STATE CLEARINGHOUSE

---

**SUMMARY  
OF  
POSTINGS**  
(Formerly SCH NEWSLETTER)

**September 1 – 15, 2011**

# STATE CLEARINGHOUSE SUMMARY OF POSTINGS

The State Clearinghouse distributes draft environmental documents to state agencies for review and comment, pursuant to the California Environmental Quality Act (CEQA). The State Clearinghouse also acts as the State Single Point of Contact for the review of federal grant applications and federal development projects. This Summary of Postings summarizes the environmental documents and federal grant applications received by the Clearinghouse during the period **September 1 – 15, 2011**.

## CLEARINGHOUSE CONTACTS

Please contact The State Clearinghouse if you have any questions regarding processing of environmental documents or grant applications. We may be reached at:

Telephone: (916) 445-0613  
Fax: (916) 323-3018  
e-mail: [state.clearinghouse@opr.ca.gov](mailto:state.clearinghouse@opr.ca.gov)  
website: [www.opr.ca.gov](http://www.opr.ca.gov)

Questions regarding federal grant notices should be directed to **Sheila Brown**.

Questions regarding processing of environmental documents should be directed to:

**Scott Morgan**  
Director

## CLEARINGHOUSE MAILING ADDRESS

Please do not use our street address (1400 Tenth Street, Room 212) for mailing purposes. The correct mailing address is:

STATE CLEARINGHOUSE  
P.O. BOX 3044  
SACRAMENTO, CA 95812-3044

## INFORMATION AVAILABLE ON-LINE

The 2010 CEQA Guidelines are available from the Resources Agency's website at <http://ceres.ca.gov/ceqa/>.  
2011 CEQA Guidelines will be available soon.

The State Clearinghouse Handbook, which contains all of our environmental document and grant processing procedures and forms, is available on our website.

Governor

STATE OF CALIFORNIA  
Governor's Office of Planning and Research  
State Clearinghouse and Planning Unit

Cathleen Cox  
Acting Director

## MEMORANDUM

DATE: July 1, 2010  
TO: State Agency CEQA and Intergovernmental Review Coordinators  
FROM: Scott Morgan, State Clearinghouse Director  
SUBJECT: Distribution of Environmental Documents in CD-ROM Format

The State Clearinghouse has distributed EIR's and EIS's in CD-ROM format for state agency review and comment since August 1, 2003. Based on our experience with those documents, a survey conducted of state reviewing agencies and the cost savings to local and state agencies, we extended this policy to other environmental documents including Negative Declarations, Mitigated Negative Declarations and Environmental Assessments. CD-ROMs are cheaper for the lead agency to reproduce and mail, and cheaper for the State Clearinghouse to distribute, especially in the case of multi-volume documents.

The State Clearinghouse will accept environmental documents on CD-ROM under the following terms:

- Lead agencies must provide fifteen (15) copies of the CD-ROM to the State Clearinghouse. In addition, each CD-ROM must be accompanied by 15 *printed* copies of the DEIR summary (as described in CEQA Guidelines §15123), executive summary, or introduction section of a Negative Declaration or Mitigated Negative Declaration. The State Clearinghouse has created a Summary for Electronic Submittal Form that may be used as a summary for any project submitted on CD-ROM. The Summary for Electronic Submittal Form is available at [www.opr.ca.gov](http://www.opr.ca.gov). A printed summary allows both the State Clearinghouse and agency CEQA coordinators to distribute the documents quickly without the use of a computer.
- The document must be on a CD-ROM in a common file format such as Microsoft Word or Acrobat PDF.
- Final environmental documents may be provided in CD-ROM format without a printed summary. Distribution of the final documents is optional under CEQA.
- Federal lead agencies may send electronic copies of environmental documents to the State Clearinghouse in the same manner described for CEQA lead agencies. Distribution of NEPA documents to state agencies through the State Clearinghouse is encouraged pursuant to Presidential Executive Order 12372 and NEPA §102 (42 USC §4332)
- All notices of preparation must continue to be provided in printed format.
- One Notice of Completion Form must be provided with all document submittals.

If your agency has difficulty downloading and reviewing any environmental documents please contact:

Scott Morgan, State Clearinghouse Director  
916-445-0613  
[scott.morgan@opr.ca.gov](mailto:scott.morgan@opr.ca.gov) .

Thank you for your cooperation in the CEQA review process.

<b><u>Documents Received on Thursday, September 01, 2011</u></b>			
2007041061	Citracado Parkway Extension Escondido, City of Escondido--San Diego The City proposes to improve and extend Citracado Parkway from West Valley Parkway to Andreasen Drive. The proposed Project would require a new structure crossing over Escondido Creek. The new structure may require landform alterations, cut slopes, and fill slopes. Minor street realignments and/or grade adjustments are also proposed for the intersection of Kuana Loa Drive with Harmony Grove Road. In addition, the proposed roadway extension would be built to accommodate the pending extension of Lariat Drive from the west, and access to the Hale Avenue Resource Recovery Facility (HARRF) via a new driveway connection. A temporary construction staging area has been identified east of the proposed roadway extension and south of Escondido Creek.	<b>EIR</b>	10/17/2011
2009042102	Natural Areas Management Plan San Francisco, City and County of San Francisco, Pacifica--San Francisco, San Mateo The San Francisco Recreation and Park Department developed a Significant Natural Resource Areas Management Plan to guide the management activities of the Natural Areas Program. The Natural Areas Program was created to protect and manage Natural Areas (fragments of unique plant and animal habitats) for the natural and human values they provide. The plan contains detailed information on the biology, geology, and trails within 31 Natural Areas, 30 of which are in San Francisco and one (Sharp Park) is in Pacifica. The plan is intended to guide natural resource protection, habitat restoration, trail and access improvements, other capital projects, and maintenance activities over the next 20 years. The proposed project is implementation of the plan.	<b>EIR</b>	10/17/2011
2009072011	Sierra Pacific Industries Cogeneration Power Project Shasta County Anderson--Shasta Construction and operation of a cogeneration power plant at an existing lumber manufacturing facility. The Project Description and GHG analysis are being recirculated.	<b>EIR</b>	10/17/2011
2011062068	Moe's Stop San Jose, City of San Jose--Santa Clara CUP to allow the demolition of an existing single-family detached residence and the expansion of an existing gas and service station, which includes the addition of three fuel dispensers and canopy.	<b>EIR</b>	10/17/2011
2011062063	East Trunk Sewer Replacement Project Thermalito Water and Sewer District Oroville--Butte Specifically, the Thermalito Water and Sewer District is proposing to replace the existing East Trunk sewer line in Butte County, CA. The purpose of the project is to address and meet existing capacity deficiencies caused by 1) infiltration and inflow, 2) unplanned connections from the County of Butte's Government Center and 3) unplanned increases in flows from past land use approvals that allowed higher land use densities within the City of Oroville.	<b>FIN</b>	

## CEQA Daily Log

Documents Received during the Period: 09/01/2011 - 09/15/2011

SCH Number	Title / Lead Agency / City--County / Description	Document Type	Ending Date
<b><u>Documents Received on Thursday, September 01, 2011</u></b>			
	<p>The proposed East Trunk replacement line project will consist of placing a new trunk line tandem to the existing sanitary sewer collection system where feasible, utilizing the existing rights-of-way (ROW) and existing sanitary sewer collection system easements already in place. The placement of the pipeline in a tandem locations will allow the existing system to remain in service while the proposed replacement facilities are being installed. The replacement pipeline will be constructed of 12" and 15" Polyvinyl Chloride gravity sewer pipe; this larger pipes size will accommodate the current capacity deficiencies.</p>		
2011091001	Johnson Minor Subdivision; 3200 21160 (TPM); Log No. 09-09-003 San Diego County --San Diego <p>The project is a two-lot residential subdivision. The project site is located on Creelman Lane in the Ramona Community Plan Area, within unincorporated San Diego County. The site is subject to the General Plan Regional Category (EDA) Estate Development Area, Land Use Designation Multiple Rural Use (18). Zoning for the site is A70 (Limited Agriculture).</p>	<b>MND</b>	09/30/2011
2011091003	ZA-2011-1928-CU and ENV-2011-1929-MND Los Angeles, City of --Los Angeles <p>A CUP to allow a dog kennel in the MR1-1 Zone, located within 500 feet of a residential zone. The proposed project will include: a 637 s.f. dog grooming area; 7,443 s.f. indoor dog training area, 720 s.f. office/reception area; 3,438 s.f. dog boarding area; storage area; and an outdoor dog play area.</p>	<b>MND</b>	09/30/2011
2011091004	Memorial Park Reservoir Santa Monica, City of Santa Monica--Los Angeles <p>The proposed project consists of a 1-million gallon (MG) non-potable water pumping station, and supporting pipelines at a site within Memorial park and immediately adjacent the park to the west at the Fisher Lumber property. The water reservoir and supporting pipelines will be located underground so existing and/or improved park facilities can be located at grade above the buried reservoirs and pumping facilities. Within Memorial Park, the proposed underground reservoir would be located beneath the existing tennis courts along the northeast side of 14th Street. A pump station would be located north and west of the reservoir in an area occupied by a parking lot. The pump station would be above ground in a masonry block building located immediately adjacent the park in an existing parking lot.</p>	<b>MND</b>	09/30/2011
2011071068	Santa Paula East Area 2 Annexation Project Santa Paula, City of Santa Paula--Ventura Note: Revised NOP <p>The City of Santa Paula is proposing to annex portions of the East Area 2 Planning Area as designated in the City's General Plan. The annexation project includes a series of related actions, including amendment of the General Plan Land Use Element and pre-zoning of the annexation area. In addition, adoption of the Santa Paula East Gateway Specific Plan is proposed for a portion of the annexation area.</p>	<b>NOP</b>	09/30/2011

<b><u>Documents Received on Thursday, September 01, 2011</u></b>			
2011091002	<p>Las Montanas Marketplace Indio, City of Indio--Riverside</p> <p>The Las Montanas Marketplace project is an approximately 92-acre mixed-use development consisting of retail and/or entertainment structures, multi-residential housing, a hotel or convention center, and corporate or medical office campuses. Residential uses at the site amounts to approximately 1,820 units or 20 dwelling units per acre and will be constructed at four levels, consisting of one level that conceals internal parking at the first floor and three levels of double-loaded flats above. The commercial area of the Project includes retail, cinema, and grocery uses, totaling 292,200 sqft. Corporate office uses total 345,300 sqft over seven office buildings, consisting of two levels of office plus office lobbies at the first floor. These structures would be four levels, one level at grade and three levels above grade. Two levels of office amounts to 213,700 sqfs.</p>	<b>NOP</b>	09/30/2011
2004112063	<p>Master Permit for Env. Enhancement Projects Santa Cruz County Capitola--Santa Cruz</p> <p>This project is under the Master Permit issued to the Santa Cruz County Resource Conservation District (RCD) to administer the Santa Cruz Countywide Permit Coordination Program, for small, environmentally beneficial projects in Santa Cruz County.</p> <p>The California Department of Fish and Game is executing a Lake and Streambed Alteration Agreement, Number 1600-2011-0177-R3, pursuant to Section 1602 of the Fish and Game Code to the project Applicant, Resource Conservation District to Santa Cruz County.</p>	<b>NOD</b>	
2010122045	<p>Lower Division Water Rights Licensing Nevada Irrigation District --Nevada, Placer, Sierra, Yuba</p> <p>Reference: 2008052045</p> <p>The project consists of petitions filed on nine (9) water right Permits and five (5) water right Licenses held by the District for the beneficial use of water within the District's boundary as the initial step in anticipation of licensing those Permit by the State Water Resources Control Board. The petitions are for:</p> <ol style="list-style-type: none"> <li>1) Changes in points of diversion, points of rediversion, places of use, and purpose of use (Petitions for Change.</li> <li>2) Redistribution of storage in existing reservoirs (Petitions for Change in Distribution of Storage) and</li> <li>3) Extensions of time to complete beneficial use (Petitions for Extension of Time).</li> </ol> <p>The petitions will clarify and conform the permitted water rights with District operations. The project down not involve any changes to existing or water use.</p>	<b>NOD</b>	
2011031027	<p>Crazy Horse Canyon Switching Station Project Public Utilities Commission --Monterey</p> <p>The project would replace the existing Lagunitas Switch with a new switching with a new switching station and associated power line reconfigurations.</p>	<b>NOD</b>	

## CEQA Daily Log

Documents Received during the Period: 09/01/2011 - 09/15/2011

<b><u>Documents Received on Thursday, September 01, 2011</u></b>			
2011051073	Environmentally Acceptable Food Packaging Ordinance (Environmental Review 2010-006) Salinas, City of Salinas--Monterey A proposed Ordinance to the City of Salinas Municipal Code to regulate and limit the use of polystyrene foam food packaging by food providers located within the City of Salinas.	<b>NOD</b>	
2011061060	Reservoir No. 1 Reconstruction Project Burbank, City of Burbank--Los Angeles Burbank Water & power (BWP) proposes to demolish the existing 6.9-million-gallon (MG) Reservoir No. 1 and construct two new, cast-in-place concrete reservoirs with a total storage capacity of approximately 9.5 MG (Reservoir No. 1A with a capacity of approximately 4.8 MG and Reservoir No. 1B with a capacity of approximately 4.7 MG). This design would consist of two conventional reinforced concrete reservoirs constructed within the footprint of the original reservoir. The larger of the two reservoirs, reservoir No. 1A, located on the northwestern half of the site would be rectangular in shape. The smaller of the two reservoirs, Reservoir No. 1B, located on the southeast half of the site would be trapezoidal in shape.	<b>NOD</b>	
2011072050	Banner-Taylor Reservoir Restoration Project Nevada Irrigation District Grass Valley, Nevada City--Nevada The NID Banner-Taylor Reservoirs are utilized as clear wells and a water storage facility for the E. George Treatment plant and as main storage and emergency reserve for the E. George system. NID proposes to replace the existing hypalon-covered, earthen Banner-Taylor Reservoirs with two storage tanks. The tanks may be concrete, concrete with aluminum top, hypalon covers, or hypalon lined with aluminum top with modification of existing onsite piping. The hypalon covers with installed in 1992 and the covers are badly deteriorated requiring replacement. Due to the current conditions of the covers, replacement of the covers needs to be performed as soon as possible. The project site is on 10 acres of NID property including staging areas. The proposed project area is located in Nevada County.	<b>NOD</b>	
2011072058	Consolidation Cell Removal - Georgia-Pacific Fort Bragg Mill Site Toxic Substances Control, Department of Fort Bragg--Mendocino The DTSC is proposing to approve an Explanation of Significant Differences (ESD) that would modify the final remedy for Operable Unit A (OU-A) contained in a Remedial Action Plan previously approved by DTSD in August 2008. If approved, it would allow for the removal of approximately 13,850 cy of contaminated soils, waste, and debris (approximately 756 truck loads) from a previously constructed consolidated cell located at the former Georgia-Pacific Wood Products Facility; and transporting the material to an approved disposal facility. After removal activities have been completed, the resulting excavated area will be backfilled with 10,000 cy of clean fill material available at the Georgia-Pacific site. If more fill material are needed, it will be obtained from the Noyo Harbor Dredge Sands.	<b>NOD</b>

2011098057	Two Mile Development Environmental Review Parks and Recreation, Department of --Tuolumne The project comprises conducting National Environmental Policy Act (NEPA) analysis and decision documentation for OHV trail realignment and construction within the Clavery River watershed, southwest of Hull Creek Campground on the Mi-Wol Ranger District. No ground disturbing activities are proposed.	<b>NOD</b>	
2011088325	Santa Lucia and Mount Pinos Ranger Districts, Ground Operations Parks and Recreation, Department of Santa Maria--Santa Barbara, Kern, San Luis Obispo, Ventura, Los Angeles The proposed project would provide ground operations covering route operations and maintenance and facilities operation and maintenance.	<b>NOE</b>	
2011098001	camino Heights Water Treatment Plant Roadway Crossing Fish & Game #2 Placerville--El Dorado The project consists of extending a roadway over an unnamed tributary. The access road to the treatment plant is an earthen roadway. The project activities include: *Extending the existing 4-foot diameter culvert by 14 feet at the inlet on the north side of the crossing * Removal of accumulated sediment at the outlet on the south side of the crossing * Re-sloping of the inlet bank slope * Adding rip-rap for erosion control	<b>NOE</b>	
2011098002	Riverfront Park Trail Repair-FEMA Repairs Regional Water Quality Control Board, Region 1 (North Coast), Santa Rosa Healdsburg--Sonoma The purpose of the project is to repair park amenities and to implement trail improvements to reduce erosion and future trail flooding. The project is included in the Governor's Office of Emergency Services Declaration and is being funded by the Federal Emergency Management Agency (FEMA) for damages sustained during 2005-06 winter storm events. Two sections of trail totaling 985-feet long are being replaced. Restoration Site 3 and Site 4 are located on the extreme southwestern portion of Riverfront Park at the southern end of Lake Benoit. Both sites have been operating as wet-ford areas for foot, bicycle, and equestrian traffic; subsequently eroding and delivering sediment into Lake Benoit.	<b>NOE</b>	
2011098003	Bridge Maintenance Rehab Project Caltrans #3 --Mendocino Provide routine maintenance on the Salmon Creek Bridge and the Albion River Bridge on State Route 1 in Mendocino County; which will preserve the integrity and prevent further degradation of the structure.	<b>NOE</b>	
2011098004	805 South Eliseo Drive Bank Stabilization Fish & Game #3 Larkspur--Marin The installation of 1000 square feet rock slope protection and partial adjustment and full burial of the existing geoweb to create protection and establish a tidal mudflat for local species. SAA #1600-2010-0241-3.	<b>NOE</b>

	and an Archaeological Evaluation for the bridge location.		
2011098017	Tahoe National Forest, Restoration, Pole Replacement Parks and Recreation, Department of --Nevada, Placer The proposed project involves replacement of two metal pole gates near Big Reservoir adjacent to the Sugar Pine OHV trail system, which have been damaged, and placemet of large boulders and logs and educational signage to eliminate mororized use in unauthorized areas in various locations throughout the American River Ranger District. In the Yuba River Ranger District, the prouject involves obliterating 1/2 mile of an old jeep trail by decompacting trail tread, placing woody debris to control drainage, and placing boulders to block vehicle access.	<b>NOE</b>	
2011098018	Tahoe National Forest, Ground Operations Parks and Recreation, Department of --Sierra, Nevada, Placer The proposed project would fund contracts, supplies, equipment, salaries, and three snowmobiles throughout all four ranger districts in the Tahoe National Forest. The project activity would include erosion and/or sediment control work susch as water bars, rolling dips, rocks, and maintenance on OHV trails, routes an d areas; and installatino, repair maintanance of OHV protection structures and signs. Boulders would be purchased, transported, and placed along trails to keep motorized users on the trail. Resource specialist would continue monitoring wildlife, soils, water, threatened and endangered species, and cultural sites.	<b>NOE</b>	
2011098019	Lake Tahoe Basin Ground Operations Parks and Recreation, Department of South Lake Tahoe--El Dorado The project would hire field staffing to provide OHV education and information, resource and user monitoring, and provide protection for both natural and cultural resources on national forest lands around Lake Tahoe. This staffing would also post and maintain regulatory signing, replace faded or damaged signboards and wooden frames, assist enforcement officers with OHV/OSV contacts, as well as conduct essential operations and maintenance actions.	<b>NOE</b>	
2011098020	Ground Operations, Invasive Plant Removal Parks and Recreation, Department of --Humboldt The project involves providing funding for non-native invasive plant removal on 40 sites (29 acres) affecting 21 motorized trails (19 miles) located within the Lower Trinity and Mad River Ranger Districts. Removal efforts, to be performed by California Conservation Corps (CCC) hand crews, would be achieved via hand-pulling. Work would take place on all sites in the spring and again in the fall. Removal of invasive plants is to be completed at a minimum distance of 100 feet from either side of the travel way. Of the 40 sites, 32 are occupied by yellow star-thistle or diffuse knapweed, and 8 are occupied by Scotch broom or French broom.	<b>NOE</b>	
2011098021	Pilot Creek OHV Area Ground Operations Parks and Recreation, Department of --Humboldt This application requests funding for routine maintenance on 21 miles of trail associated with OHV use in the Pilot Creek area. Trail maintenance activities include, in the spring, fallen and hazard tree removal, brushing, and tread work	<b>NOE</b>

	related to safety or ease of passage, and in the fall, maintaining erosion control structures. All work would be performed by hand by the California Conservation Corp. The project also includes soil and habitat monitoring.		
2011098022	Sequoia National Forest Education and Safety Support Parks and Recreation, Department of --Kern, Tulare The proposed project would support an OHV/OSV safety/education outreach program.	<b>NOE</b>	
2011098023	Boulder Gulch Camground Restoration Parks and Recreation, Department of --Kern The proposed project would plan for the restoration of non-system routes within the vicinity of Boulder Gulch Campground. The project does not include restoration implementation.	<b>NOE</b>	
2011098024	Kern River, Western Divide and Hume Lake Ranger Districts, Ground Operations Parks and Recreation, Department of Bakersfield--Kern, Fresno, Tulare The proposed project would provide for continuation of routine facility operation and maintenance, including OHV road and trail maintenance.	<b>NOE</b>	
2011098025	Greenhorn Mountains and Kern Plateau Restroom Facilities Parks and Recreation, Department of Bakersfield--Kern The proposed project is for installation of nine vault toilet buildings and associated pathways at seven recreation sites.	<b>NOE</b>	
2011098026	Installation of an Interactive Education Kiosk Parks and Recreation, Department of --Kern The Sequoia National Forest proposes to undertake the purchase and installation of an interactive information kiosk. The kiosk would be installed on an existing concrete slab in front of the Kern River Ranger District Office in Kernville, California. The electronic interactive kiosk includes a 46" screen with an interactive touch feature and printer. The kiosk would be mounted on the slab with mounting bolts. No ground disturbing activity would occur during placement of the kiosk.	<b>NOE</b>	
2011098027	Plumas National Forest Lake Davis Recreation Management Plan Parks and Recreation, Department of Quincy--Plumas The project would fund preparation of the Lake Davis Recreation Management Plan to develop marked trails and a staging area for summer OHV and winter OSV use. The project is for planning only.	<b>NOE</b>	
2011098029	Plumas National Forest Ground Operations Parks and Recreation, Department of --Plumas The proposed project would consists of ground operation, including routine OHV trail maintenance and slurry sealing an existing 35,000 square foot staging area.	<b>NOE</b>

2011098038	Mojave National Preserve and Razor Road OHV Areas Education and Safety Parks and Recreation, Department of Barstow--San Bernardino The applicant is requesting funds for the purchase of a high clearance 4WD vehicle for law enforcement and emergency response situations; In addition, the applicant is requesting funds for updating mapping software - GPS systems.	<b>NOE</b>	
2011098039	Mojave National Preserve Fence Installation Parks and Recreation, Department of Barstow--San Bernardino The project would eliminate illegal incursions by OHVs by installing three miles of fencing, signage, improving mapping, and increasing patrols.	<b>NOE</b>	
2011098040	Chappie-Shasta OHV Area Restoration Planning Parks and Recreation, Department of Redding--Shasta The project involves restoration planning work and would not result in physical changes to the environment. The Western Shasta Resource Conservation District (WSRCD) proposes to develop a plan that would determine restoration needs, including full project designs and any additional environmental analysis, on inventoried roads and trails in the Chappie-Shasta OHV Area in Stasta County. This plan would be a targeted prioritization of an established BLM road inventory in order to identify and develop future restoration projects throughout the Chappie-Shasta OHV Area. Restoration plan development would consist of site visits and field surveys to determine where restoration should occur, what type and how much restoration is needed, developing a proposed action, engaging the public in a collaborative way during the design phase of the project, completing progress reports throughout the life of the grant, and ultimately completing a comprehensive plan that could be used to submit proposals for future restoration projects.	<b>NOE</b>	
2011098041	San Bernardino National Forest Lytle Creek Unauthorized OHV Boulder Placement Parks and Recreation, Department of --San Bernardino The Front Country District of the San Bernardino National Forest (SBNF) proposes to place boulders at thirteen locations along Forest Service Road 3N06 (at Lytle Creek Road) to prevent unauthorized off highway vehicle access into the North Fork of Lytle Creek.	<b>NOE</b>	
2011098042	San Bernardino National Forest Inventoried Roadless Area Restoration Planning Parks and Recreation, Department of San Bernardino--San Bernardino The project consists of conducting National Environmental Policy Act (NEPA) analysis and decisinon documentation for OHV trail restoration within the Deep Creek Inventoried Roadless Area and adjacent Coxey Meadow area. No ground disturbing activities are proposed.	<b>NOE</b>	
2011098043	San Bernardino National Forest Deep Creek and Coxey Meadow Restoration Parks and Recreation, Department of Hesperia--San Bernardino The San Bernardino National Forest proposes to rehabilitate 30 miles of unauthorized single track trail within and adjacent to the Deep Creek Inventoried Roadless Area, the Deep Creek eligible Wild and Scenic River, a Critical Biological Land Use Zone, sensitive cultural areas, and threatened and	<b>NOE</b>

	endangered species habitat. Crews would use hand tools to rake, seed, plant, and slash these non-system trails. Regulatory signage and barriers will be placed at appropriate locations. Monitoring, watering, and patrolling would also occur. Volunteers and forest staff would also occur. Volunteers and forest staff would collect seed, grow native plants, and patrol and monitor restored sites.		
2011098044	San Bernardino National Forest, Cactus Flats Loop Trail NEPA Parks and Recreation, Department of Big Bear Lake--San Bernardino The project would fund NEPA analysis of OHV routes on two existing user created trails, which are directly accessible from the Cactus Flats Staging Area and total 0.61 miles. The proposed activities are those required for planning activities. There would be no effect on the physical environment from the planning activities. NEPA will be completed to analyze the proposed action and any alternatives that are developed.	<b>NOE</b>	
2011098045	San Bernardino National Forest Ground Operations Parks and Recreation, Department of San Bernardino--San Bernardino The proposed project supports annual ground operations at the San Bernardino National Forest. Project activities include trail maintenance, OHV route monitoring, equipment purchase, facilities operations and maintenance, Habitat Monitoring Program implementation, soil conservation, and the archaeology site stewardship program.	<b>NOE</b>	
2011098046	San Bernardino National Forest Cranston Work Center Development Parks and Recreation, Department of --San Bernardino The San Jacinto District of the San Bernardino National Forest proposes to upgrade the Cranston OHV work center to properly secure the OHV volunteer and staff equipment storage and meeting site. The project would fund purchase and installation of 1,750 feet of fencing and a 48-foot steel container to house ATV's, MC's, and hand tools used for trail maintenance and patrol activities on the district. The fencing would help to secure the compound, which is frequently vandalized, and the storage container would help centralize tools and equipment used for the OHV program.	<b>NOE</b>	
2011098047	San Bernardino National Forest Shade Structure Development Parks and Recreation, Department of Big Bear Lake--San Bernardino The San Bernardino National Forest proposes to upgrade two OHV staging areas in the Mountaintop Ranger District with shade structures, picnic tables, and permanent animal-proof trash receptacles. The structures would be steel ramada structures and concrete/steel picnic tables.	<b>NOE</b>	
2011098048	USFS Cleveland National Forest, Ground Operations - South Parks and Recreation, Department of San Diego--San Diego The San Bernardino National Forest proposes to upgrade two OHV staging areas in the Mountaintop Ranger District with shade structures, picnic tables, and permanent animal-proof trash receptacles. The structures would be steel ramada structures and concrete/steel picnic tables. The proposed project includes trail maintenance activities of repairing trail tread, installing or improving water drainage, and trimming brush. Four portable toilets would be installed and serviced. Grant funds would also include rental of an RV trailer as a portable	<b>NOE</b>

	Calaveras Ranger District. No ground disturbing activities are proposed.		
2011098055	Jones Meadow Restoration Environmental Review Parks and Recreation, Department of --Stanislaus The project consists of conducting National Environmental Policy Act (NEPA) analysis and decision documentation for a restoration project within the Jones Meadow northeast of the community of Groveland off State Highway 120 on the Groveland Ranger District. No ground disturbing activities are proposed.	<b>NOE</b>	
2011098056	Stanislaus National Forest Ground Operations Parks and Recreation, Department of Sonora--Tuolumne The project would support routine ground operations at the Stanislaus National Forest. Project activities include trail maintenance, OHV route monitoring, equipment purchase, facilities operations and maintenance, Habitat Monitoring Program implementation, and soil conservation.	<b>NOE</b>	
2011098058	Interface OHV Parking Area Improvements Parks and Recreation, Department of --Calaveras The project comprises solely planning and environmental analysis activities for possible future improvements to an OHV area access road, dispersed campsites, and the OHV trailhead parking area. There would be no effect on the physical environment from planning or analysis.	<b>NOE</b>	
2011098059	Rock Creek/Poho Closed Route Restoration Parks and Recreation, Department of --El Dorado The project consists of environmental analysis (Biological Assessment for CA red-legged frog and NEPA documentation) for the closure and restoration of 11 re-routed segments of the Rock Creek trail system. The project includes mapping the closed routes using GPS and transferring the data to GIS database. Surveys for heritage resources, sensitive plant habitat, and sensitive terrestrial and aquatic species habitat would be conducted if there is insufficient previous survey coverage. It is estimated that there may be five miles of routes to close and restore in the Rock Creek and Poho Ridge areas.	<b>NOE</b>	
2011098060	Eldorado National Forest, Dutch Gasparni Closed Route Restoration Parks and Recreation, Department of --El Dorado This project involves closing and removing approximately 4 miles of routes and the restoration of habitat in areas that are not designated for wheeled motorized vehicle use. The restoration activities include erosion control, tillage of compacted soil, placement of ground cover on the closed routes, and installation of water diversion structures where necessary. Barrier rocks or wooden fences would be used where diversion structures where necessary. Barrier rocks or wooden fences would be used where needed to close off access to the restored area, and signage would be posted to explain the route closure.	<b>NOE</b>	
2011098061	AT&T Mobility Antenna Installation General Services, Department of San Francisco--San Francisco The project consists of installation of eleven six to seven foot tall antennas with associated equipment cabinets on the lower roof of the existing Employment Development Department building. 	<p>Painted to match the facade of the building and will not be visible from the street.</p>		
2011098062	<p>Powder Canyon Drainage Maintenance, La Habra Heights Puente Hills Landfill Native Habitat Preservation Authority La Habra Heights--Los Angeles The project involves maintenance of existing culverts and excavation of a landslide from a seasonal drainage in order to maintain the integrity of the existing fire road for emergency vehicle access in the Powder Canyon portion of the Puente Hills Preserve.</p>	<b>NOE</b>	
2011098063	<p>Transfer of Coverage to El Dorado County APN 027-241-22 (Stanley) Tahoe Conservancy South Lake Tahoe--El Dorado Project consists of the sale and transfer of 43 square feet of potential coverage rights from Conservancy-owned land to a receiving parcel on which a private residence will be constructed. The transfer enables the receiving landowner to carry out the project without any net increase in the amount of existing land coverage in the hydrologically-related area.</p>	<b>NOE</b>	
2011098064	<p>Pit 3 Dam PH-37A Weir Modification Project Regional Water Quality Control Board, Region 5 (Central Valley), Redding --Shasta FERC has requested modifications to an existing weir to capture only leakage from the left dam abutment, rather than as is the current situation where leakage from both the hillside and the left abutment are captured and measured together. PG&amp;E intends to make these modifications by constructing a new weir on top of the training wall on the left abutment downstream of the dam, and modify the existing low-level weir to capture and accurately measure the hillside flows alone by adding a leakage containment wall to the existing containment wall.</p>	<b>NOE</b>	
2011098065	<p>American River Pump Station Erosion Repair Placer County Water Agency Auburn--Placer High river flows during winter storms of 2010-2011 eroded the embankment of the access road to the intake screens of the American River Pump Station. Approximately 350 feet of the embankment eroded and washed away from the site, which is located adjacent to the north fork of the American River near 492 Maidu Drive in Auburn. It is proposed that the embankment be repaired during the dry season and is expected to take approximately six weeks. The repair will consist of excavating the eroded area to sub-grade, placing gunite, rock (rip rap), and boulders on the sub-grade and shaping the finished slope to a condition similar to the slope that existed prior to the erosion. The construction equipment will access the site via existing roadways.</p>	<b>NOE</b>	
2011098066	<p>Roripaugh Ranch Project, Slope Stabilization and Sediment Removal Fish &amp; Game Eastern Sierra-Inland Deserts Region Temecula--Riverside The Operation has unmet mitigation obligations totaling 18.56 acres of habitat creation and enhancement for impacts to 3.38 acres of jurisdictional areas, including 0.83 acres of riparian habitat for the development of Roripaugh Ranch project under Agreement 6-2001-205 (Revision 3) and an Amendment dated 12/9/2005. The project involves bank stabilization at two locations and sediment removal at one location. The project will partially address the violation of Agreement 6-2001-205 (Revision 3), a Notice of Violation issued by the San Diego Regional Water Quality Board, and continuing violations of the Fish and Game</p>	<b>NOE</b>

2011098070	Inyo National Forest Road and Stream Crossing Rehabilitation Project Regional Water Quality Control Board, Region 6 (Lahontan), South Lake Tahoe Bishop--Inyo The Project would rehabilitate a Forest Service road that crosses a wetland associated with Horton Creek by excavating down 6 to 12 inches below grade and placing boulders, cobbles, and gravels in ascending order to allow water to pass from one side of the road to the other.	<b>NOE</b>	
2011098071	Racquet Hanball Demolition California State University, Fresno Fresno--Fresno The scope of this project includes demolition of the existing 584 gsf Handball Courts. The project will also include landscape improvements and the construction of a small shade structure.	<b>NOE</b>	
2011098072	Murrieta South Pipeline Replacement Project Eastern Municipal Water District Perris--Riverside Eastern Municipal Water District (EMWD) has an ongoing annual program to correct substandard conditions within its existing water system. EMWD Water Operations and Maintenance staff recently identified approximately 1,600 lineal feet (LF) of potable water pipeline that has been found to be in critical condition due to several leak repairs that have resulted from corrosion. The potable water pipeline has experienced numerous failures and requires replacement.  Replace approximately 1,600 LF of potable water pipeline within an existing easement.	<b>NOE</b>	
2011098073	Upgrades to Existing Cabins and Restrooms Parks and Recreation, Department of --Santa Cruz Upgrade +/- 14 cabins and 1 restroom/shower building in the Little Basin Property area of Big Basin Redwoods State Park to provide a year round camping experience for park visitors. Mechanically excavate 6 trenches approximately 175 ft long, 3 ft deep and 1 ft. wide to install underground electrical power lines. All trenching will be done within the footprint of existing road alignments and within developed areas of the cabin and campground area of Little Basin. Replace 36 screen windows with new dual pane windows; add insulation and electrical and heating systems to the existing 14 cabins and 1 restroom / shower structure. No trees and minimal vegetation will be cut or disturbed.	<b>NOE</b>	
2011098074	Issue an Easement and Right of Entry to Pacific Gas & Electric Company Parks and Recreation, Department of --Santa Cruz Issue a permanent underground utility Easement and Right-of-Entry (ROE) agreement to Pacific Gas & Electric Company and their contractors to allow for the installation of an approximate 10 foot long underground electrical utility line beneath an unimproved 10 foot strip of land sited between an existing park road and a property line boundary line of the Forest of Nisene Marks State Park.	<b>NOE</b>

<b><u>Documents Received on Tuesday, September 06, 2011</u></b>			
	The Draft Bakersfield Resource Management Plan and Draft Environmental Impact Statement described an analyze five alternatives for the planning and management of public lands and resources administered by the Bureau of Land Management, Bakersfield Field Office. The Planning Area is located in southern-central CA, and comprises approximately 17 million acres of land throughout Kings, Madera, San Luis Obispo, Santa Barbara, Tulare, Ventura, eastern Fresno, and western Kern Counties. Within the Decision Area, the BLM administers approximately 400,000 acres of surface estate and 1.2 million acres of federal mineral estate.		
2005091105	San Diego International Airport Master Plan - Northside Improvements San Diego County Regional Airport Authority San Diego--San Diego NOTE: Review Per Lead	<b>FIN</b>	
	The proposed Northside Improvements project consists of amendments to the Airport Land Use Plan and Airport Implementation Plan for the currently adopted San Diego International Airport Master Plan to include the following projects: 1) consolidated rental car facility; 2) air cargo warehouse facilities; 3) terminal link roadway; and 4) on-site utilities improvements.		
2010031009	USA/BLM Carmel StoneMine Monterey County --Monterey The project consists of a Use Permit and Reclamation Plan for a surface mining operation on approximately 12 acres on Federal land (Bureau of Land Management). The mining permit would allow a 25-year Carmel Stone (Monterey shale) phased operation to excavate up to 610,000 tons of material over the 25-year life of the mine (approximately 29,800 tons for the first five years, and increase to 115,000 in year 6 and up to 185,000 for each subsequent five years), with no permanent facilities on site. This property is located approximately six miles west of Hwy 101 and San Ardo, northerly of San Ardo-Lockwood Road, west of Williams Hill, a portion of Section 28, T22S, R9E, and Section 29, T22S R9E, (Assessor's Parcel No. 422-101-002-000), South County Area Plan. Access is from San Ardo Lockwood Road.	<b>MND</b>	10/05/2011
2011091008	Salvation Army Adult Rehabilitation Center Santa Monica, City of Santa Monica--Los Angeles The proposed project would demolish all the existing buildings on-site and redevelop the site with a new two-story Salvation Army Adult Rehabilitation Center. The two-story Adult Rehabilitation Center would be developed on the 1660 11th Street parcel. The ground floor would include a thrift retail shop and accessory office, warehouse, and manufacturing uses. The second floor would include six private bedrooms providing six beds and eight community bedrooms providing 80 beds for a total of 86 beds. The new building would have a maximum height of approximately 35 feet as measured from average natural grade and would comprise a total of 60,478 s.f. of space. A below level parking garage would provide parking for 85 spaces. The existing 1665 10th Street parcel would be replaced with a surface parking lot providing 9 spaces.	<b>MND</b>	10/05/2011

<b><u>Documents Received on Tuesday, September 06, 2011</u></b>			
2011091010	Alpine Solar - 35-Acre Project, PN: R2009-02089, CUP: RCUPT201100061, ENV:RENV201100093 Los Angeles County --Los Angeles The applicant requests a CUP to authorize a 92 megawatt alternating current photovoltaic electric generating facility in the A-2 Zone. The proposal includes a previously approved 580 acre photovoltaic facility and an additional 35 acres of photovoltaic equipment. Upon approval, this CUP would supersede the previously approved CUP. An addendum to the adopted MND will be considered.	<b>MND</b>	10/05/2011
2011091016	Storm Water Master Plan Hollister, City of Hollister--San Benito 1. Regarding of land to remove existing drainage ditches and depressions on the airport property to reduce safety hazards to aircraft and comply with FAA design standards for Runway Safety Areas. 2. Replacement of the existing drainage ditches with subsurface storm water facilities with additional capacity. 3. Replacement of existing storm water facilities with infrastructure to eliminate ponding or storage of water that could become a wildlife attractant.  The proposed project will take place primarily within the airport property line. There will be up to four infiltration basins located off current airport property.	<b>MND</b>	10/05/2011
2011092007	El Camino Real Senior Housing Project Santa Clara, City of --Santa Clara The project is a rezone from thoroughfare commercial to planned development and tentative parcel map to create a single lot for residential use. The project involves demolition of the existing one-story commercial buildings to construct a new three-story senior housing development with 48 one-bedroom units, 34 parking spaces, landscaping and site improvements.	<b>MND</b>	10/05/2011
2011092012	Bryant Field Airport Stock Drive Realignment Project Mono County --Mono The Bryant Field Stock Drive Realignment project is being pursued to increase safety at the Bryant Field Airport, pursuant to FAA guidelines. The project would realign approximately 700 linear feet of Stock Drive so it is no longer in the Runway Safety Zone, as well as installing storm drain pipes to eliminate drainage ditches from the Runway Safety Zone. The project would also perform related improvements including new fencing and a new gate. The project also requires the acquisition of .5 acres of land to facilitate the realignment of Stock Drive.	<b>MND</b>	10/06/2011
2011091015	Cajalco Road Widening and Safety Enhancement Project Riverside County Corona, Perris--Riverside The County of Riverside (County) is proposing to widen Cajalco Road from two to four lanes between Harvill Avenue to the east and Temescal Canyon Road to the west, and from four to six lanes between Interstate 215 (I-215) southbound ramps and Harvill Avenue. Related proposed improvements include traffic signals, bus turnouts, additional turn lanes, and watercourse crossing and drainage improvements.	<b>NOP</b>	10/05/2011

2011092010	Supplemental EIR for the Santa Rosa Greenhouse Gas Reduction Program Santa Rosa, City of Santa Rosa--Sonoma The City of Santa Rosa Climate Action Plan (CAP) is Santa Rosa's road map to becoming a more sustainable community. The CAP will enable Santa Rosa to reduce greenhouse gas (GHG) emissions, adapt to climate change, and improve the economic, environmental, and physical health of the community. The CAP goals and policies will help shape the future of Santa Rosa. The Santa Rosa CAP is both a policy document and a quantitative analysis of the City's greenhouse gas emissions. Specifically, this Plan identifies policies that will achieve the state-recommended GHG reduction target of 15% below 2007 levels by the year 2020.	<b>NOP</b>	10/05/2011
2011092009	Upper Dotta Canyon Restoration Project Plumas County --Plumas Treatment of 2.9 miles of channel and 253 acres of meadow floodplain using the "pond and plug" technique. The treatment will redirect flows into remnant channels on the surface of the meadow.	<b>Neg</b>	10/05/2011
2011092013	Issuance of Post- Closure Permit For Former Waste Water Treatment Units at DuPont Oakley Facility Toxic Substances Control, Department of Oakley--Contra Costa The project is the proposed issuance by the Department of Toxic Substances Control of a Hazardous Waste Facility Post-Closure Permit to DuPont for six waste management units.	<b>Neg</b>	10/06/2011
2011092014	Gansner - Spanish Creek Pathway Plumas County Quincy--Plumas The Gansner Park Pathway Project in Quincy will consist of the placement of an eight foot wide asphalt concrete paved pathway that connects an existing paved pathway north of the bicycle bridge north of Spanish Creek in Gansner Park with Beskeen Lane, a low-volume, paved, dead-end road that is on the north side of and parallels Spanish Creek to the east of Hwy 70/89.  The 2300' long pathway will wind among existing trees within the improved portion of the park. Leaving the park, it will provide access to native riparian vegetation on the unimproved county-owned lands to the east. The pathway will follow the "high bank" portion of the Spanish Creek waterway on stable ground that has shows no evidence of overtopping or flooding. The pathway is designed to be an "at-grade" improvement, and as such will be an integral part of the flood plain, creating no ponds or dams should unforeseen high waters inundate the pathway. Please see the preliminary construction plans attached as Exhibit 3.	<b>Neg</b>	10/06/2011

	project.		
2011098081	CCWRF Sewer Siphon Repair Project Inland Empire Utilities Agency Chino--San Bernardino The purpose of the proposed emergency project is to repair the Siphon and the concrete channel walls of Chino Creek to prevent a failure of the Siphon and a subsequent release of untreated sewage.	<b>NOE</b>	
2011098082	Prado Dechlorination Station Drainage Repair Project (Project No. WR11019.00) Inland Empire Utilities Agency Chino--San Bernardino The purpose of the proposed project is to re-grade the existing site adjacent to the Prado Dechlorination Station and install new drainage facilities, including curbs and gutters, to allow proper drainage from this location to the regional flood control facilities.	<b>NOE</b>	
2011098083	Microsurfacing Project Caltrans #3 --Placer The scope of work includes: remove the aggregate from an existing truck escape ramp, have it cleaned and then returned to the site. The Contractor will use a loader to pick the material up, and move it to a pull-out at PM 50.9. The aggregate will then be run through a grizzle (grades the material) and then returned to the escape ramp.	<b>NOE</b>	
2011098084	Bridge Deck Rehabilitation Caltrans #3 --Sacramento The project proposes to rehabilitate nineteen bridge structures. Deck concrete will be cleaned and bridge decks to be treated will receive either methacrylate deck treatment or a polyester concrete overlay. Painted traffic stripes will be removed by grinding. Joint seals will be removed and replaced. Metal beam guardrail terminal sections will be removed and replaced.	<b>NOE</b>	
2011098085	Jesse Property Road Erosion Control Project Gold Ridge Resource Conservation District (GRRCD) --Sonoma The purpose of this project is to prevent road-related erosion and sediment delivery to streams by implementing several road improvement measures along approximately 2,000' of unpaved rural access road. These measures include the construction of 5 rolling dips and 2 waterbars. One undersized stream crossing culvert will also be replaced with an appropriately-sized culvert, and 1 armored fill stream crossing will be upgraded.	<b>NOE</b>	
2011098086	Meadow Club Golf Course, 1001 Bolinas Road, Fairfax, CA 94930 Fish & Game #3 Fairfax--Marin This project involves vegetation and sediment removal from the headwaters of Bon Tempe Creek as it flows through the golf course fairways. The flow capacity of Bon Tempe Creek will be increase by removing pockets of sediment and vegetation. Issuance of a Streambed Alteration Agreement Number 1600-2011-0250-R3 is pursuant to Fish and Game Code Section 1602.	<b>NOE</b>

2011098087	Cloverdale Road Drainage Maintenance Project Fish & Game #3 Unincorporated--San Mateo The Project entails the removal of approximately 750 cubic yards of accumulated sediment in 2,575-foot long segment of the drainage. Sediment will be removed from the channel using an excavator and/or backhoe, and transported to an off-site County facility. The Butano Cut-Off box culvert will be flushed during the excavation process. Water and sediment from the flushing activities will be vacuumed or properly filtered. The work area will be isolated from the drainage if water is flowing at the time of construction. All heavy equipment will be operated from the roadway. Issuance of a Streambed Alteration Agreement Number 1600-2011-0169-R3 is pursuant to Fish and Game Code Section 1602.	<b>NOE</b>	
2011098088	Belmont Creek Channel Maintenance Project Fish & Game #3 Unincorporated--San Mateo The Project entails the removal of approximately 47 cubic yards of accumulated sediment from the channel bottom using an excavator, trimming by hand up to 30 percent of each willow tree that has encroached into the channel, and repairing previously placed riprap boulders along the downstream right bank that have become dislodged and have fallen into the stream. The boulders will be lifted out of the stream channel and keyed into the bank properly with the use of an excavator. Issuance of a Streambed Alteration Agreement Number 1600-2011-0035-R3 is pursuant to Fish and Game Code Section 1602.	<b>NOE</b>	
2011098089	CA Red-legged Frog Pond Enhancement Fish & Game #3 Unincorporated--Contra Costa Issuance of Streambed Alteration Agreement No. 1600-2011-0273-3 is pursuant to Fish and Game Code Section 1602 for enhancements to CA red-legged frog ( <i>Rana draytonii</i> ) breeding ponds, including sediment removal, berm and spillway repair, and revegetation of disturbed soils.	<b>NOE</b>	
2011098090	Sacramento Yacht Club Dredging Project Fish & Game #3 West Sacramento--Yolo The project is limited to routine maintenance dredging of approximately 11,800 cubic yards of sediment over a five-year period from the 2.8 acre Sacramento Yacht Club harbor located on the Sacramento River. The maintenance dredging shall occur in an area of approximately 50,000 s.f. The dredge material shall be removed using a barge-mounted excavator dredge with a clamshell bucket. The dredge material shall be pumped to an upland area adjacent to the Sacramento Yacht Club parking lot. The dredge spoils placement area is approximately 14,000 s.f. The design depths for the two dredge areas (dock area and channel) are 3.0 feet mean lower low water (MLLW) for the docks and -5.0 for the channel area. Existing depths within the two dredge areas range from +3.7 feet MLLW to -18.8 MLLW. Issuance of a Streambed Alteration Agreement Number 1600-2011-0068-3 is pursuant to Fish and Game Code Section 1602.	<b>NOE</b>	
2011098091	Mammoth Rock 'n Bowl (Use Permit Application 11-002, Design Review 11-002) Mammoth Lakes, City of Mammoth Lakes--Mono A new bowling center within a new building with a footprint of 18,860 s.f. and approximately 25,300 s.f. of habitable space. The proposed building would	<b>NOE</b>

<b><u>Documents Received on Tuesday, September 06, 2011</u></b>			
	include 12 bowling lanes, as well as billiards tables, darts, three golf simulation machines, and a bar and restaurant.		
2011098092	Agreement 2011-0086-R4 - Simon Newman Ranch Project Fish & Game #4 --Merced Existing livestock ponds and seasonal springs will be restored by removing silt and sediment, repairing dams and spillways, installing, replacing, or repairing pumps, water tanks, and troughs, and plumbing water bodies, pumps, water tanks, and troughs together. Approximately 30 willows ( <i>Salix</i> sp.) with 4-inch to 10-inch diameters at breast height (DBH) will be the only tree species removed.	<b>NOE</b>	
2011098093	Agreement 2011-0114-R4 - Water Hyacinth Removal Project Fish & Game #4 Los Banos--Merced Removing approximately 2,000-cubic yards of water hyacinth ( <i>Eichhorhria crassipes</i> ), dead and downed vegetation, and approximately 4,500-cubic yards of silt and sediment. Work will be required in the wetted portion of the channel; however, water will not be diverted. Equipment and machinery to be used includes a drag line type excavator.	<b>NOE</b>	
2011098094	Brawley Community Solar Project University of California, San Diego Brawley--Imperial The SDSU-Imperial Valley Campus will be installing a community solar project suing concentrated photovoltaic solar technology on its Brawley campus. Most of the electricity produced will be sold to local homes and businesses in the Imperial Valley (5 MW). Enough additional electricity will be produced to fully power the Brawley and Calexico campuses campuses (approximately 1.5 MW). The Energy Innovations concentrated photovoltaic panels chosen for this project are more efficient and therefore require less space than other photovoltaic technologies.	<b>NOE</b>	
2011098095	Issuance of Streambed Alteration Agreement No. 1600-2011-0216-R1, Paradise Hollow Project Fish & Game #1 --Siskiyou The project involves replacing three native-soil ford crossings with rocked ford crossings.	<b>NOE</b>	
2011098096	Issuance of Streambed Alteration Agreement No. 1600-2011-0148-R1 Kurpuweit Vegetation Management Project Fish & Game #1 --Shasta The project is limited to mechanical vegetation management, which includes removal of dead, dying, and non-native vegetation, and thinning of denser native vegetation, such as willows and oaks, and the trimming lower branches of larger trees.	<b>NOE</b>	
2011098097	Issuance of Streambed Alteration Agreement No. 1600-2010-0383-R1 Fish & Game #1 Hayfork--Trinity The project is limited to limbing and trimming of willow trees within the road easement of Whittle Way.	<b>NOE</b>

2006041147	California Incline Bridge Replacement Project Santa Monica, City of Santa Monica--Los Angeles Note: Draft EIR/EA, Recirculated  The proposed project would replace the existing CA Incline bridge structure with a new structure of the same type. The purpose of the proposed project is to correct deficiencies in the bridge and make it safe for vehicular, bicycle, and pedestrian use. The deteriorated condition of the bridge makes corrective action necessary. The condition of the substructure and superstructure is poor. Furthermore, the bridge suffered earthquake damage in the Sylmar and Northridge earthquakes, and is now in need of seismic upgrades. The integrity of the upper bluffs is also poor, causing landslide and erosion concerns for motorists, cyclists, and pedestrians. Therefore, improvements related to the geologic integrity of the upper bluffs are planned as part of the proposed project, including the installation of stabilizing soil nails.	<b>EA</b>	10/28/2011
2005121019	General Plan Update, Annexation No. 81, Downtown Master Plan, Housing Element, Climate Action Plan Lake Elsinore, City of Lake Elsinore--Riverside CA Government Code Section 65300 requires each city and county in CA to adopt a comprehensive, long-term general plan. The City of Lake Elsinore has prepared	<b>EIR</b>	10/21/2011

	the City of Lake Elsinore General Plan Update to replace the existing General Plan which was originally adopted in 1990. The overall purpose of the General Plan is to update goals, objectives and policies that will guide development in the City and its Sphere of Influence and reflect the community's vision for the future.		
2006031049	Hidden Creeks Estates Los Angeles, City of Los Angeles, City of--Los Angeles The project, which is located immediately northwest of the Porter Ranch community in the northwestern portion of Los Angeles County, would involve the construction of 188 single-family residential lots, including 25 equestrian residential lots, a 15.5-acre public park and 15.8-acre equestrian facility on 158 acres of the site. The remaining 127 acres of the site would be preserved as open space. Primary access to the project site would be provided via an extension of Mason Avenue and secondary access would be provided by Browns Canyon Road.	<b>FIN</b>	
2007091148	Crenshaw Transit Corridor Project Metropolitan Transportation Authority Los Angeles, City of, Inglewood, Hawthorne, El Segundo, ...--Los Angeles Note:Final 1 CD  This document evaluates maintenance facility sites considered after the EIR Statement and DEIR was circulated to public agencies and the general public between Sept. 11 and Oct. 25, 2009. Additionally, this document evaluates the Section 4(f) resources (parklands and historic resources) for refinements made to the Locally Preferred Alternative (LPA) and the corresponding area of potential effects (APE) for the Project based on more advanced engineering design.	<b>FIN</b>	
2011091018	Supplemental Water Lease Project Santa Margarita Water District San Juan Capistrano--Orange Rancho Mission Viejo LLC (RMV) is forming a Mutual Water Company (MWC) to protect and maintain the right of RMV land owners to use their riparian water following the subdivision of riparian lands in the San Juan Watershed. The MWC will hold the riparian water rights of the landowners and the landowners will have the right to take their proportionate share of the water for their own use or to assign their allocation of water for use on riparian lands within the San Juan Watershed.	<b>MND</b>	10/06/2011
2011091021	Bender Calpipe Project Santa Paula, City of Santa Paula--Ventura The proposed project involves changes to the land use designations of four parcels, plus construction of industrial buildings on a portion of one of the parcels. The project would involve construction of industrial buildings in two phases on an existing lot currently occupied by agricultural fields, fallow ground, and hard packed dirt used for storage of vehicles and equipment along its frontage with the currently unpaved portion of Todd Lane (E-W). Both phases would be constructed on five acres of the southern portion of a 13.18 acre parcel (APN 099-0-030-645). The currently proposed project involves construction on only one parcel. However, the proposed General Plan amendment and zone change for the three adjacent parcels could facilitate additional development beyond the first two industrial buildings at some point in the future.	<b>MND</b>	10/07/2011

2011-09	Viejas (Baron Long) Group of Capitan Grande Band of Mission Indians of the Viejas Reservation - APNs: 406-020-03; 08,09,12; 406-030-22,23;406-030-11,14,15 Bureau of Indian Affairs --San Diego The subject property consists of a two parcels of land, encompassing ~88.5 acres more or less. The parcels are contiguous to trust lands. Currently, the subject property is undeveloped with the exception of one house. Previously there were three homes of which two were lost to a wildland fire. The Tribe's overall purpose consolidation to enhance self-determination. The Tribe may use the parcels in the future to provide housing for tribal members and to support tribal community preservation as is more thoroughly discussed in the Environmental Assessment.	<b>BIA</b>	10/07/2011
2009092067	North Watt Avenue Corridor Plan Sacramento County Sacramento--Sacramento The project consists of the following entitlement requests for Sacramento County: 1. A General Plan Amendment to change the General Plan designation from Agricultural Residential (36.18 acres), Commercial Offices (285.70), Industrial Intensive (310.57 acres), Low Density Residential (68.30 acres), Medium Density Residential (11.28 acres) and Recreation (8.74 acres) to Neighborhood Transit Oriented Development.	<b>EIR</b>	10/24/2011
2010071019	Indio Water Authority Recycled Water Program Indio Water Authority Indio--Riverside The City of Indio Water Authority (IWA) proposes to treat wastewater flows from the Valley Sanitary District (VSD) Wastewater Treatment Plant (WWTP) for re-use on large scale irrigation sites within or adjacent to the City and for possible groundwater recharge of the underlying aquifer. Currently, VSD discharges ~7,000 acre-feet per year (AF/yr) of treated effluent to the unlined Coachella Valley Stormwater Channel which discharges into the Salton Sea ~13 miles downstream of the VSD outlet. The proposed project would include (1) installation and operation of a tertiary treatment system that complies with Title 22 Standards for recycled irrigation water, (2) installation and/or conversion and operation of pipelines for recycled water conveyance, (3) installation and operation of one or more groundwater recharge treatment facilities, and (4) installation and operation of aquifer storage recovery (ASR) wells or conversion and operation of existing wells to ASR for groundwater recharge. The project components would be expected to be implemented in phases based upon recycled water availability and market demand.	<b>EIR</b>	10/24/2011

<b><u>Documents Received on Thursday, September 08, 2011</u></b>			
	5.7 acres. The project site is split zoned CTC and zoned RM. The Oak Tree Permit is for the proposed removal of three non-heritage City planted trees. Improvements for this project include bike lockers, five bus layover canopies, and a passenger drop off area.		
2011092016	525 San Antonio Road Property Acquisition Palo Alto Unified School District Palo Alto--Santa Clara The proposed project is the acquisition by the Palo Alto USD of the property at 525 San Antonio Road, Palo Alto, CA. The District is looking to purchase the property to preserve the possibility of expanding school facilities in the future. There is currently no building demolition being contemplated and no plans for reuse have been prepared. The property will remain in its present condition until such time as plans are developed and approved by the District, and other regulatory agencies, as appropriate. Any future re-use or redevelopment on site will be subject to separate review for compliance with the CEQA.	<b>Neg</b>	10/07/2011
2003022049	Bair Island Restoration and Management Plan U.S. Fish and Wildlife Service Redwood City--San Mateo Restoration of 571 and enhancement of 307 acres of tidal wetlands at Middle Bair Island, part of the Bair Island complex, by installing ditch plugs, breaching levees, and installing flow constrictors.	<b>NOD</b>	
2009112071	Fort Bragg Coastal Restoration and Trail Project Fort Bragg, City of Fort Bragg--Mendocino The Fort Bragg Coastal Restoration and Trail Project, located on the western edge of the City of Fort Bragg, consists of habitat restoration of approximately 24 acres and construction of 4.5 miles of new multi-use and pedestrian trails stretching from Pudding Creek Trestle south to the Noyo Bridge. The project includes construction of a three parking lots, three restrooms, interpretive and safety signage, benches, and permiter fencing.	<b>NOD</b>	
2010022008	Brewer Road Bridge at King Slough Bridge Replacement Placer County Lincoln--Placer The California Department of Fish and Game is executing Lake or Streambed Alteration Agreement number 1600-2011-0043-R2, pursuant to Section 1602 of the Fish and Game Code to the project applicant, Placer County Department of Public Works.  The project is limited to removal of the existing Brewer Road Bridge where it crosses Markham Ravine and construction of a new concrete bridge in its place at the same site. Current bridge abutments will be removed and new abutments will be constructed further back. The outfalls from roadside drainage ditches into Markham Ravine will be rocked to minimize continuing bank cutting from storm runoff. While work is ongoing within the stream channel water will be diverted around the project area.	<b>NOD</b>

SCH Number	Title / Lead Agency / City--County / Description	Document Type	Ending Date
<b><u>Documents Received on Thursday, September 08, 2011</u></b>			
2011061011	<p>Andalucia Mission Viejo Mission Viejo, City of Mission Viejo--Orange</p> <p>The 7.12-acre project site is proposed for a 256 unit multifamily residential development. The development will consist of two independent multifamily communities designed to operate either as a single community, or alternatively as two separate communities. Bank stabilization and vegetation restoration activities are proposed for Oso Creek, which traverses the site separating the two proposed communities.</p>	<b>NOD</b>	
2011072024	<p>Wastewater Treatment Plant, Summer Surface Water Discharge Project Galt, City of Galt--Sacramento</p> <p>Consistent with the provision of the City's WWTP national Pollutant discharge Elimination System (NPDES) Permit and Waste Discharge Requirements (WDRs), the City is proposing to initiate discharge of tertiary treated effluent from the WWTP to Skunk Creek/Laguna Creek during the period of May 1 through October 31, annually. The City already discharges treated effluent to Skunk Creek/ Laguna Creek during November 1 through April 31 every year, so this project would extend the discharge period year round. The Central Valley Regional Water Quality Control Board approved year round discharge for the Galt WWTP when it renewed the NPDES Permit and WDRs in September 2010. The City has since installed the required treatment upgrades for tertiary level treatment and will continue to maximize summer irrigation of city-owned agricultural fields at the WWTP. As part of this program, the City would also discontinue its lease to irrigate approximately 160 acre of adjacent agricultural fields currently owned by the Roman Catholic Bishop of Sacramento (south of the WWTP) because that additional land would no longer be needed for seasonal reclamation.</p>	<b>NOD</b>	
2011098106	<p>American River Pump Station Storm Damage Repair (1600-2011-0160-R2) Fish &amp; Game #2 Auburn--Placer</p> <p>The project is limited excavation of a damaged and eroded slope supporting an access road to the pumping station. The slope will be excavated to below grade. Gunite and rip rap, using locally obtained and imported boulders and large rock, will be used to build the area back up to the current grade to support the access road. The work area is approximately 360 feet long by 15 feet wide. Work will be performed using equipment accessing the site from the access road.</p>	<b>NOE</b>	
2011098107	<p>Tice Creek Stormwater Outfall, Tice Oaks Apartments Fish &amp; Game #3 Walnut Creek--Contra Costa</p> <p>The project is limited to installation of a new storm drain, including a 333 linear-foot collector pipe and three storm drain inlets, with a single outfall into Tice Creek. SAA #1600-2010-0298-3.</p>	<b>NOE</b>	
2011098109	<p>Elk Spring Water Line Bypass McCloud Community Services District --Siskiyou</p> <p>Install a 12 inch ductile iron waterline bypass of the existing lower Elk Springs intake structure. The new bypass would allow water from the Upper Elk Springs water line to bypass the Lower Elk Springs intake structure and enter directly into the main Elk Springs waterline for the District. The bypass will ensure that the currently unsanitary conditions of the unsealed Lower Elk Springs springhouse</p>	<b>NOE</b>

2011094001	NASA Draft Routine Payload National Aeronautics and Space Administration Lompoc--Santa Barbara Note: Ending date 10/12/11  NASA proposes to design, launch, and operate a variety of scientific spacecraft that can be considered routine as defined by NASA's Routine Payload Checklist. These spacecraft would be launched using U.S. domestic expendable launch vehicles whose impacts have been examined in previous EAs and EISs. These existing National Environmental Policy Act documents are incorporated by reference. By meeting the criteria of the RPC and by having no new or substantial environmental impacts or hazards, spacecraft would be considered NASA routine payload and would fall under the scope of this EA for Launch of NASA Routine Payloads on Expendable Launch Vehicles.	EA	10/12/2011
2011094002	Tioga Road Rehabilitation National Park Service --Merced Rehabilitate, restore, and resurface approximately 41 miles of aging and deteriorated road. It also proposes to improve road way drainage and management of roadside parking.	EA	10/10/2011
2009031061	Newport Banning Ranch Newport Beach, City of Newport Beach--Orange The Project would allow for the development of the approximately 401.1-acre site with 1,375 residential dwelling units (du); 75,000 s.f. of commercial uses, a 75-room resort inn with ancillary resort uses, and approximately 51.4 gross acres for active and passive park uses including 26.8-gross-acre public Community Park. Approximately 252.3 gross acres would be retained in permanent open space. The project site's existing surface oil production activities located throughout the site would be consolidated into approximately 16.5 acres. The remaining surface oil production facilities would be abandoned/re-abandoned, remediated for development, and/or remediated and restored as natural open space. The proposed Project includes the development of a vehicular and a non-vehicular circulation system for automobiles, bicycles, and pedestrians, including a pedestrian and bicycle bridge from the project site across West Coast Hwy.	EIR	10/24/2011
2009041114	Palma de La Reina Development Project San Diego County --San Diego Newport Pacific, Inc. proposes to grade and develop a mixed-use project on an ~4.31 acre parcel in the San Dieguito Community at the intersection of Via de la Valle and Cancha de Golf in the unincorporated community of Rancho Santa Fe in San Diego County. Development proposed for the project site will include a retail/office center with secondary residential uses. The proposed development	EIR	10/24/2011

	will consist of the following: 9,559 sf of retail space with a maximum of 14 single-story retail stores; 19,500 sf of two story office space with a maximum of 22 offices; and 54 apartments units (53,496 sf of residential) in 9 two-story buildings.		
2009121004	<p>Simi Valley General Plan Update Simi Valley, City of Simi Valley--Ventura</p> <p>The project consists of a comprehensive update of the Simi Valley General Plan. The updated General Plan will establish an overall development capacity for the Planning Area and will serve as a policy guide for determining the appropriate physical development and character of the City through the year 2030. The project's Planning Area comprises all properties physical development and character of the City through the year 2030. The project's Planning Area comprises all properties located within the City of Simi Valley City limits and Sphere of Influence. Buildout of the Planning Area would result in a maximum of 58,438 residential units, 7,642,000 s.f. of office space, 8,764,000 s.f. of commercial space, 12,134,000 s.f. of industrial space, and 5,743,000 s.f. of business park space.</p>	<b>EIR</b>	10/24/2011
2010042073	<p>Phase 3 of the Reclamation District No. 17 (RD 17) 100 - Year Levee Seepage Area Project (LSAP) Reclamation District 17 Stockton, Lathrop, Manteca--San Joaquin</p> <p>Phase 3 of the LSAP proposes landside levee improvements along approximately 8.4 miles of the RD 17 levee system in San Joaquin County, California, including portions of the San Joaquin River east levee, portions of the levee along the northerly bank of Walthall Slough, and the Dryland levee extending easterly from Walthall Slough to ~ South Airport Way, to meet applicable Federal and State design recommendations for levees protecting urban areas. Project objectives are to construct seepage berms, setback levees, and slurry cutoff walls where needed to increase the levee's resistance to underseepage and through-seepage; to provide seepage exit gradients of less than 0.5 at the water surface elevation associated with a flood event with a 0.01 annual exceedance probability; and to implement USACE levee vegetation management recommendations.</p>	<b>EIR</b>	10/24/2011
2011091026	<p>Mercedes-Benz Expansion Project Anaheim, City of Anaheim--Orange</p> <p>The proposed project is an amendment to a CUP to allow the expansion of an existing automobile dealership to include an automobile service facility. The proposal is to build a two-story, 7,550 s.f. expansion, for office use, to the existing automobile showroom and sales building. Additionally, the proposed project includes construction of a new three-story, 115,493 s.f. automobile service and vehicle storage building. The new service building would house vehicle service, parts, receiving, parts and equipment storage, employee facilities, and parking for new vehicles. In addition, automobile service is proposed in the existing car wash.</p>	<b>MND</b>	10/10/2011
2011091027	<p>South Fork Channel Maintenance Project Kern County --Kern</p> <p>The project consists of a flood repair and streambed maintenance project for the South Fork of the Kern River. The flood protection project entails an approximate 20 to 50-foot-wide by approximately three mile long alignment along the south fork</p>	<b>MND</b>	10/10/2011

<b><u>Documents Received on Friday, September 09, 2011</u></b>			
2011092023	11th Street East Tracy Overhead Bridge Replacement Project Tracy, City of Tracy--San Joaquin The City of Tracy proposes to replace the 11th Street East Tracy Overhead Bridge, which crosses UPRR tracks and North MacArthur Drive in the City of Tracy, CA. 11th Street is a principal east-west arterial serving local, truck, and commuter traffic in the City of Tracy. Built in 1936, the original 2-lane reinforced concrete T-beam and steel girder structure was widened to 4-lanes in 1960.	<b>MND</b>	10/11/2011
2011091029	Sunset Bronson Studios Los Angeles, City of Los Angeles, City of--Los Angeles The project Applicant, proposes the development of a 13-story office building of ~314,495 sf and 5 story production office building of ~90,304 sf, supported by a proposed 7-story parking structure with two levels of additional subterranean parking. The project also includes a replacement guard station along Van Ness Avenue and a café with outdoor seating adjacent to the proposed production office building. These improvements would replace an existing surface parking lot and 14,499 sf ancillary studio-related buildings located on an ~4.36-acre portion of the 10.55-acre Sunset Bronson Studios campus. Upon buildout, the project would result in a net increase of ~391,018 sf of building area and an increase of 1,334 parking spaces for a total of 1,800 parking spaces within the Project Site.	<b>NOP</b>	10/10/2011
2011092018	North County Tower San Joaquin County Galt--San Joaquin A San Joaquin County, Information Systems Division project to construct a 145-foot radio communications tower with equipment container, fencing, and 10' x 30' foundation pad. The purpose of the tower is to expand and improve the radio communications capabilities for public safety agencies in northern San Joaquin County.	<b>Neg</b>	10/10/2011
2011062063	East Trunk Sewer Replacement Project Thermalito Water and Sewer District Oroville--Butte Note: Response to Comments  Specifically, the Thermalito Water and Sewer District is proposing to replace the existing East Trunk sewer line in Butte County, CA. The purpose of the project is to address and meet existing capacity deficiencies caused by 1) infiltration and inflow, 2) unplanned connections from the County of Butte's Government Center and 3) unplanned increases in flows from past land use approvals that allowed higher land use densities within the City of Oroville.  The proposed East Trunk replacement line project will consist of placing a new trunk line tandem to the existing sanitary sewer collection system where feasible, utilizing the existing rights-of-way (ROW) and existing sanitary sewer collection system easements already in place. The placement of the pipeline in a tandem locations will allow the existing system to remain in service while the proposed replacement facilities are being installed. The replacement pipeline will be constructed of 12" and 15" Polyvinyl Chloride gravity sewer pipe; this larger pipes size will accommodate the current capacity deficiencies.	<b>Oth</b>

	Fort Seward gauge uptresam).		
2011098196	Rief Property, Seasonal Creek Improvement Regional Water Quality Control Board, Region 1 (North Coast), Santa Rosa Santa Rosa--Sonoma The project will include the installation of a culvert under a section of roadway that has been operating as a wet-ford area. Three 18-inch diameter culverts, approximately 18 feet in length, will be placed using a backhoe or excavator and a soil compactor, the inlet and outlet of the culvert will be armored with rock. An unnamed tributary to Matanzas Creek enters the western boundary of the Rief property via an under road drainage culvert from an upland property. Shortly after the point of entry the creek abruptly turns; it is in this area that the creek bank is eroding and delievering sediment to the stream.	<b>NOE</b>	
2011098197	Alamo River Conservation Project at Bridge 58-007 Holtville, City of Holtville--Imperial The project involves enhancement improvements to an area that transitions from a trail/bikeway urban area into a recreational/park area. Enhancements will include drought tolerant trees such as mesquite trees, native vegetation, lighting and erosion control measures adjacent to the Alamo River. The purpose of the project area is to restore, protect and enhance the project area and create an environment where wildlife can thrive and people can enjoy high quality outdoor recreation.	<b>NOE</b>	
2011098199	Conversion of Test Wells 10 & 11 into Production Wells Public Health, Department of Oceanside--San Diego The California Department of Public Health (Department), as the responsible agency, has issued a water supply permit amendment to City of Oceanside for conversion of two existing test wells into permanent wellhead facilities which will supply water to the Mission Bay Desalting Facility.	<b>NOE</b>	
2011098200	Grant Award # ARV-10-002 to Propel Fuels, Inc. and Grant Award # ARV-09-006 to Department of General Services Energy Commission -- The project will fund the construction of 85 (10 from ARV-10-002) ethonal blend (E-85) dispensers at existing publicly-accessible fueling stations throughout California. All potential sites are currently being used as petroleum fueling stations. The project involves the addition of a dispensing unit and underground tanks to each gas station. The project will benefit the sate of California by promoting low-carbon alterantive fuels in the public marketplace, creating jobs, and decreasing the state's dependence on petroleum oil.	<b>NOE</b>	
2011098201	Saddlebag Dam, No. 104-39 Water Resources, Department of --Mono The proposed work consists of installing a geomembrane liner over the entire upstream face of the dam.	<b>NOE</b>	
2011098202	Maintenance, Operations and Transportation Warehouse Project Delano Union School District Delano--Kern The project consists of the remodel and replacement of the District's Maintenance, Operations & Transportation warehouse buildings. 2010121014	Otay - Tijuana Airport Crossborder Facility Project San Diego, City of San Diego--San Diego Note: Recirculated  The project is a re-subdivision of an approximately 63.8-acre property (lots 1 through 30 of the Otay Pacific Business Park) through the filing of a Vesting Tentative Map (No. 609579) and request for a Planned Development Permit (PDP No. 609801) to allow the development of a 95,000 square foot (SF) Cross Border Facility (CBF); a 772,000 square foot parking structure, and 706,000 s.f. of industrial and office/warehouse uses. Alternatively, the project includes an option to build up to 340 hotel rooms; up to 40,000 s.f. of visitor-serving commercial uses, and up to 402,000 s.f. of industrial uses.	<b>EIR</b>	10/26/2011
2006012125	San Rafael Airport Recreational Facility San Rafael, City of San Rafael--Marin NOTE: Final 1 CD  A San Rafael Airport Recreational Facility project proposes a new private recreational facility on 9.1 acres of the 119.52 acres airport site. The new facility would consist of a 38 foot tall, total 85,700 sf metal recreational building housing indoor fields and courts, a 14,400 sf mezzanine lighting, landscaping, parking, and fencing improvements. The use proposes to operate daily from 9:00 am to Midnight. Site work includes extension of paved access driveway, 184 space parking lot, new bridge deck, and grading to raise site elevations 2 ft achieving 1.0 and 2.0 ft grade elevations for the building and fields.	<b>FIN</b>	
2011091033	Exploratory/Production Oil Well SVB 2-32 Monterey County King City--Monterey Use Permit to allow the exploration for oil and gas and the development of oil pumping facilities and well pad for site SBV 2-32 for a production oil well; required grading (approximately 850 cubic yards of cut and 500 cubic yards of fill). The property is located in the southwest corner of Section 32 T20S, R8E, 2 miles south along Jolon Road from Oasis Road, King City Area, (Assessor's Parcel No. 235-101-040-000), Central Salinas Valley Area Plan.	<b>MND</b>	10/11/2011
2011091034	Andree Clark Bird Refuge Vegetation Maintenance and Habitat Restoration Project Santa Barbara, City of Santa Barbara--Santa Barbara Proposal to remove 0.86 acres of marsh vegetation from Andree Clark Bird Refuge and restore 0.86 acres of wetland habitat at the Bird Refuge, and remove silt and vegetation from a grouted sandstone culvert along Old Coast Highway and from a concrete culvert entering the Bird Refuge from the north, for a total of 0.07 acres from the culverts. Maintenance activities would occur over a five-year period to keep the affected locations free of marsh vegetation. The restoration consists of 1:1 replacement of brackish marsh wetland habitat in various locations around the Bird Refuge. The purpose of the project is to restore water flow and conveyance in the lake and culverts to reduce mosquito production and flooding, improve water quality and limit eutrophication and resulting odors. The project would also protect the diversity of habitats at the Bird Refuge.	<b>MND</b>	10/11/2011

2011091035	Calico Ghost Town Water Treatment Project San Bernardino County --San Bernardino The project proposes to install a small reverse osmosis water treatment unit located in proximity to and generally south of the existing sewer treatment ponds located south of the park entrance. The raw water from the two wells would then be pumped to the water treatment unit and the treated water would then be pumped to the two existing reservoirs. Waste brine resulting from the treatment of the water would then drain to evaporation ponds for disposal. These ponds would be at a depth of approximately 6 feet, and will be lined to prevent contaminants from re-entering the water table. If necessary, during winter months waste brine may be pumped out of the ponds for off-site disposal.	<b>MND</b>	10/11/2011
2011092025	Drabik and Gudath SFD (CPN10-0002) Sonoma County --Sonoma Request to construct a 3,336 s.f. single-family residence and a driveway on 99.6 acre parcel.	<b>MND</b>	10/11/2011
2011092027	Harmony Redevelopment & Tradezone Rezone Milpitas, City of Milpitas--Santa Clara The project includes two components. The first component referred to as "Rezone" includes a General Plan, Zoning, and Specific Plan Amendment to rezone 13.6 acres from Mixed Use Very High Density to Multi-Family High Density, update the Transit Area Specific Plan Area Map for the location of the park and rezone 10.87 acres from Multi-Family High Density Residential to Parks and Open Space. The second component referred to as "Development" includes the development of 276 single family attached townhomes and condos on approximately 12.3 acres. The Development site is wholly located on the northwest of McCandless and Montague Expressway Intersection (APN's: 86-41-020.021 and 022).	<b>MND</b>	10/12/2011
2011091031	East Otay Mesa Recycling Collection Center and Landfill San Diego County --San Diego Note: Extended Review per lead  The proposed recycling collection center and class III solid waste landfill would occupy approximately 340 acres of the 450 acre site. The remaining 110 acres would remain undeveloped. The East Otay Mesa Specific Plan established a 1,000 foot wide buffer adjacent to the site to the west to minimize land use conflicts between the recycling collection center and landfill and nearby development. The proposed project would include a recycling collection center, lined landfill, scale area, borrow and stockpile area, leachate collection system, chipping and grinding area, storm water retention facilities, a new access route from Loop Road/Paseo De La Fuente, and a facilities and operation area. The facilities and operation area would include a visitors' center, office building, maintenance office, shop and yard, and landfill gas collection and recovery system.	<b>NOP</b>	10/27/2011

2011092022	Diridon Station Area Plan Subsequent Program EIR San Jose, City of San Jose--Santa Clara The proposed Diridon Station Area Preferred Plan includes a mix of land uses placed in three Identity Zones. Generally, the Northern Zone is north of The Alameda, the Central Zone is the core area centered on the Diridon Station, and the Southern Zone is roughly between Park Avenue and Interstate 280. Employment, retail, and entertainment uses are focused in the Central Zone near Diridon Station to support transit activity and establish the area as a region-wide destination with connections to HP Pavilion and the future baseball stadium. Residential and supportive commercial uses are located in the urban neighborhoods of the northern and southern zones and are within easy walking distance of the Station "Core". A high-intensity business district is planned north of HP Pavilion including innovative office, research and development, and incubator space for product and business development. Retail frontage is also proposed along main arterials in the Plan area including West San Carlos Street and The Alameda.	<b>NOP</b>	10/11/2011
2011091032	ENV-2011-1437-ND / 13230 Harding Street Los Angeles, City of --Los Angeles The project is the installation of six, new parcel antennas on an existing Southern CA Edison Tower, a new, CMU wall site enclosure to house radio equipment, four, new GPS antennas and an underground coaxial cable lines. The maximum height of the panel antennas would be 24-feet. The project requires a CUP to allow the installation of a wireless telecommunications facility in the PF Zone.	<b>Neg</b>	10/11/2011
2011092024	Montini Preserve: General Plan/SOI Amendment, Rezoning, and Annexation Sonoma, City of Sonoma--Sonoma General Plan amendment and sphere of influence amendment, along with the rezoning and annexation of two parcels having a combined area of 59.5 acres. Under the project, the Montini Preserve would continue to be maintained and managed as protected open space.	<b>Neg</b>	10/11/2011
2011092026	AOC2 Interim Measures Toxic Substances Control, Department of Pittsburg--Contra Costa DTSC is proposing to approve a draft Interim Measure for a Intermin Removal Action Workplan (IRAW), pursuant to authority granted under Chapter 6.5, Division 20, CA Health and Safety Code, for Area of Concern 2 at the General Chemical West LLC Bay Point Works facility located in Pittsburg, CA. If approved, it would allow for the removal of approximately 4,000 cubic yards of contaminated sediments and soils from AOC2, that will be transported to an approved off-site landfill. After removal activities have been completed, the resulting excavated area will be lined with a geotextile fabric liner and backfilled with approximately 36,200 yd3 of clean soil, 3,800 yd3 of gravel, 90 yd3 of rock, and 2,800 yd3 of clay (a total of approximately 2,760 truckloads of imported materials). Project activities are expected to be completed in approximately 12 weeks.	<b>Neg</b>	10/12/2011

2004112063	<p>Master Permit for Env. Enhancement Projects Santa Cruz County Capitola--Santa Cruz</p> <p>This project is under the Master Permit issued to the Santa Cruz County Resource Conservation District (RCD) to administer the Santa Cruz Countywide Permit Coordination Program, for small, environmentally beneficial projects in Santa Cruz County. The project is located at Reggiardo Creek within the ecological reserve, Assessor Parcel Numbers 063-091-09 and 063-091-11. Project activities include the removal of a failed culvert and installation of a rock riprap roadbed. A riprap cutoff wall will also be installed. The existing road surface will be lowered approximately four feet and gabion sized rock riprap will be placed on the rock ford. Seepage collection structures, consisting of geotextile fabric and graded drain rock, will be placed to capture and direct base flow away from the riprap structure and into the existing channel. Seventy live willow stakes will be planted to stabilize the margins between riprap channel banks and fill slopes. The California Department of Fish and Game is executing a Lake and Streambed Alteration Agreement, Number 1600-2011-0181-R3, pursuant to Section 1602 of the Fish and Game Code to the project Applicant, Resource Conservation District of Santa Cruz County.</p>	<b>NOD</b>	
2008072096	<p>North Bay Recycled Water Program (Addendum for NMWD Recycled Water Expansion Project - South Service Area, Hamilton Field) Sonoma County Water Agency Napa, Novato, Sonoma--Napa, Marin, Sonoma</p> <p>The Novato South Service Area Project was included in the North Bay Water Recycling Program Phase 1 Implementation Plan EIR/EIS to provide approximately 204 acre-feet per year of recycled water service to the Hamilton Field area. Based upon subsequent engineering and design efforts, NMWD proposes to modify the transmission and distribution pipeline alignment in the Hamilton Area within the Novato South Service Area. This modification is required in order to provide connections for recycled water user, with consideration of willingness of landowners to grant easements, and construction access limitations. Therefore, the District prepared an addendum to the EIR/EIS to review this proposed alignment modification within the context of the previous analysis provided in the EIR/EIS. The transmission pipeline system constructed by NMWD would consist of approximately six miles of pipeline that would extend north from LGVSD WWTP through agricultural land, turning west along St. Vincent's Drive then north, adjacent to the Sonoma Marin Area Rail Transit (SMART) right-of-way (ROW). The distribution pipeline would extend along the following roadways: Bolling Drive, Main Gate Road, Randolph Drive, C Street, Hamilton Parkway, and Palm Drive. The pipeline would connect from Hamilton Parkway to an existing recycled water storage tank, the Reservoir Hill Tank, via a conveyance pipeline through open space. From Palm Drive the pipeline would turn east along South Palm Drive and then north and south along Hangar Avenue. The pipeline would connect to San Pablo Avenue via a distribution extension from Hanger Avenue.</p>	<b>NOD</b>

2011099006	Bowker Road Offsite Drainage Improvement Santa Cruz, City of Santa Cruz--Santa Cruz This project includes installation of a storm drain system that will collect storm water and convey it to Stream 532 which connects to Corralitos Creek on the northeast side of Freedom Boulevard, Santa Cruz County. The collected runoff from the area will be conveyed to Freedom Boulevard, and then to Corralitos Creek in a 30-inch storm drain. The storm drain will continue about 150 feet and then angle northerly to intercept the existing drainage channel which drains into Corralitos Creek. A concrete headwall along with gabion baskets are proposed to be constructed at this location. Two, three-feet by six-feet gabion baskets filled with gabion rock will be installed in the swale flowline over filter fabric. The outlet of the new 30-inch pipe will be approximately two feet above the existing drainage channel flow line. Catch basins will be constructed throughout the drainage path, at changes in storm drain grade and angle points to provide access for maintenance. The California Department of Fish and Game is executing a Lake and Streambed Alteration Agreement, Number 1600-2011-0103-R3, pursuant to Section 1602 of the Fish and Game Code, to the project Applicant, Bowker Drainage, LLC.	<b>NOD</b>	
2011098205	Authorize Rehabilitation Projects at the Joseph Jensen Water Treatment Plant Metropolitan Water District of Southern California --Los Angeles Prepare preliminary design to refurbish flocculators in Modules Nos. 2 and 3.	<b>NOE</b>	
2011098206	Westside Wastewater Reclamation Plant (WRP) Staircase Project Victor Valley Wastewater Reclamation Authority Victorville--San Bernardino Install concrete stairs directly adjacent to the concrete discharge outlet and to create an adjacent graded pad where equipment can be staged and Staff and visitors can view the outlet during all weather conditions. The intent is to install adequate access and staging facilities to ensure that observation and monitoring can be carried out safely.	<b>NOE</b>	
2011098208	22 Parking Structure Photovoltaic Project University of California, Santa Barbara Santa Barbara--Santa Barbara The Photovoltaic project will install photovoltaic solar panels on the fifth and sixth levels of the 22 Parking Structure, Building 254 and will be used to provide electrical power for the campus' electrical grid. The project will be designed and built in a manner to allow for additional solar panels as funding and rebates are available. The proposed project has been designed to install approximately 2,628, 225-Watt photovoltaic solar panels on the fifth and sixth levels of the 22 Parking Structure building. The total area of the 22 Parking Structure is approximately 61,426 square feet.	<b>NOE</b>

	Trunk Sewer and Bitter Point Force Mains project. Phase 1 Santa Ana River Levee Repair Project stabilized the levees to maintain flood.		
2011092028	Aptos Village Project Santa Cruz County --Santa Cruz The project proposes to construct a mixed-use commercial and residential development (including a maximum of 63 residential units and 75,000 s.f. of commercial space) for the core area of the Aptos Village, as identified in the Aptos Village Plan, adopted February 23, 2010. The project would require the following: Planned Unit Development; Subdivision and Commercial Development Permit; Residential Development Permit; General Plan Amendment; Roadway Abandonment; Historic Preservation Plan Review; Archaeological Report Review; Soils Report Review; and Preliminary Grading Review. Two historic structures, the Hihn Apple Barn and the Aptos Firehouse/Veterans of Foreign Wars Hall are located within the project area. The Apple Barn would be relocated and the Firehouse/VFW Hall would be demolished as part of the proposed project.	<b>MND</b>	10/12/2011
2011092030	Carnegie SVRA Roads and Basins Project Parks and Recreation, Department of Livermore, Tracy--Alameda, San Joaquin CDPR, OHMVR, is proposing to make improvements to and rehabilitate approximately 8.2 miles of roads and trails, 34 stream crossings, 16 gullies, and 4 low water crossings of Corral Hollow Creek. The work would affect 12.2 acres of land within the SVRA. This work is being done in order to reduce erosion and prevent sediment from reaching Corral Hollow Creek. In addition, the project involves making modifications to three sediment basins that already exist in the SVRA, namely Kiln, Tyson, and Carrol Canyon basins. The sediment basin modifications would disturb approximately 8.4 acres. The total area affected by the projects is approximately 20.6 acres.	<b>MND</b>	10/12/2011
2011092031	Physical Education and Pool Facility Project California State University, Long Beach Vallejo--Solano The new physical education building and outdoor training pool on the currently vacant site would replace the existing Gymnasium and Natatorium located at the main campus. The new two story physical education building would be approximately 37,180 gross s.f. in size and the gymnasium would provide a max seating capacity for up to 650 persons. The outdoor area would be located at the center of the site and would consists of a 50-meter by 25-yard competition and aquatics survival training pool with a maximum seating capacity of 500. Lighting would be provided on site for both nighttime activities and security purposes. Large scale signage and graphics may also be located in front of the building and would be visible to the I-80 corridor. Ingress and egress would be provided by two access points on Maritime Academy Drive. Approximately 95 parking spaces would be provided to serve the new facilities, with an additional 85 spaces to be developed as a future campus project. Construction of the new facility is part of the CA Maritime Academy Master Plan program (May 2002) and evaluated in an EIR certified in 2002 as a State-funded capital outlay project.	<b>MND</b>	10/12/2011

2011091041	Crown City Medical Center Pasadena, City of Pasadena--Los Angeles The project would involve the construction of an 112,252 sf., five-story office and retail building. As proposed, the ground floor would contain 16,201 sf of retail space and lobby. The remaining four levels would consist of ~96,051 sf of medical office space and common areas. The building would be 86 feet, 6 inches high. The building would be in an L shape from the second floor upward spanning the northern and eastern parts of the site. The main lobby entrance would be at the northeast corner of the building. On the east side of the building the second through fifth levels would be set back about 13 feet to provide space for the canopies of existing street trees on Madison Avenue.	<b>NOP</b>	10/12/2011
2011091042	City of Avalon General Plan / Local Coastal Plan Update Avalon, City of Avalon--Los Angeles The City of Avalon will be the Lead Agency for the preparation of an environmental impact report (EIR) for a proposed update of the City of Avalon General Plan / Local Coastal Plan. The proposed project involves the update of the General Plan that currently serves as the blueprint for the development of the City and an update to the Local Coastal Plan which serves to demonstrate how the City will protect coastal resources. The General Plan / Local Coastal Plan elements will be updated with goals, policies, and implementation measures that reflect the current needs and preferences of the community. The land use map will also be updated.	<b>NOP</b>	10/12/2011
2011092029	Marine Life Protection Act North Coast Study Region Fish & Game Commission --Del Norte, Humboldt, Mendocino Pursuant to the Marine Life Protection Act, the CA Fish and Game Commission and the CA DFG have redesigned and re-evaluated the CA North Coast Study Region's Marine Protection Areas. The North Coast Study Region consists of State waters between the CA/Oregon border and Alder Creek near Point Arena. The MPA redesign objectives are to: increase coherence and effectiveness in protecting the State's marine life and habitats, marine ecosystems, and marine natural heritage, as well as to improve recreational, educational, and study opportunities provided by marine ecosystems.	<b>NOP</b>	10/12/2011
2011091036	Remedial Excavation and In-Situ Treatment Pilot Testing, Former Kast Property Tank Farm Property Regional Water Quality Control Board, Region 4 (Los Angeles) Carson--Los Angeles The Site is a former petroleum hydrocarbon storage facility. On March 11, 2011 the Regional Board issued a Cleanup and Abatement Order requiring the Discharger to cleanup and abate the effects of contaminants discharged at the Site. Among the CAO requirements is the development and submittal of a Pilot Test Work Plan to the Regional Board. The proposed project involves implementation of the Pilot Test Work Plan for remedial excavation and in-situ treatment pilot testing at the Site. The proposed activities are detailed in the Discharger's Pilot Test Work Plan that contains the following documents: 1) Remedial Excavation and In-Situ Treatment Pilot Testing dated May 10, 2011 2) Addendum to Pilot Test Work Plan dated August 15, 2011, and 3) Addendum 2 Pilot Test Work Plan dated August 26, 2011.	<b>Neg</b>	10/12/2011

2011091039	Reuse of Oil Field Production Wastewater for Irrigation, Kern County Regional Water Quality Control Board, Region 5 (Central Valley) Bakersfield--Kern The project will reuse good quality oil field wastewater produced from the Davies Realty Co. Lease in the Kern Front Oil Field as a blending agent for irrigation water on the Concordia Ranch (hereafter "Ranch"); the blend will consist of 7% wastewater and 93% groundwater produced from irrigation well on the Ranch. There are approximately 120 acres of citrus (oranges and mandarins) currently being farmed on the Ranch that are irrigated with groundwater pumped from an irrigation well. Use of the reclaimed wastewater may reduce the amount of groundwater pumped from the Ranch irrigation well by approximately 70 acres feet per year.	<b>Neg</b>	10/12/2011
2011091040	Campus Park (Planning & Zoning Permit No. 10-500-13) Oxnard, City of Oxnard--Ventura Redevelop a 30-acre former high school campus into a new community park, including: four soccer fields; two baseball diamonds; synthetic football field and track; basketball courts; skate park; perimeter jogging path; tot lot; ancillary structures for restrooms concessions, and maintenance facilities; 439 parking spaces; a potential dog exercise area; and related site improvements.	<b>Neg</b>	10/12/2011
2007092011	Mitchell Ranch Center Ceres, City of Ceres--Stanislaus The vesting tentative subdivision map divides five project site parcels into seven new parcels to allow development of the Mitchell Ranch Center. The Mitchell Ranch Center consists of a 299,830 sq. ft. commercial development with "Majors", "Shops", and "Pads". Major 1 is proposed to be tenanted by a Walmart store. The Walmart would allow general merchandise sales and groceries. The CUP would allow for alcohol sales at the proposed restaurants. The Walmart may also include a food service area and various service uses, such as a bank, vision center, in-store pharmacy, a medical clinic, and salon. The pharmacy will provide two-drive-thru lanes and windows. In addition, the Walmart includes a garden center. Majors 2, 3 and 4 are proposed for location along the western edge of the site and are planned to be tenanted by junior anchor stores. The four smaller commercial building or "Shops" are proposed for location throughout the site and are to be tenanted by multiple small-scale retail stores. Finally, the three free-standing pads site, or "Pads" are proposed for location at the southeastern portion of the site and will be tenanted by restaurants including fast-food and other small-scale general commercial uses. Two of the pads will have drive-thru lanes and windows associated with fast food.	<b>NOD</b>	
2009051044	San Vicente Road Improvement Project San Diego County Escondido--San Diego DFG is intending to execute a Lake and Streambed Alteration Agreement pursuant to Section 1602 of the Fish and Game Code (SAA #1600-2010-0324-R5) to the project applicant, County of San Diego. The applicant proposes to alter the stream in order to install and/or replace culverts in drainages crossing the existing roadway as part of the San Vicente Road Improvement Project, which proposes to improve the roadway line-of-sight for motorists, improve traffic operations, improve stormwater conveyance to accomodate the 100-year flood, and improve safety for bicyclists, pedestrians, and equestrains through the installation of	<b>NOD</b>

	designated facilities.		
2010111099	Public Works - Arroyo Grande Creek at Rodriguez Road Grade Stabilization Project ED08-116 (300369) San Luis Obispo County Arroyo Grande--San Luis Obispo Project would improve fish passage and protect an existing water supply pipeline crossing from being destabilized by stream bed degradation in Arroyo Grande Creek at Rodriguez Bridge. A Mitigated Negative Declaration was approved for this project on November 29, 2010. Based on new information resulting from revised plans, the County has determined that the Initial Study prepared for the Project required revision and recirculation. The Subsequent MND includes the removal of 6 trees and mitigation for this impact.	<b>NOD</b>	
2011052025	Use Permit Application No. 2011-05 - AT&T Mobility Stanislaus County Oakdale--Stanislaus Request to install a new wireless communication facility consisting of a 130 foot high tower concealed as a pine tree with 12 antennas and a 12' x 20' radio equipment shelter at its base on a 132 acre property in the R-A zoning district.	<b>NOD</b>	
2011072026	East Zayante Retaining Wall Santa Cruz County --Santa Cruz This project includes construction of a retaining wall to repair approximately 40 feet of failed road embankment approximately 40 feet above Zayante Creek, near the town of Felton, Santa Cruz County. The proposed retaining wall will consist of a 72.5 foot long by 35 foot tall tieback soldier pile wall with timber lagging. Metal beam guard railing (MBGR) will be placed along the top of the wall for vehicle protection. Approximately 93 feet of asphalt concrete in the outboard lane on the top of the wall for vehicle protection. Approximately 93 feet of asphalt concrete in the outboard lane on Zayante Road will be reconstructed and replaced. The roadside ditch will be lined with asphalt to reduce seepage under the roadway toward the proposed wall. Scour protection will be placed along the length of the wall. Approximately 150 linear feet of Zayante Creek will be diverted around the project site with a bypass/dewatering system. California Department of Fish and Game (DFG) is executing a Lake and Streambed Alteration Agreement Number 1600-2011-0065-R3 pursuant to Section 1602 of the Fish and Game Code to the project Applicant, Santa Cruz County.	<b>NOD</b>	
2011072063	Deer Valley Road Safety Improvement South of Chadbourne Road Project Contra Costa County Brentwood--Contra Costa The purpose of this project is to widen the realign a segment of Deer Valley Road. The widening and realignment will bring the existing pavement width and a curve within this segment of Deer Valley Road up to current design standards. One culvert at the eastern end of the project will be replaced with a new approximately 64 ft. long culvert along with a 5 ft. energy-dissipating rock apron located at the mouth of the down slope end of the culvert.	<b>NOD</b>

2011082002	<p>Geyserville Bank Stabilization, Riparian Revegetation, and Fish Habitat Enhancement Project Sotoyome Resource Conservation District --Sonoma</p> <p>The project site is located on the left (eastern) bank of the Russian River, some 300 ft. downstream of Geyserville Bridge in Sonoma County, CA. Historical aerial photographs show that the site has been relatively stable in recent decades until works to protect the Geyserville bridge redirected flow against this bank, while expanding the eastern edge of the massive gravel bar that now occupies most of the river in this location. Severe erosion to the project site has occurred over the last year. Site survey has revealed freshly-exposed vertical banks behind many fallen mature trees with a large section now completely lacking riparian vegetation. From inspection of a section of the exposed bank, it appears that the original sandy bank was at some point in the past, stabilized with debris, mostly concrete slabs mixed with construction debris. The aggressive erosion process is likely to continue, contributing many more tons of fine sediment (alluvial sand and levee topsoil) along with construction debris into the river, together with several more mature trees that are now close to the edge of the bank. The length affected by the erosion and the proposed work is 497 feet. If the erosion is allowed to continue for even one more winter there is indication that the existing healthy riparian will continue to erode another 500 feet downstream. 38' 42' 45.75"/122' 53' 38.03". The California Department of Fish and Game is executing a Lake and Streambed Alteration Agreement Number 1600-2011-0200-3 pursuant to Section 1602 of the Fish and Game Code to the project Applicant, BioEngineering Associates, Inc.</p>	<b>NOD</b>	
2011098231	<p>Arroyo Corte Madera del Presidio Creekbed Repair Fish &amp; Game #3 Mill Valley--Marin</p> <p>This project involves the creekbed repair of an approximate 50-foot reach of Arroyo Corte Madera del Presidio. The concrete bottom will be removed and a more natural channel bottom will be created. 2011092034	Solar Photovoltaic Park at 28th Street Landfill (P11-016) Sacramento, City of Sacramento--Sacramento Installation and operation of 20 MW solar park at Sutter's Landing Park/28th Street Landfill, project includes approval of lease with Conergy, Inc., and removal of solar modules at end of lease term.	<b>MND</b>	10/13/2011
2011091044	San Gorgonio Pass Campus Master Plan Mt. San Jacinto Community College District Banning--Riverside The District is proposing a two-phased construction program for the Campus. The new campus would provide core academic courses such as math, science and writing that allow students to transfer to four-year colleges and universities. The campus would also provide job training specifically tailored to give students the skills to compete for current jobs that are in demand in the San Gorgonio Pass area. Job training programs would focus on healthcare, business administration, law enforcement, criminal justice and computer technology. The Campus would employ ~150 to 200 staff at full build-out, including professors, administration, and other staff members. It is anticipated that ~5,000 students may be enrolled at full build-out. Daytime classes typically would be scheduled between 8am and 2pm, and nighttime classes between 5pm and 10pm. The Campus would consist of low profile (one and two-story structures) classroom and administration buildings, and staff, student, and visitor parking facilities. As is typical with other college campuses, the Campus would have paved pedestrian paths and landscaped areas. Conceptually, buildings on the Campus are planned to total ~250,000 gross sf of laboratory, lecture, and other space including physical fitness facilities, library, and miscellaneous administrative office and support space. The total parking provided would be 2,203 spaces. Full build-out of the San Gorgonio Pass Campus is anticipated to be completed by the year 2050.	<b>NOP</b>	10/13/2011

	for the Sonoma Marin Area Rail Transit (SMART) passenger rail service. The planned SMART service will connect Windsor to other North Bay communities through a 14-stop service running between Cloverdale and Larkspur, with bus and ferry links to San Francisco and the greater Bay Area. SMART service is expected to begin in 2014 between San Rafael and Santa Rosa, with service extending to Windsor in the second phase.		
2011032070	Trail Change in Use and Improvement Project Samuel P. Taylor Parks and Recreation, Department of --Marin Note: Recirculated	<b>EIR</b>	10/31/2011
	Bill's Trail is currently used by equestrians and hikers only. More recently mountain biking interest groups have petitioned to open Bill's Trail to biking as well. DPR proposes to change the use of Bill's Trail to allow mountain biking in addition to hiking and horseback riding making the trail consistent with the Department's policy to construct multiple use trails. In order to convert the trail to Class I that would allow mountain biking, DPR must "catch up" with the deferred maintenance that has narrowed the trail, reduced drainage function, allowed exotic species to flourish and reduced user safety.		
	Bill's Trail has a constructed width of 48", the standard for multi-use trails in State Parks and continues nearly four (4) miles between the trail head in Devil's Gulch and the junction with the Barnabe Fire Road at 1,160-foot elevation.		
2011041042	10000 Santa Monica Boulevard Project Los Angeles, City of Los Angeles, City of--Los Angeles The project would provide up to 283 luxury residential units in a residential building that would be up to 39 stories and approximately 460 feet in height. Parking for approximately 708 vehicles would be provided within one partially subterranean level and above grade parking in an ancillary building. Upon completion, the project would include approximately 469,575 s.f. of floor area. The project would also include approximately 43,141 s.f. of ground-level landscaping, mostly located in a large garden area on the south/eastern part of the site; and approximately 27,579 s.f. of open space on a landscaped recreation deck on top of the ancillary building.	<b>EIR</b>	10/31/2011
2004021002	The Landmark Village Project, Project No. 00-196, TR 53108/ CP00-196/ROAK-OT00-196/RCUP200500112,Modification to Adopted County Floodway Limits Los Angeles County Santa Clarita--Los Angeles NOTE: Revised Final - 1 CD	<b>FIN</b>	
	Proposed project consists of 418 lots with a maximum of 1,444 residential units; 1,033,000 sf of non-residential mixed-use space; elementary school; community park; fire station; three private recreational facilities; open space; river trail uses; road and infrastructure improvements; and other amenities. The project site is currently used for agricultural purposes and contains miscellaneous, ancillary sheds for agricultural storage, and dirt roads.

2009051126	Pomona Valley Transfer Station Pomona, City of Pomona--Los Angeles NOTE: Final Document 1 CD	<b>FIN</b>	
	<p>The Project will be constructed within an approximately 10.5-acre site located in the City of Pomona, in Los Angeles County. Specifically, the Project site is located at 1371 East 9th Street, and is bound by Mission Boulevard to the north; existing commercial and industrial buildings to the east; East 9th Street on the south; and Southern Pacific Railroad tracks to the west. The Project consist of the construction and operation of a solid waste transfer station and associated supporting facilities, together with necessary site, access, and utilities/services improvements. The primary function of the proposed transfer station is to accept and consolidate municipal solid waste received from individual haulers for subsequent transport by larger semi-trailer transfer trucks to area landfills for disposal.</p>		
2011091048	Mercado Park Perris, City of Perris--Riverside Proposal to construct a City Park (aka Mercado Park) on 3.25 acres located at the northeasterly corner of "D" and 10th Street in the downtown Mercado District. The development will require acquisition of 0.15 acre of railroad right-of-way, and a lot Merger to facilitate the construction of a tot-lot play, a memory garden, two sheltered picnic structures, a volleyball court, two half basketball courts, a restroom facility, and an amphitheater with canvas shading, stepped seating, and a stage.	<b>MND</b>	10/14/2011
2011091049	CUP 2011-03 & PD 2011-05 Arvin Agricultural Plastics Recycling Facility Arvin, City of Arvin--Kern The project site is zoned M-3 PD (Heavy Manufacturing/Precise Development zone) located east of North Rancho Road, south of El Camino Real (1 3/4 miles south of Bear Mountain Boulevard) within the City of Arvin (Section 34, T31 South, Range 29 East MDBM). The proposed 5-acre site will house a large-processing facility for recycling of agricultural plastic materials including drip irrigation tubes and compressed plastic sheeting. It is anticipated that 12 trucks will enter the facility every day carrying a total of approximately 240 tons of recyclable materials per day.	<b>MND</b>	10/17/2011
2011091050	Fremont Valley System New Well 1-02 Project Public Health, Department of Mojave--Kern The Fremont Valley System New Well 1-02 project, involves the installation of a 100 gallon per minute well and pipeline to connect the well to the existing distribution system. The new well will be drilled to an approximate depth of 650 feet below ground surfaced. This well will be used as a backup to the existing Well No. 1-01. The proposed project site is approximately 0.5 acres in size. The approximately footprint for the proposed project is shown in Figure 3, Proposed Project Site Plan.	<b>MND</b>	10/17/2011

<b><u>Documents Received on Thursday, September 15, 2011</u></b>			
2011092035	<p>Snow Creek SEZ Restoration Project Placer County --Placer</p> <p>The project components include site grading; installation of stormwater treatment facilities; construction of a sidewalk along National Avenue; SEZ and wetlands revegetation and restoration; upland revegetation and restoration; and bicycle and pedestrian trail construction. Approximately 8,000 cubic yards of soil and concrete will be excavated and removed from the site. Some of the concrete will be recycled and used for construction of the sidewalk. The restoration will produce approximately 1.1 acres of restored SEZ and 2 acres of restored uplands.</p>	<b>MND</b>	10/14/2011
2011092036	<p>State Route 35 Distributed Antenna System Project Public Utilities Commission Woodside--San Mateo</p> <p>ExteNet Systems (CA). LLC proposes to provide added capacity and technological diversity to the existing telecommunications system in the project area, and would ensure that existing systems remain compatible with future technology advances in fiber optic equipment. The project would consist of installing new fiber-optic PVC conduit and fiber optic junction boxes as well as 17 fiber-fed nodes with associated fiber-optic communications equipment. The distributed antenna system would be connected to an existing cell site base station. The project would include approximately 1,200 linear feet of underground conduit and 12.5 miles of overhead cable on existing wooden poles. 17 new wooden poles would be installed for the new node equipment.</p>	<b>MND</b>	10/14/2011
2011041002	<p>Hyundai Motor America North American Corporate Campus Fountain Valley, City of Fountain Valley--Orange</p> <p>Note: Recirculated</p> <p>The proposed project involves the construction of a new 469,700 sf corporate campus to support HMA's North American operations. The proposed facility would require demolition of HMA's existing 217,000 sf headquarters. The project is anticipated to generate ~1,300 jobs (for a net increase of ~500 new jobs in comparison to existing conditions). The primary components associated with the proposed project would include an ~419,700 sf office building, an ~50,000 sf technical services building, a five-level parking structure (1,574 spaces), and surface parking (426 spaces). Access to the site would continue to be provided from two existing access points along Talbert Avenue. The original Notice of Preparation dated March 31, 2011 is being recirculated due to a reconfiguration of proposed facilities at the project site. The overall site development intensity (469,700 sf of building area) would not change.</p>	<b>NOP</b>	10/14/2011
2011091047	<p>Lawrence and Barbara Daley Preserve Habitat Restoration Project San Diego County --San Diego</p> <p>The project is the treatment and removal of non-native invasive plants, and revegetation with native species along Dulzura Creek for purposes of habitat restoration within an existing County open space preserve.</p>	<b>Neg</b>	10/14/2011

<b><u>Documents Received on Thursday, September 15, 2011</u></b>			
2011092038	PA-1100160(UP) San Joaquin County Lodi--San Joaquin A Use Permit application to convert an existing off-site wine cellar into a medium sized winery to be built in four phases over a fifteen year period. (Use Type: Wineries and Wine Cellars-Winery, Medium) Phase One, to be completed in 18 months, includes the reconditioning of an existing 800 s.f. patio cover and the construction of a crushing pad and a 516 s.f. wine tasting room expansion to an existing off-site wine cellar building. Phase Two, to be completed in ten years, includes the construction of a 20,000 s.f. processing and storage building. Phase Three, to be completed in ten years, includes the construction of a 20,000 s.f. barrel storage building. Phase Four, to be completed in fifteen years, includes the construction of a 20,000 s.f. barrel storage building. Thirty-seven marketing events per year are also proposed.	<b>Neg</b>	10/14/2011
2007041027	Huntington Beach Senior Center Huntington Beach, City of Huntington Beach--Orange The proposed project includes a one-story, 45,000 s.f. senior center on a 5-acre undeveloped portion of the 343-acre Central Park, located southwest of the intersection of Goldenwest St/Talbert Ave between the disc golf course and the Shipley Nature Center. Access would be provided from Goldenwest St/Talbert Ave. The senior center will include rooms for multi-purpose activities, group exercise, fitness, arts/craft, classrooms, & dance, as well as a kitchen, lobby, administrative area, outdoor patio and outdoor recreation area. Approximately 227 parking spaces will be provided. The proposed project includes a General Plan Amendment to incorporate the Central Park Master Plan into the Recreation and Community Services Element and update it to accommodate the proposed senior center by re-designating the 5-acre site from low intensity to high intensity.	<b>SIR</b>	10/31/2011
1988020824	Delta Wetlands Project Place of Use EIR Semitropic Water Storage District --Contra Costa, San Joaquin The Semitropic Water Storage District is proposing the Delta Wetlands Project. Semitropic is a public water agency located in Kern County that provides water to nearly 300 customers for the irrigation of ~140,000 acres for agricultural uses. The Project would provide water to Semitropic to augment its water supply, would bank water within the Semitropic Groundwater Storage Bank and Antelope Valley Water Bank, and would provide water to the following places of use: Semitropic, Golden State Water Company, Western Municipal Water District of Riverside County, and the member agencies within the Metropolitan Water District of Southern California.	<b>NOD</b>	
2007102130	West Sacramento Levee Improvements Program West Sacramento Area Flood Control Agency West Sacramento--Yolo, Solano An EIR was prepared and circulated in May 2010 for public review of the project. The NOD for the EIR was previously filed on March 11, 2011. The Technical Addendum addresses a minor adjustment to the project that occurred since the NOD was filed. The minor adjustment is relocating a utility line (running parallel to the project site) outside the levee maintenance zone, which is required to be free of utilities. The Addendum addresses the impacts of the relocation.	<b>NOD</b>

<b><u>Documents Received on Thursday, September 15, 2011</u></b>			
2008012016	Santos Final Map Subdivision/Coastal Development Permit Humboldt County --Humboldt A modification to a previously approved Final Map Subdivision and Coastal Development Permit. The original project proposed a subdivision of 20.7 acres into 88 residential lots, Lots A and B dedicated for park use, and Parcel K for a stormwater detention basin. The subdivision required an exception to lot frontage requirements and road width standards to allow for flag lot configuration, and exemption to solar access standards for Lots 75 and 85. The modification will add a phasing component to the subdivision in order to divide the project into five phases. It will also eliminate the trail corridor at the rear of lots 66-79. The area within the trail corridor would be absorbed into the adjoining lots. A special permit is required to allow Lots 67 and Lots 71 - 73 to exceed the lot width to depth ratio using the Lot Size Modification provisions of County Code (Section 314-99.1.2).	<b>NOD</b>	
2011041038	Mariner's Pointe Project Newport Beach, City of Newport Beach--Orange Demolition of existing building onsite, merging six lots into one parcel, and constructing a 19,905 square-foot commercial/retail building and a three-level, 150 space parking structure. The City Council adopted a resolution approving a general plan Amendment (to increase the allowable floor area ratio (FAR)), Site Plan Review (to exceed the 31-foot height limit), Conditional Use Permit (to allow a parking structure adjacent to a residential zoning district and approve a parking management plan), Variance (to allow structures to encroach five feet into five-foot rear yard setback, and Parcel Map (to merge six lots into one parcel)). The resolution also adopted the Mitigated Negative Declaration (MND) and found the traffic study to be consistent with the City's Traffic Phasing Ordinance.	<b>NOD</b>	
2011042031	90-160 Albright Way and 14600 Winchester Boulevard PD-10-005 Los Gatos, City of Los Gatos--Santa Clara Architecture and Site approval to demolish five existing commercial buildings and construct two new office buildings and a parking structure on property zoned CM: PD. No significant environmental impacts have been identified as a result of this project and a Mitigated Negative Declaration was previously adopted.	<b>NOD</b>	
2011098247	Freedom Telecommunications Corona Fiber Optic Project Public Utilities Commission Corona--Riverside Installation of fiber optic cable in the City of Corona.	<b>NOE</b>	
2011098248	Extension of Previously - Approved Coastal Administrative Permit for Moss Landing Cement Company, LLC (PLN 110195) Monterey, City of --Monterey Extension, for four years, to a previously approved Coastal Administrative Permit (PLN080240) which established a Green Cement Plant pilot project in an existing industrial complex (approx. 170,000 square feet) on Assessor's Parcel Number 133-172-013-000 and permitted the installation of a flue gas transfer pipeline connecting to exhaust stacks on Assessor's Parcel Number 133-181-011-000.	<b>NOE</b>

2011098249	Acquisition of San Francisco Unified School District Property known as School of the Arts (SoTA) California State University, San Francisco San Francisco--San Francisco This project consists of the acquisition of the San Francisco Unified School District known as the School of the Arts (SoTA). This 2.5 acre parcel is surrounded by the San Francisco State University and will provide both immediate and long term benefits to the educational mission of the University.	<b>NOE</b>	
2011098250	PG&E R0074 Pipeline Investigation Dig Project Regional Water Quality Control Board, Region 5 (Central Valley), Sacramento Isleton--Sacramento PG&E has initiated a program to investigate and test certain portions of PG&E's natural gas pipelines and facilities to ensure pipeline integrity. The PG&E R0074 Pipeline Investigation Dig Project consists of the excavation and exposure of approximately 17 feet of pipe to insure pipeline integrity. The pipe coating will be removed and ultrasonic testing will be conducted on the both sides of the tap valve.	<b>NOE</b>	
2011098251	Pine Peak No. 4 Dam, No. 1497 Water Resources, Department of --Calaveras The proposed work consists of lowering the spillway 20 feet so that reservoir capacity will be less than 15 acre-feet.	<b>NOE</b>	
2011098252	Easement to AT&T Parks and Recreation, Department of --Sierra Issue a permanent easement to AT&T to allow AT&T and their contractors to maintain work completed at Donner Memorial State Park on the telephone and telecommunications service lines. AT&T will notify the Department of Parks and Recreation (DPR) at least one week prior to performing work, including routine maintenance, within the easement boundaries. Advance notice is not required when responding to an emergency; however, DPR will be notified as soon as feasible after AT&T personnel arrive at the site. All work constructed within the boundaries of the easement, including routine maintenance will comply with all State and Federal environmental laws, including but not limited to the Endangered Species Act, CEQA, and Section 5024 of the Public Resources Code, with regard to work conducted within the easement. If potentially significant resources are unearthed, work in the immediate area of the find will be temporarily halted or diverted until the project manager consults with a DPR archaeologist, and identification and proper treatment are determined and implemented. All finds become the property of DPR; ownership of any Native American artifacts will be determined on a case-by case basis, in consultation with the appropriate tribal representative(s) and/or the Native American Heritage Commission. This easement will provide legal access and use of this property to AT&T, while protecting natural resources.	<b>NOE</b>	
2011098253	Amendment of Conditional Use Permit No. 515 El Cajon, City of El Cajon--San Diego The subject property is located on the north side of East Washington Avenue between Taft and Lincoln Avenues and is addressed 510 East Washington Avenue.	<b>NOE</b>

2011098254	Ryan Creek PS Trash Rack Replacement Fish & Game #3 Mill Valley--Marin This project involves the replacement of existing tide gate infrastructure that has deteriorated over time. A new tide gate gasket and a new metal grate trash rack will be placed. Ryan Creek will be coffer dammed and dewatered at the project site. Issuance of a Streambed Alteration Agreement Number 1600-2011-0301-R3 is pursuant to Fish and Game Code Section 1602.	<b>NOE</b>	
2011098255	Reclamation Culverts Replacement Project Fish & Game #3 --Marin This project involves the replacement of existing culverts within the Sanitary Districts Reclamation Land. The new culverts will have the same capacity as those that are being replaced. Issuance of a Streambed Alteration Agreement Number 1600-2011-0288-R3 is pursuant to Fish and Game Code Section 1602.	<b>NOE</b>	
2011098256	Mason Retaining Wall and Deck Repair Fish & Game #3 Ross--Marin This project involves structural reinforcement of an existing retaining wall and the repair of an aging deck. Helical anchors will be used to secure the rotating retaining wall and the deck will be repaired with new footing on top of the retaining wall. The retaining wall is adjacent to and has a footing within Corte Madera Creek. Issuance of a Streambed Alteration Agreement Number 1600-2011-0310-R3 is pursuant to Fish and Game Code Section 1602.	<b>NOE</b>	
2011098257	San Geronimo Valley Sediment Reduction Plan Fish & Game #3 --Marin This project involves the bank stabilization and habitat improvement along a reach of San Geronimo Creek. The creek bank will be laid back and bioengineering techniques will be implemented to improve habitat and stabilize the bank. Issuance of a Streambed Alteration Agreement Number 1600-2011-0226-R3 is pursuant to Fish and Game Code Section 1602.	<b>NOE</b>	
2011098258	Alamo Drive On-Ramp Lengthening Project-Geotechnical Study Fish & Game #3 Vacaville--Solano The project is a geotechnical study that includes boring two five-inch holes into the streambed. Equipment used includes a truck-mounted rotary wash drilling rig with approximately 80 feet. A steel casing stores and recycles the drilling fluid. The gaps between the casing and tub and the tub/cored hole will be sealed to prevent and leakage. After completion of drilling, bore holes will be plugged with either betonies chips or cement slurry. Drilling fluids and soil cutting will be pumped into 55-gallon drums and hauled offsite. Water is not expected to be present during the work. Issuance of a Streambed Alteration Agreement Number 1600-2011-0279-3 is pursuant to Fish and Game Code Section 1602.	<b>NOE</b>	
2011098260	BioSciences 2nd Floor Buildout University of California, San Diego San Diego--San Diego In Nov-2002 SDSU submitted Addendum to the Campus Masterplan 2000 Final EIR (SCH No. 2000051026) for the BioScience Center that was proposed to be built in two phases. This project now proposes to construct Phase II as outlined in	<b>NOE</b>
