STATE CLEARINGHOUSE

**SUMMARY
OF
POSTINGS**

September 1 – 15, 2013

STATE CLEARINGHOUSE SUMMARY OF POSTINGS

The State Clearinghouse distributes draft environmental documents to state agencies for review and comment, pursuant to the California Environmental Quality Act (CEQA). The State Clearinghouse also acts as the State Single Point of Contact for the review of federal grant applications and federal development projects. This Summary of Postings summarizes the environmental documents and federal grant applications received by the Clearinghouse during the period **September 1 – 15, 2013**.

CLEARINGHOUSE CONTACTS

Please contact The State Clearinghouse if you have any questions regarding processing of environmental documents or grant applications. We may be reached at:

Telephone: (916) 445-0613
Fax: (916) 323-3018
e-mail: state.clearinghouse@opr.ca.gov
website: www.opr.ca.gov

Questions regarding federal grant notices should be directed to **Sheila Brown**.

Questions regarding processing of environmental documents should be directed to:

Scott Morgan
Director

CLEARINGHOUSE MAILING ADDRESS

The mailing address is:

USPS:

State Clearinghouse
P.O. Box 3044
Sacramento, CA 95812-3044

SCH Number	Title / Lead Agency / City--County / Description	Document Type	Ending Date
<u>Documents Received on Tuesday, September 03, 2013</u>			
2013012043	Alameda Point General Plan and Zoning Amendments, Master Infrastructure Plan, and Town Center and Waterfront Plan Alameda, City of Alameda--Alameda The proposed project is the redevelopment and reuse of the 878 acres of land and approximately 1,229 acres of water at the former Naval Air Station Alameda ("NAS Alameda"). The property is currently occupied by over five million square feet of existing former Navy buildings, former airplane runways, taxiways and staging areas and water and maritime uses within what is referred to as the Seaplane Lagoon.	EIR	10/17/2013
2013051059	Love's Travel Center in the City of Hesperia Hesperia, City of Hesperia--San Bernardino The proposed project consists of a minor amendment to the Main Street and Freeway Corridor Specific Plan from the Neighborhood Commercial (NC) zone to the Commercial Industrial Business Park (CIBP) zone and a CUP for a proposed Love's Travel and Service Center of approximately 12,271 sf on 10.6 acres in the City of Hesperia. The site is currently vacant with disturbed desert scrub vegetation and scattered Joshua trees. Commercial/Industrial Business Park zoning is to the north, west, and southeast. Residential uses are to the northeast, but are separated from the project site by I-15 and vacant lands. North of the project site is the Pilot Travel Center and Outpost Cafe. The lands directly adjacent to the west, and southeast are vacant.	EIR	10/17/2013
2013061004	RE Clearwater Solar Project and RE Yakima Solar Project by RE Clearwater LLC and Re Yakima LLC (PP 13266); (EIR JEG 01-13) Kern County Mojave--Kern Two separate projects are proposed that would consist of two individual contiguous solar facility sites, totaling 429 acres in the southeastern portion of Kern County, southwest of the community of Mojave. Each of the proposed solar facilities would develop and operate a 20 megawatt photovoltaic electric generation facility. The proposed projects would transmit energy through a substation on the RE Yakima project site to a 66 kV transmission line connecting the solar facilities with the existing Windhub Substation. The projects would require approval of Zone Changes (ZCC) and Conditional Use Permits (CUP) from the Kern County Board of Supervisors. The proposed zone changes would revise the existing zoning to A (Exclusive Agriculture) and A FPS (Exclusive Agriculture, Floodplain Secondary Combining) for both projects. The FPS zoning would continue to be applied in areas located within a flood zone. Construction and operation of solar electrical generating facilities are permitted on sites designated as A (Exclusive Agriculture) with approval of a CUP.	EIR	10/17/2013
2013051060	Pleasant Valley California State Prison Solar Project General Services, Department of Coalinga--Fresno The Proposed Project is a solar PV power generation system for the PVSP that would be located on approximately 11.1 acres. The site corresponds to a portion of Section 4, Township 21 South, and Range 16 East (MDB&M) of the "Coalinga, CA" and "Guajarral Hills, CA" 7.5-minute quadrangles. The solar array would	FIN

	convert incident sunlight to direct current (DC) electrical power which would then be converted to alternating current (AC) by three centrally-located inverters before being delivered to the PVSP-owned distribution system.		
2013071040	Coalinga State Hospital Solar Project General Services, Department of Coalinga--Fresno The Proposed Project is a solar PV power generation system for the CSH that would cover approximately 13.5 acres. The site corresponds to a portion of Section 4, Township 21 South, and Range 16 East (Mount Diablo baseline and Meridian) of the "Coalinga, CA" and "Gujarral Hills, California" 7.5-minute quadrangles. The solar array would convert incident sunlight to direct current (DC) electrical power which would then be converted to alternating current (AC) by three centrally-located inverters before being delivered to the CSH-owned distribution system.	FIN	
2008012032	Camels Hump Caretaker Residence (PMPC 20110109) Placer County Colfax--Placer The project proposes a Minor Use Permit to allow for the construction of a caretaker's residence on a portion of a 597.5-acre property.	MND	10/02/2013
2011082020	Belcara Planned Development (PSUB 20080156) Placer County --Placer The project proposes to develop a 39.lot Planned Residential Development (PD) with three open-space lots on a 169.2-acre site.	MND	10/02/2013
2013091003	8th and Monterey Street Residential, General Plan and Zoning Amendment Soledad, City of Soledad--Monterey The applicant is proposing a General Plan Land Use Map Amendment and related rezoning for an approximately 2.8-acre vacant subject parcel, which would change the land use designation from "Medium Density Residential (7-12 units per acre)" to "High Density Residential (13-20 units per acre)". Based upon the preliminary site plan submitted as part of the project application, proposed development consists of 26,900 sf (approximately 22% of the site area), and project open space consists of 25,395 sf of open space area. Project parking would comprise 44,680 sf of parking area with a total of 142 proposed spaces (including 5 ADA compliant spaces and 70 compact spaces), situated along both sides of the project driveway along the southern property boundary and a small portion of the center of the site.	MND	10/02/2013
2013091004	Linden Avenue-Casitas Pass Road Interchanges and Via Real Extension Carpinteria, City of Carpinteria--Santa Barbara 1) Text amendments to the agriculture section of the Carpinteria Coastal Land Use Plan; 2) Creation of a Whitney Site Agriculture Overlay District in the Zoning Code; 3) Text amendments to the wetland protection section of the Carpinteria CLUP; 4) Creation of a Transportation Corridor Wetland Overlay District in the Zoning Code; and 5) Redesignation of a portion of the Whitney Parcel (APN: 001-070-012) from agriculture to transportation corridor and removal of the agriculture zone district. 	project, and related infrastructure improvements. The project would likely be constructed in two phases, with each construction phase lasting approximately 12 months; timing and scope of the ultimate phasing would depend on market demand and other factors. The proposed project would involve the warehousing and distribution primarily of food and other grocery goods to retailers throughout the region.		
2013091001	2013-2021 Laguna Hills Housing Element Laguna Hills, City of Laguna Hills--Orange The project is a General Plan Amendment for the Update to the Housing Element of the City's General Plan for the 2013-2021 planning period. The IS/Neg Dec analyzes the impacts of adopting the Housing Element.	Neg	10/02/2013
2013091005	Safety Element Wasco, City of Wasco--Kern The project is the proposed update to the City of Wasco General Plan Safety Element ("project"). An IS/Neg Dec was prepared pursuant to the CEQA for the project. The Safety Element describes potential natural and man-made hazards that exist in the City of Wasco and the measures that can be taken to address them. The Safety Element addresses the following naturally-occurring hazards: geologic; seismic; flood; and fire hazards; and it addresses the following hazards created by human activity: hazardous materials and waste; aircraft hazards; and incidents that require emergency response. The Safety Element describes the City's policy directions and implementation actions to prepare for and respond to emergencies.	Neg	10/02/2013
2002082043	Martin Slough Interceptor Project Eureka, City of Eureka--Humboldt The project entails 12 stream encroachments; installation of five pipeline crossing, installation of four temporary equipment crossings, installation of one stormwater drainage culvert, removal of one obsolete sewer pipeline crossing, and replacement of one culvert with a footbridge.	NOD	
2004071039	Shea / Baker Ranch Lake Forest, City of Lake Forest--Orange Site Development Permit 7-13-3482 is a request for a shared model home complex the Heights (17531) and Highlands (17532) single-family development. The complex consists of six single-family dwelling units located in eastern portion of Planning Area 1F (Tract 17531). Three model homes are proposed on either side of Bellflower Street. On the east side of the street, the proposal includes three single-family dwelling units representing the residential units available in Tract 17531, a temporary sales office trailer, 8 temporary off-street, parking stalls and fencing. On the west side of the street, the proposal includes three single-family dwelling units representing the residential units available in Tract 17532 a temporary sales office trailer, 13 temporary off-street parking stalls and fencing. 	three (3) foot setback from a property line for mechanical equipment, including air conditioning units, for the residential development. Site Development Permit 2-13-3145 was approved in conjunction with Tentative Tract Map 17528 by the Planning Commission on June 13, 2013 for the construction of 111 detached single-family dwelling units in a four-pack arrangement and associated site improvements.		
2004071039	Shea / Baker Ranch Lake Forest, City of Lake Forest--Orange Site Development Permit 6-13-3372 is a request for a model home complex and sales office for the Brookland multi-family development (Tract 17527) that was approved under Site Development Permit 2-13-3115. There will be 3 model home units in Building 28, a six-unit multi family building on the corner of Mahogany and Wild Rose. The three-unit complex will include sales office in two of the garages and a linked walkway to lead potential buyers through the homes. The previously approved parking area across from the building, which includes 11 parking spaces, will be used for visitors to the model homes and for the employees. Two parking stalls will be added to the parking lot for the model home complex. The applicant also proposes installing landscaping, a six-foot tall wood screen fence and a six-foot tall tube steel trap fence.	NOD	
2005032044	Bell Woods El Dorado County --El Dorado The California Department of Fish and Wildlife is executing Lake or Streambed Alteration Agreement number 1600-2013-0055-R2, pursuant to Section 1602 of the Fish and Game Code to the project applicant, Tom Winn Communities, Inc.	NOD	
2006061099	Black Hills Villas Morro Bay, City of Morro Bay--San Luis Obispo The California Department of Fish and Wildlife is executing a Streambed Alteration Agreement pursuant to Section 1602 of the Fish and Game Code. As part of the subdivision development, the Project consists of removing and re-compacting a portion of the unconsolidated fill directly adjacent to the right stream bank (looking downstream) and removal of existing tree stumps and sucker growth. The fill, approximately 12 feet high and extending 175 feet along the channel with an existing 1:1 slope, will be removed and re-contoured to a maximum 2:1 slope to improve the condition of the stream bank. Grading work will occur outside the active channel. Heavy equipment will be positioned on the top of bank to excavate and replace the soil. Revegetation and restoration of the riparian corridor will be implemented following the Riparian Enhancement Plan submitted with the Notification materials. All work will be conducted when the channel is dry, and no riparian trees will be removed as part of the Project.	NOD

2013099001	Pepperwood Preserve Sediment Reduction Implementation Project Santa Rosa, City of Santa Rosa--Sonoma The project is limited to the treatment of 26 stream crossings, as part of a larger sediment reduction project on the Pepperwood Preserve, in the Mark West Creek watershed. Project elements include: the installation of critical dips at certain stream crossings to prevent stream diversions, the cleaning of culvert inlets and outlets to improve water and debris capacity, the installation of a new culverts at previous unculverted fill sites to reduce the likelihood of a mass fill failure, replacement of undersized or damaged culverts, decommission of stream crossings no longer needed, rock armoring or fill slopes to prevent erosion, and armoring wet crossings to reduce sediment and improve durability. The project also includes a number of activities outside stream areas, including installation of rolling dips, road out sloping, and new ditch relief culverts, that will help decrease the hydraulic connectivity of the road system and reduce sediment inputs into Mark West Creek.	NOD	
2013099002	Lake or Streambed Alteration Agreement No. 1600-2012-0323-R1 for Timber Harvesting Plan (THP) 1-12-109MEN Forestry and Fire Protection, Department of --Mendocino The Department of Fish and Wildlife is issuing an agreement for Three existing stream crossing improvements.	NOD

2013098003	Off-Site Excess Inventory Storage Lots for Car Dealers--Amendment to Zoning Code El Cajon, City of El Cajon--San Diego Allow Automobile dealers operating from sites at least two acres in size to store both new and used sales inventory off-site, subject to a Temporary Use Permit.	NOE	
2013098004	El Cajon of Cars Sales Events Series--CUP No. 2188 El Cajon, City of El Cajon--San Diego Coordinated Sales event with participation from the 12 new car dealers branded as the Valley of Cars. Up to 10 events authorized in CY2013.	NOE	
2013098005	Agreement 2012-0042-R4--Willow Creek Trail Project Fish & Wildlife #4 --Madera The Permittee will construct 50 linear feet of boulder and bedrock trail on the north bank of the San Joaquin (SJR). Construction techniques will include rock and talus, rock retaining wall, and rock. Construction will occur when the SJR flows are low, above the river's water surface, and will not require diversions of flow. Excavated materials will be stockpiled within the construction corridor. Excess excavated material will be transported from the trail construction corridor and used at the parking and boater staging area.	NOE	
2013098006	Vallejo Marina Maintenance Dredging Fish & Wildlife #3 Vallejo--Solano The project involves dredging the bottom bay muds of the Vallejo Yacht Club marina. Routine dredging episodes will about every 4 years and will encompass the entire footprint of the marina which includes the entrance channel, turning basin, fairways, and all the berths. It is estimated that approximately 70,000 cubic yards of material will be removed over a 10-year period of routine dredging. A barge mounted clamshell dredge will be used to excavate approximately 14,000 cubic yards of sediment during the first dredging episode. The first dredge episode spoils will be disposed at the unconfined aquatic disposal site location SF-9 in the Carquinez Strait. Issuance of a Streambed Alteration Agreement Number 1600-2013-0165-R3 is pursuant to Fish and Game Code Section 1602.	NOE	
2013098007	Gibson IWWWTP Bridge Rehabilitation Fish & Wildlife #3 Vacaville--Solano The project is limited to repair of an existing 80-foot long by 12-foot wide wooden and steel bridge of Gibson Canyon Creek which was damaged in a fire. The burnt wooden bridge decking and beams will be removed and replaced as necessary. Approximately 1-cubic yard of accumulated sediment will be removed from underneath the bridge in order to gain access to the bridge superstructure. The steel superstructure will then be power washed in order to remove rust and then primed and re-coated. A containment system will be installed below the bridge prior to the beginning pressure washing in order to capture wash water and debris that will result from washing and recoating the bridge. No flowing water is anticipated in the stream channel during repair activities. Issuance of a Streambed Alteration Agreement Number 1600-2013-0245-R3 is pursuant to Fish and Game Code Section 1602. 2013098008	Shollenberger Park Wetland Enhancement Fish & Wildlife #3 Petaluma--Sonoma The project is limited to the replacement of two falling corrugated metal pipe (CMP) flash board risers and associated culverts that are used to decant dredge water into adjacent stream channels. One structure would be replaced in kind in its current location. The second structure would be relocated approximately 1,400 linear feet southeast along the levee so that it discharge to the tidal area, avoiding the storm water channel it current discharges into. The relocation would have added benefit of enhancing the brackish tidal marsh to the south, while eliminating the vegetation die-off from the salt water intrusion into the storm water channel that is a tributary to Adobe Creek. The water control structures will be constructed of precast concrete approximately 48-inches wide and 60-inches tall connected to a High-density Polyethylene (HDPE) pipe that will run through the width of the levee. At the water control structure to be relocated, a short swale will be constructed to control flow into the water control structure. Issuance of a Streambed Alteration Agreement Number 1600-2013-0256-R3 is pursuant to Fish and Game Code Section 1602.	NOE	
2013098009	Bridge Replacement Fish & Wildlife #3 Healdsburg--Sonoma The project is limited to the removal of an existing redwood timber bridge over Porter Creek, a tributary to the Russian River, and installation of a new clear span bridge at the same location. The new bridge will be a prefabricated steel bridge 40-foot long and 15 1/2-foot wide. It will be supported by 20-foot long by 4-foot wide cast-in-place concrete abutments located outside the top of bank on each side of the creek. Issuance of a Streambed Alteration Agreement Number 1600-2013-0227-3 is pursuant to Fish and Game Code Section 1602.	NOE	
2013098010	Routine Maintenance Agreement, Alameda County Fish & Wildlife #3 --Alameda Project includes routine maintenance activities such as vegetation management, bank repair, debris removal, and structure maintenance. Issuance of Streambed Alteration Agreement Number 1600-2013-0119 is pursuant to Fish and Game Code Section 1602.	NOE	
2013098011	Variance 13-002 and Administrative Design Review 13-002, AT&T Mobility Roof Enclosure at Shilo Inn Mono County Mammoth Lakes--Mono Construction of a rooftop wireless antenna shield and installation of a wireless telecommunication antenna array on the Shilo Inn. The roof enclosure would be roofed and sided to match the existing Shilo Inn. The height would extend above the height of the existing Shilo Inn by approximately 11 feet, and would exceed the maximum height allowed in the Commercial General zone by approximately 19 feet.	NOE

2013098019	Lake Jessop Silt Removal Fish & Wildlife #5 San Diego--San Diego Department of Fish and Wildlife is proposing to execute a Lake and Streambed Alteration Agreement number 1600-2013-0175-R5. The Applicant proposes to remove approximately 2,500 cubic yards of silt from the bottom of the pond and remove approximately 350 square feet of vegetation on the north end of the lake and around the inlet to the pond that is restricting flow to the pond. The silt from the pond will be used to reshape the face, top, and back of dam. Equipment to be used includes a bull dozer, a dump truck, and hand tools. The project will not result in an increase to the overall footprint of the pond.	NOE	
2013098020	Silt Removal from Upper Lake at Camp Winaka Fish & Wildlife #5 --San Diego Department of Fish and Wildlife is proposing to execute a Lake and Streambed Alteration Agreement number 1600-2013-0156-R5. The Applicant proposes to remove approximately 10,000 cubic yards of silt from the pond bottom; place the spoils on back of the dam, key and compact under the supervision of a soils engineer; use rip rap and gabions to protect the spillway erosion; install a small silt barrier at the pond inflow; and use bentonite clay to line approximately one acre of the bottom pond, reducing seepage. The project will not result in an increase to the overall footprint of the pond.	NOE	
2013098021	Fence Replacement Project Caltrans #3 Truckee--Nevada This project proposes to replace Wire Mesh Fence with Chain Link Fence along Interstate 80 and State Route 89 in Nevada County from Postmile 13.2 to 14.8 and R0.6 to R1.1. The new fence will have various 10 feet breaks to enhance public safety. All construction will be within the existing state right of way.	NOE	
2013098022	Horse Stile Installation Parks and Recreation, Department of --Humboldt Install horse stiles next to the gates at the trailheads of Look Prairie and Grasshopper trails off of Matthole Road in the Albee Creek area of Humboldt Redwoods State Park to prevent motorized vehicles from accessing the trails.	NOE	
2013098023	Above-Ground Storage Tank Installation and Parking Lot Resurfacing--San Jose Area Office #340 California Highway Patrol San Jose--Santa Clara The proposed project involves the construction of fueling station, including installation of a 12,000 gallon above-ground fuel storage tank and associated fueling system items, such as, dispensers, bollards, concrete fuel island, lighting, kiosk, tank pad, fuel supply and vapor recovery lines, and all associated piping. Additional work includes perimeter security fencing and re-striping and re-sealing the back parking lot.	NOE

2013091011	ENV-2012-3188-MND / 1324 1/2 W. Wilshire Boulevard Los Angeles, City of Westlake Village--Los Angeles This project includes the demolition of two, three-story existing office buildings for the construction of a six-story, approximately 73-foot tall building with 52 residential dwelling units, 54 parking spaces, approximately 5,281 sf of ground floor neighborhood serving retail, and a total of approximately 56,598 sf of floor space. The project further requires a Project Permit Compliance Review for development within the Central City West Specific Plan area.	MND	10/03/2013
2013091012	AA-2013-2200-PMLA Los Angeles, City of Los Angeles, City of--Los Angeles A Vesting Preliminary Parcel Map to permit the construction, use and maintenance of a proposed new four-unit condominium complex on an 11,700 sf site comprised of two adjoining record lots in the R2-1 Zone. The project would include two two-story, condominium buildings, one on each lot, each with two dwelling units, and five parking spaces located in attached at-grade parking garages with ingress and egress via driveways from Walnut Avenue and the adjacent westerly alley. The project also includes an 11-foot wide community walkway between the proposed buildings. The project will also involve demolition of the existing improvements: three detached single-family dwellings and attached garage structures, and site grading, including the removal of four existing non-protected trees. The requested Vesting Preliminary Parcel Map also includes the incidental approval of a reduced lot width of 45 feet for both lots, in lieu of the minimum 50-foot width required by the Municipal Code. The 45-foot lot width is an existing condition of the current record lots that comprise the project site.	MND	10/03/2013

	activities on-site to include the existing slopes and setback areas located along the western and southern boundaries of the site; and extend the expiration date of the permits from January 2018 to December 31, 2068 (50-years). No changes in the existing approved mining and trucking method or intensity proposed. Further, the SMP proposes to construct an inert debris engineered fill operation (IDEFO) to be located within the limits of the SMP00139 mine site.		
2013091020	Use of Copper & Acrolein to Control Aquatic Vegetation in Canals, Laterals, Regulation & Recharge Basins Fresno Irrigation District Fresno--Fresno Note: Review Per Lead	MND	10/09/2013
	The Fresno Irrigation District proposes to apply aquatic herbicides to canals, laterals and regulations and recharge basins to control a variety of aquatic vegetation as needed for the efficient delivery of irrigation water. The Fresno Irrigation District is preparing this IS/MND to meet requirements of 1) The State Implementation Policy (SIP) Section 5.3 and 2) NPDES Permit #CAG990005.		
2013092008	Elm Tree Station Santa Rosa, City of Santa Rosa--Sonoma Subdivision of a 0.98 acre site into two parcels. Parcel 1 is proposed at 31,143 sf in size and would be developed with a gasoline and electric charge fueling station and a 3,448 sf neighborhood market with a 1-bedroom apartment above the market. Parcel 2 is proposed at 11,600 sf and would be developed with a 806 sf retail building and park amenities, including a patio/trellis area, benches, a picnic area and a bike path that will connect with the Joe Rodota Trail.	MND	10/04/2013
2013092009	Healdsburg Avenue Bridge Retrofit/Rehabilitation Project Healdsburg, City of Healdsburg--Sonoma The project involves retrofitting and rehabilitating the existing Healdsburg Ave Bridge over the Russian River. A new 7-ft-wide concrete pier is proposed for construction to replace the existing seismic- and scour-deficient center timber pile-supported pier. The new center pier would be supported by two 7-ft diameter cast-in-place steel shell piles that are placed in line with the existing pier, one immediately upstream and another immediately downstream of the existing pier. The existing concrete bridge deck would be demolished and replaced with a standard cast-in-place lightweight concrete deck. The existing steel structure would be sandblasted to remove the existing lead paint and the entire bridge repainted.	MND	10/07/2013
2000082139	Civic Center Aquatics Complex Project Elk Grove, City of Elk Grove--Sacramento Civic Center Aquatics Complex Project	NOP	10/07/2013
	The project includes the construction of a Competition/Training Aquatics Facility, a commercial recreational facility (water park), associated parking, passive park area, and ancillary services. The total site area is ~30 acres. Maximum annual attendance is anticipated to be ~460,000 after five (5) years of operation.

2003101111	<p>Levee and River Maintenance for Flood Control along the Kings River (Fresno and Kings Counties) Kings River Conservation District Lemoore--Fresno, Kings</p> <p>The CA Dept. of Fish and Wildlife is executing a Lake and Streambed Alteration Agreement pursuant to Section 1602 of the Fish and Game Code to the project applicant, Kings River Conservation District. The applicant proposes maintenance activities for flood control levees and flood control channels including vegetation removal, sediment removal, maintenance of weirs and hydraulic control structures.</p>	NOD	
2005062141	<p>Arana Gluch Master Plan Santa Cruz, City of --Santa Cruz</p> <p>The Operator proposes to construct two multi-use bicycle and pedestrian bridges within riparian zones. The first bridge will be a 340-foot stress ribbon bridge that spans Hagemann Gulch (Hagemann Creek is located with the gulch) from the northeast to the southwest. Bridge abutments constructed of 36-foot-wide by 50-foot-long by 5-foot deep concrete pads will be located at either side of the gulch 10 feet above top of bank and anchored with ground anchors. Cable ribbons will be strung across the Hagemann Gulch and anchored to the abutments. Precast concrete deck panels will be placed on the cable ribbons and a cast-in-place concrete overlay will be installed over the deck panels. Except for construction of the abutments, there will be no impacts to riparian or upland vegetation adjacent to Hagemann Gulch as all bridge sections will be placed from one side of the bridge. The second bridge will be constructed over Arana Gulch Creek. Mechanically stabilized earthen walls will be approximately 120 feet in length and range in height from 7 inches to 6 feet, and shall be used as retaining walls for both approaches. The bridges will be approximately 10 feet wide by 70 feet long, and constructed of stringers with concrete decking overlay in a manner that will pass 100-year storm flow events. The California Department of Fish and Wildlife (CDFW) are executing a Lake and Streambed Alteration Agreement Number 1600-2013-0051-3 pursuant to Section 1602 of the Fish and Game Code to the project applicant, Mauro Garcia/City of Santa Cruz Department of Parks and Recreation.</p>	NOD	
2007072023	<p>Modesto Master EIR Update and General Plan Amendment Modesto, City of Modesto--Stanislaus</p> <p>The project includes construction of two single-story 14,500 sf auto dealerships and a 21,000 sf retail building at the southeast corner of McHenry Avenue and Claratina Avenue. A new driveway on McHenry Avenue (SR 108) is proposed. A slip ramp along the Claratina Avenue project frontage would allow eastbound cars on Claratina Avenue to enter the site. The existing improvements at the southeast corner would be reconstructed to accommodate a right turn lane, pedestrian traffic island, relocation of the traffic signal and install curb, gutter and sidewalk. Development of the site would also include onsite paving to accommodate driveways, drive aisles, customer parking, and sales inventory. Onsite landscaping will be provided in accordance with City Standards. Stormwater will rain to an existing storm drainage basin to the southeast of the project site in the Coffee-Claratina Specific Plan area.</p>	NOD

2013098068	Tidelands Use and Occupancy Permit to BAE Systems San Diego Ship Repair for Warehouse Space on Tenth Avenue Marine Terminal San Diego Unified Port District --San Diego The proposed project is a tidelands use and occupancy permit to BAE Systems San Diego Ship Repair, Inc. for its use of approximately 10,000 square feet of warehouse space exclusively for the storage of ship parts and equipment on the Tenth Avenue Marine Terminal, 687 San Diego. Warehouse space would be provided in Transit Shed #1, Transit Shed #2, or Warehouse C. The TUOP would commence on August 1, 2013, and terminate on July 31, 2014, for the total of one year.	NOE	
2013098069	Bayside Arts Festival San Diego Unified Port District --San Diego The proposed project is the Bayside Arts Festival, which will take place on the forecount of Broadway Pier on August 24, and 25, 2013. The District will provide event sponsorship and financial assistance for the Bayside Arts Festival, a free public event that will include a diverse range of entertainment, including bands and performing artist groups. The focus of the event is on visual and performance art.	NOE	
2013098070	San Diego Spirits Festival San Diego Unified Port District --San Diego The proposed project is the San Diego Spirits Festival, which will take place at the Port Pavilion on Broadway Pier on August 24 and 25, 2013. The District will provide event sponsorship and financial assistance for the event, a cocktail and culinary festival that celebrates bartenders and chefs from San Diego.	NOE	
2013098071	San Joaquin County Detention and Program Facility San Joaquin County --San Joaquin The proposed project consists of designing and building six 32-cell, double occupancy, wet cell, medium-security housing units. At the conclusion of the project, female inmates will be moved from the existing Honor Farm Facility GH barracks and housed in the existing Honor Farm Facility 124 housing unit.	NOE

2012051030	<p>LA Street Civic Building Project aka Old Parker Center Los Angeles, City of Los Angeles, City of--Los Angeles</p> <p>Three potential alternatives are under consideration for the former Parker Center (former headquarters for the City of Los Angeles Police Department, now vacant and closed): (1) rehabilitate existing building; (2) partially demolish, rehabilitate and add to the existing building; and (3) demolish the existing building and build a new building. Under each alternative City Department offices, parking facilities, a cafeteria, and commercial space would be provided. An optional inter-building bridge or tunnel that would connect City Hall East to the rehabilitated Civic Building is also being considered. The new or improved facility would support the City's sustainability initiatives by rehabilitating or constructing a building that meets the City's Green Building Code.</p>	EIR	10/21/2013
2013052010	<p>East Weddell Residential Project Sunnyvale, City of Sunnyvale--Santa Clara</p> <p>The overall project includes the following components: 1) General Plan amendments for two sites; rezoning for two sites; Special Development Permits; potential Vesting Tentative Maps; modifications to the Tasman/Fair Oaks Area Pedestrian and Bicycle Circulation Plan; and San Francisco Public Utilities Commission approval of improvements to the John W. Christian Greenbelt. While the "project" is defined as the two development projects combined, separate development applications will be processed for each project and decisions on the General Plan amendments and rezonings could be independent of each other. The two development projects are located in a portion of Sunnyvale now occupied by residential, commercial, and industrial buildings. This area of Sunnyvale is undergoing a transition from industrial uses to residential uses.</p>	EIR	10/21/2013
2013091024	<p>Crestwood Communities Tentative Map No. 18889 Upland, City of Upland--San Bernardino</p> <p>This project is a request by Crestwood Communities to subdivide a parcel (APN#1005-111-01) into 15 separate lots in order to construct 15 single-family residences ranging from approximately 2,600 to 3,400 sf on lots ranging from 10,000 to 11,915 sf and all associated improvements. The proposed subdivision and construction of 15 single family residences is consistent with Single Family Residential 3 to 4 dwelling units per acre General Plan land use designation and Single Family Residential (RS-10) zone. The project site is more specifically described as: "Lot 291 Ontario Colony Lands in the City of Upland, County of San Bernardino, State of CA, as per plat recorded in Book 11 Maps, Page 6, records of said County. Excepting therefrom that portion conveyed to the State of CA, by deed recorded in book 7869, Page 108."</p>	MND	10/07/2013
2013091026	<p>I-5 Widening Project from State Route 73 to El Toro Road Caltrans #12 Mission Viejo, Laguna Woods, Laguna Hills, Lake Forest--Orange</p> <p>The project limits on I-5 extend from 0.5 mi south of the SR-73 interchange (PM 12.4) to 0.2 mi north of the El Toro Rd UC (PM 18.9). The proposed project will add general purpose lanes in each direction on I-5 between Avery Pkwy and Alicia Pkwy, extend the second HOV lane from Alicia Pkwy to El Toro Rd, reestablish existing auxiliary lanes and construct new auxiliary lanes, and improve several existing on- and off-ramps. Additionally, the project proposes no HOV buffer and will accommodate continuous access throughout the project limits.</p>	MND	10/07/2013

2013092012	Berryessa Concrete Recycling Facility; Conditional Use Permit file number: CP10-003 San Jose, City of San Jose--Santa Clara The project is a CUP requesting to allow an existing concrete crushing and recycling facility to continue operation and to allow an increase in the allowable height of stockpiled materials to be a maximum of forty feet.	MND	10/07/2013
2013092013	Bogle Wind Turbine Use Permit and Flood Hazard Development Permit Yolo County --Yolo Note: Refer MND submitted on 10/08/13 The proposed project is a single large wind turbine that would generate 1.6 megawatts of electricity, to be used to power the large Bogle winery production facility near Clarksburg. The Bogle facility is located at 49762 Hamilton Road, west of Jefferson Blvd. (SR 84), approximately 4.5 miles SW of Clarksburg. The proposed wind turbine would be constructed at the SW corner of a 60-acre property, which is one of three adjacent parcels owned by Bogle (APN: 043-310-012). The wind turbine project will require approval of a Major Use Permit as described in Yolo County Code Section 8-2.2418 (Small and Large Wind Energy Systems). The application and proposed design of the project is consistent with the requirements of the Code section.	MND	
2013091021	Fresno Metropolitan Water Resources Management Plan Update Fresno, City of Fresno--Fresno The overall objective of the City Metro Plan Update is to supply sufficient and reliable water supplies to meet the demands of existing and future customers through buildout of the applicable Fresno General Plan. The study area for the Metro Plan Update includes the existing city limits and City of Fresno Sphere of Influence (SOI) area designated by the 2025 Fresno General Plan as more particularly detailed in the attached Project Description. The purpose of this Metro Plan Update is to update and refine the 1996 Fresno Metropolitan Water Resources Management Plan (1996 Metro Plan) taking into consideration available new data and accommodating physical and institutional changes which have occurred since the 1996 Metro Plan was prepared. The completed Metro Plan Update would facilitate future water resources decisions and utility planning, and would satisfy requirements for potential State funding.	NOP	10/07/2013
2013091022	EIR PFS 02-13; Addison Energy Wind Project by Addison Energy Resources, LLC Kern County Mojave--Kern The project proponent is requesting: (a) Amendments to the Land Use, Open Space and Conservation Element of the Kern County General Plan from the existing land use designations of Map Codes 5.6 (Minimum 2.5 Gross Acres/Unit) and 5.7 (Minimum 5 Gross Acres/Unit) to Map Code 8.1 (Intensive Agriculture); (b) Amendments to the Circulation Element of the Kern County General Plan to eliminate road reservations along section and mid-section lines; (c) changes in zone classification on 505 acres from the existing A-1 (Limited Agriculture) Zone District to the A WE District; and on 740 acres from the existing A-1 Zone District to the A (Exclusive Agriculture) District; and (d) Vacations of public access and/or	NOP	10/07/2013

	utility easements and portions of public access and/or utility easements. The requested applications would also permit the construction of wind ancillary facilities and supporting infrastructure. The project would be supported by a 230-kV overhead transmission corridor. The transmission line would generally travel southward from the on-site substation located in the northeast portion of the site, to Oak Creek Road where it ultimately would be connected to the existing SCE Windhub Substation. The project's permanent facilities would include up to 50 wind turbine generators (WTGs), service roads, a power collection system, overhead and underground transmission lines, project substation, meteorological towers, a laydown yard and an operation and maintenance facility.		
2013091023	Los Angeles Groundwater Replenishment Project Los Angeles Department of Water and Power Los Angeles, City of, Van Nuys--Los Angeles An Advanced Water Purification Facility (AWPF) would be constructed within the Donald C. Tillman Water Reclamation Plant (DCTWRP) in Van Nuys, CA. The AWPF would treat up to 44 MGD of secondary or tertiary effluent produced at DCTWRP using advanced treatment technology. Purified recycled water would be conveyed to Hansen Spreading Grounds and Pacoima Spreading Grounds and new injection wells constructed within Canterbury Avenue near Pacoima Spreading Grounds to replenish the San Fernando Groundwater Basin. New conveyance pipelines would be required to transport purified recycled water from Hansen Spreading Grounds to Pacoima Spreading Grounds on Canterbury Avenue.	NOP	10/07/2013
2013091025	Blackwell Solar Park Project by Blackwell Solar Park, LLC (PP 13237) Kern County --Kern Blackwell Solar Park, LLC (project proponent), has requested a GPA to amend the Circulation Element of the Kern County General Plan to remove the midsection line reservations of Section 5 and 8 of Township 27S, Range 20 East for the Blackwell Solar Park Project (project). The project proponent is also requesting two CUPs to allow for the construction and operation of a solar photovoltaic (PV) power-generating facility with a capacity of 20 megawatts (MW) of electricity. The project site boundary encompasses a 166-acre portion of an approximately 477-acre parcel [APN: 068-191-21] in unincorporated Kern County, CA. The project site is within the A (Exclusive Agriculture) zoning district. The project site is also within the jurisdictional boundaries of the Kern County General Plan and portions of the site are designated either 8.3 [Extensive Agriculture (min. 20-acre parcel size)] or 8.3/2.5 (Extensive Agriculture/Flood Hazard) by the General Plan. In addition, the project includes a petition to cancel a Williamson Act land use contract (13-2) for approximately 166 acres of farmland used for dry land grazing. The onsite switchgear would be connected to the available 70-kV connection point of the Pacific Gas and Electric Blackwell Substation by stringing a new gen-tie from the switchgear to the substation via underground conduit or aboveground wiring on new or existing poles pursuant to all Kern County and State regulations. There are three options for the gen-tie route that will be analyzed in the EIR.	NOP	10/07/2013

The project site is located on the SW corner of Shaw Avenue and Chateau Fresno Avenue, approximately 3,100 feet southwest of the nearest city limits of the City of Fresno (4837 N. Chateau Fresno Avenue) (Sup. Dist.: 1) (APN: 512-021-07S).		
2013091031	Oquendo Minor Use Permit (DRC2012-00081) and Major Grading Permit (PMT2011-01576) San Luis Obispo County --San Luis Obispo A request by Vic and Jennifer Oquendo for a Grading Permit (PMT2011-01576) and Minor Use Permit (DRC2012-00081) to grade for a 5,730 sf three-story single-family residence with an attached garage, pool, improvements to an existing driveway and related site improvements. The project will result in the disturbance of approximately 1.66 acres, including approximately 3,165 cubic yards of cut and 960 cubic yards of fill and on a 455 acre parcel.	MND	10/09/2013
2013091036	IS 6710 and CUP 3411: Allow a Wireless Communication Facility in the AE-20 Zone District Fresno County --Fresno Allow a 100-foot tall monopole telecommunications tower with 12 antennas, two future microwave dishes, a 187 sf outdoor equipment shelter, and an emergency back-up generator with a 210 gallon diesel fuel storage tank on a 2,500 sf foot portion of a 1.98-acre parcel in the AE-20 (Exclusive Agricultural, 20-acre minimum parcel size) Zone District. The project site is located on the southwest corner of Clayton Avenue and Elm Avenue, southerly adjacent to the unincorporated community of Easton (21 W. Clayton Avenue) (Sup. Dist.: 1) (APN: 334-060-35).	MND	10/09/2013
2013092015	Anderson Springs Wastewater Collection System Project Lake County --Lake The objective of the proposed project is to provide water pollution control from uncontained releases of effluent from antiquated and inadequate septic systems in the Anderson Springs community. This has led to wastewater pollution control issues for the creeks flowing through the community, most notably, Anderson Creek. The project proposes to utilize what is known as a Septic Tank Effluent Pump (STEP) pressurized sewer system for waste removal. The components of this system are a hybrid of an on-site treatment and disposal system and a community gravity sewer. STEP systems continue to use on-site septic tanks to remove grit and solids and provide initial biological treatment for the wastewater. The liquid portion of the waste will be transported through a two-inch effluent lateral to a four-inch sewer main line and to the WWTP for treatment.	MND	10/08/2013
2013092017	Storm Drain Master Plan 2012 Update Milpitas, City of Milpitas--Santa Clara The proposed project is the implementation of the Milpitas Storm Drain Master Plan (SDMP), which identifies the capital improvements needed to maintain recommended levels of protection against stormwater runoff, and the need for a revenue stream that would allow the necessary capital improvements to keep the storm drain system in working order for the adjacent land uses into the future. The SDMP is based on ultimate build-out within the City's boundaries according to the	MND	10/08/2013

	General Plan's Land Use Map (October 2012). The Milpitas SDMP is divided into different types of improvement projects throughout the City's storm drainage system. To increase the pipeline storm drain system capacity, there are two types of proposed projects: installing new relief sewer pipelines parallel to existing pipelines; and replacing overloaded pipelines with larger diameter pipes in the same locations. Each of the City's storm drainage collection systems discharges into one of Coyote Creek's tributaries, by either gravity or pumping. The proposed project would include the replacement of existing outfalls, installation of new outfalls, or new outfalls where none exists.		
2013091027	Perris Dam Emergency Release Facility Project Water Resources, Department of Perris--Riverside DWR is proposing to modify the existing valve and control system, and to construct an emergency release facility that would convey an emergency release of up to 3,800 cfs of water from the Perris Dam over State-owned land to the Perris Valley Channel, in the event of dam failure. The proposed project would upgrade the existing outlet structure and develop three levees, a weir, a concrete chute or unlined trapezoidal channel and an earthen channel that would be capable of conveying emergency releases to the Perris Valley Channel.	NOP	10/08/2013
2013091028	Buena Park 2013-2021 Housing Element Update Buena Park, City of Buena Park--Orange The project is the adoption and implementation of the Buena Park 2013-2021 Housing Element, which represents an update of the City's certified Housing Element. The Housing Element is an integral component of the City's General Plan, as it addresses existing and future housing needs of all types for persons of all economic segments in the City. The City of Buena Park's long term housing goal is to provide housing opportunities to meet the diverse needs of the community. The IS assesses the potential impacts related to the provision of adequate land to accommodate the City's regional housing needs assessment.	Neg	10/08/2013
2013091029	Phillips 66 Los Angeles Refinery Carson Plant - Crude Oil Storage Capacity Project South Coast Air Quality Management District Carson--Los Angeles Phillips 66 is proposing to increase crude oil storage capacity at its Los Angeles Refinery Carson Plant by installing one new 615,000 barrel crude oil storage tank with a geodesic dome, increasing the annual permit throughput limit of two existing 320,000 bbl crude oil storage tanks. Two new feed/transfer pumps and one 14,000 bbl water draw surge tank with associated pumps and pipelines would also be installed. Tie-ins to the Pier "T" crude oil delivery pipeline from Berth 121 would be installed and one new electrical power substation would be constructed.	Neg	10/08/2013

	sf storage buildings. Phase 3, with building permits to be issued within 10 years, is the construction of an 8,190 sf religious facility and conversion of the existing religious facility to a multi-purpose buildings. No school or day care facility is proposed with this religious facility.		
2010102056	Amendments to the California Cap on GHG Emissions and Market-Based Compliance Mechanisms Air Resources Board -- Notes: Draft Functional Equivalent Doc. and Review per Lead	Oth	10/24/2013
	The purpose of these amendments is to enhance implementation and oversight of the Cap-and-Trade Program. Staff is proposing amendments to the Regulation, including those related to allocation, market program implementation, and offset program implementation. Staff is also proposing a new protocol related to mine methane capture that will provide additional supply of compliance instruments to the market within the existing 8 percent offset limit.		
2011122029	2013 Minor Modifications to the Zero Emission Vehicle Regulation Air Resources Board -- Note: Functional Equivalent Document, Review per lead	Oth	10/24/2013
	ARB proposes to amend the existing Zero Emission Vehicle (ZEV) Regulation to include provisions that are mostly administrative and procedural in nature to clarify definitions and regulatory language, close loopholes, correct references to other sections in the CCR, add the right to request vehicle identification numbers from vehicle manufacturers, and correcting grammatical errors. In addition, other more extensive provisions are also included that will allow 2012 through 2017 model year TZEV and ZEV credits to be pooled under the optional Section 177 state compliance path, place a new cap on the number of non-ZEV credits to be pooled under the optional Section 177 state compliance path, place a new cap on the number of non-ZEV credits a manufacturer can use towards meeting its ZEV requirement, and exclude battery swapping from qualifying as fast refueling.		
2012082026	Amendments to the Regulation for Mandatory Reporting of GHG Air Resources Board -- Note: F.E.D. / Review per lead	Oth	10/24/2013
	The purpose of the proposed amendments to the reporting regulation is to carry out the goals of AB 32 and maintain a robust and accurate GHG reporting program. The mandatory reporting program tracks the emissions. The proposed amendments will support the Cap-and-Trade regulation with the highest quality of data by collecting additional information to ensure the accuracy of the data used for benchmarking, allocation of allowances, and the covered emissions calculation. Additionally, the amendments will help to make certain that reported GHG emissions data is accurate and complete in order to support emissions reduction programs throughout the state.

2013092014	Proposed Regulation for State Implementation Plan Credit from Mobile Agricultural Equipment Air Resources Board -- Note: Functional Equivalent Doc / Review per lead The ARB is proposing a new regulation for mobile agricultural equipment that focuses on voluntary actions from the agricultural industry to reduce emissions through participation in incentive funding programs in order to accelerate the use of the cleanest available technologies in the San Joaquin Valley. This proposed regulation follows a written SOP agreement already reached amongst the agriculture industry and local, state, and federal agencies that would allow for a mechanism to be developed to provide SIP credit for investments being made by the agriculture industry to clean up mobile agricultural equipment. Other air districts that opt-in must also follow the requirements of this proposed regulation.	Oth	10/24/2013
1999011058	Nuevo / Torch Oil and Gas Operations in Western Kern County Kern County Buttonwillow--Kern The Project as originally permitted by the above referenced ITP allowed for permanent disturbance of up to 1,700 acres within a 21,800-acre area by Nuevo Energy Company/Torch Operating Company associated with oil and gas exploration. The ITP transferred to Plains Exploration and Production Company (PXP) and then again to Freeport-McRorran Oil and Gas as a result of a subsequent sales and/or mergers. San Joaquin kit fox and San Joaquin antelope squirrel are designated as threatened species under the California Endangered Species Act (CESA), and Bakersfield cactus, giant kangaroo rat, and Tipton kangaroo rat are designated as endangered species under CESA. CDFW issued the ITP and Amendment No. 1.	NOD

2013092022	<p>Sonoma Developmental Center Water Treatment Plant Sediment Pond Replacement Project Developmental Services, Department of --Sonoma Note: Shorten Review</p> <p>The Proposed Project consists of the decommissioning of existing sediment ponds and construction of new sediment ponds for the Sonoma Developmental Center (SDC) Water Treatment Plant (WTP). The SDC WTP closed the existing sediment ponds after sediment spilled into Sonoma Creek in January 2011. The San Francisco Bay Regional Water Quality Control Board (SFBWQCB) issued a corrective action notice to the SDC WTP in February 2011. To comply with the corrective action notice, the Department of Developmental Services (DDS) proposes to construct new sediment ponds. In order to maintain the WTP function, prevent future spills into Sonoma Creek, and protect the community from harm, new sediment ponds should be constructed as soon as possible. Therefore, the Proposed Project qualifies for a shortened public review period based on the following criteria from Appendix K: (2) The public project applicant is operating under severe time constraints with regard to obtaining financing or exercising options which cannot be met without shortening the review period. (4) The health and safety of the community would be at risk unless the project is approved expeditiously.</p>	MND	09/30/2013

	housing need. In addition, the Housing Element contains estimates of existing and projected future housing needs, outlines strategies to address those needs and identifies constraints to housing production.		
2013092019	US 101/Willow Road Interchange Reconstruction Project Caltrans #4 Menlo Park, East Palo Alto--San Mateo The project proposes to reconstruct the existing United States 101 / Willow Road (also known as SR 114) Interchange on its existing alignment to a partial cloverleaf interchange. Other components include: Reconstruct the Willow Road overcrossing to provide eight lanes, dedicated bicycle lanes, sidewalks and a standard vertical clearance; Realign and widen the diagonal off-ramps from US 101 to Willow Road to provide additional storage; Construct signalized intersections at the realigned diagonal off-ramp terminals; Realign and widen the diagonal on-ramps to provide High Occupancy Vehicle bypass lanes, and in conjunction with the modification of existing ramp metering system; Modify and realign the frontage roads adjacent to the overcrossing; Reconstruct portions of existing soundwalls; and Construct retaining walls.	Neg	10/09/2013
2012111087	Wyle Laboratories Inc. - Norco Facility Toxic Substances Control, Department of Norco--Riverside DTSC is considering approval of a Draft Remedial Action Plan (RAP) to address volatile organic compounds (VOCs) in subsurface soil and groundwater at the former Wyle Laboratories site in Norco, CA. Planned remediation is specific to five previously identified areas. All selected remedial methods will include installation and sampling of monitoring wells to document remedial performance. Implementation of certain remedial methods also will entail shallow trenching and use of heavy equipment for short periods of time. All selected remedial methods also will include operations and maintenance (O&M), generally in the form of ongoing sampling of monitoring wells and analysis of obtained samples, as well as ongoing maintenance of the HCS system. Remediation currently is anticipated to be carried out over a period from 2 to 30 years, depending upon the area to be remediated. The use of land-use covenants restricting future site use to commercial/industrial will be necessary. In addition, institutional controls and/or additional engineering controls could be necessary for certain on-site remedial areas where commercial/industrial goals are not achieved during reasonable time periods, or where property redevelopment occurs during remediation.	NOD	
2013011048	Sludge Drying Beds Upgrade Project Laguna County Sanitation District Santa Maria--Santa Barbara The existing un-lined central sludge drying beds would be replaced with 14 concrete-lined beds at the same location. The project footprint would be ~4.0 acres, within the existing 24 acre Laguna County Sanitation District Wastewater Treatment Plant. Each new sludge bed would be 32 feet wide and 162 feet long. Drainage and decanted wastewater from each of the 14 sludge drying beds would be collected in a common manifold and drained by gravity to a small lift station to be constructed near the northwest corner of Pond A. 2013041057	<p>Sewer Rehabilitation and Replacement Project South Pasadena, City of South Pasadena--Los Angeles</p> <p>The City of South Pasadena is proposing a Sewer Rehabilitation and Replacement Project (proposed project) to rehabilitate and replace the City's aging wastewater collection infrastructure. The proposed project includes rehabilitation of approximately 148,500 linear feet of pipe with a trenchless cured-in-place-pipe (CIPP) technology and replacement of approximately 14,000 linear feet of pipe by open trench construction. The location of the work would include in-street and off-street construction. All but 11 off-street sewer segments, totaling about 1,706 feet, would be rehabilitated using CIPP technology. All of the proposed project impacts are anticipated to be construction-related impacts rather than operational impacts because once the work is completed, the system would operate as it currently does with few, if any, impacts.</p>	NOD	
2013061006	<p>North Paso Robles Rehabilitation Project Caltrans #5 Paso Robles--San Luis Obispo</p> <p>Caltrans proposes pavement rehabilitation of the existing Hwy 101 from the San Marcos Creek Bridge in San Luis Obispo County to the Monterey County line (post miles 63.2 to R69.3) and from the Monterey County line to 0.25 mile south of East Garrison Overcrossing in Monterey County (post miles R0.0 to 1.9).</p>	NOD

	Plan reviewed and accepted by CDFW. Issuance of Streambed Alteration Agreement Number 160-2013-0331-R3 is pursuant to Fish and Game Code Section 1602.		
2013098130	Bank Repair at 48 Broadmoor Avenue Fish & Wildlife #3 San Anselmo--Marin The project involves a creek bank stabilization repair along a 15-foot long and 12-foot high section of creek bank. The repair will be modified bioengineering approach utilizing rock slope protection. Geotextile fabric will be installed underneath the rock and the rock will be filled with soil and vegetation with native plants. Issuance of a Streambed Alteration Agreement Number 1600-2013-0240-R3 is pursuant to Fish and Game Code Section 1602.	NOE	
2013098131	Charro Way Pipe Replacement Project Fish & Wildlife #3 Fairfax--Marin This project involves replacing a collapsed storm drain pipe that collects water from Charro Way and discharges it into Fairfax Creek. There is a drop box inlet located at the end of Charro Way between garages number 8 and 9. The drop box connects to a pipe that flows towards Fairfax Creek and daylights out of the creek bank at the low water flow elevation. An approximately 150-square foot area along 15 linear feet of creek bank will be excavated to expose the existing storm drain pipe and to install the new pipe. Issuance of a Streambed Alteration Agreement Number 1600-2013-0241-R3 is pursuant to Fish and Game Code Section 1602.	NOE	
2013098132	Hearst Willits Road Culvert Replacement Project Regional Water Quality Control Board, Region 1 (North Coast), Santa Rosa Willits--Mendocino The Project includes public safety improvements to a failed 7'x10'x25' culvert beneath the roadway. The culvert failure caused failure of the roadway surface during a severe storm in early December, 2012. A temporary "Bailey Bridge" has been placed over the channel on an emergency basis. Using an excavator from the roadway, the proposed Project will replace the culvert with a bottomless culvert of the same size and length. Excavation will occur within the existing culvert, headwall and roadway footprint. The Applicant will place the culvert base even with the channel bed at the culvert inlets and outlets. The area above the culvert will be backfilled and overlain with a new road section.	NOE	
2013098133	Windy Gap Vineyards Gravel Roadway Project Regional Water Quality Control Board, Region 1 (North Coast), Santa Rosa Healdsburg--Sonoma The primary purpose of the project is to grade a gravel roadway to provide access to a proposed vineyard and/or house development. The proposed project crosses an existing drainage and would install a total of 24" culverts each with a length of 26' in parallel at one crossing site. The existing road is not an all season road and in wet weather causes sediment delivery to watercourses; improvements to the roadway will reduce sedimentation.	NOE	
2013098135	Storage Buildings and Garages at the Toner Complex Parks and Recreation, Department of --San Diego The purpose of this project is to make improvements to the Toner Property, a park residence and storage supply area at Ocotillo Wells State Vehicular Recreation Area by constructing additional structures with design features for protection from	NOE

2013091040	ENV-2013-2126-MND / 530 E. Grand Boulevard Los Angeles, City of --Los Angeles Demolish an existing duplex and construct three single family dwellings pursuant to a Preliminary Parcel Map for three Small Lots, in the RD1.5-1 Zone. A Coastal Development Permit and Mello Determination for the proposed project.	MND	10/11/2013
2013091041	Atascadero State Hospital Solar Project General Services, Department of Atascadero--San Luis Obispo The Proposed Project is a solar PV power generation system for the ASH that would be located on approximately 6.76 acres. The site corresponds to an unsectioned portion of the Rancho Atascadero Land Grant within the "Atascadero, CA" 7.5-minute quadrangle. The solar array would convert incident sunlight to direct current (DC) electrical power which would then be converted to alternating current (AC) by two centrally-located inverters before being delivered to the ASH-owned distribution system. The solar array would be configured into two distinct power blocks, identified as System 1 and System 2. System 1 power block would cover approximately 3.08 acres and is located on the northern portion of ASH property. System 2 power blocks would cover approximately 3.68 acres and is located approximately 59 feet south of System 1.	MND	10/14/2013
2013092027	Brittan Avenue Road Widening San Carlos, City of San Carlos--San Mateo The purpose of the project is to widen Brittan Avenue and address anticipated traffic congestion along the roadway. The benefits of the Project include the provision of sufficient accommodation for right-turning trucks from Brittan Avenue onto southbound Industrial Road; to maintain adequate service levels and traffic load capacity to accommodate existing and future traffic demand; and to continue to serve as a Primary Gateway Roadway and a major regional entry point and transportation route. The project is a programmed improvement measure that has been approved by the City in order to accommodate anticipated future travel demand along Brittan Avenue, as addressed in the General Plan and is included in the City's Capital Improvement Plan.	MND	10/11/2013
2013091039	Seville Solar Farm Complex Imperial County --Imperial The proposed Seville Solar Farm Complex includes the construction, operation and reclamation of up to five solar energy projects. The Project proposes a new access road from SR 78 and internal access roads, an IID (Imperial Irrigation District) electrical switch station, electrical substations for each of the five solar projects, and internal solar development transmission lines to the substations and IID switch station. The Project would also include the construction for, and operation by, the IID of a new 92 kilovolt (kV) transmission line for interconnection to the existing IID Anza Substation.	NOP	10/11/2013

	disturbed.		
2013071027	Riverside County Recycling Market Development Zone (RMDZ) Riverside County Economic Development Agency Unincorporated--Riverside The project consists of an application submitted by the Riverside County Recycling Market Development Zone (Riverside County Zone) to renew its Zone designation, and expand its current design boundaries. In July, 2013, the administrator for the Riverside County Zone submitted an application in requesting that the boundaries of the Riverside County Zone be expanded to include all remaining areas of unincorporated Riverside County. This expansion is sought to increase the diversion of materials from the area and regional landfills and to provide technical and financial support to additional businesses that use materials from the waste stream to manufacture their products.	NOD	
2013099014	Devils Gulch Water Quality Improvement Project Fish & Wildlife #3 --Marin The project is located several sites along Devils Gulch Trail within Point Reyes National Seashore, Marin County. Activities will occur at six (6) drainage crossings near the Devils Gulch Hiking Trail/access road. The project would construct sediment reduction treatments at six sites in the Devils Gulch watershed, all on unpaved roads on National Park Service land. Specific project tasks would include culvert replacements, creek bank stabilizations, unpaved roadway surface improvements, and armored wet crossings. The California Department of Fish and Wildlife is executing Lake or Streambed Alteration Agreement Number 1600-2013-0158-R3 pursuant to Section 1602 of the Fish and Game Code to the project Applicant, Dain Anderson, Marin Municipal Water District.	NOD	
2013099016	Streambed Alteration Agreement No. 2013-0116-R4, issued in conjunction with 2013 Yosemite Mountain Ranch (YMR) Unit 1 Timber Harvest Plan (THP) No. 4-13-003/MAR- Forestry and Fire Protection, Department of --Mariposa The California Department of Fish and Wildlife is executing a Streambed Alteration Agreement pursuant to Section 1602 of the Fish and Game Code. The applicant will construct a temporary waterhole adjacent to Bear Creek for road maintenance operations and emergency fire suppression activities, and construct a temporary rocked road crossing across Miami Creek necessary for timber operations per 2013 YMR Unit 1 THP 4-13-003/MAR-1.	NOD	
2013098140	Saxon Suites Renovation University of California, Los Angeles Los Angeles, City of--Los Angeles The project would renovate the 448 bed Saxon Suites (87,800 gsf) undergraduate residential complex, with no expansion of beds or population, and replace the existing 1-story 2,100 gsf service building with a 5,700 gsf (net 3,600 gsf) common building to better serve the residents of the complex. The project would include exterior and interior work, infrastructure improvements, upgrades to disabled suites, structural upgrades, and site improvements.	NOE

2009121076	Temecula Valley Wine Country Community Plan Riverside County Temecula--Riverside NOTE: FYI Final	FIN	
	<p>The Temecula Valley Wine Country Community Plan (the "Project"), consists of General Plan Amendment No. 1077 and Zoning Ordinance Amendment No. 348.4729. The Project includes a General Plan Amendment accompanied with Zoning Ordinance Amendment, which will ensure consistency between the General Plan and Zoning Ordinance. The Project proposes a host of revisions to the Southwest Area Plan of the current County General Plan to update existing policies, maps, and implementing directions related to potential implementing projects within the Project area. EIR No. 524 analyzes the potential environmental impacts associated with the Project.</p>		
2013091042	Proposed Improvements to Kessler Park San Bernardino County --San Bernardino Note: Joint Document MND:/EA	JD	10/14/2013
	<p>The proposed project consists of rehabilitation of existing baseball fields and relocation of equestrian arenas at Kessler Park. A portion of the site is situated over the closed Crestmore Landfill.</p>		
2013091043	Standard Street Secondary Access Project Kern County Bakersfield--Kern	MND	10/14/2013
	<p>The Kern County Roads Department proposes to construct approximately 0.70 mile of new road between the western end of Atlas Court and a point near the intersection of Hageman Road and Knudsen Drive in Kern County, CA. The new road would cross a number of parcels of land north of Atlas Court and would require construction of an undercrossing of the San Joaquin Valley Railroad (SJVR) near the western terminus of Atlas Court. The road would continue west across undeveloped land and across a canal to an extension of Knudsen Drive (to be called Landco Drive). The existing canal culvert just south of the Hageman Road/Knudsen Drive intersection is to be removed and a larger culvert would be constructed in its place (where the Knudsen/Landco Drive extension crosses the canal). The project would require new right-of-way acquisition, bridge work, and easement changes. In addition, sidewalks would be constructed on both sides of the new road extension from approximately 600 feet west of the SJVR through the depressed roadway section to approximately 250 feet west of Standard Street. A new traffic signal and lighting would be installed at the Hageman Road/Knudsen Drive intersection and street lighting would be placed along the new road extensions. A pump station and drainage basin would be constructed either to the northeast or northwest of the new railroad crossing. The purpose of the project is to provide secondary access to an industrial area that is bounded by the San Joaquin Valley Railroad and SR 99.</p>		
2013091045	imMODO Solar Project (Porterville Annexation 477) Porterville, City of Porterville--Tulare	MND	10/14/2013
	<p>The project proposes annexation of approximately 10.5 acres of an island into the City of Porterville to accommodate development of three megawatt solar facility, and requires a General Plan amendment to the Industrial land use classification as</p>

	well as a zone change to General Industrial. The existing planned General Plan land use and zoning for the subject site is General and Service Commercial. The project is located at the northwest corner of North Main and North Grand Avenue; the area is a portion of an unincorporated island in northern Porterville and is substantially surrounded by the City limits.		
2013092028	Carbon Black Pilot Facility Project Redwood City, Port of Redwood City--San Mateo Boxer Industries proposes to construct a pilot plant industrial facility that would utilize pipeline grade natural gas and grid electricity through a proprietary process to produce sample quantities of carbon black as well as hydrogen. Carbon black is a material that is used as a reinforcing agent in nearly all black rubber and plastic products. The proposed project would be located on approximately 0.6 acres (about 26,000 sf), which would include 5,000 sf pilot industrial facility and an office trailer. The pilot plant would be partially assembled prior to delivery and installation at the project site. It would be delivered via semi-trailer on 3 skids, each approximately 12 feet by 12 feet. The plant would be constructed above a new pier-supported foundation pad and would be about 30 feet tall once fully assembled.	MND	10/14/2013
2013092029	2611 El Camino Real Apartments Project Santa Clara, City of Santa Clara--Santa Clara General Plan Amendment from Regional Mixed Use to High Density Residential, Rezoning from CT-Thoroughfare Commercial to PD-Planned Development, and Vesting Tentative Map to allow the development of a 4.5-story, 186-unit apartment building at the density of 52 dwelling units per acre. The 3.57-acre site comprised of 6 parcels located on the north side of El Camino Real between Bowe Avenue and Bowers Avenue.	MND	10/14/2013
2013092030	Telegraph Creek Barrier Removal and Channel Restoration Project Resort Improvement District #1 --Humboldt Project consists of the partial demolition of the existing raw water intake structure, the replacement of the barrier culverts through Telegraph Creek Road with a 20-foot span bottomless arch, and channel restoration through the project reach. Demolition of the raw water intake structure includes removing portions of the dam, the infiltration plumbing upstream of the dam, and the stored sediment behind the dam. In addition, the existing wet well will be modified for continued use. The construction reach is limited to approximately 340 feet, bound by the upper and lower fish exclusion fences, and includes the dam, the dam reservoir, and the Telegraph Creek Road stream crossing.	MND	10/14/2013
2013091044	8150 Sunset Blvd Mixed-Use Project Los Angeles, City of Los Angeles, City of--Los Angeles The Project Applicant proposes the demolition of existing uses and development of a two to 16-story mixed-use commercial/residential building on the 2.56-acre site, including approximately 111,310 sf of commercial retail and restaurant uses within three lower levels (one subterranean) and one rooftop level, with 249 apartment units, including 28 affordable housing units, within twelve upper levels representing 222,560 gsf of residential space. Parking for proposed uses would be provided on-site via a seven-level (three subterranean and semi-subterranean)	NOP	10/14/2013

	parking structure. The total development would include up to 333,870 sf of commercial and residential space with maximum floor-area ratio (FAR) of approximately 3:1. Construction would commence in 2015 with completion and occupancy estimated in 2017.		
2013091046	(CURE) Clean Up Roadside Environment - Safety Improvement Project Caltrans #5 King City, Greenfield--Monterey Remove roadside objects in the clear recovery zone at four locations along a 4-mile section of the southbound roadside in Monterey County between King City and Greenfield from post mile 45.7 to 49.6. This work will include the removal of approximately 300 eucalyptus trees and metal beam guardrail, culvert end treatment upgrades and planting.	NOP	10/14/2013
2002021088	Shadow Mountain Community Church 2002 Master Plan El Cajon, City of El Cajon--San Diego The proposed demolition of existing college facilities and the construction of a multi-story use building in the same location, the installation of additional parking spaces in phases, the detention of Specific Plan no. 301, and the inclusion of the existing Master Plan approved by CUP No. 1985 into a new specific plan. The project addendum indicates there are no new significant impacts or substantial increases in the severity of any previously identified significant impacts that would result from project changes.	NOD	
2003061012	2012 Facilities Master Plan El Camino College El Camino Community College District Torrance--Los Angeles Construction, operation and maintenance of facilities in the 2012 Facilities Master Plan to accommodate projected enrollments in 2020. A net increase of 34,721 ASF will result from project buildout, with ~410,000 ASF of demolition and 445,000 ASF of new construction at buildout in 2020. A third level of 700 parking spaces will be added to the existing two-level Lot F Channel Parking Structures. The project will serve an increase of 63,206 WSCH or approximately an increase of 3,600 FTES.	NOD	
2008121044	Alta Infill II Wind Energy Project Kern County Tehachapi, Mojave--Kern The Project as approved by the California Department of Fish and Wildlife (CDFW) consists of a Minor Amendment to the California Endangered Species Act (CESA) Incidental Take Permit (ITP) referenced above as originally issued by CDFW to Alta Oak VI, LLC & Alta Oak VII, LLC (Permittees) for the Alta Oak Creek Mojave Project Infill in April 2011. The ITP as originally issued authorized issued authorized take of Bakersfield cactus (<i>Opuntia basilaris</i> var. <i>treleasei</i>) and desert tortoise (<i>Gopherus agassizii</i>), species designated as endangered and threatened, respectively, under CESA. The Amendment as approved expands the pool of potential endowment fund holders available to the Permittees. There is no change to the Project description. CDFW issued the original ITP and approved the Amendment as a responsible agency under the California Environmental Quality Act (CEQA) relying on an environmental impact report and addendum prepared for the Project, as amended, prepared certified, and approved by the lead agency, County of Kern. 2010071064	Escondido General Plan Update, Downtown Specific Plan Update & Climate Action Plan Escondido, City of San Diego--San Diego The Downtown Specific Plan provides a comprehensive plan for land use, development regulations, incentives, design guidelines, pedestrian and mobility improvements and related actions aimed at implementing downtown's strategic goals and is a component of the Citywide General Plan Update.	NOD	
2012052083	Mid-Western Placer Regional Sewer Project Lincoln, City of Lincoln, Auburn--Placer Placer County filed Wastewater Change Petition WW0071 with the State Water Resources Control Board to change the point of discharge, purpose of use, and place of use of 2.6 cubic feet per second (cfs) of treated wastewater. The project includes decommissioning the Sewer Maintenance District No. 1 Wastewater Treatment Plant and constructing a pump station, gravity force main, and other necessary facilities to convey wastewater flows to the City of Lincoln's Wastewater Treatment and Reclamation Facility.	NOD	
2013022018	Swainson's Grassland Preserve Grading Permit (DGP 5049) Placer County Lincoln--Placer The California Department of Fish and Game is executing Lake or Streambed Alteration Agreement number 1600-2012-0156-R2, pursuant to Section 1602 of the Fish and Game code to the project applicant, Westervelt Ecological Services. The project consists solely of restoration activities on 17.58 acre portions of the previously established 469 acre Swainson's Preserve. The project proposes to restore degraded riparian habitat along approximately 1,800 linear feet of an unnamed tributary to Coon Creek, re-establish 5 acres of seasonal wetlands, the re-vegetation of 10 acres of native scrub-shrub wetlands, and the planting of 2 acres of native oak savanna.	NOD	
2013098165	South Placer Municipal Utility District Routine Maintenance: 1600-2013-0075-R2 Fish & Wildlife #2 Rocklin, Loomis--Placer The Permittee performs routine maintenance work to maintain the functional and structural integrity of its facilities. Routine maintenance work, as described in this Agreement includes the following: removing debris, sediment, vegetation, rubbish, downed trees, and other material that could obstruct the natural flow or cause potential damage to existing SPMUD sanitary sewer stream crossings; controlling weeds, grasses, emergent vegetation, and woody vegetation, making repairs to control erosion and stabilize sanitary sewer crossings; and other work necessary to maintain the functional and structural integrity of SPMUD utilities.	NOE	
2013098166	Tarabrook Drive Storm Drain Replacement Project Fish & Wildlife #3 Orinda--Contra Costa The project proposes to install, repair and improve structures to a previously existing storm drain system under Tarabrook Drive. The project proposes to replace an existing 24-inch diameter reinforced concrete pipe with a 36 inch reinforced concrete pipe for a distance of approximately 370 linear feet. A new, gabion headwall structure will be installed, over a previously existing headwall	NOE

	structure that will be abandoned in place. The downstream end will remain in place and a new gabion headwall will be installed.		
2013098167	Sacramento Relocation & Consolidation Fish & Wildlife (HQ) Environmental Services Sacramento--Sacramento Department of Fish and Game is entering into a lease at 1700 9th Street, Sacramento for the overall mission of the department.	NOE	
2013098168	Grant ARV-12-049 "California Clean Fuels Compressed Natural Gas Infrastructure Upgrade Project" Energy Commission Bellflower--Los Angeles The grant ARV-12-049 project upgrades a 24-hour, 7-day per week public access compressed natural gas (CNG) fueling station with a new 2,000 scfm dispenser. This will improve refueling turn-around time and increase the station's throughput of CNG by 414,000 gallons gasoline equivalent annually. The additional displacement of petroleum fuel by CNG is expected to reduce CO 2 emissions by over 1,100 tons per year.	NOE	
2013098169	Lease of existing Rehabilitation, Department of San Marcos--San Diego The California Department of Rehabilitation proposes to lease approximately 6,482 square feet of existing office space. The space would house approximately 30. Approximately 10 parking spaces would be used. Approximately 25-100 clients would be seen weekly. This office will be used as office space for the purpose of counseling disabled clients to retrain for work so they can re-enter the job market. Public transit is available within 1/2 mile of the site.	NOE	
2013098171	Highway Maintenance - Tree Removal Caltrans #5 --San Benito The purpose of the project is to provide a safe travelway for roadway users.	NOE	
2013098172	Santa Rita Creek Urban Greening Project Monterey County Salinas--Monterey This is a native habitat restoration project in an urban setting in an actively managed creek. The purpose of the project is to enhance the creek's habitat by excavating a flood plain, grading and revegetating stream banks, installing erosion control, and planting native trees and shrubs throughout the site. The completed project is intended to stabilize stream banks, restore native riparian vegetation, and provide public education of stream restoration. The beneficiaries of the project are the local residents and users of the park.	NOE	
2013098173	Hangtown Creek Retaining Wall Replacement Project Regional Water Quality Control Board, Region 5 (Central Valley), Sacramento --El Dorado Project consists of replacing a portion of a retaining wall adjacent to Hangtown Creek.	NOE
