sixth tier to allow access to the top of the dumbwaiter for service and inspection. The installation of a dumbwaiter will enable staff to provide meals in a manner that ensures staff safety and complies with Health and Safety Standards of Title 15.</p> <p>Install Fire Alarm System P2 and P3 Corrections and Rehabilitation, Department of Vacaville--Solano</p> <p>CDCR will install an automatic fire alarm system in P-Wing, floors P-2 and P-3, which were recently converted to Intermediate Care Facilities (ICF) in response to the Coleman vs. Schwarzenegger lawsuit. An automatic fire alarm system is required by Department of Health Services with approval by the Office of the State Fire Marshal (SFM) to maintain licensure as an ICF. CDCR obtained a one year Conditional Occupancy by the Deputy State Fire Marshal under an interim Life Safety Measures plan, until an automatic fire alarm system can be installed in each housing unit. Installation of a design-build turnkey fire alarm system includes: conduit and wire installation; electrical connections and breakers; fire smoke dampers with manual override; HVAC shutdown; full area smoke detection with vandal guards; manual alarms at supervisor station; notification in common areas and hallways (excludes individual cells); annunciation at control center; preliminary testing; operating and maintenance manuals; hazardous testing and abatement; and on State Fire Marshal test. CDCR must ensure compliance with Coleman court mandates. If CMF loses its ICF license, CDCR will be required to establish ICF services at another institution.</p>	NOE	
2008098168	<p>Academic Wing Heating, Ventilation, Air Conditioning Corrections and Rehabilitation, Department of Tracy--San Joaquin</p> <p>CDCR will design and install a heating, ventilation, and air conditioning (HVAC) system that meets minimum indoor air quality standards, in the Academic Wing at DVI. The proposed system will be regulated with a Variable Air Volume system controlled by Direct Digital Controls through microprocessor interface. The Academic Bridging Education Program, Distance Learning, and the High School, GED, and College Programs are administered in the institution's Academic Wing, which consists of one large testing room (Room 202) and 3 classroom/office combinations used to instruct small groups of inmates in various education programs and conduct Risk and Needs Assessments for Pre-Release and/or institutional transfer programs. Currently, academic programs are administered in spaces without air conditioning or adequate air exchange. When classroom temperatures reach 92 degrees, education programs are cancelled. Between June and September 2007, classes were cancelled 37 times, causing teachers and inmates to lose hundreds of hours of educational programming. The existing 56-year old heating system, consisting of individual radiant heaters installed in each space, poses a security risk in a classroom setting because inmates can make weapon stock from the heater covers. The project includes design and installation of an outdoor, ground mounted, electrically controlled heating and cooling unit that utilizes hermetic compressors for cooling duty. The supply and return air ducting would rise on top of each corridor level, establishing the plenums for each room's service. Hot water for the heat source is available, and a recent power upgrade assures electrical service.</p>	NOE

2008021065	Hanson Aggregates West, Inc. Concrete and Asphalt Recycling Facility, Sand and Rock Sales Facility Ventura County --Ventura Hanson Aggregates West, Inc. (Applicant), formerly S.P. Milling Company, proposes to relocate its former concrete and asphalt recycling operations and sand and rock sales facility from East Vineyard Avenue to Beedy Street, approximately 0.8 miles. The relocated recycling facility would receive, recycle, and sell up to 365,000 tons per year of recyclable concrete and asphalt. The project also includes the import and export of up to 80,000 tons per year of rock and sand. In accordance with requirements of the Ventura County Non-Coastal Zoning Ordinance, the Applicant made application for a CUP for a "Recyclables Collection and Processing Facility" and "Building Materials Sales Yard."	EIR	10/29/2008
2008031119	Tulare District Hospital Expansion - Phase 1 Tulare Local Healthcare District Tulare--Tulare Construction of a new 5-floor (4 stories above grade and one below grade basement floor) hospital tower south of and connected to the existing 3-story hospital tower. There will be a helipad on the roof. The new tower will bring hospital into conformance with state seismic safety regulations and is desired also to upgrade the quality of medical services offered at the hospital. Project will increase total licensed beds from 116 to 143. To achieve construction of the new tower, and the necessary modifications in parking space requirements and layout, as well as improvements to existing hospital area on-and off site circulation patterns, several on-site building demolitions are also proposed. In total, City of Tulare land use regulations require the processing of several land use entitlement requests for which this EIR will be utilized by the City in its approval processes.	EIR	10/29/2008

Site improvements also include additional parking, landscaping and lighting.</p>	MND	10/14/2008
2008092062	<p>Butte County General Plan 2030 Butte County --Butte</p> <p>This is an NOP for the completion of a Programmatic Environmental Impact Report for the Butte County General Plan 2030 project, with County-wide application. This project includes a comprehensive update of Butte County's General Plan and a complete update of the county Zoning Ordinance.</p>	NOP	10/14/2008
2008092063	<p>California Health Care Facility, Folsom California Prison Health Care Receivership Folsom--Sacramento</p> <p>CPR proposes to construct a sub-acute health care facility in the northern portion of the Folsom Facilities site. The proposed health care facility will consist of an up to 1,400-bed facility on an approximately 70-80 acre site.</p> <p>The health care facility would consist of dormitory-style housing, nurses' stations, diagnostic and treatment mall, visiting rooms, and a mess hall. A central plant would provide air conditioning to the facility. Double security fencing with a lethal electrified fence (e-fence) in the interior would surround the perimeter of the health care facility, and a guard tower(s) and lighting would be located on the site. The entrance facility, administrative offices, a vehicle sally port, and a recreation area would be incorporated inside the fencing. Ancillary structures, including kitchen, warehousing, and support services, would be located outside the secured perimeter. Structured parking for a total of 1,150 parking spaces would be constructed for new staff personnel and visitors.</p> <p>Improvements to the existing dry utility infrastructure (electrical, phone gas, etc.) roads, water wastewater, and drainage infrastructure would be constructed to meet the demands of the new facility. Construction of a new electrical substation at the project site may also be required. The project may require extension of on and off-site infrastructure to the project site, including new water and sewer pipelines that would connect to existing water lines. Off-site utility infrastructure improvements may include drainage facilities, roadway improvements, sewer treatment capacity improvements or improvements to the existing sewer lines to reduce flow due to inflow and infiltration, and water treatment plant improvements and distribution facilities.</p>	NOP	10/14/2008

2007101148	5420 MDH 5-07; South Shafter Sewer Project - Kern County Engineering and Survey Department (PP07002) Kern County Shafter--Kern The project is the construction of approximately 34,500 linear feet of sewer lines. The sewer lines will connect to the Shafter/North of the River Wastewater Treatment Facilities, located approximately four miles southwest of the project. The force main alignment includes the construction of approximately 34,500 linear feet of pipe and five lift stations connecting the communities to existing treatment facilities. Three lift stations operating in series as well as two additional independent lift stations. System requirements call for an average daily flow of 124,080 gallons per day (gpd) with a peak flow of 223,344 gpd. The project will provide public sewers to approximately 376 residential units currently served by septic systems.	NOD	
2007121067	Carlsbad High School Modernization Carlsbad Unified School District Carlsbad--San Diego The modernization of Carlsbad High School, including the reconstruction of the stadium.	NOD	
2008022054	Crystal Springs/San Andreas Transmission System Upgrade Project San Francisco, City and County of Millbrae, Hillsborough--San Mateo The objective of this investigation is to confirm the location of the San Andreas Fault along the southern end of Lower Crystal Springs Reservoir (trench) and identify the depth of bedrock and characterize soil types in the area (bore) to support the engineering design for the project, and potentially minimize ground disturbance during construction. One 4-8 inch bore, and one trench measuring ~50-100 feet long and a maximum of 3 feet wide and 12 feet deep (0.003-0.006 ac) would be conducted within the high-water mark along Lower Crystal Springs Reservoir located near Highway 92 and I-280 in San Mateo County. The California Department of Fish and Game is executing a Lake and Streambed Alteration Agreement Number 1600-2008-0366-3 pursuant to Section 1602 of the Fish and Game Code to the project Applicant, Anastasio Mavroudis, San Francisco Public Utilities Commission.	NOD	
2008071142	Huntington Harbour Bulkhead Repair Project Huntington Beach, City of Huntington Beach--Orange The purpose of the project is to restore the foundation of the bulkhead at 30 existing single-family residential properties in Huntington Harbour and provide toe protection to inhibit any future scouring or erosion, which may jeopardize the bulkhead's structural integrity. The bulkheads in Huntington Harbour are made of reinforced cast-in-place concrete and untreated timber piles supporting the footings. Due to the time span of design and construction, there are slight differences in bulkhead design among the properties. Some sections of the bulkhead have a cutoff wall below the bulkhead and some do not have a cutoff wall. Over the years, erosion due to localized tidal currents, recreational boat use and periodic maintenance dredging activities in the area have undermined the bulkhead, damaged the support piles and threatened the overall structural integrity. Properties located on the main channel show the greatest erosion levels.	NOD

2008098177	<p>Improve Traffic I 5/44 Caltrans #2 --Shasta</p> <p>Caltrans proposes to improve traffic operations in Shasta County at I 5/SR 44, Central Redding INterchange. Mainline and ramp operations will be improved by adding through-traffic lanes on I5 and two DB auxiliary lanes. Widening will occur toward the median. The project will reduce weaving vehicles and congestion. The existing interchange is nonstandard-the only non-standard full freeway-to-freeway interchange in California north of Sacramento.</p>	NOE	
2008098178	<p>Reducing Steepness of Curve Caltrans #2 --Lassen</p> <p>The California Department of Transportation (Caltrans) plans to improve a segment of the highway by reducing the steepness of a curve and widening the roadway. The project is located in Lassen County, on State Route 139 approximately 7 miles northeast of Susanville. The project limits are at the summit of Antelope Hill where the narrow, two-lane highway has a horizontal and vertical curve. The improvements planned for this section of road will reshape the curve at the summit by decreasing the severity of the curve, the steepness the grade, widening the travel lane and adding paved shoulders. This will improve the current conditions of the highway and increase visibility through the curve.</p>	NOE	
2008098179	<p>Install Data Collection Equipment Caltrans #2 --Tehama</p> <p>The California Department of Transportation (Caltrans) proposes a project to install data collection equipment within the highway right-of-way on Interstate 5 in Tehama County at three locations. The purpose of the project is to collect storm water quality data from three locations with different data collection equipment will consist of the following: A section of PVC pipe 6-inches in diameter will be used to create a gutter to collect sotrm water run-off from the traveled way. A 90-degree slot will be removed from the pipe longitudinally to create a 270-degree section of gutter. The PVC gutter will be installed along the edge of pavement with the open edge at grade with the pavement.</p>	NOE	
2008098180	<p>Agreement 2008-0021-R4; District 5 Routine Maintenance Agreement Fish & Game #4 --San Benito, Monterey, San Luis Obispo</p> <p>Various routine maintenance activities including removal of debris and obstructions to the extent that these obstructions reduce capacity, removal of silt, sand or sediment when water way is dry, vegetation control within 50 feet existing facility, minor repairs to existing facilities, riprap replenishment, culvert maintenance, and test boring for geotechnical sampling and cultural investigations provided such work does not cause a significant adverse affect to fish and wildlife resource.</p>	NOE	
2008098181	<p>DeLaveaga Disc Golf Course Watershed Enhancement Project` Santa Cruz, City of Santa Cruz--Santa Cruz</p> <p>The project involves minor grading and revegetation to stabilize and restore a portion of the Delaveaga Disc Golf Course, which has been degraded by accelerated erosion. The project also involves creating bioretention swales and paving of an existing unpaved parking to decrease erosion at the site.</p>	NOE
